OLYMPIA, WASHINGTON 98504-7890

March 1, 1994

Mr. Marty Brown
Secretary of the Senate
306 Legislative Building
Olympia, Washington 98504-0482

Dear Mr. Brown:

The Washington State Department of Health and the Public Health Improvement Plan Steering Committee are pleased to submit the Public Health Improvement Plan Progress Report to you pursuant to the Health Services Act of 1993. The Public Health Improvement Plan is the blueprint for improving health status in Washington through prevention and improved capacity for public health service delivery. The purpose of the Public Health Improvement Plan is to help achieve Washington's three goals of health system reform--the stabilization of health system costs, the assurance of universal access, and improvement of the health of our state's population.

This progress report describes the work done to date in developing the first Public Health Improvement Plan due to the Legislature by December 1, 1994. The report includes proposed recommendations on minimum standards for public health system capacity, standards and strategies to address key public health problems, as well as principles for financing and governing the public health system. A summary of the distribution and utilization of the \$20 million appropriated to address urgent needs in local communities is also included.

The work completed thus far on the Public Health Improvement Plan is the product of the efforts of hundreds of individuals and organizations throughout Washington State. The effort has been headed by a broad-based steering committee comprised of representatives from labor, business, consumers, providers, public health experts, and elected officials.

Copies of the report have been forwarded to the House Health Committee and the Senate Health and Human Services Committee, as well as the Chief Clerk's Office.

Thank you for your careful consideration of this progress report. If you have any questions, please contact me or Doreen Garcia, Director of the Office of Policy and Planning, at 705-6067.

Sincerely,
Bobbie Berkowitz, PhD, RN

SUBSTITUTE HOUSE BILL NO. 1928, by House Committee on Transportation (originally sponsored by Representatives R. Fisher, Quall, Locke, Roland and Johanson)

Providing for more comprehensive regional transportation planning.

The bill was read the second time.

MOTIONS

On motion of Senator Vognild, the following Committee on Transportation amendment was adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. LEGISLATIVE INTENT. The legislature recognizes that recent legislative enactments have significantly added to the complexity of and to the potential for benefits from integrated transportation and comprehensive planning and that there is currently a unique opportunity for integration of local comprehensive plans and regional goals with state and local transportation programs. Further, approaches to transportation demand management initiatives and local and state transportation funding can be better coordinated to insure an efficient, effective transportation system that insures mobility and accessibility, and addresses community needs.

The legislature further finds that transportation and land use share a critical relationship that policy makers can better utilize to address regional strategies.

Prudent and cost-effective investment by the state and by local governments in highway facilities, local streets and arterials, rail facilities, marine facilities, nonmotorized transportation facilities and systems, public transit systems, transportation system management, transportation demand management, and the development of high capacity transit systems can help to effectively address mobility needs. Such investment can also enhance local and state objectives for effective comprehensive planning, economic development strategies, and clean air policies.

The legislature finds that addressing public initiatives regarding transportation and comprehensive planning necessitates an innovative approach. Improved integration between transportation and comprehensive planning among public institutions, particularly in the state's largest metropolitan areas is considered by the state to be imperative, and to have significant benefit to the citizens of Washington.

NEW SECTION. Sec. 2. ORGANIZATION'S DUTIES. Each regional transportation planning organization shall have the following duties:

(1) Prepare and periodically update a transportation strategy for the region. The strategy shall address alternative transportation modes and transportation demand management measures in regional corridors and shall recommend preferred transportation policies to implement adopted growth strategies. The strategy shall serve as a guide in preparation of the regional transportation plan.

(2) Prepare a regional transportation plan as set forth in RCW 47.80.030 that is consistent with county-wide planning policies if such have been adopted pursuant to chapter 36.70A RCW, with county, city, and town comprehensive plans, and state transportation plans.

(3) Certify by December 31, 1996, that the transportation elements of comprehensive plans adopted by counties, cities, and towns within the region reflect the guidelines and principles developed pursuant to section 3 of this act, are consistent with the adopted regional transportation plan, and, where appropriate, conform with the requirements of RCW 36.70A.070.

(4) Where appropriate, certify that county-wide planning policies adopted under RCW 36.70A.210 and the adopted regional transportation plan are consistent.

(5) Develop, in cooperation with the department of transportation, operators of public transportation services and local governments within the region, a six-year regional transportation improvement program which proposes regionally significant transportation projects and programs and transportation demand management measures. The regional transportation improvement program shall be based on the programs, projects, and transportation demand management measures of regional significance as identified by transit agencies, cities, and counties pursuant to RCW 35.58.2795, 35.77.010, and 36.81.121, respectively. The program shall include a priority list of projects and programs, project segments and programs, transportation demand management measures, and a specific financial plan that demonstrates how the transportation improvement program can be funded. The program shall be updated at least every two years for the ensuing six-year period.

(6) Designate a lead planning agency to coordinate preparation of the regional transportation plan and carry out the other responsibilities of the organization. The lead planning agency may be a regional organization, a component county, city, or town agency, or the appropriate Washington state department of transportation district office.

NEW SECTION. Sec. 3. COMPREHENSIVE PLANS, TRANSPORTATION GUIDELINES, AND PRINCIPLES. Each regional transportation planning organization, with cooperation from component cities, towns, and counties, shall establish guidelines and principles by July 1, 1995, that provide specific direction for the development and evaluation of the transportation elements of comprehensive plans, where such plans exist, and to assure that state, regional, and local goals for the development of transportation systems are met. These guidelines and principles shall address at a minimum the relationship between transportation systems and the following factors: Concentration of economic activity, residential density, development corridors and urban design that, where appropriate, supports high capacity transit, freight transportation and port access, development patterns that promote pedestrian and nonmotorized transportation, circulation systems, access to regional systems, effective and efficient highway systems, the ability of transportation facilities and programs to retain existing and attract new jobs and private investment and to accommodate growth in demand, transportation demand management, joint and mixed use developments, present and future railroad right-of-way corridor utilization, and intermodal connections.

Examples shall be published by the organization to assist local governments in interpreting and explaining the requirements of this section.

MOTION

On motion of Senator Vognild, the rules were suspended, Substitute House Bill No. 1928, as amended by the Senate, was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF INQUIRY

Senator Vognild: "Senator Drew, was it your intention in your amendment in the Committee on Transportation to require regional transportation planning organizations to institute a least cost planning methodology immediately, and to subject regional transportation plans that are currently existing or will be completed within 1994 to this requirement?"

Senator Drew: "I recognize that least cost planning methodologies for transportation are just being developed, will need to be assessed, and will take some time to validate. My intent with this amendment is for regional transportation planning organizations to incrementally implement these methodologies as they are developed, and to be at the forefront in developing and testing these least cost planning methodologies. It is not the intent of the amendment to invalidate existing regional transportation plans, nor to invalidate plans that have been under development for a number of years, and are scheduled to be adopted in 1994. Since regional transportation plans are to be reviewed at least every two years, there will be opportunity for least cost planning methodologies to be implemented for future plan updates. It is my intent that the Department of Transportation should recognize this intent in implementing this bill. Thank you, Senator Vognild."

The President declared the question before the Senate to be the roll call on the final passage of Substitute House Bill No. 1928, as amended by the Senate.

SECOND READING

SUBSTITUTE HOUSE BILL NO. 1122, by House Committee on Local Government (originally sponsored by Representatives Pruitt, Schmidt, Zellinsky, H. Myers, B. Thomas, Dunshee, Valle, R. Meyers, Basich, Brough and Quall)

Changing provisions relating to excess levies in park and recreation districts and service areas.

The bill was read the second time.

MOTIONS

On motion of Senator Fraser, the following Committee on Parks and Ecology amendment was adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The intent of the legislature by enacting sections 2 through 5 of chapter . . ., Laws of 1993 (this act) is:

(1) To allow park and recreation districts and park and recreation service areas to place more than one excess levy on the same ballot, allowing districts and service areas to give voters the opportunity to vote on separate issues, such as for operating and capital funds, at the same election, thereby reducing election costs; and

(2) To increase the amount a park and recreation district or park and recreation service area may collect through a six-year property tax levy from a maximum of fifteen cents per thousand dollars of assessed value to a maximum of sixty cents per thousand dollars of assessed value. This would allow for a more stable funding source for park and recreation districts and park and recreation service areas at a realistic tax rate and reduce the need for holding excess levy elections on an annual or biannual basis. In addition, it would level out the collection of taxes over each of six years rather than the practice now of collecting in one year to fund two years.

Sec. 2. RCW 36.69.140 and 1984 c 186 s 30 are each amended to read as follows:

(1) A park and recreation district shall have the power to levy ~~((an))~~ excess ~~((levy))~~ levies upon the property included within the district, in the manner prescribed by Article VII, section 2, of the Constitution and by RCW 84.52.052~~((--Such excess levy may be either))~~ for operating funds ~~((or for))~~, capital outlay funds, ~~((or for a))~~ and cumulative reserve funds.

(2) A park and recreation district may issue general obligation bonds for capital purposes only, not to exceed an amount, together with any outstanding nonvoter approved general obligation indebtedness equal to three-eighths of one percent of the value of the taxable property within such district, as the term "value of the taxable property" is defined in RCW 39.36.015. A park and recreation district may additionally issue general obligation bonds, together with outstanding voter approved and nonvoter approved general obligation indebtedness, equal to one and one-fourth percent of the value of the taxable property within the district, as the term "value of the taxable property" is defined in RCW 39.36.015, when such bonds are approved by three-fifths of the voters of the district at a general or special election called for that purpose and may provide for the retirement thereof by levies in excess of dollar rate limitations in accordance with the provisions of RCW 84.52.056. When authorized by the voters of the district, the district may issue interest bearing warrants payable out of and to the extent of excess levies authorized in the year in which the excess levy was approved. These elections shall be held as provided in RCW 39.36.050. Such bonds and warrants shall be issued and sold in accordance with chapter 39.46 RCW.

Sec. 3. RCW 36.69.145 and 1984 c 131 s 6 are each amended to read as follows:

(1) A park and recreation district may impose regular property tax levies in an amount equal to ~~((fifteen))~~ sixty cents or less per thousand dollars of assessed value of property in the district in each year for ~~((five))~~ six consecutive years when specifically authorized so to do by a majority of at least three-fifths of the voters thereof approving a proposition authorizing the levies submitted at a special election or at the regular election of the district, at which election the number of ~~((persons))~~ voters voting "yes" on the proposition shall constitute three-fifths of a number equal to forty per centum of the ~~((total votes cast))~~ number of voters voting in such district at the last preceding general election when the number of ~~((electors))~~ voters voting on the proposition does not exceed forty per centum of the ~~((total votes cast))~~ number of voters voting in such taxing district in the last preceding general election; or by a majority of at least three-fifths of the ~~((electors))~~ voters thereof voting on the proposition if the number of ~~((electors))~~ voters voting on the proposition exceeds forty per centum of the ~~((total votes cast))~~ number of voters voting in such taxing district in the last preceding general election. A proposition authorizing the tax levies shall not be submitted by a park and recreation district more than twice in any twelve-month period. Ballot propositions shall conform with RCW 29.30.111. In the event a park and recreation district is levying property taxes, which in combination with property taxes levied by other taxing districts subject to the one percent limitation provided for in Article 7, section 2, of our state Constitution result in taxes in excess of the limitation provided for in RCW 84.52.043, the park and recreation district property tax levy shall be reduced or eliminated before the property tax levies of other taxing districts are reduced.

(2) The limitation in RCW 84.55.010 shall not apply to the first levy imposed under this section following the approval of the levies by the voters under subsection (1) of this section.

Sec. 4. RCW 36.68.520 and 1984 c 186 s 29 and 1984 c 131 s 8 are each reenacted and amended to read as follows:

(1) A park and recreation service area shall have the power to levy ~~((an))~~ annual excess ~~((levy))~~ levies upon the property included within the service area if authorized at a special election called for the purpose in the manner prescribed by section 2, Article VII of the Constitution and by RCW 84.52.052~~((--~~

~~This excess levy may be either))~~ for operating funds, ~~((or for))~~ capital outlay funds, ~~((or for a))~~ and cumulative reserve funds.

(2) A park and recreation service area may issue general obligation bonds for capital purposes only, not to exceed an amount, together with any outstanding nonvoter approved general obligation indebtedness, equal to three-eighths of one percent of the value of the taxable property within the ~~((district))~~ service area. ~~((Such districts))~~ Additionally, a park and recreation service area may issue general obligation bonds, together with any outstanding voter approved and nonvoter approved general indebtedness, equal to two and one-half percent of the value of the taxable property within the ~~((district))~~ service area, as the term "value of the taxable property" is defined in RCW 39.36.015, when such bonds are approved by the voters of the ~~((district))~~ service area at a special election called for the purpose in accordance with the provisions of Article VIII, section 6 of the Constitution. Such bonds shall be issued and sold in accordance with chapter 39.46 RCW.

Bonds may be retired by excess property tax levies when such levies are approved by the voters at a special election in accordance with the provisions of Article VII, section 2 of the Constitution and RCW 84.52.056.

Any elections shall be held as provided in RCW 39.36.050.

Sec. 5. RCW 36.68.525 and 1984 c 131 s 9 are each amended to read as follows:

A park and recreation service area may impose regular property tax levies in an amount equal to ~~((fifteen))~~ sixty cents or less per thousand dollars of assessed value of property in the service area in each year for six consecutive years when specifically authorized so to do by a majority of at

least three-fifths of the voters thereof approving a proposition authorizing the levies submitted not more than twelve months prior to the date on which the proposed initial levy is to be made and not oftener than twice in such twelve month period, either at a special election or at the regular election of the service area, at which election the number of ~~((persons))~~ voters voting "yes" on the proposition shall constitute three-fifths of a number equal to forty percent of the ~~((total-votes-cast))~~ number of voters voting in the service area at the last preceding general election when the number of ~~((electors))~~ voters voting on the proposition does not exceed forty percent of the ~~((total-votes-cast))~~ number of voters voting in such taxing district in the last preceding general election; or by a majority of at least three-fifths of the ~~((electors))~~ voters thereof voting on the proposition if the number of ~~((electors))~~ voters voting on the proposition exceeds forty per centum of the ~~((total-votes-cast))~~ number of voters voting in such taxing district in the last preceding general election. A proposition authorizing such tax levies shall not be submitted by a park and recreation ~~((district))~~ service area more than twice in any twelve-month period. Ballot propositions shall conform with RCW 29.30.111. If a park and recreation service area is levying property taxes, which in combination with property taxes levied by other taxing districts result in taxes in excess of the nine-dollar and fifteen cents per thousand dollars of assessed valuation limitation provided for in RCW 84.52.043, the park and recreation service area property tax levy shall be reduced or eliminated before the property tax levies of other taxing districts are reduced."

On motion of Senator Fraser, the following title amendment was adopted:

On page 1, after line 18, insert the following:

"NEW SECTION. Sec. 2. A new section is added to chapter 90.03 RCW to read as follows:

In furtherance of the purpose of chapter . . . , Laws of 1994 (this act) to more expeditiously make decisions regarding water right applications as stated in section 1 of this act, the legislature finds that the administering agency will be better enabled to make decisions and be better able to assure conditions placed on permits and certificates are complied with if procedures for the regulation of waters and water rights are clearly established. The purpose of this section is to set forth the powers of the department to regulate the withdrawal or diversion of public waters and water or water rights related thereto including regulation based on dates of priority or other pertinent factors. Regulatory actions taken under this section shall be based on examination and determination by the department or the court, as applicable, of the various water rights involved according to the department's records and other records and pertinent facts. The powers set forth in this section may be exercised whether or not a general adjudication relating to the water rights involved has been conducted.

(1) In a regulatory situation (a) where a water right or all water rights proposed for regulation by the department, as well as any right or rights of a senior priority that the proposed regulation is designed to protect, is or are embodied in a certificate or certificates issued under RCW 90.03.240, 90.03.330, 90.38.040, 90.42.040, or 90.44.060 or a permit or permits issued pursuant to RCW 90.03.290 or 90.44.060; or (b) where a flow or level has been established by rule pursuant to chapter 90.22 or 90.54 RCW; or (c) where it appears to the department that public waters are being withdrawn without any right or other appropriate authority whatsoever, the department in its discretion is authorized to regulate the right or rights under either RCW 43.27A.190 or subsection (2) of this section.

(2) In a regulatory situation where one or more of the water rights proposed for regulation by the department, as well as any right or rights of a senior priority that the proposed regulation is designed to protect, is not or are not embodied in a permit or certificate as described in subsection (1) of this section, the department, as its sole and exclusive power to regulate, is authorized to bring an appropriate action at law or in equity, including seeking injunctive relief, as it may deem necessary. Where actions are brought in a state court, the actions shall be initiated in the superior court of the county where the point or points of diversion of the water right or rights proposed for regulation are located. If the points of diversion are located in more than one county, the department may bring the action in a county where a point of diversion is located.

(3) Nothing in this section authorizes the department to accomplish a general adjudication of water rights proceeding or the substantial equivalent of a general adjudication of water rights. The exclusive procedure for accomplishing a general adjudication of water rights is under RCW 90.03.110 through 90.03.245 or 90.44.220.

(4) Nothing in this section shall have an impact on RCW 90.14.130 or 90.14.200.

(5) This section does not in any way modify regulatory powers previously placed with the department except as provided in subsections (1) and (2) of this section."

Renumber the remaining sections consecutively and correct any internal references accordingly.

POINT OF ORDER

Senator Talmadge: "Mr. President, I rise to a point of order. I believe the amendment expands the scope and object of Second Substitute Senate Bill No. 6291. The bill that is before us deals with the issue of water permits, that is whether or not some one has the right to take water. For that right, the bill charges a permitting fee and many have said it is the central portion of the bill - the permitting fee portion of the bill. What the proposed amendment does is deal with the question of the Washington Supreme Court's decision in the Sinking Creek Case where the State Supreme Court said that these kinds of matters involving disputes about the extent of a water right or the existence of a water right had to be handled in an adjudication. It is something separate and apart from the question of water permits. The amendment that is before us essentially stood in a separate Senate Bill, Senate Bill No. 6536. It really deals with an issue of where there is a dispute about the existence and scope and extent of water rights and really doesn't deal with the issue of water rights permits, which is the central function in Second Substitute Senate Bill No. 6291. For that reason, I believe it expands the scope and object of the bill."

Further debate ensued.

There being no objection, the President deferred further consideration of Second Substitute Senate Bill No. 6291.

President Pro Tempore Wojahn assumed the Chair.

MOTIONS

On motion of Senator Moore, the following Committee on Labor and Commerce amendment was adopted:

Strike everything after the enacting clause and insert the following:

Sec. 1. RCW 72.09.100 and 1992 c 123 s 1 are each amended to read as follows:

It is the intent of the legislature to vest in the department the power to provide for a comprehensive inmate work program and to remove statutory and other restrictions which have limited work programs in the past. For purposes of establishing such a comprehensive program, the legislature recommends that the department consider adopting any or all, or any variation of, the following classes of work programs:

(1) CLASS I: FREE VENTURE INDUSTRIES. The employer model industries in this class shall be operated and managed in total or in part by any profit or nonprofit organization pursuant to an agreement between the organization and the department. The organization shall produce goods or services for sale to both the public and private sector.

The customer model industries in this class shall be operated and managed by the department to provide Washington state manufacturers or businesses with products or services currently produced or provided by out-of-state or foreign suppliers. The correctional industries board of directors shall review these proposed industries before the department contracts to provide such products or services. The review shall include an analysis of the potential impact of the proposed products and services on the Washington state business community and labor market.

The department of corrections shall supply appropriate security and custody services without charge to the participating firms.

Inmates who work in free venture industries shall do so at their own choice. They shall be paid a wage comparable to the wage paid for work of a similar nature in the locality in which the industry is located, as determined by the director of correctional industries. If the director cannot reasonably determine the comparable wage, then the pay shall not be less than the federal minimum wage.

An inmate who is employed in the class I program of correctional industries shall not be eligible for unemployment compensation benefits pursuant to any of the provisions of Title 50 RCW until released on parole or discharged.

(2) CLASS II: TAX REDUCTION INDUSTRIES. Industries in this class shall be state-owned and operated enterprises designed to reduce the costs for goods and services for tax-supported agencies and for nonprofit organizations. The industries selected for development within this class shall, as much as possible, match the available pool of inmate work skills and aptitudes with the work opportunities in the free community. The industries shall be closely patterned after private sector industries but with the objective of reducing public support costs rather than making a profit. The products and services of this industry, including purchased products and services necessary for a complete product line, may be sold to public agencies, to nonprofit organizations, and to private contractors when the goods purchased will be ultimately used by a public agency or a nonprofit organization. Clothing manufactured by an industry in this class may be donated to nonprofit organizations that provide clothing free of charge to low-income persons. Correctional industries products and services shall be reviewed by the correctional industries board of directors before offering such products and services for sale to private contractors. The board of directors shall conduct a yearly marketing review of the products and services offered under this subsection. Such review shall include an analysis of the potential impact of the proposed products and services on the Washington state business community. To avoid waste or spoilage and consequent loss to the state, when there is no public sector market for such goods, byproducts and surpluses of timber, agricultural, and animal husbandry enterprises may be sold to private persons, at private sale. Surplus byproducts and surpluses of timber, agricultural and animal husbandry enterprises that cannot be sold to public agencies or to private persons may be donated to nonprofit organizations. All sales of surplus products shall be carried out in accordance with rules prescribed by the secretary.

Security and custody services shall be provided without charge by the department of corrections.

Inmates working in this class of industries shall do so at their own choice and shall be paid for their work on a gratuity scale which shall not exceed the wage paid for work of a similar nature in the locality in which the industry is located and which is approved by the director of correctional industries.

(3) CLASS III: INSTITUTIONAL SUPPORT INDUSTRIES. Industries in this class shall be operated by the department of corrections. They shall be designed and managed to accomplish the following objectives:

(a) Whenever possible, to provide basic work training and experience so that the inmate will be able to qualify for better work both within correctional industries and the free community. It is not intended that an inmate's work within this class of industries should be his or her final and total work experience as an inmate.

(b) Whenever possible, to provide forty hours of work or work training per week.

(c) Whenever possible, to offset tax and other public support costs.

Supervising, management, and custody staff shall be employees of the department.

All able and eligible inmates who are assigned work and who are not working in other classes of industries shall work in this class.

Except for inmates who work in work training programs, inmates in this class shall be paid for their work in accordance with an inmate gratuity scale. The scale shall be adopted by the secretary of corrections.

(4) CLASS IV: COMMUNITY WORK INDUSTRIES. Industries in this class shall be operated by the department of corrections. They shall be designed and managed to provide services in the inmate's resident community at a reduced cost. The services shall be provided to public agencies, to persons who are poor or infirm, or to nonprofit organizations.

Inmates in this program shall reside in facilities owned by, contracted for, or licensed by the department of corrections. A unit of local government shall provide work supervision services without charge to the state and shall pay the inmate's wage.

The department of corrections shall reimburse participating units of local government for liability and workers compensation insurance costs.

Inmates who work in this class of industries shall do so at their own choice and shall receive a gratuity which shall not exceed the wage paid for work of a similar nature in the locality in which the industry is located.

(5) CLASS V: COMMUNITY SERVICE PROGRAMS. Programs in this class shall be subject to supervision by the department of corrections. The purpose of this class of industries is to enable an (offender) inmate, placed on community supervision, to work off all or part of a community service order as ordered by the sentencing court.

Employment shall be in a community service program operated by the state, local units of government, or a nonprofit agency.

To the extent that funds are specifically made available for such purposes, the department of corrections shall reimburse nonprofit agencies for workers compensation insurance costs."

MOTION

Senator Prentice moved that the following amendment be adopted:

On page 4, after line 7, insert the following:

Sec. 2. RCW 51.32.095 and 1988 c 161 s 9 are each amended to read as follows:

(1) One of the primary purposes of this title is to enable the injured worker to become employable at gainful employment. To this end, the department or self-insurers shall utilize the services of individuals and organizations, public or private, whose experience, training, and interests in vocational rehabilitation and retraining qualify them to lend expert assistance to the supervisor of industrial insurance in such programs of vocational rehabilitation as may be reasonable to make the worker employable consistent with his or her physical and mental status. Where, after evaluation and recommendation by such individuals or organizations (~~and prior to final evaluation of the worker's permanent disability~~) and in the sole opinion of the supervisor or supervisor's designee, whether or not medical treatment has been concluded, vocational rehabilitation is both necessary and likely to enable the injured worker to become employable at gainful employment, the supervisor or supervisor's designee may, in his or her sole discretion, pay or, if the employer is a self-insurer, direct the self-insurer to pay the cost as provided in subsection (3) of this section.

(2) When in the sole discretion of the supervisor or the supervisor's designee vocational rehabilitation is both necessary and likely to make the worker employable at gainful employment, then the following order of priorities shall be used:

- (a) Return to the previous job with the same employer;
- (b) Modification of the previous job with the same employer including transitional return to work;
- (c) A new job with the same employer in keeping with any limitations or restrictions;
- (d) Modification of a new job with the same employer including transitional return to work;
- (e) Modification of the previous job with a new employer;
- (f) A new job with a new employer or self-employment based upon transferable skills;
- (g) Modification of a new job with a new employer;
- (h) A new job with a new employer or self-employment involving on-the-job training;
- (i) Short-term retraining and job placement.

(3) Costs for vocational rehabilitation benefits allowed by the supervisor or supervisor's designee under subsection (1) of this section may include the cost of books, tuition, fees, supplies, equipment, (~~transportation, child or dependent care,~~) and other necessary expenses for any such

worker in an amount not to exceed (~~three thousand dollars~~) one hundred fifty-five percent of the average monthly wage in the state on the date of injury as computed under RCW 51.08.018 in any fifty-two week period, (~~and~~) the cost of continuing the temporary total disability compensation under RCW 51.32.090 while the worker is actively and successfully undergoing a formal program of vocational rehabilitation, and the cost of transportation and of child or dependent care related to the worker's participation in the vocational rehabilitation program. Such expenses may include training fees for on-the-job training and the cost of furnishing tools and other equipment necessary for self-employment or reemployment(~~(- PROVIDED, That such)~~). The department shall establish by rule allowable reimbursement rates for mileage and either child or dependent care, or both. The compensation or payment of retraining with job placement expenses authorized under this section may not be authorized for a period of more than fifty-two weeks(~~(- PROVIDED FURTHER, That such)~~). However, this period may, in the sole discretion of the supervisor after his or her review, be extended for an additional fifty-two weeks or portion thereof by written order of the supervisor.

