The appropriations in this section are subject to the following conditions and limitations:

- (1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW

28A.150.390. School districts shall ensure, to the greatest extent possible, that special education students receive their appropriate share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education allocation funded in this section.

(2) Each general fund--state fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(3) The superintendent of public instruction shall distribute state funds to school districts based on two categories: The optional birth through age two program for special education eligible developmentally delayed infants and toddlers, and the mandatory special education program for special education eligible students ages three to twenty-one. A "special education eligible student" means a student receiving specially designed instruction in accordance with a properly formulated individualized education program.

(4) For the 1999-00 and 2000-01 school years, the superintendent shall distribute state funds to each district based on the sum of:

(a) A district's annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and

(b) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (5)(c) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(5) The definitions in this subsection apply throughout this section.

(a) "Average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(b) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(c) "Enrollment percent" means the district's resident special education annual average enrollment including those students counted under the special education demonstration projects, excluding the birth through age two enrollment, as a percent of the district's annual average full-time equivalent basic education enrollment. For the 1999-00 and the 2000-01 school years, each district's funded enrollment percent shall be the lesser of the district's actual enrollment percent for the school year for which the allocation is being determined or 12.7 percent.

(6) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be 12.7, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(7) A maximum of \$12,000,000 of the general fund--state appropriation for fiscal year 2000 and a maximum of \$12,000,000 of the general fund--state appropriation for fiscal year 2001 are provided as safety net funding for districts with demonstrated needs for state special education funding beyond the amounts provided in subsection (4) of this section. Safety net funding shall be awarded by the state safety net oversight committee.

(a) The safety net oversight committee shall first consider the needs of districts adversely affected by the 1995 change in the special education funding formula. Awards shall be based on the amount required to maintain the 1994-95 state special education excess cost allocation to the school district in aggregate or on a dollar per funded student basis.

(b) The committee shall then consider unusual needs of districts due to a special education population which differs significantly from the assumptions of the state funding formula. Awards shall be made to districts that convincingly demonstrate need due to the concentration and/or severity of disabilities in the district. Differences in program costs attributable to district philosophy or service delivery style are not a basis for safety

net awards.

(c) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(d) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with Substitute Senate Bill No. 5626 (medicaid payments to schools).

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(f) The superintendent may expend up to \$100,000 per year of the amounts provided in this subsection to provide staff assistance to the committee in analyzing applications for safety net funds received by the committee.

(8) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(9) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) Staff of the office of superintendent of public instruction;

(b) Staff of the office of the state auditor;

(c) Staff of the office of the financial management; and

(d) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(10) To the extent necessary, \$5,500,000 of the general fund--federal appropriation shall be expended for safety net funding to meet the extraordinary needs of one or more individual special education students. If safety net awards to meet the extraordinary needs of one or more individual special education students exceed \$5,500,000 of the general fund--federal appropriation, the superintendent shall expend all available federal discretionary funds necessary to meet this need. General fund--state funds shall not be expended for this purpose.

(11) A maximum of \$678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(12) A maximum of \$1,000,000 of the general fund--federal appropriation is provided for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

(13) A school district may carry over from one year to the next year up to 10 percent of general fund--state funds allocated under this program; however, carry over funds shall be expended in the special education program.

(14) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(15) A maximum of \$1,200,000 of the general fund--federal appropriation may be expended by the superintendent for projects related to use of inclusion strategies by school districts for provision of special education services. The superintendent shall prepare an information database on laws, best practices, examples of programs, and recommended resources. The information may be disseminated in a variety of ways, including workshops and other staff development activities.

### SECOND READING

Representative Boldt moved the adoption of the following amendment (207):

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** It is the intent of the legislature to authorize the department of social and health services to investigate the background of current and future department employees to the same extent and with the same effect as it has authorized the state to investigate the background and exclude from the provision of service current and future care providers, contractors, volunteers, and others. The department of social and health services must coordinate with the department of personnel to develop rules that address the procedures for undertaking background checks, and specifically what action would be taken against a current employee who is disqualified from his or her current position because of a background check not previously performed.

**NEW SECTION. Sec. 2.** A new section is added to chapter 9.96A RCW to read as follows:

This chapter is not applicable to the department of social and health services when employing a person, who in the course of his or her employment, has or may have unsupervised access to any person who is under the age of eighteen, who is under the age of twenty-one and has been sentenced to a term of confinement under the supervision of the department of social and health services under chapter 13.40 RCW, who is a vulnerable adult under chapter 74.34 RCW, or who is a vulnerable person. For purposes of this section "vulnerable person" means an adult of any age who lacks the functional, mental, or physical ability to care for himself or herself.

**Sec. 3.** RCW 28A.400.303 and 1992 c 159 s 2 are each amended to read as follows:

School districts, educational service districts, the state school for the deaf, the state school for the blind, and their contractors hiring employees who will have regularly scheduled unsupervised access to children shall require a record check through the Washington state patrol criminal identification system under RCW 43.43.830 through 43.43.834, 10.97.030, and 10.97.050 and through the federal bureau of investigation before hiring an employee. The record check shall include a fingerprint check using a complete Washington state criminal identification fingerprint card. The requesting entity shall provide a copy of the record report to the applicant. When necessary, applicants may be employed on a conditional basis pending completion of the investigation. If the applicant has had a record check within the previous two years, the district, the state school for the deaf, the state school for the blind, or contractor may waive the requirement. The district, pursuant to chapter 41.59 or 41.56 RCW, the state school for the deaf, the state school for the blind, or contractor hiring the employee shall determine who shall pay costs associated with the record check.

**Sec. 4.** RCW 28A.400.305 and 1996 c 126 s 5 are each amended to read as follows:

The superintendent of public instruction shall adopt rules as necessary under chapter 34.05 RCW on record check information. The rules shall include, but not be limited to the following:

(1) Written procedures providing a school district, state school for the deaf, or state school for the blind employee or applicant for certification or employment access to and review of information obtained based on the

record check required under RCW 28A.400.303 (~~and 28A.400.304~~); and

(2) Written procedures limiting access to the superintendent of public instruction record check data base to only those individuals processing record check information at the office of the superintendent of public instruction, the appropriate school district or districts, the state school for the deaf, the state school for the blind, and the appropriate educational service district or districts.

**Sec. 5.** RCW 43.20A.710 and 2000 c 87 s 2 are each amended to read as follows:

(1) The secretary shall investigate the conviction records, pending charges (~~(¶)~~) and disciplinary board final decisions of:

(a) (~~Persons being considered for state employment in positions directly responsible for the supervision, care, or treatment of~~) Any current employee or applicant seeking or being considered for any position with the department who will or may have unsupervised access to children, vulnerable adults, or individuals with mental illness or developmental disabilities(~~(;~~

~~\_\_\_\_\_ (b) Persons being considered for state employment in positions involving unsupervised access to vulnerable adults to conduct~~). This includes, but is not limited to, positions conducting comprehensive assessments, financial eligibility determinations, licensing and certification activities, investigations, surveys, or case management; or for state positions otherwise required by federal law to meet employment standards;

(~~(¶)~~) (b) Individual providers who are paid by the state and providers who are paid by home care agencies to provide in-home services involving unsupervised access to persons with physical, mental, or developmental disabilities or mental illness, or to vulnerable adults as defined in chapter 74.34 RCW, including but not limited to services provided under chapter 74.39 or 74.39A RCW; and

(~~(¶)~~) (c) Individuals or businesses or organizations for the care, supervision, case management, or treatment of children, developmentally disabled persons, or vulnerable adults, including but not limited to services contracted for under chapter 18.20, 18.48, 70.127, 70.128, 72.36, or 74.39A RCW or Title 71A RCW.

(2) The investigation may include an examination of state and national criminal identification data. The secretary shall use the information solely for the purpose of determining the character, suitability, and competence of these applicants.

(3) An individual provider or home care agency provider who has resided in the state less than three years before applying for employment involving unsupervised access to a vulnerable adult as defined in chapter 74.34 RCW must be fingerprinted for the purpose of investigating conviction records both through the Washington state patrol and the federal bureau of investigation. This subsection applies only with respect to the provision of in-home services funded by medicaid personal care under RCW 74.09.520, community options program entry system waiver services under RCW 74.39A.030, or chore services under RCW 74.39A.110. However, this subsection does not supersede RCW 74.15.030(2)(b).

(4) An individual provider or home care agency provider hired to provide in-home care for and having unsupervised access to a vulnerable adult as defined in chapter 74.34 RCW must have no conviction for a disqualifying crime under RCW 43.43.830 and 43.43.842. An individual or home care agency provider must also have no conviction for a crime relating to drugs as defined in RCW 43.43.830. This subsection applies only with respect to the provision of in-home services funded by medicaid personal care under RCW 74.09.520, community options program entry system waiver services under RCW 74.39A.030, or chore services under RCW 74.39A.110.

(5) The secretary shall provide the results of the background check on individual providers to the persons hiring them or to their legal guardians, if any, for their determination of the character, suitability, and competence of the applicants. If the person elects to hire or retain an individual provider after receiving notice from the department that the applicant has a conviction for an offense that would disqualify the applicant from having unsupervised access to persons with physical, mental, or developmental disabilities or mental illness, or to vulnerable adults as defined in chapter 74.34 RCW, then the secretary shall deny payment for any subsequent services rendered by the disqualified individual provider.

(6) Criminal justice agencies shall provide the secretary such information as they may have and that the secretary may require for such purpose.

**NEW SECTION. Sec. 6.** A new section is added to chapter 41.06 RCW to read as follows:

(1) The board shall amend any existing rules established under RCW 41.06.475 and adopt rules developed in cooperation and agreement with the department of social and health services to implement the provisions of this act.

(2) The legislature's delegation of authority to the agency under this act is strictly limited to:

(a) The minimum delegation necessary to administer the act's clear and unambiguous directives; and

(b) The administration of circumstances and behaviors foreseeable at the time of enactment.

**NEW SECTION. Sec. 7.** A new section is added to chapter 41.06 RCW to read as follows:

The personnel resources board must develop policy recommendations addressing the action that will be taken if a background check result disqualifies an employee from his or her current position. A report of the recommendations developed must be delivered to the legislature by December 1, 2001."

Correct the title.

### SENATE AMENDMENTS TO HOUSE BILL

April 10, 2001

Mr. Speakers:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 1571, with the following amendment:

Strike everything after the enacting clause and insert the following:

**"Sec. 1.** RCW 67.16.200 and 2000 c 223 s 1 are each amended to read as follows:

(1) A racing association licensed by the commission to conduct a race meet may seek approval from the commission to conduct parimutuel wagering on its program at a satellite location or locations within the state of Washington. The sale of parimutuel pools at satellite locations shall be conducted only during the licensee's race meet and simultaneous to all parimutuel wagering activity conducted at the licensee's live racing facility in the state of Washington. The commission's authority to approve satellite wagering at a particular location is subject to the following limitations:

(a) The commission may approve only one satellite location in each county in the state; however, the commission may grant approval for more than one licensee to conduct wagering at each satellite location. A satellite location shall not be operated within twenty driving miles of any class 1 racing facility. For the purposes of this section, "driving miles" means miles measured by the most direct route as determined by the commission; and

(b) A licensee shall not conduct satellite wagering at any satellite location within sixty driving miles of any other racing facility conducting a live race meet.

(2) Subject to local zoning and other land use ordinances, the commission shall be the sole judge of whether approval to conduct wagering at a satellite location shall be granted.

(3) The licensee shall combine the parimutuel pools of the satellite location with those of the racing facility for the purpose of determining odds and computing payoffs. The amount wagered at the satellite location shall be combined with the amount wagered at the racing facility for the application of take out formulas and distribution as provided in RCW 67.16.102, 67.16.105, 67.16.170, and 67.16.175. A satellite extension of the licensee's racing facility shall be subject to the same application of the rules of racing as the licensee's racing facility.

(4) Upon written application to the commission, a class 1 racing association may be authorized to transmit simulcasts of live horse races conducted at its racetrack to locations outside of the state of Washington approved by the commission and in accordance with the interstate horse racing act of 1978 (15 U.S.C. Sec. 3001 to 3007) or any other applicable laws. The commission may permit parimutuel pools on the simulcast races to be combined in a common pool. A racing association that transmits simulcasts of its races to locations outside this state shall pay at least fifty percent of the fee that it receives for sale of the simulcast signal to the horsemen's purse account for its live races after first deducting the actual cost of sending the signal out of state.

(5) Upon written application to the commission, a class 1 racing association may be authorized to transmit simulcasts of live horse races conducted at its racetrack to licensed racing associations located within the state of Washington and approved by the commission for the receipt of the simulcasts. The commission shall permit parimutuel pools on the simulcast races to be combined in a common pool. The fee for in-state, track-to-track simulcasts shall be five and one-half percent of the gross parimutuel receipts generated at the receiving location and payable to the sending racing association. A racing association that transmits simulcasts of its races to other licensed racing associations shall pay at least fifty percent of the fee that it receives for the simulcast signal to the horsemen's purse account for its live race meet after first deducting the actual cost of sending the simulcast signal. A racing association that receives races simulcast from class 1 racing associations within the state shall pay at least fifty percent of its share of the parimutuel receipts to the horsemen's purse account for its live race meet after first deducting the purchase price and the actual direct costs of importing the race.

(6) A class 1 racing association may be allowed to import simulcasts of horse races from out-of-state racing facilities. With the prior approval of the commission, the class 1 racing association may participate in an interstate common pool and may change its commission and breakage rates to achieve a common rate with other participants in the common pool.

(a) The class 1 racing association shall make written application with the commission for permission to import simulcast horse races for the purpose of parimutuel wagering. Subject to the terms of this section, the commission is the sole authority in determining whether to grant approval for an imported simulcast race.

(b) ~~((During the conduct of its race meeting, a class 1 racing association may be allowed to import no more than one simulcast race card program during each live race day.))~~ A licensed racing association may also be approved to import one simulcast race of regional or national interest on each live race day. ~~((A class 1 racing association may be permitted to import two simulcast programs on two nonlive race days per each week during its live meet. A licensee shall not operate parimutuel wagering on more than five days per week. Parimutuel wagering on imported simulcast programs shall only be conducted at the live racing facility of a class 1 racing association.))~~

(c) The commission may allow simulcast races of regional or national interest to be sent to satellite locations. The simulcasts shall be limited to one per day except for Breeder's Cup special events day.

(d) When open for parimutuel wagering, a class 1 racing association which imports simulcast races shall also conduct simulcast parimutuel wagering within its licensed racing enclosure on all races simulcast from other class 1 racing associations within the state of Washington.

(e) ~~((When not conducting a live race meeting, a class 1 racing association may be approved to conduct simulcast parimutuel wagering on imported simulcast races.))~~ The conduct of ~~((simulcast))~~ parimutuel wagering on ~~((the))~~ imported simulcast races shall be for not more than fourteen hours during any twenty-four hour period, for not more than five days per week and only at ~~((its))~~ the live racing facility of a class 1 racing association.

(f) On any imported simulcast race, the class 1 racing association shall pay fifty percent of its share of the parimutuel receipts to the horsemen's purse account for its live race meet after first deducting the purchase price of the imported race and the actual costs of importing the race.

(7) For purposes of this section, a class 1 racing association is defined as a licensee approved by the commission to conduct during each twelve-month period at least forty days of live racing. If a live race day is canceled due to reasons directly attributable to acts of God, labor disruptions affecting live race days but not directly involving the licensee or its employees, or other circumstances that the commission decides are beyond the control of the class 1 racing association, then the canceled day counts toward the forty-day requirement. The commission may by rule increase the number of live racing days required to maintain class 1 racing association status or make other rules necessary to implement this section.

(8) This section does not establish a new form of gaming in Washington or allow expanded gaming within the state beyond what has been previously authorized. Simulcast wagering has been allowed in Washington before April 19, 1997. Therefore, this section does not allow gaming of any nature or scope that was prohibited before April 19, 1997. This section is necessary to protect the Washington equine breeding and racing industries, and in particular those sectors of these industries that are dependent upon live horse racing. The purpose of this section is to protect these industries from adverse economic impacts and to promote fan attendance at class 1 racing facilities. Therefore, imported simulcast race card programs shall not be disseminated to any location outside the live racing facility of the class 1 racing association and a class 1 racing association is strictly prohibited from simulcasting imported race card programs to any location outside its live racing facility."

In line 3 of the title, after "facilities;" strike the remainder of the title and insert "and amending RCW 67.16.200."

and the same is herewith transmitted.

Mr. Speakers:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 1418, with the following amendment:

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** (1) It is declared to be the public policy of the state of Washington to promote and facilitate the orderly development and economic stability of its communities. Local governments need the ability to raise revenue to finance public improvements that are designed to encourage economic growth and development in geographic areas characterized by high levels of unemployment and stagnate employment and income growth. The construction of necessary public improvements in accordance with local economic development plans will encourage investment in job-producing private development and expand the public tax base.

(2) It is the purpose of this chapter:

(a) To encourage taxing districts to cooperate in the allocation of future tax revenues that are used to finance public improvements designed to encourage private development in selected areas, in particular in those local governments that are located adjacent to another state or international border;

(b) To assist those local governments that have a competitive disadvantage in its ability to attract business, private investment, or commercial development due to its location near a state or international border; and

(c) To prevent or arrest the decay of selected areas due to the inability of existing financial methods to provide needed public improvements, and to encourage private investment designed to promote and facilitate the orderly redevelopment of selected areas.

**NEW SECTION. Sec. 2.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Assessed value of real property" means the valuation of real property as placed on the last completed assessment roll.

(2) "Local government" means any city, town, county, port district, or any combination thereof.

(3) "Ordinance" means any appropriate method of taking legislative action by a local government.

(4) "Public improvements" means:

(a) Infrastructure improvements within the increment area that include:

(i) Street and road construction and maintenance;

(ii) Water and sewer system construction and improvements;

(iii) Sidewalks and streetlights;

(iv) Parking, terminal, and dock facilities;

(v) Park and ride facilities of a transit authority;

- (vi) Park facilities and recreational areas; and
- (vii) Storm water and drainage management systems; and
- (b) Expenditures for any of the following purposes:

(i) Providing environmental analysis, professional management, planning, and promotion within the increment area, including the management and promotion of retail trade activities in the increment area;

(ii) Providing maintenance and security for common or public areas in the increment area; or

(iii) Historic preservation activities authorized under RCW 35.21.395.

(5) "Public improvement costs" means the costs of: (a) Design, planning, acquisition, site preparation, construction, reconstruction, rehabilitation, improvement, and installation of public improvements; (b) relocating, maintaining, and operating property pending construction of public improvements; (c) relocating utilities as a result of public improvements; (d) financing public improvements, including interest during construction, legal and other professional services, taxes, insurance, principal and interest costs on general indebtedness issued to finance public improvements, and any necessary reserves for general indebtedness; (e) assessments incurred in revaluing real property for the purpose of determining the tax allocation base value that are in excess of costs incurred by the assessor in accordance with the revaluation plan under chapter 84.41 RCW, and the costs of apportioning the taxes and complying with this chapter and other applicable law; and (f) administrative expenses and feasibility studies reasonably necessary and related to these costs, including related costs that may have been incurred before adoption of the ordinance authorizing the public improvements and the use of community revitalization financing to fund the costs of the public improvements.

**NEW SECTION. Sec. 3.** A local government may finance public improvements using community revitalization financing subject to the following conditions:

(1) The local government adopts an ordinance designating an increment area within its boundaries and specifying the public improvements proposed to be financed in whole or in part with the use of community revitalization financing;

(2) The public improvements proposed to be financed in whole or in part using community revitalization financing are expected to encourage private development within the increment area and to increase the fair market value of real property within the increment area;

(3) Private development that is anticipated to occur within the increment area, as a result of the public improvements, will be consistent with the countywide planning policy adopted by the county under RCW 36.70A.210 and the local government's comprehensive plan and development regulations adopted under chapter 36.70A RCW;

(4) Taxing districts, in the aggregate, that levy at least seventy-five percent of the regular property tax within which the increment area is located approves the community revitalization financing of the project under section 5(1) of this act; and

(5) In an increment area that includes any portion of a fire protection district as defined in Title 52 RCW, the fire protection district must approve their participation in the community revitalization financing of the project under this act. Approval by the fire protection district shall be considered as part of the required participation by taxing districts under subsection (4) of this section.

**NEW SECTION. Sec. 4.** Public improvements that are financed with community revitalization financing may be undertaken and coordinated with other programs or efforts undertaken by the local government and other taxing districts and may be funded in part from revenue sources other than community revitalization financing.

**NEW SECTION. Sec. 5.** Before adopting an ordinance creating the increment area, a local government must:

(1) Obtain written agreement for the use of community revitalization financing to finance all or a portion of the costs of the designated public improvements from taxing districts that, in the aggregate, levy at least seventy-five percent of the regular property tax on property within the increment area. A signed, written agreement from taxing districts that in the aggregate levy at least seventy-five percent of the regular property tax within the increment area, constitutes concurrence by all taxing districts in the increment area in the public improvement and participation in the public improvement to the extent of providing limited funding under community revitalization financing authorized under this chapter. The agreement must be authorized by the governing body of taxing districts that in the aggregate levy at least seventy-five percent of the regular property tax on property within the increment area;

(2) Hold a public hearing on the proposed financing of the public improvement in whole or in part with community revitalization financing. Notice of the public hearing must be published in a legal newspaper of general circulation within the proposed increment area at least ten days before the public hearing and posted in at least six conspicuous public places located in the proposed increment area. Notices must describe the contemplated public improvements, estimate the costs of the public improvements, describe the portion of the costs of the public improvements to be borne by community revitalization financing, describe any other sources of revenue to finance the public improvements, describe the boundaries of the proposed increment area, and estimate the period during which community revitalization financing is contemplated to be used. The public hearing may be held by either the governing body of the local government, or a committee of the governing body that includes at least a majority of the whole governing body; and

(3) Adopt an ordinance establishing the increment area that describes the public improvements, describes the boundaries of the increment area, estimates the cost of the public improvements and the portion of these costs to be financed by community revitalization financing, estimates the time during which regular property taxes are to be apportioned, provides the date when the apportionment of the regular property taxes will commence, and finds that the conditions of section 3 of this act are met.

**NEW SECTION. Sec. 6.** The local government shall:

(1) Publish notice in a legal newspaper of general circulation within the increment area that describes the public improvement, describes the boundaries of the increment area, and identifies the location and times where the ordinance and other public information concerning the public improvement may be inspected; and

(2) Deliver a certified copy of the ordinance to the county treasurer, the county assessor, and the governing body of each taxing district within which the increment area is located.

**NEW SECTION. Sec. 7.** (1) Commencing in the calendar year following the passage of the ordinance, the county treasurer shall distribute receipts from regular taxes imposed on real property located in the increment area as follows:

(a) Each taxing district shall receive that portion of its regular property taxes produced by the rate of tax

levied by or for the taxing district on the tax allocation base value for that community revitalization financing project in the taxing district, or upon the total assessed value of real property in the taxing district, whichever is smaller; and

(b) The local government that created the increment area shall receive an additional portion of the regular property taxes levied by or for each taxing district upon the increment value within the increment area. However, the local government that created the increment area may agree to receive less than the full amount of this portion as long as bond debt service, reserve, and other bond covenant requirements are satisfied, in which case the balance of these tax receipts shall be allocated to the taxing districts that imposed regular property taxes, or have regular property taxes imposed for them, in the increment area for collection that year in proportion to their regular tax levy rates for collection that year. The local government may request that the treasurer transfer this additional portion of the property taxes to its designated agent. The portion of the tax receipts distributed to the local government or its agent under this subsection (1)(b) may only be expended to finance public improvement costs associated with the public improvements financed in whole or in part by community revitalization financing.

(2) The county assessor shall allocate twenty-five percent of any increased real property value occurring in the increment area to the tax allocation base value and seventy-five percent to the increment value. This section does not authorize revaluations of real property by the assessor for property taxation that are not made in accordance with the assessor's revaluation plan under chapter 84.41 RCW or under other authorized revaluation procedures.

(3) The apportionment of increases in assessed valuation in an increment area, and the associated distribution to the local government of receipts from regular property taxes that are imposed on the increment value, must cease when tax allocation revenues are no longer necessary or obligated to pay the costs of the public improvements. Any excess tax allocation revenues and earnings on the tax allocation revenues remaining at the time the apportionment of tax receipts terminates must be returned to the county treasurer and distributed to the taxing districts that imposed regular property taxes, or had regular property taxes imposed for it, in the increment area for collection that year, in proportion to the rates of their regular property tax levies for collection that year.

**NEW SECTION. Sec. 8.** (1) A local government designating an increment area and authorizing the use of community revitalization financing may incur general indebtedness, and issue general obligation bonds, to finance the public improvements and retire the indebtedness in whole or in part from tax allocation revenues it receives, subject to the following requirements:

(a) The ordinance adopted by the local government creating the increment area and authorizing the use of community revitalization financing indicates an intent to incur this indebtedness and the maximum amount of this indebtedness that is contemplated; and

(b) The local government includes this statement of the intent in all notices required by section 5 of this act.

(2) The general indebtedness incurred under subsection (1) of this section may be payable from other tax revenues, the full faith and credit of the local government, and nontax income, revenues, fees, and rents from the public improvements, as well as contributions, grants, and nontax money available to the local government for payment of costs of the public improvements or associated debt service on the general indebtedness.

(3) In addition to the requirements in subsection (1) of this section, a local government designating an increment area and authorizing the use of community revitalization financing may require the nonpublic participant to provide adequate security to protect the public investment in the public improvement within the increment area.

**NEW SECTION. Sec. 9.** A direct or collateral attack on a public improvement, public improvement ordinance, or increment area purported to be authorized or created in conformance with applicable legal requirements, including this chapter, may not be commenced more than thirty days after publication of notice as required by section 6 of this act.

The total annual cost for each county will be based on the established statewide cost per mile and associated mileage for each category. The mileage to be used for these computations shall be as shown in the county road log as maintained by the county road administration board as of July 1, 1985, and each two years thereafter. Each county shall be responsible for submitting changes, corrections, and deletions as regards the county road log to the county road administration board. Upon computation of the actual allocation factors of the several counties, the county road administration board shall provide such factors to the state treasurer to be used in the computation of the counties' fuel tax allocation for the succeeding calendar year. The state treasurer shall adjust the fuel tax allocation of each county on January 1st of every year based solely upon the information provided by the county road administration board.

requires the development of a procedure for the selection and utilization of sites for energy facilities and the identification of a state position with respect to each proposed site. The legislature recognizes that the selection of sites will have a significant impact upon the welfare of the population, the location and growth of industry and the use of the natural resources of the state.

It is the policy of the state of Washington to recognize the pressing need for increased energy facilities, and to ensure through available and reasonable methods, that the location and operation of such facilities will produce minimal adverse effects on the environment, ecology of the land and its wildlife, and the ecology of state waters and their aquatic life.

It is the intent to seek courses of action that will balance the increasing demands for energy facility location and operation in conjunction with the broad interests of the public. Such action will be based on these premises:

(1) To assure Washington state citizens that, where applicable, operational safeguards are at least as stringent as the criteria established by the federal government and are technically sufficient for their welfare and protection.

(2) To preserve and protect the quality of the environment; to enhance the public's opportunity to enjoy the esthetic and recreational benefits of the air, water and land resources; to promote air cleanliness; and to pursue beneficial changes in the environment.

(3) To provide abundant energy at reasonable cost.

(4) To avoid costs of complete site restoration and demolition of improvements and infrastructure at unfinished nuclear energy sites, and to use unfinished nuclear energy facilities for public uses, including economic development, under the regulatory and management control of local governments and port districts.

(5) To avoid costly duplication in the siting process and ensure that decisions are made timely and without unnecessary delay.

"Direct service industrial customer" includes a person who is a subsidiary that is more than fifty percent owned by a direct service industrial customer and who receives power from the Bonneville Power Administration pursuant to the parent's contract for power.

(b) "Facility" means a gas turbine electrical generation facility that does not exist on the effective date of this section and is owned by a direct service industrial customer for the purpose of producing electricity to be consumed by the direct service industrial customer.

(c) "Average annual employment" means the total employment in this state for a calendar year at the direct service industrial customer's location where electricity from the facility will be consumed.

(2) Effective July 1, 2001, a credit is allowed against the tax due under this chapter to a direct service

industrial customer who purchases natural or manufactured gas from a gas distribution business subject to the public utility tax under chapter 82.16 RCW. The credit is equal to the value of natural or manufactured gas purchased from a gas distribution business and used to generate electricity at the facility multiplied by the rate in effect for the public utility tax on gas distribution businesses under RCW 82.16.020. This credit may be used each reporting period for sixty months following the first month natural or manufactured gas was purchased from a gas distribution business by a direct service industrial customer who constructs a facility.

(3) Application for credit shall be made by the direct service industrial consumer before the first purchase of natural or manufactured gas. The application shall be in a form and manner prescribed by the department and shall include but is not limited to information regarding the location of the facility, the projected date of first purchase of natural or manufactured gas to generate electricity at the facility, the date construction is projected to begin or did begin, the applicant's average annual employment in the state for the six calendar years immediately preceding the year in which the application is made, and affirm the applicant's status as a direct service industrial customer. The department shall rule on the application within thirty days of receipt.

(4) Credit under this section is limited to the amount of tax imposed under this chapter. Refunds shall not be given in place of credits and credits may not be carried over to subsequent calendar years.

(5) All or part of the credit shall be disallowed and must be paid if the average of the direct service industrial customer's average annual employment for the five calendar years subsequent to the calendar year containing the first month of purchase of natural or manufactured gas to generate electricity at a facility is less than the six-year average annual employment stated on the application for credit under this section. The direct service industrial customer will certify to the department by June 1st of the sixth calendar year following the calendar year in which the month of first purchase of gas occurs the average annual employment for each of the five prior calendar years. All or part of the credit that shall be disallowed and must be paid is commensurate with the decrease in the five-year average of average annual employment as follows:

Decrease in Average Annual Employment Over

<u>Five-Year Period</u>	<u>% of Credit to be Paid</u>
Less than 10%	10%
10% or more but less than 25% .....	25%
25% or more but less than 50% .....	50%
50% or more but less than 75% .....	75%
75% or more	100%

(6)(a) The direct service industrial customer shall begin paying the credit that is disallowed and is to be paid in the sixth calendar year following the calendar year in which the month following the month of first purchase of natural or manufactured gas to generate electricity at the facility occurs. The first payment will be due on or before December 31st with subsequent annual payments due on or before December 31st of the following four years according to the following schedule:

<u>Payment Year</u>	<u>% of Credit to be Paid</u>
	110%
	215%
	320%
	425%
	530%

(b) The department may authorize an accelerated payment schedule upon request of the taxpayer.

(c) Interest shall not be charged on the credit that is disallowed for the sixty-month period the credit may be taken, although all other penalties and interest applicable to delinquent excise taxes may be assessed and imposed. The debt for credit that is disallowed and must be paid will not be extinguished by insolvency or other failure of the direct service industrial customer. Transfer of ownership of the facility does not affect eligibility

for this credit. However, the credit is available to the successor only if the eligibility conditions of this section are met.

(7) The employment security department shall make, and certify to the department of revenue, all determinations of employment under this section as requested by the department.

(8) A person claiming this credit shall supply to the department quarterly reports containing information necessary to document the total volume of natural or manufactured gas purchased in the quarter, the value of that total volume, and the percentage of the total volume used to generate electricity at the facility.

**NEW SECTION. Sec. 12.** A new section is added to chapter 82.32 RCW to read as follows:

(1) The total combined credits and deferrals that may be taken under sections 9 through 11 of this act shall not exceed two million five hundred thousand dollars in any fiscal year. Each person is limited to no more than a total of one million five hundred thousand dollars in tax deferred and credit allowed in any fiscal year in which more than one person takes tax credits and claims tax deferral. The department may require reporting of the credits taken and amounts deferred in a manner and form as is necessary to keep a running total of the amounts.

(2) Credits and deferred tax are available on a first come basis. Priority for tax credits and deferrals among approved applicants shall be designated based on the first actual consumption of gas under section 9 or 10 of this act, or on the first actual use of electricity under section 11 of this act by each approved applicant. The department shall disallow any credits or deferred tax, or portion thereof, that would cause the total amount of credits taken and deferred taxes claimed to exceed the fiscal year cap or to exceed the per person fiscal year cap. If the fiscal cap is reached or exceeded the department shall notify those persons who have approved applications under sections 9 through 11 of this act that no more credits may be taken or tax deferred during the remainder of the fiscal year. In addition, the department shall provide written notice to any person who has taken any tax credits or claimed any deferred tax in excess of the fiscal year cap. The notice shall indicate the amount of tax due and shall provide that the tax be paid within thirty days from the date of such notice.

(3) No portion of an application for credit or deferral disallowed under this section may be carried back or carried forward nor may taxes ineligible for credit or deferral due to the fiscal cap having been reached or exceeded be carried forward or carried backward.

(1) Unless the context clearly requires otherwise, the definitions in this subsection apply throughout this section.

(a) "Base credit" means the maximum amount of credit against the tax imposed by this chapter that each light and power business or gas distribution business may take each fiscal year as calculated by the department. The base credit is equal to the proportionate share that the total grants received by each light and power business or gas distribution business in the prior fiscal year bears to the total grants received by all light and power businesses and gas distribution businesses in the prior fiscal year multiplied by two million five hundred thousand dollars.

(b) "Billing discount" means a reduction in the amount charged for providing service to qualifying persons in Washington made by a light and power business or a gas distribution business. Billing discount does not include grants received by the light and power business or a gas distribution business.

(d) The balance of base credits not used by other light and power businesses and gas distribution businesses shall be ratably distributed to applicants under the formula in subsection (1)(a) of this section. The total amount of credit that may be taken by an applicant is the base credit plus any ratable portion of unused base credit.

(5) The credit taken under this section is limited to the amount of tax imposed under this chapter for the fiscal year. The credit must be claimed in the fiscal year in which the billing reduction is made. Any unused credit expires. Refunds shall not be given in place of credits.

(6) No credit may be taken for billing discounts made before July 1, 2001. Within two weeks of the effective date of this section, the department of community, trade, and economic development shall notify the department of revenue in writing of the grants received in fiscal year 2001 by each light and power business and gas distribution business. Within four weeks of the effective date of this section, the department of revenue shall publish the base credit for each light and power business and gas distribution business for fiscal year 2002. Within eight weeks of the effective date of this section, application to the department must be made showing the information required in subsection (4)(b) of this section. Within twelve weeks of the effective date of this section, the department shall notify each applicant of the amount of credit that may be taken in fiscal year 2002.

**NEW SECTION. Sec. 14.** (1) The legislature hereby finds that:

(a) The economy of the state and the health, safety, and welfare of its citizens are threatened by the current energy supply and price instabilities;

(b) Many energy efficiency programs for public buildings launched during the 1970s and 1980s were not

maintained during the subsequent sustained period of low energy costs and abundant supply; and

The legislature hereby finds:

(1) That major publicly owned or leased facilities have a significant impact on our state's consumption of energy;

(2) That energy conservation practices including energy management systems and renewable energy systems adopted for the design, construction, and utilization of such facilities will have a beneficial effect on our overall supply of energy;

(3) That the cost of the energy consumed by such facilities over the life of the facilities shall be considered in addition to the initial cost of constructing such facilities;

(4) That the cost of energy is significant and major facility designs shall be based on the total life-cycle cost, including the initial construction cost, and the cost, over the economic life of a major facility, of the energy consumed, and of the operation and maintenance of a major facility as they affect energy consumption; and

(5) That the use of energy systems in these facilities which utilize renewable resources such as solar energy, wood or wood waste, or other nonconventional fuels (~~should~~), and which incorporate energy management systems, shall be considered in the design of all publicly owned or leased facilities.

**NEW SECTION. Sec. 22.** A new section is added to chapter 39.35C RCW to read as follows:

(1) Except as provided in subsections (2) and (3) of this section, each school district shall conduct an

energy audit of its facilities. This energy audit may be conducted by contract or by other arrangement, including appropriate district staff. Performance-based contracting shall be the preferred method for implementing and completing energy audits.

(a) For each district facility, the energy consumption surveys shall be completed no later than December 31, 2001, and the walk-through surveys shall be completed no later than October 1, 2002. Upon completion of each walk-through survey, the district shall implement energy conservation maintenance and operation procedures that may be identified for any district facility. These procedures shall be implemented as soon as possible, but not later than twelve months after the walk-through survey.

(b) Except as provided in subsection (3) of this section, if a walk-through survey has identified potentially cost-effective energy conservation measures, the district shall undertake an investment grade audit of the facility. Investment grade audits shall be completed no later than June 30, 2003, and installation of cost-effective conservation measures recommended in the investment grade audit shall be completed no later than December 31, 2004.

**Sec. 23.** RCW 43.19.668 and 1993 c 204 s 6 are each amended to read as follows:

The legislature finds and declares that the buildings, facilities, equipment, and vehicles owned or leased by state government consume significant amounts of energy and that energy conservation actions, including energy management systems, to provide for efficient energy use in these buildings, facilities, equipment, and vehicles will reduce the costs of state government. In order for the operations of state government to provide the citizens of this state an example of energy use efficiency, the legislature further finds and declares that state government should undertake an aggressive program designed to reduce energy use in state buildings, facilities, equipment, and vehicles within a reasonable period of time. The use of appropriate tree plantings for energy conservation is encouraged as part of this program.

**Sec. 24.** RCW 43.19.669 and 1980 c 172 s 2 are each amended to read as follows:

It is the purpose of RCW 43.19.670 through 43.19.685 to require energy audits in state-owned buildings, to require energy audits as a lease condition in all new, renewed, and renegotiated leases of buildings by the state, to undertake such modifications and installations as are necessary to maximize the efficient use of energy in these buildings, including but not limited to energy management systems, and to establish a policy for the purchase of state vehicles, equipment, and materials which results in efficient energy use by the state.

For a building that is leased by the state, energy audits and implementation of cost-effective energy conservation measures are required only for that portion of the building that is leased by the state when the state leases less than one hundred percent of the building. When implementing cost-effective energy conservation measures in buildings leased by the state, those measures must generate savings sufficient to finance the building modifications and installations over a loan period not greater than ten years and allow repayment during the term of the lease.

**Sec. 25.** RCW 43.19.670 and 1982 c 48 s 1 are each amended to read as follows:

(1) "Energy audit" means a determination of the energy consumption characteristics of a facility which consists of the following elements:

(a) An energy consumption survey which identifies the type, amount, and rate of energy consumption of

the facility and its major energy systems. This survey shall be made by the agency responsible for the facility.

(b) A walk-through survey which determines appropriate energy conservation maintenance and operating procedures and indicates the need, if any, for the acquisition and installation of energy conservation measures and energy management systems. This survey shall be made by the agency responsible for the facility if it has technically qualified personnel available. The director of general administration shall provide technically qualified personnel to the responsible agency if necessary.

(c) ~~((A technical assistance study))~~ An investment grade audit, which is an intensive engineering analysis of energy conservation and management measures for the facility, net energy savings, and a cost-effectiveness determination. This element is required only for those facilities designated in the ~~((technical assistance study))~~ schedule adopted under RCW 43.19.680~~((3))~~ (2).

(l) Such other measures as the director finds will save a substantial amount of energy.

~~((3))~~ (4) "Energy conservation maintenance and operating procedure" means modification or modifications in the maintenance and operations of a facility, and any installations within the facility, which are designed to reduce energy consumption in the facility and which require no significant expenditure of funds.

~~((4))~~ (5) "Energy management system" has the definition contained in RCW 39.35.030.

(6) "Energy savings performance contracting" means the process authorized by chapter 39.35C RCW by which a company contracts with a state agency to conduct no-cost energy audits, guarantee savings from energy efficiency, provide financing for energy efficiency improvements, install or implement energy efficiency improvements, and agree to be paid for its investment solely from savings resulting from the energy efficiency improvements installed or implemented.

(7) "Energy service company" means a company or contractor providing energy savings performance contracting services.

For each state-owned facility, the director of general administration, ((in cooperation with the director of the state energy office)) or the agency responsible for the facility if other than the department of general administration, shall conduct((by contract or other arrangement,)) an energy audit ((for each state owned)) of that facility. ((All energy audits shall be coordinated with and complement other governmental energy audit programs. The energy audit for each state owned facility located on the capitol campus shall be completed no later than July 1, 1981, and the results and findings of each energy audit shall be compiled and transmitted to the governor and the legislature no later than October 1, 1981.)) This energy audit may be conducted by contract or by other arrangement, including appropriate agency staff. Performance-based contracting shall be the preferred method for implementing and completing energy audits. For ((every other)) each state-owned facility, the energy consumption surveys shall be completed no later than October 1, ((1982)) 2001, and the walk-through surveys shall be completed no later than July 1, ((1983)) 2002.

(1) Upon completion of each walk-through survey required by RCW 43.19.675, the director of general administration or the agency responsible for the facility if other than the department of general administration shall implement energy conservation maintenance and operation procedures that may be identified for any state-owned facility. These procedures shall be implemented as soon as possible but not later than twelve months after the walk-through survey.

(2) ~~((By December 31, 1981, for the capitol campus the director of general administration shall prepare and transmit to the governor and the legislature an implementation plan.))~~ If a walk-through survey has identified potentially cost-effective energy conservation measures, the agency responsible for the facility shall undertake an investment grade audit of the facility. Investment grade audits shall be completed no later than December 1, 2002. Installation of cost-effective energy conservation measures recommended in the investment grade audit shall be completed no later than June 30, 2004.

(3) ~~((By December 31, 1983, for all other state owned facilities, the director of general administration shall prepare and transmit to the governor and the legislature the results of the energy consumption and walk-through surveys and a schedule for the conduct of technical assistance studies. This submission shall contain the energy conservation measures planned for installation during the ensuing biennium. Priority considerations for scheduling technical assistance studies shall include but not be limited to a facility's energy efficiency, responsible agency participation, comparative cost and type of fuels, possibility of outside funding, logistical considerations such as possible need to vacate the facility for installation of energy conservation measures, coordination with other planned facility modifications, and the total cost of a facility modification, including other work which would have to be done as a result of installing energy conservation measures. Energy conservation measure acquisitions and installations shall be scheduled to be twenty five percent complete by June 30, 1985, or at the end of the capital budget biennium which includes that date, whichever is later, fifty five percent complete by June 30, 1989, or at the end of the capital budget biennium which includes that date, whichever is later, eighty five percent complete by June 30, 1993, or at the end of the capital budget biennium which includes that date, whichever is later, and fully complete by June 30, 1995, or at the end of the capital budget biennium which includes that date, whichever is later. Each state agency shall implement energy conservation measures with a payback period of twenty four months or less that have a positive cash flow in the same biennium.))~~

For each biennium until all measures are installed, the director of general administration shall report to the governor and legislature installation progress, measures planned for installation during the ensuing biennium~~((, and changes, if any, to the technical assistance study schedule))~~. This report shall be submitted by December 31, ~~((1984))~~ 2004, or at the end of the following year whichever immediately precedes the capital budget adoption, and every two years thereafter until all measures are installed.

(4) ~~((The director of general administration shall adopt rules to facilitate private investment in energy conservation measures for state owned buildings consistent with state law.))~~ Agencies may contract with energy service companies as authorized by chapter 39.35C RCW for energy audits and implementation of cost-effective

**NEW SECTION. Sec. 28.** A new section is added to chapter 19.29A RCW to read as follows:

(1) Beginning January 1, 2002, each electric utility must provide to its retail electricity customers a voluntary option to purchase qualified alternative energy resources in accordance with this section.

(2) Each electric utility must include with its retail electric customer's regular billing statements, at least quarterly, a voluntary option to purchase qualified alternative energy resources. The option may allow customers to purchase qualified alternative energy resources at fixed or variable rates and for fixed or variable periods of time, including but not limited to monthly, quarterly, or annual purchase agreements. A utility may provide qualified alternative energy resource options through either: (a) Resources it owns or contracts for; or (b) the purchase of credits issued by a clearinghouse or other system by which the utility may secure, for trade or other consideration, verifiable evidence that a second party has a qualified alternative energy resource and that the second party agrees to transfer such evidence exclusively to the benefit of the utility.

(3) For the purposes of this section, a "qualified alternative energy resource" means the electricity produced from generation facilities that are fueled by: (a) Wind; (b) solar energy; (c) geothermal energy; (d) landfill gas; (e) wave or tidal action; (f) gas produced during the treatment of wastewater; (g) qualified hydropower; or (h) biomass energy based on solid organic fuels from wood, forest, or field residues, or dedicated energy crops that do not include wood pieces that have been treated with chemical preservatives such as creosote, pentachlorophenol, or copper-chrome-arsenic.

(4) For the purposes of this section, "qualified hydropower" means the energy produced either: (a) As a result of modernizations or upgrades made after June 1, 1998, to hydropower facilities operating on the effective date of this section that have been demonstrated to reduce the mortality of anadromous fish; or (b) by run of the river or run of the canal hydropower facilities that are not responsible for obstructing the passage of anadromous fish.

(5) The rates, terms, conditions, and customer notification of each utility's option or options offered in accordance with this section must be approved by the governing body of the consumer-owned utility or by the commission for investor-owned utilities. All costs and benefits associated with any option offered by an electric utility under this section must be allocated to the customers who voluntarily choose that option and may not be shifted to any customers who have not chosen such option.

(6) Each consumer-owned utility must report annually to the department and each investor-owned utility must report annually to the commission beginning October 1, 2002, until October 1, 2012, describing the option or options it is offering its customers under the requirements of this section, the rate of customer participation, the amount of qualified alternative energy resources purchased by customers, and the amount of utility investments in qualified alternative energy resources. The department and the commission together shall report annually to the legislature, beginning December 1, 2002, until December 1, 2012, with the results of the utility reports.

**NEW SECTION. Sec. 32.** A new section is added to chapter 82.34 RCW to read as follows:

(1) The following definitions apply throughout this section:

(a) "Qualifying facility" means an air pollution control facility as that term is defined in RCW 82.34.010(1)(a) to be installed or acquired for a thermal electric peaking plant with a capacity of less than one hundred megawatts and which is approved pursuant to the Washington clean air act, chapter 70.94 RCW.

