CHAPTER 106

[Engrossed Senate Bill No. 3499]

ALTERNATIVE MEDICAL SERVICE PROGRAM FOR MULTIPLY HANDICAPPED CHILDREN

AN ACT Relating to medically fragile children; creating a new chapter in Title 74 RCW; and making an appropriation.

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. Section 1. In recognition of the fact that there is a small population of children with multiple disabilities and specific and continuing medical needs now being served in high-daily-cost hospitals that could be more appropriately and cost-efficiently served in alternative residential alternatives, it is the intent of the legislature to establish a controlled program to develop and review an alternative service delivery system for certain multiply handicapped children who have continuing intensive medical needs but who are not required to continue in residence in a hospital setting.

NEW SECTION. Sec. 2. (1) To be eligible for services under this alternative program, a person must meet all the following criteria:

(a) The individual must be under twenty-two years of age;

(b) The individual must be under the care of a physician and such physician must diagnose the child's condition as sufficiently serious to warrant eligibility;

(c) The individual must be presently residing in, or in immediate jeopardy of residing in, a hospital or other residential medical facility for the purpose of receiving intensive support medical services; and

(d) The individual must fall within one of the four functional/medical definitional categories listed in subsection (2) of this section.

(2) Functional/medical definitional categories:

(a) Respiratory impaired; with an acquired or congenital defect of the oropharynx, trachea, bronchial tree, or lung requiring continuing dependency on a respiratory assistive device in order to allow the disease process to heal or the individual to grow to a sufficient size to live as a normal person;

(b) Respiratory with multiple physical impairments; with acquired or congenital defects of the central nervous system or multiple organ systems requiring continued dependency on a respiratory assistive device and/or other medical, surgical, and physical therapy treatments in order to allow the disease process to heal or the individual to gain sufficient size to permit surgical correction of the defect or the individual to grow large and strong enough and acquire sufficient skills in self-care to allow survival in a nonmedical/therapy intensive environment;

(c) Multiply physically impaired; with congenital or acquired defects of multiple systems and at least some central nervous system impairment that causes loss of urine and stool sphincter control as well as paralysis or loss or reduction of two or more extremities, forcing the individual to be dependent on a wheelchair or other total body mobility device, also requiring medical, surgical, and physical therapy intervention in order to allow the individual to grow to a size that permits surgical correction of the defects or allows the

individual to grow large and strong enough and acquire sufficient skills in self-care to allow survival in a nonmedical/therapy intensive environment;

(d) Static encephalopathies; with severe brain insults of acquired or congenital origin causing the individual to be medically diagnosed as totally dependent for all bodily and social functions except cardiorespiratory so that the individual requires continuous long-term daily medical/nursing care.

NEW SECTION. Sec. 3. (1) A written individual program plan shall be developed for each child served under this controlled program by the division of developmental disabilities in cooperation with the child's parents or if available, legal guardians, and under the supervision of the child's primary health care provider.

(2) The plan shall provide for the systematic provision of all required services. The services to be available as required by the child's individual needs shall include: (a) Nursing care, including registered and licensed practical nurses, and properly trained nurse's aides; (b) physicians, including surgeons, general and family practitioners, and specialists in the child's particular diagnosis on either a referral, consultive, or on-going treatment basis; (c) respiratory therapists and devices; (d) dental care of both routine and emergent nature; (e) on-going nutritional consultation from a trained professional; (f) communication disorder therapy; (g) physical and occupational habilitation and rehabilitation therapy and devices; (h) special and regular education; (i) recreation therapy; (j) psychological counseling; and (k) transportation.

(3) A portion of these required services can be provided from state and local agencies having primary responsibility for such services, but the ultimate responsibility for ensuring and coordinating the delivery of all necessary services shall rest with the division of developmental disabilities.

NEW SECTION. Sec. 4. The department of social and health services, division of developmental disabilities, shall bear all administrative responsibility for the effective and rapid implementation of this controlled program. The division shall promulgate regulations within sixty days after the effective date of this act to provide minimum standards and qualifications for the following program elements:

- (1) Residential services;
- (2) Medical services;
- (3) Day program;
- (4) Facility requirements and accessibility for all buildings in which the program is to be conducted;
- (5) Staff qualifications;
- (6) Staff training;
- (7) Program evaluation; and
- (8) Protection of client's rights, confidentiality, and informed consent.

NEW SECTION. Sec. 5. The division of developmental disabilities shall implement this controlled program through a "request-for-proposal" method and subsequent contracts for services with any local, county, or state agency demonstrating a probable ability to meet the program's goals. The proposals must demonstrate an ability to provide or insure the provision of all services set forth in section 3 of this act if necessary for the children covered by the proposals.

The division of developmental disabilities shall thoroughly supervise, review, and audit fiscal and program performance for the individuals served under this control program. A comparison of all costs incurred by all public agencies for each individual prior to the implementation of this program and all costs incurred after one year under this program shall be made and reported back to the legislature in the 1982 session.

NEW SECTION. Sec. 6. This program or any components necessary to the child shall be available to eligible children at no cost to their parents provided that any medical insurance benefits available to the child for his/her medical condition shall remain liable for payment for his/her cost of care.

NEW SECTION. Sec. 7. The division of medical assistance of the department of social and health services shall transfer one million five hundred thousand dollars, or so much thereof as may be necessary, to the division of developmental disabilities to carry out the purposes of this act during the biennium ending June 30, 1981.

NEW SECTION. Sec. 8. Sections 1 through 6 of this act shall constitute a new chapter in Title 74 RCW.

Passed the Senate February 4, 1980.