In cases where the worker is required to reside away from his or her customary residence, the reasonable cost of board and lodging shall also be paid. (~~Said~~) The costs shall be chargeable to the employer's cost experience or shall be paid by the self-insurer as the case may be.

(4) The department shall establish criteria to monitor the quality and effectiveness of rehabilitation services provided by the individuals and organizations used under subsection (1) of this section. The state fund shall make referrals for vocational rehabilitation services based on these performance criteria. Organizations to which referrals are made may include administrative entities of service delivery areas as established under the federal job training partnership act if the entities meet minimum standards established by the department.

(5) The department shall engage in, where feasible and cost-effective, a cooperative program with the state employment security department to provide job placement services under this section.

(6) The benefits in this section shall be provided for the injured workers of self-insured employers. Self-insurers shall report both benefits provided and benefits denied under this section in the manner prescribed by the department by rule adopted under chapter 34.05 RCW. The director may, in his or her sole discretion and upon his or her own initiative or at any time that a dispute arises under this section, promptly make such inquiries as circumstances require and take such other action as he or she considers will properly determine the matter and protect the rights of the parties.

(7) The benefits provided for in this section are available to any otherwise eligible worker regardless of the date of industrial injury. However, claims shall not be reopened solely for vocational rehabilitation purposes.

NEW SECTION. Sec. 3. A new section is added to chapter 51.12 RCW to read as follows:

A person who provides rehabilitation for injured workers in the form of on-the-job training or transitional work under this title may elect coverage under this title for the injured workers receiving the services, regardless of whether the person providing the services pays wages to the workers for the on-the-job training or transitional work program. RCW 51.16.120(3) shall apply to the workers for whom coverage has been elected as authorized in this section. For the purposes of this section, "person" means an individual, firm, corporation, partnership, trust, legal representative, or other legal entity.

NEW SECTION. Sec. 4. Sections 2 and 3 of this act apply to vocational rehabilitation plans started on or after the effective date of this section."

POINT OF ORDER

Senator Amondson: "Mr. President, referring to Rule 66, I raise the scope and object of this amendment. This bill relates to claims closures with regards to self-insurers. The amendment that is proposed makes a number of changes relating to vocational rehabilitation services and industrial insurance and doesn't relate to claims closures. It does not deal with the claims closures of self-insurers. However, there is another bill, specifically House Bill No. 1653, which has undergone the committee process which refers to vocational rehabilitation and that bill currently is in Rules and that issue would be better decided on that piece of legislation."

Further debate ensued

There being no objection, the President deferred further consideration of Substitute House Bill No. 2614.

There being no objection, the President reverted the Senate to the fourth order of business.

RULING BY THE PRESIDENT

President Pritchard: "In ruling upon the point of order raised by Senator Talmadge, the President finds that Second Substitute Senate Bill No. 6291 is a measure which provides changes to the water rights and permitting processes of the Department of Ecology, makes changes to the basis for water rights transfers, changes to the requirements to obtain authorization for certain water right uses, and establishes fees.

"The amendment proposed by Senators Sutherland, Rasmussen, Newhouse, Amondson and Morton on page 1, after line 18, would place certain conditions on the Department of Ecology in dealing with water rights.

"The President, therefore, finds that the proposed amendment does not change the scope and object of the bill and the point of order is not well taken."

The amendment by Senators Sutherland, Rasmussen, Newhouse, Amondson and Morton on page 1, after line 18, to Second Substitute Senate Bill No. 6291 was ruled in order.

POINT OF INQUIRY

Senator Deccio: "Senator Talmadge, there was some concern in the caucus regarding this bill and I want to ask a couple of questions for the record. The first one is, this bill does not, in any way, nor do we intend the department to change the transfer of assets that are now in place?"

Senator Talmadge: "My understanding, Senator Deccio, is that it would not, only to the extent that federal law requires us to do so. So, it would be a very narrow circumstance in which there might be a change, but it is mandated by federal law in all the states."

Senator Deccio: "The other question was, how does this affect the surviving spouse in connection with this bill?"

Senator Talmadge: "My understanding again is that it should not--it affects surviving spouses in the sense that the exemption for surviving spouses is removed by the legislation, but there is a protection that is set forth in federal law for the surviving spouse with respect to assets so that there would be protection given to the surviving spouse by virtue of the federal standard, rather than a state standard on this subject. That's the way I understand it, at least."

Senator Deccio: "It isn't the intent of the Legislature that the department expands the language and interferes with that process other than what the federal government requires?"

Senator Talmadge: "Exactly, only to the extent that federal law mandates that we do that if we want to receive federal monies for Medicare and Medicaid programs."

Senator Deccio: "Thank you."

The President declared the question before the Senate to be the roll call on the final passage of House Bill No. 2492.

(1) An employer upon whom service of a wage assignment order has been made shall answer the order by sworn affidavit within twenty days after the date of service. The answer shall state whether the obligor is employed by or receives earnings or other remuneration from the employer, whether the employer will honor the wage assignment order, and whether there are either multiple child support or spousal maintenance attachments, or both, against the obligor.

(2) If the employer possesses any earnings or remuneration due and owing to the obligor, the earnings subject to the wage assignment order shall be withheld immediately upon receipt of the wage assignment order. The withheld earnings shall be delivered to the Washington state support registry or, if the wage assignment order is to satisfy a duty of spousal maintenance, to the addressee specified in the assignment at each regular pay interval.

(3) The employer shall continue to withhold the ordered amounts from nonexempt earnings or remuneration of the obligor until notified by:

(a) The court that the wage assignment has been modified or terminated; or

If the employer no longer employs the employee, the wage assignment order shall remain in effect for one year after the employee has left the employment or the employer has been in possession of any earnings or remuneration owed to the employee, whichever is later. The employer shall continue to hold the wage assignment order during that period. If the employee returns to the employer's employment during the one-year period the employer shall immediately begin to withhold the employee's earnings or remuneration according to the terms of the wage assignment order. If the employee has not returned within one year, the wage assignment shall cease to have effect at the expiration of the one-year period, unless the employer continues to owe remuneration for employment to the obligor(~~;~~).

(~~c) The court that has entered an order delaying, modifying, or terminating the wage assignment order and has approved an alternate payment plan as provided in RCW 26.23.050(2)).~~)

(4) The employer may deduct a processing fee from the remainder of the employee's earnings after withholding under the wage assignment order, even if the remainder is exempt under RCW 26.18.090. The processing fee may not exceed (a) ten dollars for the first disbursement made by the employer to the Washington state support registry; and (b) one dollar for each subsequent disbursement to the clerk.

(5) An order for wage assignment for support for a dependent child entered under this chapter shall have priority over any other wage assignment or garnishment, except for another wage assignment or garnishment for child support, or order to withhold and deliver under chapter 74.20A RCW. An order for wage assignment for spousal maintenance entered under this chapter shall have priority over any other wage assignment or garnishment, except for a wage assignment, garnishment, or order to withhold and deliver under chapter 74.20A RCW for support of a dependent child, and except for another wage assignment or garnishment for spousal maintenance.

(6) An employer who fails to withhold earnings as required by a wage assignment issued under this chapter may be held liable to the obligee for one hundred percent of the support or spousal maintenance debt, or the amount of support or spousal maintenance moneys that should have been withheld from the employee's earnings whichever is the lesser amount, if the employer:

(a) Fails or refuses, after being served with a wage assignment order, to deduct and promptly remit from the unpaid earnings the amounts of money required in the order;

(c) Is unwilling to comply with the other requirements of this section.

Liability may be established in superior court. Awards in superior court shall include costs, interest under RCW 19.52.020 and 4.56.110, and reasonable attorneys' fees.

(7) No employer who complies with a wage assignment issued under this chapter may be liable to the employee for wrongful withholding.

(8) No employer may discharge, discipline, or refuse to hire an employee because of the entry or service of a wage assignment issued and executed under this chapter. If an employer discharges, disciplines, or refuses to hire an employee in violation of this section, the employee or person shall have a cause of action against the employer. The employer shall be liable for double the amount of damages suffered as a result of the violation and for costs and reasonable attorneys' fees, and shall be subject to a civil penalty of not more than two thousand five hundred dollars for each violation. The employer may also be ordered to hire, rehire, or reinstate the aggrieved individual.

(9) For wage assignments payable to the Washington state support registry, an employer may combine amounts withheld from various employees into a single payment to the Washington state support registry, if the payment includes a listing of the amounts attributable to each employee and other information as required by the registry.

(10) An employer shall deliver a copy of the wage assignment order to the obligor as soon as is reasonably possible.

Sec. 6. RCW 26.18.140 and 1993 c 426 s 11 are each amended to read as follows:

(1) Except as provided in subsection (2) of this section, in a hearing to quash, modify, or terminate the wage assignment order, the court may grant relief only upon a showing that the wage assignment order causes extreme hardship or substantial injustice. Satisfaction by the obligor of all past due payments subsequent to the issuance of the wage assignment order is not grounds to quash, modify, or terminate the wage assignment order. If a wage assignment order has been in operation for twelve consecutive months and the obligor's support or spousal maintenance obligation is

current, the court may terminate the order upon motion of the obligor unless the obligee can show good cause as to why the wage assignment order should remain in effect.

(2) The court may enter an order delaying, modifying, or terminating the wage assignment order and order the obligor to make payments directly to the obligee ~~((if the court approves an alternate payment plan))~~ as provided in RCW 26.23.050(2).

Sec. 7. RCW 26.18.170 and 1993 c 426 s 14 are each amended to read as follows:

(1) Whenever an obligor parent who has been ordered to provide health insurance coverage for a dependent child fails to provide such coverage or lets it lapse, the department or the obligee may seek enforcement of the coverage order as provided under this section.

(2)(a) If the obligor parent's order to provide health insurance coverage contains language notifying the obligor that failure to provide such coverage or proof that such coverage is unavailable may result in direct enforcement of the order and orders payments through, or has been submitted to, the Washington state support registry for enforcement, then the department may, without further notice to the obligor, send a notice of enrollment to the obligor's employer or union by certified mail, return receipt requested.

The notice shall require the employer or union to enroll the child in the health insurance plan as provided in subsection (3) of this section.

(b) If the obligor parent's order to provide health insurance coverage does not order payments through, and has not been submitted to, the Washington state support registry for enforcement:

(i) The obligee may, without further notice to the obligor send a certified copy of the order requiring health insurance coverage to the obligor's employer or union by certified mail, return receipt requested; and

(ii) The obligee shall attach a notarized statement to the order declaring that the order is the latest order addressing coverage entered by the court and require the employer or union to enroll the child in the health insurance plan as provided in subsection (3) of this section.

(3) Upon receipt of an order that provides for health insurance coverage, or a notice of enrollment:

(a) The obligor's employer or union shall answer the party who sent the order or notice within thirty-five days and confirm that the child:

(i) Has been enrolled in the health insurance plan;

(ii) Will be enrolled in the next open enrollment period; or

(iii) Cannot be covered, stating the reasons why such coverage cannot be provided;

(b) The employer or union shall withhold any required premium from the obligor's income or wages;

(c) If more than one plan is offered by the employer or union, and each plan may be extended to cover the child, then the child shall be enrolled in the obligor's plan. If the obligor's plan does not provide coverage which is accessible to the child, the child shall be enrolled in the least expensive plan otherwise available to the obligor parent;

(d) The employer or union shall provide information about the name of the health insurance coverage provider or insurer and the extent of coverage available to the obligee or the department and shall make available any necessary claim forms or enrollment membership cards.

(4) If the order for coverage contains no language notifying the obligor that failure to provide health insurance coverage or proof that such coverage is unavailable may result in direct enforcement of the order, the department or the obligee may serve a written notice of intent to enforce the order on the obligor by certified mail, return receipt requested, or by personal service. If the obligor fails to provide written proof that such coverage has been obtained or applied for or fails to provide proof that such coverage is unavailable within twenty days of service of the notice, ~~((or within twenty days of coverage becoming available))~~ the department or the obligee may proceed to enforce the order directly as provided in subsection (2) of this section.

(5) If the obligor ordered to provide health insurance coverage elects to provide coverage that will not be accessible to the child because of geographic or other limitations when accessible coverage is otherwise available, the department or the obligee may serve a written notice of intent to purchase health insurance coverage on the obligor by certified mail, return receipt requested. The notice shall also specify the type and cost of coverage.

(6) If the department serves a notice under subsection (5) of this section the obligor shall, within twenty days of the date of service:

(a) File an application for an adjudicative proceeding; or

(b) Provide written proof to the department that the obligor has either applied for, or obtained, coverage accessible to the child.

(7) If the obligee serves a notice under subsection (5) of this section, within twenty days of the date of service the obligor shall provide written proof to the obligee that the obligor has either applied for, or obtained, coverage accessible to the child.

(8) If the obligor fails to respond to a notice served under subsection (5) of this section to the party who served the notice, the party who served the notice may purchase the health insurance coverage specified in the notice directly. The amount of the monthly premium shall be added to the support debt and be collectible without further notice. The amount of the monthly premium may be collected or accrued until the obligor provides proof of the required coverage.

(9) The signature of the obligee or of a department employee shall be a valid authorization to the coverage provider or insurer for purposes of processing a payment to the child's health services provider. An order for health insurance coverage shall operate as an assignment of all benefit rights to the obligee or to the child's health services provider, and in any claim against the coverage provider or insurer, the obligee or the obligee's assignee shall be subrogated to the rights of the obligor. Notwithstanding the provisions of this section regarding assignment of benefits, this section shall not require a health care service contractor authorized under chapter 48.44 RCW or a health maintenance organization authorized under chapter 48.46 RCW to deviate from their contractual provisions and restrictions regarding reimbursement for covered services. If the coverage is terminated, the employer shall mail a notice of termination to the department or the obligee at the obligee's last known address within thirty days of the termination date.

(10) This section shall not be construed to limit the right of the obligor or the obligee to bring an action in superior court at any time to enforce, modify, or clarify the original support order.

(11) Nothing in this section shall be construed to require a health maintenance organization, or health care service contractor, to extend coverage to a child who resides outside its service area.

(12) If an obligor fails to pay his or her portion of any deductible required under the health insurance coverage or fails to pay his or her portion of medical expenses incurred in excess of the coverage provided under the plan, the department or the obligee may enforce collection of the obligor's portion of the deductible or the additional medical expenses through a wage assignment order. The amount of the deductible or additional medical expenses shall be added to the support debt and be collectible without further notice if the obligor's share of the amount of the deductible or additional expenses is reduced to a sum certain in a court order.

Sec. 8. RCW 26.23.045 and 1989 c 360 s 33 are each amended to read as follows:

(1) The office of support enforcement, Washington state support registry, shall provide support enforcement services under the following circumstances:

(a) Whenever public assistance under RCW 74.20.330 is paid;

(b) Whenever a request for nonassistance support enforcement services under RCW 74.20.040(2) is received;

(c) Whenever a request for support enforcement services under RCW 74.20.040(3) is received;

(d) When a support order which contains language directing a responsible parent to make support payments to the Washington state support registry under RCW 26.23.050 is submitted;

(e) When a support order is forwarded to the Washington state support registry by the clerk of a superior court under RCW 26.23.050(5);

(f) When the obligor submits a support order or support payment to the Washington state support registry.

(2) The office of support enforcement shall continue to provide support enforcement services for so long as and under such conditions as the department shall establish by regulation or until the superior court enters an order ~~((approving an alternate payment plan))~~ removing the requirement that the obligor make support payments to the Washington state support registry as provided for in RCW 26.23.050~~((4))~~(2).

Sec. 9. RCW 26.23.050 and 1993 c 207 s 1 are each amended to read as follows:

(1) (Except as provided in subsection (2) of this section, the superior court shall include in all superior court orders which establish or modify a support obligation:

(a) A provision which orders and directs that the responsible parent make all support payments to the Washington state support registry;
(b) A statement that a notice of payroll deduction may be issued or other income withholding action under chapter 26.18 RCW or chapter 74.20A RCW may be taken, without further notice to the responsible parent at any time after entry of the court order, unless:

(i) One of the parties demonstrates, and the court finds, that there is good cause not to require immediate income withholding; or
(ii) The parties reach a written agreement that is approved by the court that provides for an alternate arrangement; and
(c) A statement that the receiving parent may be required to submit an accounting of how the support is being spent to benefit the child.
(2) The court may order the responsible parent to make payments directly to the person entitled to receive the payments or, for orders entered on or after July 1, 1990, direct that the issuance of a notice of payroll deduction or other income withholding actions be delayed until a support payment is past due if the court approves an alternate payment plan. The parties to the order must agree to such a plan and the plan must contain reasonable assurances that payments will be made in a regular and timely manner. The court may approve such a plan and modify or terminate the payroll deduction or other income withholding action at the time of entry of the order or at a later date upon motion and agreement of the parties. If the order directs payment to the person entitled to receive the payments instead of to the Washington state support registry, the order shall include a statement that the order may be submitted to the registry if a support payment is past due. If the order directs delayed issuance of the notice of payroll deduction or other income withholding action, the order shall include a statement that such action may be taken, without further notice, at any time after a support payment is past due. The provisions of this subsection do not apply if the department is providing public assistance under Title 74 RCW.) If the office of support enforcement is providing support enforcement services under RCW 26.23.045, or if a party is applying for support enforcement services by signing the application form on the bottom of the support order, the superior court shall include in all court orders that establish or modify a support obligation:

(a) A provision that orders and directs the responsible parent to make all support payments to the Washington state support registry;
(b) A statement that a notice of payroll deduction may be issued, or other income withholding action under chapter 26.18 or 74.20A RCW may be taken, without further notice to the responsible parent at any time after entry of the court order, unless:

(i) One of the parties demonstrates, and the court finds, that there is good cause not to require immediate income withholding and that withholding should be delayed until a payment is past due; or

(ii) The parties reach a written agreement that is approved by the court that provides for an alternate arrangement; and
(c) A statement that the receiving parent might be required to submit an accounting of how the support is being spent to benefit the child. As used in this subsection and subsection (3) of this section, "good cause not to require immediate income withholding" means a written determination of why implementing immediate wage withholding would not be in the child's best interests and, in modification cases, proof of timely payment of previously ordered support.

(2) In all other cases not under subsection (1) of this section, the court may order the responsible parent to make payments directly to the person entitled to receive the payments, to the Washington state support registry, or may order that payments be made in accordance with an alternate arrangement agreed upon by the parties.

(a) The superior court shall include in all orders under this subsection that establish or modify a support obligation:
(i) A statement that a notice of payroll deduction may be issued or other income withholding action under chapter 26.18 or 74.20A RCW may be taken, without further notice to the responsible parent at any time after entry of the court order, unless:

(A) One of the parties demonstrates, and the court finds, that there is good cause not to require immediate income withholding and that withholding should be delayed until a payment is past due; or

(B) The parties reach a written agreement that is approved by the court that provides for an alternate arrangement; and
(ii) A statement that the receiving parent may be required to submit an accounting of how the support is being spent to benefit the child. As used in this subsection, "good cause not to require immediate income withholding" is any reason that the court finds appropriate.

(b) The superior court may order immediate or delayed income withholding as follows:
(i) Immediate income withholding may be ordered if the responsible parent has earnings. If immediate income withholding is ordered under this subsection, all support payments shall be paid to the Washington state support registry. The superior court shall issue a mandatory wage assignment order as set forth in chapter 26.18 RCW when the support order is signed by the court. The parent entitled to receive the transfer payment is responsible for serving the employer with the order and for its enforcement as set forth in chapter 26.18 RCW.

(ii) If immediate income withholding is not ordered, the court shall require that income withholding be delayed until a payment is past due. The support order shall contain a statement that a notice of payroll deduction may be issued, or other income-withholding action under chapter 26.18 or 74.20A RCW may be taken, without further notice to the responsible parent, after a payment is past due.

(c) If a mandatory wage withholding order under chapter 26.18 RCW is issued under this subsection and the office of support enforcement provides support enforcement services under RCW 26.23.045, the existing wage withholding assignment is prospectively superseded upon the office of support enforcement's subsequent service of an income withholding notice.

(3) The office of administrative hearings and the department of social and health services shall require that all support obligations established as administrative orders include a provision which orders and directs that all payments be made to the Washington state support registry. All administrative orders shall also state that a notice of payroll deduction may be issued, or other income withholding action taken without further notice to the responsible parent at any time after entry of the order, unless:

(a) One of the parties demonstrates, and the presiding officer finds, that there is good cause not to require immediate income withholding;

or
(b) The parties reach a written agreement that is approved by the presiding officer that provides for an alternate agreement.

(4) If the support order does not include the provision ordering and directing that all payments be made to the Washington state support registry and a statement that a notice of payroll deduction may be issued if a support payment is past due or at any time after the entry of the order, the office of support enforcement may serve a notice on the responsible parent stating such requirements and authorizations. Service may be by personal service or any form of mail requiring a return receipt.

(5) Every support order shall state:

(j) That any parent owing a duty of child support shall be obligated to provide health insurance coverage for his or her child if coverage that can be extended to cover the child is or becomes available to that parent through employment or is union-related as provided under RCW 26.09.105;

The office of support enforcement shall reimburse the clerk for the reasonable costs of copying and sending copies of court orders to the registry at the reimbursement rate provided in Title IV-D of the social security act.

(8) Receipt of a support order by the registry or other action under this section on behalf of a person or persons who have not made a written application for support enforcement services to the office of support enforcement and who are not recipients of public assistance is deemed to be a request for ~~((support enforcement))~~ payment services ~~((under RCW 74.20.040 to the fullest extent permitted under federal law))~~ only.

(9) After the responsible parent has been ordered or notified to make payments to the Washington state support registry ~~((in accordance with subsection (1), (3), or (4) of))~~ under this section, the responsible parent shall be fully responsible for making all payments to the Washington state support registry and shall be subject to payroll deduction or other income withholding action. The responsible parent shall not be entitled to credit against a support obligation for any payments made to a person or agency other than to the Washington state support registry except as provided under RCW 74.20.101. Sec. 10. RCW 26.23.060 and 1991 c 367 s 40 are each amended to read as follows:

(1) The office of support enforcement may issue a notice of payroll deduction:

(a) As authorized by a support order that contains the income withholding notice provisions in RCW 26.23.050 or a substantially similar notice; or

(b) After service of a notice containing an income withholding provision under this chapter or chapter 74.20A RCW.

(2) The office of support enforcement shall serve a notice of payroll deduction upon a responsible parent's employer or upon the employment security department for the state in possession of or owing any benefits from the unemployment compensation fund to the responsible parent pursuant to Title 50 RCW by personal service or by any form of mail requiring a return receipt.

(3) Service of a notice of payroll deduction upon an employer or employment security department requires the employer or employment security department to immediately make a mandatory payroll deduction from the responsible parent's unpaid disposable earnings or unemployment compensation benefits. The employer or employment security department shall thereafter deduct each pay period the amount stated in the notice divided by the number of pay periods per month. The payroll deduction each pay period shall not exceed fifty percent of the responsible parent's disposable earnings.

(4) A notice of payroll deduction for support shall have priority over any wage assignment, garnishment, attachment, or other legal process.

(5) The notice of payroll deduction shall be in writing and include:

(a) The name and social security number of the responsible parent;

(b) The amount to be deducted from the responsible parent's disposable earnings each month, or alternate amounts and frequencies as may be necessary to facilitate processing of the payroll deduction;

(d) The address to which the payments are to be mailed or delivered.

(6) An informational copy of the notice of payroll deduction shall be mailed to the last known address of the responsible parent by regular mail.

(7) An employer or employment security department that receives a notice of payroll deduction shall make immediate deductions from the responsible parent's unpaid disposable earnings and remit proper amounts to the Washington state support registry on each date the responsible parent is due to be paid.

(8) An employer, or the employment security department, upon whom a notice of payroll deduction is served, shall make an answer to the office of support enforcement within twenty days after the date of service. The answer shall confirm compliance and institution of the payroll deduction or explain the circumstances if no payroll deduction is in effect. The answer shall also state whether the responsible parent is employed by or receives earnings from the employer or receives unemployment compensation benefits from the employment security department, whether the employer or employment security department anticipates paying earnings or ~~((employment [unemployment]))~~ unemployment compensation benefits and the amount of earnings. If the responsible parent is no longer employed, or receiving earnings from the employer, the answer shall state the present employer's name and address, if known. If the responsible parent is no longer receiving unemployment compensation benefits from the employment security department, the answer shall state the present employer's name and address, if known.

(9) The employer or employment security department may deduct a processing fee from the remainder of the responsible parent's earnings after withholding under the notice of payroll deduction, even if the remainder is exempt under RCW 26.18.090. The processing fee may not exceed:

(a) Ten dollars for the first disbursement made to the Washington state support registry; and (b) one dollar for each subsequent disbursement to the registry.

(10) The notice of payroll deduction shall remain in effect until released by the office of support enforcement, the court enters an order terminating the notice and approving an alternate ~~((payment plan))~~ arrangement under RCW 26.23.050(2), or one year has expired since the employer has employed the responsible parent or has been in possession of or owing any earnings to the responsible parent or the employment security department has been in possession of or owing any unemployment compensation benefits to the responsible parent.

Sec. 11. RCW 26.23.100 and 1991 c 367 s 42 are each amended to read as follows:

(1) The responsible parent subject to a payroll deduction pursuant to this chapter, may file a motion in superior court to quash, modify, or terminate the payroll deduction.

(2) Except as provided in subsections (4) and (5) of this section, the court may grant relief only upon a showing: (a) That the payroll deduction causes extreme hardship or substantial injustice; or (b) that the support payment was not past due under the terms of the order when the notice of payroll deduction was served on the employer.