Upon written request of a light and power business to which the approval issued under chapter 70.94 RCW is attached, the department shall make a determination as to whether a plant is a thermal electric peaking plant acquiring or installing a qualifying facility eligible under this section. The department shall consult with the department of community, trade, and economic development and the department of ecology in making the determination. If the determination is in the affirmative, the department shall issue the light and power business a sales and use tax exemption certificate in a form and manner as deemed appropriate by the department.

(3) The charges for installation or acquisition of a qualifying facility by the holder of the certificate are exempt from sales tax imposed under chapter 82.08 RCW and use tax imposed under chapter 82.12 RCW. (4) The exemption in this section is limited to the installation or acquisition of a qualifying facility and does not apply to servicing, maintenance, operation, or repairs of a thermal electric peaking plant or of an air pollution control facility.

(5) This section expires June 30, 2003.

**NEW SECTION. Sec. 33.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

#### **Creating the K-12 academic achievement and accountability act.**

The bill was read the second time.

Representative Talcott moved the adoption of the following amendment (208):

Strike everything after the enacting clause and insert the following:

**"Sec. 1.** RCW 28A.655.030 and 1999 c 388 s 102 are each amended to read as follows:

The powers and duties of the academic achievement and accountability commission shall include, but are not limited to the following:

(1) For purposes of statewide accountability, the commission shall:

(a) Adopt and revise:

(i) Performance improvement goals in reading, writing, science, and mathematics by subject and grade level as the commission deems appropriate to improve student learning, once assessments in these subjects are required statewide. The goals shall be in addition to any goals adopted in RCW 28A.655.050. The commission may also revise any goal adopted in RCW 28A.655.050;

(ii) Goals for dropout rates and reduction of dropout rates for middle schools, junior high schools, and high schools, if the superintendent of public instruction develops common definitions; and

(iii) Goals designed to accelerate the achievement of students who are disproportionately underachieving academically. The commission shall adopt the goals by rule. However, before each goal is implemented, the commission shall present the goal to the education committees of the house of representatives and the senate for the committees' review and comment in a time frame that will permit the legislature to take statutory action on the goal if such action is deemed warranted by the legislature;

(b) Identify the scores students must achieve in order to meet the standard on the Washington assessment of student learning and determine student scores that identify levels of student performance below and beyond the standard. The commission shall set such performance standards and levels in consultation with the superintendent of public instruction and after consideration of any recommendations that may be developed by any advisory committees that may be established for this purpose;

(c) Adopt objective, systematic criteria to identify successful schools and school districts and recommend to the superintendent of public instruction schools and districts to be recognized for two types of accomplishments, student achievement and improvements in student achievement. Recognition for improvements in student achievement shall include consideration of one or more of the following accomplishments:

(i) An increase in the percent of students meeting standards. The level of achievement required for recognition may be based on the achievement goals established by the legislature under RCW 28A.655.050 and the commission under (a) of this subsection;

(ii) Positive progress on an improvement index that measures improvement in all levels of the assessment; and

(iii) Improvements despite challenges such as high levels of mobility, poverty, English as a second language learners, and large numbers of students in special populations as measured by either the percent of students meeting the standard, or the improvement index.

When determining the baseline year or years for recognizing individual schools, the commission may use the assessment results from the initial years the assessments were administered, if doing so with individual schools would be appropriate;

(d) Adopt objective, systematic criteria to identify schools and school districts in need of state assistance ~~((and those in which))~~ due to significant numbers of students persistently ~~((fail))~~ failing to meet state standards. In its deliberations, the commission shall consider the use of performance improvement goals and all statewide mandated criterion-referenced and norm-referenced standardized tests;

(e) Identify, based on the commission's criteria and the level of available appropriations, schools and school districts in which state ~~((intervention measures))~~ assistance will be ~~((needed and a range of appropriate intervention strategies, beginning no earlier than June 30, 2001, and after the legislature has authorized a set of intervention strategies. Beginning no earlier than June 30, 2001, and after the legislature has authorized a set of intervention strategies, at the request of the commission, the superintendent shall intervene in the school or school district and take corrective actions. This chapter does not provide additional authority for the commission or the superintendent of public instruction to intervene in a school or school district))~~ available;

(f) Adopt student performance and improvement thresholds for use in evaluating school and district progress under state assistance and superintendent of public instruction intervention;

(i) For schools identified during the 2001-02 or 2002-03 school years, for the first three years in state assistance or superintendent of public instruction intervention, the threshold shall be based on the school's

progress toward reading improvement goals adopted under (a)(i) of this subsection and a minimum percentile score, as adopted by the commission, on statewide mandated norm-referenced standardized tests;

(i) For schools identified during the 2003-04 school year or in subsequent years, the threshold shall be based on the school's progress toward all performance improvement goals adopted under (a)(i) of this subsection and a minimum percentile score, as adopted by the commission, on statewide mandated norm-referenced standardized tests;

(g) Identify performance incentive systems that have improved or have the potential to improve student achievement;

~~((g))~~ (h) Annually review the assessment reporting system to ensure fairness, accuracy, timeliness, and equity of opportunity, especially with regard to schools with special circumstances and unique populations of students, and ~~((a recommendation))~~ recommend to the superintendent of public instruction ~~((of))~~ any improvements needed to the system;

~~((h))~~ (i) Annually report by December 1st to the legislature, the governor, the superintendent of public instruction, and the state board of education on the progress, findings, and recommendations of the commission. The report may include recommendations of actions to help improve student achievement;

~~((i))~~ (j) By December 1, 2000, and by December 1st annually thereafter, report to the education committees of the house of representatives and the senate on the progress that has been made in achieving the reading goal under RCW 28A.655.050 and any additional goals adopted by the commission;

~~((j))~~ (k) Coordinate its activities with the state board of education and the office of the superintendent of public instruction;

~~((k))~~ (l) Seek advice from the public and all interested educational organizations in the conduct of its work; ~~(and~~

~~((l))~~ (m) Establish advisory committees, which may include persons who are not members of the commission; and

(n) Develop and analyze any data or information necessary to perform its accountability responsibilities;

(2) Holding meetings and public hearings, which may include regional meetings and hearings;

(3) Hiring necessary staff and determining the staff's duties and compensation. However, the office of the superintendent of public instruction shall provide staff support to the commission until the commission has hired its own staff, and shall provide most of the technical assistance and logistical support needed by the commission thereafter. The office of the superintendent of public instruction shall be the fiscal agent for the commission. The commission may direct the office of the superintendent of public instruction to enter into subcontracts, within the commission's resources, with school districts, teachers, higher education faculty, state agencies, business organizations, and other individuals and organizations to assist the commission in its deliberations; and

(4) Receiving per diem and travel allowances as permitted under RCW 43.03.050 and 43.03.060.

NEW SECTION. Sec. 2. SUPERINTENDENT OF PUBLIC INSTRUCTION DUTIES. (1) The superintendent of public instruction may delegate the superintendent's duties under this chapter to a proxy, with the exception of the superintendent's membership on the academic achievement and accountability commission.

(a) Provide state assistance to schools and school districts under section 3 of this act and exercise governance responsibilities for schools in superintendent of public instruction intervention under section 4 of this act;

(b) Provide the academic achievement and accountability commission, in a timely manner, with available data, including raw student data, and other information the commission deems appropriate to fulfill its responsibility to provide oversight and monitoring of the state's educational accountability system; and

(c) Make available to schools information on models of excellence in instruction, management, capacity building, parent involvement, and other research-based strategies to improve student achievement.

NEW SECTION. Sec. 3. PROCESS FOR STATE ASSISTANCE. (1) The process for state assistance shall include the following components:

(a) In September of each year, the academic achievement and accountability commission shall identify schools and school districts for state assistance, based on criteria adopted under RCW 28A.655.030(1) (d) and (e) and availability of appropriations.

(b) The superintendent of public instruction shall notify each school district of the assistance eligibility of one or more schools within the district.

(c) Within ninety days of the date the notice was sent to the district, the district shall:

(i) Notify school staff, parents, and the community of the state assistance process;

(ii) Conduct an educational audit of each identified school using experts convened by the superintendent of public instruction. The audit shall include the resources available to the school, the use of those resources, and suggestions for using funds more effectively; the relationship of the school to its local district, parents, and community; the curriculum and instructional materials available and the extent to which those materials are aligned with the state's essential academic learning requirements; the roles and contributions of the school's employees; the level of experience and subject matter expertise of the school's certificated employees; the needs and characteristics of the school's students; school district management practices; and other indicators;

(iii) Hold a public hearing to inform parents, school employees, and the local community of the audit's findings and recommendations and solicit input on ways to address the issues the audit identified; and

(iv) Identify some immediate steps the school and district can take to begin addressing issues raised in the audit.

(d) Based on the results of the audit and community response, the district, with advice from the school's parents and staff, shall develop a comprehensive school improvement plan.

(i) The plan shall include, but need not be limited to three-year student performance improvement goals established by the commission; measurable benchmarks; strategies to address the issues raised in the audit; and a timeline to reach student goals incrementally.

(ii) The plan may include the use of incentives, including school-based supplemental contracts, to recruit and retain employees; the use of severance pay; the revision of school district personnel assignments; and the restructuring of the management, budget, organization, calendar, and instructional or programmatic approaches used in the school.

(iii) The plan may include voluntary and involuntary transfer of employees other than administrators from the school pursuant to a written notice of transfer given to the employee: (A) During the three-month period immediately following the adoption of the plan; or (B) during the period from April 1st to May 1st of the year following the adoption of the plan. The transfer of principals and other administrators shall be made under RCW 28A.405.230. A transfer under this subsection (1)(d)(iii) to a position for which the annual compensation is the same as the annual compensation for the position from which the employee transferred shall not be construed as a discharge or other adverse effect in contract status for purposes of this title.

(iv) The plan may include authority, as provided in sections 8 and 9 of this act, to bargain the effect on school-specific issues of a component of the improvement plan if that component requires renegotiation of a collective bargaining agreement.

(e) The superintendent of public instruction and the school district shall negotiate and adopt, and revise as necessary, a performance agreement to implement the school improvement plan. The agreement shall be adopted no later than one month before the start of the school year following notification of state assistance eligibility.

(f) If the superintendent of public instruction determines that the school district has not completed the state assistance process in a timely fashion or has failed to conduct the process in good faith, the superintendent of public instruction shall impose superintendent of public instruction intervention on the school or district.

(2) After a performance agreement has been in effect for one complete school year, progress in each state-assisted school shall be analyzed annually based on student performance and improvement thresholds adopted under RCW 28A.655.030. The results of the analysis shall be included in the school's annual school performance report under RCW 28A.655.110.

(3) The parent or guardian of a student enrolled in a school identified for state assistance, at the beginning of the school year following identification, may enroll the student in a different school either in the district or in a different district under RCW 28A.225.220 and 28A.225.270. In a class I school district, the

parent or guardian of a student enrolled in a school identified for state assistance, at the beginning of the school year following identification, may enroll the student in a different school in the district as provided under section 6 of this act.

(4) If a school successfully meets academic achievement and accountability commission-adopted student performance and improvement thresholds in any two years, the school shall be released from the list of schools identified for state assistance. However, for the duration of the performance agreement, the superintendent of public instruction may continue to provide any type of assistance included in the agreement.

(5) If a state-assisted school does not meet academic achievement and accountability commission-adopted student performance and improvement thresholds in any year, the superintendent of public instruction may impose superintendent of public instruction intervention on the school and district.

(6) If a state-assisted school does not meet academic achievement and accountability commission-adopted student performance and improvement thresholds by the end of three complete school years in state assistance, the superintendent of public instruction shall impose superintendent of public instruction intervention on the school and district.

(7) With the exception of agreements for schools that are subject to subsection (6) of this section, performance agreements may be extended with the approval of the commission.

**NEW SECTION. Sec. 4. (2) The superintendent of public instruction shall adopt, and revise as necessary, an intervention plan for each school in superintendent of public instruction intervention. The plan, which shall include a description of the strategies that the superintendent intends to use in the school and district, shall be shared with the school community.

(3) After a school or district has been in superintendent of public instruction intervention for one complete school year, progress in each state-assisted school shall be analyzed annually based on student performance and improvement thresholds adopted under RCW 28A.655.030.

(4) If a school in superintendent of public instruction intervention successfully meets academic achievement and accountability commission-adopted student performance and improvement thresholds in two consecutive years, the school shall be released from superintendent of public instruction intervention.

(5) The range of intervention strategies available to the superintendent of public instruction shall include, but need not be limited to:

(a) The use of incentives, including school-based supplemental contracts, to recruit and retain employees and the use of severance pay, to the extent that funds are available for these purposes;

(b) The revision of school district personnel assignments;

(c) The restructuring of the management, budget, organization, calendar, and instructional or programmatic approaches used in the school;

(d) The reduction, redirection, deferral, or withholding of nonbasic education state funds from the school district until the superintendent of public instruction determines such strategies are no longer an appropriate state intervention strategy;

(e) The redirection from school district to the school of any or all state, federal, and local funds generated by or available for the students in the school;

(f) The removal of a school from the district jurisdiction or the appointment of a proxy of the superintendent of public instruction to assume jurisdiction of the school;

The transfer of principals and other administrators shall be made

under RCW 28A.405.230. A transfer under this subsection (5)(h) to a position for which the annual compensation is the same as the annual compensation for the position from which the employee transferred shall not be construed as a discharge or other adverse effect in contract status for purposes of this title;

(j) The authority, as provided in sections 8 and 9 of this act, to bargain, on behalf of the school district, the effect on school-specific issues of a component of the intervention plan if that component requires renegotiation of a collective bargaining agreement;

(k) Closing and redesigning the school; and

(l) Any other action authorized by law that the superintendent of public instruction deems necessary to improve student learning.

(6) The parent or guardian of a student enrolled in a school identified for superintendent of public instruction intervention, at the beginning of the school year following identification, may enroll the student in a different school either in the district or in a different district under the provisions of RCW 28A.225.220 and 28A.225.270. However, if the district superintendent under section 3 of this act, or the superintendent of public instruction under section 4 of this act, as applicable, determines that such a component requires renegotiation of a collective bargaining agreement, the employer, or the proxy designated to act on behalf of the

employer when the superintendent of public instruction has elected to exercise the bargaining authority provided in section 4 of this act, and the exclusive bargaining representative that is a party to the agreement shall, subject to procedures in this chapter, enter into bargaining on the effect of the component on school-specific issues for inclusion in an addendum to the collective bargaining agreement. **NEW SECTION. Sec. 9.** A new section is added to chapter 41.59 RCW to read as follows:

**COLLECTIVE BARGAINING.** A component of a school improvement plan or performance agreement under section 3 of this act or an intervention plan under section 4 of this act shall be considered an educational policy decision. However, if the district superintendent under section 3 of this act, or the superintendent of public instruction under section 4 of this act, as applicable, determines that such a component requires renegotiation of a collective bargaining agreement, the employer, or the proxy designated to act on behalf of the employer when the superintendent of public instruction has elected to exercise the bargaining authority provided in section 4 of this act, and the exclusive bargaining representative that is a party to the agreement shall, subject to procedures in this chapter, enter into bargaining on the effect of the component on school-specific issues for inclusion in an addendum to the collective bargaining agreement. If an agreement is not reached after a reasonable period of negotiations, either party may request the commission to provide mediation services.

**Sec. 10.** RCW 41.56.905 and 1983 c 287 s 5 are each amended to read as follows:

The provisions of this chapter are intended to be additional to other remedies and shall be liberally construed to accomplish their purpose. Except as provided in RCW 53.18.015, if any provision of this chapter conflicts with any other statute, ordinance, rule or regulation of any public employer, the provisions of this chapter shall control. However, if a conflict exists between this chapter and section 3 or 4 of this act, section 3 or 4 of this act, as applicable, supersedes this chapter.

**Sec. 11.** RCW 41.59.910 and 1975 1st ex.s. c 288 s 19 are each amended to read as follows:

This chapter shall supersede existing statutes not expressly repealed to the extent that there is a conflict between a provision of this chapter and those other statutes. However, if a conflict exists between this chapter and section 3 or 4 of this act, section 3 or 4 of this act, as applicable, supersedes this chapter. Except as otherwise expressly provided herein, nothing in this chapter shall be construed to annul, modify or preclude the renewal or continuation of any lawful agreement entered into prior to January 1, 1976 between an employer and an employee organization covering wages, hours, and terms and conditions of employment. Where there is a conflict between any collective bargaining agreement and any resolution, rule, policy or regulation of the employer or its agents, the terms of the collective bargaining agreement shall prevail.

**Sec. 12.** RCW 28A.505.120 and 1975-'76 2nd ex.s. c 118 s 12 are each amended to read as follows:

(1) If a local school district fails to comply with any binding restrictions issued by the superintendent of public instruction, the allocation of state funds for support of the local school district may be withheld, pending an investigation of the reason for such noncompliance by the office of the superintendent of public instruction. Written notice of the intent to withhold state funds, with reasons stated for this action, shall be made to the school district by the office of the superintendent of public instruction before any portion of the state allocation is withheld.

Regarding such renewal of contracts of school superintendents the provisions of RCW 28A.405.210, 28A.405.240, and 28A.645.010 shall be inapplicable.

**Sec. 14.** RCW 28A.400.030 and 1991 c 116 s 14 are each amended to read as follows:

(c) For certificated and classified employees, annual leave with compensation for illness, injury, and emergencies shall be granted and accrue at a rate not to exceed twelve days per year; provisions of any contract in force on June 12, 1980, which conflict with requirements of this subsection shall continue in effect until contract expiration; after expiration, any new contract executed between the parties shall be consistent with this subsection;

(d) Compensation for leave for illness or injury actually taken shall be the same as the compensation such person would have received had such person not taken the leave provided in this proviso;

(e) Leave provided in this proviso not taken shall accumulate from year to year up to a maximum of one hundred eighty days for the purposes of RCW 28A.400.210 and 28A.400.220, and for leave purposes up to a maximum of the number of contract days agreed to in a given contract, but not greater than one year. Such accumulated time may be taken at any time during the school year or up to twelve days per year may be used for the purpose of payments for unused sick leave.

(f) Sick leave heretofore accumulated under section 1, chapter 195, Laws of 1959 (former RCW 28.58.430) and sick leave accumulated under administrative practice of school districts prior to the effective date of section 1, chapter 195, Laws of 1959 (former RCW 28.58.430) is hereby declared valid, and shall be added to leave for illness or injury accumulated under this proviso;

If the school district to which the person transfers has a different system for computing seniority, leave benefits, and other benefits, then the employee shall be granted the same seniority, leave benefits and other benefits as a person in that district who has similar occupational status and total years of service.

**Sec. 17.** RCW 28A.405.210 and 1996 c 201 s 1 are each amended to read as follows:

(1)(a) Except as provided by a superintendent of public instruction intervention action taken under section 4 of this act, no teacher, principal, supervisor, superintendent, or other certificated employee, holding a position as such with a school district, hereinafter referred to as "employee", shall be employed;

(i) Except by written order of a majority of the directors of the district at a regular or special meeting thereof(~~(-nor)~~); and

(ii) Unless he or she is the holder of an effective teacher's certificate or other certificate required by law or the state board of education for the position for which the employee is employed.

(b) No employee may be employed at a school in superintendent of public instruction intervention unless his or her employment with the school district is consistent with determinations made by the superintendent of public instruction under section 4 of this act.

(c) The board shall make with each employee employed by it a written contract, which shall be in conformity with the laws of this state, and except as otherwise provided by law or by a superintendent of public instruction intervention action taken under section 4 of this act, limited to a term of not more than one year. Every such contract shall be made in duplicate, one copy to be retained by the school district superintendent or secretary and one copy to be delivered to the employee. No contract shall be offered by any board for the employment of any employee who has previously signed an employment contract for that same term in another school district of the state of Washington unless such employee shall have been released from his or her obligations under such previous contract by the board of directors of the school district to which he or she was obligated.

(d) Any contract signed in violation of this (~~provision shall be~~) subsection (1) is void.

(2) In the event it is determined that there is probable cause or causes that the employment contract of an employee should not be renewed by the district for the next ensuing term such employee shall be notified in writing on or before May 15th preceding the commencement of such term of that determination, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 1st, which notification shall specify the cause or causes for nonrenewal of contract. Such determination of probable cause for certificated employees, other than the superintendent, shall be made by the superintendent, or with respect to employment at a school in superintendent of public instruction intervention, as provided by the superintendent of public instruction intervention action taken under section 4 of this act. Such notice shall be served upon the employee personally, or by certified or registered mail, or by leaving a copy of the notice at the house of his or her usual abode with some person of suitable age and discretion then resident therein. Every such employee so notified, except those employees subject to subsection (3) of this section, at his or her request made in writing and filed with the president, chair, or secretary of the board of directors of the district within ten days after receiving such notice, shall be granted opportunity for hearing pursuant to RCW 28A.405.310 to determine whether there is sufficient cause or causes for nonrenewal of contract: PROVIDED, That any employee receiving notice of nonrenewal of contract due to an enrollment decline or loss of revenue may, in his or her request for a hearing, stipulate that initiation of the arrangements for a hearing officer as provided for by RCW 28A.405.310(4) shall occur within ten days following July 15 rather than the day that the employee submits the request for a hearing. If any such notification or opportunity for hearing is not timely given, the employee entitled thereto shall be conclusively presumed to have been reemployed by the district for the next ensuing term upon contractual terms identical with those which would have prevailed if his or her employment had actually been renewed by the board of directors for such ensuing term.

(3) An employee at a school in superintendent of public instruction intervention who is notified under this section, at his or her request made in writing and filed with the district superintendent within ten days after receiving the notice, shall be given the opportunity to meet informally with the district superintendent for the purpose of requesting the district superintendent to recommend that the nonrenewal decision be reconsidered. Such meeting shall be held no later than ten days following the receipt of such request, and the employee shall be given at least three days' written notice of the date, time, and place of the meeting. At such meeting the employee shall be given the opportunity to refute any facts upon which the determination was based and to make any argument in support of his or her request for reconsideration. Within ten days following the meeting with the employee, the district superintendent shall submit a written recommendation to the superintendent of public instruction stating the reasons for the recommendation. A copy of the recommendation shall be delivered to the employee. In taking action on the recommendation of the district superintendent, the superintendent of public instruction shall consider any evaluations conducted under RCW 28A.405.100 and may consider any written communication that the employee may file with the secretary of the board before meeting with the district superintendent. The board shall notify the employee in writing of the final decision within ten days after receiving the final decision of the superintendent of public instruction. The decision to nonrenew an employee's contract pursuant to a superintendent of public instruction intervention action taken under section 4 of this act is final and not subject to appeal.

(4) This section shall not be applicable to "provisional employees" as so designated in RCW 28A.405.220; transfer to a subordinate certificated position as that procedure is set forth in RCW 28A.405.230 shall not be construed as a nonrenewal of contract for the purposes of this section.

**Sec. 18.** RCW 28A.405.220 and 1996 c 201 s 2 are each amended to read as follows:

(1) Notwithstanding the provisions of RCW 28A.405.210, every person employed by a school district in a teaching or other nonsupervisory certificated position shall be subject to nonrenewal of employment contract as provided in this section during the first two years of employment by such district, unless the employee has previously completed at least two years of certificated employment in another school district in the state of Washington, in which case the employee shall be subject to nonrenewal of employment contract pursuant to this section during the first year of employment with the new district. Employees as defined in this section shall hereinafter be referred to as "provisional employees".

(2)(a) In the event the superintendent of the school district, or the superintendent of public instruction under a superintendent of public instruction intervention action taken under section 4 of this act, determines that the employment contract of any provisional employee should not be renewed by the district for the next ensuing term such provisional employee shall be notified thereof by the superintendent of the school district in writing on or before May 15th preceding the commencement of such school term, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 1st, which notification shall state the reason or reasons for such determination. Such notice shall be served upon the provisional employee personally, or by certified or registered mail, or by leaving a copy of the notice at the place of his or her usual abode with some person of suitable age and discretion then resident therein. ((The)) A determination ((of)) by the superintendent of the school district shall be subject to the evaluation requirements of RCW 28A.405.100. A determination by the superintendent of public instruction shall be made pursuant to a superintendent of public instruction action taken under section 4 of this act.

(b) Every such provisional employee so notified, at his or her request made in writing and filed with the superintendent of the district within ten days after receiving such notice, shall be given the opportunity to meet informally with the superintendent for the purpose of requesting the superintendent to reconsider his or her decision or, if the determination was made pursuant to a superintendent of public instruction intervention action taken under section 4 of this act, to consider recommending to the superintendent of public instruction reinstatement of the provisional employee. Such meeting shall be held no later than ten days following the receipt of such request, and the provisional employee shall be given written notice of the date, time and place of meeting at least three days prior thereto. At such meeting the provisional employee shall be given the opportunity to refute any facts upon which the ~~((superintendent's))~~ determination was based and to make any argument in support of his or her request for reconsideration.

(c)(i) Except as provided in (c)(ii) of this subsection, within ten days following the meeting with the provisional employee, the superintendent shall either reinstate the provisional employee or shall submit to the school district board of directors for consideration at its next regular meeting a written report recommending that the employment contract of the provisional employee be nonrenewed and stating the reason or reasons therefor. A copy of such report shall be delivered to the provisional employee at least three days prior to the scheduled meeting of the board of directors. In taking action upon the recommendation of the superintendent, the board of directors shall consider any written communication which the provisional employee may file with the secretary of the board at any time prior to that meeting.

(ii) If the provisional employee is employed at a school in superintendent of public instruction intervention, within ten days following the meeting with the employee, the superintendent shall submit a written recommendation to the superintendent of public instruction stating the reasons for the recommendation. A copy of the recommendation shall be delivered to the employee.

(d) The board of directors shall notify the provisional employee in writing of ((its)) the final decision within ten days following after receiving the final decision of the superintendent of public instruction, as applicable. The decision ((of the board of directors)) to nonrenew the contract of a provisional employee under this section shall be final and not subject to appeal.

(3) This section applies to any person employed by a school district in a teaching or other nonsupervisory certificated position after June 25, 1976. This section provides the exclusive means for nonrenewing the employment contract of a provisional employee and no other provision of law shall be applicable thereto, including, without limitation, RCW 28A.405.210 and chapter 28A.645 RCW.

**Sec. 19.** RCW 28A.405.230 and 1996 c 201 s 3 are each amended to read as follows:

(1) Any certificated employee of a school district employed as an assistant superintendent, director, principal, assistant principal, coordinator, or in any other supervisory or administrative position, hereinafter in this section referred to as "administrator", shall be subject to transfer, at the expiration of the term of his or her employment contract or at any time pursuant to a superintendent of public instruction intervention action taken under section 4 of this act or an action taken as part of a school improvement plan under section 3 of this act, if the contract took effect after September 1, 2001, to any subordinate certificated position within the school district. "Subordinate certificated position" as used in this section, shall mean any administrative or nonadministrative certificated position for which the annual compensation is less than the position currently held by the administrator.

(2)(a) Every school district superintendent determining that the best interests of the school district would be served by transferring any administrator to a subordinate certificated position shall notify that administrator in writing on or before May 15th preceding the commencement of such school term of that determination, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 1st(~~(, which)~~). Notice given pursuant to a superintendent of public instruction intervention action taken under section 4 of this act or a school improvement plan under section 3 of this act may be given at any time. Notification given under this subsection shall state the reason or reasons for the transfer, and shall identify the subordinate certificated position to which the administrator will be transferred. Such notice shall be served upon the administrator personally, or by certified or registered mail, or by leaving a copy of the notice at the place of his or her usual abode with some person of suitable age and discretion then resident therein.

(b) Every such administrator so notified, at his or her request made in writing and filed with the president or chair, or secretary of the board of directors of the district within ten days after receiving such notice, shall be given the opportunity to meet informally with the board of directors in an executive session thereof or with the superintendent of public instruction, if notice is given pursuant to a superintendent of public instruction intervention action taken under section 4 of this act, for the purpose of requesting (~~(the board to reconsider)~~) reconsideration of the decision (~~(of the superintendent. Such board,)~~). Upon receipt of such request, the board of directors shall schedule the meeting for no later than the next regularly scheduled meeting of the board (~~(, and shall notify the administrator)~~) or, if applicable, the superintendent of public instruction shall schedule a meeting as soon as practicable and the administrator shall be notified in writing of the date, time, and place of the meeting at least three days prior thereto. At such meeting the administrator shall be given the opportunity to refute any facts upon which the determination was based and to make any argument in support of his or her request for reconsideration. The administrator and the board or the superintendent of public instruction, as applicable, may invite their respective legal counsel to be present and to participate at the meeting. The board shall notify the administrator in writing of (~~(its)~~) the final decision within ten days following (~~(its)~~) the meeting with the administrator. No appeal to the courts shall lie from the final decision (~~(of the board of directors)~~) under this section to transfer an administrator to a subordinate certificated position (~~(: PROVIDED, That)~~). However, in the case of principals not employed in a school subject to superintendent of public instruction intervention under section 4 of this act or state assistance under section 3 of this act, such transfer shall be made at the expiration of the contract year and only during the first three consecutive school years of employment as a principal by a school district; except that if any such principal not employed in a school subject to superintendent of public instruction intervention or state assistance under chapter 28A.655 RCW has been previously employed as a principal by another school district in the state of Washington for three or more consecutive school years the provisions of this section shall apply only to the first full school year of such employment. If a principal who is employed at a school receiving superintendent of public instruction intervention or state assistance under chapter 28A.655 RCW is transferred pursuant to a superintendent of public instruction intervention action taken under section 4 of this act or an action taken under a school improvement plan under section 3 of this act, the transfer may occur at any time during the contract year of any year the principal is employed as a principal.

(3) This section applies to any person employed as an administrator by a school district on June 25, 1976 and to all persons so employed at any time thereafter. This section provides the exclusive means for transferring an administrator to a subordinate certificated position (~~(at the expiration of the term of his or her employment~~

contract)).

April 18, 2001

ESB 5686 Prime Sponsor, Senator Eide: Changing academic assessments timelines. Reported by Committee on Appropriations

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

**"Sec. 1.** RCW 28A.655.060 and 1999 c 373 s 501 are each amended to read as follows:

(1) The Washington commission on student learning is hereby established. The primary purposes of the commission are to identify the knowledge and skills all public school students need to know and be able to do based on the student learning goals in RCW 28A.150.210, to develop student assessment and school accountability systems, to review current school district data reporting requirements and make recommendations on what data is necessary for the purposes of accountability and meeting state information needs, and to take other steps necessary to develop a performance-based education system. The commission shall include three members of the state board of education, three members appointed by the governor before July 1, 1992, and five members appointed no later than June 1, 1993 by the governor elected in the November 1992 election. The governor shall appoint a chair from the commission members, and fill any vacancies in gubernatorial appointments that may occur. The state board of education shall fill any vacancies of state board of education appointments that may occur. In making the appointments, educators, business leaders, and parents shall be represented, and nominations from statewide education, business, and parent organizations shall be requested. Efforts shall be made to ensure that the commission reflects the racial and ethnic diversity of the state's K-12 student population and that the major geographic regions in the state are represented. Appointees shall be qualified individuals who are supportive of educational restructuring, who have a positive record of service, and who will devote sufficient time to the responsibilities of the commission to ensure that the objectives of the commission are achieved.

(2) The commission shall establish advisory committees. Membership of the advisory committees shall include, but not necessarily be limited to, professionals from the office of the superintendent of public instruction and the state board of education, and other state and local educational practitioners and student assessment specialists.

(3) The commission, with the assistance of the advisory committees, shall:

(a) Develop essential academic learning requirements based on the student learning goals in RCW 28A.150.210. Essential academic learning requirements shall be developed, to the extent possible, for each of the student learning goals in RCW 28A.150.210. Goals one and two shall be considered primary. Essential academic learning requirements for RCW 28A.150.210(1), goal one, and the mathematics component of RCW 28A.150.210(2), goal two, shall be completed no later than March 1, 1995. Essential academic learning requirements that incorporate the remainder of RCW 28A.150.210 (2), (3), and (4), goals two, three, and four, shall be completed no later than March 1, 1996. To the maximum extent possible, the commission shall integrate goal four and the knowledge and skill areas in the other goals in the development of the essential academic learning requirements;

(b)(i) The commission and superintendent of public instruction shall develop a statewide academic assessment system for use in the elementary, middle, and high school years designed to determine if each student

has learned the essential academic learning requirements identified in (a) of this subsection. The academic assessment system shall include a variety of assessment methods, including criterion-referenced and performance-based measures. Performance standards for determining if a student has successfully completed an assessment shall be determined by the commission and the superintendent of public instruction in consultation with the advisory committees required in subsection (2) of this section.

(ii) The assessment system shall be designed so that the results under the assessment system are used by educators as tools to evaluate instructional practices, and to initiate appropriate educational support for students who have not learned the essential academic learning requirements at the appropriate periods in the student's educational development.

(iii) Assessments measuring the essential academic learning requirements shall be available for voluntary use by school districts and shall be required to be administered by school districts according to the following schedule unless the legislature takes action to delay or prevent implementation of the assessment system and essential academic learning requirements.

on student learning to the superintendent of public instruction by June 30, 1999.

(iv) To the maximum extent possible, the commission and the superintendent of public instruction shall integrate knowledge and skill areas in development of the assessments.

Assessments for goals three and four of RCW 28A.150.210 shall be integrated in the essential academic learning requirements and assessments for goals one and two.

(vi) The commission and the superintendent of public instruction shall develop assessments that are directly related to the essential academic learning requirements, and are not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender;

(c) After a determination is made by the state board of education that the high school assessment system has been implemented and that it is sufficiently reliable and valid, successful completion of the high school assessments shall ~~((lead to a certificate of mastery))~~ be required for graduation from a public high school. ~~((The certificate of mastery))~~ Successful completion of the high school assessments shall be obtained by most students at about the age of sixteen, and is evidence that the students ~~((has))~~ have successfully mastered the essential academic learning requirements during ~~((his or her))~~ their educational careers. ~~((The certificate of mastery))~~ Successful completion of the high school assessments shall be required for graduation from a public high school but shall not be the only requirement for graduation. The commission shall make recommendations to the state board of education regarding the relationship between the ~~((certificate of mastery))~~ high school assessment system and high school graduation requirements. Upon ~~((achieving the certificate of mastery))~~ successful completion of required high school assessments, schools shall provide students with the opportunity to pursue career and educational objectives through educational pathways that emphasize integration of academic and vocational education. Educational pathways may include, but are not limited to, programs such as work-based learning, school-to-work transition, tech prep, vocational-technical education, running start, and preparation for technical college, community college, or university education. Any middle school, junior high school, or high school using educational pathways shall ensure that all participating students will continue to have access to the courses and instruction necessary to meet admission requirements at baccalaureate institutions. Students shall be allowed to enter the educational pathway of their choice. Before accepting a student into an educational pathway, the school shall inform the student's parent of the pathway chosen, the opportunities available to the student through the pathway, and the career objectives the student will have exposure to while pursuing the pathway. Parents and students dissatisfied with the opportunities available through the selected educational pathway shall be provided with the opportunity to transfer the student to any other pathway provided in the school. Schools may not develop educational pathways that retain students in high school beyond the date they are eligible to graduate, and may not require students who transfer between pathways to complete pathway requirements beyond the date the student is eligible to graduate;

(d) Consider methods to address the unique needs of special education students when developing the assessments in (b) and (c) of this subsection;

(e) Consider methods to address the unique needs of highly capable students when developing the assessments in (b) and (c) of this subsection;

The accountability system must assess each school individually against its own baseline, schools with similar characteristics, and schools statewide. The system shall include school-site, school district, and state-level accountability reports;

(ii) A school assistance program to help schools and school districts that are having difficulty helping students meet the essential academic learning requirements as measured by performance on the elementary, middle school, and high school assessments;

(iii) A system to intervene in schools and school districts in which significant numbers of students persistently fail to learn the essential academic learning requirements or meet the standards established for the elementary, middle school, and high school assessments; and

(iv) An awards program to provide incentives to school staff to help their students learn the essential academic learning requirements, with each school being assessed individually against its own baseline, schools with similar characteristics, and the statewide average. Incentives shall be based on the rate of percentage change of students achieving the essential academic learning requirements and progress on meeting the statewide average. School staff shall determine how the awards will be spent.

The commission shall make recommendations regarding a statewide accountability system for reading in grades kindergarten through four by November 1, 1997. Recommendations for an accountability system in the other subject areas and grade levels shall be made no later than June 30, 1999;

(7) Members of the commission shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060.

In preparing recommendations, the commission on student learning shall convene an ad hoc working group to address questions, including:

- (i) What type of document shall be used to identify student performance and achievement and how will the document be described?
- (ii) Should the students be required to pass the high school assessments in all skill and content areas, or only in select skill and content areas, to graduate?
- (iii) How will the criteria for establishing the standards for passing scores on the assessments be determined?
- (iv) What timeline should be used in phasing-in the assessments as a graduation requirement?
- (v) What options may be used in demonstrating how the results of the assessments will be displayed in a way that is meaningful to students, parents, institutions of higher education, and potential employers?
- (vi) Are there other or additional methods by which the assessments could be used to identify achievement such as endorsements, standards of proficiency, merit badges, or levels of achievement?
- (vii) Should the assessments and certificate of mastery be used to satisfy college or university entrance criteria for public school students? If yes, how should these methods be phased-in?
- (b) The ad hoc working group shall report its recommendations to the commission on student learning, the state board of education, and the superintendent of public instruction by June 15, 1997. The commission shall report the ad hoc working group's recommendations to the education committees of the house of representatives and senate by July 15, 1997. ### SENATE AMENDMENTS TO HOUSE BILL

April 20, 2001

Mr. Speakers:

The Senate receded from the amendment by Senators Costa, Long, Kline and McAuliffe to SECOND SUBSTITUTE HOUSE BILL NO. 1041. Under suspension of the rules Second Substitute House Bill No. 1041 was returned to second reading for purpose of amendments. The Senate adopted amendment 1041-S2 AAS 04/20/01 S-2719.1 and passed the bill as amended by the Senate.

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds that unlawful harassment directed at a child by a person under the age of eighteen is not acceptable and can have serious consequences. The legislature further finds that some interactions between minors, such as "schoolyard scuffles," though not to be condoned, may not rise to the level of unlawful harassment. It is the intent of the legislature that a protection order sought by the parent or guardian of a child as provided for in this chapter be available only when the alleged behavior of the person under the age of eighteen to be restrained rises to the level set forth in chapter 10.14 RCW.

**Sec. 2.** RCW 10.14.020 and 1999 c 27 s 4 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Unlawful harassment" means a knowing and willful course of conduct directed at a specific person which seriously alarms, annoys, harasses, or is detrimental to such person, and which serves no legitimate or lawful purpose. The course of conduct shall be such as would cause a reasonable person to suffer substantial emotional distress, and shall actually cause substantial emotional distress to the petitioner, or, when the course of conduct (~~is contact by a person over age eighteen that~~) would cause a reasonable parent to fear for the well-being of their child.

(2) "Course of conduct" means a pattern of conduct composed of a series of acts over a period of time, however short, evidencing a continuity of purpose. "Course of conduct" includes, in addition to any other form of communication, contact, or conduct, the sending of an electronic communication. Constitutionally protected activity is not included within the meaning of "course of conduct."

**Sec. 3.** RCW 10.14.040 and 1995 c 292 s 2 and 1995 c 127 s 2 are each reenacted and amended to read as follows:

There shall exist an action known as a petition for an order for protection in cases of unlawful harassment.

(1) A petition for relief shall allege the existence of harassment and shall be accompanied by an affidavit made under oath stating the specific facts and circumstances from which relief is sought.

(2) A petition for relief may be made regardless of whether or not there is a pending lawsuit, complaint, petition, or other action between the parties.

(3) All court clerks' offices shall make available simplified forms and instructional brochures. Any assistance or information provided by clerks under this section does not constitute the practice of law and clerks are not responsible for incorrect information contained in a petition.

(4) Filing fees are set in RCW 36.18.020, but no filing fee may be charged for a petition filed in an existing action or under an existing cause number brought under this chapter in the jurisdiction where the relief is sought. Forms and instructional brochures shall be provided free of charge.

(5) A person is not required to post a bond to obtain relief in any proceeding under this section.

(6) The parent or guardian of a child under age eighteen may petition for an order of protection to restrain a person (~~over~~) age eighteen years or over from contact with that child upon a showing that contact with the person to be enjoined is detrimental to the welfare of the child.

(7) The parent or guardian of a child under the age of eighteen may petition in superior court for an order of protection to restrain a person under the age of eighteen years from contact with that child only in cases where the person to be restrained has been adjudicated of an offense against the child protected by the order, or is under investigation or has been investigated for such an offense. In issuing a protection order under this subsection, the court shall consider, among the other facts of the case, the severity of the alleged offense, any continuing physical danger or emotional distress to the alleged victim, and the expense, difficulty, and educational disruption that would be caused by a transfer of the alleged offender to another school. The court may order that the person restrained in the order not attend the public or approved private elementary, middle, or high school attended by the person under the age of eighteen years protected by the order. In the event that the court orders a transfer of the restrained person to another school, the parents or legal guardians of the person restrained in the order are responsible for transportation and other costs associated with the change of school by the person restrained in the order. The court shall send notice of the restriction on attending the same school as the person protected by the order to the public or approved private school the person restrained by the order will attend and to the school the person protected by the order attends.

**Sec. 4.** RCW 10.14.120 and 1989 c 373 s 14 are each amended to read as follows:

Any willful disobedience by (~~the respondent~~) a respondent age eighteen years or over of any temporary antiharassment protection order or civil antiharassment protection order issued under this chapter subjects the respondent to criminal penalties under this chapter. Any respondent age eighteen years or over who willfully disobeys the terms of any order issued under this chapter may also, in the court's discretion, be found in contempt of court and subject to penalties under chapter 7.21 RCW. Any respondent under the age of eighteen years who willfully disobeys the terms of an order issued under this chapter may, in the court's discretion, be found in contempt of court and subject to the sanction specified in RCW 7.21.030(4).

**Sec. 5.** RCW 10.14.170 and 1987 c 280 s 17 are each amended to read as follows:

Any respondent age eighteen years or over who willfully disobeys any civil antiharassment protection order issued pursuant to this chapter shall be guilty of a gross misdemeanor.

**Sec. 6.** RCW 7.21.030 and 1998 c 296 s 36 are each amended to read as follows:

(1) The court may initiate a proceeding to impose a remedial sanction on its own motion or on the motion of a person aggrieved by a contempt of court in the proceeding to which the contempt is related. Except as provided in RCW 7.21.050, the court, after notice and hearing, may impose a remedial sanction authorized by this chapter.

(2) If the court finds that the person has failed or refused to perform an act that is yet within the person's power to perform, the court may find the person in contempt of court and impose one or more of the following remedial sanctions:

(a) Imprisonment if the contempt of court is of a type defined in RCW 7.21.010(1) (b) through (d). The imprisonment may extend only so long as it serves a coercive purpose.

(b) A forfeiture not to exceed two thousand dollars for each day the contempt of court continues.

(c) An order designed to ensure compliance with a prior order of the court.

(d) Any other remedial sanction other than the sanctions specified in (a) through (c) of this subsection if

the court expressly finds that those sanctions would be ineffectual to terminate a continuing contempt of court.

(e) In cases under chapters 13.32A, 13.34, and 28A.225 RCW, commitment to juvenile detention for a period of time not to exceed seven days. This sanction may be imposed in addition to, or as an alternative to, any other remedial sanction authorized by this chapter. This remedy is specifically determined to be a remedial sanction.

(3) The court may, in addition to the remedial sanctions set forth in subsection (2) of this section, order a person found in contempt of court to pay a party for any losses suffered by the party as a result of the contempt and any costs incurred in connection with the contempt proceeding, including reasonable attorney's fees.

(4) If the court finds that a person under the age of eighteen years has willfully disobeyed the terms of an order issued under chapter 10.14 RCW, the court may find the person in contempt of court and may, as a sole sanction for such contempt, commit the person to juvenile detention for a period of time not to exceed seven days."

On page 1, line 1 of the title, after "harassment;" strike the remainder of the title and insert "amending RCW 10.14.020, 10.14.120, 10.14.170, and 7.21.030; reenacting and amending RCW 10.14.040; and creating a new section."

**SENATE AMENDMENTS TO HOUSE BILL**

April 20, 2001

Mr. Speakers:

The Senate receded from the amendment by Committee on Transportation to SUBSTITUTE HOUSE

BILL NO. 1680. Under suspension of the rules Substitute House Bill No. 1680 was returned to second reading for purpose of amendment. The Senate adopted amendment 1680-S AAS 04/20/01 S-2724.1 and passed the bill as amended by the Senate.

Beginning on page 1, line 7 of the amendment, strike everything through page 9, line 8, and insert the following:

**NEW SECTION. Sec. 1.** The legislature finds and declares that a contracting procedure that facilitates construction of transportation facilities in a more timely manner may occasionally be necessary to ensure that construction can proceed simultaneously with the design of the facility. The legislature further finds that the design-build process and other alternative project delivery concepts achieve the goals of time savings and avoidance of costly change orders.

The legislature finds and declares that a 2001 audit, conducted by Talbot, Korvola & Warwick, examining the Washington state ferries' capital program resulted in a recommendation for improvements and changes in auto ferry procurement processes. The auditors recommended that auto ferries be procured through use of a modified request for proposals process whereby the prevailing shipbuilder and Washington state ferries engage in a design and build partnership. This process promotes ownership of the design by the shipbuilder while using the department of transportation's expertise in ferry design and operations. Alternative processes like design-build partnerships can promote innovation and create competitive incentives that increase the likelihood of finishing projects on time and within the budget.

The purpose of this act is to authorize the department's use of a modified request for proposals process for procurement of auto ferries, and to prescribe appropriate requirements and criteria to ensure that contracting procedures for this procurement process serve the public interest.

**NEW SECTION. Sec. 2.** A new section is added to chapter 47.20 RCW to read as follows:

The department of transportation shall develop a process for awarding competitively bid highway construction contracts for projects over ten million dollars that may be constructed using a design-build procedure. As used in this section and section 3 of this act, "design-build procedure" means a method of contracting under which the department of transportation contracts with another party for the party to both design and build the structures, facilities, and other items specified in the contract.

The process developed by the department must, at a minimum, include the scope of services required under the design-build procedure, contractor prequalification requirements, criteria for evaluating technical information and project costs, contractor selection criteria, and issue resolution procedures. This section expires April 30, 2008.

**NEW SECTION. Sec. 3.** A new section is added to chapter 47.20 RCW to read as follows:

The department of transportation may use the design-build procedure for public works projects over ten million dollars where:

- (1) The construction activities are highly specialized and a design-build approach is critical in developing the construction methodology; or
- (2) The projects selected provide opportunity for greater innovation and efficiencies between the designer and the builder; or
- (3) Significant savings in project delivery time would be realized.

This section expires April 30, 2008.

**NEW SECTION. Sec. 4.** A new section is added to chapter 47.60 RCW to read as follows:

(1) The department may purchase new auto ferries through use of a modified request for proposals process whereby the prevailing shipbuilder and the department engage in a design and build partnership for the design and construction of the auto ferries. The process consists of the three phases described in subsection (2) of this section.

- (2) The definitions in this subsection apply throughout sections 5 through 10 of this act.

(a) "Phase one" means the evaluation and selection of proposers to participate in development of technical proposals in phase two.

(b) "Phase two" means the preparation of technical proposals by the selected proposers in consultation with the department.

(c) "Phase three" means the submittal and evaluation of bids, the award of the contract to the successful proposer, and the design and construction of the auto ferries.

**NEW SECTION. Sec. 5.** A new section is added to chapter 47.60 RCW to read as follows:

To commence the request for proposals process, the department shall publish a notice of its intent once a week for at least two consecutive weeks in at least one trade paper and one other paper, both of general circulation in the state. The notice must contain, but is not limited to, the following information:

(1) The number of auto ferries to be procured, the auto and passenger capacities, the delivery dates, and the estimated price range for the contract;

(2) A statement that a modified request for proposals design and build partnership will be used in the procurement process;

(3) A short summary of the requirements for prequalification of proposers including a statement that prequalification is a prerequisite to submittal of a proposal in phase one; and

(4) An address and telephone number that may be used to obtain a prequalification questionnaire and the request for proposals.

**NEW SECTION. Sec. 6.** A new section is added to chapter 47.60 RCW to read as follows:

Subject to legislative appropriation for the procurement of vessels, the department shall issue a request for proposals to interested parties that must include, at least, the following:

(1) Solicitation of a proposal to participate in a design and build partnership with the department to design and construct the auto ferries;

(2) Instructions on the prequalification process and procedures;

(3) A description of the modified request for proposals process. Under this process, the department may modify any component of the request for proposals, including the outline specifications by addendum at any time before the submittal of bids in phase three;

(4) A description of the design and build partnership process to be used for procurement of the vessels;

(5) Outline specifications that provide the requirements for the vessels including, but not limited to, items such as length, beam, displacement, speed, propulsion requirements, capacities for autos and passengers, passenger space characteristics, and crew size. The department will produce notional line drawings depicting hull geometry that will interface with Washington state ferries terminal facilities. Notional lines may be modified in phase two, subject to approval by the department;

(6) Instructions for the development of technical proposals in phase two, and information regarding confidentiality of technical proposals;

(7) The vessel delivery schedule, identification of the port on Puget Sound where delivery must take place, and the location where acceptance trials must be held;

(8) The estimated price range for the contract;

(9) The form and amount of the required bid deposit and contract security;

(10) A copy of the contract that will be signed by the successful proposer;

(11) The date by which proposals in phase one must be received by the department in order to be considered;

(12) A description of information to be submitted in the proposals in phase one concerning each proposer's qualifications, capabilities, and experience;

(13) A statement of the maximum number of proposers that may be selected in phase one for development of technical proposals in phase two;

(14) Criteria that will be used for the phase one selection of proposers to participate in the phase two development of technical proposals;

(15) A description of the process that will be used for the phase three submittal and evaluation of bids,

award of the contract, and postaward administrative activities;

(16) A requirement that the contractor comply with all applicable laws, rules, and regulations including but not limited to those pertaining to the environment, worker health and safety, and prevailing wages;

(17) A requirement that the vessels be constructed within the boundaries of the state of Washington except that equipment furnished by the state and components, products, and systems that are standard manufactured items are not subject to the in-state requirement under this subsection. For the purposes of this subsection, "constructed" means the fabrication by the joining together by welding or fastening of all steel parts from which the total vessel is constructed, including, but not limited to, all shell frames, longitudinals, bulkheads, webs, piping runs, wire ways, and ducting. "Constructed" also means the installation of all components and systems, including, but not limited to, equipment and machinery, castings, electrical, electronics, deck covering, lining, paint, and joiner work required by the contract. "Constructed" also means the interconnection of all equipment, machinery, and services, such as piping, wiring, and ducting; and

(18) A requirement that all warranty work on the vessel must be performed within the boundaries of the state of Washington, insofar as practical.

**NEW SECTION. Sec. 7.** A new section is added to chapter 47.60 RCW to read as follows:

Phase one of the request for proposals process consists of evaluation and selection of prequalified proposers to participate in subsequent development of technical proposals in phase two, as follows:

(1) The department shall issue a request for proposals to interested parties.

(2) The request for proposals must require that each proposer prequalify for the contract under chapter 468-310 WAC, except that the department may adopt rules for the financial prequalification of proposers for this specific contract only. The department shall modify the financial prequalification rules in chapter 468-310 WAC in order to maximize competition among financially capable and otherwise qualified proposers. In adopting these rules, the department shall consider factors including, without limitation: (a) Shipyard resources in Washington state; (b) the cost to design and construct multiple vessels under a single contract without options; and (c) the sequenced delivery schedule for the vessels.

(3) The department may use some, or all, of the nonfinancial prequalification factors as part of the evaluation factors in phase one to enable the department to select a limited number of best qualified proposers to participate in development of technical proposals in phase two.

(4) The department shall evaluate submitted proposals in accordance with the selection criteria established in the request for proposals. Selection criteria may include, but are not limited to, the following:

- (a) Shipyard facilities;
- (b) Organization components;
- (c) Design capability;
- (d) Build strategy;
- (e) Experience and past performance;
- (f) Ability to meet vessel delivery dates;
- (g) Projected workload; and
- (h) Expertise of project team and other key personnel.

(5) Upon concluding its evaluation of proposals, the department shall select the best qualified proposers in accordance with the request for proposals. The selected proposers must participate in development of technical proposals. Selection must be made in accordance with the selection criteria stated in the request for proposals. All proposers must be ranked in order of preference as derived from the same selection criteria.

**NEW SECTION. Sec. 8.** A new section is added to chapter 47.60 RCW to read as follows:

Phase two of the request for proposals process consists of preparation of technical proposals in consultation with the department, as follows:

(1) The development of technical proposals in compliance with the detailed instructions provided in the request for proposals, including the outline specifications, and any addenda to them. Technical proposals must include the following:

- (a) Design and specifications sufficient to fully depict the ferries' characteristics and identify installed

equipment;

(b) Drawings showing arrangements of equipment and details necessary for the proposer to develop a firm, fixed price bid;

(c) Project schedule including vessel delivery dates; and

(d) Other appropriate items.

(2) The department shall conduct periodic reviews with each of the selected proposers to consider and critique their designs, drawings, and specifications. These reviews must be held to ensure that technical proposals meet the department's requirements and are responsive to the critiques conducted by the department during the development of technical proposals.

(3) If, as a result of the periodic technical reviews or otherwise, the department determines that it is in the best interests of the department to modify any element of the request for proposals, including the outline specifications, it shall do so by written addenda to the request for proposals.

(4) Proposers must submit final technical proposals for approval that include design, drawings, and specifications at a sufficient level of detail to fully depict the ferries' characteristics and identify installed equipment, and to enable a proposer to deliver a firm, fixed price bid to the department. The department shall reject final technical proposals that modify, fail to conform to, or are not fully responsive to and in compliance with the requirements of the request for proposals, including the outline specifications, as amended by addenda.

**NEW SECTION. Sec. 9.** A new section is added to chapter 47.60 RCW to read as follows:

Phase three consists of the submittal and evaluation of bids and the award of the contract to the successful proposer for the final design and construction of the auto ferries, as follows:

(1) The department shall request bids for detailed design and construction of the vessels after completion of the review of technical proposals in phase two. The department will review detailed design drawings in phase three for conformity with the technical proposals submitted in phase two. In no case may the department's review replace the builder's responsibility to deliver a product meeting the phase two technical proposal. The department may only consider bids from selected proposers that have qualified to bid by submitting technical proposals that have been approved by the department.

(2) Each qualified proposer must submit its total bid price for all vessels, including certification that the bid is based upon its approved technical proposal and the request for proposals.

(3) Bids constitute an offer and remain open for ninety days from the date of the bid opening. A deposit in cash, certified check, cashier's check, or surety bond in an amount specified in the request for proposals must accompany each bid and no bid may be considered unless the deposit is enclosed.

(4) The department shall evaluate the submitted bids. Upon completing the bid evaluation, the department may select the responsive and responsible proposer that offers the lowest total bid price for all vessels.

(5) The department may waive informalities in the proposal and bid process, accept a bid from the lowest responsive and responsible proposer, reject any or all bids, republish, and revise or cancel the request for proposals to serve the best interests of the department.

(6) The department may:

(a) Award the contract to the proposer that has been selected as the responsive and responsible proposer that has submitted the lowest total bid price;

(b) If a contract cannot be signed with the apparent successful proposer, award the contract to the next lowest responsive and responsible proposer; or

(c) If necessary, repeat this procedure with each responsive and responsible proposer in order of rank until the list of those proposers has been exhausted.

(7) If the department awards a contract to a proposer under this section, and the proposer fails to enter into the contract and furnish satisfactory contract security as required by chapter 39.08 RCW within twenty days from the date of award, its deposit is forfeited to the state and will be deposited by the state treasurer to the credit of the Puget Sound capital construction account. Upon the execution of a ferry design and construction contract all proposal deposits will be returned.

(8) The department may provide an honorarium to reimburse each unsuccessful phase three proposer for

a portion of its technical proposal preparation costs at a preset, fixed amount to be specified in the request for proposals. If the department rejects all bids, the department may provide the honoraria to all phase three proposers that submitted bids.

**NEW SECTION. Sec. 10.** A new section is added to chapter 47.60 RCW to read as follows:

(1) The department shall immediately notify those proposers that are not selected to participate in development of technical proposals in phase one and those proposers who submit unsuccessful bids in phase three.

(2) The department's decision is conclusive unless an aggrieved proposer files an appeal with the superior court of Thurston county within five days after receiving notice of the department's award decision. The court shall hear any such appeal on the department's administrative record for the project. The court may affirm the decision of the department, or it may reverse or remand the administrative decision if it determines the action of the department was arbitrary and capricious."

### SENATE AMENDMENTS TO HOUSE BILL

April 5, 2001

Mr. Speakers:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 2046, with the following amendment:

Strike everything after the enacting clause and insert the following:

NEW SECTION. **Sec. 1.** The purpose of this chapter is to recognize and validate certain trusts that are established for the benefit of animals. Under the common law such trusts were unenforceable at law. The legislature intends that such trusts be recognized as valid, and that such trusts be enforceable in accordance with their terms.

NEW SECTION. **Sec. 2.** As used in this chapter, "animal" means a nonhuman animal with vertebrae.

NEW SECTION. **Sec. 3.** A trust for the care of one or more animals is valid. The animals that are to be benefited by the trust may be individually identified, or may be identified in such other manner that they can be readily identified. Unless otherwise provided in the trust instrument or in this chapter, the trust will terminate when no animal that is designated as a beneficiary of the trust remains living.

NEW SECTION. **Sec. 4.** Except as expressly provided otherwise in the trust instrument or in section 8 of this act, and except as may be necessary to pay the trustee reasonable compensation and to reimburse the trustee for reasonable costs incurred on behalf of the trust, no portion of the principal or income of the trust may be converted to the use of the trustee or to any use other than for the trust's purpose or for the benefit of the designated animal or animals.

NEW SECTION. **Sec. 5.** Upon termination of the trust, the trustee shall transfer the unexpended trust property in the following order:

- (1) As directed in the instrument;
- (2) If the trust was created in a nonresiduary clause in the trustor's will or in a codicil to the trustor's will and the will or codicil does not direct otherwise, under the residuary clause in the trustor's will, which shall be read as though the testator died on the date the trust terminated; and
- (3) If no taker is produced by the application of subsection (1) or (2) of this section, to the trustor's heirs under RCW 11.04.015, as it exists at the time of the trust's termination.

NEW SECTION. **Sec. 6.** The intended use of the principal or income can be enforced by a person designated for that purpose in the trust instrument by the person having custody of an animal that is a beneficiary of the trust, or by a person appointed by a court upon application to it by any person. A person with an interest in the welfare of the animal may petition for an order appointing or removing a person designated or appointed to enforce the trust.

NEW SECTION. **Sec. 7.** Except as ordered by the court or required by the trust instrument, no filing, report, registration, or periodic accounting shall be required of the trust or the trustee.

NEW SECTION. **Sec. 8.** If no trustee is designated or no designated trustee is willing or able to serve, the court shall name a trustee. The court may order the removal of an acting trustee and the transfer of the property to another trustee if it is necessary or appropriate in order to assure that the intended use is carried out. A court may also make such other orders and determinations as shall be advisable to carry out the intent of the trustor and the purpose of this chapter.

NEW SECTION. **Sec. 9.** In construing the language of a trust for an animal, the governing instrument shall be liberally construed to provide the protections of this chapter. It is presumed that language contained in a trust for an animal is not merely precatory or honorary in nature unless it can be shown by clear and cogent evidence that such was the trustor's intent. Extrinsic evidence is admissible in determining the trustor's intent.

NEW SECTION. **Sec. 10.** RCW 11.98.130 through 11.98.160 apply to trusts that are subject to this chapter. If applicable, any reference in those statutes to a "life or lives in being or conceived at the effective date of the instrument" shall be construed to refer to any animal that is a beneficiary of the trust and that is in being or conceived at the effective date of the instrument.

NEW SECTION. **Sec. 11.** RCW 11.98.130 through 11.98.160 apply to trusts that are subject to this chapter.

NEW SECTION. **Sec. 12.** Except as otherwise provided in the trust instrument or in this chapter, all powers and duties conferred on a trustee under Washington law also apply to the trustee of a trust for animals.

NEW SECTION. **Sec. 13.** This chapter applies to trusts that are created on or after the effective date of this act and to trusts that are in existence on the effective date of this act, but that are revocable by the trustor on the effective date of this act. If a trustor is incompetent to exercise a power of revocation on the effective date of this act, this chapter does not apply to such trust unless the trustor later becomes competent to exercise such power of revocation, in which case this chapter applies to such trust.

NEW SECTION. **Sec. 14.** (1) Sections 1 through 9, 12, and 13 of this act take effect October 1, 2001.

(2) Section 10 of this act takes effect October 1, 2001, if Senate Bill No. 5054, or its legislative successor bearing the same bill number, does not take effect by October 1, 2001.

(3) Section 11 of this act takes effect October 1, 2001, if Senate Bill No. 5054, or its legislative successor bearing the same bill number, takes effect by October 1, 2001.

NEW SECTION. **Sec. 15.** Sections 1 through 14 of this act constitute a new chapter in Title 11 RCW."

On page 1, line 2 of the title, after "animals;" strike the remainder of the title and insert "adding a new chapter to Title 11 RCW; providing an effective date; and providing contingent effective dates."

There being no objection, the House concurred in the Senate amendment to Substitute House Bill No. 2046.

**ENGROSSED SENATE BILL NO. 6183, By Senators Snyder, Swecker, Kohl-Welles, Roach, Prentice, Horn, Jacobsen, Stevens, Constantine and Kline**

**Revising primary election law.**

The bill was read the second time.

Representative Ogden moved the adoption of the following striking amendment (228):

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** It is the intent of the legislature to create a primary for all partisan elected offices, except for president and vice president, precinct committee officer, and offices exempted from the primary under RCW 29.15.150, that:

(1) Allows each voter, including those who choose not to affiliate with any major political party, to participate;

(2) Preserves the privacy of each voter's party affiliation, if any;

(3) Rejects mandatory voter registration by political party;

(4) Protects ballot access for minor political party and independent candidates;

(5) Maintains a candidate's right to self-identify with any major political party; and

(6) Upholds a political party's First Amendment right of association.

**Sec. 2.** RCW 29.01.090 and 1977 ex.s. c 329 s 9 are each amended to read as follows:

"Major political party" means a political party of which at least one nominee for president, vice president, United States senator, or a statewide office received at least five percent of the total vote cast at the last preceding state general election in an even-numbered year(~~(= PROVIDED, That any political party qualifying as a major political party under the previous subsection (2) or subsection (3) of this section prior to its 1977 amendment shall retain such status until after the next state general election following June 30, 1977)).~~ However, a political party of which no nominee received at least ten percent of the total vote cast may forgo its status as a major political party by filing with the secretary of state an appropriate party rule within sixty days of attaining major party status under this section or thirty days of the effective date of this act, whichever is later.

**NEW SECTION. Sec. 3.** A new section is added to chapter 29.07 RCW to read as follows:

Under no circumstances may an individual be required to affiliate with, join, adhere to, express faith in, or declare a preference for, a political party or organization upon registering to vote.

**NEW SECTION. Sec. 4.** Candidates for all partisan elected offices, except for president and vice president, precinct committee officer, and offices exempted from the primary under RCW 29.15.150, will be nominated at primaries held under this chapter.

**NEW SECTION. Sec. 5.** So far as applicable, the provisions of this title relating to conducting general elections govern the conduct of primaries.

**NEW SECTION. Sec. 6.** A new section is added to chapter 29.30 RCW to read as follows:

Each primary ballot that includes one or more partisan offices must include a party identification checkoff box that allows a voter to select the party with which the voter chooses to affiliate from a list of the major political parties, or the option to indicate that the voter chooses not to affiliate with any major political party. If a voter makes no selection or selects more than one option, then the voter is presumed to have selected the option indicating that the voter chooses not to affiliate with any major political party.

**NEW SECTION. Sec. 7.** A new section is added to chapter 29.30 RCW to read as follows:

The party identification checkoff box required under section 6 of this act must appear on the primary ballot before the names of candidates and ballot measures. Clear and concise instructions to the voter must be prominently displayed immediately before the list of major political parties, and must include:

(1) A question asking the voter to indicate the major political party, if any, with which the voter chooses to affiliate;

(2) A statement indicating that votes cast for a candidate who indicated a major political party designation when filing a declaration of candidacy by a voter who chooses to affiliate with a different major political party will not be tabulated or reported;

(3) An explanation, for each major political party, of whether or not votes cast by a voter who chooses not to affiliate with any major political party will be used to determine the major political party's nominees; and

(4) A statement that the party identification option will not affect votes cast for minor political party and independent candidates, candidates for nonpartisan office, and ballot measures.

**NEW SECTION. Sec. 8.** No record may be created or maintained by a state or local governmental agency or a political organization that identifies a voter with the information provided on the voter's ballot, including the choice that the voter makes regarding political party affiliation.

**NEW SECTION. Sec. 9.** (1) A major political party may choose by rule adopted under chapter 29.42 RCW, to allow voters who choose not to affiliate with any major political party to cast votes that will be used to determine the major political party's nominees. The rule may only be made on a statewide basis and with respect to all of the votes cast by unaffiliated voters rather than with respect to votes cast in specific districts, in specific races, or for specific candidates.

(2) A major political party that has adopted a rule under subsection (1) of this section may repeal that rule at any time. However, the effect of the repeal is subject to the time requirements of subsection (6) of this section.

(3) A major political party shall provide the secretary of state with written notification of an action taken under this section before the end of the first business day that immediately follows the day during which the action is taken.

(4) If a major political party adopts an appropriate rule under subsection (1) of this section, then the major political party's nominee will be the candidate who receives a plurality of votes from the aggregation of votes cast by voters who choose to affiliate with that major political party and votes cast by voters who choose not to affiliate with any major political party.

(5) Unless a major political party adopts a rule under subsection (1) of this section, or if a rule so adopted is repealed under subsection (2) of this section, then the major political party's nominee will be the candidate who receives a plurality of votes cast by voters who choose to affiliate with that major political party.

(6) The adoption of a rule under subsection (1) of this section or the repeal of the rule under subsection (2) of this section must occur on or before July 1st in order to be in effect at any primary conducted between September 1st of the same year and August 30th of the following year.

(7) The decision by a major political party to accept votes cast by voters who choose not to affiliate with any major political party does not affect the rights of any other major political party.

**NEW SECTION. Sec. 10.** For each major political party, prominent notification regarding whether or not the major political party will allow voters who choose not to affiliate with any major political party to participate in the major political party's nomination process must be made, at the very least, in:

(1) Any primary voters' pamphlet prepared by the secretary of state or a local government;

(2) Instructions that accompany any ballot sent by a county auditor to an absentee voter;

(3) Any notice of primary published in compliance with RCW 29.27.030;

(4) A sample ballot prepared by a county auditor under RCW 29.30.060;

(5) The content of the web site of the office of the secretary of state; and

(6) The content of each county auditors' web site that is in existence.

**NEW SECTION. Sec. 11.** Votes cast by a voter who chooses to affiliate with a major political party for a candidate who indicated a different major political party designation when filing a declaration of candidacy may not be tabulated. However, votes cast by that voter for candidates for other offices are not affected in any way.

**NEW SECTION. Sec. 12.** (1) All votes cast for a candidate who indicated a major political party designation when filing a declaration of candidacy by voters who choose to affiliate with that major political party

must be tabulated and reported separately from any other votes cast for that candidate.

(2) All votes cast for a candidate who indicated a major political party designation when filing a declaration of candidacy by voters who choose not to affiliate with any major political party must be tabulated and reported separately from any other votes cast for that candidate.

**NEW SECTION. Sec. 13.** The secretary of state as chief election officer shall adopt rules under chapter 34.05 RCW to facilitate the operation, accomplishment, and purpose of this chapter.

**Sec. 14.** RCW 29.04.180 and 1999 c 157 s 1 are each amended to read as follows:

Any person who desires to be a write-in candidate and have such votes counted at a primary or election may, if the jurisdiction of the office sought is entirely within one county, file a declaration of candidacy with the county auditor not later than the day before the primary or election. If the jurisdiction of the office sought encompasses more than one county the declaration of candidacy shall be filed with the secretary of state not later than the day before the primary or election. Declarations of candidacy for write-in candidates must be accompanied by a filing fee in the same manner as required of other candidates filing for the office as provided in RCW 29.15.050.

Votes cast for write-in candidates who have filed such declarations of candidacy and write-in votes for persons appointed by political parties (~~(pursuant to RCW 29.18.160)~~) under section 16 of this act need only specify the name of the candidate in the appropriate location on the ballot in order to be counted. Write-in votes cast for any other candidate, in order to be counted, must designate the office sought and position number or political party, if applicable. In order for write-in votes to be valid in jurisdictions employing optical-scan mark sense ballot systems the voter must complete the proper mark next to the write-in line for that office.

No person may file as a write-in candidate where:

(1) At a general election, the person attempting to file either filed as a write-in candidate for the same office at the preceding primary or the person's name appeared on the ballot for the same office at the preceding primary;

(2) The person attempting to file as a write-in candidate has already filed a valid write-in declaration for that primary or election, unless one or the other of the two filings is for the office of precinct committeeperson;

(3) The name of the person attempting to file already appears on the ballot as a candidate for another office, unless one of the two offices for which he or she is a candidate is precinct committeeperson.

The declaration of candidacy shall be similar to that required by RCW 29.15.010. No write-in candidate filing under RCW 29.04.180 may be included in any voter's pamphlet produced under chapter ~~((29.80))~~ 29.81 RCW unless that candidate qualifies to have his or her name printed on the general election ballot. The legislative authority of any jurisdiction producing a local voter's pamphlet under chapter 29.81A RCW may provide by ordinance, for the inclusion of write-in candidates in such pamphlets.

**NEW SECTION. Sec. 15.** A new section is added to chapter 29.15 RCW to read as follows:

If a place on the ticket of a major political party is vacant because no person has filed for nomination as the candidate of that major political party after the last day allowed for candidates to withdraw under RCW 29.15.120, and if the vacancy is for a state or county office to be voted on solely by the electors of a single county, the county central committee of the major political party may select and certify a candidate to fill the vacancy. If the vacancy is for any other office the state central committee of the major political party may select and certify a candidate to fill the vacancy. The certificate must set forth the cause of the vacancy, the name of the person nominated, the office for which nominated, and other pertinent information required in an ordinary certificate of nomination and be filed in the proper office no later than the first Friday after the last day allowed for candidates to withdraw, together with the candidate's fee applicable to that office and a declaration of candidacy.

**NEW SECTION. Sec. 16.** A new section is added to chapter 29.15 RCW to read as follows:

A vacancy caused by the death or disqualification of a candidate or nominee of a major or minor political party may be filled at any time up to and including the day before the election for that position. For state partisan offices in a political subdivision voted on solely by electors of a single county, the county central committee in the

case of a major political party or the state central committee or comparable governing body in the case of a minor political party shall appoint a person to fill the vacancy. For other partisan offices, including federal or statewide offices, the state central committee or comparable governing body of the appropriate political party shall appoint a person to fill the vacancy.

If the vacancy occurs no later than the sixth Tuesday before the primary or general election concerned and the ballots have been printed, the appropriate election officers shall correct the ballots. In making the correction, it is not necessary to reprint complete ballots if any other less expensive technique can be used and the resulting correction is reasonably clear.

If the vacancy occurs after the sixth Tuesday before the primary or general election and time does not exist in which to correct ballots (including absentee ballots), either in total or in part, then the votes cast or recorded for the person who has died or become disqualified must be counted for the person who has been named to fill the vacancy.

When the secretary of state is the person with whom the appointment by the major or minor political party is filed, the secretary of state shall, in certifying candidates or nominations to the various county officers insert the name of the person appointed to fill a vacancy.

If the secretary of state has already sent forth the certificate when the appointment to fill a vacancy is filed, the secretary of state shall immediately certify to the county auditors of the proper counties the name and place of residence of the person appointed to fill a vacancy, the office for which the person is a candidate or nominee, the party represented, and all other pertinent facts pertaining to the vacancy.

**Sec. 17.** RCW 29.27.020 and 1990 c 59 s 8 are each amended to read as follows:

On or before the day following the last day for political parties to fill vacancies in the ticket as provided by ~~((RCW 29.18.150))~~ section 15 of this act, the secretary of state shall certify to each county auditor a list of the candidates who have filed declarations of candidacy in his or her office for the primary. For each office, the certificate shall include the name of each candidate, his or her address, and his or her party designation, if any.

**Sec. 18.** RCW 29.27.030 and 1965 c 9 s 29.27.030 are each amended to read as follows:

Not more than ten nor less than three days prior to the primary election the county auditor shall publish notice of such primary in one or more newspapers of general circulation within the county. ~~((Said))~~ The notice shall contain the proper party designations, the names and addresses of all persons who have filed a declaration of candidacy to be voted upon at that primary election, the notification that is required for each major political party under section 10 of this act, the hours during which the polls will be open, and that the election will be held in the regular polling place in each precinct, giving the address of each polling place~~((:—PROVIDED, That)).~~ The names of all candidates for nonpartisan offices shall be published separately with designation of the offices for which they are candidates but without party designation. This shall be the only notice required for the holding of any primary election.

**Sec. 19.** RCW 29.30.005 and 1990 c 59 s 93 are each amended to read as follows:

Except for the candidates for the positions of president and vice president or for ~~((a partisan or nonpartisan))~~ an office for which no primary is required, the names of all candidates who have filed for ~~((nomination under chapter 29.18 RCW and those independent candidates and candidates of minor political parties who have been nominated under chapter 29.24 RCW shall))~~ office under chapter 29.15 RCW must appear on the appropriate ballots at the primary throughout the jurisdiction in which they are to be nominated.

**Sec. 20.** RCW 29.30.025 and 1990 c 59 s 80 are each amended to read as follows:

After the close of business on the last day for candidates to file for office, the filing officer shall, from among those filings made in person and by mail, determine by lot the order in which the names of those candidates will appear on all primary, sample, and absentee ballots. ~~((In the case of candidates for city, town, and district office, this procedure shall also determine the order for candidate names on the official primary ballot used at the polling place.))~~ The determination shall be done publicly and may be witnessed by the media and by any candidate. If no primary is required for any nonpartisan office under RCW 29.15.150 or 29.21.015, the names

shall appear on the general election ballot in the order determined by lot.

**Sec. 21.** RCW 29.30.095 and 1990 c 59 s 96 are each amended to read as follows:

(1) The name of a candidate for a partisan office for which a primary was conducted shall not be printed on the ballot for that office at the subsequent general election unless the candidate receives a number of votes equal to at least one percent of the total number cast for all candidates for that position sought and a plurality of the votes cast for the candidates of his or her party for that office at the preceding primary.

(2) If, under section 9 of this act, a major political party has chosen to allow voters who choose not to affiliate with any major political party to participate in that major political party's nomination process, then votes cast by all voters affiliated with that party for candidates who indicated that major political party designation when filing a declaration of candidacy must be aggregated with votes cast by unaffiliated voters before comparing vote totals in order to determine a plurality. If not, then a plurality is determined by comparing only the tabulations of votes cast by voters who choose to affiliate with that major political party.

**Sec. 22.** RCW 29.30.101 and 1999 c 298 s 11 are each amended to read as follows:

The names of the persons certified as nominees by the secretary of state or the county canvassing board shall be printed on the ballot at the ensuing election.

No name of any candidate whose nomination at a primary is required by law shall be placed upon the ballot at a general or special election unless it appears upon the certificate of either (1) the secretary of state, or (2) the county canvassing board, or (3) a minor political party convention or the state or county central committee of a major political party to fill a vacancy on its ticket under ~~((RCW 29.18.160))~~ section 16 of this act.

Excluding the office of precinct committee officer or a temporary elected position such as a charter review board member or freeholder, a candidate's name shall not appear more than once upon a ballot for a position regularly nominated or elected at the same election.

**Sec. 23.** RCW 29.33.320 and 1990 c 59 s 28 are each amended to read as follows:

The secretary of state shall not approve a vote tallying system unless it:

(1) Correctly counts votes on ballots on which the proper number of votes have been marked for any office or issue;

The instructions that accompany absentee ballots for primaries must include the notification that is required for each major political party under section 10 of this act. The larger return envelope must contain a declaration by the absentee voter reciting his or her qualifications and stating that he or she has not voted in any other jurisdiction at this election, together with a summary of the penalties for any violation of any of the provisions of this chapter. The return envelope must provide space for the voter to indicate the date on which the ballot was voted and for the voter to sign the oath. A summary of the applicable penalty provisions of this chapter must be printed on the return envelope immediately adjacent to the space for the voter's signature. The signature of the voter on the return envelope must affirm and attest to the statements regarding the qualifications of that voter and to the validity of the ballot. For out-of-state voters, overseas voters, and service voters, the signed declaration on the return envelope constitutes the equivalent of a voter registration

for the election or primary for which the ballot has been issued. The voter must be instructed to either return the ballot to the county auditor by whom it was issued or attach sufficient first class postage, if applicable, and mail the ballot to the appropriate county auditor no later than the day of the election or primary for which the ballot was issued.

If the county auditor chooses to forward absentee ballots, he or she must include with the ballot a clear explanation of the qualifications necessary to vote in that election and must also advise a voter with questions about his or her eligibility to contact the county auditor. This explanation may be provided on the ballot envelope, on an enclosed insert, or printed directly on the ballot itself. If the information is not included, the envelope must clearly indicate that the ballot is not to be forwarded and that return postage is guaranteed.

### "PART I GENERAL PROVISIONS

**NEW SECTION. Sec. 101.** (1) The legislature makes the following findings:

- (a) The effective management of high-risk sex offenders requires a comprehensive approach that includes appropriate sentencing for sex offenses and a plan to address both the immediate and long-term need to protect the public and meet constitutional requirements.
  - (b) The individualized treatment required for constitutional civil commitment includes the realistic possibility of release to a less restrictive alternative in appropriate cases.
  - (c) Some high-risk sex offenders are most appropriately managed through an indeterminate sentencing structure in which they will be supervised and can be retained in or returned to a state correctional institution until the statutory maximum sentence has expired. The state does not currently have an indeterminate sentencing structure. Consequently, the state must make changes to its sentencing structure to effectively manage these high-risk sex offenders.
- (2) Therefore, the legislature intends to:
- (a) Maximize public safety and enhance the potential for successful treatment of sexually violent predators through the tightly managed use of less restrictive alternatives;
  - (b) Ensure the prompt siting and timely operation of a secure community transition facility on McNeil Island, and ensure the continued progress toward the construction and operation of the total confinement facility already planned for McNeil Island, to further the treatment and management of persons civilly committed under chapter 71.09 RCW;
  - (c) Provide guidance for the equitable distribution and siting of secure community transition facilities for persons ordered conditionally released to less restrictive alternatives under chapter 71.09 RCW; and
  - (d) Manage high-risk sex offenders to the greatest extent possible through the criminal justice system by establishing an indeterminate sentencing structure for those offenders who present a high risk to the community, based on their sex offense history.

**Sec. 102.** RCW 71.09.020 and 2001 c 286 s 4 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

## PART II

### SITING AND OPERATION OF SECURE COMMUNITY TRANSITION FACILITIES

NEW SECTION. **Sec. 201.** A new section is added to chapter 71.09 RCW to read as follows:

(1) The secretary is authorized to site, construct, occupy, and operate a secure community transition facility on McNeil Island for persons authorized to petition for court-ordered conditional release under RCW 71.09.090(1) and a special commitment center on McNeil Island with up to four hundred four beds as a total confinement facility under this chapter, subject to appropriated funding for those purposes. The secure community transition facility shall be authorized for the number of beds needed to ensure compliance with the orders of the superior courts under this chapter and the federal district court for the western district of Washington, but in no case more than fifteen occupied beds.

(2) Notwithstanding RCW 36.70A.103 or any other law, this statute preempts and supersedes local plans, development regulations, permitting requirements, inspection requirements, and other laws as necessary to enable the secretary to site, construct, occupy, and operate a secure community transition facility on McNeil Island and a total confinement facility on McNeil Island.

(3) To the greatest extent possible, until June 30, 2003, persons who were not civilly committed from the county in which the secure community transition facility established pursuant to subsection (1) of this section is located may not be conditionally released to a setting less restrictive than that facility in that county.

(4) As of the effective date of this section, the state shall immediately cease any efforts in effect on such date to site secure community transition facilities, other than the facility authorized by subsection (1) of this section, and shall instead site such facilities according to the requirements of subsections (5) and (6) of this section.

(5) The department shall determine, in consultation with the attorney general, whether additional secure community transition facilities, other than the facility authorized pursuant to subsection (1) of this section, are necessary. If additional facilities are necessary, the department shall prepare a projected list of counties in which the facilities need to be sited over the next six years, and every six years thereafter, and transmit that list to the office of financial management. In preparing this list, the department shall comply with the following requirements:

(a) No additional secure community transition facilities may be sited in the county where the special commitment center is located until after June 30, 2008.

(b) The total number of secure community transition facility beds sited between the effective date of this section and June 30, 2008, in each county may be no greater than the total number of persons civilly committed from that county who were residents of the special commitment center on April 1, 2001. The total number of secure community transition facility beds sited between July 1, 2008, and June 30, 2015, in each county may be no greater than the total number of persons civilly committed from that county who were residents of the special commitment center on July 1, 2008.

(c) The department shall, in consultation with the joint select committee established pursuant to section 219 of this act and consistent with the requirements of section 210 of this act, provide for the equitable

distribution of secure community transition facilities among counties. The department shall base this equitable distribution on the following factors and give weight to each in accordance with the order of priority listed below:

- (i) The total number of persons civilly committed from each county who were residents of the special commitment center on April 1, 2001, per one thousand persons residing in the county;
- (ii) The number of state hospital beds for mentally ill persons and secure community transition facility beds operated by the department of social and health services, and the number of correctional institution, work release, and other criminal justice facility beds owned or operated by, or operated under contract with, the department of corrections, located in each county per one thousand persons residing in the county;
- (iii) The number of projected secure community transition facility beds operated by the department of social and health services, and the number of projected correctional institution, work release, and other criminal justice facility beds owned or operated by, or operated under contract with, the department of corrections located in each county per one thousand persons residing in the county; and
- (iv) The number of registered sex offenders classified as level II or level III and the number of sex offenders registered as homeless per one thousand persons residing in the county.

(6) In identifying potential sites within a county for the location of a secure community transition facility, the department shall work with local governments to provide for the equitable distribution of such facilities in jurisdictions and neighborhoods within the county. The department and local governments shall base this equitable distribution on the following factors and give weight to each in accordance with the order of priority listed below:

- (a) The number of state hospital beds for mentally ill persons and secure community transition facility beds operated by the department of social and health services, and the number of correctional institution, work release, or other criminal justice facility beds owned or operated by, or operated under contract with, the department of corrections, located in each jurisdiction or neighborhood per one thousand persons residing in the jurisdiction or neighborhood;
- (b) The number of projected secure community transition facility beds operated by the department of social and health services, and the number of projected correctional institution, work release, or other criminal justice facility beds owned or operated by, or operated under contract with, the department of corrections located in each jurisdiction or neighborhood per one thousand persons residing in the jurisdiction or neighborhood; and
- (c) The number of registered sex offenders classified as level II or level III and the number of sex offenders registered as homeless in the jurisdiction or neighborhood per one thousand persons residing in the jurisdiction or neighborhood.

(7) For the purposes of subsections (3), (5), and (6) of this section, a person is civilly committed from a particular county if the petition for civil commitment with respect to the person was filed in that county.

(8) For the purposes of subsections (5) and (6) of this section:

- (a) "Equitable distribution" means siting or locating secure community transition facilities in a manner that will not cause a disproportionate grouping of similar facilities either in any one county, or in any one jurisdiction or community within a county, as relevant; and
- (b) "Jurisdiction" means a city, town, or unincorporated area of a county.

**NEW SECTION. Sec. 202.** A new section is added to chapter 72.09 RCW to read as follows:

The secretary is authorized to operate a correctional facility on McNeil Island for the confinement of sex offenders and other offenders sentenced by the courts, and to make necessary repairs, renovations, additions, and improvements to state property for that purpose, notwithstanding any local comprehensive plans, development regulations, permitting requirements, or other local laws. Operation of the correctional facility and other state facilities authorized by this section and other law includes access to adequate docking facilities on state-owned tidelands at the town of Steilacoom.

**Sec. 203.** RCW 36.70A.103 and 1991 sp.s. c 32 s 4 are each amended to read as follows:

State agencies shall comply with the local comprehensive plans and development regulations and amendments thereto adopted pursuant to this chapter except as otherwise provided in sections 201 (1) and (2) and 202 of this act.

**NEW SECTION. Sec. 204.** Beginning on the effective date of this section, the state shall immediately enter into negotiations for a mitigation agreement with: (1) The county in which the secure community transition facility established pursuant to section 201(1) of this act is located; (2) each community in which the persons from that facility will reside or regularly spend time in pursuant to court orders for regular work or education, or to receive social services, or will regularly be transported through to reach those other communities; and (3) other impacted parties. The negotiations must be toward an agreement that will provide state funding, as appropriated for this purpose, in an amount adequate to mitigate anticipated or realized increased costs resulting from any increased risks to public safety brought about by the presence of sexually violent predators in those communities due to the siting of the secure community transition facility established pursuant to section 201(1) of this act. This section expires June 30, 2003.

**NEW SECTION. Sec. 205.** A new section is added to chapter 71.09 RCW to read as follows:

(1) The department shall make reasonable efforts to distribute the impact of the employment, education, and social services needs of the residents of the secure community transition facility established pursuant to section 201(1) of this act among the adjoining counties and not to concentrate the residents' use of resources in any one community.

(2) The department shall develop policies to ensure that placement of persons eligible in the future for conditional release to a setting less restrictive than the facility established pursuant to section 201(1) of this act will be equitably distributed among the counties and within jurisdictions in the county.

**NEW SECTION. Sec. 206.** The department of social and health services shall by August 1, 2001, and prior to operating the secure community transition facility established pursuant to section 201(1) of this act, hold at least three public hearings in the affected communities within the county where the facility is located.

The purpose of the public hearings is to seek input from county and city officials, local law enforcement officials, and the public regarding operations and security measures needed to adequately protect the community from any increased risk to public safety brought about by the presence of persons conditionally released from the special commitment center in these communities due to the siting of the facility. The department shall ensure that persons have a full opportunity to speak to the issues to be addressed during each hearing.

**NEW SECTION. Sec. 207.** The secretary of social and health services shall coordinate with the secretary of corrections and the appropriate local or state law enforcement agency or agencies to establish a twenty-four-hour law enforcement presence on McNeil Island before any person is admitted to the secure community transition facility established under section 201(1) of this act. Law enforcement shall coordinate with the emergency response team for McNeil Island to provide planning and coordination in the event of an escape from the special commitment center or the secure community transition facility.

In addition, or if no law enforcement agency will provide a law enforcement presence on the island, not more than ten correctional employees, as selected by the secretary of corrections, who are members of the emergency response team for the McNeil Island correctional facility, shall have the powers and duties of a general authority peace officer while acting in a law enforcement capacity. If there is no law enforcement agency to provide the law enforcement presence, those correctional employees selected as peace officers shall provide a twenty-four-hour presence and shall not have correctional duties at the correctional facility in addition to the emergency response team while acting in a law enforcement capacity.

**NEW SECTION. Sec. 208.** A new section is added to chapter 71.09 RCW to read as follows:

(1) By July 1, 2001, the department must provide the appropriate committees of the legislature with a transportation plan to address the issues of coordinating the movement of residents of the secure community transition facility established pursuant to section 201(1) of this act between McNeil Island and the mainland with the movement of others who must use the same docks or equipment within the funds appropriated for this purpose.

(2) If the department does not provide a separate vessel for transporting residents of the secure community transition facility established in section 201(1) of this act between McNeil Island and the mainland, the plan shall

include at least the following components:

(a) The residents shall be separated from minors and vulnerable adults, except vulnerable adults who have been found to be sexually violent predators.

(b) The residents shall not be transported during times when children are normally coming to and from the mainland for school.

(3) The department shall designate a separate waiting area at the points of debarkation, and residents shall be required to remain in this area while awaiting transportation.

(4) The department shall provide law enforcement agencies in the counties and cities in which residents of the secure community transition facility established pursuant to section 201(1) of this act regularly participate in employment, education, or social services, or through which these persons are regularly transported, with a copy of the court's order of conditional release with respect to these persons. The department shall also provide these law enforcement agencies with a general plan of each resident's planned activities in the community, and update these plans as needed.

**NEW SECTION. Sec. 209.** A new section is added to chapter 71.09 RCW to read as follows:

When considering whether a person civilly committed under this chapter and conditionally released to a secure community transition facility is appropriate for release to a placement that is less restrictive than that facility, the court shall consider whether the person has progressed in treatment to the point that a significant change in the person's routine, including but not limited to a change of employment, education, residence, or sex offender treatment provider will not cause the person to regress to the point that the person presents a greater risk to the community than can reasonably be addressed in the proposed placement.

**NEW SECTION. Sec. 210.** A new section is added to chapter 71.09 RCW to read as follows:

(1) Except with respect to the secure community transition facility established pursuant to section 201(1) of this act, a secure community transition facility shall meet the following minimum siting requirements:

(a) The location of the secure community transition facility shall enable:

(i) An average response time of five minutes or less by law enforcement officers who are qualified and designated to perform security response functions relative to the facility; and

(ii) An average response time by fire safety and emergency medical personnel that is comparable to the average of the local community.

(b) In no case shall a secure community transition facility be located adjacent to, immediately across a street or parking lot from, or within the line of sight of a risk potential activity or facility in existence at the time a site is listed for consideration. "Within the line of sight" means that it is possible to reasonably visually distinguish and recognize individuals.

(2) The secretary shall adopt rules that, at a minimum:

(a) Include the requirements set out in subsection (1) of this section;

(b) Give great weight to sites that are the farthest removed from any risk potential activity;

(c) Provide that the requirements of sections 211 and 212 of this act can be met with respect to any site chosen; and

(d) Include criteria to be considered in evaluating the appropriateness of a potential site for a secure community transition facility. At a minimum, the criteria shall include:

(i) Whether limited visibility between the facility and adjacent properties can be achieved, upon request of an adjacent property owner, prior to placement of any person;

(ii) The distance from, and number of, risk potential activities and facilities;

(iii) Reasonable proximity to available qualified medical, mental health, sex offender, and chemical dependency treatment providers and facilities. For purposes of this section the "availability" of qualified treatment providers is based upon an analysis of provider qualifications and willingness to provide services, average commute time, and cost of services;

(iv) Suitability of the location for programming, staffing, and support considerations; and

(v) Reasonable proximity to employment, educational, vocational, and other treatment plan components.

(3) In making a decision regarding a site, the secretary shall give priority to public safety and security

considerations. Any analysis related to a decision to site a facility at a particular location shall be made available at the public hearings prescribed in section 214 of this act.

(4) Final regulations implementing this section may not be adopted prior to March 31, 2002.

**NEW SECTION. Sec. 211.** A new section is added to chapter 71.09 RCW to read as follows:

(1) Security systems for all secure community transition facilities shall meet the following minimum qualifications:

(a) The security panel must be a commercial grade panel with tamper-proof switches and a key-lock to prevent unauthorized access.

(b) There must be an emergency electrical supply system which shall include a battery back-up system and a generator.

(c) The system must include personal panic devices for all staff.

(d) The security system must be capable of being monitored and signaled either by telephone through either a land or cellular telephone system or by private radio network in the event of a total dial-tone failure or through equivalent technologies.

(e) The department shall issue photo-identification badges to all staff which must be worn at all times.

(2) Security systems for secure community transition facilities designed to house more than six residents shall also include a fence and provide the maximum protection appropriate in a civil facility for persons in less than total confinement.