(3) Satisfaction by the obligor of all past due payments subsequent to the issuance of the notice of payroll deduction is not grounds to quash, modify, or terminate the notice of payroll deduction.

(4) If a notice of payroll deduction has been in operation for twelve consecutive months and the obligor's support obligation is current, upon motion of the obligor, the court may order the office of support enforcement to terminate the payroll deduction, unless the obligee can show good cause as to why the payroll deduction should remain in effect.

(5) Subsection (2) of this section shall not prevent the court from ordering an alternative ~~((payment plan))~~ arrangement as provided under RCW 26.23.050(2).

Sec. 12. RCW 26.23.120 and 1989 c 360 s 17 and 1989 c 175 s 78 are each reenacted and amended to read as follows:

(1) Any information or records concerning individuals who owe a support obligation or for whom support enforcement services are being provided which are obtained or maintained by the Washington state support registry, the office of support enforcement, or under chapter 74.20 RCW shall be private and confidential and shall only be subject to public disclosure as provided in subsection (2) of this section.

(2) The secretary of the department of social and health services shall adopt rules which specify the individuals or agencies to whom this information and these records may be disclosed, the purposes for which the information may be disclosed, and the procedures to obtain the information or records. The rules adopted under this section shall provide for disclosure of the information and records, under appropriate circumstances, which shall include, but not be limited to:

(a) When authorized or required by federal statute or regulation governing the support enforcement program;

(b) To the person the subject of the records or information, unless the information is exempt from disclosure under RCW 42.17.310;

(c) To government agencies, whether state, local, or federal, and including federally recognized tribes, law enforcement agencies, prosecuting agencies, and the executive branch, if the ~~((records or information are needed))~~ disclosure is necessary for child support enforcement purposes;

(d) To the parties in a judicial or adjudicative proceeding upon a specific written finding by the presiding officer that the need for the information outweighs any reason for maintaining the privacy and confidentiality of the information or records;

(e) To private persons, federally recognized tribes, or organizations if the disclosure is necessary to permit private contracting parties to assist in the management and operation of the department;

(f) Disclosure of address and employment information to the parties to ~~((a court order for support))~~ an action for purposes relating to ~~((the establishment, enforcement, or modification of the))~~ a child support order;

(g) Disclosure of information or records when necessary to the efficient administration of the support enforcement program or to the performance of functions and responsibilities of the support registry and the office of support enforcement as set forth in state and federal statutes; or

(h) Disclosure of the information or records when authorized under RCW 74.04.060.

(3) Prior to disclosing the physical custodian's address under subsection ~~((4))~~ (2)(f) of this section, a notice shall be mailed, if appropriate under the circumstances, to the physical custodian at the physical custodian's last known address. The notice shall advise the physical custodian that a request for disclosure has been made and will be complied with unless the department receives a copy of a court order which enjoins the disclosure of the information or restricts or limits the requesting party's right to contact or visit the physical custodian or the child, or the custodial parent requests a hearing to contest the disclosure. The administrative law judge shall determine whether the address of the custodial parent should be disclosed based on the same standard as a claim of "good cause" as defined in 42 U.S.C. Sec. 602 (a)(26)(c).

(4) Nothing in this section shall be construed as limiting or restricting the effect of RCW 42.17.260~~((5))~~ (6). Nothing in this section shall be construed to prevent the disclosure of information and records if all details identifying an individual are deleted or the individual consents to the disclosure.

(5) It shall be unlawful for any person or agency in violation of this section to solicit, publish, disclose, receive, make use of, or to authorize, knowingly permit, participate in or acquiesce in the use of any lists of names for commercial or political purposes or the use of any information for purposes other than those purposes specified in this section. A violation of this section shall be a gross misdemeanor as provided in chapter 9A.20 RCW.

NEW SECTION. Sec. 13. A new section is added to chapter 26.26 RCW to read as follows:

In any action brought under this chapter, if the requirements of civil rule 55 are met, the superior court shall enter an order of default.

Sec. 14. RCW 26.26.040 and 1990 c 175 s 2 are each amended to read as follows:

(1) A man is presumed to be the natural father of a child for all intents and purposes if:

(a) He and the child's natural mother are or have been married to each other and the child is born during the marriage, or within three hundred days after the marriage is terminated by death, annulment, declaration of invalidity, divorce, or dissolution, or after a decree of separation is entered by a court; or

(b) Before the child's birth, he and the child's natural mother have attempted to marry each other by a marriage solemnized in apparent compliance with law, although the attempted marriage is or could be declared invalid, and the child is born within three hundred days after the termination of cohabitation;

(c) After the child's birth, he and the child's natural mother have married, or attempted to marry, each other by a marriage solemnized in apparent compliance with law, although the attempted marriage is or could be declared invalid, and

(i) He has acknowledged his paternity of the child in writing filed with the registrar of vital statistics,

(ii) With his consent, he is named as the child's father on the child's birth certificate, or

(iii) He is obligated to support the child under a written voluntary promise or by court order;

(d) While the child is under the age of majority, he receives the child into his home and openly holds out the child as his child;

(e) He acknowledges his paternity of the child pursuant to RCW 70.58.080 or in a writing filed with the state office of vital statistics, which shall promptly inform the mother of the filing of the acknowledgment, if she does not dispute the acknowledgment within a reasonable time after being informed thereof, in a writing filed with the registrar of vital statistics. In order to enforce rights of residential time, custody, and visitation, a man presumed to be the father as a result of filing a written acknowledgement must seek appropriate judicial orders under this title; ~~((or))~~

(f) The United States immigration and naturalization service made or accepted a determination that he was the father of the child at the time of the child's entry into the United States and he had the opportunity at the time of the child's entry into the United States to admit or deny the paternal relationship; or

(g) Genetic testing indicates a ninety-eight percent or greater probability of paternity.

(2) A presumption under this section may be rebutted in an appropriate action only by clear, cogent, and convincing evidence. If two or more presumptions arise which conflict with each other, the presumption which on the facts is founded on the weightier considerations of policy and logic controls. The presumption is rebutted by a court decree establishing paternity of the child by another man.

Sec. 15. RCW 26.26.100 and 1984 c 260 s 32 are each amended to read as follows:

(1) The court may, and upon request of a party shall, require the child, mother, and any alleged father who has been made a party to submit to blood tests or genetic tests of blood, tissues, or other bodily fluids. If an alleged father objects to a proposed order requiring him to submit to paternity blood or genetic tests, the court may require the party making the allegation of possible paternity to provide sworn testimony, by affidavit or otherwise, stating the facts upon which the allegation is based. The court shall order blood or genetic tests if it appears that a reasonable possibility exists that the requisite sexual contact occurred. The tests shall be performed by an expert in paternity blood or genetic testing appointed by the court. The expert's verified report identifying the blood or genetic characteristics observed is admissible in evidence in any hearing or trial in the parentage action, if (a) the alleged or presumed father has had the opportunity to gain information about the security, validity, and interpretation of the tests and the qualifications of any experts, and (b) the report is accompanied by an affidavit from the expert which describes the expert's qualifications as an expert and analyzes and interprets the results. Verified documentation of the chain of custody of the blood or genetic samples tested is admissible to establish the chain of custody. The court may consider published sources as aids to interpretation of the test results.

(2)(a) Any objection to genetic testing results must be made in writing and served upon the opposing party, within twenty days before any hearing at which such results may be introduced into evidence.

(b) If an objection is not made as provided in this subsection, the test results are admissible as evidence of paternity without the need for foundation testimony or other proof of authenticity or accuracy.

(3) The court, upon request by a party, shall order that additional blood or genetic tests be performed by the same or other experts qualified in paternity blood or genetic testing, if the party requesting additional tests advances the full costs of the additional testing within a reasonable time. The court may order additional testing without requiring that the requesting party advance the costs only if another party agrees to advance the costs or if the court finds, after hearing, that (a) the requesting party is indigent, and (b) the laboratory performing the initial tests recommends additional testing or there is substantial evidence to support a finding as to paternity contrary to the initial blood or genetic test results. The court may later order any other party to reimburse the party who advanced the costs of additional testing for all or a portion of the costs.

~~((3))~~ (4) In all cases, the court shall determine the number and qualifications of the experts.

Sec. 16. RCW 26.26.150 and 1987 c 435 s 28 are each amended to read as follows:

(1) If existence of the father and child relationship is declared, or paternity or a duty of support has been acknowledged or adjudicated under this chapter or under prior law, the obligation of the father may be enforced in the same or other proceedings by the mother, the child, the state of Washington, the public authority that has furnished or may furnish the reasonable expenses of pregnancy, confinement, education, support, or funeral, or by any other person, including a private agency, to the extent he has furnished or is furnishing these expenses.

(2) The court shall order support payments to be made to the Washington state support registry, or the person entitled to receive the payments under an alternate ~~((payment plan))~~ arrangement approved by the court as provided in RCW 26.23.050(2).

(3) All remedies for the enforcement of judgments apply.

Sec. 17. RCW 26.26.165 and 1989 c 416 s 4 are each amended to read as follows:

(1) In entering or modifying a support order under this chapter, the court shall require either or both parents to maintain or provide health insurance coverage for any dependent child as provided under RCW 26.09.105.

(2) This section shall not be construed to limit the authority of the court to enter or modify support orders containing provisions for payment of uninsured health expenses, health costs, or insurance premiums which are in addition to and not inconsistent with this section. "Health insurance coverage" as used in this section does not include medical assistance provided under chapter 74.09 RCW.

(3) A parent ordered to provide health insurance coverage shall provide proof of such coverage or proof that such coverage is unavailable within twenty days of the entry of the order ~~((-or within twenty days of the date such coverage becomes available.))~~ to:

(a) The physical custodian; or

(b) The department of social and health services if the parent has been notified or ordered to make support payments to the Washington state support registry.

(4) Every order requiring a parent to provide health insurance coverage shall be entered in compliance with RCW 26.23.050 and be subject to direct enforcement as provided under chapter 26.18 RCW.

NEW SECTION. Sec. 18. A new section is added to chapter 74.20 RCW to read as follows:

When the department appears or participates in an adjudicative proceeding under chapter 26.23 or 74.20A RCW it shall:

(1) Act in furtherance of the state's financial interest in the matter;

(2) Act in the best interests of the children of the state;

(3) Facilitate the resolution of the controversy; and

(4) Make independent recommendations to ensure the integrity and proper application of the law and process.

In the proceedings the department does not act on behalf or as an agent or representative of an individual.

Sec. 19. RCW 74.20A.056 and 1989 c 55 s 3 are each amended to read as follows:

(1) If an alleged father has signed an affidavit acknowledging paternity which has been filed with the state office of vital statistics, the office of support enforcement may serve a notice and finding of parental responsibility on him. Service of the notice shall be in the same manner as a summons in a civil action or by certified mail, return receipt requested. The notice shall have attached to it a copy of the affidavit or certification of birth record information advising of the existence of a filed affidavit, provided by the center for health statistics, and shall state that:

(a) The alleged father may file an application for an adjudicative proceeding at which he will be required to appear and show cause why the amount stated in the finding of financial responsibility as to support is incorrect and should not be ordered;

(b) An alleged father may request that a blood test be administered to determine whether such test would exclude him from being a natural parent and, if not excluded, may subsequently request that the office of support enforcement initiate an action in superior court to determine the existence of the parent-child relationship; and

(c) If the alleged father does not request that a blood test be administered or file an application for an adjudicative proceeding, the amount of support stated in the notice and finding of parental responsibility shall become final, subject only to a subsequent determination under RCW 26.26.060 that the parent-child relationship does not exist.

(2) An alleged father who objects to the amount of support requested in the notice may file an application for an adjudicative proceeding up to twenty days after the date the notice was served. An application for an adjudicative proceeding may be filed within one year of service of the notice and finding of parental responsibility without the necessity for a showing of good cause or upon a showing of good cause thereafter. An adjudicative proceeding under this section shall be pursuant to RCW 74.20A.055. The only issues shall be the amount of the accrued debt, the amount of the current and future support obligation, and the reimbursement of the costs of blood tests if advanced by the department.

(3) If the application for an adjudicative proceeding is filed within twenty days of service of the notice, collection action shall be stayed pending a final decision by the department. If no application is filed within twenty days:

(a) The amounts in the notice shall become final and the debt created therein shall be subject to collection action; and

(b) Any amounts so collected shall neither be refunded nor returned if the ~~((parent))~~ alleged father is later found not to be ~~((the father))~~ a responsible parent.

(4) An alleged father who denies being a responsible parent may request that a blood test be administered at any time. The request for testing shall be in writing and served on the office of support enforcement personally or by registered or certified mail. If a request for testing is made, the department shall arrange for the test and, pursuant to rules adopted by the department, may advance the cost of such testing. The department shall mail a copy of the test results by certified mail, return receipt requested, to the alleged father's last known address.

(5) If the test excludes the alleged father from being a natural parent, the office of support enforcement shall file a copy of the results with the state office of vital statistics and shall dismiss any pending administrative collection proceedings based upon the affidavit in issue. The state office of vital statistics shall remove the alleged father's name from the birth certificate.

(6) The alleged father may, within twenty days after the date of receipt of the test results, request the office of support enforcement to initiate an action under RCW 26.26.060 to determine the existence of the parent-child relationship. If the office of support enforcement initiates a superior court action at the request of the alleged father and the decision of the court is that the alleged father is a natural parent, the alleged father shall be liable for court costs incurred.

(7) If the alleged father does not request the office of support enforcement to initiate a superior court action, or if the alleged father fails to appear and cooperate with blood testing, the notice of parental responsibility shall become final for all intents and purposes and may be overturned only by a subsequent superior court order entered under RCW 26.26.060.

Sec. 20. RCW 74.20A.080 and 1989 c 360 s 10 and 1989 c 175 s 154 are each reenacted and amended to read as follows:

Implementing regulatory reform.

The bill was read the second time.

MOTION

Senator Moore moved that the following Committee on Labor and Commerce amendment be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 44.04 RCW to read as follows:

(1) The legislature recognizes that clear grants of rule-making authority are necessary for efficient and effective regulatory programs and accountability in governmental decision making, and that the agency granted rule-making authority should be the most competent to exercise jurisdiction over the subject matter. It is therefore the legislature's purpose to establish processes to ensure that existing and future laws provide clear and appropriate rule-making authority.

(2) The standing committees of the legislature shall selectively review legislative grants of rule-making authority to determine: (a) Whether the authority granted is clear and as intended; (b) whether the legislative intent is specific and includes defined objectives; and (c) whether the grant of authority is consistent with and not duplicative of grants to other agencies. In performing such a review, priority shall be given to grants of rule-making authority to the department of revenue, the employment security department, the department of ecology, the department of labor and industries, the department of health, the department of licensing, the department of fish and wildlife, the department of natural resources, and the insurance commissioner.

In those instances where the review identifies statutes that do not meet these criteria, corrective legislation shall be prepared that clarifies, narrows, or repeals the grants of rule-making authority.

(3) The senate and the house of representatives shall ensure that bills introduced that grant rule-making authority to state agencies contain clear and specific direction regarding the authority granted.

(4) Appropriate standing committees of the senate and house of representatives shall prepare a regulatory note as part of the bill report on each bill before the committee that grants rule-making authority to a state agency. The regulatory note shall identify if rule making is required or authorized by the bill, describe the nature of the rule making, identify agencies to which rule making is delegated, and identify any other agencies that have rule-making authority over the same activity or subject matter. However in the event of a conflict between the note and any section of the revised code of Washington or uncodified session law, the revised code or uncodified session law shall prevail and nothing in the note shall be considered to be part of the revised code or uncodified session law.

Sec. 2. RCW 34.05.370 and 1988 c 288 s 313 are each amended to read as follows:

(1) Each agency shall maintain an official rule-making file for each rule that it (a) proposes by publication in the state register, or (b) adopts. The file and materials incorporated by reference shall be available for public inspection.

(2) The agency rule-making file shall contain all of the following:

(a) Copies of all publications in the state register with respect to the rule or the proceeding upon which the rule is based;

(b) Copies of any portions of the agency's public rule-making docket containing entries relating to the rule or the proceeding on which the rule is based;

(c) All written petitions, requests, submissions, and comments received by the agency and all other written material regarded by the agency as important to adoption of the rule or the proceeding on which the rule is based;

(d) Any official transcript of oral presentations made in the proceeding on which the rule is based or, if not transcribed, any tape recording or stenographic record of them, and any memorandum prepared by a presiding official summarizing the contents of those presentations;

(e) The concise explanatory statement required by RCW 34.05.355;

(f) All petitions for exceptions to, amendment of, or repeal or suspension of, the rule; ~~((and))~~

(g) Citations to all data, factual information, studies, or reports on which the agency relies in the adoption of the rule, indicating where such data, factual information, studies, or reports are available for review by the public;

(h) The written summary and response required by RCW 34.05.325(6); and

(i) Any other material placed in the file by the agency.

(3) Internal agency documents are exempt from inclusion in the rule-making file under subsection (2) of this section to the extent they constitute preliminary drafts, notes, recommendations, and intra-agency memoranda in which opinions are expressed or policies formulated or recommended, except that a specific document is not exempt from inclusion when it is publicly cited by an agency in connection with its decision.

(4) Upon judicial review, the file required by this section constitutes the official agency rule-making file with respect to that rule. Unless otherwise required by another provision of law, the official agency rule-making file need not be the exclusive basis for agency action on that rule.

Sec. 3. RCW 34.05.350 and 1989 c 175 s 10 are each amended to read as follows:

(1) If an agency for good cause finds:

(a) That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest; or

(b) That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule, the agency may dispense with those requirements and adopt, amend, or repeal the rule on an emergency basis. The agency's finding and a concise statement of the reasons for its finding shall be incorporated in the order for adoption of the emergency rule or amendment filed with the office of the code reviser under RCW 34.05.380 and with the rules review committee.

(2) An emergency rule adopted under this section takes effect upon filing with the code reviser, unless a later date is specified in the order of adoption, and may not remain in effect for longer than one hundred twenty days after filing. Identical or substantially similar emergency rules may not be adopted in sequence unless conditions have changed or the agency has filed notice of its intent to adopt the rule as a permanent rule, and is actively undertaking the appropriate procedures to adopt the rule as a permanent rule. This section does not relieve any agency from compliance with any law requiring that its permanent rules be approved by designated persons or bodies before they become effective.

(3) Within seven days after the rule is adopted, any person may petition the governor requesting the immediate repeal of a rule adopted on an emergency basis by any agency headed by a nonelected official. Within seven days after submission of the petition, the governor shall either deny the petition in writing, stating his or her reasons for the denial, or order the immediate repeal of the rule. In ruling on the petition, the governor shall consider only whether the conditions in subsection (1) of this section were met such that adoption of the rule on an emergency basis was necessary. If the governor orders the repeal of the emergency rule, any agency action based on that rule is void. This subsection shall not be construed to prohibit adoption of any rule as a permanent rule.

(4) In adopting an emergency rule, the agency shall meet the same criteria as set forth in section 4 of this act or provide written justification for its failure to provide the information.

NEW SECTION. Sec. 4. A new section is added to chapter 34.05 RCW to read as follows:

(1) In addition to other requirements imposed by law, an agency may not adopt a rule the violation of which subjects a person to a penalty or administrative sanction; that establishes, alters, or revokes a qualification or standard for the issuance, suspension, or revocation of a license to pursue a commercial activity, trade, or profession; or that establishes, alters, or revokes a mandatory standard for a product or material that must be met before distribution or sale, unless:

(a) The rule is needed;

(b) The likely benefits of the rule justify its likely costs;

(c) There are no alternatives to the rule that would be as effective but less burdensome on those required to comply;

(d) Any fee imposed is reasonable and related to the cost of administration;

(e) The rule is clearly and simply stated, so that it can be understood by persons required to comply;

(f) The rule does not conflict with, or unless necessary to achieve the objectives of the statute upon which the rule is based, overlap, or duplicate any other provision of federal, state, or local law;

(g) The rule does not, unless necessary to achieve the objectives of the statute upon which the rule is based, differ from any provision of federal law regulating the same activity or subject matter; and

(h) The rule does not, unless necessary to achieve the objectives of the statute upon which the rule is based, differ in its application to public and private entities.

(2) Nothing in subsection (1) of this section shall be construed to change the existing standard of judicial review of agency rule making.

NEW SECTION. Sec. 5. A new section is added to chapter 34.05 RCW to read as follows:

(1) Upon adoption of any rule covered by section 4 of this act, an agency shall have a plan to: (a) Inform and educate affected persons about the rule; (b) promote voluntary compliance; (c) evaluate whether the rule achieves the purpose for which it was adopted; and (d) evaluate whether the rule avoids the taking of private property for public use unless no reasonable alternative exists that advances the public interest.

(2) Upon the adoption of a rule covered by section 4 of this act regulating the same activity or subject matter as another provision of federal, state, or local law, an agency shall do all of the following:

(a) Provide to the business assistance center a list citing by reference the other federal, state, and local laws that regulate the same activity or subject matter;

(b) Coordinate implementation and enforcement of the rule with the other federal, state, and local entities regulating the same activity or subject matter by doing one or more of the following: (i) Deferring to the other entity; (ii) designating a lead agency; or (iii) entering into an agreement with the other entities specifying how the agency and entities will coordinate implementation and enforcement. If the agency is unable to meet this requirement, the agency shall report to the legislature pursuant to (c) of this subsection;

(c) Report to the chief clerk of the house of representatives and the secretary of the senate regarding: (i) The existence of any overlap or duplication of other federal, state, or local laws, and any differences from federal law; (ii) legislation that may be necessary to eliminate or mitigate any adverse effects of such overlap, duplication, or difference; and (iii) legislation that may be necessary to facilitate coordination with appropriate governmental entities regulating the same activity or subject matter.

(3) For purposes of this section, "taking" means totally destroying or rendering valueless private property, damaging by a public use in connection with an actual taking by the exercise of eminent domain, or when there is interference with use of property to owner's prejudice, with resulting diminution in value. Police action to prevent or abate actual damage to another is not considered a taking.

Sec. 6. RCW 34.05.330 and 1988 c 288 s 305 are each amended to read as follows:

(1) Any person may petition an agency requesting the adoption, amendment, or repeal of any rule. Each agency may prescribe by rule the form for such petitions and the procedure for their submission, consideration, and disposition. Within sixty days after submission of a petition, the agency shall ~~((4))~~ (a) either deny the petition in writing, stating its reasons for the denial, or ~~((2))~~ (b) initiate rule-making proceedings in accordance with this chapter.

(2) If an agency headed by a nonelected official denies a petition to repeal or amend a rule submitted under subsection (1) of this section, the petitioner, within thirty days of the denial, may appeal the denial to the governor. The petitioner may file notice of the appeal with the code reviser for publication in the Washington State Register. Within sixty days after receiving the appeal, the governor shall either reject the appeal in writing,

stating his or her reasons for the rejection, or order the agency to initiate rule-making proceedings in accordance with this chapter. In deciding on the appeal, among other factors the governor should consider:

(a) Whether the agency complied with sections 4 and 5 of this act;

(b) Whether the agency has established an adequate internal rules review process, allowing public participation, and has subjected the rule to that review;

(c) The nature of complaints and other comments received from the public concerning the rule;

(d) Whether the rule conflicts with, overlaps, or duplicates any other provision of federal, state, or local law and, if so, whether the agency has taken steps to mitigate any adverse effects of the conflict, overlap, or duplication;

(e) The extent to which technology, social or economic conditions, or other relevant factors have changed since the rule was adopted, and whether, given those changes, the rule continues to be necessary and appropriate;

(f) Whether the statute that the rule implements has been amended or repealed by the legislature, or ruled invalid by a court.

(3) The governor's office shall provide a copy of the governor's ruling under subsection (2) of this section to anyone upon request.

Sec. 7. RCW 34.05.325 and 1992 c 57 s 1 are each amended to read as follows:

(1) The agency shall make a good faith effort to insure that the information on the proposed rule published pursuant to RCW 34.05.320 accurately reflects the rule to be presented and considered at the oral hearing on the rule. Written comment about a proposed rule, including supporting data, shall be accepted by an agency if received no later than the time and date specified in the notice, or such later time and date established at the rule-making hearing.

(2) The agency shall provide an opportunity for oral comment to be received by the agency in a rule-making hearing.

(3) If the agency possesses equipment capable of receiving telefacsimile transmissions or recorded telephonic communications, the agency may provide in its notice of hearing filed under RCW 34.05.320 that interested parties may comment on proposed rules by these means. If the agency chooses to receive comments by these means, the notice of hearing shall provide instructions for making such comments, including, but not limited to, appropriate telephone numbers to be used; the date and time by which comments must be received; required methods to verify the receipt and authenticity of the comments; and any limitations on the number of pages for telefacsimile transmission comments and on the minutes of tape recorded comments. The agency shall accept comments received by these means for inclusion in the official record if the comments are made in accordance with the agency's instructions.

(4) The agency head, a member of the agency head, or a presiding officer designated by the agency head shall preside at the rule-making hearing. Rule-making hearings shall be open to the public. The agency shall cause a record to be made of the hearing by stenographic, mechanical, or electronic means. Unless the agency head presides or is present at substantially all the hearings, the presiding official shall prepare a memorandum for consideration by the agency head, summarizing the contents of the presentations made at the rule-making hearing. The summarizing memorandum is a public document and shall be made available to any person in accordance with chapter 42.17 RCW.

(5) Rule-making hearings are legislative in character and shall be reasonably conducted by the presiding official to afford interested persons the opportunity to present comment. Rule-making hearings may be continued to a later time and place established on the record without publication of further notice under RCW 34.05.320.

(6) Before the adoption of a final rule, an agency shall prepare a written summary of all comments received regarding the proposed rule, and a substantive response to the comments by category or subject matter, indicating how the final rule reflects agency consideration of the comments, or why it fails to do so. The agency shall provide the written summary and response to any person upon request or from whom the agency received comment.