**NEW SECTION. Sec. 212.** A new section is added to chapter 71.09 RCW to read as follows:

(1) Secure community transition facilities shall meet the following minimum staffing requirements:

(a) At any time the census of a facility is six or fewer residents, the facility shall maintain a minimum staffing ratio of one staff per resident during normal waking hours and two awake staff per three residents during normal sleeping hours.

(b) At any time the census of a facility is six or fewer residents, all staff shall be classified as residential rehabilitation counselor II or have a classification that indicates a higher level of skill, experience, and training.

(c) Before being assigned to a facility, all staff shall have training in sex offender issues, self-defense, and crisis de-escalation skills in addition to departmental orientation and, as appropriate, management training. All staff with resident treatment or care duties must participate in ongoing in-service training.

(d) All staff must pass a departmental background check and the check is not subject to the limitations in chapter 9.96A RCW. A person who has been convicted of a felony, or any sex offense, may not be employed at the secure community transition facility or be approved as an escort for a resident of the facility.

(2) With respect to the facility established pursuant to section 201(1) of this act, the department shall, no later than December 1, 2001, provide a staffing plan to the appropriate committees of the legislature that will cover the growth of that facility to its full capacity.

**NEW SECTION. Sec. 213.** A new section is added to chapter 71.09 RCW to read as follows:

(1) Unless otherwise ordered by the court:

(a) Residents of a secure community transition facility shall wear electronic monitoring devices at all times. To the extent that electronic monitoring devices that employ global positioning system technology are available and funds for this purpose are appropriated by the legislature, the department shall use these devices.

(b) At least one staff member, or other court-authorized and department-approved person must escort each resident when the resident leaves the secure community transition facility for appointments, employment, or other approved activities. Escorting persons must supervise the resident closely and maintain close proximity to the resident. The escort must immediately notify the department of any serious violation, as defined in section 216 of this act by the resident and must immediately notify law enforcement of any violation of law by the resident. The escort may not be a relative of the resident.

(2) Staff members of the special commitment center and any other total confinement facility and any secure community transition facility must be trained in self-defense and appropriate crisis responses including incident de-escalation. Prior to escorting a person outside of a facility, staff members must also have training in

the offense pattern of the offender they are escorting.

(3) Any escort must carry a cellular telephone or a similar device at all times when escorting a resident of a secure community transition facility.

(4) The department shall require training in offender pattern, self-defense, and incident response for all court-authorized escorts who are not employed by the department or the department of corrections.

**NEW SECTION. Sec. 214.** A new section is added to chapter 71.09 RCW to read as follows:

(1) Whenever the department operates, or the secretary enters into a contract to operate, a secure community transition facility except the secure community transition facility established pursuant to section 201(1) of this act, the secure community transition facility may be operated only after the public notification and opportunities for review and comment as required by this section.

(2) The secretary shall establish a process for early and continuous public participation in establishing or relocating secure community transition facilities. The process shall include, at a minimum, public meetings in the local communities affected, as well as opportunities for written and oral comments, in the following manner:

(a) If there are more than three sites initially selected as potential locations and the selection process by the secretary or a service provider reduces the number of possible sites for a secure community transition facility to no fewer than three, the secretary or the chief operating officer of the service provider shall notify the public of the possible siting and hold at least two public hearings in each community where a secure community transition facility may be sited. The public hearings shall be conducted not less than forty-five days before a final selection is made.

(b) When the secretary or service provider has determined the secure community transition facility's location, the secretary or the chief operating officer of the service provider shall hold at least one additional public hearing in the community where the secure community transition facility will be sited.

(c) When the secretary has entered negotiations with a service provider and only one site is under consideration, then at least two public hearings shall be held.

(d) To provide adequate notice of, and opportunity for interested persons to comment on, a proposed location, the secretary or the chief operating officer of the service provider shall provide at least fourteen days' advance notice of the meeting to all newspapers of general circulation in the community, all radio and television stations generally available to persons in the community, any school district in which the secure community transition facility would be sited or whose boundary is within two miles of a proposed secure community transition facility, any library district in which the secure community transition facility would be sited, local business or fraternal organizations that request notification from the secretary or agency, and any person or property owner within a one-half mile radius of the proposed secure community transition facility. Before initiating this process, the department of social and health services shall contact local government planning agencies in the communities containing the proposed secure community transition facility. The department of social and health services shall coordinate with local government agencies to ensure that opportunities are provided for effective citizen input and to reduce the duplication of notice and meetings.

(3) If local government land use regulations require that a special use or conditional use permit be submitted and approved before a secure community transition facility can be sited, and the process for obtaining such a permit includes public notice and hearing requirements similar to those required under this section, the requirements of this section shall not apply to the extent they would duplicate requirements under the local land use regulations.

(4) This section applies only to secure community transition facilities sited after the effective date of this section.

**NEW SECTION. Sec. 215.** A new section is added to chapter 71.09 RCW to read as follows:

(1) The secretary shall develop a process with local governments that allows each community in which a secure community transition facility is located to establish operational advisory boards of at least seven persons for the secure community transition facilities. The department may conduct community awareness activities to publicize this opportunity. The operational advisory boards developed under this section shall be implemented following the decision to locate a secure community transition facility in a particular community.

(2) The operational advisory boards may review and make recommendations regarding the security and operations of the secure community transition facility and conditions or modifications necessary with relation to any person who the secretary proposes to place in the secure community transition facility.

(3) The facility management must consider the recommendations of the community advisory boards. Where the facility management does not implement an operational advisory board recommendation, the management must provide a written response to the operational advisory board stating its reasons for its decision not to implement the recommendation.

(4) The operational advisory boards, their members, and any agency represented by a member shall not be liable in any cause of action as a result of its recommendations unless the advisory board acts with gross negligence or bad faith in making a recommendation.

**NEW SECTION. Sec. 216.** A new section is added to chapter 71.09 RCW to read as follows:

(1) The secretary shall adopt a violation reporting policy for persons conditionally released to less restrictive alternative placements. The policy shall require written documentation by the department and service providers of all violations of conditions set by the department, the department of corrections, or the court and establish criteria for returning a violator to the special commitment center or a secure community transition facility with a higher degree of security. Any conditionally released person who commits a serious violation of conditions shall be returned to the special commitment center, unless arrested by a law enforcement officer, and the court shall be notified immediately and shall initiate proceedings under RCW 71.09.098 to revoke or modify the less restrictive alternative placement. Nothing in this section limits the authority of the department to return a person to the special commitment center based on a violation that is not a serious violation as defined in this section. For the purposes of this section, "serious violation" includes but is not limited to:

(a) The commission of any criminal offense;  
(b) Any unlawful use or possession of a controlled substance; and  
(c) Any violation of conditions targeted to address the person's documented pattern of offense that increases the risk to public safety.

(2) When a person is conditionally released to a less restrictive alternative under this chapter and is under the supervision of the department of corrections, notice of any violation of the person's conditions of release must also be made to the department of corrections.

(3) Whenever the secretary contracts with a service provider to operate a secure community transition facility, the contract shall include a requirement that the service provider must report to the department of social and health services any known violation of conditions committed by any resident of the secure community transition facility.

(4) The secretary shall document in writing all violations, penalties, actions by the department of social and health services to remove persons from a secure community transition facility, and contract terminations. The secretary shall compile this information and submit it to the appropriate committees of the legislature on an annual basis. The secretary shall give great weight to a service provider's record of violations, penalties, actions by the department of social and health services or the department of corrections to remove persons from a secure community transition facility, and contract terminations in determining whether to execute, renew, or renegotiate a contract with a service provider.

**NEW SECTION. Sec. 217.** A new section is added to chapter 71.09 RCW to read as follows:

A conditional release from a total confinement facility to a less restrictive alternative is a release that subjects the conditionally released person to the registration requirements specified in RCW 9A.44.130 and to community notification under RCW 4.24.550.

When a person is conditionally released to the secure community transition facility established pursuant to section 201(1) of this act, the sheriff must provide each household on McNeil Island with the community notification information provided for under RCW 4.24.550.

**NEW SECTION. Sec. 218.** A new section is added to chapter 71.09 RCW to read as follows:

An employer who hires a person conditionally released to a less restrictive alternative must notify all other

employees of the conditionally released person's status. Notification for conditionally released persons who enroll in institutions of higher education shall be made pursuant to the provisions of RCW 9A.44.130 related to sex offenders enrolled in institutions of higher education and RCW 4.24.550. This section applies only to conditionally released persons whose court-approved treatment plan includes permission or a requirement for the person to obtain education or employment and to employment positions or educational programs that meet the requirements of the court-approved treatment plan.

**NEW SECTION. Sec. 219.** (1) A joint select committee on the equitable distribution of secure community transition facilities is established.

(2) The joint select committee shall consist of the following persons:

(a) Two members from each of the two largest caucuses of the senate, appointed by the president of the senate, at least one member being a member of the senate human services and corrections committee;

(b) Two members from each of the two largest caucuses of the house of representatives, appointed by the co-speakers of the house of representatives, at least one member being a member of the house criminal justice and corrections committee;

Nothing in this act shall operate to restrict a court's authority to make less restrictive alternative placements to a committed person's individual residence or to a setting less restrictive than a secure community transition facility. A court-ordered less restrictive alternative placement to a committed person's individual

residence is not a less restrictive alternative placement to a secure community transition facility.

**NEW SECTION. Sec. 221.** The legislature finds that the state needs an increasing number of certified sex offender treatment providers to treat sexually violent predators and meet the state's commitment to long-term treatment, help reduce recidivism, and more adequately provide for the community. The legislature recognizes that these treatment providers offer a valuable service to the people of Washington and may experience difficulty maintaining adequate liability protection given the inherent uncertainties of providing treatment to sexually violent predators. The legislature intends to provide very limited immunity, for instances of simple negligence only, to certified sex offender treatment providers for their treatment decisions involving sexually violent predators released to a less restrictive alternative under chapter 71.09 RCW.

**Sec. 222.** RCW 18.155.020 and 2000 c 171 s 33 and 2000 c 28 s 38 are each reenacted and amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter:

(c) The certified sex offender treatment provider's act or omission did not constitute gross negligence or

willful or wanton misconduct.

(2) Nothing in this section affects the certified sex offender treatment provider's civil liability for damages caused by the certified sex offender treatment provider's breach of any duty to warn or protect imposed by law.

(3) Nothing in this section affects the state's civil liability for damages for injuries or death of another caused by a sexually violent predator or level III sex offender.

A treatment provider approved by the department of social and health services under (c) of this subsection, who is not certified by the department of health, shall consult with a certified provider during the person's period of treatment to ensure compliance with the rules adopted by the department of health. The frequency and content of the consultation shall be based on the recommendation of the certified provider.

(2) A treatment provider, whether or not he or she is employed or approved by the department of social and health services under subsection (1) of this section or otherwise certified, may not perform or provide treatment of sexually violent predators under this section if the treatment provider has been:

(a) Convicted of a sex offense, as defined in RCW 9.94A.030;

~~((45))~~ (46) "Work crew" means a program of partial confinement consisting of civic improvement tasks for the benefit of the community that complies with RCW 9.94A.135.

~~((46))~~ (47) "Work ethic camp" means an alternative incarceration program as provided in RCW 9.94A.137 designed to reduce recidivism and lower the cost of corrections by requiring offenders to complete a comprehensive array of real-world job and vocational experiences, character-building work ethics training, life management skills development, substance abuse rehabilitation, counseling, literacy training, and basic adult education.

~~((47))~~ (48) "Work release" means a program of partial confinement available to offenders who are employed or engaged as a student in a regular course of study at school.

**Sec. 302.** RCW 9.94A.715 and 2001 c 10 s 5 are each amended to read as follows:

(1) When a court sentences a person to the custody of the department for a sex offense not sentenced under

section 303 of this act, a violent offense, any crime against persons under RCW 9.94A.440(2), or a felony offense under chapter 69.50 or 69.52 RCW, committed on or after July 1, 2000, the court shall in addition to the other terms of the sentence, sentence the offender to community custody for the community custody range established under RCW 9.94A.040 or up to the period of earned release awarded pursuant to RCW 9.94A.150 (1) and (2), whichever is longer. The community custody shall begin: (a) Upon completion of the term of confinement; (b) at such time as the offender is transferred to community custody in lieu of earned release in accordance with RCW 9.94A.150 (1) and (2); or (c) with regard to offenders sentenced under RCW 9.94A.660, upon failure to complete or administrative termination from the special drug offender sentencing alternative program.

(2)(a) Unless a condition is waived by the court, the conditions of community custody shall include those provided for in RCW 9.94A.700(4). The conditions may also include those provided for in RCW 9.94A.700(5). The court may also order the offender to participate in rehabilitative programs or otherwise perform affirmative conduct reasonably related to the circumstances of the offense, the offender's risk of reoffending, or the safety of the community, and the department shall enforce such conditions pursuant to subsection (6) of this section.

(b) As part of any sentence that includes a term of community custody imposed under this subsection, the court shall also require the offender to comply with any conditions imposed by the department under RCW 9.94A.720. The department shall assess the offender's risk of reoffense and may establish and modify additional conditions of the offender's community custody based upon the risk to community safety. In addition, the department may require the offender to participate in rehabilitative programs, or otherwise perform affirmative conduct, and to obey all laws.

(c) The department may not impose conditions that are contrary to those ordered by the court and may not contravene or decrease court imposed conditions. The department shall notify the offender in writing of any such conditions or modifications. In setting, modifying, and enforcing conditions of community custody, the department shall be deemed to be performing a quasi-judicial function.

(3) If an offender violates conditions imposed by the court or the department pursuant to this section during community custody, the department may transfer the offender to a more restrictive confinement status and impose other available sanctions as provided in RCW 9.94A.205 and 9.94A.207.

(4) Except for terms of community custody under RCW 9.94A.670, the department shall discharge the offender from community custody on a date determined by the department, which the department may modify, based on risk and performance of the offender, within the range or at the end of the period of earned release, whichever is later.

(5) At any time prior to the completion or termination of a sex offender's term of community custody, if the court finds that public safety would be enhanced, the court may impose and enforce an order extending any or all of the conditions imposed pursuant to this section for a period up to the maximum allowable sentence for the crime as it is classified in chapter 9A.20 RCW, regardless of the expiration of the offender's term of community custody. If a violation of a condition extended under this subsection occurs after the expiration of the offender's term of community custody, it shall be deemed a violation of the sentence for the purposes of RCW 9.94A.195 and may be punishable as contempt of court as provided for in RCW 7.21.040. If the court extends a condition beyond the expiration of the term of community custody, the department is not responsible for supervision of the offender's compliance with the condition.

(6) Within the funds available for community custody, the department shall determine conditions and duration of community custody on the basis of risk to community safety, and shall supervise offenders during community custody on the basis of risk to community safety and conditions imposed by the court. The secretary shall adopt rules to implement the provisions of this subsection.

(7) By the close of the next business day after receiving notice of a condition imposed or modified by the department, an offender may request an administrative review under rules adopted by the department. The condition shall remain in effect unless the reviewing officer finds that it is not reasonably related to any of the following: (a) The crime of conviction; (b) the offender's risk of reoffending; or (c) the safety of the community.

**NEW SECTION.** **Sec. 303.** A new section is added to chapter 9.94A RCW to read as follows:

(1) An offender who is not a persistent offender shall be sentenced under this section if the offender:

(a) Is convicted of:

- (i) Rape in the first degree, rape in the second degree, rape of a child in the first degree, child molestation in the first degree, rape of a child in the second degree, or indecent liberties by forcible compulsion;
- (ii) Any of the following offenses with a finding of sexual motivation: Murder in the first degree, murder in the second degree, homicide by abuse, kidnapping in the first degree, kidnapping in the second degree, assault in the first degree, assault in the second degree, assault of a child in the first degree, or burglary in the first degree; or
- (iii) An attempt to commit any crime listed in this subsection (1)(a); committed on or after the effective date of this section; or
- (b) Has a prior conviction for an offense listed in RCW 9.94A.030(32)(b), and is convicted of any sex offense which was committed after the effective date of this section.
- For purposes of this subsection (1)(b), failure to register is not a sex offense.
- (2) Upon a finding that the offender is subject to sentencing under this section, the court shall impose a sentence to a maximum term consisting of the statutory maximum sentence for the offense and a minimum term either within the standard sentence range for the offense, or outside the standard sentence range pursuant to RCW 9.94A.390, if the offender is otherwise eligible for such a sentence.
- (3) A person sentenced under subsection (2) of this section shall serve the sentence in a facility or institution operated, or utilized under contract by the state.
- (4) When a court sentences a person to the custody of the department under this section, the court shall, in addition to the other terms of the sentence, sentence the offender to community custody under the supervision of the department and the authority of the board for any period of time the person is released from total confinement before the expiration of the maximum sentence.
- (5)(a) Unless a condition is waived by the court, the conditions of community custody shall include those provided for in RCW 9.94A.700(4). The conditions may also include those provided for in RCW 9.94A.700(5). The court may also order the offender to participate in rehabilitative programs or otherwise perform affirmative conduct reasonably related to the circumstances of the offense, the offender's risk of reoffending, or the safety of the community, and the department and the board shall enforce such conditions pursuant to sections 304, 307, and 308 of this act.
- (b) As part of any sentence under this section, the court shall also require the offender to comply with any conditions imposed by the board under sections 304 and 306 through 309 of this act.

**NEW SECTION. Sec. 304.** A new section is added to chapter 9.94A RCW to read as follows:

- (1) When an offender is sentenced under section 303 of this act, the department shall assess the offender's risk of recidivism and shall recommend to the board any additional or modified conditions of the offender's community custody based upon the risk to community safety. In addition, the department shall make a recommendation with regard to, and the board may require the offender to participate in, rehabilitative programs, or otherwise perform affirmative conduct, and obey all laws. The board must consider and may impose department-recommended conditions.
- (2) The department may not recommend and the board may not impose conditions that are contrary to those ordered by the court and may not contravene or decrease court-imposed conditions. The board shall notify the offender in writing of any such conditions or modifications.
- (3) In setting, modifying, and enforcing conditions of community custody, the department shall be deemed to be performing a quasi-judicial function.
- (4) If an offender violates conditions imposed by the court, the department, or the board during community custody, the board or the department may transfer the offender to a more restrictive confinement status and impose other available sanctions as provided in section 309 of this act.
- (5) By the close of the next business day, after receiving notice of a condition imposed by the board or the department, an offender may request an administrative hearing under rules adopted by the board. The condition shall remain in effect unless the hearing examiner finds that it is not reasonably related to any of the following:
- (a) The crime of conviction;
  - (b) The offender's risk of reoffending; or
  - (c) The safety of the community.

(6) An offender released by the board under section 306 of this act shall be subject to the supervision of the department until the expiration of the maximum term of the sentence. The department shall monitor the offender's compliance with conditions of community custody imposed by the court, department, or board, and promptly report any violations to the board. Any violation of conditions of community custody established or modified by the board shall be subject to the provisions of sections 307 through 310 of this act.

(7) If the department finds that an emergency exists requiring the immediate imposition of conditions of release in addition to those set by the board under section 306 of this act and subsection (1) of this section in order to prevent the offender from committing a crime, the department may impose additional conditions. The department may not impose conditions that are contrary to those set by the board or the court and may not contravene or decrease court-imposed or board-imposed conditions. Conditions imposed under this subsection shall take effect immediately after notice to the offender by personal service, but shall not remain in effect longer than seven working days unless approved by the board under subsection (1) of this section within seven working days.

**NEW SECTION. Sec. 305.** A new section is added to chapter 72.09 RCW to read as follows:

The department shall provide offenders sentenced under section 303 of this act with the opportunity for sex offender treatment during incarceration.

**NEW SECTION. Sec. 306.** A new section is added to chapter 9.95 RCW to read as follows:

(1)(a) Before the expiration of the minimum term, as part of the end of sentence review process under RCW 72.09.340, 72.09.345, and where appropriate, 72.09.370, the department shall conduct, and the offender shall participate in, an examination of the offender, incorporating methodologies that are recognized by experts in the prediction of sexual dangerousness, and including a prediction of the probability that the offender will engage in sex offenses if released.

(b) The board may contract for an additional, independent examination, subject to the standards in this section.

(2) The board shall impose the conditions and instructions provided for in RCW 9.94A.720. The board shall consider the department's recommendations and may impose conditions in addition to those recommended by the department. The board may impose or modify conditions of community custody following notice to the offender.

(3) No later than ninety days before expiration of the minimum term, but after the board receives the results from the end of sentence review process and the recommendations for additional or modified conditions of community custody from the department, the board shall conduct a hearing to determine whether it is more likely than not that the offender will engage in sex offenses if released on conditions to be set by the board. The board may consider an offender's failure to participate in an evaluation under subsection (1) of this section in determining whether to release the offender. The board shall order the offender released, under such affirmative and other conditions as the board determines appropriate, unless the board determines by a preponderance of the evidence that, despite such conditions, it is more likely than not that the offender will commit sex offenses if released. If the board does not order the offender released, the board shall establish a new minimum term, not to exceed an additional two years.

**NEW SECTION. Sec. 307.** A new section is added to chapter 9.95 RCW to read as follows:

(1) Whenever the board or a community corrections officer of this state has reason to believe an offender released under section 306 of this act has violated a condition of community custody or the laws of this state, any community corrections officer may arrest or cause the arrest and detention of the offender pending a determination by the board whether sanctions should be imposed or the offender's community custody should be revoked. The community corrections officer shall report all facts and circumstances surrounding the alleged violation to the board, with recommendations.

(2) If the board or the department causes the arrest or detention of an offender for a violation that does not amount to a new crime and the offender is arrested or detained by local law enforcement or in a local jail, the board or department, whichever caused the arrest or detention, shall be financially responsible for local costs.

Jail bed costs shall be allocated at the rate established under RCW 9.94A.207(3).

**NEW SECTION. Sec. 308.** A new section is added to chapter 9.95 RCW to read as follows:

Any offender released under section 306 of this act who is arrested and detained in physical custody by the authority of a community corrections officer, or upon the written order of the board, shall not be released from custody on bail or personal recognizance, except upon approval of the board and the issuance by the board of an order reinstating the offender's release on the same or modified conditions. All chiefs of police, marshals of cities and towns, sheriffs of counties, and all police, prison, and peace officers and constables shall execute any such order in the same manner as any ordinary criminal process.

**NEW SECTION. Sec. 309.** A new section is added to chapter 9.95 RCW to read as follows:

(1) If an offender released by the board under section 306 of this act violates any condition or requirement of community custody, the board may transfer the offender to a more restrictive confinement status to serve up to the remaining portion of the sentence, less credit for any period actually spent in community custody or in detention awaiting disposition of an alleged violation and subject to the limitations of subsection (2) of this section.

(2) Following the hearing specified in subsection (3) of this section, the board may impose sanctions such as work release, home detention with electronic monitoring, work crew, community service, inpatient treatment, daily reporting, curfew, educational or counseling sessions, supervision enhanced through electronic monitoring, or any other sanctions available in the community, or may suspend or revoke the release to community custody whenever an offender released by the board under section 306 of this act violates any condition or requirement of community custody.

(3) If an offender released by the board under section 306 of this act is accused of violating any condition or requirement of community custody, he or she is entitled to a hearing before the board prior to the imposition of sanctions. The hearing shall be considered as offender disciplinary proceedings and shall not be subject to chapter 34.05 RCW. The board shall develop hearing procedures and a structure of graduated sanctions consistent with the hearing procedures and graduated sanctions developed pursuant to RCW 9.94A.205. The board may suspend the offender's release to community custody and confine the offender in a correctional institution owned, operated by, or operated under contract with the state prior to the hearing unless the offender has been arrested and confined for a new criminal offense.

(4) The hearing procedures required under subsection (3) of this section shall be developed by rule and include the following:

(a) Hearings shall be conducted by members of the board unless the board enters into an agreement with the department to use the hearing officers established under RCW 9.94A.205;

(b) The board shall provide the offender with written notice of the violation, the evidence relied upon, and the reasons the particular sanction was imposed. The notice shall include a statement of the rights specified in this subsection, and the offender's right to file a personal restraint petition under court rules after the final decision of the board;

(c) The hearing shall be held unless waived by the offender, and shall be electronically recorded. For offenders not in total confinement, the hearing shall be held within fifteen working days, but not less than twenty-four hours after notice of the violation. For offenders in total confinement, the hearing shall be held within five working days, but not less than twenty-four hours after notice of the violation;

(d) The offender shall have the right to: (i) Be present at the hearing; (ii) have the assistance of a person qualified to assist the offender in the hearing, appointed by the hearing examiner if the offender has a language or communications barrier; (iii) testify or remain silent; (iv) call witnesses and present documentary evidence; (v) question witnesses who appear and testify; and (vi) be represented by counsel if revocation of the release to community custody is a possible sanction for the violation; and

(e) The sanction shall take effect if affirmed by the hearing examiner. Within seven days after the hearing examiner's decision, the offender may appeal the decision to a panel of three reviewing examiners designated by the chair of the board or by the chair's designee. The sanction shall be reversed or modified if a majority of the panel finds that the sanction was not reasonably related to any of the following: (i) The crime of conviction; (ii)

the violation committed; (iii) the offender's risk of reoffending; or (iv) the safety of the community.

(5) For purposes of this section, no finding of a violation of conditions may be based on unconfirmed or unconfirmable allegations.

**NEW SECTION. Sec. 310.** A new section is added to chapter 9.95 RCW to read as follows:

In the event the board suspends release status of an offender released under section 306 of this act by reason of an alleged violation of a condition of release, or pending disposition of a new criminal charge, the board may nullify the suspension order and reinstate release under previous conditions or any new conditions the board determines advisable. Before the board may nullify a suspension order and reinstate release, it shall determine that the best interests of society and the offender shall be served by such reinstatement rather than return to confinement.

**Sec. 311.** RCW 9.94A.060 and 1996 c 232 s 3 are each amended to read as follows:

(1) The commission consists of twenty voting members, one of whom the governor shall designate as chairperson. With the exception of ex officio voting members, the voting members of the commission shall be appointed by the governor, subject to confirmation by the senate.

(j) One person who is an elected official of a county government, other than a prosecuting attorney or sheriff;

(k) One person who is an elected official of a city government;

(l) One person who is an administrator of juvenile court services.

In making the appointments, the governor shall endeavor to assure that the commission membership includes adequate representation and expertise relating to both the adult criminal justice system and the juvenile justice system. In making the appointments, the governor shall seek the recommendations of Washington prosecutors in respect to the prosecuting attorney members, of the Washington state bar association in respect to the defense attorney members, of the association of superior court judges in respect to the members who are judges, of the Washington association of sheriffs and police chiefs in respect to the member who is a law enforcement officer, of the Washington state association of counties in respect to the member who is a county official, of the association of Washington cities in respect to the member who is a city official, of the office of crime victims advocacy and other organizations of crime victims in respect to the member who is a victim of crime or a crime victims' advocate, and of the Washington association of juvenile court administrators in respect to the member who is an administrator of juvenile court services.

(3)(a) All voting members of the commission, except ex officio voting members, shall serve terms of three years and until their successors are appointed and confirmed.

(b) The governor shall stagger the terms of the members appointed under subsection (2)(j), (k), and (l) of this section by appointing one of them for a term of one year, one for a term of two years, and one for a term of three years.

(4) The speaker of the house of representatives and the president of the senate may each appoint two

nonvoting members to the commission, one from each of the two largest caucuses in each house. The members so appointed shall serve two-year terms, or until they cease to be members of the house from which they were appointed, whichever occurs first.

(5) The members of the commission shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060. Legislative members shall be reimbursed by their respective houses as provided under RCW 44.04.120(~~(, as now existing or hereafter amended)~~). Members shall be compensated in accordance with RCW 43.03.250.

**Sec. 312.** RCW 9.94A.120 and 2001 c 10 s 2 are each amended to read as follows:

(1) When a person is convicted of a felony, the court shall impose punishment as provided in this chapter.

(2)(a) The court shall impose a sentence as provided in the following sections and as applicable in the case:

(i) Unless another term of confinement applies, the court shall impose a sentence within the standard sentence range established in RCW 9.94A.310;

(ii) RCW 9.94A.700 and 9.94A.705, relating to community placement;

(iii) RCW 9.94A.710 and 9.94A.715, relating to community custody;

(iv) RCW 9.94A.383, relating to community custody for offenders whose term of confinement is one year or less;

(v) RCW 9.94A.560, relating to persistent offenders;

(vi) RCW 9.94A.590, relating to mandatory minimum terms;

(vii) RCW 9.94A.650, relating to the first-time offender waiver;

(viii) RCW 9.94A.660, relating to the drug offender sentencing alternative;

(ix) RCW 9.94A.670, relating to the special sex offender sentencing alternative;

(x) Section 303 of this act, relating to certain sex offenses;

(xi) RCW 9.94A.390, relating to exceptional sentences;

~~((xi))~~ (xii) RCW 9.94A.400, relating to consecutive and concurrent sentences.

(b) If a standard sentence range has not been established for the offender's crime, the court shall impose a determinate sentence which may include not more than one year of confinement; community service work; until July 1, 2000, a term of community supervision not to exceed one year and on and after July 1, 2000, a term of community custody not to exceed one year, subject to conditions and sanctions as authorized in RCW 9.94A.710 (2) and (3); and/or other legal financial obligations. The court may impose a sentence which provides more than one year of confinement if the court finds reasons justifying an exceptional sentence as provided in RCW 9.94A.390.

(3) If the court imposes a sentence requiring confinement of thirty days or less, the court may, in its discretion, specify that the sentence be served on consecutive or intermittent days. A sentence requiring more than thirty days of confinement shall be served on consecutive days. Local jail administrators may schedule court-ordered intermittent sentences as space permits.

(4) If a sentence imposed includes payment of a legal financial obligation, it shall be imposed as provided in RCW 9.94A.140, 9.94A.142, and 9.94A.145.

(5) Except as provided under RCW 9.94A.140(4) and 9.94A.142(4), a court may not impose a sentence providing for a term of confinement or community supervision, community placement, or community custody which exceeds the statutory maximum for the crime as provided in chapter 9A.20 RCW.

(6) The sentencing court shall give the offender credit for all confinement time served before the sentencing if that confinement was solely in regard to the offense for which the offender is being sentenced.

(7) The court shall order restitution as provided in RCW 9.94A.140 and 9.94A.142.

(8) As a part of any sentence, the court may impose and enforce crime-related prohibitions and affirmative conditions as provided in this chapter.

(9) The court may order an offender whose sentence includes community placement or community supervision to undergo a mental status evaluation and to participate in available outpatient mental health treatment, if the court finds that reasonable grounds exist to believe that the offender is a mentally ill person as defined in RCW 71.24.025, and that this condition is likely to have influenced the offense. An order requiring

mental status evaluation or treatment must be based on a presentence report and, if applicable, mental status evaluations that have been filed with the court to determine the offender's competency or eligibility for a defense of insanity. The court may order additional evaluations at a later date if deemed appropriate.

(10) In any sentence of partial confinement, the court may require the offender to serve the partial confinement in work release, in a program of home detention, on work crew, or in a combined program of work crew and home detention.

(11) In sentencing an offender convicted of a crime of domestic violence, as defined in RCW 10.99.020, if the offender has a minor child, or if the victim of the offense for which the offender was convicted has a minor child, the court may, as part of any term of community supervision, community placement, or community custody, order the offender to participate in a domestic violence perpetrator program approved under RCW 26.50.150.

**Sec. 313.** RCW 9.94A.190 and 2000 c 28 s 4 are each amended to read as follows:

(1) A sentence that includes a term or terms of confinement totaling more than one year shall be served in a facility or institution operated, or utilized under contract by the state. Except as provided in subsection (3) or (5) of this section, a sentence of not more than one year of confinement shall be served in a facility operated, licensed, or utilized under contract by the county, or if home detention or work crew has been ordered by the court, in the residence of either the offender or a member of the offender's immediate family.

(2) If a county uses a state partial confinement facility for the partial confinement of a person sentenced to confinement for not more than one year, the county shall reimburse the state for the use of the facility as provided in this subsection. The office of financial management shall set the rate of reimbursement based upon the average per diem cost per offender in the facility. The office of financial management shall determine to what extent, if any, reimbursement shall be reduced or eliminated because of funds provided by the legislature to the department for the purpose of covering the cost of county use of state partial confinement facilities. The office of financial management shall reestablish reimbursement rates each even-numbered year.

(3) A person who is sentenced for a felony to a term of not more than one year, and who is committed or returned to incarceration in a state facility on another felony conviction, either under the indeterminate sentencing laws, chapter 9.95 RCW, or under this chapter shall serve all terms of confinement, including a sentence of not more than one year, in a facility or institution operated, or utilized under contract by the state, consistent with the provisions of RCW 9.94A.400.

(4) Notwithstanding any other provision of this section, a sentence imposed pursuant to RCW 9.94A.660 which has a standard sentence range of over one year, regardless of length, shall be served in a facility or institution operated, or utilized under contract by the state.

(5) Sentences imposed pursuant to section 303 of this act shall be served in a facility or institution operated, or utilized under contract by the state.

**Sec. 314.** RCW 9.94A.390 and 2000 c 28 s 8 are each amended to read as follows:

The court may impose a sentence outside the standard sentence range for an offense if it finds, considering the purpose of this chapter, that there are substantial and compelling reasons justifying an exceptional sentence. Whenever a sentence outside the standard sentence range is imposed, the court shall set forth the reasons for its decision in written findings of fact and conclusions of law. A sentence outside the standard sentence range shall be a determinate sentence unless it is imposed on an offender sentenced under section 303 of this act. An exceptional sentence imposed on an offender sentenced under section 303 of this act shall be to a minimum term set by the court and a maximum term equal to the statutory maximum sentence for the offense of conviction under chapter 9A.20 RCW.

If the sentencing court finds that an exceptional sentence outside the standard sentence range should be imposed, the sentence is subject to review only as provided for in RCW 9.94A.210(4).

A departure from the standards in RCW 9.94A.400 (1) and (2) governing whether sentences are to be served consecutively or concurrently is an exceptional sentence subject to the limitations in this section, and may be appealed by the offender or the state as set forth in RCW 9.94A.210 (2) through (6).

The following are illustrative factors which the court may consider in the exercise of its discretion to impose an exceptional sentence. The following are illustrative only and are not intended to be exclusive reasons

for exceptional sentences.

(1) Mitigating Circumstances

(a) To a significant degree, the victim was an initiator, willing participant, aggressor, or provoker of the incident.

(b) Before detection, the defendant compensated, or made a good faith effort to compensate, the victim of the criminal conduct for any damage or injury sustained.

(c) The defendant committed the crime under duress, coercion, threat, or compulsion insufficient to constitute a complete defense but which significantly affected his or her conduct.

(d) The defendant, with no apparent predisposition to do so, was induced by others to participate in the crime.

(e) The defendant's capacity to appreciate the wrongfulness of his or her conduct, or to conform his or her conduct to the requirements of the law, was significantly impaired. Voluntary use of drugs or alcohol is excluded.

(f) The offense was principally accomplished by another person and the defendant manifested extreme caution or sincere concern for the safety or well-being of the victim.

(g) The operation of the multiple offense policy of RCW 9.94A.400 results in a presumptive sentence that is clearly excessive in light of the purpose of this chapter, as expressed in RCW 9.94A.010.

(h) The defendant or the defendant's children suffered a continuing pattern of physical or sexual abuse by the victim of the offense and the offense is a response to that abuse.

(2) Aggravating Circumstances

(a) The defendant's conduct during the commission of the current offense manifested deliberate cruelty to the victim.

(b) The defendant knew or should have known that the victim of the current offense was particularly vulnerable or incapable of resistance due to extreme youth, advanced age, disability, or ill health.

(c) The current offense was a violent offense, and the defendant knew that the victim of the current offense was pregnant.

(d) The current offense was a major economic offense or series of offenses, so identified by a consideration of any of the following factors:

(i) The current offense involved multiple victims or multiple incidents per victim;

(ii) The current offense involved attempted or actual monetary loss substantially greater than typical for the offense;

(iii) The current offense involved a high degree of sophistication or planning or occurred over a lengthy period of time; or

(iv) The defendant used his or her position of trust, confidence, or fiduciary responsibility to facilitate the commission of the current offense.

(j) The defendant's prior unscored misdemeanor or prior unscored foreign criminal history results in a presumptive sentence that is clearly too lenient in light of the purpose of this chapter, as expressed in RCW 9.94A.010.

(k) The offense resulted in the pregnancy of a child victim of rape.

(l) The defendant knew that the victim of the current offense was a youth who was not residing with a legal custodian and the defendant established or promoted the relationship for the primary purpose of victimization.

**Sec. 315.** RCW 9.94A.590 and 2000 c 28 s 7 are each amended to read as follows:

(1) The following minimum terms of total confinement are mandatory and shall not be varied or modified under RCW 9.94A.390:

(a) An offender convicted of the crime of murder in the first degree shall be sentenced to a term of total confinement not less than twenty years.

(b) An offender convicted of the crime of assault in the first degree or assault of a child in the first degree where the offender used force or means likely to result in death or intended to kill the victim shall be sentenced to a term of total confinement not less than five years.

(c) An offender convicted of the crime of rape in the first degree shall be sentenced to a term of total confinement not less than five years.

(d) An offender convicted of the crime of sexually violent predator escape shall be sentenced to a minimum term of total confinement not less than sixty months.

(2) During such minimum terms of total confinement, no offender subject to the provisions of this section is eligible for community custody, earned release time, furlough, home detention, partial confinement, work crew, work release, or any other form of early release authorized under RCW 9.94A.150, or any other form of authorized leave of absence from the correctional facility while not in the direct custody of a corrections officer. The provisions of this subsection shall not apply: (a) In the case of an offender in need of emergency medical treatment; (b) for the purpose of commitment to an inpatient treatment facility in the case of an offender convicted of the crime of rape in the first degree; or (c) for an extraordinary medical placement when authorized under RCW 9.94A.150(4).

**Sec. 316.** RCW 9.94A.670 and 2000 c 28 s 20 are each amended to read as follows:

(1) Unless the context clearly requires otherwise, the definitions in this subsection apply to this section only.

(a) "Sex offender treatment provider" or "treatment provider" means a certified sex offender treatment provider as defined in RCW 18.155.020.

(b) "Victim" means any person who has sustained emotional, psychological, physical, or financial injury to person or property as a result of the crime charged. "Victim" also means a parent or guardian of a victim who is a minor child unless the parent or guardian is the perpetrator of the offense.

(2) An offender is eligible for the special sex offender sentencing alternative if:

- (a) The offender has been convicted of a sex offense other than a violation of RCW 9A.44.050 or a sex offense that is also a serious violent offense;
  - (b) The offender has no prior convictions for a sex offense as defined in RCW 9.94A.030 or any other felony sex offenses in this or any other state; and
  - (c) The offender's standard sentence range for the offense includes the possibility of confinement for less than eleven years.
- (3) If the court finds the offender is eligible for this alternative, the court, on its own motion or the motion of the state or the offender, may order an examination to determine whether the offender is amenable to treatment.
- (a) The report of the examination shall include at a minimum the following:
    - (i) The offender's version of the facts and the official version of the facts;
    - (ii) The offender's offense history;
    - (iii) An assessment of problems in addition to alleged deviant behaviors;
    - (iv) The offender's social and employment situation; and
    - (v) Other evaluation measures used.

The report shall set forth the sources of the examiner's information.

- (b) The examiner shall assess and report regarding the offender's amenability to treatment and relative risk to the community. A proposed treatment plan shall be provided and shall include, at a minimum:
  - (i) Frequency and type of contact between offender and therapist;
  - (ii) Specific issues to be addressed in the treatment and description of planned treatment modalities;
  - (iii) Monitoring plans, including any requirements regarding living conditions, lifestyle requirements, and monitoring by family members and others;
  - (iv) Anticipated length of treatment; and
  - (v) Recommended crime-related prohibitions.

(c) The court on its own motion may order, or on a motion by the state shall order, a second examination regarding the offender's amenability to treatment. The examiner shall be selected by the party making the motion. The offender shall pay the cost of any second examination ordered unless the court finds the defendant to be indigent in which case the state shall pay the cost.

(4) After receipt of the reports, the court shall consider whether the offender and the community will benefit from use of this alternative and consider the victim's opinion whether the offender should receive a treatment disposition under this section. If the court determines that this alternative is appropriate, the court shall then impose a sentence or, pursuant to section 303 of this act, a minimum term of sentence, within the standard sentence range. If the sentence imposed is less (~~then~~ ~~than~~) than eleven years of confinement, the court may suspend the execution of the sentence and impose the following conditions of suspension:

- (a) The court shall place the offender on community custody for the length of the suspended sentence, the length of the maximum term imposed pursuant to section 303 of this act, or three years, whichever is greater, and require the offender to comply with any conditions imposed by the department under RCW 9.94A.720.
- (b) The court shall order treatment for any period up to three years in duration. The court, in its discretion, shall order outpatient sex offender treatment or inpatient sex offender treatment, if available. A community mental health center may not be used for such treatment unless it has an appropriate program designed for sex offender treatment. The offender shall not change sex offender treatment providers or treatment conditions without first notifying the prosecutor, the community corrections officer, and the court. If any party or the court objects to a proposed change, the offender shall not change providers or conditions without court approval after a hearing.

- (5) As conditions of the suspended sentence, the court may impose one or more of the following:
  - (a) Up to six months of confinement, not to exceed the sentence range of confinement for that offense;
  - (b) Crime-related prohibitions;
  - (c) Require the offender to devote time to a specific employment or occupation;
  - (d) Remain within prescribed geographical boundaries and notify the court or the community corrections officer prior to any change in the offender's address or employment;
  - (e) Report as directed to the court and a community corrections officer;
  - (f) Pay all court-ordered legal financial obligations as provided in RCW 9.94A.030;

(g) Perform community service work; or

(h) Reimburse the victim for the cost of any counseling required as a result of the offender's crime.

(6) At the time of sentencing, the court shall set a treatment termination hearing for three months prior to the anticipated date for completion of treatment.

(7) The sex offender treatment provider shall submit quarterly reports on the offender's progress in treatment to the court and the parties. The report shall reference the treatment plan and include at a minimum the following: Dates of attendance, offender's compliance with requirements, treatment activities, the offender's relative progress in treatment, and any other material specified by the court at sentencing.

(8) Prior to the treatment termination hearing, the treatment provider and community corrections officer shall submit written reports to the court and parties regarding the offender's compliance with treatment and monitoring requirements, and recommendations regarding termination from treatment, including proposed community custody conditions. Either party may request, and the court may order, another evaluation regarding the advisability of termination from treatment. The offender shall pay the cost of any additional evaluation ordered unless the court finds the offender to be indigent in which case the state shall pay the cost. At the treatment termination hearing the court may: (a) Modify conditions of community custody, and either (b) terminate treatment, or (c) extend treatment for up to the remaining period of community custody.

(9) If a violation of conditions occurs during community custody, the department shall either impose sanctions as provided for in RCW 9.94A.205(2)(a) or refer the violation to the court and recommend revocation of the suspended sentence as provided for in subsections (6) and (8) of this section.

(10) The court may revoke the suspended sentence at any time during the period of community custody and order execution of the sentence if: (a) The offender violates the conditions of the suspended sentence, or (b) the court finds that the offender is failing to make satisfactory progress in treatment. All confinement time served during the period of community custody shall be credited to the offender if the suspended sentence is revoked.

(11) Examinations and treatment ordered pursuant to this subsection shall only be conducted by sex offender treatment providers certified by the department of health pursuant to chapter 18.155 RCW unless the court finds that:

(a) The offender has already moved to another state or plans to move to another state for reasons other than circumventing the certification requirements; or

(b)(i) No certified providers are available for treatment within a reasonable geographical distance of the offender's home; and

(ii) The evaluation and treatment plan comply with this section and the rules adopted by the department of health.

(12) If the offender is less than eighteen years of age when the charge is filed, the state shall pay for the cost of initial evaluation and treatment.

**NEW SECTION. Sec. 317.** A new section is added to chapter 9.95 RCW to read as follows:

(1) "Board" means the indeterminate sentence review board.

(2) "Community custody" means that portion of an offender's sentence subject to controls including crime-related prohibitions and affirmative conditions from the court, the board, or the department of corrections based on risk to community safety, that is served under supervision in the community, and which may be modified or revoked for violations of release conditions.

(3) "Crime-related prohibition" has the meaning defined in RCW 9.94A.030.

(4) "Department" means the department of corrections.

(5) "Parole" means that portion of a person's sentence for a crime committed before July 1, 1984, served on conditional release in the community subject to board controls and revocation and under supervision of the department.

(6) "Secretary" means the secretary of the department of corrections or his or her designee.

**Sec. 318.** RCW 9.95.005 and 1986 c 224 s 4 are each amended to read as follows:

The board shall meet at ~~((the penitentiary and the reformatory))~~ major state correctional institutions at such times as may be necessary for a full and complete study of the cases of all convicted persons whose durations

of confinement are to be determined by it (~~(the)~~); whose community custody supervision is under the board's authority; or whose applications for parole come before it. Other times and places of meetings may also be fixed by the board.

The superintendents of the different institutions shall provide suitable quarters for the board and assistants while in the discharge of their duties.

**Sec. 319.** RCW 9.95.010 and 1955 c 133 s 2 are each amended to read as follows:

When a person, whose crime was committed before July 1, 1984, is convicted of any felony, except treason, murder in the first degree, or carnal knowledge of a child under ten years, and a new trial is not granted, the court shall sentence such person to the penitentiary, or, if the law allows and the court sees fit to exercise such discretion, to the reformatory, and shall fix the maximum term of such person's sentence only.

The maximum term to be fixed by the court shall be the maximum provided by law for the crime of which such person was convicted, if the law provides for a maximum term. If the law does not provide a maximum term for the crime of which such person was convicted the court shall fix such maximum term, which may be for any number of years up to and including life imprisonment but in any case where the maximum term is fixed by the court it shall be fixed at not less than twenty years.

**Sec. 320.** RCW 9.95.011 and 1993 c 144 s 3 are each amended to read as follows:

(1) When the court commits a convicted person to the department of corrections on or after July 1, 1986, for an offense committed before July 1, 1984, the court shall, at the time of sentencing or revocation of probation, fix the minimum term. The term so fixed shall not exceed the maximum sentence provided by law for the offense of which the person is convicted.

The court shall attempt to set the minimum term reasonably consistent with the purposes, standards, and sentencing ranges adopted under RCW 9.94A.040, but the court is subject to the same limitations as those placed on the board under RCW 9.92.090, 9.95.040 (1) through (4), 9.95.115, 9A.32.040, 9A.44.045, and chapter 69.50 RCW. The court's minimum term decision is subject to review to the same extent as a minimum term decision by the parole board before July 1, 1986.

Thereafter, the expiration of the minimum term set by the court minus any time credits earned under RCW 9.95.070 and 9.95.110 constitutes the parole eligibility review date, at which time the board may consider the convicted person for parole under RCW 9.95.100 and 9.95.110 and chapter 72.04A RCW. Nothing in this section affects the board's authority to reduce or increase the minimum term, once set by the court, under RCW 9.95.040, 9.95.052, 9.95.055, 9.95.070, 9.95.080, 9.95.100, 9.95.115, 9.95.125, or 9.95.047.

(2) Not less than ninety days prior to the expiration of the minimum term of a person sentenced under section 303 of this act, for a sex offense committed on or after July 1, 2001, less any time credits permitted by statute, the board shall review the person for conditional release to community custody as provided in section 306 of this act. If the board does not release the person, it shall set a new minimum term not to exceed an additional two years. The board shall review the person again not less than ninety days prior to the expiration of the new minimum term.

**Sec. 321.** RCW 9.95.017 and 1986 c 224 s 11 are each amended to read as follows:

(1) The board shall cause to be prepared criteria for duration of confinement, release on parole, and length of parole for persons committed to prison for crimes committed before July 1, 1984.

The proposed criteria should take into consideration RCW 9.95.009(2). Before submission to the governor, the board shall solicit comments and review on their proposed criteria for parole release. These proposed criteria shall be submitted for consideration by the 1987 legislature.

(2) Persons committed to the department of corrections and who are under the authority of the board for crimes committed on or after July 1, 2001, are subject to the provisions for duration of confinement, release to community custody, and length of community custody established in sections 303 through 310 of this act.

**Sec. 322.** RCW 9.95.020 and 1955 c 133 s 3 are each amended to read as follows:

If the sentence of a person so convicted is not suspended by the court, the superintendent of (~~the~~

~~penitentiary or the superintendent of the reformatory))~~ a major state correctional institution shall receive such person, if committed to his or her institution, and imprison ~~((him))~~ the person until released under the provisions of this chapter, under section 306 of this act, upon the completion of the statutory maximum sentence, or through the action of the governor.

**Sec. 323.** RCW 9.95.032 and 1984 c 114 s 3 are each amended to read as follows:

Such statement shall be signed by the prosecuting attorney and approved by the judge by whom the judgment was rendered and shall be delivered to the sheriff, traveling guard, department of corrections personnel, or other officer executing the sentence, and a copy of such statement shall be furnished to the defendant or his or her attorney. Such officer shall deliver the statement, at the time of the prisoner's commitment, to the superintendent of the institution to which such prisoner has been ~~((sentenced and))~~ committed. The superintendent shall make such statement available for use by the board ~~((of prison terms and paroles))~~.

**Sec. 324.** RCW 9.95.052 and 1986 c 224 s 10 are each amended to read as follows:

At any time after the board (or the court after July 1, 1986) has determined the minimum term of confinement of any person subject to confinement in a state correctional institution for a crime committed before July 1, 1984, the board may request the superintendent of such correctional institution to conduct a full review of such person's prospects for rehabilitation and report to the board the facts of such review and the resulting findings. Upon the basis of such report and such other information and investigation that the board deems appropriate, the board may redetermine and refix such convicted person's minimum term of confinement whether the term was set by the board or the court.

The board shall not reduce a person's minimum term of confinement unless the board has received from the department of corrections all institutional conduct reports relating to the person.

**Sec. 325.** RCW 9.95.055 and 1992 c 7 s 25 are each amended to read as follows:

The indeterminate sentence review board is hereby granted authority, in the event of a declaration by the governor that a war emergency exists, including a general mobilization, and for the duration thereof only, to reduce downward the minimum term, as set by the board, of any inmate under the jurisdiction of the board confined in a state correctional facility, who will be accepted by and inducted into the armed services: PROVIDED, That a reduction downward shall not be made under this section for those inmates who are confined for treason, murder in the first degree or carnal knowledge of a female child under ten years: AND PROVIDED FURTHER, That no such inmate shall be released under this section who is ~~((found to be a sexual psychopath under the provisions of and as defined by chapter 71.12 RCW))~~ being considered for civil commitment as a sexually violent predator under chapter 71.09 RCW or was sentenced under section 303 of this act for a crime committed on or after July 1, 2001.

**Sec. 326.** RCW 9.95.064 and 1989 c 276 s 4 are each amended to read as follows:

(1) In order to minimize the trauma to the victim, the court may attach conditions on release of ((a- defendant)) an offender under RCW 9.95.062, convicted of a crime committed before July 1, 1984, regarding the whereabouts of the defendant, contact with the victim, or other conditions.

(2) Offenders released under section 306 of this act are subject to crime-related prohibitions and affirmative conditions established by the court, the department of corrections, or the board pursuant to RCW 9.94A.715 and sections 303 through 310 of this act.

**Sec. 327.** RCW 9.95.070 and 1999 c 143 s 19 are each amended to read as follows:

(1) Every prisoner, convicted of a crime committed before July 1, 1984, who has a favorable record of conduct at the penitentiary or the reformatory, and who performs in a faithful, diligent, industrious, orderly and peaceable manner the work, duties, and tasks assigned to him or her to the satisfaction of the superintendent of the penitentiary or reformatory, and in whose behalf the superintendent of the penitentiary or reformatory files a report certifying that his or her conduct and work have been meritorious and recommending allowance of time credits to him or her, shall upon, but not until, the adoption of such recommendation by the indeterminate sentence

review board, be allowed time credit reductions from the term of imprisonment fixed by the board.

(2) Offenders sentenced under section 303 of this act for a crime committed on or after July 1, 2001, are subject to the earned release provisions for sex offenders established in RCW 9.94A.150.

**Sec. 328.** RCW 9.95.080 and 1992 c 7 s 26 are each amended to read as follows:

In case any ~~((convicted))~~ person convicted of a crime committed before July 1, 1984, and under the jurisdiction of the indeterminate sentence review board undergoing sentence in a state correctional ~~((facility))~~ institution commits any infractions of the rules and regulations of the institution, the board may revoke any order theretofore made determining the length of time such convicted person shall be imprisoned, including the forfeiture of all or a portion of credits earned or to be earned, pursuant to the provisions of RCW 9.95.110, and make a new order determining the length of time the person shall serve, not exceeding the maximum penalty provided by law for the crime for which the person was convicted, or the maximum fixed by the court. Such revocation and redetermination shall not be had except upon a hearing before the indeterminate sentence review board. At such hearing the convicted person shall be present and entitled to be heard and may present evidence and witnesses in his or her behalf.

**Sec. 329.** RCW 9.95.090 and 1999 c 143 s 20 are each amended to read as follows:

(1) The board shall require of every able bodied ~~((convicted person imprisoned in the penitentiary or the reformatory))~~ offender confined in a state correctional institution for a crime committed before July 1, 1984, as many hours of faithful labor in each and every day during his or her term of imprisonment as shall be prescribed by the rules and regulations of the institution in which he or she is confined.

(2) Offenders sentenced under section 303 of this act for crimes committed on or after July 1, 2001, shall perform work or other programming as required by the department of corrections during their term of confinement.

**Sec. 330.** RCW 9.95.100 and 1955 c 133 s 11 are each amended to read as follows:

Any ~~((convicted))~~ person convicted of a felony committed before July 1, 1984, and undergoing sentence in ~~((the penitentiary or the reformatory))~~ a state correctional institution, not sooner released under the provisions of this chapter, shall, in accordance with the provisions of law, be discharged from custody on serving the maximum punishment provided by law for the offense of which such person was convicted, or the maximum term fixed by the court where the law does not provide for a maximum term. The board shall not, however, until his or her maximum term expires, release a prisoner, unless in its opinion his or her rehabilitation has been complete and he or she is a fit subject for release.

**Sec. 331.** RCW 9.95.110 and 1999 c 143 s 21 are each amended to read as follows:

(1) The board may permit ~~((a convicted person))~~ an offender convicted of a crime committed before July 1, 1984, to leave the buildings and enclosures of ~~((the penitentiary or the reformatory))~~ a state correctional institution on parole, after such convicted person has served the period of confinement fixed for him or her by the board, less time credits for good behavior and diligence in work: PROVIDED, That in no case shall an inmate be credited with more than one-third of his or her sentence as fixed by the board.

The board may establish rules and regulations under which ~~((a convicted person))~~ an offender may be allowed to leave the confines of ~~((the penitentiary or the reformatory))~~ a state correctional institution on parole, and may return such person to the confines of the institution from which he or she was paroled, at its discretion.

(2) The board may permit an offender convicted of a crime committed on or after July 1, 2001, and sentenced under section 303 of this act, to leave a state correctional institution on community custody according to the provisions of sections 303 through 310 of this act. The person may be returned to the institution following a violation of his or her conditions of release to community custody pursuant to the hearing provisions of section 309 of this act.

**Sec. 332.** RCW 9.95.115 and 1989 c 259 s 3 are each amended to read as follows:

The indeterminate sentence review board is hereby granted authority to parole any person sentenced to the

custody of the department of corrections, under a mandatory life sentence for a crime committed ~~((prior to))~~ before July 1, 1984, except those persons sentenced to life without the possibility of parole. No such person shall be granted parole unless the person has been continuously confined therein for a period of twenty consecutive years less earned good time: PROVIDED, That no such person shall be released under parole who is ~~((found to be a sexual psychopath under the provisions of and as defined by chapter 71.06 RCW))~~ subject to civil commitment as a sexually violent predator under chapter 71.09 RCW.

**Sec. 333.** RCW 9.95.120 and 1999 c 143 s 22 are each amended to read as follows:

Whenever the board or a ~~((probation and parole))~~ community corrections officer of this state has reason to believe a ~~((convicted))~~ person convicted of a crime committed before July 1, 1984, has breached a condition of his or her parole or violated the law of any state where he or she may then be or the rules and regulations of the board, any ~~((probation and parole))~~ community corrections officer of this state may arrest or cause the arrest and detention and suspension of parole of such convicted person pending a determination by the board whether the parole of such convicted person shall be revoked. All facts and circumstances surrounding the violation by such convicted person shall be reported to the board by the ~~((probation and parole))~~ community corrections officer, with recommendations. The board, after consultation with the secretary of corrections, shall make all rules and regulations concerning procedural matters, which shall include the time when state ~~((probation and parole))~~ community corrections officers shall file with the board reports required by this section, procedures pertaining thereto and the filing of such information as may be necessary to enable the board to perform its functions under this section. On the basis of the report by the ~~((probation and parole))~~ community corrections officer, or at any time upon its own discretion, the board may revise or modify the conditions of parole or order the suspension of parole by the issuance of a written order bearing its seal, which order shall be sufficient warrant for all peace officers to take into custody any convicted person who may be on parole and retain such person in their custody until arrangements can be made by the board for his or her return to a state correctional institution for convicted felons. Any such revision or modification of the conditions of parole or the order suspending parole shall be personally served upon the parolee.

Any parolee arrested and detained in physical custody by the authority of a state ~~((probation and parole))~~ community corrections officer, or upon the written order of the board, shall not be released from custody on bail or personal recognizance, except upon approval of the board and the issuance by the board of an order of reinstatement on parole on the same or modified conditions of parole.

All chiefs of police, marshals of cities and towns, sheriffs of counties, and all police, prison, and peace officers and constables shall execute any such order in the same manner as any ordinary criminal process.

Whenever a paroled prisoner is accused of a violation of his or her parole, other than the commission of, and conviction for, a felony or misdemeanor under the laws of this state or the laws of any state where he or she may then be, he or she shall be entitled to a fair and impartial hearing of such charges within thirty days from the time that he or she is served with charges of the violation of conditions of ~~((his))~~ parole after his or her arrest and detention. The hearing shall be held before one or more members of the board at a place or places, within this state, reasonably near the site of the alleged violation or violations of parole.

In the event that the board suspends a parole by reason of an alleged parole violation or in the event that a parole is suspended pending the disposition of a new criminal charge, the board shall have the power to nullify the order of suspension and reinstate the individual to parole under previous conditions or any new conditions that the board may determine advisable. Before the board shall nullify an order of suspension and reinstate a parole they shall have determined that the best interests of society and the individual shall best be served by such reinstatement rather than a return to a penal institution.

**Sec. 334.** RCW 9.95.121 and 1981 c 136 s 38 are each amended to read as follows:

(1) For offenders convicted of crimes committed before July 1, 1984, within fifteen days from the date of notice to the department of corrections of the arrest and detention of the alleged parole violator, he or she shall be personally served by a state ~~((probation and parole))~~ community corrections officer with a copy of the factual allegations of the violation of the conditions of parole, and, at the same time shall be advised of his or her right to an on-site parole revocation hearing and of his or her rights and privileges as provided in RCW 9.95.120 through

9.95.126. The alleged parole violator, after service of the allegations of violations of the conditions of parole and the advice of rights may waive the on-site parole revocation hearing as provided in RCW 9.95.120, and admit one or more of the alleged violations of the conditions of parole. If the board accepts the waiver it shall either, (1) reinstate the parolee on parole under the same or modified conditions, or (2) revoke the parole of the parolee and enter an order of parole revocation and return to state custody. A determination of a new minimum sentence shall be made within thirty days of return to state custody which shall not exceed the maximum sentence as provided by law for the crime of which the parolee was originally convicted or the maximum fixed by the court.

If the waiver made by the parolee is rejected by the board it shall hold an on-site parole revocation hearing under the provisions of RCW 9.95.120 through 9.95.126.

(2) Offenders sentenced under section 303 of this act are subject to the violation hearing process established in section 309 of this act.

**Sec. 335.** RCW 9.95.122 and 1999 c 143 s 23 are each amended to read as follows:

**Sec. 360.** RCW 72.09.370 and 1999 c 214 s 2 are each amended to read as follows:

(1) The secretary shall identify offenders in confinement or partial confinement who: (a) Are reasonably believed to be dangerous to themselves or others; and (b) have a mental disorder. In determining an offender's dangerousness, the secretary shall consider behavior known to the department and factors, based on research, that are linked to an increased risk for dangerousness of mentally ill offenders and shall include consideration of an offender's chemical dependency or abuse.

(2) Prior to release of an offender identified under this section, a team consisting of representatives of the department of corrections, the division of mental health, and, as necessary, the indeterminate sentence review board, other divisions or administrations within the department of social and health services, specifically including the division of alcohol and substance abuse and the division of developmental disabilities, the appropriate regional support network, and the providers, as appropriate, shall develop a plan, as determined necessary by the team, for delivery of treatment and support services to the offender upon release. The team may include a school district representative for offenders under the age of twenty-one. The team shall consult with the offender's counsel, if any, and, as appropriate, the offender's family and community. The team shall notify the crime victim/witness program, which shall provide notice to all people registered to receive notice under RCW 9.94A.155 of the proposed release plan developed by the team. Victims, witnesses, and other interested people notified by the department may provide information and comments to the department on potential safety risk to specific individuals or classes of individuals posed by the specific offender. The team may recommend: (a) That the offender be evaluated by the county designated mental health professional, as defined in chapter 71.05 RCW; (b) department-supervised community treatment; or (c) voluntary community mental health or chemical dependency or abuse treatment.

(3) Prior to release of an offender identified under this section, the team shall determine whether or not an evaluation by a county designated mental health professional is needed. If an evaluation is recommended, the supporting documentation shall be immediately forwarded to the appropriate county designated mental health professional. The supporting documentation shall include the offender's criminal history, history of judicially required or administratively ordered involuntary antipsychotic medication while in confinement, and any known history of involuntary civil commitment.

(4) If an evaluation by a county designated mental health professional is recommended by the team, such evaluation shall occur not more than ten days, nor less than five days, prior to release.

(5) A second evaluation by a county designated mental health professional shall occur on the day of

release if requested by the team, based upon new information or a change in the offender's mental condition, and the initial evaluation did not result in an emergency detention or a summons under chapter 71.05 RCW.

(6) If the county designated mental health professional determines an emergency detention under chapter 71.05 RCW is necessary, the department shall release the offender only to a state hospital or to a consenting evaluation and treatment facility. The department shall arrange transportation of the offender to the hospital or facility.

(7) If the county designated mental health professional believes that a less restrictive alternative treatment is appropriate, he or she shall seek a summons, pursuant to the provisions of chapter 71.05 RCW, to require the offender to appear at an evaluation and treatment facility. If a summons is issued, the offender shall remain within the corrections facility until completion of his or her term of confinement and be transported by corrections personnel on the day of completion, directly to the identified evaluation and treatment facility.

(8) The secretary shall adopt rules to implement this section.

**NEW SECTION. Sec. 361.** A new section is added to chapter 9.95 RCW to read as follows:

The indeterminate sentence review board, in fulfilling its duties under the provisions of this act, shall be considered a parole board as that concept was treated in law under the state's indeterminate sentencing statutes.

#### **PART IV TECHNICAL PROVISIONS**

(2) Sections 301 through 361 of this act shall apply to offenses committed on or after the effective date of this section.

**NEW SECTION. Sec. 404.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 72.05.020 and 1998 c 269 s 2 are each amended to read as follows:

As used in this chapter, unless the context requires otherwise:

(1) "Community facility" means a group care facility operated for the care of juveniles committed to the department under RCW 13.40.185. A county detention facility that houses juveniles committed to the department under RCW 13.40.185 pursuant to a contract with the department is not a community facility.

(2) "Department" means the department of social and health services.

(3) "Equitable distribution" or "distribute equitably" means siting or locating community facilities in a manner that will not cause a disproportionate grouping of facilities in any single geographic region, or in any community or neighborhood within a jurisdiction.

(4) "Juvenile" means a person under the age of twenty-one who has been sentenced to a term of confinement under the supervision of the department under RCW 13.40.185.

((4)) (5) "Service provider" means the entity that operates a community facility.

**NEW SECTION. Sec. 2.** A new section is added to chapter 72.05 RCW to read as follows:

(1) The department shall prepare a projected list of counties in which community facilities need to be sited over the period of calendar year 2002 through 2008, and every six years thereafter, and transmit that list to the office of financial management. The list may be updated as needed. In preparing this list, the department shall make substantial efforts to provide for the equitable distribution of community facilities among counties. The department shall give great weight to the following factors in determining equitable distribution:

- (a) The locations of existing residential facilities owned or operated by, or operated under contract with, the department in each county;
- (b) The locations of other projected residential facilities owned or operated by, or operated under contract with, the department in each county;
- (c) The number of juvenile registered sex offenders classified as level II or III and juvenile sex offenders registered as homeless per thousand persons residing in the county;
- (d) The number of juvenile violent offenders under parole or probation per thousand persons residing in the county; and
- (e) The number of juvenile offenders sentenced or adjudicated in the county per thousand persons residing in the county.

(2)(a) In preparing the list required under subsection (1) of this section, the department shall:

- (i) Give great weight to the factors identified in subsection (1) of this section;
- (ii) Use the information contained in the most recent edition of the report required under subsection (4) of this section; and
- (iii) Use the criteria adopted under subsection (5) of this section.

(b) Prior to finalizing the list of projected community facilities required under subsection (1) of this section, the department shall consult with the county legislative authorities of each county identified on the list. The department shall also hold at least one public hearing within each such county or, if known, the affected part of the county.

(3) In identifying potential sites within a county for the location of a community facility, the department shall work with local governments to provide for the equitable distribution of such facilities among the jurisdictions and neighborhoods within the county. The department and local governments shall give great weight to the following factors in determining equitable distribution:

- (a) The locations of existing residential facilities owned or operated by, or operated under contract with, the department in each jurisdiction or neighborhood in the county;
- (b) The locations of other projected residential facilities owned or operated by, or operated under contract with, the department in each jurisdiction or neighborhood in the county;
- (c) The number of juvenile registered sex offenders classified as level II or III and juvenile sex offenders registered as homeless per thousand persons residing in each jurisdiction or neighborhood in the county; and
- (d) The number of juvenile violent offenders under parole or probation per thousand persons residing in each jurisdiction or neighborhood in the county.

(4) To carry out the purposes of subsections (1) and (3) of this section, the department shall, no later than January 1, 2002, develop a mapping system to identify the locations of existing and projected facilities identified in subsections (1) and (3) of this section. The department also shall maintain a list of the number of offenders identified in subsections (1) and (3) of this section and shall annually publish a report including the map and offender rates for the counties and jurisdictions of the state.

(5) The department shall by rule, adopt facility criteria and shall consult with local governments in such rule making.

(6) As used in this section, the term "jurisdiction" means a city, town, or unincorporated area of a county.

**Sec. 3.** RCW 72.05.400 and 1998 c 269 s 5 are each amended to read as follows:

(1) Whenever the department operates, or the secretary enters a contract to operate, a community facility, the community facility may be operated only after the public notification and opportunities for review and comment as required by this section.

(2) The secretary shall establish a process for early and continuous public participation in establishing or

relocating community facilities. The process shall include, at a minimum, public meetings in the local communities affected, as well as opportunities for written and oral comments, in the following manner:

(a) If there are more than three sites initially selected as potential locations and the selection process by the secretary or a service provider reduces the number of possible sites for a community facility to no fewer than three, the secretary or the chief operating officer of the service provider shall notify the public of the possible siting and hold at least two public hearings in each community where a community facility may be sited at least forty-five days before a final selection is made.

(b) When the secretary or service provider has determined the community facility's location, the secretary or the chief operating officer of the service provider shall hold at least one additional public hearing in the community where the community facility will be sited.

(c) When the secretary has entered negotiations with a service provider and only one site is under consideration, then at least two public hearings shall be held.

(d) To provide adequate notice of ~~((;))~~ and opportunity for interested persons to comment on ~~((;))~~ a proposed location, the secretary or the chief operating officer of the service provider shall provide at least fourteen days' advance notice of the ~~((meeting to))~~ public hearings to at least the following:

(i) The affected counties, cities, and towns;

(ii) Local government planning agencies in the affected communities;

(iii) All newspapers of general circulation in the ~~((community,))~~ local area and all radio stations and television stations generally available to persons in the community ~~((;))~~ where the potential site is located;

(iv) Any school district, private school, or kindergarten in which the community facility would be sited or whose boundary is within two miles of a proposed community facility, and institutions of higher education, any library district ~~((in which the community facility would be sited, local business or fraternal organizations that request notification from the secretary or agency, and any person or property owner within a one-half mile radius of the proposed community facility)), and all other local government offices within a one-half mile radius of the proposed site or sites;~~

(v) The local chamber of commerce, local economic development agencies, and any other local organizations that request such notification from the department; and

(vi) Written notification to all residents and property owners within a one-half mile radius of the proposed site or sites.

(3) The notice required under subsection (2) of this section must also inform the public that any interested person or entity, including a local government entity, is invited to submit written comments regarding a proposed location, including comments regarding whether the site meets the equitable distribution and other statutory requirements for the facility. Written comments must be submitted not later than thirty days following the date notice is issued pursuant to subsection (2) of this section.

(4) The department must consider the testimony received at the public hearings and any written comments submitted before making a final selection of the site for the location or relocation of a community facility. The department shall issue a written analysis of the final selection, including how the selection was consistent with the requirements of section 2 of this act.

(5) Before initiating ~~((this))~~ the process in subsection (2) of this section, the department shall contact local government planning agencies in the communities containing the proposed community facility. The department shall coordinate with local government agencies to ensure that opportunities are provided for effective citizen input and to reduce the duplication of notice and meetings.

~~((3))~~ (6) The secretary shall not issue a license to any service provider until the service provider submits proof that the requirements of this section have been met.

~~((4))~~ (7) If local government land use regulations require that a special use or conditional use permit be submitted and approved before a community facility can be sited, and the process for obtaining such a permit includes public notice and hearing requirements similar to those required under this section, the requirements of this section shall not apply to the extent they would duplicate requirements under the local land use regulations.

(8) This section shall apply only to community facilities sited after September 1, 1998.

The department shall issue a written analysis of the final selection, including how the selection was consistent with the

requirements of section 5 of this act.

(5) When the department contracts for the operation of a work release or other community-based facility that is not owned or operated by the department, the department shall require as part of its contract that the contracting entity comply with all the public notification and public hearing requirements as provided in this section for each located and relocated work release or other community-based facility.

**POINT OF INQUIRY**

Representative Bush requested a ruling on the number of votes necessary to pass Engrossed Substitute Senate Bill No. 5407.

**SPEAKERS' RULING**

The Speaker (Representative Ogden presiding): "In ruling upon the point of inquiry by Representative Bush concerning the number of votes necessary to pass Engrossed Substitute Senate Bill No. 5407, the Speakers first note that an informal opinion of the Attorney General's Office finds that parimutuel wagering in connection with simulcast horse racing is allowed under current law, and that the bill would not authorize any form of gambling not already authorized under existing law.

"The Speakers also note that the President of the Senate, in ruling upon the same point of inquiry concerning the number of votes necessary to pass the bill, found that the measure would remove restrictions on the number of simulcast races that may be imported by horse racing associations on live race days. Because the measure would permit increased occurrences of gambling, the President ruled that a 60 percent vote is required on final passage in accordance with Article II, Section 24 of the State Constitution.

"The Speakers also rule that a 60 percent vote (59) votes is required for final passage."

There being no objection, the rules were suspended, the second reading considered the third and the bill was placed on final passage.

**Sec. 2.** RCW 74.46.165 and 1998 c 322 s 10 are each amended to read as follows:

(1) Contractors shall be required to submit with each annual nursing facility cost report a proposed settlement report showing underspending or overspending in each component rate during the cost report year on a per-resident day basis. The department shall accept or reject the proposed settlement report, explain any adjustments, and issue a revised settlement report if needed.

(2) Contractors shall not be required to refund payments made in the operations, variable return, property, and ~~((return on investment))~~ financing allowance component rates in excess of the adjusted costs of providing services corresponding to these components.

(3) The facility will return to the department any overpayment amounts in each of the direct care, therapy care, and support services rate components that the department identifies following the audit and settlement

procedures as described in this chapter, provided that the contractor may retain any overpayment that does not exceed 1.0% of the facility's direct care, therapy care, and support services component rate. However, no overpayments may be retained in a cost center to which savings have been shifted to cover a deficit, as provided in subsection (4) of this section. Facilities that are not in substantial compliance for more than ninety days, and facilities that provide substandard quality of care at any time, during the period for which settlement is being calculated, will not be allowed to retain any amount of overpayment in the facility's direct care, therapy care, and support services component rate. The terms "not in substantial compliance" and "substandard quality of care" shall be defined by federal survey regulations.

(4) Determination of unused rate funds, including the amounts of direct care, therapy care, and support services to be recovered, shall be done separately for each component rate, and, except as otherwise provided in this subsection, neither costs nor rate payments shall be shifted from one component rate or corresponding service area to another in determining the degree of underspending or recovery, if any. ~~((However,))~~ In computing a preliminary or final settlement, savings in the support services cost center ~~((may))~~ shall be shifted to cover a deficit in the direct care or therapy cost centers up to the amount of any savings ~~((—Not more than twenty percent of the rate in a cost center may be shifted))~~, but no more than twenty percent of the support services component rate may be shifted. In computing a preliminary or final settlement, savings in direct care and therapy care may be shifted to cover a deficit in these two cost centers up to the amount of savings in each, regardless of the percentage of either component rate shifted. Contractor-retained overpayments up to one percent of direct care, therapy care, and support services rate components, as authorized in subsection (3) of this section, shall be calculated and applied after all shifting is completed.

(5) Total and component payment rates assigned to a nursing facility, as calculated and revised, if needed, under the provisions of this chapter and those rules as the department may adopt, shall represent the maximum payment for nursing facility services rendered to medicaid recipients for the period the rates are in effect. No increase in payment to a contractor shall result from spending above the total payment rate or in any rate component.

(6) RCW 74.46.150 through 74.46.180, and rules adopted by the department prior to July 1, 1998, shall continue to govern the medicaid settlement process for periods prior to October 1, 1998, as if these statutes and rules remained in full force and effect.

(7) For calendar year 1998, the department shall calculate split settlements covering January 1, 1998, through September 30, 1998, and October 1, 1998, through December 31, 1998. For the period beginning October 1, 1998, rules specified in this chapter shall apply. The department shall by rule, determine the division of calendar year 1998 adjusted costs for settlement purposes.

**Sec. 3.** RCW 74.46.410 and 1998 c 322 s 17 are each amended to read as follows:

(2) Unallowable costs include, but are not limited to, the following:

**Sec. 4.** RCW 74.46.421 and 1999 c 353 s 3 are each amended to read as follows:

(1) The purpose of part E of this chapter is to determine nursing facility medicaid payment rates that, in the aggregate for all participating nursing facilities, are in accordance with the biennial appropriations act.

(2)(a) The department shall use the nursing facility medicaid payment rate methodologies described in this chapter to determine initial component rate allocations for each medicaid nursing facility.

(b) The initial component rate allocations shall be subject to adjustment as provided in this section in order to assure that the statewide average payment rate to nursing facilities is less than or equal to the statewide average payment rate specified in the biennial appropriations act.

(3) Nothing in this chapter shall be construed as creating a legal right or entitlement to any payment that (a) has not been adjusted under this section or (b) would cause the statewide average payment rate to exceed the statewide average payment rate specified in the biennial appropriations act.

(4)~~((a))~~ ~~The statewide average payment rate for the capital portion of the rate for any state fiscal year under the nursing facility medicaid payment system, weighted by patient days, shall not exceed the annual statewide weighted average nursing facility payment rate for the capital portion of the rate identified for that fiscal~~

year in the biennial appropriations act.

~~—(b) If the department determines that the weighted average nursing facility payment rate for the capital portion of the rate calculated in accordance with this chapter is likely to exceed the weighted average nursing facility payment rate for the capital portion of the rate identified in the biennial appropriations act, then the department shall adjust all nursing facility property and financing allowance payment rates proportional to the amount by which the weighted average rate allocations would otherwise exceed the budgeted capital portion of the rate amount. Any such adjustments shall only be made prospectively, not retrospectively, and shall be applied proportionately to each component rate allocation for each facility.~~

~~—(5))~~(a) The statewide average payment rate ~~((for the noncapital portion of the rate))~~ for any state fiscal year under the nursing facility payment system, weighted by patient days, shall not exceed the annual statewide weighted average nursing facility payment rate ~~((for the noncapital portion of the rate))~~ identified for that fiscal year in the biennial appropriations act.

(b) If the department determines that the weighted average nursing facility payment rate ~~((for the noncapital portion of the rate))~~ calculated in accordance with this chapter is likely to exceed the weighted average nursing facility payment rate ~~((for the noncapital portion of the rate))~~ identified in the biennial appropriations act, then the department shall adjust all nursing facility ~~((direct care, therapy care, support services, operations, and variable return))~~ payment rates proportional to the amount by which the weighted average rate allocations would otherwise exceed the budgeted ~~((noncapital portion of the))~~ rate amount. Any such adjustments shall only be made prospectively, not retrospectively, and shall be applied proportionately to each ~~((direct care, therapy care, support services, operations, and variable return))~~ component rate allocation for each facility.

**Sec. 5.** RCW 74.46.431 and 1999 c 353 s 4 are each amended to read as follows:

(1) Effective July 1, 1999, nursing facility medicaid payment rate allocations shall be facility-specific and shall have seven components: Direct care, therapy care, support services, operations, property, financing allowance, and variable return. The department shall establish and adjust each of these components, as provided in this section and elsewhere in this chapter, for each medicaid nursing facility in this state.

(2) All component rate allocations for essential community providers as defined in this chapter shall be based upon a minimum facility occupancy of eighty-five percent of licensed beds, regardless of how many beds are set up or in use. For all facilities other than essential community providers, effective July 1, 2001, component rate allocations in direct care, therapy care, support services, variable return, operations, property, and financing allowance shall continue to be based upon a minimum facility occupancy of eighty-five percent of licensed beds. For all facilities other than essential community providers, effective July 1, 2002, the component rate allocations in operations, property, and financing allowance shall be based upon a minimum facility occupancy of ninety percent of licensed beds, regardless of how many beds are set up or in use.

(3) Information and data sources used in determining medicaid payment rate allocations, including formulas, procedures, cost report periods, resident assessment instrument formats, resident assessment methodologies, and resident classification and case mix weighting methodologies, may be substituted or altered from time to time as determined by the department.

(4)(a) Direct care component rate allocations shall be established using adjusted cost report data covering at least six months. Adjusted cost report data from 1996 will be used for October 1, 1998, through June 30, 2001, direct care component rate allocations; adjusted cost report data from 1999 will be used for July 1, 2001, through June 30, 2004, direct care component rate allocations.

(b) Direct care component rate allocations based on 1996 cost report data shall be adjusted annually for economic trends and conditions by a factor or factors defined in the biennial appropriations act. A different economic trends and conditions adjustment factor or factors may be defined in the biennial appropriations act for facilities whose direct care component rate is set equal to their adjusted June 30, 1998, rate, as provided in RCW 74.46.506(5)~~((k))~~ (i).

(c) Direct care component rate allocations based on 1999 cost report data shall be adjusted annually for economic trends and conditions by a factor or factors defined in the biennial appropriations act. A different economic trends and conditions adjustment factor or factors may be defined in the biennial appropriations act for facilities whose direct care component rate is set equal to their adjusted June 30, 1998, rate, as provided in RCW

74.46.506(5)((4)) (i).

(5)(a) Therapy care component rate allocations shall be established using adjusted cost report data covering at least six months. Adjusted cost report data from 1996 will be used for October 1, 1998, through June 30, 2001, therapy care component rate allocations; adjusted cost report data from 1999 will be used for July 1, 2001, through June 30, 2004, therapy care component rate allocations.

(b) Therapy care component rate allocations shall be adjusted annually for economic trends and conditions by a factor or factors defined in the biennial appropriations act.

(6)(a) Support services component rate allocations shall be established using adjusted cost report data covering at least six months. Adjusted cost report data from 1996 shall be used for October 1, 1998, through June 30, 2001, support services component rate allocations; adjusted cost report data from 1999 shall be used for July 1, 2001, through June 30, 2004, support services component rate allocations.

(b) Support services component rate allocations shall be adjusted annually for economic trends and conditions by a factor or factors defined in the biennial appropriations act.

(7)(a) Operations component rate allocations shall be established using adjusted cost report data covering at least six months. Adjusted cost report data from 1996 shall be used for October 1, 1998, through June 30, 2001, operations component rate allocations; adjusted cost report data from 1999 shall be used for July 1, 2001, through June 30, 2004, operations component rate allocations.

(b) Operations component rate allocations shall be adjusted annually for economic trends and conditions by a factor or factors defined in the biennial appropriations act.

(8) For July 1, 1998, through September 30, 1998, a facility's property and return on investment component rates shall be the facility's June 30, 1998, property and return on investment component rates, without increase. For October 1, 1998, through June 30, 1999, a facility's property and return on investment component rates shall be rebased utilizing 1997 adjusted cost report data covering at least six months of data.

(9) Total payment rates under the nursing facility medicaid payment system shall not exceed facility rates charged to the general public for comparable services.

(10) Medicaid contractors shall pay to all facility staff a minimum wage of the greater of (~~five dollars and fifteen cents per hour~~) the state minimum wage or the federal minimum wage.

(11) The department shall establish in rule procedures, principles, and conditions for determining component rate allocations for facilities in circumstances not directly addressed by this chapter, including but not limited to: The need to prorate inflation for partial-period cost report data, newly constructed facilities, existing facilities entering the medicaid program for the first time or after a period of absence from the program, existing facilities with expanded new bed capacity, existing medicaid facilities following a change of ownership of the nursing facility business, facilities banking beds or converting beds back into service, facilities temporarily reducing the number of set-up beds during a remodel, facilities having less than six months of either resident assessment, cost report data, or both, under the current contractor prior to rate setting, and other circumstances.

(12) The department shall establish in rule procedures, principles, and conditions, including necessary threshold costs, for adjusting rates to reflect capital improvements or new requirements imposed by the department or the federal government. Any such rate adjustments are subject to the provisions of RCW 74.46.421.

(13) Effective July 1, 2001, medicaid rates shall continue to be revised downward in all components, in accordance with department rules, for facilities converting banked beds to active service under chapter 70.38 RCW by using the facility's increased licensed bed capacity to recalculate minimum occupancy for rate setting. However, for facilities other than essential community providers which bank beds under chapter 70.38 RCW, after April 1, 2001, medicaid rates shall be revised upward, in accordance with department rules, in direct care, therapy care, support services, and variable return components only by using the facility's decreased licensed bed capacity to recalculate minimum occupancy for rate setting, but no upward revision shall be made to operations, property, or financing allowance component rates.

(14) Facilities obtaining a certificate of need or a certificate of need exemption under chapter 70.38 RCW after June 30, 2001, must have a certificate of capital authorization in order for (a) the depreciation resulting from the capitalized addition to be included in calculation of the facility's property component rate allocation; and (b) the net invested funds associated with the capitalized addition to be included in calculation of the facility's financing allowance rate allocation.

**Sec. 6.** RCW 74.46.433 and 1999 c 353 s 9 are each amended to read as follows:

(1) The department shall establish for each medicaid nursing facility a variable return component rate allocation. In determining the variable return allowance:

(a) The variable return array and percentage ((assigned at the October 1, 1998, rate setting shall remain in effect until June 30, 2001)) shall be assigned whenever rebasing of noncapital rate allocations is scheduled under RCW 46.46.431 (4), (5), (6), and (7).

(b) To calculate the array of facilities for the July 1, 2001, rate setting, the department, without using peer groups, shall first rank all facilities in numerical order from highest to lowest according to each facility's examined and documented, but unlidged, combined direct care, therapy care, support services, and operations per resident day cost from the 1999 cost report period. However, before being combined with other per resident day costs and ranked, a facility's direct care cost per resident day shall be adjusted to reflect its facility average case mix index, to be averaged from the four calendar quarters of 1999, weighted by the facility's resident days from each quarter, under RCW 74.46.501(7)(b)(ii). The array shall then be divided into four quartiles, each containing, as nearly as possible, an equal number of facilities, and four percent shall be assigned to facilities in the lowest quartile, three percent to facilities in the next lowest quartile, two percent to facilities in the next highest quartile, and one percent to facilities in the highest quartile.

(c) The department shall ((then)), subject to (d) of this subsection, compute the variable return allowance by multiplying ((the appropriate)) a facility's assigned percentage ((amounts, which shall not be less than one percent and not greater than four percent,)) by the sum of the facility's direct care, therapy care, support services, and operations ((rate components. The percentage amounts will be based on groupings of facilities according to the rankings prescribed in (a) of this subsection, as applicable. Those groups of facilities with lower per diem costs shall receive higher percentage amounts than those with higher per diem costs)) component rates determined in accordance with this chapter and rules adopted by the department.

(d) Effective July 1, 2001, if a facility's examined and documented direct care cost per resident day for the preceding report year is lower than its average direct care component rate weighted by medicaid resident days for the same year, the facility's direct care cost shall be substituted for its July 1, 2001, direct care component rate, and its variable return component rate shall be determined or adjusted each July 1st by multiplying the facility's assigned percentage by the sum of the facility's July 1, 2001, therapy care, support services, and operations component rates, and its direct care cost per resident day for the preceding year.

(2) The variable return rate allocation calculated in accordance with this section shall be adjusted to the extent necessary to comply with RCW 74.46.421.

**Sec. 7.** RCW 74.46.435 and 1999 c 353 s 10 are each amended to read as follows:

(1) Effective July 1, 2001, the property component rate allocation for each facility shall be determined by dividing the sum of the reported allowable prior period actual depreciation, subject to RCW 74.46.310 through 74.46.380, adjusted for any capitalized additions or replacements approved by the department, and the retained savings from such cost center by the greater of a facility's total resident days for the facility in the prior period or resident days as calculated on eighty-five percent facility occupancy. Effective July 1, 2002, the property component rate allocation for all facilities, except essential community providers, shall be set by using the greater of a facility's total resident days from the most recent cost report period or resident days calculated at ninety percent facility occupancy. If a capitalized addition or retirement of an asset will result in a different licensed bed capacity during the ensuing period, the prior period total resident days used in computing the property component rate shall be adjusted to anticipated resident day level.

(2) A nursing facility's property component rate allocation shall be rebased annually, effective July 1st (~~or October 1st as applicable~~), in accordance with this section and this chapter.

(3) When a certificate of need for a new facility is requested, the department, in reaching its decision, shall take into consideration per-bed land and building construction costs for the facility which shall not exceed a maximum to be established by the secretary.

(4) Effective July 1, 2001, for the purpose of calculating a nursing facility's property component rate, if a contractor (~~elects~~) has elected to bank licensed beds prior to April 1, 2001, or elects to convert banked beds to active service at any time, under chapter 70.38 RCW, the department shall use the facility's (~~anticipated resident occupancy level subsequent to the decrease or increase in licensed bed capacity~~) new licensed bed capacity to recalculate minimum occupancy for rate setting and revise the property component rate, as needed, effective as of the date the beds are banked or converted to active service. However, in no case shall the department use less than eighty-five percent occupancy of the facility's licensed bed capacity after banking or conversion. Effective July 1, 2002, in no case, other than essential community providers, shall the department use less than ninety percent occupancy of the facility's licensed bed capacity after conversion.

(5) The property component rate allocations calculated in accordance with this section shall be adjusted to the extent necessary to comply with RCW 74.46.421.

**Sec. 8.** RCW 74.46.437 and 1999 c 353 s 11 are each amended to read as follows:

(1) Beginning July 1, 1999, the department shall establish for each medicaid nursing facility a financing allowance component rate allocation. The financing allowance component rate shall be rebased annually, effective July 1st, in accordance with the provisions of this section and this chapter.

(2) Effective July 1, 2001, the financing allowance shall be determined by multiplying the net invested funds of each facility by .10, and dividing by the greater of a nursing facility's total resident days from the most recent cost report period or resident days calculated on eighty-five percent facility occupancy. Effective July 1, 2002, the financing allowance component rate allocation for all facilities, other than essential community providers, shall be set by using the greater of a facility's total resident days from the most recent cost report period or resident days calculated at ninety percent facility occupancy. However, assets acquired on or after May 17, 1999, shall be grouped in a separate financing allowance calculation that shall be multiplied by .085. The financing allowance factor of .085 shall not be applied to the net invested funds pertaining to new construction or major renovations receiving certificate of need approval or an exemption from certificate of need requirements under chapter 70.38 RCW, or to working drawings that have been submitted to the department of health for construction review approval, prior to May 17, 1999. If a capitalized addition, renovation, replacement, or retirement of an asset will result in a different licensed bed capacity during the ensuing period, the prior period total resident days used in computing the financing allowance shall be adjusted to the greater of the anticipated resident day level or eighty-five percent of the new licensed bed capacity. Effective July 1, 2002, for all facilities, other than essential community providers, the total resident days used to compute the financing allowance after a capitalized addition, renovation, replacement, or retirement of an asset shall be set by using the greater of a facility's total resident days from the most recent cost report period or resident days calculated at ninety percent facility occupancy.

(3) In computing the portion of net invested funds representing the net book value of tangible fixed assets, the same assets, depreciation bases, lives, and methods referred to in RCW 74.46.330, 74.46.350, 74.46.360, 74.46.370, and 74.46.380, including owned and leased assets, shall be utilized, except that the capitalized cost of land upon which the facility is located and such other contiguous land which is reasonable and necessary for use in the regular course of providing resident care shall also be included. Subject to provisions and limitations contained in this chapter, for land purchased by owners or lessors before July 18, 1984, capitalized cost of land shall be the buyer's capitalized cost. For all partial or whole rate periods after July 17, 1984, if the land is purchased after July 17, 1984, capitalized cost shall be that of the owner of record on July 17, 1984, or buyer's capitalized cost, whichever is lower. In the case of leased facilities where the net invested funds are unknown or the contractor is unable to provide necessary information to determine net invested funds, the secretary shall have the authority to determine an amount for net invested funds based on an appraisal conducted according to RCW 74.46.360(1).

(4) Effective July 1, 2001, for the purpose of calculating a nursing facility's financing allowance component rate, if a contractor (~~elects~~) has elected to bank licensed beds prior to April 1, 2001, or elects to

convert banked beds to active service at any time, under chapter 70.38 RCW, the department shall use the facility's ~~((anticipated resident occupancy level subsequent to the decrease or increase in licensed bed capacity))~~ new licensed bed capacity to recalculate minimum occupancy for rate setting and revise the financing allowance component rate, as needed, effective as of the date the beds are banked or converted to active service. However, in no case shall the department use less than eighty-five percent occupancy of the facility's licensed bed capacity after banking or conversion. Effective July 1, 2002, in no case, other than for essential community providers, shall the department use less than ninety percent occupancy of the facility's licensed bed capacity after conversion.

(5) The financing allowance rate allocation calculated in accordance with this section shall be adjusted to the extent necessary to comply with RCW 74.46.421.

**Sec. 9.** RCW 74.46.501 and 1998 c 322 s 24 are each amended to read as follows:

(1) From individual case mix weights for the applicable quarter, the department shall determine two average case mix indexes for each medicaid nursing facility, one for all residents in the facility, known as the facility average case mix index, and one for medicaid residents, known as the medicaid average case mix index.

(2)(a) In calculating a facility's two average case mix indexes for each quarter, the department shall include all residents or medicaid residents, as applicable, who were physically in the facility during the quarter in question (January 1st through March 31st, April 1st through June 30th, July 1st through September 30th, or October 1st through December 31st).

(b) The facility average case mix index shall exclude all default cases as defined in this chapter. However, the medicaid average case mix index shall include all default cases.