Sec. 8. RCW 34.05.355 and 1988 c 288 s 310 are each amended to read as follows:

~~((4))~~ At the time it files an adopted rule with the code reviser or within thirty days thereafter, an agency shall place into the rule-making file maintained under RCW 34.05.370 a concise explanatory statement about the rule, identifying ~~((a))~~ (1) the agency's reasons for adopting the rule, and ~~((b))~~ (2) a description of any difference between the text of the proposed rule as published in the register and the text of the rule as adopted, other than editing changes, stating the reasons for change.

~~((2) Upon the request of any interested person within thirty days after adoption of a rule, the agency shall issue a concise statement of the principal reasons for overruling the considerations urged against its adoption.)~~

NEW SECTION. Sec. 9. A new section is added to chapter 19.85 RCW to read as follows:

The legislature finds that administrative rules adopted by state agencies can have a disproportionate impact on the state's small businesses because of the size of those businesses. This disproportionate impact reduces competition, innovation, employment, and new employment opportunities, and threatens the very existence of some small businesses. The legislature therefore enacts the regulatory fairness act, chapter . . . , Laws of 1994 (this act), with the intent of reducing the disproportionate impact of state administrative rules on small business.

Sec. 10. RCW 19.85.020 and 1993 c 280 s 34 are each amended to read as follows:

Unless the context clearly indicates otherwise, the definitions in this section apply through this chapter.

(1) "Small business" means any business entity, including a sole proprietorship, corporation, partnership, or other legal entity, that is owned and operated independently from all other businesses, that has the purpose of making a profit, and that has fifty or fewer employees.

(2) "Small business economic impact statement" means a statement meeting the requirements of RCW 19.85.040 prepared by a state agency pursuant to RCW 19.85.030.

(3) "Industry" means all of the businesses in this state in any one ~~((three-digit))~~ four-digit standard industrial classification as published by the United States department of commerce.

(4) "Taking" means totally destroying or rendering valueless private property, damaging by a public use in connection with an actual taking by the exercise of eminent domain, or when there is interference with use of property to owner's prejudice, with resulting diminution in value. Police action to prevent or abate actual damage to another is not considered a taking.

Sec. 11. RCW 19.85.030 and 1989 c 374 s 2 and 1989 c 175 s 72 are each reenacted and amended to read as follows:

~~((In the adoption of any rule pursuant to RCW 34.05.320 that will have an economic impact on more than twenty percent of all industries, or more than ten percent of any one industry, the adopting agency:~~

~~(1) Shall reduce the economic impact of the rule on small business by doing one or more of the following when it is legal and feasible in meeting the stated objective of the statutes which are the basis of the proposed rule:~~

~~(a) Establish differing compliance or reporting requirements or timetables for small businesses;~~

~~(b) Clarify, consolidate, or simplify the compliance and reporting requirements under the rule for small businesses;~~

~~(c) Establish performance rather than design standards;~~

~~(d) Exempt small businesses from any or all requirements of the rule;~~

~~(2) Shall prepare a small business economic impact statement in accordance with RCW 19.85.040 and file such statement with the code reviser along with the notice required under RCW 34.05.320;~~

~~((3)) (1) In the adoption of a rule under RCW 34.05.320, an agency shall prepare a small business economic impact statement: (a) If the proposed rule will impose more than minor costs on businesses in an industry; or (b) if requested to do so by a majority vote of the joint administrative rules review committee within thirty days after notice of the proposed rule is published in the state register.~~

An agency shall prepare the small business economic impact statement in accordance with RCW 19.85.040, and file it with the code reviser along with the notice required under RCW 34.05.320. An agency shall file a statement prepared at the request of the joint administrative rules review committee with the code reviser upon its completion before the adoption of the rule. An agency shall provide a copy of the small business economic impact statement to any person requesting it.

An agency may request assistance from the business assistance center in the preparation of the small business economic impact statement.

(2) A proposed rule will impose more than minor costs on businesses in an industry when the costs imposed will equal or exceed 0.1 percent of the average yearly profit for businesses in that industry. The business assistance center shall develop guidelines to assist agencies in determining whether a proposed rule will impose such costs. The business assistance center may review an agency determination that a proposed rule will not impose such costs, and shall advise the joint administrative rules review committee on disputes involving agency determinations under this section.

(3) Based upon the extent of disproportionate impact on small business identified in the statement prepared under RCW 19.85.040, the agency shall, unless reasonable justification exists to do otherwise, reduce the costs imposed by the rule on small businesses. Methods to reduce the costs on small businesses may include, but are not limited to:

- (a) Reducing, modifying, or eliminating substantive regulatory requirements;
- (b) Establishing performance rather than design standards;
- (c) Simplifying, reducing, or eliminating recordkeeping and reporting requirements;
- (d) Reducing the frequency of inspections;
- (e) Delaying compliance timetables; or
- (f) Reducing or modifying fine schedules for noncompliance.

Sec. 12. RCW 19.85.040 and 1989 c 374 s 3 and 1989 c 175 s 73 are each reenacted and amended to read as follows:

(1) A small business economic impact statement must include a brief description of the reporting, recordkeeping, and other compliance requirements of the proposed rule, and the kinds of professional services that a small business is likely to need in order to comply with such requirements. ~~((A small business economic impact statement))~~ It shall analyze ~~((based on existing data,))~~ the costs of compliance for businesses required to comply with the ~~((provisions of a))~~ proposed rule adopted pursuant to RCW 34.05.320, including costs of equipment, supplies, labor, ~~lost sales or revenue,~~ and increased administrative costs ~~((, and)).~~ To determine whether the proposed rule will have a disproportionate impact on small businesses, the impact statement must compare ~~((to the greatest extent possible))~~ the cost of compliance for small business with the cost of compliance for the ten percent of ~~((firms which))~~ businesses that are the largest businesses required to comply with the proposed ~~((new or amendatory))~~ rules ~~((The small business economic impact statement shall use))~~ using one or more of the following as a basis for comparing costs:

- ~~((1))~~ (a) Cost per employee;
- ~~((2))~~ (b) Cost per hour of labor; or
- ~~((3))~~ (c) Cost per one hundred dollars of sales;
- (4) Any combination of (1), (2), or (3)).

(2) A small business economic impact statement must also include:

(a) A statement of the steps taken by the agency to reduce the costs of the rule on small businesses as required by RCW 19.85.030(3), or reasonable justification for not doing so, addressing, at a minimum, each of the options listed in RCW 19.85.030(3);

(b) A description of how the agency will involve small businesses in the development of the rule; and

(c) A list of industries that will be required to comply with the rule.

(3) To obtain information for purposes of this section, an agency may survey a representative sample of affected businesses or trade associations and should, whenever possible, appoint a committee under RCW 34.05.310(2) to assist in the accurate assessment of the costs of a proposed rule, and the means to reduce the costs imposed on small business.

NEW SECTION. Sec. 13. A new section is added to chapter 19.85 RCW to read as follows:

Unless so requested by a majority vote of the joint administrative rules review committee under RCW 19.85.030, an agency is not required to comply with this chapter when adopting any rule solely for the purpose of conformity or compliance, or both, with federal law. In lieu of the statement required under RCW 19.85.030, the agency shall file a statement citing, with specificity, the federal law with which the rule is being adopted to conform or comply, and describing the consequences to the state if the rule is not adopted.

Sec. 14. RCW 34.05.320 and 1992 c 197 s 8 are each amended to read as follows:

(1) At least twenty days before the rule-making hearing at which the agency receives public comment regarding adoption of a rule, the agency shall cause notice of the hearing to be published in the state register. The publication constitutes the proposal of a rule. The notice shall include all of the following:

- (a) A title, a description of the rule's purpose, and any other information which may be of assistance in identifying the rule or its purpose;
- (b) Citations of the statutory authority for adopting the rule and the specific statute the rule is intended to implement;
- (c) A summary of the rule and a statement of the reasons supporting the proposed action;
- (d) The agency personnel, with their office location and telephone number, who are responsible for the drafting, implementation, and enforcement of the rule;
- (e) The name of the person or organization, whether private, public, or governmental, proposing the rule;
- (f) Agency comments or recommendations, if any, regarding statutory language, implementation, enforcement, and fiscal matters pertaining to the rule;
- (g) Whether the rule is necessary as the result of federal law or federal or state court action, and if so, a copy of such law or court decision shall be attached to the purpose statement;
- (h) When, where, and how persons may present their views on the proposed rule;
- (i) The date on which the agency intends to adopt the rule;
- (j) A short explanation of the rule, its purpose, and anticipated effects, including in the case of a proposal that would modify existing rules, a short description of the changes the proposal would make; and
- (k) A statement indicating how a person can obtain a copy of the small business economic impact statement ~~((if applicable, and a statement of steps taken to minimize the economic impact in accordance with RCW 19.85.030))~~ prepared under chapter 19.85 RCW, or an explanation for why the agency did not prepare the statement.

(2) Upon filing notice of the proposed rule with the code reviser, the adopting agency shall have copies of the notice on file and available for public inspection and shall forward three copies of the notice to the rules review committee.

(3) No later than three days after its publication in the state register, the agency shall cause a copy of the notice of proposed rule adoption to be mailed to each person who has made a request to the agency for a mailed copy of such notices. An agency may charge for the actual cost of providing individual mailed copies of these notices.

(4) In addition to the notice required by subsections (1) and (2) of this section, an institution of higher education shall cause the notice to be published in the campus or standard newspaper of the institution at least seven days before the rule-making hearing.

NEW SECTION. Sec. 15. A new section is added to chapter 43.31 RCW to read as follows:

To assist state agencies in reducing regulatory costs to small business and to promote greater public participation in the rule-making process, the business assistance center shall:

(1) Develop agency guidelines for the preparation of a small business economic impact statement and compliance with chapter 19.85 RCW;

(2) Review and provide comments to agencies on draft or final small business economic impact statements;

(3) Advise the joint administrative rules review committee on whether an agency reasonably assessed the costs of a proposed rule and reduced the costs for small business as required by chapter 19.85 RCW; and

(4) Organize and chair a state rules coordinating committee, consisting of agency rules coordinators and interested members of the public, to develop an education and training program that includes, among other components, a component that addresses voluntary compliance, for agency personnel responsible for rule development and implementation. The business assistance center shall submit recommendations to the department of personnel for an administrative procedures training program that is based on the sharing of interagency resources.

NEW SECTION. Sec. 16. The following acts or parts of acts are each repealed:

- (1) RCW 19.85.010 and 1982 c 6 s 1;
- (2) RCW 19.85.060 and 1989 c 374 s 5; and
- (3) RCW 19.85.080 and 1992 c 197 s 2.

Sec. 17. RCW 34.05.620 and 1988 c 288 s 602 are each amended to read as follows:

Whenever a majority of the members of the rules review committee determines that a proposed rule is not within the intent of the legislature as expressed in the statute which the rule implements, or that an agency may not be adopting a proposed rule in accordance with all applicable provisions of law, including section 4 of this act and chapter 19.85 RCW, the committee shall give the affected agency written notice of its decision. The notice shall be given at least seven days prior to any hearing scheduled for consideration of or adoption of the proposed rule pursuant to RCW 34.05.320. The notice shall include a statement of the review committee's findings and the reasons therefor. When the agency holds a hearing on the proposed rule, the agency shall consider the review committee's decision.

Sec. 18. RCW 34.05.630 and 1993 c 277 s 1 are each amended to read as follows:

- (1) All rules required to be filed pursuant to RCW 34.05.380, and emergency rules adopted pursuant to RCW 34.05.350, are subject to selective review by the legislature.
- (2) The rules review committee may review an agency's use of policy statements, guidelines, and issuances that are of general applicability, or their equivalents to determine whether or not an agency has failed to adopt a rule or whether they are within the intent of the legislature as expressed by the governing statute.
- (3) If the rules review committee finds by a majority vote of its members: (a) That an existing rule is not within the intent of the legislature as expressed by the statute which the rule implements, (b) that the rule has not been adopted in accordance with all applicable provisions of law, including section 4 of this act and chapter 19.85 RCW, (c) that an agency is using a policy statement, guideline, or issuance in place of a rule, or (d) that the policy statement, guideline, or issuance is outside of legislative intent, the agency affected shall be notified of such finding and the reasons therefor. Within thirty days of the receipt of the rules review committee's notice, the agency shall file notice of a hearing on the rules review committee's finding with the code reviser and mail notice to all persons who have made timely request of the agency for advance notice of its rule-making proceedings as provided in RCW 34.05.320. The agency's notice shall include the rules review committee's findings and reasons therefor, and shall be published in the Washington state register in accordance with the provisions of chapter 34.08 RCW.

(4) The agency shall consider fully all written and oral submissions regarding (a) whether the rule in question is within the intent of the legislature as expressed by the statute which the rule implements, (b) whether the rule was adopted in accordance with all applicable provisions of law, including section 4 of this act and chapter 19.85 RCW, (c) whether the agency is using a policy statement, guideline, or issuance in place of a rule, or (d) whether the policy statement, guideline, or issuance is within the legislative intent.

Sec. 19. RCW 34.05.640 and 1993 c 277 s 2 are each amended to read as follows:

(1) Within seven days of an agency hearing held after notification of the agency by the rules review committee pursuant to RCW 34.05.620 or 34.05.630, the affected agency shall notify the committee of its action on a proposed or existing rule to which the committee objected or on a committee finding of the agency's failure to adopt rules. If the rules review committee determines, by a majority vote of its members, that the agency has failed to provide for the required hearings or notice of its action to the committee, the committee may file notice of its objections, together with a concise statement of the reasons therefor, with the code reviser within thirty days of such determination.

(2) If the rules review committee finds, by a majority vote of its members: (a) That the proposed or existing rule in question has not been modified, amended, withdrawn, or repealed by the agency so as to conform with the intent of the legislature, or (b) that an existing rule was not adopted in accordance with all applicable provisions of law, including section 4 of this act and chapter 19.85 RCW, or (c) that the agency is using a policy statement, guideline, or issuance in place of a rule, or that the policy statement, guideline, or issuance is outside of the legislative intent, the rules review committee may, within thirty days from notification by the agency of its action, file with the code reviser notice of its objections together with a concise statement of the reasons therefor. Such notice and statement shall also be provided to the agency by the rules review committee.

(3) If the rules review committee makes an adverse finding under subsection (2) of this section, the committee may, by a two-thirds vote of its members, recommend suspension of an existing rule. Within seven days of such vote the committee shall transmit to the appropriate standing committees of the legislature, the governor, the code reviser, and the agency written notice of its objection and recommended suspension and the concise reasons therefor. Within thirty days of receipt of the notice, the governor shall transmit to the committee, the code reviser, and the agency written approval or disapproval of the recommended suspension. If the suspension is approved by the governor, it is effective from the date of that approval and continues until ninety days after the expiration of the next regular legislative session.

(4) If the governor disapproves the recommendation of the rules review committee to suspend the rule, the transmittal of such decision, along with the findings of the rules review committee, shall be treated by the agency as a petition by the rules review committee to repeal the rule under RCW 34.05.330.

(5) The code reviser shall publish transmittals from the rules review committee or the governor issued pursuant to subsection (1), (2), or (3) of this section in the Washington state register and shall publish in the next supplement and compilation of the Washington Administrative Code a reference to the committee's objection or recommended suspension and the governor's action on it and to the issue of the Washington state register in which the full text thereof appears.

~~((6))~~ (6) An election by the rules review committee to recommend suspension of a rule, whether or not the suspension is approved by the governor, establishes a presumption in any subsequent judicial review of the rule that the rule is invalid. The burden of demonstrating the rule's validity is then on the adopting agency.

(7) The reference shall be removed from a rule published in the Washington Administrative Code if a subsequent adjudicatory proceeding determines that the rule is within the intent of the legislature or was adopted in accordance with all applicable laws, whichever was the objection of the rules review committee.

Sec. 20. RCW 34.05.660 and 1988 c 288 s 606 are each amended to read as follows:

Except as provided in RCW 34.05.640(6), it is the express policy of the legislature that establishment of procedures for review of administrative rules by the legislature and the notice of objection required by RCW 34.05.630(2) and 34.05.640(2) in no way serves to establish a presumption as to the legality or constitutionality of a rule in any subsequent judicial proceedings interpreting such rules.

NEW SECTION. Sec. 21. The following acts or parts of acts are each repealed:

- (1) RCW 34.05.670 and 1992 c 197 s 3; and
- (2) RCW 34.05.680 and 1992 c 197 s 4.

NEW SECTION. Sec. 22. The department of community, trade, and economic development shall develop a standardized format for reporting information that is commonly required from the public by state and local government agencies for permits, licenses, approvals, and services. In the development of the format, the department shall work in conjunction with representatives from state and local government agencies and representatives of the business community.

The department shall submit the standardized format together with recommendations for implementation to the legislature by December 31, 1994.

NEW SECTION. Sec. 23. A new section is added to chapter 34.05 RCW to read as follows:

(1) This section applies only to the department of revenue, the employment security department, the department of ecology, the department of labor and industries, the department of health, the department of licensing, and the department of fish and wildlife.

(2) An agency listed in subsection (1) of this section may immediately impose a penalty otherwise provided for by law for a violation of a statute or administrative rule by a business entity only if the entity on which the penalty will be imposed has: (a) Previously violated the same statute or rule; or (b) willfully violated the statute or rule. Where a penalty is otherwise provided, but may not be imposed under this subsection, the agency shall issue a statement of deficiency.

(3) A statement of deficiency shall specify: (a) The particular rule violated; (b) the steps the entity must take to comply with the rule; (c) agency personnel designated by the agency to provide technical assistance regarding compliance with the rule; and (d) a date by which the entity is required to comply with the rule. The date specified shall provide a reasonable period of time for the entity to comply with the rule, considering the size of the entity, its available resources, and the threat posed by the violation. If the entity fails to comply with the rule by the date specified, it shall be subject to the penalty otherwise provided in law.

(4) Subsection (2) of this section shall not apply to any violation that places a person in danger of death or substantial bodily harm, is causing or is likely to cause significant environmental harm, or has caused or is likely to cause physical damage to the property of others in an amount exceeding one thousand dollars. With regard to a statute or rule requiring the payment of a tax, subsection (1) of this section shall not apply when a business entity has paid less than eighty-five percent of the tax actually owed.

(5) The state, the agency, and officers or employees of the state shall not be liable for damages to any person to the extent that liability is asserted to arise from the technical assistance provided under this section, or if liability is asserted to arise from the failure of the agency to supply technical assistance.

(6) Where a state agency has been delegated authority to enforce federal rules, the agency shall submit a written petition to the appropriate federal agency for authorization to comply with this section for all inspections while retaining the state's federal delegation. In such cases, this section applies only to the extent authorized by the appropriate federal agency.

NEW SECTION. Sec. 24. A new section is added to chapter 4.84 RCW to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout sections 24 through 26 and 27 of this act.

(1) "Agency" means agency as defined by chapter 34.05 RCW.

(2) "Fees and other expenses" includes the reasonable expenses of expert witnesses, the reasonable cost of a study, analysis, engineering report, test, or project that is found by the court to be necessary for the preparation of the party's case, and reasonable attorneys' fees. Reasonable attorneys' fees shall be based on the prevailing market rates for the kind and quality of services furnished, except that (a) no expert witness may be compensated at a rate in excess of the highest rates of compensation for expert witnesses paid by the state of Washington, and (b) attorneys' fees shall not be awarded in excess of one hundred fifty dollars per hour unless the court determines that an increase in the cost of living or a special factor, such as the limited availability of qualified attorneys for the proceedings involved, justifies a higher fee.

(3) "Judicial review" means a judicial review as defined by chapter 34.05 RCW.

(4) "Qualified party" means (a) an individual whose net worth did not exceed one million dollars at the time the initial petition for judicial review was filed; (b) a sole owner of an unincorporated business, or a partnership, corporation, association, or organization whose net worth did not exceed five million dollars at the time the initial petition for judicial review was filed, except that an organization described in section 501(c)(3) of the federal internal revenue code of 1954 as exempt from taxation under section 501(a) of the code and a cooperative association as defined in section 15(a) of the agricultural marketing act (12 U.S.C. Sec. 1141J(a)), may be a party regardless of the net worth of such organization or cooperative association; or (c) a sole owner of an unincorporated business, or a partnership, corporation, association, or organization, having not more than one hundred employees at the time the initial petition for judicial review was filed.

(5) "Rule" means a rule as defined by chapter 34.05 RCW.

NEW SECTION. Sec. 25. A new section is added to chapter 4.84 RCW to read as follows:

If upon judicial review a rule is declared invalid and the party that challenged the rule is a qualified party, the party shall be awarded fees and other expenses not to exceed fifty thousand dollars. This section does not apply unless all parties to the action challenging the rule are qualified parties. If two or more qualified parties join in an action challenging a rule, the fees and expenses awarded shall not in total exceed fifty thousand dollars.

NEW SECTION. Sec. 26. A new section is added to chapter 4.84 RCW to read as follows:

Fees and other expenses awarded under section 25 of this act shall be paid by the agency that adopted the invalid rule from operating funds appropriated to the agency within sixty days. Agencies paying fees and other expenses pursuant to section 25 of this act shall report all payments to the office of financial management within five days of paying the fees and other expenses. Fees and other expenses awarded by the court shall be subject to chapter 39.76 RCW and shall be deemed payable on the date the court announces the award.

NEW SECTION. Sec. 27. A new section is added to chapter 43.88 RCW to read as follows:

The office of financial management shall report annually to the legislature on the amount of fees and other expenses awarded during the preceding fiscal year under section 25 of this act. The report shall describe the number, nature, and amount of the awards, the claims involved in the controversy, and other relevant information that may aid the legislature in evaluating the scope and impact of the awards.

NEW SECTION. Sec. 28. Section 10 of this act shall take effect July 1, 1994.

NEW SECTION. Sec. 29. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."

POINT OF ORDER

Senator Fraser: "Mr. President, I raise a point of order. I believe that Section 23 of the proposed striking amendment from the committee exceeds the scope and object of the bill. Please look at the title of the bill and its content, and then, specifically, at Section 23. The title of the bill is an act relating to the implementation of the recommendation of the Governor's Task Force on Regulatory Reform.

"The bill as it comes to us from the House fits that title. It implements numerous specific recommendations in the Task Force Report. Section 23 of the striking amendment has as its predecessor Section 16 of the bill that came to us from the House. This section is consistent with the Task Force recommendations. It implements recommendations in the Report that are under the heading of Technical Assistance Without Penalty. In the Report's discussion of this topic, it says that the nature of the problem is as follows: People fear that if they ask the regulatory agencies for assistance and advice, they may receive a citation, fine or immediate compliance orders. This is because regulatory agencies may have rigid guidelines for enforcement in which both the inspector and the public are caught which discourages communication and helpfulness, so the recommendations, one through four, on page nine of the Report address this identified problem. Recommendation four of this set of recommendations clearly indicates that the scope of technical assistance envisioned by this recommendation relates to matters of a physical nature, such as environmental standards or workers safety standards. The language in recommendation four which is also in the house bill refers to vocabulary such as owner or operator of the facility--to inspections, to observe violations, to a violation of places a person is in danger or is likely to cause physical damage to the property of others or cause significant environmental harm. The house bill itself refers to on site consultation at industrial or commercial facilities. That is what Section 23 does.

"Now, the committee striking amendment would add two subjects. First, it adds the new subject of alternative approaches. This is a subject in the Task Force Report in a different section of the Report completely separate from technical assistance. Alternative approaches is found on page thirteen. In the Report, alternative approach refers to compliance with the law,

rather than with technical assistance on how to understand the law. Two different subjects. Specifically, the Report says alternative approaches are defined as alternative to the command and control approach to regulation which is one of directing behavior by setting standards and then having penalties. The Report makes it clear that the Task Force makes no recommendation on this subject of alternative approaches, either to the Governor or the Legislature. It is only recommendations that it create a Task Force to study this further and this is underscored by the transmittal letter to the Governor and the attachment to the Report. This is the reason why the new subject of alternative approachs is not found in the house bill--"

REPLY BY PRESIDENT PRITCHARD

President Pritchard: "Senator Fraser, we are under the three minute rule. Also, when you have--you might be summarizing--"

Senator Fraser: "O.K., my other point is the new subject relates to tax collection. There is nothing in the Task Force Report or the House Bill that gives any indication that they were talking about an entirely new approach to tax collection for fifteen percent of the revenues of major sources in the state. I urge you to consider this point of order."

Further debate ensued.

There being no objection, the President deferred further consideration of Engrossed Second Substitute House Bill No. 2510.

ENGROSSED HOUSE BILL NO. 1756, by Representatives Veloria, Brumsickle and Casada

Requiring the use of licensed or certified electricians for certain purposes.

The bill was read the second time.

MOTION

Senator Hochstatter moved that the following amendment be adopted:

On page 1, line 11, after "lease" insert "PROVIDED, That nothing in RCW 19.28.510 through 19.28.620 shall be construed to require that a person obtain a license or a certified electrician in order to do electrical work on a residential building with up to four units intended for rent, sale, or lease if the person intends to occupy one of the units as his or her residence."

Debate ensued.

POINT OF INQUIRY

Senator McCaslin: "Senator Sutherland, on line 8, if we had an oral amendment that stated, 'if the person occupies one of the units,' would you support it then?"

Senator Sutherland: "Perhaps, if it stated that the person occupies it for a distinct period of time, let's say a year or so. Then there is some value at looking at that, but just to allow someone--when they apply for an electrical permit to say, 'Oh, I intend on living there,'--they could be saying that to a hundred units a year and they maybe, at one time, did sit in their bedroom or in their kitchen and say, 'Yeh, I might live there.' If we, in fact, said that they have to move in and they must occupy it as their principle residence for a duration of a year, then I think there is a lot more value in looking at this kind of thing."

Senator McCaslin: "You say there is value. Would you support it then if Senator Hochstatter offered that oral amendment to kind of put this together? I am kind of trying to be a peace-maker here, Senator. I would love to see this pass."

Senator Sutherland: "Senator McCaslin, you are always noted as a peace-maker. If your motion is to set the bill down for a while, so that we can take a look at an amendment that might have some match-making support, then let's take a look at that."