(3) Both the facility average and the medicaid average case mix indexes shall be determined by multiplying the case mix weight of each resident, or each medicaid resident, as applicable by the number of days, as defined in this section and as applicable, the resident was at each particular case mix classification or group, and then averaging.

(4)(a) In determining the number of days a resident is classified into a particular case mix group, the department shall determine a start date for calculating case mix grouping periods as follows:

(i) If a resident's initial assessment for a first stay or a return stay in the nursing facility is timely completed and transmitted to the department by the cutoff date under state and federal requirements and as described in subsection (5) of this section, the start date shall be the later of either the first day of the quarter or the resident's facility admission or readmission date;

(ii) If a resident's significant change, quarterly, or annual assessment is timely completed and transmitted to the department by the cutoff date under state and federal requirements and as described in subsection (5) of this section, the start date shall be the date the assessment is completed;

(iii) If a resident's significant change, quarterly, or annual assessment is not timely completed and transmitted to the department by the cutoff date under state and federal requirements and as described in subsection (5) of this section, the start date shall be the due date for the assessment.

(b) If state or federal rules require more frequent assessment, the same principles for determining the start date of a resident's classification in a particular case mix group set forth in subsection (4)(a) of this section shall apply.

(c) In calculating the number of days a resident is classified into a particular case mix group, the department shall determine an end date for calculating case mix grouping periods as follows:

(i) If a resident is discharged before the end of the applicable quarter, the end date shall be the day before discharge;

(ii) If a resident is not discharged before the end of the applicable quarter, the end date shall be the last day of the quarter;

(iii) If a new assessment is due for a resident or a new assessment is completed and transmitted to the department, the end date of the previous assessment shall be the earlier of either the day before the assessment is due or the day before the assessment is completed by the nursing facility.

(5) The cutoff date for the department to use resident assessment data, for the purposes of calculating both the facility average and the medicaid average case mix indexes, and for establishing and updating a facility's direct care component rate, shall be one month and one day after the end of the quarter for which the resident assessment

data applies.

(6) A threshold of ninety percent, as described and calculated in this subsection, shall be used to determine the case mix index each quarter. The threshold shall also be used to determine which facilities' costs per case mix unit are included in determining the ceiling, floor, and price. If the facility does not meet the ninety percent threshold, the department may use an alternate case mix index to determine the facility average and medicaid average case mix indexes for the quarter. The threshold is a count of unique minimum data set assessments, and it shall include resident assessment instrument tracking forms for residents discharged prior to completing an initial assessment. The threshold is calculated by dividing ~~((the))~~ a facility's count of ~~((unique minimum data set assessments))~~ residents being assessed by the average census for ~~((each))~~ the facility. A daily census shall be reported by each nursing facility as it transmits assessment data to the department. The department shall compute a quarterly average census based on the daily census. If no census has been reported by a facility during a specified quarter, then the department shall use the facility's licensed beds as the denominator in computing the threshold.

(7)(a) Although the facility average and the medicaid average case mix indexes shall both be calculated quarterly, the facility average case mix index will be used only every three years in combination with cost report data as specified by RCW 74.46.431 and 74.46.506, to establish a facility's allowable cost per case mix unit. A facility's medicaid average case mix index shall be used to update a nursing facility's direct care component rate quarterly.

(b) The facility average case mix index used to establish each nursing facility's direct care component rate shall be based on an average of calendar quarters of the facility's average case mix indexes.

(i) For October 1, 1998, direct care component rates, the department shall use an average of facility average case mix indexes from the four calendar quarters of 1997.

(ii) For July 1, 2001, direct care component rates, the department shall use an average of facility average case mix indexes from the four calendar quarters of 1999.

(c) The medicaid average case mix index used to update or recalibrate a nursing facility's direct care component rate quarterly shall be from the calendar quarter commencing six months prior to the effective date of the quarterly rate. For example, October 1, 1998, through December 31, 1998, direct care component rates shall utilize case mix averages from the April 1, 1998, through June 30, 1998, calendar quarter, and so forth.

**Sec. 10.** RCW 74.46.506 and 1999 c 353 s 5 and 1999 c 181 s 1 are each reenacted and amended to read as follows:

(1) The direct care component rate allocation corresponds to the provision of nursing care for one resident of a nursing facility for one day, including direct care supplies. Therapy services and supplies, which correspond to the therapy care component rate, shall be excluded. The direct care component rate includes elements of case mix determined consistent with the principles of this section and other applicable provisions of this chapter.

(2) Beginning October 1, 1998, the department shall determine and update quarterly for each nursing facility serving medicaid residents a facility-specific per-resident day direct care component rate allocation, to be effective on the first day of each calendar quarter. In determining direct care component rates the department shall utilize, as specified in this section, minimum data set resident assessment data for each resident of the facility, as transmitted to, and if necessary corrected by, the department in the resident assessment instrument format approved by federal authorities for use in this state.

(3) The department may question the accuracy of assessment data for any resident and utilize corrected or substitute information, however derived, in determining direct care component rates. The department is authorized to impose civil fines and to take adverse rate actions against a contractor, as specified by the department in rule, in order to obtain compliance with resident assessment and data transmission requirements and to ensure accuracy.

(4) Cost report data used in setting direct care component rate allocations shall be 1996 and 1999, for rate periods as specified in RCW 74.46.431(4)(a).

(5) Beginning October 1, 1998, the department shall rebase each nursing facility's direct care component rate allocation as described in RCW 74.46.431, adjust its direct care component rate allocation for economic trends and conditions as described in RCW 74.46.431, and update its medicaid average case mix index, consistent

with the following:

(a) Reduce total direct care costs reported by each nursing facility for the applicable cost report period specified in RCW 74.46.431(4)(a) to reflect any department adjustments, and to eliminate reported resident therapy costs and adjustments, in order to derive the facility's total allowable direct care cost;

(b) Divide each facility's total allowable direct care cost by its adjusted resident days for the same report period, increased if necessary to a minimum occupancy of eighty-five percent; that is, the greater of actual or imputed occupancy at eighty-five percent of licensed beds, to derive the facility's allowable direct care cost per resident day;

(c) Adjust the facility's per resident day direct care cost by the applicable factor specified in RCW 74.46.431(4) (b) and (c) to derive its adjusted allowable direct care cost per resident day;

(d) Divide each facility's adjusted allowable direct care cost per resident day by the facility average case mix index for the applicable quarters specified by RCW 74.46.501(7)(b) to derive the facility's allowable direct care cost per case mix unit;

(e) Effective for July 1, 2001, rate setting, divide nursing facilities into at least two and, if applicable, three peer groups: Those located in ~~((metropolitan statistical areas as determined and defined by the United States office of management and budget or other appropriate agency or office of the federal government, and those not located in a metropolitan statistical area))~~ nonurban counties; those located in high labor-cost counties, if any; and those located in other urban counties;

(f) Array separately the allowable direct care cost per case mix unit for all ~~((metropolitan statistical area and for all nonmetropolitan statistical area facilities))~~ facilities in nonurban counties, for all facilities in high labor-cost counties, if applicable; and for all facilities in other urban counties, and determine the median allowable direct care cost per case mix unit for each peer group;

(g) Except as provided in ~~((k))~~ (i) of this subsection, from October 1, 1998, through June 30, 2000, determine each facility's quarterly direct care component rate as follows:

(i) Any facility whose allowable cost per case mix unit is less than eighty-five percent of the facility's peer group median established under (f) of this subsection shall be assigned a cost per case mix unit equal to eighty-five percent of the facility's peer group median, and shall have a direct care component rate allocation equal to the facility's assigned cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c);

(ii) Any facility whose allowable cost per case mix unit is greater than one hundred fifteen percent of the peer group median established under (f) of this subsection shall be assigned a cost per case mix unit equal to one hundred fifteen percent of the peer group median, and shall have a direct care component rate allocation equal to the facility's assigned cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c);

(iii) Any facility whose allowable cost per case mix unit is between eighty-five and one hundred fifteen percent of the peer group median established under (f) of this subsection shall have a direct care component rate allocation equal to the facility's allowable cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c);

(h) Except as provided in ~~((k))~~ (i) of this subsection, from July 1, 2000, ~~((through June 30, 2002))~~ forward, and for all future rate setting, determine each facility's quarterly direct care component rate as follows:

(i) Any facility whose allowable cost per case mix unit is less than ninety percent of the facility's peer group median established under (f) of this subsection shall be assigned a cost per case mix unit equal to ninety percent of the facility's peer group median, and shall have a direct care component rate allocation equal to the facility's assigned cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c);

(ii) Any facility whose allowable cost per case mix unit is greater than one hundred ten percent of the peer group median established under (f) of this subsection shall be assigned a cost per case mix unit equal to one hundred ten percent of the peer group median, and shall have a direct care component rate allocation equal to the facility's assigned cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c);

(iii) Any facility whose allowable cost per case mix unit is between ninety and one hundred ten percent of

the peer group median established under (f) of this subsection shall have a direct care component rate allocation equal to the facility's allowable cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c);

(i) ~~((From July 1, 2002, through June 30, 2004, determine each facility's quarterly direct care component rate as follows:~~

~~—— (i) Any facility whose allowable cost per case mix unit is less than ninety five percent of the facility's peer group median established under (f) of this subsection shall be assigned a cost per case mix unit equal to ninety five percent of the facility's peer group median, and shall have a direct care component rate allocation equal to the facility's assigned cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c);~~

~~—— (ii) Any facility whose allowable cost per case mix unit is greater than one hundred five percent of the peer group median established under (f) of this subsection shall be assigned a cost per case mix unit equal to one hundred five percent of the peer group median, and shall have a direct care component rate allocation equal to the facility's assigned cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c);~~

~~—— (iii) Any facility whose allowable cost per case mix unit is between ninety five and one hundred five percent of the peer group median established under (f) of this subsection shall have a direct care component rate allocation equal to the facility's allowable cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c);~~

~~—— (j) Beginning July 1, 2004, determine each facility's quarterly direct care component rate by multiplying the facility's peer group median allowable direct care cost per case mix unit by that facility's medicaid average case mix index from the applicable quarter as specified in RCW 74.46.501(7)(c).~~

~~—— (k)) (i) Between October 1, 1998, and June 30, 2000, the department shall compare each facility's direct care component rate allocation calculated under (g) of this subsection with the facility's nursing services component rate in effect on September 30, 1998, less therapy costs, plus any exceptional care offsets as reported on the cost report, adjusted for economic trends and conditions as provided in RCW 74.46.431. A facility shall receive the higher of the two rates;~~

(ii) Between July 1, 2000, and June 30, 2002, the department shall compare each facility's direct care component rate allocation calculated under (h) of this subsection with the facility's direct care component rate in effect on June 30, 2000. A facility shall receive the higher of the two rates. Between July 1, 2001, and June 30, 2002, if during any quarter a facility whose rate paid under (h) of this subsection is greater than either the direct care rate in effect on June 30, 2000, or than that facility's allowable direct care cost per case mix unit calculated in (d) of this subsection multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c), the facility shall be paid in that and each subsequent quarter pursuant to (h) of this subsection and shall not be entitled to the greater of the two rates.

(iii) Effective July 1, 2002, all direct care component rate allocations shall be as determined under (h) of this subsection.

(6) The direct care component rate allocations calculated in accordance with this section shall be adjusted to the extent necessary to comply with RCW 74.46.421.

(7) Payments resulting from increases in direct care component rates, granted under authority of RCW 74.46.508(1) for a facility's exceptional care residents, shall be offset against the facility's examined, allowable direct care costs, for each report year or partial period such increases are paid. Such reductions in allowable direct care costs shall be for rate setting, settlement, and other purposes deemed appropriate by the department.

**Sec. 11.** RCW 74.46.511 and 1999 c 353 s 6 and 1999 c 181 s 3 are each reenacted and amended to read as follows:

(1) The therapy care component rate allocation corresponds to the provision of medicaid one-on-one therapy provided by a qualified therapist as defined in this chapter, including therapy supplies and therapy consultation, for one day for one medicaid resident of a nursing facility. The therapy care component rate allocation for October 1, 1998, through June 30, 2001, shall be based on adjusted therapy costs and days from calendar year 1996. The therapy component rate allocation for July 1, 2001, through June 30, 2004, shall be

based on adjusted therapy costs and days from calendar year 1999. The therapy care component rate shall be adjusted for economic trends and conditions as specified in RCW 74.46.431(5)(b), and shall be determined in accordance with this section.

(2) In rebasing, as provided in RCW 74.46.431(5)(a), the department shall take from the cost reports of facilities the following reported information:

(a) Direct one-on-one therapy charges for all residents by payer including charges for supplies;

(b) The total units or modules of therapy care for all residents by type of therapy provided, for example, speech or physical. A unit or module of therapy care is considered to be fifteen minutes of one-on-one therapy provided by a qualified therapist or support personnel; and

(c) Therapy consulting expenses for all residents.

(3) The department shall determine for all residents the total cost per unit of therapy for each type of therapy by dividing the total adjusted one-on-one therapy expense for each type by the total units provided for that therapy type.

(4) The department shall divide medicaid nursing facilities in this state into two peer groups:

(a) Those facilities located within ~~((a metropolitan statistical area))~~ urban counties; and

(b) Those ~~((not))~~ located ~~((in a metropolitan statistical area))~~ within nonurban counties.

~~((Metropolitan statistical areas and nonmetropolitan statistical areas shall be as determined by the United States office of management and budget or other applicable federal office.))~~ The department shall array the facilities in each peer group from highest to lowest based on their total cost per unit of therapy for each therapy type. The department shall determine the median total cost per unit of therapy for each therapy type and add ten percent of median total cost per unit of therapy. The cost per unit of therapy for each therapy type at a nursing facility shall be the lesser of its cost per unit of therapy for each therapy type or the median total cost per unit plus ten percent for each therapy type for its peer group.

(5) The department shall calculate each nursing facility's therapy care component rate allocation as follows:

(a) To determine the allowable total therapy cost for each therapy type, the allowable cost per unit of therapy for each type of therapy shall be multiplied by the total therapy units for each type of therapy;

(b) The medicaid allowable one-on-one therapy expense shall be calculated taking the allowable total therapy cost for each therapy type times the medicaid percent of total therapy charges for each therapy type;

(c) The medicaid allowable one-on-one therapy expense for each therapy type shall be divided by total adjusted medicaid days to arrive at the medicaid one-on-one therapy cost per patient day for each therapy type;

(d) The medicaid one-on-one therapy cost per patient day for each therapy type shall be multiplied by total adjusted patient days for all residents to calculate the total allowable one-on-one therapy expense. The lesser of the total allowable therapy consultant expense for the therapy type or a reasonable percentage of allowable therapy consultant expense for each therapy type, as established in rule by the department, shall be added to the total allowable one-on-one therapy expense to determine the allowable therapy cost for each therapy type;

(e) The allowable therapy cost for each therapy type shall be added together, the sum of which shall be the total allowable therapy expense for the nursing facility;

(f) The total allowable therapy expense will be divided by the greater of adjusted total patient days from the cost report on which the therapy expenses were reported, or patient days at eighty-five percent occupancy of licensed beds. The outcome shall be the nursing facility's therapy care component rate allocation.

(6) The therapy care component rate allocations calculated in accordance with this section shall be adjusted to the extent necessary to comply with RCW 74.46.421.

(7) The therapy care component rate shall be suspended for medicaid residents in qualified nursing facilities designated by the department who are receiving therapy paid by the department outside the facility daily rate under RCW 74.46.508(2).

**Sec. 12.** RCW 74.46.515 and 1999 c 353 s 7 are each amended to read as follows:

(1) The support services component rate allocation corresponds to the provision of food, food preparation, dietary, housekeeping, and laundry services for one resident for one day.

(2) Beginning October 1, 1998, the department shall determine each medicaid nursing facility's support

services component rate allocation using cost report data specified by RCW 74.46.431(6).

(3) To determine each facility's support services component rate allocation, the department shall:

(a) Array facilities' adjusted support services costs per adjusted resident day for each facility from facilities' cost reports from the applicable report year, for facilities located within ~~((a metropolitan statistical area))~~ urban counties, and for those ~~((not))~~ located ~~((in a metropolitan statistical area))~~ within nonurban counties and determine the median adjusted cost for each peer group;

(b) Set each facility's support services component rate at the lower of the facility's per resident day adjusted support services costs from the applicable cost report period or the adjusted median per resident day support services cost for that facility's peer group, either ~~((metropolitan statistical area))~~ urban counties or ~~((nonmetropolitan statistical area))~~ nonurban counties, plus ten percent; and

(c) Adjust each facility's support services component rate for economic trends and conditions as provided in RCW 74.46.431(6).

(4) The support services component rate allocations calculated in accordance with this section shall be adjusted to the extent necessary to comply with RCW 74.46.421.

**Sec. 13.** RCW 74.46.521 and 1999 c 353 s 8 are each amended to read as follows:

(1) The operations component rate allocation corresponds to the general operation of a nursing facility for one resident for one day, including but not limited to management, administration, utilities, office supplies, accounting and bookkeeping, minor building maintenance, minor equipment repairs and replacements, and other supplies and services, exclusive of direct care, therapy care, support services, property, financing allowance, and variable return.

(2) Beginning October 1, 1998, the department shall determine each medicaid nursing facility's operations component rate allocation using cost report data specified by RCW 74.46.431(7)(a). Effective July 1, 2002, operations component rates for all facilities except essential community providers shall be based upon a minimum occupancy of ninety percent of licensed beds, and no operations component rate shall be revised in response to beds banked on or after April 1, 2001, under chapter 70.38 RCW.

(3) To determine each facility's operations component rate the department shall:

(a) Array facilities' adjusted general operations costs per adjusted resident day for each facility from facilities' cost reports from the applicable report year, for facilities located within ~~((a metropolitan statistical area))~~ urban counties and for those ~~((not))~~ located ~~((in a metropolitan statistical area))~~ within nonurban counties and determine the median adjusted cost for each peer group;

(b) Set each facility's operations component rate at the lower of:

(i) The facility's per resident day adjusted operations costs from the applicable cost report period adjusted if necessary to a minimum occupancy of eighty-five percent of licensed beds before July 1, 2002, and ninety percent effective July 1, 2002; or

(ii) The adjusted median per resident day general operations cost for that facility's peer group, ~~((metropolitan statistical area))~~ urban counties or ~~((nonmetropolitan statistical area))~~ nonurban counties; and

(c) Adjust each facility's operations component rate for economic trends and conditions as provided in RCW 74.46.431(7)(b).

(4) The operations component rate allocations calculated in accordance with this section shall be adjusted to the extent necessary to comply with RCW 74.46.421.

**Sec. 14.** RCW 74.46.711 and 1995 1st sp.s. c 18 s 69 are each amended to read as follows:

Upon the death of a resident with a personal fund deposited with the facility, the facility must convey within ~~((forty five))~~ thirty days the resident's funds, and a final accounting of those funds, to the individual or probate jurisdiction administering the resident's estate; but in the case of a resident who received long-term care services paid in whole or in part by the department, the funds and accounting shall be sent to the state of Washington, department of social and health services, office of financial recovery. The department shall establish a release procedure for use for burial expenses.

NEW SECTION. **Sec. 15.** A new section is added to chapter 74.46 RCW to read as follows:

The total capital authorization available for any biennial period shall be specified in the biennial appropriations act and shall be calculated on an annual basis. When setting the capital authorization level, the legislature shall consider both the need for, and the cost of, new and replacement beds.

**NEW SECTION. Sec. 16.** A new section is added to chapter 74.46 RCW to read as follows:

The department shall establish rules for issuing a certificate of capital authorization. Applications for a certificate of capital authorization shall be submitted and approved on a biennial basis. The rules for a certificate of capital authorization shall be consistent with the following principles:

- (1) The certificate of capital authorization shall be approved on a first-come, first-served basis.
- (2) Those projects that do not receive approval in one authorization period shall have priority the following biennium should the project be resubmitted.
- (3) The department shall have the authority to give priority for a project that is necessitated by an emergency situation even if the project is not submitted in a timely fashion. The department shall establish rules for determining what constitutes an emergency.
- (4) The department shall establish deadlines for progress and the department shall have the authority to withdraw the certificate of capital authorization where the holder of the certificate has not complied with those deadlines in a good faith manner.

**NEW SECTION. Sec. 17.** The joint legislative task force on nursing homes is hereby created.

(1) Membership of the task force shall consist of eight legislators. The president of the senate shall appoint four members of the senate, including two members of the majority party and two members of the minority party. **Sec. 18.** 1998 c 322 s 47 (uncodified) is amended to read as follows:

(1) By December 1, 1998, the department of social and health services shall study and provide recommendations to the chairs of the house of representatives appropriations and health care committees, and the senate ways and means and health and long-term care committees, concerning options for changing the method for paying facilities for capital and property related expenses.

(2) The department of social and health services shall contract with an independent and recognized organization to study and evaluate the impacts of chapter 74.46 RCW implementation on access, quality of care, quality of life for nursing facility residents, and the wage and benefit levels of all nursing facility employees. The contractor shall submit a preliminary report of findings, and recommendations for further study, to the joint legislative task force on nursing homes by December 1, 2001. The department and contractor shall incorporate the task force's recommendations into the final evaluation plan, and submit interim reports on findings and

recommendations to the task force by October 1, 2002, and July 1, 2003. The department (~~(shall require,)~~) and the contractor shall submit(~~(s)~~) a final report with the results of this study and evaluation, including their findings and recommendations, to the governor and legislature by (~~(December)~~) October 1, ((2001)) 2003.

(3) The department of social and health services shall study and, as needed, specify additional case mix groups and appropriate case mix weights to reflect the resource utilization of residents whose care needs are not adequately identified or reflected in the resource utilization group III grouper version 5.10. At a minimum, the department shall study the adequacy of the resource utilization group III grouper version 5.10, including the minimum data set, for capturing the care and resource utilization needs of residents with AIDS, residents with traumatic brain injury, and residents who are behaviorally challenged. The department shall report its findings to the (~~(chairs of the house of representatives health care committee and the senate health and long term care committee)~~) joint legislative task force on nursing homes by December 12, 2002.

(4) By (~~(December 12))~~ July 1, 2002, the department of social and health services shall report to the (~~(legislature)~~) joint legislative task force on nursing homes and provide an evaluation of the fiscal impact of rebasing future payments at different intervals, including the impact of averaging two years' cost data as the basis for rebasing. This report shall include the fiscal impact to the state and the fiscal impact to nursing facility providers.

(5) By December 1, 2001, the department of social and health services shall report to the joint legislative task force on nursing homes on alternative approaches for using client acuity to establish direct care rates. The alternatives shall link acuity, as measured by case mix, to the number of hours of service estimated to be provided for each client, and shall multiply those estimated service hours by standard wage and benefit rates which account for differences in direct care labor costs in various areas of the state. The alternatives reviewed shall provide cost controls and incentives at least equal to the current rate-setting system, and shall not contain automatic cost increases, automatic indexing, hold harmless provisions, or mandatory future rebasing of costs.

**Sec. 19.** RCW 70.38.115 and 1996 c 178 s 22 are each amended to read as follows:

(1) Certificates of need shall be issued, denied, suspended, or revoked by the designee of the secretary in accord with the provisions of this chapter and rules of the department which establish review procedures and criteria for the certificate of need program.

(2) Criteria for the review of certificate of need applications, except as provided in subsection (3) of this section for health maintenance organizations, shall include but not be limited to consideration of the following:

- (a) The need that the population served or to be served by such services has for such services;
- (b) The availability of less costly or more effective alternative methods of providing such services;
- (c) The financial feasibility and the probable impact of the proposal on the cost of and charges for providing health services in the community to be served;

(d) In the case of health services to be provided, (i) the availability of alternative uses of project resources for the provision of other health services, (ii) the extent to which such proposed services will be accessible to all residents of the area to be served, and (iii) the need for and the availability in the community of services and facilities for osteopathic physicians and surgeons and allopathic physicians and their patients. The department shall consider the application in terms of its impact on existing and proposed institutional training programs for doctors of osteopathic medicine and surgery and medicine at the student, internship, and residency training levels;

(e) In the case of a construction project, the costs and methods of the proposed construction, including the cost and methods of energy provision, and the probable impact of the construction project reviewed (i) on the cost of providing health services by the person proposing such construction project and (ii) on the cost and charges to the public of providing health services by other persons;

(f) The special needs and circumstances of osteopathic hospitals, nonallopathic services and children's hospitals;

(g) Improvements or innovations in the financing and delivery of health services which foster cost containment and serve to promote quality assurance and cost-effectiveness;

(h) In the case of health services proposed to be provided, the efficiency and appropriateness of the use of existing services and facilities similar to those proposed;

(i) In the case of existing services or facilities, the quality of care provided by such services or facilities in

the past;

(j) In the case of hospital certificate of need applications, whether the hospital meets or exceeds the regional average level of charity care, as determined by the secretary; and

(k) In the case of nursing home applications:

(i) The availability of other nursing home beds in the planning area to be served; and

(ii) The availability of other services in the community to be served. Data used to determine the availability of other services will include but not be limited to data provided by the department of social and health services.

(3) A certificate of need application of a health maintenance organization or a health care facility which is controlled, directly or indirectly by a health maintenance organization, shall be approved by the department if the department finds:

(a) Approval of such application is required to meet the needs of the members of the health maintenance organization and of the new members which such organization can reasonably be expected to enroll; and

(b) The health maintenance organization is unable to provide, through services or facilities which can reasonably be expected to be available to the organization, its health services in a reasonable and cost-effective manner which is consistent with the basic method of operation of the organization and which makes such services available on a long-term basis through physicians and other health professionals associated with it.

A health care facility, or any part thereof, with respect to which a certificate of need was issued under this subsection may not be sold or leased and a controlling interest in such facility or in a lease of such facility may not be acquired unless the department issues a certificate of need approving the sale, acquisition, or lease.

(4) Until the final expiration of the state health plan as provided under RCW 70.38.919, the decision of the department on a certificate of need application shall be consistent with the state health plan in effect, except in emergency circumstances which pose a threat to the public health. The department in making its final decision may issue a conditional certificate of need if it finds that the project is justified only under specific circumstances.

The conditions shall directly relate to the project being reviewed. The conditions may be released if it can be substantiated that the conditions are no longer valid and the release of such conditions would be consistent with the purposes of this chapter.

(5) Criteria adopted for review in accordance with subsection (2) of this section may vary according to the purpose for which the particular review is being conducted or the type of health service reviewed.

(6) The department shall specify information to be required for certificate of need applications. Within fifteen days of receipt of the application, the department shall request additional information considered necessary to the application or start the review process. Applicants may decline to submit requested information through written notice to the department, in which case review starts on the date of receipt of the notice. Applications may be denied or limited because of failure to submit required and necessary information.

(7) Concurrent review is for the purpose of comparative analysis and evaluation of competing or similar projects in order to determine which of the projects may best meet identified needs. Categories of projects subject to concurrent review include at least new health care facilities, new services, and expansion of existing health care facilities. The department shall specify time periods for the submission of applications for certificates of need subject to concurrent review, which shall not exceed ninety days. Review of concurrent applications shall start fifteen days after the conclusion of the time period for submission of applications subject to concurrent review. Concurrent review periods shall be limited to one hundred fifty days, except as provided for in rules adopted by the department authorizing and limiting amendment during the course of the review, or for an unresolved pivotal issue declared by the department.

(8) Review periods for certificate of need applications other than those subject to concurrent review shall be limited to ninety days. Review periods may be extended up to thirty days if needed by a review agency, and for unresolved pivotal issues the department may extend up to an additional thirty days. A review may be extended in any case if the applicant agrees to the extension.

(9) The department or its designee, shall conduct a public hearing on a certificate of need application if requested unless the review is expedited or subject to emergency review. The department by rule shall specify the period of time within which a public hearing must be requested and requirements related to public notice of the hearing, procedures, recordkeeping and related matters.

(10)(a) Any applicant denied a certificate of need or whose certificate of need has been suspended or revoked has the right to an adjudicative proceeding. The proceeding is governed by chapter 34.05 RCW, the Administrative Procedure Act.

(b) Any health care facility or health maintenance organization that: (i) Provides services similar to the services provided by the applicant and under review pursuant to this subsection; (ii) is located within the applicant's health service area; and (iii) testified or submitted evidence at a public hearing held pursuant to subsection (9) of this section, shall be provided an opportunity to present oral or written testimony and argument in a proceeding under this subsection: PROVIDED, That the health care facility or health maintenance organization had, in writing, requested to be informed of the department's decisions.

(c) If the department desires to settle with the applicant prior to the conclusion of the adjudicative proceeding, the department shall so inform the health care facility or health maintenance organization and afford them an opportunity to comment, in advance, on the proposed settlement.

(11) An amended certificate of need shall be required for the following modifications of an approved project:

(a) A new service requiring review under this chapter;

(b) An expansion of a service subject to review beyond that originally approved;

(c) An increase in bed capacity;

(d) A significant reduction in the scope of a nursing home project without a commensurate reduction in the cost of the nursing home project, or a cost increase (as represented in bids on a nursing home construction project or final cost estimates acceptable to the person to whom the certificate of need was issued) if the total of such increases exceeds twelve percent or fifty thousand dollars, whichever is greater, over the maximum capital expenditure approved. The review of reductions or cost increases shall be restricted to the continued conformance of the nursing home project with the review criteria pertaining to financial feasibility and cost containment.

(12) An application for a certificate of need for a nursing home capital expenditure which is determined by the department to be required to eliminate or prevent imminent safety hazards or correct violations of applicable licensure and accreditation standards shall be approved.

(13)(a) Replacement of existing nursing home beds in the same planning area by an existing licensee who has operated the beds for at least one year shall not require a certificate of need under this chapter. The licensee shall give written notice of its intent to replace the existing nursing home beds to the department and shall provide the department with information as may be required pursuant to rule. Replacement of the beds by a party other than the licensee is subject to certificate of need review under this chapter, except as otherwise permitted by subsection (14) of this section.

(b) When an entire nursing home ceases operation, the licensee or any other party who has secured an interest in the beds may reserve his or her interest in the beds for eight years or until a certificate of need to replace them is issued, whichever occurs first. However, the nursing home, licensee, or any other party who has secured an interest in the beds must give notice of its intent to retain the beds to the department of health no later than thirty days after the effective date of the facility's closure. Certificate of need review shall be required for any party who has reserved the nursing home beds except that the need criteria shall be deemed met when the applicant is the licensee who had operated the beds for at least one year, who has operated the beds for at least one year immediately preceding the reservation of the beds, and who is replacing the beds in the same planning area.

(14) In the event that a licensee, who has provided the department with notice of his or her intent to replace nursing home beds under subsection (13)(a) of this section, engages in unprofessional conduct or becomes unable to practice with reasonable skill and safety by reason of mental or physical condition, pursuant to chapter 18.130 RCW, ((~~or~~)) dies, or under state or federal law files for bankruptcy, the building owner shall be permitted to complete the nursing home bed replacement project, provided the building owner has secured an interest in the beds.

The appropriations in this section are subject to the following conditions and limitations and specified amounts are provided solely for that activity:

(1) \$40,692,000 of the motor vehicle account--state appropriation is provided solely for the state program share of freight mobility projects as identified by the freight mobility strategic investment board. The amount provided in this subsection can only be expended upon authorization from the freight mobility strategic investment board.

(2) \$187,000 of the transportation account--state appropriation and \$213,000 of the multimodal transportation account--state appropriation are provided solely for a study by the senate transportation committee and the house of representatives transportation committee in cooperation with the port of Benton developing a strategic corridor feasibility and master site plan for the port of Benton. If the port of Benton does not provide at least \$200,000 to fund the plan development, the transportation fund--state appropriation referenced in this subsection shall lapse and this subsection shall be null and void.

(3) The motor vehicle account--state appropriation includes \$30,000,000 in proceeds from the sale of bonds authorized by RCW 47.10.843. The transportation commission may authorize the use of current revenues available to the department of transportation in lieu of bond proceeds for any part of the state appropriation.

(4) \$10,000,000 of the multimodal transportation account--state appropriation is provided solely to fund the first phase of a multiphase cooperative project with the state of Oregon to dredge the Columbia river. The department shall not expend the appropriation in this section unless agreement on ocean disposal sites has been reached which protects the state's commercial crab fishery. The amount provided in this subsection shall lapse unless the state of Oregon appropriates a dollar-for-dollar match to fund its share of the project.

(5) The motor vehicle account--state appropriation includes \$1,167,000 in proceeds from the sale of bonds authorized by RCW 47.10.819(1). The transportation commission may authorize the use of current revenues available to the department of transportation in lieu of bond proceeds for any part of the state appropriation.

(6) \$5,000,000 of the urban arterial trust account--state appropriation is provided solely for a small city pavement preservation program, to be administered by the department's highways and local programs division. The department, in consultation with stakeholders, shall establish program guidelines. The guidelines should include but not be limited to a provision limiting program eligibility to cities with a population of 2,500 or less.

(7) \$15,000,000 of the motor vehicle account--state appropriation is provided solely for a county corridor congestion relief program, to be administered by the department's highways and local programs division. Urban corridors must connect to urban or significant activity centers; begin or end at the intersection of another arterial, state highway, or limited access freeway system; and provide an alternate route to the limited access freeway system. The purpose of the program is to provide funding for congested urban corridors, as defined and selected by the department of transportation in consultation with counties and regional transportation planning organizations. At a minimum, project selection criteria should include: Consistency with regional transportation plans; measurable improvements in mobility; cost effectiveness; systematic corridor mobility improvements rather than isolated "spot" improvements; and optimal timing for construction.

(8) \$5,000,000 of the motor vehicle account--state appropriation is provided solely for improving traffic and pedestrian safety near schools. The highways and local programs division within the department of transportation shall administer this program. Funds should be used for traffic and pedestrian improvements near schools, including roadway channelization and signalization.

(9) The highways and local programs division within the department of transportation shall develop a prequalification procedure for potential bidders on projects administered or approved by the transportation improvement board. The board shall work with other interested parties including but not limited to associations representing general contractors and the office of minority and women's business enterprises. The prequalification procedure's goal is to ascertain that bidders are qualified by experience, financing, equipment, and organization to do the work called for in the contract documents. The prequalification procedure may require a bidder to (1) satisfy threshold requirements established by the board prior to being furnished a proposal form on any contract; or (2) complete a preaward survey of the bidder's qualification prior to award.

(10) \$2,000,000 of the motor vehicle account--state appropriation is provided solely for city fish passage barrier removal and habitat restoration. Funds should be used for eliminating fish passage barriers, including stormwater facilities, and providing for habitat restoration for salmonid species that are listed as threatened or endangered. The amount provided in this section may only be expended upon authorization from the department of transportation's environmental affairs office.

(11) \$10,000,000 of the motor vehicle fund--state appropriation is provided solely for a city corridor congestion relief program, to be administered by the department's highways and local programs division. Urban corridors must connect to urban or significant activity centers, begin or end at the intersection of another arterial, state highway or limited access freeway system, and provide an alternate route to the limited access freeway system. The purpose of the program is to provide funding for congested urban corridors as defined and selected by the department of transportation in consultation with counties and regional transportation planning organizations. At a minimum, project selection criteria should include: Consistency with regional transportation plans; measurable improvements in mobility; cost effectiveness; systematic corridor mobility improvements rather than isolated "spot" improvements; and optimal timing for construction."

**PART II  
HUMAN SERVICES**

**NEW SECTION. Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES.**

(1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose, except as expressly provided in subsection (3) of this section.

(2) The department of social and health services shall not initiate any services that will require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act.

(4) In the event the department receives additional unrestricted federal funds or achieves savings in excess of that anticipated in this act, the department shall use up to \$5,000,000 of such funds to initiate a pilot project providing integrated support services to homeless individuals needing mental health services, alcohol or substance abuse treatment, medical care, or who demonstrate community safety concerns. Before such a pilot project is initiated, the department shall notify the fiscal committees of the legislature of the plans for such a pilot project including the source of funds to be used.

Violence Reduction and Drug Enforcement Account--State Appropriation .....	\$ 5,702,000
..... TOTAL APPROPRIATION	\$ 844,209,000

The appropriations in this section are subject to the following conditions and limitations:

(1) \$2,237,000 of the fiscal year 2002 general fund--state appropriation, \$2,288,000 of the fiscal year 2003 general fund--state appropriation, and \$1,590,000 of the general fund--federal appropriation are provided solely for the category of services titled "intensive family preservation services."

(2) \$685,000 of the general fund--state fiscal year 2002 appropriation and \$701,000 of the general fund--state fiscal year 2003 appropriation are provided to contract for the operation of one pediatric interim care facility. The facility shall provide residential care for up to thirteen children through two years of age. Seventy-five percent of the children served by the facility must be in need of special care as a result of substance abuse by their mothers. The facility shall also provide on-site training to biological, adoptive, or foster parents. The facility shall provide at least three months of consultation and support to parents accepting placement of children from the facility. The facility may recruit new and current foster and adoptive parents for infants served by the facility. The department shall not require case management as a condition of the contract.

(3) \$524,000 of the general fund--state fiscal year 2002 appropriation and \$536,000 of the general fund--state fiscal year 2003 appropriation are provided for up to three nonfacility-based programs for the training, consultation, support, and recruitment of biological, foster, and adoptive parents of children through age three in need of special care as a result of substance abuse by their mothers, except that each program may serve up to three medically fragile nonsubstance-abuse-affected children. In selecting nonfacility-based programs, preference shall be given to programs whose federal or private funding sources have expired or that have successfully performed under the existing pediatric interim care program.

(4) \$1,260,000 of the fiscal year 2002 general fund--state appropriation, \$1,248,000 of the fiscal year 2003 general fund--state appropriation, and \$4,196,000 of the violence reduction and drug enforcement account appropriation are provided solely for the family policy council and community public health and safety networks. The funding level for the family policy council and community public health and safety networks represents a 25 percent reduction below the funding level for the 1999-2001 biennium. Funding levels shall be reduced 25 percent for both the family policy council and network grants. Reductions to network grants shall be allocated so as to maintain current funding levels, to the greatest extent possible, for projects with the strongest evidence of positive outcomes and for networks with substantial compliance with contracts for network grants.

(5) \$2,215,000 of the fiscal year 2002 general fund--state appropriation, \$4,394,000 of the fiscal year 2003 general fund--state appropriation, and \$5,604,000 of the general fund--federal appropriation are provided solely for reducing the average caseload level per case-carrying social worker. Average caseload reductions are intended to increase the amount of time social workers spend in direct contact with the children, families, and foster parents involved with their open cases. The department shall use some of the funds provided in several local offices to increase staff that support case-carrying social workers in ways that will allow social workers to

increase direct contact time with children, families, and foster parents. To achieve the goal of reaching an average caseload ratio of 1:24 by the end of fiscal year 2003, the department shall develop a plan for redeploying 30 FTEs to case-carrying social worker and support positions from other areas in the children and family services budget. The FTE redeployment plan shall be submitted to the fiscal committees of the legislature by December 1, 2001.

(6) \$1,000,000 of the fiscal year 2002 general fund--state appropriation and \$1,000,000 of the fiscal year 2003 general fund--state appropriation are provided solely for increasing foster parent respite care services that improve the retention of foster parents and increase the stability of foster placements. The department shall report quarterly to the appropriate committees of the legislature progress against appropriate baseline measures for foster parent retention and stability of foster placements.

(7) \$1,050,000 of the general fund--federal appropriation is provided solely for increasing kinship care placements for children who otherwise would likely be placed in foster care. These funds shall be used for extraordinary costs incurred by relatives at the time of placement, or for extraordinary costs incurred by relatives after placement if such costs would likely cause a disruption in the kinship care placement. \$50,000 of the funds provided shall be contracted to the Washington institute for public policy to conduct a study of kinship care placements. The study shall examine the prevalence and needs of families who are raising related children and shall compare services and policies of Washington state with other states that have a higher rate of kinship care placements in lieu of foster care placements. The study shall identify possible changes in services and policies that are likely to increase appropriate kinship care placements.

(8) \$3,386,000 of the fiscal year 2002 general fund--state appropriation, \$7,671,000 of the fiscal year 2003 general fund--state appropriation, and \$20,819,000 of the general fund--federal appropriation are provided solely for increases in the cost per case for foster care and adoption support. \$16,000,000 of the general fund--federal amount shall remain unallotted until the office of financial management approves a plan submitted by the department to achieve a higher rate of federal earnings in the foster care program. That plan shall also be submitted to the fiscal committees of the legislature and shall indicate projected federal revenue compared to actual fiscal year 2001 levels. Within the amounts provided for foster care, the department shall increase the basic rate for foster care to an average of \$420 per month on July 1, 2001, and to an average of \$440 per month on July 1, 2002. The department shall use the remaining funds provided in this subsection to pay for increases in the cost per case for foster care and adoption support. The department shall seek to control rate increases and reimbursement decisions for foster care and adoption support cases such that the cost per case for family foster care, group care, receiving homes, and adoption support does not exceed the amount assumed in the projected caseload expenditures plus the amounts provided in this subsection.

(9) \$1,767,000 of the general fund--state appropriation for fiscal year 2002, \$2,461,000 of the general fund--state appropriation for fiscal year 2003, and \$1,485,000 of the general fund--federal appropriation are provided solely for rate and capacity increases for child placing agencies. Child placing agencies shall increase their capacity by 15 percent in fiscal year 2002 and 30 percent in fiscal year 2003.

(10) The department shall provide secure crisis residential facilities across the state in a manner that: (a) Retains geographic provision of these services; and (b) retains beds in high use areas.

(11) \$125,000 of the general fund--state appropriation for fiscal year 2002 and \$125,000 of the general fund--state appropriation for fiscal year 2003 are provided solely for a foster parent retention program. This program is directed at foster parents caring for children who act out sexually, as described in House Bill No. 1525 (foster parent retention program).

Health Services Account--State Appropriation .....	\$	2,450,000	
..... TOTAL APPROPRIATION	\$		731,863,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) Regional support networks shall use portions of the general fund--state appropriation for implementation of working agreements with the vocational rehabilitation program which will maximize the use of federal funding for vocational programs.

(b) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and adult services program for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(c) \$388,000 of the general fund--state appropriation for fiscal year 2002, \$1,927,000 of the general fund--state appropriation for fiscal year 2003, and \$2,349,000 of the general fund--federal appropriation are provided solely for development and operation of community residential and support services for persons whose treatment needs constitute substantial barriers to community placement and who no longer require active psychiatric treatment at an inpatient hospital level of care, no longer meet the criteria for inpatient involuntary commitment, and who are clinically ready for discharge from a state psychiatric hospital. In the event that enough patients are not transitioned or diverted from the state hospitals to close at least two hospital wards by July 2002, and two additional wards by April 2003, a proportional share of these funds shall be transferred to the appropriations in subsection (2) of this section to support continued care of the patients in the state hospitals. Primary responsibility and accountability for provision of appropriate community support for persons placed with these funds shall reside with the mental health program and the regional support networks, with partnership and active support from the alcohol and substance abuse and from the aging and adult services programs. The department shall negotiate performance-based incentive contracts with those regional support networks which have the most viable plans for providing appropriate community support services for significant numbers of persons from their area who would otherwise be served in the state hospitals. The funds appropriated in this subsection shall not be considered "available resources" as defined in RCW 71.24.025 and are not subject to the standard allocation formula applied in accordance with RCW 71.24.035(13)(a).

(d) At least \$1,000,000 of the federal block grant funding appropriated in this subsection shall be used for (i) initial development, training, and operation of the community support teams which will work with long-term state hospital residents prior and subsequent to their return to the community; and (ii) development of support strategies which will reduce the unnecessary and excessive use of state and local hospitals for short-term crisis stabilization services. Such strategies may include training and technical assistance to community long-term care and substance abuse providers; the development of diversion beds and stabilization support teams; examination of state hospital policies regarding admissions; and the development of new contractual standards to assure that the statutory requirement that 85 percent of short-term detentions be managed locally is being fulfilled. The department shall report to the fiscal and policy committees of the legislature on the results of these efforts by November 1, 2001, and again by November 1, 2002.

(e) The department is authorized to implement a new formula for allocating available resources among the regional support networks. The distribution formula shall use the number of persons eligible for the state medical programs funded under chapter 74.09 RCW as the measure of the requirement for the number of acutely mentally ill, chronically mentally ill, severely emotionally disturbed children, and seriously disturbed in accordance with RCW 71.24.035(13)(a). The new formula shall be phased in over a period of no less than six years. Furthermore, the department shall increase the medicaid capitation rates which a regional support network would otherwise receive under the formula by an amount sufficient to assure that total funding allocated to the regional support network in fiscal year 2002 increases by up to 2.1 percent over the amount actually paid to that regional support network in fiscal year 2001, and by up to an additional 2.3 percent in fiscal year 2003, if total funding to the regional support network would otherwise increase by less than those percentages under the new formula, and provided that the nonfederal share of the higher medicaid payment rate is provided by the regional support network from local funds.

(f) Within funds appropriated in this subsection, the department shall contract with the Clark county regional support network for development and operation of a project demonstrating collaborative methods for providing intensive mental health services in the school setting for severely emotionally disturbed children who are medicaid eligible. Project services are to be delivered by teachers and teaching assistants who qualify as, or who are under the supervision of, mental health professionals meeting the requirements of chapter 275-57 WAC. The department shall increase medicaid payments to the regional support network by the amount necessary to cover the necessary and allowable costs of the demonstration, not to exceed the upper payment limit specified for the regional support network in the department's medicaid waiver agreement with the federal government after meeting all other medicaid spending requirements assumed in this subsection. The regional support network shall provide the department with (i) periodic reports on project service levels, methods, and outcomes; and (ii) an intergovernmental transfer equal to the state share of the increased medicaid payment provided for operation of this project.

(g) The health services account appropriation is provided solely for implementation of strategies which the department and the affected regional support networks conclude will best assure continued availability of community-based inpatient psychiatric services in all areas of the state. Such strategies may include, but are not limited to, emergency contracts for continued operation of inpatient facilities otherwise at risk of closure because of demonstrated uncompensated care; start-up grants for development of evaluation and treatment facilities; and increases in the rate paid for inpatient psychiatric services for medically indigent and/or general assistance for the unemployed patients. The funds provided in this subsection must be: (i) Prioritized for use in those areas of the state which are at greatest risk of lacking sufficient inpatient psychiatric treatment capacity, rather than being distributed on a formula basis; (ii) prioritized for use by those hospitals which do not receive low-income disproportionate share hospital payments as of the date of application for funding; and (iii) matched on a one-quarter local, three-quarters state basis by funding from the regional support network or networks in the area in which the funds are expended. Payments from the amount provided in this subsection shall not be made to any provider that has not agreed that, except for prospective rate increases, the payment shall offset, on a dollar-for-dollar basis, any liability that may be established against, or any settlement that may be agreed to by the state, regarding the rate of state reimbursement for inpatient psychiatric care. The funds provided in this subsection shall not be considered "available resources" as defined in RCW 71.24.025 and are not subject to the distribution formula established pursuant to RCW 71.24.035.

No such patient is to move from the hospital until a team of community professionals has become familiar with the person and their treatment plan; assessed their strengths, preferences, and needs; arranged a safe, clinically-appropriate, and stable place for them to live; assured that other needed medical, behavioral, and social services are in place; and is contracted to monitor the person's progress on an ongoing basis. The department and the regional support networks shall endeavor to assure that hospital patients are able to return to their area of origin, and that placements are not concentrated in proximity to the hospitals.

(d) For each month subsequent to the month in which a state hospital bed has been closed in accordance with (c) of this subsection, the mental health program shall transfer to the medical assistance program state funds equal to the state share of the monthly per capita expenditure amount estimated for categorically needy-disabled persons in the most recent forecast of medical assistance expenditures.

The appropriations in this subsection are subject to the following conditions and limitations:

(a) The health services account appropriation and \$753,000 of the general fund--federal appropriation are provided solely for health care benefits for home care workers with family incomes below 200 percent of the federal poverty level who are employed through state contracts for twenty hours per week or more. Premium payments for individual provider home care workers shall be made only to the subsidized basic health plan. Home care agencies may obtain coverage either through the basic health plan or through an alternative plan with substantially equivalent benefits.

(b) \$902,000 of the general fund--state appropriation for fiscal year 2002, \$3,372,000 of the general fund--state appropriation for fiscal year 2003, and \$4,056,000 of the general fund--federal appropriation are provided solely for community services for residents of residential habilitation centers (RHCs) who are able to be adequately cared for in community settings and who choose to live in those community settings. The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed \$280. If the number and timing of residents choosing to move into community settings is not sufficient to achieve the RHC cottage consolidation plan assumed in the appropriations in subsection (2) of this section, the department shall transfer sufficient appropriations from this subsection to subsection (2) of this section to cover the added costs incurred in the RHCs. The department shall report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of residents moving into community settings and the actual expenditures for all community services to support those residents.

(c) \$1,440,000 of the general fund--state appropriation for fiscal year 2002, \$3,041,000 of the general fund--state appropriation for fiscal year 2003, and \$4,311,000 of the general fund--federal appropriation are provided solely for expanded community services for persons with developmental disabilities who also have community protection issues or are diverted or discharged from state psychiatric hospitals. The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed \$275. The department shall report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served with these additional community services, where they were residing, what

kinds of services they were receiving prior to placement, and the actual expenditures for all community services to support these clients.

(d) \$1,005,000 of the general fund--state appropriation for fiscal year 2002, \$2,262,000 of the general fund--state appropriation for fiscal year 2003, and \$2,588,000 of the general fund--federal appropriation are provided solely for increasing case/resource management resources to improve oversight and quality of care for persons enrolled in the medicaid home and community services waiver for persons with developmental disabilities. The department shall not increase total enrollment in home and community based waivers for persons with developmental disabilities except for increases assumed in additional funding provided in subsections (b) and (c) of this section. Prior to submitting to the health care financing authority any additional home and community based waiver request for persons with developmental disabilities, the department shall submit a summary of the waiver request to the appropriate committees of the legislature. The summary shall include eligibility criteria, program description, enrollment projections and limits, and budget and cost effectiveness projections that distinguish the requested waiver from other existing or proposed waivers.

(e) \$1,000,000 of the general fund--state appropriation for fiscal year 2002 and \$1,000,000 of the general fund--state appropriation for fiscal year 2003 are provided solely for employment, or other day activities and training programs, for young adults with developmental disabilities who complete their high school curriculum in 2001 or 2002. These services are intended to assist with the transition to work and more independent living. Funding shall be used to the greatest extent possible for vocational rehabilitation services matched with federal funding. In recent years, the state general fund appropriation for employment and day programs has been underspent. These surpluses, built into the carry forward level budget, shall be redeployed for high school transition services.

(f) \$369,000 of the fiscal year 2002 general fund--state appropriation and \$369,000 of the fiscal year 2003 general fund--state appropriation are provided solely for continuation of the autism pilot project started in 1999.

(g) \$4,049,000 of the general fund--state appropriation for fiscal year 2002, \$1,734,000 of the general fund--state appropriation for fiscal year 2003, and \$5,369,000 of the general fund--federal appropriation are provided solely to increase compensation by an average of fifty cents per hour for low-wage workers providing state-funded services to persons with developmental disabilities. These funds, along with funding provided for vendor rate increases, are sufficient to raise wages an average of fifty cents and cover the employer share of unemployment and social security taxes on the amount of the wage increase. In consultation with the statewide associations representing such agencies, the department shall establish a mechanism for testing the extent to which funds have been used for this purpose, and report the results to the fiscal committees of the legislature by February 1, 2002.

(7) Within funds appropriated in this section and in section 204 of this act, the aging and adult services program shall devise and implement strategies in partnership with the mental health program and the regional support networks to reduce the use of state and local psychiatric hospitals for the short-term stabilization of persons with dementia and traumatic brain injuries. The aging and adult services program shall report to the health care and fiscal committees of the legislature by November 1, 2001, and by November 1, 2002, on the actions it has taken to achieve this objective.

For fiscal year 2003, the department shall increase the median price per case-mix unit for each of the applicable peer groups by six-tenths of one percent in order to distribute the available funds. Valid outcome measures of job retention and wage progression shall be developed and reported quarterly to appropriate fiscal and policy committees of the legislature for families who leave assistance, measured after 12 months, 24 months, and 36 months. An increased attention to job retention and wage progression is necessary to emphasize the legislature's goal that the WorkFirst program succeed in helping recipients gain long-term economic independence and not cycle on and off public assistance. The wage progression measure shall report the median percentage increase in quarterly earnings and hourly wage after 12 months, 24 months, and 36 months. The wage progression report shall also report the percent with earnings above one hundred percent and two hundred percent of the federal poverty level. The report shall compare former WorkFirst participants with similar workers who did not participate in WorkFirst. The department shall also report the percentage of families who have returned to temporary assistance for needy families after 12 months, 24 months, and 36 months.

(b) Develop informational materials that educate families about the difference between cash assistance and work support benefits. These materials must explain, among other facts, that the benefits are designed to support their employment, that there are no time limits on the receipt of work support benefits, and that immigration or residency status will not be affected by the receipt of benefits. These materials shall be posted in all community service offices and distributed to families. Materials must be available in multiple languages. When a family leaves the temporary assistance for needy families program, receives cash diversion assistance, or withdraws a temporary assistance for needy families application, the department of social and health services shall educate them about the difference between cash assistance and work support benefits and offer them the opportunity to begin or to continue receiving work support benefits, so long as they are eligible. The department shall provide this information through in-person interviews, over the telephone, and/or through the mail. Work support benefits include food stamps, medicaid for all family members, medicaid or state children's health insurance program for children, and child care assistance. The department shall report annually to the legislature the number of families who have had exit interviews, been reached successfully by phone, and been sent mail.

The report shall also include the percentage of families who elect to continue each of the benefits and the percentage found ineligible by each substantive reason code. A substantive reason code shall not be "other." The report shall identify barriers to informing families about work support benefits and describe existing and future actions to overcome such barriers.

(c) From the amounts provided in this subsection, provide \$50,000 from the general fund--state appropriation for fiscal year 2002 and \$50,000 from the general fund--state appropriation for fiscal year 2003 to the Washington institute for public policy for continuation of the WorkFirst evaluation database.

Within these amounts, the department may expend funds for services that assist recipients to reduce their dependence on public assistance, provided that expenditures for these services and cash assistance do not exceed the funds provided.

(3) \$5,632,000 of the general fund--state appropriation for fiscal year 2002 and \$5,632,000 of the general fund--state appropriation for fiscal year 2003 are provided solely for the food assistance program for legal immigrants. The level of benefits shall be equivalent to the benefits provided by the federal food stamp program.

(4) \$48,000 of the general fund--state appropriation for fiscal year 2002 is provided solely to implement chapter 111, Laws of 2001 (veterans/Philippines).

(5) The department shall apply the provisions of RCW 74.04.005(10) to simplify resource eligibility policy, make such policy consistent with other federal public assistance programs, and achieve the budgetary savings assumed in this section.

The appropriations in this section are subject to the following conditions and limitations:

(1) The department shall increase its efforts to restrain the growth of health care costs. The appropriations in this section anticipate that the department implements a combination of cost containment and utilization strategies sufficient to reduce general fund--state costs by approximately 3 percent below the level projected for the 2001-03 biennium in the March 2001 forecast. The department shall report to the fiscal committees of the legislature by October 1, 2001, on its specific plans and semiannual targets for accomplishing these savings. The department shall report again to the fiscal committees by March 1, 2002, and by September 1, 2002, on actual performance relative to the semiannual targets. If satisfactory progress is not being made to achieve the targeted savings, the reports shall include recommendations for additional or alternative measures to control costs. Such measures may include the imposition of ratable reductions directly related to those services in which other efforts to control costs have been least effective.

(2) The department shall continue to extend medicaid eligibility to children through age 18 residing in households with incomes below 200 percent of the federal poverty level.

(3) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(4) \$502,000 of the health services account appropriation, \$400,000 of the general fund--private/local appropriation, and \$1,676,000 of the general fund--federal appropriation are provided solely for implementation of Second Substitute House Bill No. 1058 (breast and cervical cancer treatment). If the bill is not enacted by June 30, 2001, or if private funding is not contributed equivalent to the general fund--private/local appropriation, the funds appropriated in this subsection shall lapse.

(5) \$620,000 of the health services account appropriation for fiscal year 2002, \$1,380,000 of the health services account appropriation for fiscal year 2003, and \$2,000,000 of the general fund--federal appropriation are provided solely for implementation of a "ticket to work" medicaid buy-in program for working persons with disabilities, operated in accordance with the following conditions:

(a) To be eligible, a working person with a disability must have total income which is less than 450 percent of poverty;

(b) Participants shall participate in the cost of the program by paying (i) a monthly enrollment fee equal to fifty percent of any unearned income in excess of the medicaid medically needy standard; and (ii) a monthly premium equal to 5 percent of all unearned income, plus 5 percent of all earned income after disregarding the first sixty-five dollars of monthly earnings, and half the remainder;

(c) The department shall establish more restrictive eligibility standards than specified in this subsection to the extent necessary to operate the program within appropriated funds;

(d) The department may require point-of-service copayments as appropriate, except that copayments shall not be so high as to discourage appropriate service utilization, particularly of prescription drugs needed for the treatment of psychiatric conditions; and

(e) The department shall establish systems for tracking and reporting enrollment and expenditures in this

program, and the prior medical assistance eligibility status of new program enrollees. The department shall additionally survey the prior and current employment status and approximate hours worked of program enrollees, and report the results to the fiscal and health care committees of the legislature by January 15, 2003.

(6) From funds appropriated in this section, the department shall design, implement, and evaluate pilot projects to assist individuals with at least three different diseases to improve their health, while reducing total medical expenditures. The projects shall involve (a) identifying persons who are seriously or chronically ill due to a combination of medical, social, and functional problems; and (b) working with the individuals and their care providers to improve adherence to state-of-the-art treatment regimens. The department shall report to the health care and the fiscal committees of the legislature by January 1, 2002, on the particular disease states, intervention protocols, and delivery mechanisms it proposes to test.

(7) Sufficient funds are appropriated in this section for the department to continue full-scope dental coverage, vision coverage, and podiatry services for medicaid-eligible adults.

(8) The legislature reaffirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(9) \$80,000 of the general fund--state appropriation for fiscal year 2002, \$80,000 of the general fund--state appropriation for fiscal year 2003, and \$160,000 of the general fund--federal appropriation are provided solely for the newborn referral program to provide access and outreach to reduce infant mortality.

(10) \$30,000 of the general fund--state appropriation for fiscal year 2002, \$31,000 of the general fund--state appropriation for fiscal year 2003, and \$62,000 of the general fund--federal appropriation are provided solely for implementation of Substitute Senate Bill No. 6020 (dental sealants). If Substitute Senate Bill No. 6020 is not enacted by June 30, 2001, the amounts provided in this subsection shall lapse.

(11) In accordance with RCW 74.46.625, \$376,318,000 of the health services account appropriation for fiscal year 2002, \$144,896,000 of the health services account appropriation for fiscal year 2003, and \$542,089,000 of the general fund--federal appropriation are provided solely for supplemental payments to nursing homes operated by rural public hospital districts. The payments shall be conditioned upon (a) a contractual commitment by the association of public hospital districts and participating rural public hospital districts to make an intergovernmental transfer to the state treasurer, for deposit into the health services account, equal to at least 98 percent of the supplemental payments; and (b) a contractual commitment by the participating districts to not allow expenditures covered by the supplemental payments to be used for medicaid nursing home rate-setting. The participating districts shall retain no more than a total of \$20,000,000 for the 2001-03 biennium.

(12) \$38,690,000 of the health services account appropriation for fiscal year 2002, \$40,189,000 of the health services account appropriation for fiscal year 2003, and \$80,241,000 of the general fund--federal appropriation are provided solely for additional disproportionate share and medicare upper payment limit payments to public hospital districts.

(a) The payments shall be conditioned upon a contractual commitment by the participating public hospital districts to make an intergovernmental transfer to the health services account equal to at least 91 percent of the additional payments. At least 28 percent of the amounts retained by the participating hospital districts shall be allocated to the state's teaching hospitals.

(b) An additional 4.5 percent of the additional payments may be retained by the participating public hospital districts contingent upon the receipt of \$446,500,000 in newly identified proshare reimbursement from the federal government over the 2001-03 biennium. If the actual amount received is less than \$446,500,000, the amount retained pursuant to this subsection (12)(b) shall be prorated accordingly. The state teaching hospitals shall receive a distribution of the amount retained by the participating hospital districts in this subsection (12)(b) as allocated in (a) of this subsection.

(13) \$412,000 of the general fund--state appropriation for fiscal year 2002, \$862,000 of the general fund--state appropriation for fiscal year 2003, and \$730,000 of the general fund--federal appropriation are provided solely for implementation of Substitute House Bill No. 1162 (small rural hospitals). If Substitute House Bill No. 1162 is not enacted by June 30, 2001, the amounts provided in this subsection shall lapse.

(14) The department may continue to use any federal money available to continue to provide medicaid matching funds for funds contributed by local governments for purposes of conducting eligibility outreach to children and underserved groups. The department shall ensure cooperation with the anticipated audit of the

school districts' matchable expenditures for this program and advise the appropriate legislative fiscal committees of the findings.

General Fund--State Appropriation (FY 2003).....	\$ 3,751,350,000	
.....	TOTAL APPROPRIATION	\$ 7,512,176,000

(2) Allocations for certificated staff salaries for the 2001-02 and 2002-03 school years shall be determined using formula-generated staff units calculated pursuant to this subsection. Staff allocations for small school enrollments in grades K-6 shall be the greater of that generated under (a) of this subsection, or under (d) and (e) of this subsection. Certificated staffing allocations shall be as follows:

(a) On the basis of each 1,000 average annual full-time equivalent enrollments, excluding full-time equivalent enrollment otherwise recognized for certificated staff unit allocations under (c) through (f) of this subsection:

The allocation may be used for reducing class sizes in grades K-4 or to provide additional classroom contact hours for kindergarten, before-and-after-school programs, weekend school programs, summer school programs, and intercession opportunities to assist elementary school students in meeting the essential academic learning requirements and student assessment performance standards. For purposes of this subsection, additional classroom contact hours provided by teachers beyond the normal school day under a supplemental contract shall be converted to a certificated full-time equivalent by dividing the classroom contact hours by 900.

(A) Funds provided under this subsection (2)(a)(iv) and (v) in excess of the amount required to maintain the statutory minimum ratio established under RCW 28A.150.260(2)(b) shall be allocated only if the district documents an actual ratio equal to or greater than 55.4 certificated instructional staff per thousand full-time equivalent students in grades K-4. (B) Districts at or above 51.0 certificated instructional staff per one thousand full-time equivalent students in grades K-4 may dedicate up to 1.3 of the 55.4 funding ratio to employ additional classified instructional assistants assigned to basic education classrooms in grades K-4. (C) Any district maintaining a ratio equal to or greater than 55.4 certificated instructional staff per thousand full-time equivalent students in grades K-4 may use allocations generated under this subsection (2)(a)(iv) and (v) in excess of that required to maintain the minimum ratio established under RCW 28A.150.260(2)(b) to employ additional basic education certificated instructional staff or classified instructional assistants in grades 5-6. Funds allocated under this subsection (2)(a)(iv) and (v) shall only be expended to reduce class size in grades K-6. No more than 1.3 of the certificated instructional funding ratio amount may be expended for provision of classified instructional assistants;

(b) For school districts with a minimum enrollment of 250 full-time equivalent students whose full-time equivalent student enrollment count in a given month exceeds the first of the month full-time equivalent enrollment count by 5 percent, an additional state allocation of 110 percent of the share that such increased enrollment would have generated had such additional full-time equivalent students been included in the normal enrollment count for that particular month;

(c)(i) On the basis of full-time equivalent enrollment in:

(A) Vocational education programs approved by the superintendent of public instruction, a maximum of 0.92 certificated instructional staff units and 0.08 certificated administrative staff units for each 19.5 full-time equivalent vocational students; and

(e) For specified enrollments in districts enrolling more than twenty-five but not more than one hundred average annual full-time equivalent students in grades K-8, and for small school plants within any school district which enroll more than twenty-five average annual full-time equivalent students in grades K-8 and have been judged to be remote and necessary by the state board of education:

Units calculated under (f)(ii) of this subsection shall be reduced by certificated staff units at the rate of forty-six certificated instructional staff units and four certificated administrative staff units per thousand vocational full-time equivalent students.

(g) For each nonhigh school district having an enrollment of more than seventy annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-8 program or a grades 1-8 program, an additional one-half of a certificated instructional staff unit; and

(h) For each nonhigh school district having an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-6 program or a grades 1-6 program, an additional one-half of a certificated instructional staff unit.

(3) Allocations for classified salaries for the 2001-02 and 2002-03 school years shall be calculated using formula-generated classified staff units determined as follows:

(a) For enrollments generating certificated staff unit allocations under subsection (2)(d) through (h) of this section, one classified staff unit for each three certificated staff units allocated under such subsections;

(b) For all other enrollment in grades K-12, including vocational full-time equivalent enrollments, one classified staff unit for each sixty average annual full-time equivalent students; and

(4) Fringe benefit allocations shall be calculated at a rate of 11.27 percent in the 2001-02 school year and 11.27 percent in the 2002-03 school year for certificated salary allocations provided under subsection (2) of this section, and a rate of 12.92 percent in the 2001-02 school year and 12.92 percent in the 2002-03 school year for classified salary allocations provided under subsection (3) of this section.

(5) Insurance benefit allocations shall be calculated at the maintenance rate specified in section 504(3) of this act, based on the number of benefit units determined as follows:

(a) The number of certificated staff units determined in subsection (2) of this section; and

(b) The number of classified staff units determined in subsection (3) of this section multiplied by 1.152.

This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(6)(a) For nonemployee-related costs associated with each certificated staff unit allocated under subsection (2)(a), (b), and (d) through (h) of this section, there shall be provided a maximum of \$8,519 per certificated staff unit in the 2001-02 school year and a maximum of \$8,715 per certificated staff unit in the 2002-03 school year.

Solely for the purposes of this subsection, allocated classroom teachers shall be equal to the number of certificated instructional staff units allocated under subsection (2) of this section, multiplied by the ratio between the number of actual basic education certificated teachers and the number of actual basic education certificated instructional staff reported statewide for the prior school year.

(8) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

(9) The superintendent may distribute a maximum of \$6,510,000 outside the basic education formula during fiscal years 2002 and 2003 as follows:

(b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

(i) Credits earned since receiving the masters degree; and

(ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

(a) "BA" means a baccalaureate degree.

(b) "MA" means a masters degree.

(c) "PHD" means a doctorate degree.

(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.

(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:

(a) The employee has a masters degree; or

(b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The certificated instructional staff base salary specified for each district in LEAP Document 12E and the salary schedules in subsection (4)(a) of this section include three learning improvement days originally added in the 1999-00 school year. A school district is eligible for the learning improvement day funds for school years 2001-02 and 2002-03, only if three days have been added to the base contract in effect for the 1998-99 school year. If fewer than three days are added, the additional learning improvement allocation shall be adjusted accordingly. The additional days shall be for activities related to improving student learning consistent with education reform implementation. The length of a learning improvement day shall not be less than the length of a full day under the base contract. The superintendent of public instruction shall ensure that school districts adhere to the intent and purposes of this subsection.

(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2).

The appropriations in this section are subject to the following conditions and limitations:

(1) \$318,024,000 is provided for a cost of living adjustment for state formula staff units of 3.7 percent effective September 1, 2001, and another salary adjustment effective on September 1, 2002, in a percentage amount to be determined by the 2002 legislature consistent with the provisions of chapter 4, Laws of 2001 (Initiative Measure No. 732). The appropriations include associated incremental fringe benefit allocations at rates of 10.63 percent for school years 2001-02 and 2002-03 for certificated staff and 9.42 percent for school years 2001-02 and 2002-03 for classified staff.

(a) The appropriations in this section include the increased portion of salaries and incremental fringe benefits for all relevant state-funded school programs in part V of this act, in accordance with chapter 4, Laws of 2001 (Initiative Measure No. 732). Salary adjustments for state employees in the office of superintendent of public instruction and the education reform program are provided in part VII of this act. Increases for general apportionment (basic education) are based on the salary allocation schedules and methodology in section 502 of this act. Increases for special education result from increases in each district's basic education allocation per student. Increases for educational service districts and institutional education programs are determined by the superintendent of public instruction using the methodology for general apportionment salaries and benefits in section 502 of this act.

(b) The appropriations in this section provide cost-of-living and incremental fringe benefit allocations based on formula adjustments as follows:

	School Year 2001-02	2002
Pupil Transportation (per weighted pupil mile)	\$ 0.77	\$ 1.
Highly Capable (per formula student)	\$ 8.75	\$ 16.
Transitional Bilingual Education (per eligible bilingual student)	\$ 22.73	\$ 42.
Learning Assistance (per entitlement unit)	\$ 11.23	\$ 20.
Substitute Teacher (allocation per teacher, section 502(7))	\$ 18.29	\$ 34.

(2) This act appropriates general fund--state funds for the purpose of providing the annual salary cost-of-living increase required by section 2, chapter 4, Laws of 2001 (Initiative Measure No. 732) for teachers and other school district employees in the state-funded salary base. For employees not included in the state-funded salary base, the annual salary cost-of-living increase may be provided by school districts from the federal funds appropriated in this act and local revenues, including the adjusted levy base as provided in RCW 84.52.053 and section 502 of this act, and state discretionary funds provided under this act.

(3) \$80,635,000 is provided for adjustments to insurance benefit allocations. The maintenance rate for insurance benefit allocations is \$427.73 per month for the 2001-02 and 2002-03 school years. The appropriations in this section provide for a rate increase to \$455.27 per month for the 2001-02 school year and \$493.59 per month for the 2002-03 school year at the following rates:

	School Year 2001-02	2002

**NEW SECTION. Sec. 507. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SPECIAL EDUCATION PROGRAMS**

General Fund--State Appropriation (FY 2002).....	\$	419,264,000	
General Fund--State Appropriation (FY 2003).....	\$	420,644,000	
General Fund--Federal Appropriation .....	\$	256,092,000	
.....TOTAL APPROPRIATION			\$ 1,096

The appropriations in this section are subject to the following conditions and limitations:

- (1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.
- (2)(a) Effective with the 2001-02 school year, the superintendent of public instruction shall change the S-275 personnel reporting system and all related accounting requirements to ensure that:
  - (i) Special education students are basic education students first;
  - (ii) As a class, special education students are entitled to the full basic education allocation; and
  - (iii) Special education students are basic education students for the entire school day.
- (b) Effective with the 2001-02 school year, the S-275 and accounting changes shall supercede any prior excess cost methodologies and shall be required of all school districts.
- (3) Each general fund--state fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.
- (4) The superintendent of public instruction shall distribute state funds to school districts based on two categories: The optional birth through age two program for special education eligible developmentally delayed infants and toddlers, and the mandatory special education program for special education eligible students ages three to twenty-one. A "special education eligible student" means a student receiving specially designed instruction in accordance with a properly formulated individualized education program.
- (5)(a) For the 2001-02 and 2002-03 school years, the superintendent shall distribute state funds to each district based on the sum of:

(i) A district's annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and

(ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age two enrollment, as a percent of the district's annual average full-time equivalent basic education enrollment. For the 2001-02 and the 2002-03 school years, each district's funded enrollment percent shall be the lesser of the district's actual enrollment percent for the school year for which the allocation is being determined or 12.7 percent for the 2001-02 school year or 13.0 percent for the 2002-03 school year.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be 12.7 percent for the 2001-02 school year and 13.0 percent for the 2002-03 school year, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) A maximum of \$12,000,000 of the general fund--state appropriation for fiscal year 2002 and a maximum of \$10,623,000 of the general fund--state appropriation for fiscal year 2003 are provided as safety net funding for districts with demonstrated needs for state special education funding beyond the amounts provided in subsection (5) of this section. Safety net funding shall be awarded by the state safety net oversight committee.

(a) The safety net oversight committee shall first consider the needs of districts adversely affected by the 1995 change in the special education funding formula. Awards shall be based on the lesser of the amount required to maintain the 1994-95 state special education excess cost allocation to the school district in aggregate or on a dollar per funded student basis.

(b) The committee shall then consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal and local sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(d) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(f) The superintendent may expend up to \$120,000 per year of the amounts provided in this subsection to provide staff assistance to the committee in analyzing applications for safety net funds received by the committee.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist

of:

- (a) One staff from the office of superintendent of public instruction;
- (b) Staff of the office of the state auditor;
- (c) Staff of the office of the financial management; and
- (d) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(11) To the extent necessary, \$5,500,000 of the general fund--federal appropriation shall be expended for safety net funding to meet the extraordinary needs of one or more individual special education students. If safety net awards to meet the extraordinary needs exceed \$5,500,000 of the general fund--federal appropriation, the superintendent shall expend all available federal discretionary funds necessary to meet this need. General fund--state funds shall not be expended for this purpose.

(12) A maximum of \$678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(13) \$1,000,000 of the general fund--federal appropriation is provided for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

(14) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(15) A maximum of \$1,200,000 of the general fund--federal appropriation may be expended by the superintendent for projects related to use of inclusion strategies by school districts for provision of special education services. The superintendent shall prepare an information database on laws, best practices, examples of programs, and recommended resources. The information may be disseminated in a variety of ways, including workshops and other staff development activities.

(16) A school district may carry over from one year to the next year up to 10 percent of general fund--state funds allocated under this program; however, carry over funds shall be expended in the special education program.

**NEW SECTION. Sec. 902. INFORMATION SYSTEMS PROJECTS.** Agencies shall comply with the following requirements regarding information systems projects when specifically directed to do so by this act.

(1) Agency planning and decisions concerning information technology shall be made in the context of its information technology portfolio. "Information technology portfolio" means a strategic management approach in which the relationships between agency missions and information technology investments can be seen and understood, such that: Technology efforts are linked to agency objectives and business plans; the impact of new investments on existing infrastructure and business functions are assessed and understood before implementation; and agency activities are consistent with the development of an integrated, nonduplicative statewide infrastructure.

(2) Agencies shall use their information technology portfolios in making decisions on matters related to the following:

- (a) System refurbishment, acquisitions, and development efforts;
- (b) Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;
- (c) Assessment of overall information processing performance, resources, and capabilities;

(d) Ensuring appropriate transfer of technological expertise for the operation of any new systems developed using external resources; and

(e) Progress toward enabling electronic access to public information.

(3) Each project will be planned and designed to take optimal advantage of Internet technologies and protocols. Agencies shall ensure that the project is in compliance with the architecture, infrastructure, principles, policies, and standards of digital government as maintained by the information services board.

(4) The agency shall produce a feasibility study for information technology projects at the direction of the information services board and in accordance with published department of information services policies and guidelines. At a minimum, such studies shall include a statement of: (a) The purpose or impetus for change; (b) the business value to the agency, including an examination and evaluation of benefits, advantages, and cost; (c) a comprehensive risk assessment based on the proposed project's impact on both citizens and state operations, its visibility, and the consequences of doing nothing; (d) the impact on agency and statewide information infrastructure; and (e) the impact of the proposed enhancements to an agency's information technology capabilities on meeting service delivery demands.

(5) The agency shall produce a comprehensive management plan for each project. The plan or plans shall address all factors critical to successful completion of each project. The plan(s) shall include, but is not limited to, the following elements: A description of the problem or opportunity that the information technology project is intended to address; a statement of project objectives and assumptions; a definition and schedule of phases, tasks, and activities to be accomplished; and the estimated cost of each phase. The planning for the phased approach shall be such that the business case justification for a project needs to demonstrate how the project recovers cost or adds measurable value or positive cost benefit to the agency's business functions within each development cycle.

(6) The agency shall produce quality assurance plans for information technology projects. Consistent with the direction of the information services board and the published policies and guidelines of the department of information services, the quality assurance plan shall address all factors critical to successful completion of the project and successful integration with the agency and state information technology infrastructure. At a minimum, quality assurance plans shall provide time and budget benchmarks against which project progress can be measured, a specification of quality assurance responsibilities, and a statement of reporting requirements. The quality assurance plans shall set out the functionality requirements for each phase of a project.

(7) A copy of each feasibility study, project management plan, and quality assurance plan shall be provided to the department of information services, the office of financial management, and legislative fiscal committees. The plans and studies shall demonstrate a sound business case that justifies the investment of taxpayer funds on any new project, an assessment of the impact of the proposed system on the existing information technology infrastructure, the disciplined use of preventative measures to mitigate risk, and the leveraging of private-sector expertise as needed. Authority to expend any funds for individual information systems projects is conditioned on the approval of the relevant feasibility study, project management plan, and quality assurance plan by the department of information services and the office of financial management.

### **SPEAKERS' RULING**

Speaker Chopp: "The bill before us is the operating budget. The scope and object of a budget bill does not extend to permanent changes in "substantive law." #### **SPEAKERS' RULING**

Speaker Chopp: "As noted in the ruling on Amendment #311, the bill before us is the operating budget. The scope and object of a budget bill does not extend to permanent changes in "substantive law". **POINT OF ORDER**

Representative Gombosky requested a scope and object ruling on amendment (326) to the striking amendment (262) to Engrossed Substitute Senate Bill No. 6153.

**SPEAKERS' RULING**

Speaker Chopp: "As noted in the ruling on amendment #326, the bill before us is the operating budget. The scope and object of a budget bill does not extend to permanent changes in "substantive law." One of the factors to be considered in determining whether a provision is substantive law is whether it modifies statutory rights or obligations.

Amendment #326 attempts to require a new public vote on the regional transit authority's system and financing plan, in addition to the vote already held in compliance with the governing statutes. It, therefore, is beyond the scope and object of the budget bill.

Representative Gombosky, the point of order is well taken. Speaker Ballard concurs in this ruling."

Representative Linville moved the adoption of the following amendment (288) to the striking amendment (262):

On page 210, after line 33 insert the following:

The center may be funded through grants and voluntary cash and in-kind contributions."

Renumber sections accordingly.

**POINT OF ORDER**

Representative Benson requested a scope and object ruling on amendment (288) to the striking amendment (262) to Engrossed Substitute Senate Bill No. 6153.

**SPEAKERS' RULING**

Speaker Chopp: "As has been noted earlier, the underlying bill is the operating budget for the next biennium. Amendment 288 seeks to authorize the establishment of an independent, nonprofit organization to serve as a clearinghouse for all climate change activities in the state.

Since any person or entity in the state could create such an entity at any time without the authorization of the state, it is not clear exactly what the amendment would actually add to the law if it were to pass, but most importantly, since no state funds are appropriated to this new entity, should such an entity be formed, it appears that the amendment is beyond the scope and object of the bill.

Representative Benson, your point of order is well taken. Speaker Ballard concurs in this ruling."

There being no objection, the House deferred action on amendment (351) to the striking amendment (262) to Engrossed Substitute Senate Bill No. 6153.

The commission may assist the nonprofit group in a cooperative effort by providing necessary agency personnel and services, if available. However, none of the moneys raised may inure to the benefit of the nonprofit group, except in furtherance of its purposes to benefit the commission as provided in this chapter. The agency and the private nonprofit group shall agree on the nature of any project to be supported by such gift or grant prior to the use of any agency property or facilities for raising money. Any such gifts may be in the form of recreational facilities developed or built in part or in whole for public use on agency property, provided that the facility is consistent with the purposes of the agency;
- (3) Require certification by the commission of all parks and recreation workers employed in state aided or state controlled programs;
- (4) Act jointly, when advisable, with the United States, any other state agencies, institutions, departments, boards, or commissions in order to carry out the objectives and responsibilities of this chapter;
- (5) Grant franchises and easements for any legitimate purpose on parks or parkways, for such terms and subject to such conditions and considerations as the commission shall specify;

(9) Without being limited to the powers hereinbefore enumerated, the commission shall have such other powers as in the judgment of a majority of its members are deemed necessary to effectuate the purposes of this chapter: PROVIDED, That the commission shall not have power to supervise directly any local park or recreation district, and no funds shall be made available for such purpose."

Renumber remaining sections consecutively and correct title and internal references accordingly.

#### **POINT OF INQUIRY**

Representative Buck requested a ruling on "private interest" in regard to amendment (321) to the striking amendment (262) to Engrossed Substitute Senate Bill No. 6153.

#### **SPEAKERS' RULING**

Speaker Chopp: "Representative Buck has asked the Speakers if he must refrain from voting on this amendment because his spouse might benefit from its adoption.

The Washington State Constitution, article 2, section 30, provides that, "A member who has a private interest in any bill or measure proposed or pending before the legislature, shall disclose the fact to the house of which he or she is a member, and shall not vote thereon.

House Rule 19(d) provides that, "No member shall vote on any question which affects that member privately and particularly. A member who has a private interest in any bill or measure proposed or pending before the legislature shall disclose the fact to the house of which he is a member, and shall not vote thereon.

Therefore, a legislator shall not vote on legislation where he or she has a private or personal interest which is in conflict with the proper discharge of his or her duties.

The "personal interest" prohibited exists when a legislator has a personal interest which is in conflict with the proper discharge of his or her duties if he or she has reason to believe or suspect that he or she will derive a direct monetary gain or suffer a direct monetary loss by reason of his or her official activity.

However, a legislator does not have a personal interest which is in conflict with the proper discharge of his or her duties if no benefit or detriment accrues to him or her as a member of a business, profession, occupation,

or group, to a greater extent than to any other member of such business, profession, occupation, or group.

The Speakers find that Representative Buck's spouse is one of 68 teachers who would currently qualify for the sums appropriated in this amendment and that as many as another 120 other teachers may qualify during the budget period.

The Speakers further find that the class size is sufficiently large that no private interest exists that would preclude Representative Buck from voting on this amendment."

Representative Anderson spoke in favor of the adoption of the amendment to the striking amendment.

Representative Santos spoke against adoption of the amendment to the striking amendment.

An electronic roll call vote was demanded and the demand was sustained.

Trust Land Transfer Program (02-2-010)

The state building construction account appropriation in this section is subject to the following conditions and limitations:

- (1) The total appropriation is provided to the department solely to transfer from trust status or enter into thirty-year timber harvest restrictive easements for certain trust lands of state-wide significance deemed appropriate for state park, fish and wildlife habitat, natural area preserve, natural resources conservation area, open space, or recreation purposes.
- (2) Property transferred under this section shall be appraised and transferred at fair market value. The value of the timber transferred shall be deposited by the department to the common school construction account in the same manner as timber revenues from other common school trust lands. No deduction shall be made for the resource management cost account under RCW 79.64.040. The value of the land transferred shall be deposited in the natural resources real property replacement account. These funds shall be expended by the department for the exclusive purpose of acquiring real property of equal value to be managed as common school trust land.
- (3) Property subject to easement agreements under this section shall be appraised at fair market value both with and without the imposition of the easement. The entire difference in appraised value shall be deposited by the department to the common school construction fund in the same manner as lease revenues from other common school trust lands. No deduction shall be made for the resource management cost account under RCW 79.64.040.
- (4) All reasonable costs incurred by the department to implement this section are authorized to be paid out of this appropriation. Authorized costs include the actual cost of appraisals, staff time, environmental reviews, surveys, and other similar costs.
- (5) Intergrant exchanges between common school and other trust lands of equal value may occur if the exchange is in the interest of each trust, as determined by the board of natural resources.
- (6) Prior to or concurrent with conveyance of these properties, the department, with full cooperation of the receiving agencies, shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section for a minimum period of thirty years. The department of natural resources, in consultation with the receiving state agencies, shall develop policy to address requests to

replace transferred properties subject to the recorded property instrument that are no longer deemed appropriate for the purposes identified in subsection (1) of this section.

(7) The department and receiving agencies shall work in good faith to carry out the intent of this section. However, the department or receiving agencies may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the common school trust or the receiving agency.

(8) The department shall execute trust land transfers and easements such that 80 percent of the appropriation in this section is deposited in the common school construction fund. To achieve the 80:20 ratio, the department may offset transfers of property with low timber-to-land ratios with easements on other properties.

(9) On June 30, 2003, the state treasurer shall transfer all remaining uncommitted funds from this appropriation to the common school construction fund and the appropriation in this section shall be reduced by an equivalent amount.

(10) The appropriation in this section is provided for a list of projects in LEAP capital document No. 2001-42, as developed on June 7, 2001.

**NEW SECTION. Sec. 908.** FOR THE ARTS COMMISSION--ART WORK ALLOWANCE POOLING. (1) One-half of one percent of moneys appropriated in this act for original construction of school plant facilities is provided solely for the purposes of RCW 28A.335.210. The Washington state arts commission may combine the proceeds from individual projects in order to fund larger works of art or mobile art displays in consultation with the superintendent of public instruction and representatives of school district boards.

(2) One-half of one percent of moneys appropriated in this act for original construction or any major renovation or remodel work exceeding two hundred thousand dollars by colleges or universities is provided solely for the purposes of RCW 28B.10.027. The Washington state arts commission may combine the proceeds from individual projects in order to fund larger works of art or mobile art displays in consultation with the board of regents or trustees.

(3) One-half of one percent of moneys appropriated in this act for original construction of any public building by a state agency as defined in RCW 43.17.020 is provided solely for the purposes of RCW 43.17.200. The Washington state arts commission may combine the proceeds from individual projects in order to fund larger works of art or mobile art displays in consultation with the state agency.

(4) At least eighty-five percent of the moneys spent by the Washington state arts commission during the 2001-2003 biennium for the purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 shall be spent solely for direct acquisition of works of art.

**NEW SECTION. Sec. 909.** The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts.

**NEW SECTION. Sec. 910.** "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 2001, from the 1999-2001 biennial appropriations for each project.

**NEW SECTION. Sec. 911.** To carry out the provisions of this act, the governor may assign responsibility for predesign, design, construction, and other related activities to any appropriate agency.

**NEW SECTION. Sec. 912.** If any federal moneys appropriated by this act for capital projects are not received by the state, the department or agency to which the moneys were appropriated may replace the federal moneys with funds available from private or local sources. No replacement may occur under this section without the prior approval of the director of financial management in consultation with the senate committee on ways and means and the house of representatives capital budget committee.

**NEW SECTION. Sec. 913.** (1) Unless otherwise stated, for all appropriations under this act that require a match of nonstate money or in-kind contributions, the following requirement, consistent with RCW 43.88.150, shall apply: Expenditures of state money shall be timed so that the state share of project expenditures never exceeds the intended state share of total project costs.

(2) Provision of the full amount of required matching funds is not required to permit the expenditure of capital budget appropriations for phased projects if a proportional amount of the required matching funds is provided for each distinct, identifiable phase of the project.

**NEW SECTION. Sec. 914.** Any capital improvements or capital projects involving construction or major expansion of a state office facility, including, but not limited to, district headquarters, detachment offices, and off-campus faculty offices, shall be reviewed by the department of general administration for possible consolidation, collocation, and compliance with state office standards before allotment of funds. The intent of the requirement imposed by this section is to eliminate duplication and reduce total office space requirements where feasible, while ensuring proper service to the public.

**NEW SECTION. Sec. 915.** The governor, through the office of financial management, may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended by the legislature in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes which govern the grants.

For purposes of this section, the governor may find that an amount is in excess of the amount required for the completion of a project only if: (1) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (2) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

For the purposes of this section, the legislature intends that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

A report of any transfer effected under this section, except emergency projects or any transfer under \$250,000, shall be filed with the legislative fiscal committees of the senate and house of representatives by the office of financial management at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer.

**NEW SECTION. Sec. 916. NONTAXABLE AND TAXABLE BOND PROCEEDS.** Portions of the appropriation authority granted by this act from the state building construction account may be transferred to the state taxable building construction account as deemed necessary by the state finance committee to comply with the federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds. The state treasurer shall submit written notification to the director of financial management if it is determined that a

shift of appropriation authority from the state building construction account to the state taxable building construction account is necessary.

**NEW SECTION. Sec. 917.** The joint legislative audit and review committee shall study the following topics and shall submit a preliminary report to the appropriate legislative committees by December 1, 2001, and a final report, including recommendations by September 15, 2002:

(1) FTEs funded by the capital budget. There appears to be over four hundred fifty FTEs funded in the capital budget, many of these not directly related to specific capital projects, and many funded with state general obligation bonds. The committee, with assistance from the office of financial management, shall: (a) Estimate the number of FTEs funded in the capital budget by agency, including those who are partially funded by the capital budget, whether they are paid for through bonds or other sources, what their function is related to capital projects, and whether they work directly or indirectly on capital projects; and (b) estimate the extent to which overhead and administrative costs are paid for through the capital budget, and the extent to which other indirect costs such as rent are funded through the capital budget. The committee shall make recommendations regarding how these FTEs and indirect costs can be better accounted for in the budgeting process, and regarding the policy implications of funding personnel and indirect costs in the capital budget; and

(2) Deferred renewal in higher education institutions. According to higher education institutions, deferred renewal of their facilities, such as capital maintenance and minor works preservation projects needed but not done, runs in the hundreds of millions of dollars statewide. The committee shall: (a) Study the reasons for this extensive deferred renewal of facilities; (b) estimate, with the assistance of the office of financial management and the higher education coordinating board, the deferred renewal for each four year institution and for the community and technical college system, and to what extent this deferred renewal poses a health and safety threat to persons using the campus; (c) review how other states approach higher education facility capital maintenance; (d) make recommendations regarding how this deferred renewal problem could be addressed; and (e) develop options to better coordinate facility maintenance with the operating budget and other options to increase the useful life of these facilities.

**NEW SECTION. Sec. 918.** The office of financial management, in consultation with the department of general administration, shall identify capital projects that may benefit from an energy analysis to determine whether there are alternate, more economical, and energy efficient means of completing the work. The office of financial management shall hold appropriations in allotment reserve on the following types of capital projects until this analysis can be completed: Heating, ventilation, and air conditioning modifications, chiller plants, steam plants, boilers, chilled water or steam lines, building control systems, lighting improvements, or other major energy using systems that may warrant additional analysis. Agencies receiving appropriations for such projects are encouraged to utilize energy performance contracts or alternative financing for equipment in lieu of state appropriated funds. The office of financial management may transfer funds remaining in allotment reserve to infrastructure savings projects within the agency that has realized savings from energy efficiency alternatives.

**NEW SECTION. Sec. 919.** State contracts for the legislative building renovation, Nisqually earthquake repair, and future earthquake mitigation shall conform to all rules, regulations, and requirements of the federal emergency management agency.

**NEW SECTION. Sec. 920. FOR THE STATE TREASURER--TRANSFER**

**NEW SECTION. Sec. 921.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

**Revising state health and employment support benefits for incapacitated or disabled individuals.**

The bill was read the second time.

Representative Cody moved the adoption of the following amendment (282):

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds that individuals with disabilities face many barriers and disincentives to employment. Individuals with disabilities are often unable to obtain health insurance that provides the services and supports necessary to allow them to live independently and enter or rejoin the work force. The legislature finds that there is a compelling public interest in eliminating barriers to work by continuing needed health care coverage for individuals with disabilities who enter and maintain employment.

The legislature intends to strengthen the state's policy of supporting individuals with disabilities in leading fully productive lives by supporting the implementation of the federal ticket to work and work incentives improvement act of 1999, Public Law 106-170. This shall include improving incentives to work by continuing coverage for health care and support services by seeking federal funding for innovative programs, and by exploring options which provide individuals with disabilities a choice in receiving services needed to obtain and maintain employment.

**NEW SECTION. Sec. 2.** A new section is added to chapter 74.09 RCW to read as follows:

(1) It is the intent of the legislature to remove barriers to employment for individuals with disabilities by providing medical assistance to the working disabled through a buy-in program in accordance with section 1902(a)(10)(A)(ii) of the social security act and eligibility and cost-sharing requirements established by the department.

(2) The department shall establish income, resource, and cost-sharing requirements for the buy-in program in accordance with federal law and any conditions or limitations specified in the omnibus appropriations act. The department shall establish and modify eligibility and cost-sharing requirements in order to administer the program within available funds. The department shall make every effort to coordinate benefits with employer-sponsored coverage available to the working disabled receiving benefits under this chapter.