RULING BY THE PRESIDENT

President Pritchard: "In ruling upon the point of order raised by Senator Fraser, the President finds that Engrossed Second Substitute House Bill No. 2510 is a measure which makes changes in agency rulemaking processes and numerous other changes in regulatory matters, including changes in the compliance procedures for toxic waste and the ability of agencies to assess penalties for violations of rules and statutes.

"The Committee on Labor and Commerce striking amendment would also make numerous changes in regulatory matters, including the conditions under which agencies may assess penalties for violation of law or rule.

"The President, therefore, finds that the proposed amendment does not change the scope and object of the bill and the point of order is not well taken."

The Committee on Labor and Commerce striking amendment to Engrossed Second Substitute House Bill No. 2510 was ruled in order.

MOTION

Senator Anderson moved that the following amendment by Senator Amondson to the Committee on Labor and Commerce striking amendment be adopted:

On page 2, after line 8 of the amendment, insert the following:

NEW SECTION. Sec. 2. The legislature finds that it has allowed state agencies to adopt administrative rules without sufficient guidance from the legislature, relying on general grants of authority rather than specific legislative policy direction. This has resulted in agency-initiated policy that has been adopted without the benefit of the public dialogue and accountability inherent to the legislative process. It is therefore the intent of the legislature in this act to lessen reliance on general grants of authority, limit agency rule making to those matters specifically authorized by the legislature, and that grants of rule-making authority be narrowly construed.

Sec. 3. RCW 43.70.040 and 1989 1st ex.s. c 9 s 106 are each amended to read as follows:

SECOND READING

ENGROSSED HOUSE BILL NO. 2347, by Representatives Morris, Horn, Bray and Springer (by request of Department of Community Development)

Changing the energy building code for glazing, doors, and skylights.

The bill was read the second time.

MOTIONS

On motion of Senator Sutherland, the following Committee on Energy and Utilities amendment was adopted:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 19.27A.020 and 1990 c 2 s 3 are each amended to read as follows:

(1) No later than January 1, 1991, the state building code council shall promulgate rules to be known as the Washington state energy code as part of the state building code.

(2) The council shall follow the legislature's standards set forth in this section to promulgate rules to be known as the Washington state energy code. The Washington state energy code shall be designed to require new buildings to meet a certain level of energy efficiency, but allow flexibility in building design, construction, and heating equipment efficiencies within that framework. The Washington state energy code shall be designed to allow space heating equipment efficiency to offset or substitute for building envelope thermal performance.

(3) The Washington state energy code shall take into account regional climatic conditions. Climate zone 1 shall include all counties not included in climate zone 2. Climate zone 2 includes: Adams, Chelan, Douglas, Ferry, Grant, Kittitas, Lincoln, Okanogan, Pend Oreille, Spokane, Stevens, and Whitman counties.

(4) The Washington state energy code for residential buildings shall require:

(a) New residential buildings that are space heated with electric resistance heating systems to achieve energy use equivalent to that used in typical buildings constructed with:

(i) Ceilings insulated to a level of R-38. The code shall contain an exception which permits single rafter or joist vaulted ceilings insulated to a level of R-30 (R value includes insulation only);

(ii) In zone 1, walls insulated to a level of R-19 (R value includes insulation only), or constructed with two by four members, R-13 insulation batts, R-3.2 insulated sheathing, and other normal assembly components; in zone 2 walls insulated to a level of R-24 (R value includes insulation only), or constructed with two by six members, R-22 insulation batts, R-3.2 insulated sheathing, and other normal construction assembly components; for the purpose of determining equivalent thermal performance, the wall U-value shall be 0.058 in zone 1 and 0.044 in zone 2;

(iii) Below grade walls, insulated on the interior side, to a level of R-19 or, if insulated on the exterior side, to a level of R-10 in zone 1 and R-12 in zone 2 (R value includes insulation only);

(iv) Floors over unheated spaces insulated to a level of R-30 (R value includes insulation only);

(v) Slab on grade floors insulated to a level of R-10 at the perimeter;

(vi) Double glazed windows with values not more than U-0.4;

(vii) In zone 1 the glazing area may be up to twenty-one percent of floor area and in zone 2 the glazing area may be up to seventeen percent of floor area where consideration of the thermal resistance values for other building components and solar heat gains through the glazing result in thermal performance equivalent to that achieved with thermal resistance values for other components determined in accordance with the equivalent thermal performance criteria

of (a) of this subsection and glazing area equal to fifteen percent of the floor area. Throughout the state for the purposes of determining equivalent thermal performance, the maximum glazing area shall be fifteen percent of the floor area; and

(viii) Exterior doors insulated to a level of R-5; or an exterior wood door with a thermal resistance value of less than R-5 and values for other components determined in accordance with the equivalent thermal performance criteria of (a) of this subsection.

(b) New residential buildings which are space-heated with all other forms of space heating to achieve energy use equivalent to that used in typical buildings constructed with:

(i) Ceilings insulated to a level of R-30 in zone 1 and R-38 in zone 2 the code shall contain an exception which permits single rafter or joist vaulted ceilings insulated to a level of R-30 (R value includes insulation only);

(ii) Walls insulated to a level of R-19 (R value includes insulation only), or constructed with two by four members, R-13 insulation batts, R-3.2 insulated sheathing, and other normal assembly components;

(iii) Below grade walls, insulated on the interior side, to a level of R-19 or, if insulated on the exterior side, to a level of R-10 in zone 1 and R-12 in zone 2 (R value includes insulation only);

(iv) Floors over unheated spaces insulated to a level of R-19 in zone 1 and R-30 in zone 2 (R value includes insulation only);

(v) Slab on grade floors insulated to a level of R-10 at the perimeter;

(vi) Heat pumps with a minimum heating season performance factor (HSPF) of 6.8 or with all other energy sources with a minimum annual fuel utilization efficiency (AFUE) of seventy-eight percent;

(vii) Double glazed windows with values not more than U-0.65 in zone 1 and U-0.60 in zone 2. The state building code council, in consultation with the state energy office, shall review these U-values, and, if economically justified for consumers, shall amend the Washington state energy code to improve the U-values by December 1, 1993. The amendment shall not take effect until July 1, 1994; and

(viii) In zone 1, the maximum glazing area shall be twenty-one percent of the floor area. In zone 2 the maximum glazing area shall be seventeen percent of the floor area. Throughout the state for the purposes of determining equivalent thermal performance, the maximum glazing area shall be fifteen percent of the floor area.

(c) For log built homes with space heat other than electric resistance, the building code council shall establish equivalent thermal performance standards consistent with the standards and maximum glazing areas of (b) of this subsection.

(d) The state building code council may approve an energy code for pilot projects of residential construction that use innovative energy efficiency technologies intended to result in savings that are greater than those realized in the levels specified in this section.

(5) ~~U-values for glazing shall be determined using the area weighted average of all glazing in the building. ((U-values for glazing are the tested values for thermal transmittance due to conduction resulting from either the American architectural manufacturers' association (AAMA) 1503.1 test procedure or the American society for testing materials (ASTM) C236 or C976 test procedures. Testing shall be conducted under established winter horizontal heat flow test conditions using the fifteen miles per hour wind speed perpendicular to the exterior surface of the glazing as specified under AAMA 1503.1 and product sample sizes specified under AAMA 1503.1. The AAMA 1503.1 testing must be conducted by an AAMA certified testing laboratory. The ASTM C236 or C976 testing U-values include any tested values resulting from a future revised AAMA 1503.1 test procedure.)) U-values for vertical glazing shall be determined, certified, and labeled in accordance with the appropriate national fenestration rating council (NFRC) standard, as determined and adopted by the state building code council. Certification of U-values shall be conducted by a certified, independent agency licensed by the NFRC. The state building code council may develop and adopt alternative methods of determining, certifying, and labeling U-values for vertical glazing that may be used by fenestration manufacturers if determined to be appropriate by the council. The state building code council shall review and consider the adoption of the NFRC standards for determining, certifying, and labeling U-values for doors and skylights when developed and published by the NFRC. The state building code council may develop and adopt appropriate alternative methods for determining, certifying, and labeling U-values for doors and skylights. U-values for doors and skylights determined, certified, and labeled in accordance with the appropriate NFRC standard shall be acceptable for compliance with the state energy code. Sealed insulation glass, where used, shall conform to, or be in the process of being tested for, ASTM E-774-81 ((level)) class A or better. ((The state building code council shall maintain a list of the tested U-values for glazing products available in the state.))~~

(6) The minimum state energy code for new nonresidential buildings shall be the Washington state energy code, 1986 edition, as amended.

(7)(a) Except as provided in (b) of this subsection, the Washington state energy code for residential structures shall preempt the residential energy code of each city, town, and county in the state of Washington.

(b) The state energy code for residential structures does not preempt a city, town, or county's energy code for residential structures which exceeds the requirements of the state energy code and which was adopted by the city, town, or county prior to March 1, 1990. Such cities, towns, or counties may not subsequently amend their energy code for residential structures to exceed the requirements adopted prior to March 1, 1990.

(8) The state building code council shall consult with the state energy office as provided in RCW 34.05.310 prior to publication of proposed rules. The state energy office shall review the proposed rules for consistency with the guidelines adopted in subsection (4) of this section. The director of the state energy office shall recommend to the state building code council any changes necessary to conform the proposed rules to the requirements of this section.

(9) The state building code council shall conduct a study of county and city enforcement of energy codes in the state. In conducting the study, the council shall conduct public hearings at designated council meetings to seek input from interested individuals and organizations, and to the extent possible, hold these meetings in conjunction with adopting rules under this section. The study shall include recommendations as to how code enforcement may be improved. The findings of the study shall be submitted in a report to the legislature no later than January 1, 1991.

(10) If any electric utility providing electric service to customers in the state of Washington purchases at least one percent of its firm energy load from a federal agency, pursuant to section 5.(b)(1) of the Pacific Northwest electric power planning and conservation act (P.L. 96-501), and such utility is unable to obtain from that agency at least fifty percent of the funds for payments required by RCW 19.27A.035, the amendments to this section by chapter 2, Laws of 1990 shall be null and void, and the 1986 state energy code shall be in effect, except that a city, town, or county may enforce a local energy code with more stringent energy requirements adopted prior to March 1, 1990. This subsection shall expire June 30, 1995.

NEW SECTION. Sec. 2. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately."

Is it your intent that we are going to require a line listing in the white pages to also have the contractor's number or is it simply limited to advertising?"

Sec. 2. RCW 41.32.570 and 1989 c 273 s 29 are each amended to read as follows:

(1) Any retired teacher who enters service in any public educational institution in Washington state shall cease to receive pension payments while engaged in such service: PROVIDED, That service may be rendered up to seventy-five days per school year without reduction of pension.

SECOND READING

SUBSTITUTE HOUSE BILL NO. 1743, by House Committee on Environmental Affairs (originally sponsored by Representatives Flemming, Horn, Rust, Linville, Valle and J. Kohl)

Establishing a pilot multimedia program for pollution prevention.

The bill was read the second time.

MOTIONS

On motion of Senator Fraser, the following Committee on Ecology and Parks amendment was adopted:

On page 1, line 5, after "follows:" strike everything through "department." on page 2, line 16, and insert the following:

"(1) Not later than January 1, 1995, the department shall designate an industry type and up to ten individual facilities within that industry type to be the focus of a pilot multimedia program. The program shall be designed to coordinate department actions related to environmental permits, plans, approvals, certificates, registrations, technical assistance, and inspections. The program shall also investigate the feasibility of issuing facility-wide permits. The director shall determine the industry type and facilities based on:

(a) A review of at least three industry types; and

(b) Criteria which shall include at least the following factors:

(i) The potential for the industry to serve as a state-wide model for multimedia environmental programs including pollution prevention;

(ii) Whether the industry type is subject to regulatory requirements relating to at least two of the following subject areas: Air quality, water quality, or hazardous waste management;

(iii) The existence within the industry type of a range of business sizes; and

(iv) Voluntary participation in the program.

(2) Not later than January 1, 1997, the department shall submit to the governor and the appropriate standing committees of the legislature:

(a) A report evaluating the pilot multimedia program. The report shall consider the program's effect on the efficiency and effectiveness of program delivery and shall evaluate the feasibility of expanding the program to other industry types; and

(b) A report analyzing the feasibility of a facility-wide permit program.

(3) In developing the program, the department shall consult with and seek the cooperation of the environmental protection agency.

(4) For purposes of this section, "facility-wide permit" means a single multimedia permit issued by the department to the owner or operator of a facility incorporating the permits and any other relevant department approvals previously issued to the owner or operator or currently required by the department."

On motion of Senator Fraser, the following Committee on Ecology and Parks amendment was adopted:

On page 2, after line 16, insert the following:

NEW SECTION. Sec. 2. The purpose of sections 2 through 6 of this act is to establish a pilot program to encourage environmental permit program efficiency and pollution prevention through increased private sector participation in the preparation of wastewater discharge permits and performance of wastewater discharge permit compliance assurance activities currently administered by the department of ecology.

The legislature recognizes that pollution prevention can often be accomplished through cooperative partnerships between government and industry and through voluntary changes in industrial production methods. By utilizing expertise available in the private sector, the pilot program provided for in sections 2 through 6 of this act is intended to reduce the backlog of expired wastewater discharge permits and increase the frequency of compliance assurance activities in order to better protect the water quality of the state.

The legislature intends that the pilot program be implemented without an increase in government expenditures. The legislature also intends that the pilot program be implemented through the use of technical assistance and administrative guidelines. It is not the intent of this act to authorize additional rule making.

The provisions in this act do not affect the authority of the department to bring enforcement actions, nor do they affect provisions in existing law for public participation and rights of appeal of permit decisions.

NEW SECTION. Sec. 3. A new section is added to chapter 90.48 RCW to read as follows:

(1) For the period beginning July 1, 1994, and ending July 1, 1996, the department shall conduct a pilot program to test the feasibility and effectiveness of allowing certain industries which require a permit, renewal, or modification under RCW 90.48.260 to submit a draft permit and fact sheet in lieu of an application form.

(2) In implementing the pilot program, the department shall:

(a) Establish criteria for types of applicants that are eligible to submit draft permits and fact sheets. Such criteria shall include:

(i) Consideration of the applicant's compliance history; and

(ii) The potential for the industry to serve as a model for increased private sector participation in permit preparation;

(b) Develop guidelines specifying the elements of a complete draft permit and fact sheet;

(c) Make available a list of approved contractors with whom applicants may contract for draft permit preparation; and

(d) Document cost and time savings resulting from draft permit preparation by applicants and reflect these savings in the next revision of permit fees for such applicants. Any reduction in fees for permittees participating in the pilot program shall not cause an increase in fees for other permittees.

Nothing in this section affects the requirements for public participation and right of appeal under RCW 90.48.260 and chapter 43.21B RCW. The department shall retain full authority under this chapter to approve, modify, or disapprove any draft permit or fact sheet submitted under this section.

NEW SECTION. Sec. 4. A new section is added to chapter 90.48 RCW to read as follows:

(1) Beginning July 1, 1994, and ending July 1, 1996, the department shall conduct a pilot program to test the feasibility and effectiveness of allowing industrial permittees to contract with private consultants for the performance of annual compliance inspections required of major dischargers under federal law. As part of the program, the department shall allow at least ten major dischargers to contract directly with a consultant identified pursuant to subsection (2) of this section for the performance of annual compliance inspections.

(2) The department shall:

(a) Upon request of a permittee, approve individual permittees who are eligible to hire contractors for compliance inspections. In making this determination, the department shall consider the permittee's compliance history and the potential for the facility to serve as a model for private sector cooperation in pollution prevention;

(b) Make available a list of approved contractors with whom permittees may contract for compliance inspections. Before receiving approval from the department, such firms shall sign an agreement with the department stating that: (i) They will be available to participate in any legal proceedings that may arise as a result of conducting such inspections for four years after the inspection; and (ii) they will not accept employment for purposes other than conducting inspections with any firm they or their business have inspected for four years after the final report of the inspection; and

(c) Document the time and cost savings resulting from privately contracted inspections and reflect these savings in the next revision of permit fees for such permittees. Any reduction in fees for permittees participating in the pilot program shall not cause an increase in fees for other permittees.

(3) To be eligible under this section, the discharger shall agree that the information obtained as part of compliance inspections contracted pursuant to this section shall not be subject to attorney-client privilege. The report of such inspections shall be submitted concurrently to both the permittee and the department.

(4) Nothing in this section affects the authority of the department to bring enforcement actions under this chapter.

NEW SECTION. Sec. 5. By July 1, 1995, the department shall provide an interim report to the legislature evaluating the effectiveness of the pilot program authorized in sections 3 and 4 of this act. A final report shall be submitted by December 1, 1996.

NEW SECTION. Sec. 6. If any part of this act is found to be in conflict with federal requirements, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned."

MOTION

Senator Franklin moved that the following amendment by Senators Franklin, Talmadge, Fraser, Prentice and Pelz be adopted:

On page 2, line 16, after "department" insert the following:

"NEW SECTION. Sec. 2. Unless the context clearly requires otherwise, the definitions in this section apply throughout sections 3 through 4 of this act.

(1) "Environmental facility" means a facility that has:

(a) Reported under the toxic release inventory (section 313) of the federal emergency planning and community right-to-know act (P.L. 99-499, Title III); or

(b) Been placed on the hazardous sites list, as maintained by the department of ecology, pursuant to RCW 70.105D.030;

or

(c) Interim status or a final permit from either the department of ecology or the environmental protection agency as a treatment, storage, or disposal facility.

(2) "Low-income community" means any census tract or subdivision thereof in which thirty percent or more of the population lives below the federal poverty level.

(3) "Minority community" means any census tract or subdivision thereof that includes twenty-five percent or more of any racial or ethnic group.

(4) "Toxic chemicals" means any substance reported under the toxic release inventory (section 313) of the federal emergency planning and community right-to-know act (P.L. 99-499, Title III) on the effective date of this section.

(5) "Tract" means any census tract or block numbering area identified and designated in the state by the United States census bureau in the latest census available.

NEW SECTION. Sec. 3. By June 30, 1995, the department of ecology and the department of health shall jointly prepare a report to the legislature providing information on the distribution of reported toxic chemical releases and environmental facilities in relation to minority and low-income census tracts. The report shall include the following elements:

(1) A breakdown of the population by race and ethnicity, and the percentage of persons below the federal poverty level for each census tract;

(2) A survey indicating the location and types of permitted environmental facilities located within each census tract in the state;

(3) A list of tracts ranked in order of the amount of toxic chemicals released during the most recent five years based on information reported in the toxic release inventory required under the federal emergency planning and community right-to-know act. For the purposes of this study, the fifty tracts with the highest total toxic releases shall be referred to as "environmental high impact areas"; and

(4) Recommendations on further studies and/or actions that could be taken by the legislature or the departments of ecology and health to address environmental equity concerns.

NEW SECTION. Sec. 4. The study authorized under section 3 of this act shall not apply to toxic substances releases or environmental facilities associated with agricultural operations, including those that use, store, or dispose of pesticides or herbicides."

POINT OF ORDER

Senator Amondson: "I would like to raise the scope and object on this amendment. On New Section 3, as I understand the bill, the bill is to establish a multimedia program for pollution prevention and Section 3 expands the scope with respect to a survey indicating the location and types of permitted environmental facilities located within each census tract in the state. New Section 4 says that it does not apply to agricultural operations, but it would apply to ports and other facilities, so I think it does expand the scope and object of the bill."

Further debate ensued.

There being no objection, the President deferred further consideration of Substitute House Bill No. 1743.

MOTION

At 9:40 a.m., on motion of Senator Spanel, the Senate was declared to be at ease.

The Senate was called to order at 11:32 a.m. by President Pritchard.

There being no objection, the President returned the Senate to the first order of business.

RULING BY THE PRESIDENT

President Pritchard: "In ruling upon the point of order raised by Senator Amondson, the President finds that Substitute House Bill No. 1743 is a measure which establishes pilot programs in the Department of Ecology for pollution prevention for specified industries and improved efficiency for wastewater discharge permits.

"The amendment proposed by Senators Franklin, Talmadge, Fraser, Prentice and Pelz on page 2, line 16, would direct the Departments of Health and Ecology to conduct a joint study on the relationship of toxic waste discharges and minority and low-income census tracts.

"The President, therefore, finds that the proposed amendment does change the scope and object of the bill and the point of order is well taken."

The amendment by Senators Franklin, Talmadge, Fraser, Prentice and Pelz on page 2, line 16, to Substitute House Bill No. 1743 was ruled out of order.

Sec. 7. RCW 46.80.005 and 1977 ex.s. c 253 s 1 are each amended to read as follows:

The legislature finds and declares that the distribution and sale of vehicle parts in the state of Washington vitally affects the general economy of the state and the public interest and the public welfare, and that in order to promote the public interest and the public welfare and in the exercise of its police power, it is necessary to regulate and license ((motor)) vehicle wreckers and dismantlers, the buyers-for-resale, and the sellers of second-hand vehicle components doing business in Washington, in order to prevent the sale of stolen vehicle parts, to prevent frauds, impositions, and other abuses, and to preserve the investments and properties of the citizens of this state.

POINT OF ORDER

Senator Vognild: "Mr. President, I rise to the question of scope and object. The bill that we are dealing with is a bill that deals totally with junk vehicles. In fact, the requirements within the bill are that they are junk and cannot be used for any other purpose. The amendment by Senator Erwin deals with what you do with significant damaged vehicles. It talks about how you use the parts, how can you repair them, how can you title them. In other words, the amendment is an amendment that deals with wrecked vehicles and the bill deals with junk vehicles. There is a major difference between those two factors. Junk vehicles are just that. They are a nuisance, they are an eyesore and they are something that people can't get rid of. Wrecked vehicles have value and one of the pieces in the bill is that the junk vehicle must not have any value."

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 82.44.150 and 1993 c 491 s 2 are each amended to read as follows:

(1) The director of licensing shall, on the twenty-fifth day of February, May, August, and November of each year, advise the state treasurer of the total amount of motor vehicle excise taxes imposed by RCW 82.44.020 (1) and (2) remitted to the department during the preceding calendar quarter ending on the last day of March, June, September, and December, respectively, except for those payable under RCW 82.44.030, from motor vehicle owners residing within each municipality which has levied a tax under RCW 35.58.273, which amount of excise taxes shall be determined by the director as follows:

The total amount of motor vehicle excise taxes remitted to the department, except those payable under RCW 82.44.020(3) and 82.44.030, from each county shall be multiplied by a fraction, the numerator of which is the population of the municipality residing in such county, and the denominator of which is the total population of the county in which such municipality or portion thereof is located. The product of this computation shall be the amount of excise taxes from motor vehicle owners residing within such municipality or portion thereof. Where the municipality levying a tax under RCW 35.58.273 is located in more than one county, the above computation shall be made by county, and the combined products shall provide the total amount of motor vehicle excise taxes from motor vehicle owners residing in the municipality as a whole. Population figures required for these computations shall be supplied to the director by the office of financial management, who shall adjust the fraction annually.

(2) On the first day of the months of January, April, July, and October of each year, the state treasurer based upon information provided by the department shall, from motor vehicle excise taxes deposited in the general fund, under RCW 82.44.110(1)(g), make the following deposits:

(a) To the high capacity transportation account created in RCW 47.78.010, a sum equal to four and five-tenths percent of the special excise tax levied under RCW 35.58.273 by those municipalities authorized to levy a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) each county with a population of from one hundred twenty-five thousand to less than two hundred ten thousand except for those counties that do not border a county with a population as described in subsection (i) of this subsection;

(b) To the central Puget Sound public transportation account created in RCW 82.44.180, for revenues distributed after December 31, 1992, within a county with a population of one million or more and a county with a population of from two hundred thousand to less than one million bordering a county with a population of one million or more, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent and been able to match with locally generated tax revenues, other than the excise tax imposed under RCW 35.58.273, budgeted for any public transportation purpose. Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(b) applies; however, any transfer under this subsection (2)(b) must be greater than zero;

(c) To the public transportation systems account created in RCW 82.44.180, for revenues distributed after December 31, 1992, within counties not described in (b) of this subsection, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent and been able to match with locally generated tax revenues, other than the excise tax imposed under RCW 35.58.273, budgeted for any public transportation purpose. Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(c) applies; however, any transfer under this subsection (2)(c) must be greater than zero; and

(d) To the general fund, for revenues distributed after June 30, 1993, and to the transportation fund, for revenues distributed after June 30, 1995, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent notwithstanding the requirements set forth in subsections (3) through (6) of this section, reduced by an amount equal to distributions made under (a), (b), and (c) of this subsection and section 2 of this act.

(3) On the first day of the months of January, April, July, and October of each year, the state treasurer, based upon information provided by the department, shall remit motor vehicle excise tax revenues imposed and collected under RCW 35.58.273 as follows:

(a) The amount required to be remitted by the state treasurer to the treasurer of any municipality levying the tax shall not exceed in any calendar year the amount of locally-generated tax revenues, excluding (i) the excise tax imposed under RCW 35.58.273 for the purposes of this section, which shall have been budgeted by the municipality to be collected in such calendar year for any public transportation purposes including but not limited to operating costs, capital costs, and debt service on general obligation or revenue bonds issued for these purposes; and (ii) the sales and use tax equalization distributions provided under section 2 of this act; and

(b) In no event may the amount remitted in a single calendar quarter exceed the amount collected on behalf of the municipality under RCW 35.58.273 during the calendar quarter next preceding the immediately preceding quarter, excluding the sales and use tax equalization distributions provided under section 2 of this act.

(4) At the close of each calendar year accounting period, but not later than April 1, each municipality that has received motor vehicle excise taxes under subsection (3) of this section shall transmit to the director of licensing and the state auditor a written report showing by source the previous year's budgeted tax revenues for public transportation purposes as compared to actual collections. Any municipality that has not submitted the report by April 1 shall cease to be eligible to receive motor vehicle excise taxes under subsection (3) of this section until the report is received by the director of licensing. If a municipality has received more or less money under subsection (3) of this section for the period covered by the report than it is entitled to receive by reason of its locally-generated collected tax revenues, the director of licensing shall, during the next ensuing quarter that the municipality is eligible to receive motor vehicle excise tax funds, increase or decrease the amount to be remitted in an amount equal to the difference between the locally-generated budgeted tax revenues and the locally-generated collected tax revenues. In no event may the amount remitted for a calendar year exceed the amount collected on behalf of the municipality under RCW 35.58.273 during that same calendar year excluding the sales and use tax equalization distributions provided under section 2 of this act. At the time of the next fiscal audit of each municipality, the state auditor shall verify the accuracy of the report submitted and notify the director of licensing of any discrepancies.

(5) The motor vehicle excise taxes imposed under RCW 35.58.273 and required to be remitted under this section and section 2 of this act shall be remitted without legislative appropriation.

(6) Any municipality levying and collecting a tax under RCW 35.58.273 which does not have an operating, public transit system or a contract for public transportation services in effect within one year from the initial effective date of the tax shall return to the state treasurer all motor vehicle excise taxes received under subsection (3) of this section.

NEW SECTION. Sec. 2. A new section is added to chapter 82.14 RCW to read as follows:

Beginning with distributions made to municipalities under RCW 82.44.150 on January 1, 1996, municipalities as defined in RCW 35.58.272 imposing local transit taxes, which for purposes of this section include the sales and use tax under RCW 82.14.045, the business and occupation tax

under RCW 35.95.040, and excise taxes under RCW 35.95.040, shall be eligible for sales and use tax equalization payments from motor vehicle excise taxes distributed under RCW 82.44.150 as follows:

(1) Prior to January 1st of each year the department of revenue shall determine the total and the per capita levels of revenues for each municipality imposing local transit taxes and the state-wide weighted average per capita level of sales and use tax revenues imposed under chapters 82.08 and 82.12 RCW, for the previous calendar year calculated for a tax rate of one-tenth percent. The actual tax rate for local transit taxes collected under RCW 82.14.045 shall be the sales and use tax rate. The actual tax rate for local transit taxes collected under RCW 35.95.040 shall be the sales and use tax rate that would generate an amount of revenue equivalent to the amount collected under RCW 35.95.040, or six-tenths percent, whichever is less.

(2) For each tenth of one percent of local transit taxes the state treasurer shall apportion to each municipality receiving less than eighty percent of the state-wide weighted average per capita level of sales and use tax revenues imposed under chapters 82.08 and 82.12 RCW as determined by the department of revenue under subsection (1) of this section, an amount when added to the per capita level of revenues received the previous calendar year by the municipality, to equal eighty percent of the state-wide weighted average per capita level of revenues determined under subsection (1) of this section. In no event may the sales and use tax equalization distribution to a municipality in a single calendar year exceed fifty percent of the amount of local transit taxes collected during the prior calendar year.

(3) For a municipality established after January 1, 1995, sales and use tax equalization distributions shall be made according to the procedures in this subsection. Sales and use tax equalization distributions to eligible new municipalities shall be made at the same time as distributions are made under subsection (2) of this section. The department of revenue shall follow the estimating procedures outlined in this subsection until the new municipality has received a full year's worth of revenues as of the January sales and use tax equalization distribution.

(a) Whether a newly established municipality determined to receive funds under this subsection receives its first equalization payment at the January, April, July, or October sales and use tax equalization distribution shall depend on the date the system first imposes local transit taxes.

(i) A newly established municipality imposing local transit taxes taking effect during the first calendar quarter shall be eligible to receive funds under this subsection beginning with the July sales and use tax equalization distribution of that year.

(ii) A newly established municipality imposing local transit taxes taking effect during the second calendar quarter shall be eligible to receive funds under this subsection beginning with the October sales and use tax equalization distribution of that year.

(iii) A newly established municipality imposing local transit taxes taking effect during the third calendar quarter shall be eligible to receive funds under this subsection beginning with the January sales and use tax equalization distribution of the next year.

(iv) A newly established municipality imposing local transit taxes taking effect during the fourth calendar quarter shall be eligible to receive funds under this subsection beginning with the April sales and use tax equalization distribution of the next year.

(b) For purposes of calculating the amount of funds the new municipality should receive under this subsection, the department of revenue shall:

(i) Estimate the per capita amount of revenues from local transit taxes that the new municipality would have received had the municipality received revenues from the tax the entire calendar year;

(ii) Calculate the amount provided under subsection (2) of this section based on the per capita revenues determined under (b)(i) of this subsection;

(iii) Prorate the amount determined under (b)(ii) of this subsection by the number of months the local transit taxes are imposed.

(c) The department of revenue shall advise the state treasurer of the amounts calculated under (b) of this subsection and the state treasurer shall distribute these amounts to the new municipality from the motor vehicle excise tax distributed under RCW 82.44.150(2)(d).

(d) Revenues estimated under this subsection shall not affect the calculation of the state-wide weighted average per capita level of revenues for all municipalities made under subsection (1) of this section.

(4) For an existing municipality imposing local transit taxes to take effect after January 1, 1995, sales and use tax equalization payments shall be made according to the procedures for newly established municipalities in subsection (3) of this section.

(5) A municipality that reduces the rate of local transit taxes after January 1, 1994, may not receive distributions under this section."

For the purposes of this section, "state agency" includes a board, commission, department, committee, institution, agency, or office within the legislative, executive, and judicial branch of state government, including any institution of higher education.

(2) The audit must include:

(a) An evaluation of the efficiency with which state agencies operate the programs under their jurisdictions and fulfill the duties assigned to them by law;

(b) A determination of methods to maximize the amount of federal funds received by the state in order to better ensure that the people of Washington receive a greater share of the taxes levied on them by the federal government;

(c) Identification of potential cost savings and of any state agency or any program or service now offered by an agency that can be eliminated or transferred to the private sector without injury to the public good and well-being;

(d) Recommendations for the elimination of or reduction in funding to various agencies, programs, or services based on the results of the performance audit; and

(e) Analysis of gaps and overlaps in programs offered by state agencies and recommendations for improving, dropping, blending, or separating functions to correct gaps or overlaps.

(4) The office of the state auditor shall provide the staff necessary for the audit. The state auditor shall involve private sector auditors in conducting the audit, and may contract with private sector auditors for that purpose.

(5) The state auditor shall solicit suggestions for improving government performance from both front-line public employees and government service recipients in the conduct of the audit. (6) The state auditor shall present an audit work plan to the legislative budget committee within sixty days of the effective date of this act. The state auditor shall present the audit report to the legislature and the governor by December 1, 1995.

Sec. 3. RCW 43.88.160 and 1993 c 500 s 7, 1993 c 406 s 4, and 1993 c 194 s 6 are each reenacted and amended to read as follows:

This section sets forth the major fiscal duties and responsibilities of officers and agencies of the executive branch. The regulations issued by the governor pursuant to this chapter shall provide for a comprehensive, orderly basis for fiscal management and control, including efficient accounting and reporting therefor, for the executive branch of the state government and may include, in addition, such requirements as will generally promote more efficient public management in the state.

(1) Governor; director of financial management. The governor, through the director of financial management, shall devise and supervise a modern and complete accounting system for each agency to the end that all revenues, expenditures, receipts, disbursements, resources, and obligations of the state shall be properly and systematically accounted for. The accounting system shall include the development of accurate, timely records and reports of all financial affairs of the state. The system shall also provide for central accounts in the office of financial management at the level of detail deemed necessary by the director to perform central financial management. The director of financial management shall adopt and periodically update an accounting procedures manual. Any agency maintaining its own accounting and reporting system shall comply with the updated accounting procedures manual and the rules of the director adopted under this chapter. An agency may receive a waiver from complying with this requirement if the waiver is approved by the director. Waivers expire at the end of the fiscal biennium for which they are granted. The director shall forward notice of waivers granted to the appropriate legislative fiscal committees. The director of financial management may require such financial, statistical, and other reports as the director deems necessary from all agencies covering any period.

(2) The director of financial management is responsible for quarterly reporting of primary operating budget drivers such as applicable workloads, caseload estimates, and appropriate unit cost data. These reports shall be transmitted to the legislative fiscal committees or by electronic means to the legislative evaluation and accountability program committee. Quarterly reports shall include actual monthly data and the variance between actual and estimated data to date. The reports shall also include estimates of these items for the remainder of the budget period.

(3) The director of financial management shall report at least annually to the appropriate legislative committees regarding the status of all appropriated capital projects, including transportation projects, showing significant cost overruns or underruns. If funds are shifted from one project to another, the office of financial management shall also reflect this in the annual variance report. Once a project is complete, the report shall provide a final summary showing estimated start and completion dates of each project phase compared to actual dates, estimated costs of each project phase compared to actual costs, and whether or not there are any outstanding liabilities or unsettled claims at the time of completion.

(4) In addition, the director of financial management, as agent of the governor, shall:

(a) Develop and maintain a system of internal controls and internal audits comprising methods and procedures to be adopted by each agency that will safeguard its assets, check the accuracy and reliability of its accounting data, promote operational efficiency, and encourage adherence to prescribed managerial policies for accounting and financial controls. The system developed by the director shall include criteria for determining the scope and comprehensiveness of internal controls required by classes of agencies, depending on the level of resources at risk.

Each agency head or authorized designee shall be assigned the responsibility and authority for establishing and maintaining internal audits following the standards of internal auditing of the institute of internal auditors;

(b) Make surveys and analyses of agencies with the object of determining better methods and increased effectiveness in the use of manpower and materials; and the director shall authorize expenditures for employee training to the end that the state may benefit from training facilities made available to state employees;

(c) Establish policies for allowing the contracting of child care services;

(d) Report to the governor with regard to duplication of effort or lack of coordination among agencies;

(e) Review any pay and classification plans, and changes thereunder, developed by any agency for their fiscal impact: PROVIDED, That none of the provisions of this subsection shall affect merit systems of personnel management now existing or hereafter established by statute relating to the fixing of qualifications requirements for recruitment, appointment, or promotion of employees of any agency. The director shall advise and confer with agencies including appropriate standing committees of the legislature as may be designated by the speaker of the house and the president of the senate regarding the fiscal impact of such plans and may amend or alter said plans, except that for the following agencies no amendment or alteration of said plans may be made without the approval of the agency concerned: Agencies headed by elective officials;

(f) Fix the number and classes of positions or authorized man years of employment for each agency and during the fiscal period amend the determinations previously fixed by the director except that the director shall not be empowered to fix said number or said classes for the following: Agencies headed by elective officials;

(g) Provide for transfers and repayments between the budget stabilization account and the general fund as directed by appropriation and RCW 43.88.525 through 43.88.540;

(h) Adopt rules to effectuate provisions contained in (a) through (g) of this subsection.

(5) The treasurer shall:

(a) Receive, keep, and disburse all public funds of the state not expressly required by law to be received, kept, and disbursed by some other persons: PROVIDED, That this subsection shall not apply to those public funds of the institutions of higher learning which are not subject to appropriation;

(b) Receive, disburse, or transfer public funds under the treasurer's supervision or custody;

(c) Keep a correct and current account of all moneys received and disbursed by the treasurer, classified by fund or account;

(d) Coordinate agencies' acceptance and use of credit cards and other payment methods, if the agencies have received authorization under RCW 43.41.180;

(e) Perform such other duties as may be required by law or by regulations issued pursuant to this law.

It shall be unlawful for the treasurer to disburse public funds in the treasury except upon forms or by alternative means duly prescribed by the director of financial management. These forms or alternative means shall provide for authentication and certification by the agency head or the agency head's designee that the services have been rendered or the materials have been furnished; or, in the case of loans or grants, that the loans or grants are authorized by law; or, in the case of payments for periodic maintenance services to be performed on state owned equipment, that a written contract for such periodic maintenance services is currently in effect and copies thereof are on file with the office of financial management; and the treasurer shall not be liable under the treasurer's surety bond for erroneous or improper payments so made. When services are lawfully paid for in advance of full performance by any private individual or business entity other than as provided for by RCW 42.24.035, such individual or entity other than central stores rendering such services shall make a cash deposit or furnish surety bond coverage to the state as shall be fixed in an amount by law, or if not fixed by law, then in such amounts as shall be fixed by the director of the department of general administration but in no case shall such required cash deposit or surety bond be less than an amount which will fully indemnify the state against any and all losses on account of breach of promise to fully perform such services. No payments shall be made in advance for any equipment maintenance services to be performed more than three months after such payment. Any such bond so furnished shall be conditioned that the person, firm or corporation receiving the advance payment will apply it toward performance of the contract. The responsibility for recovery of erroneous or improper payments made under this section shall lie with the agency head or the agency head's designee in accordance with regulations issued pursuant to this chapter. Nothing in this section shall be construed to permit a public body to advance funds to a private service provider pursuant to a grant or loan before services have been rendered or material furnished.

(6) The state auditor shall:

(a) Report to the legislature the results of current post audits that have been made of the financial transactions of each agency; to this end the auditor may, in the auditor's discretion, examine the books and accounts of any agency, official or employee charged with the receipt, custody or safekeeping of public funds. Where feasible in conducting examinations, the auditor shall utilize data and findings from the internal control system prescribed by the office of financial management. The current post audit of each agency may include a section on recommendations to the legislature as provided in (c) of this subsection.

(b) Give information to the legislature, whenever required, upon any subject relating to the financial affairs of the state.

(c) Make the auditor's official report on or before the thirty-first of December which precedes the meeting of the legislature. The report shall be for the last complete fiscal period and shall include determinations as to whether agencies, in making expenditures, complied with the laws of this state. The state auditor is authorized to perform or participate in performance audits (only as expressly authorized by the legislature in the omnibus biennial appropriations acts). A performance audit for the purpose of this section is ~~((the examination of the effectiveness of the administration, its efficiency, and its adequacy in terms of the programs of departments or agencies as previously approved by the legislature))~~ an audit that determines the following: Whether a government entity is acquiring, protecting, and using its resources economically and efficiently; the causes of inefficiencies or uneconomical practices; whether the entity has complied with laws and rules applicable to the program; the extent to which the desired results or benefits established by the legislature are being achieved; and the effectiveness of organizations, programs, activities, or functions. The state auditor, upon completing an audit for legal and financial compliance under chapter 43.09 RCW, may report to the legislative budget committee or other appropriate committees of the legislature, in a manner prescribed by the legislative budget committee, on facts relating to the management or performance of governmental programs ~~((where such facts are discovered incidental to the legal and financial audit. The auditor may make such a report to a legislative committee only if the auditor has determined that the agency has been given an opportunity and has failed to resolve the management or performance issues raised by the auditor. If the auditor makes a report to a legislative committee, the agency may submit to the committee a response to the report. This subsection (6) shall not be construed to authorize the auditor to allocate other than de minimis resources to performance audits except as expressly authorized in the appropriations acts)).~~

(d) Be empowered to take exception to specific expenditures that have been incurred by any agency or to take exception to other practices related in any way to the agency's financial transactions and to cause such exceptions to be made a matter of public record, including disclosure to the agency concerned and to the director of financial management. It shall be the duty of the director of financial management to cause corrective action to be taken promptly, such action to include, as appropriate, the withholding of funds as provided in RCW 43.88.110.

(e) Promptly report any irregularities to the attorney general.

(f) Investigate improper governmental activity under chapter 42.40 RCW.

(7) The legislative budget committee may:

(a) Make post audits of the financial transactions of any agency and management surveys and program reviews as provided for in RCW 44.28.085 as well as performance audits and program evaluations. To this end the committee may in its discretion examine the books, accounts, and other records of any agency, official, or employee.

(b) Give information to the legislature or any legislative committee whenever required upon any subject relating to the performance and management of state agencies.

(c) Make a report to the legislature which shall include at least the following:

(i) Determinations as to the extent to which agencies in making expenditures have complied with the will of the legislature and in this connection, may take exception to specific expenditures or financial practices of any agencies; and

(ii) Such plans as it deems expedient for the support of the state's credit, for lessening expenditures, for promoting frugality and economy in agency affairs and generally for an improved level of fiscal management.

Sec. 4. RCW 43.88.090 and 1993 c 406 s 3 are each amended to read as follows:

(1) For purposes of developing budget proposals to the legislature, the governor shall have the power, and it shall be the governor's duty, to require from proper agency officials such detailed estimates and other information in such form and at such times as the governor shall direct. The estimates for the legislature and the judiciary shall be transmitted to the governor and shall be included in the budget without revision. The estimates

for state pension contributions shall be based on the rates provided in chapter 41.45 RCW. Copies of all such estimates shall be transmitted to the standing committees on ways and means of the house and senate at the same time as they are filed with the governor and the office of financial management.

The estimates shall include statements or tables which indicate, by agency, the state funds which are required for the receipt of federal matching revenues. The estimates shall be revised as necessary to reflect legislative enactments and adopted appropriations and shall be included with the initial biennial allotment submitted under RCW 43.88.110. The estimates shall include consideration of recommendations made by the state auditor pursuant to a performance audit of the agency.

(2) It is the policy of the state that each state agency define its mission and establish measurable goals for achieving desirable results for those who receive its services. This section shall not be construed to require an agency to develop a new mission or goals in place of identifiable missions or goals that meet the intent of this section. State agencies should involve affected groups and individuals in developing their missions and goals.

(3) For the purpose of assessing program performance, each state agency shall establish program objectives for each major program in its budget. The objectives shall be consistent with the missions and goals developed under this section. The objectives shall be expressed to the extent practicable in outcome-based, objective, and measurable form unless permitted by the office of financial management to adopt a different standard.

(4) In concert with legislative and executive agencies, the office of financial management shall develop a plan for using these outcome-based objectives in the evaluation of agency performance for improved accountability of state government. Any elements of the plan requiring legislation shall be submitted to the legislature no later than November 30, 1994.

(5) In the year of the gubernatorial election, the governor shall invite the governor-elect or the governor-elect's designee to attend all hearings provided in RCW 43.88.100; and the governor shall furnish the governor-elect or the governor-elect's designee with such information as will enable the governor-elect or the governor-elect's designee to gain an understanding of the state's budget requirements. The governor-elect or the governor-elect's designee may ask such questions during the hearings and require such information as the governor-elect or the governor-elect's designee deems necessary and may make recommendations in connection with any item of the budget which, with the governor-elect's reasons therefor, shall be presented to the legislature in writing with the budget document. Copies of all such estimates and other required information shall also be submitted to the standing committees on ways and means of the house and senate.

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. STATEMENT OF PURPOSE. The state of Washington expects to be the most effective and best performing state government in the United States, measured in terms of quality of customer service, accountability for cost-effective services, and productivity.

NEW SECTION. Sec. 2. STATEMENT OF INTENT. It is the intent of the governor and the legislature to accomplish the purpose of section 1 of this act through a commitment to continuous improvement of Washington state government and not through a one-time or short-term effort that would largely serve to redefine problems rather than identify solutions.

The governor, the legislature, and the public expect Washington state government to focus on the citizens of Washington as valued customers of state government. State government will accomplish what its citizens truly expect of it, and operate as its customers expect.

Washington state government will be a government where state employees are recognized as our most valuable improvement resource in solving problems and delivering quality services, where employees play the most significant role in developing and implementing strategies to accomplish the purposes of this chapter, and where people want to work and are proud to serve. Washington state government will place a high priority on investment in its employees and the systems necessary to support those people.

We will have a state government where, regardless of the different responsibilities assumed under the constitutional separation of powers, the governor and the legislature operate in partnership to improve the whole of state government, including themselves and their processes; where the governor and legislature act in partnership with state employees and employee organizations; and where all government officials and employees act in partnership with the citizens of Washington, who are the customers for state government.

Washington state government will have clear measures of performance that will result in quality customer service, accountability for cost-effective services, and improved productivity. Quality and performance standards will improve service delivery from all suppliers of government services.

NEW SECTION. Sec. 3. PERFORMANCE PARTNERSHIP COUNCIL--ESTABLISHED--POWERS AND DUTIES. (1) The Washington performance partnership council is established. The council shall consist of:

- (a) The governor;
- (b) The majority leader of the senate;
- (c) The speaker of the house of representatives;
- (d) The minority leader of the senate;
- (e) The minority leader of the house of representatives; and
- (f) Two state-wide elected officials to be appointed by the governor.

(2) To the extent necessary to accomplish the purposes of this chapter, the council shall meet monthly. The council shall invite the chairs and ranking minority members of the senate committee on ways and means and the house of representatives committee on appropriations to attend and participate in the meetings of the council as necessary and appropriate. The council may also invite the chairs of other legislative committees to participate in meetings of the council.

(3) The governor, majority leader of the senate, and speaker of the house of representatives shall serve as co-chairs of the council.

(4) The council shall work in partnership to assure that the purposes and intent of this chapter are being met. The council shall establish clear expectations and measures of performance regarding implementation of the purpose and intent of this chapter. The council has decision-making

authority to authorize programs to accomplish the purposes of this chapter. The council will review recommendations from the operating committee established under section 4 of this act and make appropriate recommendations regarding statutory changes to the legislature.

(5) The council shall have the authority and responsibility to provide adequate resources to accomplish the objectives of this chapter, including the hiring of staff or the reassignment of existing staff. Decisions to reallocate existing staff from any agency shall be made only with the approval of the director of the agency.

(6) Within forty-five days of the effective date of this act, the council will appoint a full-time person to coordinate and facilitate the effort.

NEW SECTION. Sec. 4. PERFORMANCE PARTNERSHIP OPERATING COMMITTEE--ESTABLISHED--POWERS AND DUTIES. (1)

Within thirty days of the effective date of this act, the performance partnership council shall appoint the performance partnership operating committee, with no more than twelve members, comprised of:

- (a) The director of financial management;
- (b) Directors of state agencies, including independent agencies and agencies that report directly to the governor;
- (c) State employees and representatives of state employees;
- (d) Representatives of the legislature; and
- (e) Representatives of the private sector with expertise in organizational improvement strategies.

(2) Representatives of the private sector shall be appointed in equal number to representatives of the public sector. The director of financial management and a representative of the private sector, to be selected by the council, shall serve as cochair of the operating committee.

(3) The operating committee shall focus on the day-to-day operations of the improvement process and the allocation of necessary staff resources. The committee shall assure the planning, initiation, and implementation of the functions necessary to accomplish the purposes of this chapter, monitor assigned tasks, and consider and recommend short- and long-term improvement strategies to the performance partnership council.

(4) The operating committee shall ensure that the strategies and recommendations to accomplish the purposes of this chapter are developed primarily by front-line state employees and the customers of state government services. That assurance will be provided, in part, by facilitating work teams and design teams comprised of state employees, state employee organizations, customers, managers, legislators or legislative employees, and experts from outside government to develop the strategies and accomplish the tasks required under sections 5, 6, and 7 of this act.

(5) Within sixty days of the effective date of this act, the operating committee shall recommend to the council a work plan and budget to accomplish the purposes of this chapter, with particular detail regarding the first twelve months. The operating committee shall also develop a thorough and effective internal and external communication plan necessary to inform and activate the participants essential to the success of the effort.

NEW SECTION. Sec. 5. STATEMENT OF STRATEGIC INTENT. Working through the operating committee, the performance partnership council shall initiate a two-tracked process toward the long-term improvement of state government.

The first area of effort shall focus on clarifying and stating the strategic intent for Washington state government: What Washington state government should be doing at this current period in time. Included in the strategic intent for state government shall be a clear statement of the basic services that Washington state citizens desire, and the priorities and values which are centered on the customers of state government. The statement of intent, priorities, and values shall be developed within the context of revenue and expenditure limitations.

The council shall establish a process which effectively involves the customers and suppliers of state government services. The suppliers are primarily state employees, but might also include local government, private vendors of goods and services, and others as appropriate. The process shall be ongoing. The council shall prepare its initial statement of strategic intent for Washington state government by September 1, 1994, for recommendation to the 1995 legislature. The legislature shall either accept or reject, but cannot amend, the statement of strategic intent. The legislature shall take action on the initial recommendation by March 15, 1995. If the statement of strategic intent is not approved by the legislature, it shall be amended by the council and resubmitted.

The council shall recommend to the legislature an updated statement of strategic intent by September 1 of each even-numbered year for action by the legislature by March 15 in the following legislative session.

NEW SECTION. Sec. 6. IMPROVEMENT OF GOVERNMENT SERVICES--DESIGN TEAMS--INITIAL PROJECTS. (1) The second area of effort by the performance partnership council shall focus on continuous improvement of state government services by developing successful strategies to:

(a) Clearly identify the intended result of each state government service or program, and measure and communicate performance toward the intended result;

(b) Assess each activity and function of government to identify the value added toward the general strategic intent of state government and the specific result intended from the program or service, eliminate or redesign activities so that each function or activity makes a cost-effective contribution toward intended results, and design organizations that match the functions and processes of state government;

(c) Redesign the internal systems that support state government to be more consistent with a priority-driven, results-oriented, performance-based system of government, with highest priority to redesign of the budget system and the accounting system; and

(d) Identify and remove barriers to performance and create incentives for better performance and cost-effectiveness.

(2) The operating committee shall formulate design teams consisting of front-line employees, employee representatives, managers, customers, outside experts where appropriate, legislators or legislative staff, representatives of local government, vendors and other suppliers of state services, and any other persons deemed necessary or appropriate by the operating committee, to develop successful prototypes with application throughout the executive and legislative branches of government for implementation of the improvement principles described in subsection (1) of this section. The composition of the design teams shall be flexible and shall reflect the expertise required for the initial projects.

(3) Initial projects shall be undertaken to design strategies for successful implementation of each of the principles described in subsection (1) of this section and any others identified by the council as being essential to accomplish the purposes of this chapter. In developing successful strategies, the design teams shall also examine the best practices used in the public and private sectors to accomplish the objectives of subsection (1) of this section. The initial projects shall be designed to demonstrate definitive results, including effective methods for employee participation and empowerment techniques to facilitate and implement creative problem solving from all employees, effective means of customer involvement, consistent definitions and instructions, effective training plans and identification of resources required, successful project management strategies, and effective communication plans.