**Sec. 3.** RCW 74.09.510 and 1997 c 58 s 201 and 1997 c 59 s 14 are each reenacted and amended to read as follows:

Medical assistance may be provided in accordance with eligibility requirements established by the department, as defined in the social security Title XIX state plan for mandatory categorically needy persons and: (1) Individuals who would be eligible for cash assistance except for their institutional status; (2) individuals who are under twenty-one years of age, who would be eligible for temporary assistance for needy families, but do not qualify as dependent children and who are in (a) foster care, (b) subsidized adoption, (c) a nursing facility or an intermediate care facility for the mentally retarded, or (d) inpatient psychiatric facilities; (3) the aged, blind, and disabled who: (a) Receive only a state supplement, or (b) would not be eligible for cash assistance if they were not institutionalized; (4) categorically eligible individuals who meet the income and resource requirements of the cash assistance programs; (5) individuals who are enrolled in managed health care systems, who have otherwise lost eligibility for medical assistance, but who have not completed a current six-month enrollment in a managed health care system, and who are eligible for federal financial participation under Title XIX of the social security act; (6) children and pregnant women allowed by federal statute for whom funding is appropriated; (7) working individuals with disabilities authorized under section 1902(a)(10)(A)(ii) of the social security act for whom funding is appropriated; (8) other individuals eligible for medical services under RCW 74.09.035 and 74.09.700 for whom federal financial participation is available under Title XIX of the social security act; and ~~((8))~~ (9) persons allowed by section 1931 of the social security act for whom funding is appropriated.

NEW SECTION. **Sec. 4.** If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2001, in the omnibus appropriations act, this act is null and void."

**Sec. 4.** RCW 89.08.400 and 1992 c 70 s 1 are each amended to read as follows:

For those districts that have chosen to conduct elections of supervisors pursuant to this chapter:

(1) Special assessments are authorized to be imposed for conservation districts as provided in this section.

Activities and programs to conserve natural resources, including soil and water, are declared to be of special benefit to lands and may be used as the basis upon which special assessments are imposed.

(2)(a) Special assessments to finance the activities of a conservation district may be imposed by the county legislative authority of the county in which the conservation district is located for a period or periods each not to exceed ten years in duration.

The supervisors of a conservation district shall hold a public hearing on a proposed system of assessments prior to the first day of August in the year prior to which it is proposed that the initial special assessments be collected. At that public hearing, the supervisors shall gather information and shall alter the proposed system of assessments when appropriate, including the number of years during which it is proposed that the special assessments be imposed.

(b) On or before the first day of August in that year, the supervisors of a conservation district shall file the proposed system of assessments, indicating the years during which it is proposed that the special assessments shall be imposed, and a proposed budget for the succeeding year with the county legislative authority of the county within which the conservation district is located. The county legislative authority shall hold a public hearing on the proposed system of assessments. After the hearing, the county legislative authority may accept, or modify and accept, the proposed system of assessments, including the number of years during which the special assessments shall be imposed, if it finds that both the public interest will be served by the imposition of the special assessments and that the special assessments to be imposed on any land will not exceed the special benefit that the land receives or will receive from the activities of the conservation district. The findings of the county legislative authority shall be final and conclusive.

(c) Special assessments may be altered during this period on individual parcels in accordance with the system of assessments if land is divided or land uses or other factors change.

(d) Notice of the public hearings held by the supervisors and the county legislative authority shall be posted conspicuously in at least five places throughout the conservation district, and published once a week for two consecutive weeks in a newspaper in general circulation throughout the conservation district, with the date of the last publication at least five days prior to the public hearing.

(3) A system of assessments shall classify lands in the conservation district into suitable classifications

according to benefits conferred or to be conferred by the activities of the conservation district, determine an annual per acre rate of assessment for each classification of land, and indicate the total amount of special assessments proposed to be obtained from each classification of lands. Lands deemed not to receive benefit from the activities of the conservation district shall be placed into a separate classification and shall not be subject to the special assessments. An annual assessment rate shall be stated as either uniform annual per acre amount, or an annual flat rate per parcel plus a uniform annual rate per acre amount, for each classification of land. The maximum annual per acre special assessment rate shall not exceed ten cents per acre. The maximum annual per parcel rate shall not exceed five dollars.

Public land, including lands owned or held by the state, shall be subject to special assessments to the same extent as privately owned lands. The procedures provided in chapter 79.44 RCW shall be followed if lands owned or held by the state are subject to the special assessments of a conservation district.

Forest lands used solely for the planting, growing, or harvesting of trees may be subject to special assessments if such lands benefit from the activities of the conservation district, but the per acre rate of special assessment on benefited forest lands shall not exceed one-tenth of the weighted average per acre assessment on all other lands within the conservation district that are subject to its special assessments. The calculation of the weighted average per acre special assessment shall be a ratio calculated as follows: (a) The numerator shall be the total amount of money estimated to be derived from the imposition of per acre special assessments on the nonforest lands in the conservation district; and (b) the denominator shall be the total number of nonforest land acres in the conservation district that receive benefit from the activities of the conservation district and which are subject to the special assessments of the conservation district. No more than ten thousand acres of such forest lands that is both owned by the same person or entity and is located in the same conservation district may be subject to the special assessments that are imposed for that conservation district in any year. Per parcel charges shall not be imposed on forest land parcels. However, in lieu of a per parcel charge, a charge of up to three dollars per forest landowner may be imposed on each owner of forest lands whose forest lands are subject to a per acre rate of assessment.

(4) A conservation district shall prepare an assessment roll that implements the system of assessments approved by the county legislative authority. The special assessments from the assessment roll shall be spread by the county assessor as a separate item on the tax rolls and shall be collected and accounted for with property taxes by the county treasurer. The amount of a special assessment shall constitute a lien against the land that shall be subject to the same conditions as a tax lien, collected by the treasurer in the same manner as delinquent real property taxes, and subject to the same interest rate and penalty as for delinquent property taxes. The county treasurer shall deduct an amount, as established by the county legislative authority, from the collected special assessments ~~((as established by the county legislative authority,))~~ to cover the costs incurred by the county assessor and county treasurer in spreading and collecting the special assessments, but not to exceed the actual costs of such work.

(5) The special assessments for a conservation district shall not be spread on the tax rolls and shall not be collected with property tax collections in the following year if, after the system of assessments has been approved by the county legislative authority but prior to the fifteenth day of December in that year, a petition has been filed with the county legislative authority objecting to the imposition of such special assessments, which petition has been signed by at least twenty percent of the owners of land that would be subject to the special assessments to be imposed for a conservation district.

**NEW SECTION. Sec. 5.** A new section is added to chapter 89.08 RCW to read as follows:

For those districts that have chosen to conduct elections of supervisors pursuant to Title 29 RCW:

(1) Special assessments are authorized to be imposed for conservation districts as provided in this section.

Activities and programs to conserve natural resources, including soil and water, are declared to be of special benefit to lands and may be used as the basis upon which special assessments are imposed.

(2)(a) Special assessments to finance the activities of a conservation district may be imposed by the board of supervisors for a period or periods each not to exceed ten years in duration.

The supervisors of a conservation district shall hold a public hearing on a proposed system of assessments prior to the first day of August in the year prior to which it is proposed that the initial special assessments be

collected. At that public hearing, the supervisors shall gather information and shall alter the proposed system of assessments when appropriate, including the number of years during which it is proposed that the special assessments be imposed.

(b) After the public hearing, if the board of supervisors finds that both the public interest will be served by the imposition of the special assessments and that the special assessments to be imposed on any land will not exceed the special benefit that the land receives or will receive from the activities of the conservation district, the board of supervisors shall impose the assessments.

(c) Special assessments may be altered during this period on individual parcels in accordance with the system of assessments if land is divided or land uses or other factors change.

(d) Notice of the public hearings held by the supervisors shall be posted conspicuously in at least five places throughout the conservation district, and published once a week for two consecutive weeks in a newspaper in general circulation throughout the conservation district, with the date of the last publication at least five days prior to the public hearing.

(3) A system of assessments shall classify lands in the conservation district into suitable classifications according to benefits conferred or to be conferred by the activities of the conservation district, determine an annual per acre rate of assessment for each classification of land, and indicate the total amount of special assessments proposed to be obtained from each classification of lands. Lands deemed not to receive benefit from the activities of the conservation district shall be placed into a separate classification and shall not be subject to the special assessments. An annual assessment rate shall be stated as either uniform annual per acre amount, or an annual flat rate per parcel plus a uniform annual rate per acre amount, for each classification of land. The maximum annual per acre special assessment rate shall not exceed ten cents per acre. The maximum annual per parcel rate shall not exceed five dollars.

Public land, including lands owned or held by the state, shall be subject to special assessments to the same extent as privately owned lands. The procedures provided in chapter 79.44 RCW shall be followed if lands owned or held by the state are subject to the special assessments of a conservation district.

Forest lands used solely for the planting, growing, or harvesting of trees may be subject to special assessments if such lands benefit from the activities of the conservation district, but the per acre rate of special assessment on benefited forest lands shall not exceed one-tenth of the weighted average per acre assessment on all other lands within the conservation district that are subject to its special assessments. The calculation of the weighted average per acre special assessment shall be a ratio calculated as follows: (a) The numerator shall be the total amount of money estimated to be derived from the imposition of per acre special assessments on the nonforest lands in the conservation district; and (b) the denominator shall be the total number of nonforest land acres in the conservation district that receive benefit from the activities of the conservation district and which are subject to the special assessments of the conservation district. No more than ten thousand acres of such forest lands that is both owned by the same person or entity and is located in the same conservation district may be subject to the special assessments that are imposed for that conservation district in any year. Per parcel charges shall not be imposed on forest land parcels. However, in lieu of a per parcel charge, a charge of up to three dollars per forest landowner may be imposed on each owner of forest lands whose forest lands are subject to a per acre rate of assessment.

(4) A conservation district shall prepare an assessment roll that implements the system of assessments approved by the board of supervisors. The special assessments from the assessment roll shall be spread by the county assessor as a separate item on the tax rolls and shall be collected and accounted for with property taxes by the county treasurer. The amount of a special assessment shall constitute a lien against the land that shall be subject to the same conditions as a tax lien, collected by the treasurer in the same manner as delinquent real property taxes, and subject to the same interest rate and penalty as for delinquent property taxes. The county treasurer shall deduct an amount, as established by the county legislative authority, from the collected special assessments to cover the costs incurred by the county assessor and county treasurer in spreading and collecting the special assessments, but not to exceed the actual costs of such work.

(5) The special assessments for a conservation district shall not be spread on the tax rolls and shall not be collected with property tax collections in the following year if, after the system of assessments has been approved by the board of supervisors, but prior to the fifteenth day of December in that year, a petition has been filed with

the board of supervisors objecting to the imposition of such special assessments, which petition has been signed by at least twenty percent of the owners of land that would be subject to the special assessments to be imposed for a conservation district.

**Sec. 6.** RCW 89.08.200 and 1973 1st ex.s. c 184 s 21 are each amended to read as follows:

The term of office of each supervisor shall be ~~((three))~~ four years and until his or her successor is appointed or elected and qualified, except that the supervisors first appointed shall serve for ~~((one))~~ two and ~~((two))~~ four years respectively from the date of their appointments, as designated in their appointments.

Successors shall be elected for ~~((three-year))~~ four-year terms.

Vacancies in the office of appointed supervisors shall be filled by the state conservation commission. Vacancies in the office of elected supervisors shall be filled by appointment made by the remaining supervisors for the unexpired term.

A majority of the supervisors shall constitute a quorum and the concurrence of a majority is required for any official action or determination.

Supervisors shall serve without compensation, but they shall be entitled to expenses, including traveling expenses, necessarily incurred in discharge of their duties. A supervisor may be removed by the state conservation commission upon notice and hearing, for neglect of duty or malfeasance in office, but for no other reason.

The governing board shall designate a ~~((chairman))~~ chair from time to time.

For elected supervisors whose terms expire in 2001, a special election shall be in the last quarter of 2001, with election procedures as specified in RCW 89.08.190 (2) or (3).

For elected supervisors whose terms would expire in 2002 but for this act, the general election shall be in 2003, with election procedures as specified in RCW 89.08.190 (2) or (3).

(1) The department of licensing, the department of transportation, and the Washington state patrol, in cooperation with the office of financial management and the senate and house of representatives transportation committees, shall implement a performance budgeting process that provides a measurable link between agency objectives, service levels, and budget proposals. The agencies shall also develop indicators of performance, stated in terms of expected results, to measure the agencies' progress in achieving the agencies' goals.

(2) The transportation agencies shall submit a strategic plan with their agency request budgets. The strategic plan must include a six- year outlook and define and clarify the agency mission and vision, provide the basis for budget development, and outline the agency's goals and strategies. Furthermore, the strategic plan shall reflect agency priorities which formed the basis of the agencies' budget development.

(3) The transportation agencies shall establish performance indicators that measure activities and associated goals and strategies in the strategic plan. The agencies shall also provide a preferred level of performance over the next six years.

(4) The senate and house of representatives transportation committees, the office of financial management, and the transportation agencies shall establish the means of conducting program authorization reviews of all transportation programs. The reviews shall include:

(a) An agency self-assessment to judge the quality and usefulness of: (i) The agency's long-term strategic program goals; (ii) current organizational structure; (iii) program priorities and objectives; (iv) activities necessary to achieve program priorities and objectives; (v) service level criteria and performance targets of existing programs and activities; (vi) best practices by other states as a possible benchmark of the performance of their programs; and (vii) results or outcome measures as they relate to achievement of benchmarks given different funding levels;

(7) The transportation agencies shall develop agency biennial budget requests at the agency budget program level, rather than the object level, and submit their biennial and supplemental budget requests to the office of financial management via a common budget system beginning July 1, 2003.

PROVISIONS NECESSARY TO IMPLEMENT APPROPRIATIONS

**Sec. 601.** RCW 47.04.210 and 1997 c 94 s 1 are each amended to read as follows:

Federal funds that are administered by the department of transportation and are passed through to municipal corporations or political subdivisions of the state and moneys that are received as total reimbursement for goods, services, or projects constructed by the department of transportation are removed from the transportation budget. To process and account for these expenditures a new treasury trust account is created to be used for all department of transportation one hundred percent federal and local reimbursable transportation expenditures. This new account is nonbudgeted and nonappropriated. At the same time, federal and private local appropriations and full-time equivalents in subprograms R2, R3, T6, Y6, and Z2 processed through this new account are removed from the department of transportation's 1997-99 budget.

The department of transportation may make expenditures from the account before receiving federal and local reimbursements. However, at the end of each biennium, the account must maintain a zero or positive cash balance. In the twenty-fourth month of each biennium the department of transportation shall calculate and transfer sufficient cash from either the motor vehicle fund or the multimodal transportation (~~(fund)~~) account to cover any negative cash balances. The amount transferred is calculated based on expenditures from each fund. In addition, any interest charges accruing to the new account must be distributed to the motor vehicle fund and the multimodal transportation (~~(fund)~~) account.

The department of transportation shall provide an annual report to the legislative transportation committee and the office of financial management on expenditures and full-time equivalents processed through the new account. The report must also include recommendations for process changes, if needed.

**Sec. 602.** RCW 47.04.220 and 1997 c 94 s 2 are each amended to read as follows:

(b) Local transportation projects for which the department is a conduit for federal reimbursement to a municipal corporation or political subdivision; or

(c) Other reimbursable activities as recommended by the legislative transportation committee and approved by the office of financial management.

(3) Moneys received as reimbursement for expenditures under subsection (2) of this section must be deposited into the account.

(4) No appropriation is required for expenditures from this account. This fund is not subject to allotment procedures provided under chapter 43.88 RCW.

(5) Only the secretary of transportation or the secretary's designee may authorize expenditures from the account.

(6) It is the intent of the legislature that this account maintain a zero or positive cash balance at the end of each biennium. Toward this purpose the department may make expenditures from the account before receiving reimbursements under subsection (2) of this section. Before the end of the biennium, the department shall transfer sufficient cash to cover any negative cash balances from the motor vehicle fund and the multimodal transportation (~~(funds)~~) account to the miscellaneous transportation programs account for unrecovered reimbursements. The department shall calculate the distribution of this transfer based on expenditures. In the ensuing biennium the department shall transfer the reimbursements received in the miscellaneous transportation programs account back to the motor vehicle fund and the multimodal transportation (~~(funds)~~) account to the extent of the cash transferred at biennium end. The department shall also distribute any interest charges accruing to the miscellaneous transportation programs account to the motor vehicle fund and the multimodal transportation (~~(funds)~~) account. Adjustments for any indirect cost recoveries may also be made at this time.

(7) The department shall provide an annual report to the legislative transportation committee and the office of financial management on the expenditures and full-time equivalents processed through the miscellaneous transportation programs account. The report must also include recommendations for changes to the process, if needed.

The joint legislative audit and review committee must report its findings to the legislature and the office of financial management by December 1, 2002.

**NEW SECTION. Sec. 606.** A new section is added to chapter 47.01 RCW to read as follows:

JOURNAL OF THE HOUSE  
**GOVERNOR'S VETO MESSAGES**

Fifty-Seventh Legislature  
2001 Regular & All Special Sessions

April 13, 2001

To the Honorable Speakers and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, Substitute House Bill No. 1019 entitled:  
"AN ACT Relating to the fish and wildlife commission;"

The Fish and Wildlife Commission has nine members, three from the east side of the summit of the Cascade mountains, three from the west side of the summit, and three at-large. Substitute House Bill No. 1019 would have required that six of the nine commissioners be appointed to represent each of the six administrative regions of the Department of Fish and Wildlife. The three at-large positions would have remained unchanged.

RCW 77.04 already requires that the governor appoint, with the advice and consent of the senate, three members from the east side of the state and three members from the west side, with no two members being from the same county. The statute, passed in part by referendum of the people, also provides that Commission members have general knowledge of the habits and distribution of fish and wildlife and shall not hold another government office. The governor is also required to seek to maintain a balance reflecting all aspects of fish and wildlife, including representation by organized groups of sportfishers, commercial fishers, hunters, private landowners and environmentalists. I take this charge very seriously and work hard to provide the Commission with a well-balanced group of highly skilled and experienced people.

As written, Substitute House Bill No. 1019 would limit my ability to find the best possible individuals, who must not only reflect these existing statutory requirements, but who must also be willing to fulfill the rigorous demands that are required -- both in terms of time commitment and in terms of formulating policies that guide the Department on very complex issues. I am also concerned that designating commissioners by agency region may limit the flexibility of the Department to make administrative changes. For example, if the Department were to decide it needed to consolidate its regions, it would be hampered from doing so if six of the commission appointments must come from the agency's regions, as they exist today.

While I have vetoed Substitute House Bill No. 1019 in its entirety for the reasons mentioned above, I would be willing to discuss with legislative leaders other possible appointment configurations to the Fish and Wildlife Commission that achieve the regional balance intended by this legislation.

For these reasons I have vetoed Substitute House Bill No. 1019 in its entirety.

To the Honorable Speakers and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, Substitute House Bill No. 1091 entitled:  
"AN ACT Relating to sexual misconduct with a minor;"

Substitute House Bill No. 1091 would have made it a felony for any school employee to engage in sexual conduct with a student between 16 and 18 years old. Such conduct is already a felony if the perpetrator is at least five years older and abuses a supervisory position, such as that of a teacher or coach, by making threats or promises to the victim. The bill was intended to remove the requirement that threats or promises be made.

However, the bill is overly broad. It would allow felony prosecution even if both parties were teenagers, as long as one of them is a school employee. The term "employee" could include a student who is a part-time tutor, food service or maintenance worker. For example, there are high school students who are Washington Reading Corps tutors and are paid by their local school districts. Those students could be subject to prosecution if they have consensual sex with a

classmate of approximately the same age. Such a person could be imprisoned and required to register as a sex offender after release.

I do not condone sexual activity among teenagers, but this bill is simply too broad.

As a legislator, I worked to strengthen our laws dealing with sex offenses against minors. This bill should be written to permit prosecution only of those 18 years or older and who are not students in the same school. Accordingly, I have forwarded suggested legislation to the prime sponsor of this bill.

For these reasons I have vetoed Substitute House Bill No. 1091 in its entirety.

April 30, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, Substitute House Bill No. 1093 entitled:

"AN ACT Relating to increasing the license surcharge for the impaired physician;"

Substitute House Bill No. 1093 would have authorized changes in the license surcharge for the impaired physician program to any amount not less than twenty-five dollars and not more than thirty-five dollars.

Senate Bill No. 5903 which was signed into law on April 19, 2001, is identical to Substitute House Bill No. 1093.

Substitute House Bill No. 1093 is not needed, as it would create a double amendment to state statutes.

For this reason I have vetoed Substitute House Bill No. 1093 in its entirety.

May 15, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 2 and 5, House Bill No. 1102 entitled:

"AN ACT Relating to foster parents' rights;"

House Bill No. 1102 states the rights foster parents have to be free from coercion, discrimination, reprisal and retaliation in serving foster children. It also confirms that the Department of Social and Health Services (DSHS) must share information about a foster child and the child's family with foster parents, and prevents children from being placed in homes where a foster parent may have a conflict of interest.

Section 2 of the bill would have expressly prohibited DSHS from retaliating or discriminating against a foster parent because of a complaint he or she may have made against DSHS, as well as several other foster parent protections.

While it is an excellent idea to articulate foster parents' rights and responsibilities, section 2 was flawed. The section was unclear, and may have created unintended broad new liabilities for the state. DSHS would have been placed in a no-win position where any action it might have taken involving a foster parent who has complained could result in a lawsuit.

Other states have enacted comprehensive laws establishing the rights of foster parents, and the Child Welfare League of America has a model foster parent rights and responsibilities document. Many of these states' statutes and the Child Welfare League of America document would provide a model for developing strong, workable foster parent laws in Washington.

Section 5 of the bill was designed to enforce section 2, and is unnecessary after the veto of section 2.

To help ensure that there is no retaliation against foster parents in our state, I will direct the Secretary of DSHS to heighten his oversight of this issue.

For these reasons, I have vetoed sections 2 and 5 of House Bill No. 1102.

With the exception of sections 2 and 5, House Bill No. 1102 is approved.

May 15, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, House Bill No. 1126 entitled:

"AN ACT Relating to collection of business to business debts;"

House Bill No. 1126 would have, in the case of commercial claims, authorized collection agencies to recover the collection costs and fees agreed to between a debtor and creditor, in addition to the underlying claim.

Senate Bill No. 5331, which was signed into law on April 17, 2001, is identical to House Bill No. 1126. House Bill No. 1126 is not needed, as it would create a double amendment to the state statutes.

For this reason I have vetoed House Bill No. 1126 in its entirety.

May 15, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 6, Engrossed Substitute House Bill No. 1286 entitled: "AN ACT Relating to the use of viable salmon eggs;"

Engrossed Substitute House Bill No. 1286 provides direction and priorities to the Department of Fish and Wildlife (WDFW) and the Fish and Wildlife Commission regarding the use of surplus salmon eggs.

Although I have approved the majority of this bill, I do have concerns about how it may be implemented.

Section 4 of the bill directs the Commission to issue rules allowing more hatchery salmon to spawn naturally in the state's watersheds. In view of the significant concerns and uncertainties surrounding the interaction between hatchery and wild salmon, the Commission should take into account the recommendations of the federal agencies with jurisdiction over this issue, namely the National Marine Fisheries Service and the U.S. Fish and Wildlife Service.

Nothing in this legislation infringes on WDFW's co-management responsibilities with the tribes. I anticipate that any rules will comply with WDFW's Hatchery Genetic Management Plans, satisfying the requirements of the Endangered Species Act and the goal of wild fish recovery. I also expect the state and tribes to continue to improve hatchery practices and to develop recommendations consistent with the findings of the Hatchery Scientific Review Group.

Although hatcheries currently, and in the future, will play an important role in the recovery of wild salmon populations, they are not a substitute for the protection and restoration of habitat and reform of our state water code. Wild salmon will not recover without our addressing habitat, hatcheries, harvest and hydropower.

I also note that there is a technical conflict in the priorities for the distribution of surplus eggs in section 1 of the bill and existing law (RCW 77.100.060(3)). I ask that the WDFW work with the legislature to address this issue.

Section 6 of this bill is an emergency clause. My discussions with WDFW indicate that this provision is not necessary and that the development of the appropriate rule package will take some time.

For these reasons, I have vetoed section 6 of Engrossed Substitute House Bill No. 1286.

With the exception of section 6, Engrossed Substitute House Bill No. 1286 is approved.

May 15, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 11, 12 and 15, Substitute House Bill No. 1320 entitled:

"AN ACT Relating to adult family homes;"

Substitute House Bill No. 1320 strengthens and improves the training, licensing and inspection processes for adult family homes. Adult family homes are an integral part of our long-term care system. I support the efforts to balance the need of the Department of Social and Health Services (DSHS) to ensure a high quality of care, and the need of providers for certainty in the licensing and inspection processes.

Section 11 of the bill would have eliminated the requirement that employees in adult family homes have food handler permits from the Department of Health (DOH). Instead, DSHS would have been required to include food safety training in its regular training and continuing education curricula. Asking DSHS to provide education on food safety and to enforce DOH rules is not efficient or effective. In addition, under current law food handler permits must be obtained

within fourteen days of employment. The DSHS training must be obtained with six months of the date of employment. Food safety is too important to delay the training in this manner.

Section 12 of the bill would have required DSHS to work with providers and resident communities to develop opportunities for its staff to become familiar with the routines of adult family homes. This language is vague and unenforceable. It is also insulting to the agency staff, because it implies that DSHS employees are unfamiliar with the industry they are regulating. Opportunities for exchanges of information and experience can be developed without a statutory requirement. I encourage DSHS to take these steps but it need not be mandated by statute.

Section 15 is unnecessary because it sets the implementation date for section 11.

For these reasons, I have vetoed sections 11, 12 and 15 of Substitute House Bill No. 1320.

With the exception of sections 11, 12 and 15, Substitute House Bill No. 1320 is approved.

May 15, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 19, House Bill No. 1361 entitled:  
"AN ACT Relating to simplifying excise tax application and administration;"

House Bill No. 1361 was introduced as the Department of Revenue's annual housekeeping bill. It makes several technical corrections and clarifications to the law implemented by the Department. However, it was amended to include sections 18 and 19, provisions that affect the Business & Occupation (B&O) tax treatment of money earned from investments by businesses other than banks, loan, security or other financial businesses.

Section 19 of the bill would have implemented the intent expressed in section 18, which is to delay any change in the manner or extent of taxation of certain investment income as a result of the recent Washington Supreme Court decision, *Simpson Investment Co. v. Department of Revenue*. However, parties on both sides of the discussion agree that section 19 is clearly unconstitutional. Section 19 would require the Department to treat similarly situated taxpayers differently, contrary to principles of sound tax administration and the equal protection clauses of the state and federal constitutions. Also, the fiscal cost of a successful challenge would be much greater than the legislature assumed when it enacted this bill.

I fully support the goals inherent in section 19 of this bill. However, we should not make tax policy or administrative changes until there has been a thorough evaluation of the implications of the Washington Supreme Court's ruling on the affected parties.

I have directed the Department to adhere to the spirit of section 19 and to not change or expand the application of the law to include activities that heretofore have not been made subject to the tax. The Department will continue to apply pre-*Simpson Investment Co.* policies and interpretations with respect to RCW 82.04.4281. I have further directed the Department to work closely with all affected parties to develop a suitable, constitutional proposal that can be considered by the legislature in 2002.

The Director has formed a task force including representatives of Frank Russell Co., Microsoft, Washington Mutual Bank, Safeco, Allied Daily Newspapers, and Eagle River Partners, as well as Arthur Anderson, Perkins Coie, Davis Wright Tremaine, Stoel Rives, the Association of Washington Business and the Washington State Bar Association on behalf of clients and general interests. I fully anticipate that this group, working cooperatively with the Department, will be able to reach a consensus.

It is important that actions of the legislative and executive branches of government not result in actual or perceived damage to our business climate. The business community is understandably concerned about the implications of the *Simpson Investment Co.* case. However, I cannot in good conscience sign into a law a provision that is clearly unconstitutional and unfair to some businesses. Additionally, I reiterate that the Department will continue to apply only pre-*Simpson Investment Co.* policies and interpretations with respect to RCW 82.04.4281.

For these reasons, I have vetoed section 19 of House Bill No. 1361.

With the exception of section 19, House Bill No. 1361 is approved.

May 15, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, House Bill No. 1422 entitled:  
"AN ACT Relating to increasing the size of the state investment board;"

This bill would have added two members to the State Investment Board: a representative of local government appointed by the Governor for a two-year term, and an active member of the School Employees Retirement System (SERS) appointed by the Superintendent of Public Instruction for a three-year term.

I do not dispute that local governments and school employees have a valid interest in State Investment Board decisions. However, I am concerned that House Bill No. 1422 does not address the equally valid interests of the many other groups whose funds are managed by the Board but who would continue to be excluded.

Rather than increasing the size of the Board by granting membership to selected individual stakeholders to the exclusion of others, a better approach would be to restructure the Board to allot seats to classes of stakeholders, without increasing the number of Board members. I would be pleased to work with the Legislature and stakeholders to develop legislation toward this end.

For these reasons I have vetoed House Bill No. 1422 in its entirety.

May 15, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 3 and 4, Second Substitute House Bill No. 1445 entitled:

"AN ACT Relating to the time certificate of deposit investment program;"

Second Substitute House Bill No. 1445 continues the state's Linked Deposit Program, under which low-interest loans are made available for women and minority-owned businesses beyond its June 30, 2001 sunset date. This is an important program that aids in the creation and expansion of many businesses. Additionally, the program has spurred economic development in distressed areas of our state.

Section 3 of the bill was an amendment to the original bill and would have directed the program to socially and economically disadvantaged business enterprises, deleting all references to women or minority-owned businesses. As such, several legislators who supported the bill believe section 3 would have significantly diluted the Linked Deposit Program, making it inconsistent with the original legislative intent.

Section 4 also references socially and economically disadvantaged business enterprises, and it would create confusion if section 3 were vetoed alone.

For these reasons, I have vetoed sections 3 and 4 of Second Substitute House Bill No. 1445.

With the exception of sections 3 and 4, Second Substitute House Bill No. 1445 is approved.

May 11, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, House Bill No. 1568 entitled:

"AN ACT Relating to suspension, revocation, and denial of driver training school instructor licenses;"

House Bill No. 1568 would have specified in statute that the Department of Licensing has the authority to suspend the license of a driving school instructor, if that instructor no longer meets the initial requirements to obtain an instructor's license.

Although well intentioned, this legislation is not necessary. After careful review of RCW Chapter 46.82, and RCW 46.82.330 and 46.82.350(1)(c) in particular, I believe the Department of Licensing already has the authority to apply the requirements that a person must satisfy to obtain an instructor's license to suspension, revocation or renewal of that same license. Given the current language of the statutes, it is disingenuous to argue, for example, that a person may not be granted an instructor's license if he or she has had alcohol-related traffic violations within the preceding three years, but is eligible to renew his or her license with recent alcohol-related traffic violations on his or her record.

I encourage the Department of Licensing to proceed with any steps necessary to amend and clarify its standards, rules, and procedures regarding the suspension, revocation and renewal of driving school instructor licenses consistent with this letter.

For these reasons I have vetoed House Bill No. 1568 in its entirety.

July 13, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 3, Substitute House Bill No. 1624 entitled: "AN ACT Relating to the business and occupation tax deduction for health or social welfare services as applied to government-funded health benefits paid through managed care organizations;"

Substitute House Bill No. 1624 authorizes a business and occupation (B&O) tax deduction for amounts received by a health or social welfare organization that is a non-profit hospital or a public hospital, from a managed care organization or other entity that is under contract with the federal or state government to manage certain health care benefits. The deduction is equal to the amount of payments the entity receives for health benefits for Medicare; medical assistance, children's health, or other programs authorized pursuant to RCW 74.09; or the Washington Basic Health Plan. The credit amount is limited to the extent these payments are received as compensation for health care services within the scope of benefits covered by the pertinent government health care program.

Section 3 of this bill would have applied the deduction to taxes collected in the future, on reporting periods prior to the effective date of this act. The retroactive nature of the provision is not fair to taxpayers who have timely reported and remitted their taxes. Taxpayers who failed to pay their taxes due before the effective date of this bill would have been rewarded for being delinquent, while those who paid on time would not receive a refund (such refunds are prohibited by Article VIII, Section 7 of the Washington Constitution as interpreted by the Washington Supreme Court).

For this reason, I have vetoed section 3 of Substitute House Bill No. 1624.

With the exception of section 3, Substitute House Bill No. 1624 is approved.

May 15, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 5, 6, 7, and 20, Substitute House Bill No. 1650 entitled:

"AN ACT Relating to community mental health services;"

Substitute House Bill No. 1650 implements several recommendations of a recent performance audit of the community mental health system by the Joint Legislative Audit and Review Committee (JLARC). I support those recommendations relating to funding flexibility, performance measurement, and other improvements. I also support the bill's goal of minimizing administrative expenses at all levels of the mental health system.

Section 5 of the bill would have required the Department of Social and Health Services (DSHS), to collaborate with others, including Regional Support Networks and community treatment providers, to develop performance measures for use in evaluating and managing the mental health system. I strongly support this recommendation. However, developing these measures and designing the data system they will require would cost over \$1 million. The budget adopted by the House includes this funding, but the Senate budget does not. Without assurance of funding, I am unwilling to let this requirement become law.

Sections 6 and 7 of the bill would have required use of the performance measures in section 5 to evaluate programs and make reports to the legislature. Without section 5, sections 6 and 7 have no meaning.

If, during the special session, the legislature chooses to enact sections 5, 6, and 7, with funding assured, I will gladly sign those sections because I support their intent.

Section 20 of the bill would have required DSHS to develop a plan to reduce mental health system administrative expenses, including in the Regional Support Networks and community-based treatment providers, to ten percent of

available funds, and submit the plan to the legislature by December 15, 2001, with an assumed implementation date of July 1, 2003.

Minimizing administrative costs is an important goal for any program. But the Secretary of DSHS advises me that developing a realistic plan to achieve that goal for the mental health system as a whole will take longer than seven months, in part because it requires the active participation of mental health providers and Regional Support Networks.

The legislature's intent to see a plan implemented in July 2003 allows enough time to develop such a plan properly. Therefore, I have vetoed section 20 and direct DSHS to work with appropriate stakeholders to complete the plan, and make recommendations to me and to the legislature by October 1, 2002.

For these reasons, I have vetoed sections 5, 6, 7, and 20 of Substitute House Bill No. 1650.

With the exception of sections 5, 6, 7, and 20, Substitute House Bill No. 1650 is approved.

May 7, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 9, Substitute House Bill No. 1678 entitled: "AN ACT Relating to advance right-of-way acquisition;"

Substitute House Bill No. 1678 creates the city and county advance right of way revolving fund. This account was recommended by the Blue Ribbon Commission on Transportation, and will allow local governments to acquire land in advance of construction, as funds become available. This has proved to be a very effective tool at the state level, allowing construction to start as soon as construction funding is available.

Section 9 of the bill would have rendered the fund null and void if there is no appropriation for the fund in this year's biennial transportation budget. I strongly support the revolving fund, and have recommended an appropriation in my transportation budget proposal. I urge the legislature to do the same. Clearly, the merits of this bill extend beyond June 30th of this year.

For these reasons I have vetoed section 9 of Substitute House Bill No. 1678.

With the exception of section 9, Substitute House Bill No. 1678 is approved.

May 11, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, Engrossed House Bill No. 1745 entitled: "AN ACT Relating to child support technical amendments regarding medical support;"

Engrossed House Bill No. 1745 was intended to make changes to state laws regarding National Medical Support Notice requirements. However, each of the bill's two sections contains unacceptable provisions.

Section 1 of the bill would have required the Division of Child Support within the Department of Social and Health Services (DSHS), where appropriate, to comply with a federal law requiring that a National Medical Support Notice be sent with payroll deduction notices or income withholding orders within two days of receiving new hire reporting information. DSHS can and must comply with the federal law without a state statute directing it to do so. Therefore, section 1 is unnecessary.

Section 2 would have placed unrealistic and inappropriate limits on the authority of the Division of Child Support to make new rules. It also would have changed the burden of proof in court proceedings for certain agency actions, reversing a long-standing legal principle governing the validity of agency actions. Additionally, section 2 would have limited the agency's authority to implement the law to circumstances and behaviors known at the time of the bill's enactment, subjecting the agency to an uncertain and ambiguous standard and inviting litigation.

These restrictions are different from the requirements and standards of the Administrative Procedure Act (APA), and would have subjected rules and actions adopted under this act to different, inconsistent standards. APA standards apply uniformly to all other rules adopted by the DSHS, and every other agency and division in state government. It is important that rules and actions of state agencies be implemented and enforced uniformly. It is also important that the

APA not be amended in a piecemeal way. To do so would create administrative confusion, make rules harder for the public to understand, and invite litigation.

For these reasons I have vetoed Engrossed House Bill No. 1745 in its entirety.

April 17, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 6, Engrossed House Bill No. 1864 entitled: "AN ACT Relating to information requirements in family law court files;"

Engrossed House Bill No. 1864 provides valuable privacy protections for people involved in family court actions. It will help limit cases of identity theft and misuse of private information, particularly as court filings are made accessible on the Internet.

However, section 6 of EHB 1864 would place unrealistic and inappropriate limits on the authority of the DSHS Division of Child Support to make rules implementing the new privacy protection standards for administrative orders granted pursuant to section 3 of the bill. These restrictions are inconsistent with the requirements and standards of Chapter 34.05 RCW, the Administrative Procedure Act (APA). APA standards apply uniformly to all other rules adopted by the DSHS, and every other agency and division in state government. The requirements in section 6 of this bill would have subjected rules and actions adopted under this act to different, inconsistent standards.

It is important that rules and actions of state agencies be implemented and enforced uniformly. It is also important that the APA not be amended in a piecemeal way. To do so would create administrative confusion, make rules harder for the public to understand, and invite litigation.

Additionally, section 6 of EHB 1864 would have changed the burden of proof in court proceedings for certain agency actions. This would have reversed a long-standing legal principle governing the validity of agency actions, and could have created significant legal impediments for implementation of the program covered by the bill.

Section 6 also would have limited the agency's authority to implement the law to circumstances and behaviors known at the time of the bill's enactment. That would also subject the agency to an uncertain and ambiguous standard and invite litigation.

For these reasons, I have vetoed section 6 of Engrossed House Bill No. 1864. With the exception of section 6, Engrossed House Bill No. 1864 is approved.

May 14, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 9 and 10, Substitute House Bill No. 1892 entitled: "AN ACT Relating to agricultural commodity board and commissions;"

Substitute House Bill No. 1892 expands the powers of certain commodity boards and commissions so that they may be more effective in promoting Washington's products.

Sections 9 and 10 of the bill would have allowed members and staff of commodity boards and commissions to be reimbursed for the full amount of their actual travel expenses, rather than being limited by the Office of Financial Management regulations on reimbursement rates. Because international travel can be quite expensive and these boards and commissions are self-supporting, I support this goal. Unfortunately, sections 9 and 10 were mechanically flawed. They would have exempted individuals from compliance with RCW 43.03.050 and 43.03.060, which create the statewide system for travel reimbursement. However, this bill does not also amend RCW 15.65.270 or 15.66.130, both of which deal with travel reimbursement for commodity board or commission members. By changing only part of the applicable statutes, sections 9 and 10 would have created an internal inconsistency in the law.

Several bills were passed this year dealing with travel reimbursement for commodity boards and commissions. I encourage the interested parties to combine their efforts next year to put forward a single effort that consistently amends the expense reimbursement statutes for all of our state's self-supporting commodity boards and commissions.

For these reasons, I have vetoed sections 9 and 10 of Substitute House Bill No. 1892.

With the exception of sections 9 and 10, Substitute House Bill No. 1892 is approved.

July 13, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 2, Substitute House Bill No. 1906 entitled: "AN ACT Relating to the exemption of machinery and equipment used in farming operations from the state property tax and preventing a shift of property taxes;"

Substitute House Bill No. 1906 authorizes an exemption from the state property tax for machinery and equipment owned by a farmer and used exclusively to grow agricultural products. Under the bill, farmers will continue to pay local property taxes on the machinery and equipment.

Section 2 of the bill would have required the state levy to be recalculated so that the exemption would not increase the rate of the state property tax levy, shifting the property tax burden to other property tax payers. The result would have been to permanently reduce revenues going into the state General Fund.

In the 2003-2005 biennium, section 2 would have caused a reduction in General Fund revenues of almost seven million dollars. The recently passed operating budget already leaves an uncomfortably small reserve for the future. My veto of section 2 will preserve revenue for the state General Fund and increase the reserves available for the state school levy.

For these reasons, I have vetoed section 2 of Substitute House Bill No. 1906.

With the exception of section 2, Substitute House Bill No. 1906 is approved.

May 7, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 4, Engrossed Substitute House Bill No. 1995 entitled: "AN ACT Relating to civil forfeitures of property;"

Engrossed Substitute House Bill No. 1995 provides needed reform to our civil forfeiture laws. This bill will provide greater protection to citizens whose property is subject to seizure by law enforcement agencies. Drug dealers should not be allowed to benefit from their illegally gotten wealth, but we must not sacrifice citizens' rights in our efforts to fight drug trafficking.

Section 4 of the bill establishes a workgroup of the Senate and House Judiciary Committees, including legislative and non-legislative members, to evaluate Washington's civil forfeiture laws and practices, and report back to the legislative committees by December 1, 2001. I believe such a workgroup will be very useful and can continue examining the issues involved in the forfeiture laws. However, there is simply no need to establish the workgroup in statute. I urge the committees to use their inherent power to establish this workgroup, so that it can perform its intended functions within the intended time period, without enactment of a statute.

For these reasons, I have vetoed section 4 of Engrossed Substitute House Bill No. 1995.

With the exception of section 4, Engrossed Substitute House Bill No. 1995 is approved.

May 15, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 10 and 14, Substitute House Bill No. 2046 entitled: "AN ACT Relating to validating trusts created for the benefit of nonhuman animals;"

Substitute House Bill No. 2046 will allow trusts created for the benefit of vertebrate animals to be legally recognized and enforceable. This change in the law will allow people to ensure that their pets will be cared for after their owner's death.

GOVERNOR'S VETO MESSAGES

2611

Sections 10 and 14 of the bill were intended to address contingencies that could be caused by the rule against perpetuities. However, those issues were resolved with Senate Bill No. 5054, which I signed on April 18, 2001.

For these reasons, I have vetoed sections 10 and 14 of Substitute House Bill No. 2046.

With the exception of sections 10 and 14, Substitute House Bill No. 2046 is approved.

May 11, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, House Bill No 2095 entitled:

"AN ACT Relating to procurement of architectural and engineering services;"

House Bill No. 2095 would have required that when state and local government agencies procure architectural and engineering services, they must encourage firms providing these services to submit their qualification and performance data no less than biennially. Current law encourages annual submittal.

I understand that at least one local government agency believes that annual submittal and review of this data results in unnecessary cost impacts, which could be lessened if review were to occur on a biennial basis. However, since under current law annual submittals clearly are only *encouraged*, not required, I believe that government agencies already have sufficient flexibility under the law to accept the data biennially, particularly if annual submittal results in unreasonable financial burdens. Therefore, the change proposed by the bill is not necessary.

For these reasons I have vetoed House Bill No. 2095 in its entirety.

May 11, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 4, Engrossed Substitute House Bill No. 2172 entitled:

"AN ACT Relating to the repair and maintenance of backflow prevention assemblies;"

Engrossed Substitute House Bill No. 2172 creates a specialty plumber's certificate of competency for the maintenance and repair of backflow prevention assemblies. This bill will make it easier and more cost effective to conduct annual inspections of backflow prevention assemblies by increasing the number of available inspectors.

Section 4 of the bill would have repealed the requirement that backflow prevention devices in residential dwellings be annually inspected. Such action would compromise the health and safety of Washington residents and the integrity of our state's potable water. Without a state inspection requirement, local governments would likely impose their own requirements, resulting in a multitude of differing standards.

For these reasons I have vetoed section 4 of Engrossed Substitute House Bill No. 2172.

With the exception of section 4, Engrossed Substitute House Bill No. 2172 is approved.

July 11, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 4, Engrossed House Bill No. 2230 entitled:

"AN ACT Relating to state health and employment support benefits for incapacitated or disabled individuals;"

Engrossed House Bill No. 2230 changes state law as necessary to comply with the federal Ticket to Work and Work Incentives Improvement Act of 1999. It will allow the Department of Social and Health Services to continue medical coverage for individuals with disabilities who go to work.

However, section 4 of the bill would have rendered the entire act null and void unless specific funding, referencing the act by bill or chapter number, was included in the omnibus appropriations act. The omnibus appropriations act contains the necessary funding, but without a specific reference to the bill. Without a veto of section 4, the bill would have been rendered null and void.

For these reasons, I have vetoed section 4 of Engrossed House Bill No. 2230.

With the exception of section 4, Engrossed House Bill No. 2230 is approved.

June 11, 2001

To the Honorable Speakers and Members,

The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 19, Substitute House Bill No. 2242 entitled: "AN ACT Relating to Medicaid nursing home rates;"

Substitute House Bill No. 2242 modifies the current nursing home reimbursement formula, directs the Department of Social and Health Services to convene a study regarding issues related to nursing homes rates, and establishes a joint legislative task force to monitor and evaluate this issue and submit a report to the Legislature by December 1, 2003.

Section 19 of the bill would have allowed transfers of nursing home Certificates of Need (CONs) via bankruptcy without a review of whether subsequent operators meet CON criteria. Without a CON review, there would be no assurances that the new operator has the expertise or financial wherewithal to provide adequate resident care.

Over past several years, as a policy objective to help move nursing home residents toward housing more integrated in our communities, the Legislature has directed the Department of Health to reduce the number of nursing home beds approved through the CON process. Currently, a bankruptcy means that the Department of Health has an opportunity to reconsider its issuance of a CON. Section 19 would have allowed construction of nursing home beds to continue, without affording the Department the opportunity to reevaluate the need for the beds.

For these reasons, I have vetoed section 19 of Substitute House Bill No. 2242.

With the exception of section 19, Substitute House Bill No. 2242 is approved.