(4) The work plan described in section 4 of this act shall identify the initial projects to be undertaken. The initial projects shall be designed to develop effective performance improvement strategies that can be replicated in other areas of state government. Initial projects should be identified in an effort to demonstrate early success and immediate improvement in state government performance. It is not necessary at the outset to initiate projects for each of the principal government improvement strategies described in subsection (1) of this section. Rather, the work plan should describe an orderly schedule that will allow for integration of each of the initial projects in a way that will result in coordinated strategies for continuous improvement. The initial projects for improvement should be consistent with efforts to define the strategic intent for Washington state government.

(5) The council shall determine when an initiative has resulted in successful strategies that should be expanded to a broader portion, or the whole, of state government. The council shall recommend statutory changes to the legislature when such changes are required to accomplish the purposes of this chapter. The council shall also develop legislation to alter statutes, rules, and regulations necessary for initial agencies and programs to accomplish the purposes of this chapter, and to expand projects to a broader portion of state government at the appropriate time. The legislation shall be based on the work of project teams designed to identify and address barriers to performance and create incentives.

(6) The performance partnership council and operating committee shall ensure the work of the design teams is supported by committed leadership that provides clear vision and motivation and facilitates effective communication. State employees shall be recognized and supported as the single resource most effective in identifying and solving problems and delivering effective state government services. Employees shall be well supported by the provision of necessary resources, particularly an investment in employee training, and shall be provided with the flexibility and incentives necessary to successfully implement their assigned tasks. The ultimate goal of the design teams shall be to develop strategies to improve state government in regard to the customers' expectations for quality services delivered in the most cost-effective means possible.

NEW SECTION. Sec. 7. BUDGET PROCESS--PERFORMANCE MEASUREMENT. The current operating budget process for state government has been generally based on the presumption of continuing current service levels and giving careful consideration only to marginal changes. It is not well understood or supported by the public or state government policymakers. Consequently, work on initial projects for performance measurement and budget redesign must progress sufficiently to result in expansion to additional programs for the 1995-1997 biennium. Beginning no later than the 1997-1999 biennium, the state operating budget and the process used to develop that budget shall, to the fullest extent possible and based on the recommendations of the council, be redesigned to reflect an effective state-wide system of performance measurement, shall be based on a clear statement of state-wide priorities (strategic intent) as well as clear priorities within each agency, and shall incorporate incentives for performance and cost-effectiveness.

NEW SECTION. Sec. 8. COLLECTIVE BARGAINING AGREEMENTS. Nothing in this chapter shall supersede or modify in any manner the provisions of any public employee collective bargaining agreement under Title 41 RCW, or any rights established thereunder.

(1) For purposes of developing budget proposals to the legislature, the governor shall have the power, and it shall be the governor's duty, to require from proper agency officials such detailed estimates and other information in such form and at such times as the governor shall direct. The estimates for the legislature and the judiciary shall be transmitted to the governor and shall be included in the budget without revision. The estimates for state pension contributions shall be based on the rates provided in chapter 41.45 RCW. Sec. 11. RCW 43.88.160 and 1993 c 500 s 7, 1993 c 406 s 4, and 1993 c 194 s 6 are each reenacted and amended to read as follows:

This section sets forth the major fiscal duties and responsibilities of officers and agencies of the executive branch. The regulations issued by the governor pursuant to this chapter shall provide for a comprehensive, orderly basis for fiscal management and control, including efficient accounting and reporting therefor, for the executive branch of the state government and may include, in addition, such requirements as will generally promote more efficient public management in the state.

(1) Governor; director of financial management. The governor, through the director of financial management, shall devise and supervise a modern and complete accounting system for each agency to the end that all revenues, expenditures, receipts, disbursements, resources, and obligations of the state shall be properly and systematically accounted for. The accounting system shall include the development of accurate, timely records and reports of all financial affairs of the state. The system shall also provide for central accounts in the office of financial management at the level of detail deemed necessary by the director to perform central financial management. The director of financial management shall adopt and periodically update an accounting procedures manual. Any agency maintaining its own accounting and reporting system shall comply with the updated accounting procedures manual and the rules of the director adopted under this chapter. An agency may receive a waiver from complying with this requirement if the waiver is approved by the director. Waivers expire at the end of the fiscal biennium for which they are granted. The director shall forward notice of waivers granted to the appropriate legislative fiscal committees. The director of financial management may require such financial, statistical, and other reports as the director deems necessary from all agencies covering any period.

(2) The director of financial management is responsible for quarterly reporting of primary operating budget drivers such as applicable workloads, caseload estimates, and appropriate unit cost data. These reports shall be transmitted to the legislative fiscal committees or by electronic means to the legislative evaluation and accountability program committee. Quarterly reports shall include actual monthly data and the variance between actual and estimated data to date. The reports shall also include estimates of these items for the remainder of the budget period.

(3) The director of financial management shall report at least annually to the appropriate legislative committees regarding the status of all appropriated capital projects, including transportation projects, showing significant cost overruns or underruns. If funds are shifted from one project to another, the office of financial management shall also reflect this in the annual variance report. Once a project is complete, the report shall provide a final summary showing estimated start and completion dates of each project phase compared to actual dates, estimated costs of each project phase compared to actual costs, and whether or not there are any outstanding liabilities or unsettled claims at the time of completion.

(4) In addition, the director of financial management, as agent of the governor, shall:

(a) Develop and maintain a system of internal controls and internal audits comprising methods and procedures to be adopted by each agency that will safeguard its assets, check the accuracy and reliability of its accounting data, promote operational efficiency, and encourage adherence to prescribed managerial policies for accounting and financial controls. The system developed by the director shall include criteria for determining the scope and comprehensiveness of internal controls required by classes of agencies, depending on the level of resources at risk.

Each agency head or authorized designee shall be assigned the responsibility and authority for establishing and maintaining internal audits following the standards of internal auditing of the institute of internal auditors;

(b) Make surveys and analyses of agencies with the object of determining better methods and increased effectiveness in the use of manpower and materials; and the director shall authorize expenditures for employee training to the end that the state may benefit from training facilities made available to state employees;

(c) Establish policies for allowing the contracting of child care services;

(d) Report to the governor with regard to duplication of effort or lack of coordination among agencies;

(e) Review any pay and classification plans, and changes thereunder, developed by any agency for their fiscal impact: PROVIDED, That none of the provisions of this subsection shall affect merit systems of personnel management now existing or hereafter established by statute relating to the fixing of qualifications requirements for recruitment, appointment, or promotion of employees of any agency. The director shall advise and confer with agencies including appropriate standing committees of the legislature as may be designated by the speaker of the house and the president of the senate regarding the fiscal impact of such plans and may amend or alter said plans, except that for the following agencies no amendment or alteration of said plans may be made without the approval of the agency concerned: Agencies headed by elective officials;

(f) Fix the number and classes of positions or authorized man years of employment for each agency and during the fiscal period amend the determinations previously fixed by the director except that the director shall not be empowered to fix said number or said classes for the following: Agencies headed by elective officials;

(g) Provide for transfers and repayments between the budget stabilization account and the general fund as directed by appropriation and RCW 43.88.525 through 43.88.540;

(h) Adopt rules to effectuate provisions contained in (a) through (g) of this subsection.

(5) The treasurer shall:

(a) Receive, keep, and disburse all public funds of the state not expressly required by law to be received, kept, and disbursed by some other persons: PROVIDED, That this subsection shall not apply to those public funds of the institutions of higher learning which are not subject to appropriation;

(b) Receive, disburse, or transfer public funds under the treasurer's supervision or custody;

(c) Keep a correct and current account of all moneys received and disbursed by the treasurer, classified by fund or account;

(d) Coordinate agencies' acceptance and use of credit cards and other payment methods, if the agencies have received authorization under RCW 43.41.180;

(e) Perform such other duties as may be required by law or by regulations issued pursuant to this law.

It shall be unlawful for the treasurer to disburse public funds in the treasury except upon forms or by alternative means duly prescribed by the director of financial management. These forms or alternative means shall provide for authentication and certification by the agency head or the agency head's designee that the services have been rendered or the materials have been furnished; or, in the case of loans or grants, that the loans or grants are authorized by law; or, in the case of payments for periodic maintenance services to be performed on state owned equipment, that a written contract for such periodic maintenance services is currently in effect and copies thereof are on file with the office of financial management; and the treasurer shall not be liable under the treasurer's surety bond for erroneous or improper payments so made. When services are lawfully paid for in advance of full performance by any private individual or business entity other than as provided for by RCW 42.24.035, such individual or entity other than central stores rendering such services shall make a cash deposit or furnish surety bond coverage to the state as shall be fixed in an amount by law, or if not fixed by law, then in such amounts as shall be fixed by the director of the department of general administration but in no case shall such required cash deposit or surety bond be less than an amount which will fully indemnify the state against any and all losses on account of breach of promise to fully perform such services. No payments shall be made in advance for any equipment maintenance services to be performed more than three months after such payment. Any such bond so furnished shall be conditioned that the person, firm or corporation receiving the advance payment will apply it toward performance of the contract. The responsibility for recovery of erroneous or improper payments made under this section shall lie with the agency head or the agency head's designee in accordance with regulations issued pursuant to this chapter. Nothing in this section shall be construed to permit a public body to advance funds to a private service provider pursuant to a grant or loan before services have been rendered or material furnished.

(6) The state auditor shall:

(a) Report to the legislature the results of current post audits that have been made of the financial transactions of each agency; to this end the auditor may, in the auditor's discretion, examine the books and accounts of any agency, official or employee charged with the receipt, custody or safekeeping of public funds. Where feasible in conducting examinations, the auditor shall utilize data and findings from the internal control system prescribed by the office of financial management. The current post audit of each agency may include a section on recommendations to the legislature as provided in (c) of this subsection.

(b) Give information to the legislature, whenever required, upon any subject relating to the financial affairs of the state.

(c) Make the auditor's official report on or before the thirty-first of December which precedes the meeting of the legislature. The report shall be for the last complete fiscal period and shall include determinations as to whether agencies, in making expenditures, complied with the laws of this state. The state auditor is authorized to perform or participate in performance ((audits)) verifications only as expressly authorized by the legislature in the omnibus biennial appropriations acts. ~~((A performance audit for the purpose of this section is the examination of the effectiveness of the administration, its efficiency, and its adequacy in terms of the programs of departments or agencies as previously approved by the legislature.))~~ The state auditor, upon completing an audit for legal and financial compliance under chapter 43.09 RCW or a performance verification, may report to the legislative budget committee or other appropriate committees of the legislature, in a manner prescribed by the legislative budget committee, on facts relating to the management or performance of governmental programs where such facts are discovered incidental to the legal and financial audit or performance verification. The auditor may make such a report to a legislative committee only if the auditor has determined that the agency has been given an opportunity and has failed to resolve the management or performance issues raised by the auditor. If the auditor makes a report to a legislative committee, the agency may submit to the committee a response to the report. This subsection (6) shall not be construed to authorize the auditor to allocate other than de minimis resources to performance audits except as expressly authorized in the appropriations acts.

(d) Be empowered to take exception to specific expenditures that have been incurred by any agency or to take exception to other practices related in any way to the agency's financial transactions and to cause such exceptions to be made a matter of public record, including disclosure to the agency concerned and to the director of financial management. It shall be the duty of the director of financial management to cause corrective action to be taken promptly, such action to include, as appropriate, the withholding of funds as provided in RCW 43.88.110.

(e) Promptly report any irregularities to the attorney general.

(f) Investigate improper governmental activity under chapter 42.40 RCW.

(7) The legislative budget committee may:

(a) Make post audits of the financial transactions of any agency and management surveys and program reviews as provided for in RCW 44.28.085 as well as performance audits and program evaluations. To this end the committee may in its discretion examine the books, accounts, and other records of any agency, official, or employee.

(b) Give information to the legislature or any legislative committee whenever required upon any subject relating to the performance and management of state agencies.

(c) Make a report to the legislature which shall include at least the following:

(i) Determinations as to the extent to which agencies in making expenditures have complied with the will of the legislature and in this connection, may take exception to specific expenditures or financial practices of any agencies; and

(ii) Such plans as it deems expedient for the support of the state's credit, for lessening expenditures, for promoting frugality and economy in agency affairs and generally for an improved level of fiscal management.

SECOND READING

REENGROSSED SUBSTITUTE HOUSE BILL NO. 1471, by House Committee on Fisheries and Wildlife (originally sponsored by Representatives King, Basich, Orr, Fuhrman, Brumsickle, Foreman and G. Cole)

Regulating the non-Puget Sound coastal commercial crab fishery.

The bill was read the second time.

MOTIONS

On motion of Senator Owen, the following Committee on Natural Resources amendment was adopted:
Strike everything after the enacting clause and insert the following:
NEW SECTION. Sec. 1. The legislature finds that the commercial crab fishery in coastal and offshore waters is overcapitalized. The legislature further finds that this overcapitalization has led to the economic destabilization of the coastal crab industry, and can cause excessive harvesting pressures on the coastal crab resources of Washington state. In order to provide for the economic well-being of the Washington crab industry and to protect the livelihood of Washington crab fishers who have historically and continuously participated in the coastal crab fishery, the legislature finds that it is in the best interests of the economic well-being of the coastal crab industry to reduce the number of fishers taking crab in coastal waters, to reduce the number of vessels landing crab taken in offshore waters, to limit the number of future licenses, and to limit fleet capacity by limiting vessel size.
NEW SECTION. Sec. 2. (1) Effective January 1, 1995, it is unlawful to fish for coastal crab in Washington state waters without a Dungeness crab--coastal or a Dungeness crab--coastal class B fishery license.
(2) A Dungeness crab--coastal fishery license is transferable. Such a license shall only be issued to a person who proved active historical participation in the coastal crab fishery by having designated, after December 31, 1993, a vessel on the qualifying license that meets the following criteria:
(a) Made a minimum of eight coastal crab landings totaling a minimum of five thousand pounds per season in at least two of the four qualifying seasons identified in subsection (4) of this section, as documented by valid Washington state shellfish receiving tickets; and showed historical and continuous participation in the coastal crab fishery by having held one of the following licenses or their equivalents each calendar year beginning 1990 through 1993, and was designated on the qualifying license of the person who held one of the following licenses in 1994:
(i) Crab pot—Non-Puget Sound license, issued under RCW 75.28.130(1)(b);
(ii) Nonsalmon delivery license, issued under RCW 75.28.125;
(iii) Salmon troll license, issued under RCW 75.28.110;
(iv) Salmon delivery license, issued under RCW 75.28.113;

(v) Food fish trawl license, issued under RCW 75.28.120; or

(vi) Shrimp trawl license, issued under RCW 75.28.130; or

(b) Made a minimum of four landings of coastal crab totaling two thousand pounds during the period from December 1, 1991, to March 20, 1992, and made a minimum of eight crab landings totaling a minimum of five thousand pounds of coastal crab during each of the following periods: December 1, 1991, to September 15, 1992; December 1, 1992, to September 15, 1993; and December 1, 1993, to September 15, 1994. For landings made after December 31, 1993, the vessel shall have been designated on the qualifying license of the person making the landings.

(3) A Dungeness crab--coastal class B fishery license is not transferable. Such a license shall be issued to persons who do not meet the qualification criteria for a Dungeness crab--coastal fishery license, if the person has designated on a qualifying license after December 31, 1993, a vessel that made a minimum of four landings totaling a minimum of two thousand pounds of coastal crab, documented by valid Washington state shellfish receiving tickets, during at least one of the four qualifying seasons, and if the person has participated continuously in the coastal crab fishery by having held or by having owned a vessel that held one or more of the licenses listed in subsection (2) of this section in each calendar year subsequent to the qualifying season in which qualifying landings were made through 1994. Dungeness crab--coastal class B fishery licenses cease to exist after December 31, 2000, and the continuing license provisions of RCW 34.05.422(3) are not applicable.

(4) The four qualifying seasons for purposes of this section are:

(a) December 1, 1988, through September 15, 1989;

(b) December 1, 1989, through September 15, 1990;

(c) December 1, 1990, through September 15, 1991; and

(d) December 1, 1991, through September 15, 1992.

(5) For purposes of this section and section 6 of this act, "coastal crab" means Dungeness crab (cancer magister) taken in all Washington territorial waters south of the United States-Canada boundary and west of the Bonilla-Tatoosh line (a line from the western end of Cape Flattery to Tatoosh Island lighthouse, then to the buoy adjacent to Duntz Rock, then in a straight line to Bonilla Point of Vancouver island), Grays Harbor, Willapa Bay, and the Columbia river.

NEW SECTION. Sec. 3. The legislature finds that some persons may have seriously planned to enter the commercial crab fishery, but were unable to fulfill the landing requirements because the vessel under construction was not completed in sufficient time to make the qualifying landings.

(1) A person who cannot demonstrate participation in the coastal crab fishery under section 2 of this act shall be awarded a Dungeness crab--coastal fishery license if:

(a) The person, after December 31, 1993, has designated a vessel on the qualifying license that was in the process of being constructed for the purpose of being employed in the Washington coastal crab fishery on September 15, 1992. For purposes of this section, "construction" means having the keel laid, and "for the purpose of being employed in the Washington coastal crab fishery" means the vessel is designed to retrieve crab pots mechanically and has a live well; and

(b) The vessel landed both five thousand pounds of coastal crab into a Washington port before September 15, 1993, and five thousand pounds of coastal crab in eight landings between December 1, 1993, and September 15, 1994; or

(c) The vessel under construction is a replacement vessel for a lost vessel that, had it not been lost, would have met eligibility requirements for the applicant for a Dungeness crab--coastal fishery license.

(2) All applications for Dungeness crab--coastal fishery licenses under this section shall be subject to review by the advisory review board in accordance with RCW 75.30.060. The board shall recommend to the director whether such applications should be accepted.

NEW SECTION. Sec. 4. For the purpose of purchasing Dungeness crab--coastal class B fishery licenses, a temporary surcharge of two hundred dollars shall be collected with each Dungeness crab--coastal fishery license, and each Dungeness crab--coastal class B fishery license issued under RCW 75.28.130. The surcharge shall be in effect from December 1, 1994, until sufficient funds are collected to buy back the number of crab licenses to reduce the number to two hundred licenses, or until September 15, 1999. The moneys shall be deposited in the coastal crab account which is hereby created in the custody of the state treasurer. Only the director or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW but no appropriation is required for expenditures. Funds may be used only for license purchase as defined in section 5 of this act. The fiscal committees of the legislature shall review the status and expenditures from the coastal crab account yearly to determine if repeal of the fee is appropriate given the purpose of license reduction under the license moratorium. Funds remaining in the coastal crab account after November 30, 1999, shall revert to the general fund.

NEW SECTION. Sec. 5. Expenditures from the coastal crab account may be made by the department of fish and wildlife to purchase Dungeness crab--coastal class B fishery licenses during the following time periods:

(1) June 1, 1995, to November 30, 1995, at a price not to exceed five thousand dollars per license;

(2) December 1, 1995, to November 30, 1996, at a price not to exceed three thousand five hundred dollars per license;

(3) December 1, 1996, to November 30, 1997, at a price not to exceed two thousand five hundred dollars per license;

(4) December 1, 1997, to November 30, 1998, at a price not to exceed one thousand five hundred dollars per license; or

(5) December 1, 1998, to November 30, 1999, at a price not to exceed five hundred dollars per license.

The department shall establish rules governing the purchase of class B licenses. Dungeness crab--coastal class B fishery licensees may apply to the department for the purposes of selling their license on a willing-seller basis. Licenses will be purchased in the order applications are received, or as funds allow.

NEW SECTION. Sec. 6. (1) An Oregon resident who can show historical and continuous participation in the Washington state coastal crab fishery by having held a nonresident Non-Puget Sound crab pot license issued under RCW 75.28.130 each year from 1990 through 1994, and who has delivered a minimum of eight landings totaling five thousand pounds of crab into Oregon during any two of the four qualifying seasons as provided in section 2(4) of this act as evidenced by valid Oregon fish receiving tickets, shall be issued a nonresident Dungeness crab--coastal fishery license valid for fishing in Washington state waters north from the Oregon-Washington boundary to United States latitude forty-six degrees thirty minutes north. Such license shall be issued upon application and submission of proof of delivery.

(2) This section shall become effective contingent upon reciprocal statutory authority in the state of Oregon providing for equal access for Washington state coastal crab fishers to Oregon territorial coastal waters north of United States latitude forty-five degrees fifty-eight minutes north, and Oregon waters of the Columbia river.

NEW SECTION. Sec. 7. (1) The following restrictions apply to vessel designations and substitutions on Dungeness crab--coastal fishery licenses and Dungeness crab--coastal class B fishery licenses:

(a) The holder of the license may not designate on the license a vessel the hull length of which exceeds ninety-nine feet, nor may the holder change vessel designation if the hull length of the vessel proposed to be designated exceeds the hull length of the currently designated vessel by more than ten feet;

(b) If the hull length of the vessel proposed to be designated is comparable to or exceeds by up to one foot the hull length of the currently designated vessel, the department may change the vessel designation no more than once in any two consecutive Washington state coastal crab seasons unless the currently designated vessel is lost or in disrepair such that it does not safely operate, in which case the department may allow a change in vessel designation;

(c) If the hull length of the vessel proposed to be designated exceeds by between one and ten feet the hull length of the currently designated vessel, the department may change the vessel designation no more than once in any five consecutive Washington state coastal crab seasons, unless a request is made by the license holder during a Washington state coastal crab season for an emergency change in vessel designation. If such an emergency request is made, the director may allow a temporary change in designation to another vessel, if the hull length of the other vessel does not exceed by more than ten feet the hull length of the currently designated vessel.

(2) For the purposes of this section, "hull length" means the length of a vessel's hull as shown by United States coast guard documentation or marine survey, or for vessels that do not require United States coast guard documentation, by manufacturer's specifications or marine survey.

Sec. 8. RCW 75.28.044 and 1993 sp.s. c 17 s 45 are each amended to read as follows:

This section applies to all commercial fishery licenses, delivery licenses, and charter licenses, except for emergency salmon delivery licenses.

(1) The holder of a license subject to this section may substitute the vessel designated on the license or designate a vessel if none has previously been designated if the license holder:

(a) Surrenders the previously issued license to the department;

(b) Submits to the department an application that identifies the currently designated vessel, the vessel proposed to be designated, and any other information required by the department; and

(c) Pays to the department a fee of thirty-five dollars.

(2) Unless the license holder owns all vessels identified on the application described in subsection (1)(b) of this section or unless the vessel is designated on a Dungeness crab--coastal or a Dungeness crab--coastal class B fishery license, the following restrictions apply to changes in vessel designation:

(a) The department shall change the vessel designation on the license no more than four times per calendar year.

(b) The department shall change the vessel designation on the license no more than once in any seven-day period.

Sec. 9. RCW 75.28.046 and 1993 c 340 s 9 are each amended to read as follows:

This section applies to all commercial fishery licenses, delivery licenses, and charter licenses, except for whiting--Puget Sound fishery licenses and emergency salmon delivery licenses.

(1) The license holder may engage in the activity authorized by a license subject to this section. With the exception of Dungeness crab--coastal fishery class B licensees licensed under section 2(3) of this act, the holder of a license subject to this section may also designate up to two alternate operators for the license. Dungeness crab--coastal fishery class B licensees may not designate alternate operators. A person designated as an alternate operator must possess an alternate operator license issued under section 23 of this act and RCW 75.28.048.

(2) The fee to change the alternate operator designation is twenty-two dollars.

NEW SECTION. Sec. 10. Except as provided under section 14 of this act, the director shall issue no new Dungeness crab--coastal fishery licenses after December 31, 1995. A person may renew an existing license only if the person held the license sought to be renewed during the previous year or acquired the license by transfer from someone who held it during the previous year, and if the person has not subsequently transferred the license to another person. Where the person failed to obtain the license during the previous year because of a license suspension, the person may qualify for a license by establishing that the person held such a license during the last year in which the license was not suspended.

Sec. 11. RCW 75.28.130 and 1993 sp.s. c 17 s 40 are each amended to read as follows:

(1) This section establishes commercial fishery licenses required for shellfish fisheries and the annual fees for those licenses. The director may issue a limited-entry commercial fishery license only to a person who meets the qualifications established in applicable governing sections of this title.

(2) The director may by rule determine the species of shellfish that may be taken with the commercial fishery licenses established in this section, the gear that may be used with the licenses, and the areas or waters in which the licenses may be used. Where a fishery license has been established for a particular species, gear, geographical area, or combination thereof, a more general fishery license may not be used to take shellfish in that fishery.

NEW SECTION. Sec. 12. A surcharge of fifty dollars shall be collected with each Dungeness crab--coastal fishery license issued under RCW 75.28.130 until June 30, 2000, and with each Dungeness crab--coastal class B fishery license issued under RCW 75.28.130 until December 31, 1997. Moneys collected under this section shall be placed in the Dungeness crab appeals account hereby created in the state treasury. The account is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures. Expenditures from the account shall only be used for processing appeals related to the issuance of Dungeness crab--coastal fishery licenses.

NEW SECTION. Sec. 13. (1) It is unlawful for Dungeness crab--coastal fishery licensees to take Dungeness crab in the waters of the exclusive economic zone westward of the states of Oregon or California and land crab taken in those waters into Washington state unless the licensee also holds the licenses, permits, or endorsements, required by Oregon or California to land crab into Oregon or California, respectively.

(2) This section becomes effective only upon reciprocal legislation being enacted by both the states of Oregon and California. For purposes of this section, "exclusive economic zone" means that zone defined in the federal fishery conservation and management act (16 U.S.C. Sec. 1802) as of the effective date of this section or as of a subsequent date adopted by rule of the director.

NEW SECTION. Sec. 14. If fewer than one hundred seventy-five persons are eligible for Dungeness crab--coastal fishery licenses, the director may accept applications for new licenses. Additional licenses issued shall be sufficient to maintain a maximum of one hundred seventy-five licenses in the Washington coastal crab fishery. If additional licenses are to be issued, the director shall adopt rules governing the notification, application, selection, and issuance procedures for new Dungeness crab--coastal fishery licenses, based on recommendations of the review board established under RCW 75.30.050.

Sec. 15. RCW 75.30.050 and 1993 c 376 s 9 and 1993 c 340 s 27 are each reenacted and amended to read as follows:

(2) Members shall serve at the discretion of the director and shall be reimbursed for travel expenses as provided in RCW 43.03.050, 43.03.060, and 43.03.065.

NEW SECTION. Sec. 16. The director may reduce the landing requirements established under section 2 of this act upon the recommendation of an advisory review board established under RCW 75.30.050, but the director may not entirely waive the landing requirement. The advisory review board may recommend a reduction of the landing requirement in individual cases if in the board's judgment, extenuating circumstances prevented achievement of the landing requirement. The director shall adopt rules governing the operation of the advisory review board and defining "extenuating circumstances." In defining extenuating circumstances, special consideration shall be given to individuals who can provide evidence of lack of access to capital based on past discrimination due to race, creed, color, sex, national origin, or disability.

NEW SECTION. Sec. 17. The department, with input from Dungeness crab--coastal fishery licensees and processors, shall prepare a resource plan to achieve even-flow harvesting and long-term stability of the coastal Dungeness crab resource. The plan may include pot limits, further reduction in the number of vessels, individual quotas, trip limits, area quotas, or other measures as determined by the department. The plan shall be submitted to the appropriate standing committees of the legislature by December 1, 1995.

Sec. 18. RCW 75.28.125 and 1993 sp.s. c 17 s 39 and 1993 c 376 s 3 are each reenacted and amended to read as follows:

(1) Except as provided in subsection (2) of this section, it is unlawful to deliver with a commercial fishing vessel food fish or shellfish taken in offshore waters to a port in the state without a ~~((non-salmon))~~ nonlimited entry delivery license. As used in this section, "food fish" does not include salmon. As used in this section, "shellfish" does not include ocean pink shrimp or coastal crab. The annual license fee for a ~~((non-salmon))~~ nonlimited entry delivery license is one hundred ten dollars for residents and two hundred dollars for nonresidents.

(2) Holders of salmon troll fishery licenses issued under RCW 75.28.110, salmon delivery licenses issued under RCW 75.28.113, crab pot fishery licenses issued under RCW 75.28.130, food fish trawl--Non-Puget Sound fishery licenses issued under RCW 75.28.120, Dungeness crab--coastal fishery licenses, ocean pink shrimp delivery licenses, and shrimp trawl--Non-Puget Sound fishery licenses issued under RCW 75.28.130 may deliver food fish or shellfish taken in offshore waters without a ~~((non-salmon))~~ nonlimited entry delivery license.

(3) A ~~((non-salmon))~~ nonlimited entry delivery license authorizes no taking of food fish or shellfish from state waters.

(4) Coastal crab, as defined in section 2 of this act, taken in offshore waters with a commercial fishing vessel may be delivered to a port in this state without a nonlimited entry delivery license.

Sec. 19. RCW 75.28.113 and 1993 sp.s. c 17 s 36 are each amended to read as follows:

(1) It is unlawful to deliver salmon taken in offshore waters to a place or port in the state without a salmon delivery license from the director. The annual fee for a salmon delivery license is three hundred eighty dollars for residents and six hundred eighty-five dollars for nonresidents. The annual surcharge under RCW 75.50.100 is one hundred dollars for each license. Holders of ~~((non-salmon))~~ nonlimited entry delivery licenses issued under RCW 75.28.125 may apply the ~~((non-salmon))~~ nonlimited entry delivery license fee against the salmon delivery license fee.

(2) Only a person who meets the qualifications established in RCW 75.30.120 may hold a salmon delivery license issued under this section.

(3) A salmon delivery license authorizes no taking of salmon or other food fish or shellfish from the waters of the state.

(4) If the director determines that the operation of a vessel under a salmon delivery license results in the depletion or destruction of the state's salmon resource or the delivery into this state of salmon products prohibited by law, the director may revoke the license under the procedures of chapter 34.05 RCW.

NEW SECTION. Sec. 20. (1) Section 12 of this act is added to chapter 75.28 RCW.

(2) Sections 2 through 7, 10, 13, 14, 16, and 17 of this act are each added to chapter 75.30 RCW.

Making retirement contributions and payments.

The bill was read the second time.

MOTION

Senator Snyder moved that the following Committee on Ways and Means amendment be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature finds that:

(1) Whenever employer or member contributions are not made at the time service is rendered, the state retirement system trust funds lose investment income which is a major source of pension funding. The department of retirement systems has broad authority to charge interest to compensate for the loss to the trust funds, subject only to explicit statutory provisions to the contrary.

(2) The inherent authority of the department to recover all overpayments and unauthorized payments from the retirement trust funds, for the benefit of members and taxpayers, should be established clearly in statute.

NEW SECTION. Sec. 2. A new section is added to chapter 41.50 RCW to read as follows:

The department may charge interest, as determined by the director, on member or employer contributions owing to any of the retirement systems listed in RCW 41.50.030. The department's authority to charge interest shall extend to all optional and mandatory billings for contributions where member or employer contributions are paid other than immediately after service is rendered. Except as explicitly limited by statute, the director may delay the imposition of interest charges on late contributions under this section if the delay is necessary to implement required changes in the department's accounting and information systems.

Sec. 3. RCW 41.50.130 and 1987 c 490 s 1 are each amended to read as follows:

(1) The director may at any time correct errors appearing in the records of the retirement systems listed in RCW 41.50.030. Should any error in such records result in any member ~~((or)), beneficiary, or other person or entity~~ receiving more or less than he or she would have been entitled to had the records been correct, the director, subject to the conditions set forth in this section, shall adjust the payment in such a manner that the benefit to which such member ~~((or)), beneficiary, or other person or entity~~ was correctly entitled shall be paid in accordance with the following:

(a) In the case of underpayments to a member or beneficiary, the retirement system shall correct all future payments from the point of error detection, and shall compute the additional payment due for the allowable prior period which shall be paid in a lump sum by the appropriate retirement system.

(b) In the case of overpayments to a member or beneficiary, the retirement system shall adjust the payment in such a manner that the benefit to which such member or beneficiary was correctly entitled shall be reduced by an amount equal to the actuarial equivalent of the amount of overpayment. Alternatively the member shall have the option of repaying the overpayment in a lump sum within ninety days of notification and receive the proper benefit in the future. In the case of overpayments to a member ~~((or)), beneficiary, or other person or entity~~ resulting from actual fraud on the part of the member ~~((or)), beneficiary, or other person or entity~~, the benefits shall be adjusted to reflect the full amount of such overpayment, plus interest at the ~~((maximum rate allowed under RCW 49.52.020(4) as it was in effect the first month the overpayment occurred))~~ rate of one percent per month on the outstanding balance.

(c) In the case of overpayments to a person or entity other than a member or beneficiary, the overpayment shall constitute a debt from the person or entity to the department, recovery of which shall not be barred by laches or statute of limitations.

(2) Except in the case of actual fraud, in the case of overpayments to a member or beneficiary, the benefits shall be adjusted to reflect only the amount of overpayments made within three years of discovery of the error, notwithstanding any provision to the contrary in chapter 4.16 RCW.

(3)(a) The employer shall elicit on a written form from all new employees as to their having been retired from a retirement system listed in RCW 41.50.030.

(b) In the case of overpayments which result from the failure of an employer to report properly to the department the employment of a retiree from information received in subparagraph (a), the employer shall, upon receipt of a billing from the department, pay into the appropriate retirement system the amount of the overpayment plus interest as determined by the director. However, except in the case of actual employer fraud, the overpayments charged to the employer under this subsection shall not exceed five thousand dollars for each year of overpayments received by a retiree. The retiree's benefits upon rereirement shall not be reduced because of such overpayment except as necessary to recapture contributions required for periods of employment.

(c) The provision of this subsection regarding the reduction of retirees' benefits shall apply to recovery actions commenced on or after January 1, 1986, even though the overpayments resulting from retiree employment were discovered by the department prior to that date. The provisions of this subsection regarding the billing of employers for overpayments shall apply to overpayments made after January 1, 1986.

(4) Except in the case of actual fraud, no monthly benefit shall be reduced by more than fifty percent of the member's or beneficiary's corrected benefit. Any overpayment not recovered due to the inability to actuarially reduce a member's benefit due to: (a) The provisions of this subsection; or (b) the fact that the retiree's monthly retirement allowance is less than the monthly payment required to effectuate an actuarial reduction, shall constitute a claim against the estate of a member, beneficiary, or other person or entity in receipt of an overpayment.

(5) Except as provided in subsection (2) of this section, obligations of employers or members until paid to the department shall constitute a debt from the employer or member to the department, recovery of which shall not be barred by laches or statutes of limitation.

NEW SECTION. Sec. 4. A new section is added to chapter 41.50 RCW to read as follows:

(1) If a person receives a withdrawal of accumulated contributions from any of the retirement systems listed in RCW 41.50.030 in contravention of the restrictions on withdrawal for the particular system, the member shall no longer be entitled to credit for the period of service represented by the withdrawn contributions. The erroneous withdrawal shall be treated as an authorized withdrawal, subject to all conditions imposed by the member's system for restoration of withdrawn contributions. Failure to restore the contributions within the time permitted by the system shall constitute a waiver by the member of any right to receive a retirement allowance based upon the period of service represented by the withdrawn contributions.

(2) All erroneous withdrawals occurring prior to the effective date of this section shall be subject to the provisions of this section. The deadline for restoring the prior erroneous withdrawals shall be five years from the effective date of this section for members who are currently active members of a system.

Sec. 5. RCW 41.32.500 and 1991 c 35 s 57 are each amended to read as follows:

(1) Membership in the retirement system is terminated when a member retires for service or disability, dies, or withdraws ~~((the))~~ his or her accumulated contributions ~~((or does not establish service credit with the retirement system for five consecutive years; however, a member may retain membership in the teachers' retirement system by leaving the accumulated contributions in the teachers' retirement fund under one of the following conditions:~~

~~((a) If he or she is eligible for retirement;~~

~~((b) If he or she is a member of another public retirement system in the state of Washington by reason of change in employment and has arranged to have membership extended during the period of such employment;~~

~~((c) If he or she is not eligible for retirement but has established five or more years of Washington membership service credit.))~~

The prior service certificate becomes void when a member dies ~~((;))~~ or withdraws the accumulated contributions ~~((or does not establish service credit with the retirement system for five consecutive years)), and any prior administrative interpretation of the board of trustees, consistent with this section, is hereby ratified, affirmed and approved.~~

~~((2) ((Any member, except an elected official, who reentered service and who failed to restore withdrawn contributions, shall now have from April 4, 1986, through June 30, 1987, to restore the contributions, with interest as determined by the director.~~

~~((3))~~ Within the ninety days following the employee's resumption of employment, the employer shall notify the department of the resumption and the department shall then return to the employer a statement of the potential service credit to be restored, the amount of funds required for restoration, and the date when the restoration must be accomplished. The employee shall be given a copy of the statement and shall sign a copy of the statement which signed copy shall be placed in the employee's personnel file.

Sec. 6. RCW 41.32.510 and 1982 1st ex.s. c 52 s 15 are each amended to read as follows:

Should a member cease to be employed by an employer and request upon a form provided by the department a refund of the member's accumulated contributions with interest, this amount shall be paid to the individual less any withdrawal fee which may be assessed by the director which shall be deposited in the department of retirement systems expense fund. The amount withdrawn, together with interest as determined by the director must be paid if the member desires to reestablish the former service credits. ~~((Termination of employment with one employer for the specific purpose of accepting employment with another employer or termination with one employer and reemployment with the same employer, whether for the same school year or for the ensuing school year, shall not qualify a member for a refund of the member's accumulated contributions. A member who files an application for a refund of the member's accumulated contributions and subsequently enters into a contract for or resumes public school employment before a refund payment has been made shall not be eligible for such payment.))~~ A member who files a request for a refund and subsequently enters into employment with an employer prior to the refund being made shall not be eligible for a refund. For purposes of this section, a written or oral employment agreement shall be considered entering into employment.

Sec. 7. RCW 41.40.280 and 1991 c 35 s 86 are each amended to read as follows:

The department may, in its discretion, withhold payment of all or part of a member's contributions for not more than six months after a member has ceased to be an employee. ~~((Termination of employment with one employer for the purpose of accepting employment with another employer or termination with one employer and reemployment with the same employer within a period of thirty days shall not qualify a member for a refund of his or her accumulated contributions. In addition, a member who files an application for a refund of his or her accumulated contributions and subsequently becomes employed in an eligible position before the expiration of thirty days or before a refund payment has been made, shall not be eligible for the refund payment.))~~ A member who files a request for a refund and subsequently enters into employment with an employer prior to the refund being made shall not be eligible for a refund. For purposes of this section, a written or oral employment agreement shall be considered entering into employment.

(2) The department's retroactive application of the changes made in RCW 41.32.010(27)(b) to all service rendered between October 1, 1977, and August 31, 1990, is consistent with the legislative intent of the 1990 changes to RCW 41.32.010(27)(b).

The legislature finds that the improper disposal and labeling of sharps waste from residences poses a potential health risk and perceived threat to the waste generators, public, and workers in the waste and recycling industry. The legislature further finds that a uniform method for handling sharps waste generated at residences will reduce confusion and injuries, and enhance public and waste worker confidence.

It is the purpose and intent of this act that residential generated sharps waste be contained in easily identified containers and separated from the regular solid waste stream to ensure worker safety and promote proper disposal of these wastes in a manner that is environmentally safe and economically sound.

Sec. 2. RCW 70.95K.010 and 1992 c 14 s 2 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Biomedical waste" means, and is limited to, the following types of waste:

(2) A pharmacy return program shall not be considered a solid waste handling facility and shall not be required to obtain a solid waste permit. To facilitate designation of sharps waste drop-off sites, the department shall share the name and location of registered pharmacy return programs with jurisdictional health departments and local solid waste management officials.

(3) A public or private provider of solid waste collection service may provide a program to collect source separated residential sharps waste containers as provided in chapter 70.95K RCW.

MOTIONS

On motion of Senator Adam Smith, the following Committee on Law and Justice amendment was adopted:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 11.02.005 and 1993 c 73 s 1 are each amended to read as follows:

When used in this title, unless otherwise required from the context:

(1) "Personal representative" includes executor, administrator, special administrator, and guardian or limited guardian and special representative.

(2) "Net estate" refers to the real and personal property of a decedent exclusive of homestead rights, exempt property, the family allowance and enforceable claims against, and debts of, the deceased or the estate.

(3) "Representation" refers to a method of determining distribution in which the takers are in unequal degrees of kinship with respect to the intestate, and is accomplished as follows: After first determining who, of those entitled to share in the estate, are in the nearest degree of kinship, the estate is divided into equal shares, the number of shares being the sum of the number of persons who survive the intestate who are in the nearest degree of kinship and the number of persons in the same degree of kinship who died before the intestate but who left issue surviving the intestate; each share of a deceased person in the nearest degree shall be divided among those of the ~~((intestate's))~~ deceased person's issue who survive the intestate and have no ancestor then living who is in the line of relationship between them and the intestate, those more remote in degree taking together the share which their ancestor would have taken had he or she survived the intestate. Posthumous children are considered as living at the death of their parent.

(4) "Issue" includes all the lawful lineal descendants of the ancestor and all lawfully adopted children.

(5) "Degree of kinship" means the degree of kinship as computed according to the rules of the civil law; that is, by counting upward from the intestate to the nearest common ancestor and then downward to the relative, the degree of kinship being the sum of these two counts.

(6) "Heirs" denotes those persons, including the surviving spouse, who are entitled under the statutes of intestate succession to the real and personal property of a decedent on the decedent's death intestate.

(7) "Real estate" includes, except as otherwise specifically provided herein, all lands, tenements, and hereditaments, and all rights thereto, and all interest therein possessed and claimed in fee simple, or for the life of a third person.

(8) "Will" means an instrument validly executed as required by RCW 11.12.020 ~~((and includes all codicils))~~.

(9) "Codicil" means ~~((an instrument that is validly executed in the manner provided by this title for a will and that refers to an existing will for the purpose of altering or changing the same, and which need not be attached thereto))~~ a will that modifies or partially revokes an existing earlier will. A codicil need not refer to or be attached to the earlier will.

(10) "Guardian" or "limited guardian" means a personal representative of the person or estate of an incompetent or disabled person as defined in RCW 11.88.010 and the term may be used in lieu of "personal representative" wherever required by context.

(11) "Administrator" means a personal representative of the estate of a decedent and the term may be used in lieu of "personal representative" wherever required by context.

(12) "Executor" means a personal representative of the estate of a decedent appointed by will and the term may be used in lieu of "personal representative" wherever required by context.

(13) "Special administrator" means a personal representative of the estate of a decedent appointed for limited purposes and the term may be used in lieu of "personal representative" wherever required by context.

(14) "Trustee" means an original, added, or successor trustee and includes the state, or any agency thereof, when it is acting as the trustee of a trust to which chapter 11.98 RCW applies.

(15) "Nonprobate asset" means those rights and interests of a person having beneficial ownership of an asset that pass on the person's death under a written instrument or arrangement other than the person's will. "Nonprobate asset" includes, but is not limited to, a right or interest passing under a joint tenancy with right of survivorship, joint bank account with right of survivorship, payable on death or trust bank account or security, deed or conveyance if possession has been postponed until the death of the person, trust of which the person is grantor and that becomes effective or irrevocable only upon the person's death, community property agreement, individual retirement account or bond, or note or other contract the payment or performance of which is affected by the death of the person. "Nonprobate asset" does not include: A payable-on-death provision of a life insurance policy, annuity, or other similar contract, or of an employee benefit plan; a right or interest passing by descent and distribution under chapter 11.04 RCW; a right or interest if, before death, the person has irrevocably transferred the right or interest, the person has waived the power to transfer it or, in the case of contractual arrangement, the person has waived the unilateral right to rescind or modify the arrangement; or a right or interest held by the person solely in a fiduciary capacity.

(16) "Internal Revenue Code" means the United States Internal Revenue Code of 1986, as amended or renumbered on July 25, 1993.

~~((46))~~ Words that import the singular number may also be applied to the plural of persons and things.

~~((47))~~ Words importing the masculine gender only may be extended to females also.

Sec. 2. RCW 11.07.010 and 1993 c 236 s 1 are each amended to read as follows:

(1) This section applies to all nonprobate assets, wherever situated, held at the time of entry by a superior court of this state of a decree of dissolution of marriage or a declaration of invalidity.

(2)(a) If a marriage is dissolved or invalidated, a provision made prior to that event that relates to the payment or transfer at death of the decedent's interest in a nonprobate asset in favor of or granting an interest or power to the decedent's former spouse is revoked. A provision affected by this section must be interpreted, and the nonprobate asset affected passes, as if the former spouse failed to survive the decedent, having died at the time of entry of the decree of dissolution or declaration of invalidity.

(b) This subsection does not apply if and to the extent that:

(i) The instrument governing disposition of the nonprobate asset expressly provides otherwise;

(ii) The decree of dissolution or declaration of invalidity requires that the decedent maintain a nonprobate asset for the benefit of a former spouse or children of the marriage, payable on the decedent's death either outright or in trust, and other nonprobate assets of the decedent fulfilling such a requirement for the benefit of the former spouse or children of the marriage do not exist at the decedent's death; or

(iii) If not for this subsection, the decedent could not have effected the revocation by unilateral action because of the terms of the decree or declaration, or for any other reason, immediately after the entry of the decree of dissolution or declaration of invalidity.

(3)(a) A payor or other third party in possession or control of a nonprobate asset at the time of the decedent's death is not liable for making a payment or transferring an interest in a nonprobate asset to a decedent's former spouse whose interest in the nonprobate asset is revoked under this section, or for taking another action in reliance on the validity of the instrument governing disposition of the nonprobate asset, before the payor or other third party has actual knowledge of the dissolution or other invalidation of marriage. A payor or other third party is liable for a payment or transfer made or other action taken after the payor or other third party has actual knowledge of a revocation under this section.

(b) This section does not require a payor or other third party to pay or transfer a nonprobate asset to a beneficiary designated in a governing instrument affected by the dissolution or other invalidation of marriage, or to another person claiming an interest in the nonprobate asset, if the payor or third party has actual knowledge of the existence of a dispute between the former spouse and the beneficiaries or other persons concerning rights of ownership of the nonprobate asset as a result of the application of this section among the former spouse and the beneficiaries or among other persons, or if the payor or third party is otherwise uncertain as to who is entitled to the nonprobate asset under this section. In such a case, the payor or third party may, without liability, notify in writing all beneficiaries or other persons claiming an interest in the nonprobate asset of either the existence of the dispute or its uncertainty as to who is entitled to payment or transfer of the nonprobate asset. The payor or third party may also, without liability, refuse to pay or transfer a nonprobate asset in such a circumstance to a beneficiary or other person claiming an interest until the time that either:

(i) All beneficiaries and other interested persons claiming an interest have consented in writing to the payment or transfer; or

(ii) The payment or transfer is authorized or directed by a court of proper jurisdiction.

(c) Notwithstanding subsections (1) and (2) of this section and (a) and (b) of this subsection, a payor or other third party having actual knowledge of the existence of a dispute between beneficiaries or other persons concerning rights to a nonprobate asset as a result of the application of this section may condition the payment or transfer of the nonprobate asset on execution, in a form and with security acceptable to the payor or other third party, of a bond in an amount that is double the fair market value of the nonprobate asset at the time of the decedent's death or the amount of an adverse claim, whichever is the lesser, or of a similar instrument to provide security to the payor or other third party, indemnifying the payor or other third party for any liability, loss, damage, costs, and expenses for and on account of payment or transfer of the nonprobate asset.

(d) As used in this subsection, "actual knowledge" means, for a payor or other third party in possession or control of the nonprobate asset at or following the decedent's death, written notice to the payor or other third party, or to an officer of a payor or third party in the course of his or her employment, received after the decedent's death and within a time that is sufficient to afford the payor or third party a reasonable opportunity to act upon the knowledge. The notice must identify the nonprobate asset with reasonable specificity. The notice also must be sufficient to inform the payor or other third party of the revocation of the provisions in favor of the decedent's spouse by reason of the dissolution or invalidation of marriage, or to inform the payor or third party of a dispute concerning rights to a nonprobate asset as a result of the application of this section. Receipt of the notice for a period of more than thirty days is presumed to be received within a time that is sufficient to afford the payor or third party a reasonable opportunity to act upon the knowledge, but receipt of the notice for a period of less than five business days is presumed not to be a sufficient time for these purposes. These presumptions may be rebutted only by clear and convincing evidence to the contrary.

(4)(a) A person who purchases a nonprobate asset from a former spouse or other person, for value and without actual knowledge, or who receives from a former spouse or other person payment or transfer of a nonprobate asset without actual knowledge and in partial or full satisfaction of a legally enforceable obligation, is neither obligated under this section to return the payment, property, or benefit nor is liable under this section for the amount of the payment or the value of the nonprobate asset. However, a former spouse or other person who, with actual knowledge, not for value, or not in satisfaction of a legally enforceable obligation, receives payment or transfer of a nonprobate asset to which that person is not entitled under this section is obligated to return the payment or nonprobate asset, or is personally liable for the amount of the payment or value of the nonprobate asset, to the person who is entitled to it under this section.

(b) As used in this subsection, "actual knowledge" means, for a person described in (a) of this subsection who purchases or receives a nonprobate asset from a former spouse or other person, personal knowledge or possession of documents relating to the revocation upon dissolution or invalidation of marriage of provisions relating to the payment or transfer at the decedent's death of the nonprobate asset, received within a time after the decedent's death and before the purchase or receipt that is sufficient to afford the person purchasing or receiving the nonprobate asset reasonable opportunity to act upon the knowledge. Receipt of the personal knowledge or possession of the documents for a period of more than thirty days is presumed to be received within a time that is sufficient to afford the payor or third party a reasonable opportunity to act upon the knowledge, but receipt of the notice for a period of less than five business days is presumed not to be a sufficient time for these purposes. These presumptions may be rebutted only by clear and convincing evidence to the contrary.

(5) As used in this section, "nonprobate asset" means those rights and interests of a person having beneficial ownership of an asset that pass on the person's death under only the following written instruments or arrangements other than the decedent's will:

(a) A payable-on-death provision of a life insurance policy, employee benefit plan, annuity or similar contract, or individual retirement account;

(b) A payable-on-death, trust, or joint with right of survivorship bank account;

(c) A trust of which the person is a grantor and that becomes effective or irrevocable only upon the person's death; or

(d) Transfer on death beneficiary designations of a transfer on death or pay on death security, if such designations are authorized under Washington law.

(6) This section is remedial in nature and applies as of July 25, 1993, to decrees of dissolution and declarations of invalidity entered after July 24, 1993, and this section applies as of the effective date of this act to decrees of dissolution and declarations of invalidity entered before July 25, 1993.

Sec. 3. RCW 11.08.170 and 1990 c 225 s 1 are each amended to read as follows:

Escheat property may be probated under the provisions of the probate laws of this state. Whenever such probate proceedings are instituted, whether by special administration or otherwise, the petitioner shall promptly notify the department of revenue in writing thereof on forms furnished by the department of revenue to the county clerks. Thereafter, the department of revenue shall be served with written notice at least twenty days prior to any hearing on proceedings involving the valuation or sale of property, on any petition for the allowance of fees, and on all interim reports, final accounts or petitions for the determination of heirship. Like notice shall be given of the presentation of any claims to the court for allowance. Failure to furnish such notice shall be deemed jurisdictional and any order of the court entered without such notice shall be void. The department of revenue may waive the provisions of this section in its discretion. The department shall be deemed to have waived its right to administer in such probate proceedings under RCW 11.28.120((3)) (5) unless application for appointment of the director or the director's designee is made within forty days immediately following receipt of notice of institution of proceedings.

NEW SECTION. Sec. 4. This chapter applies in all instances in which no other abatement scheme is expressly provided.

NEW SECTION. Sec. 5. (1) Except as provided in subsection (2) of this section, property of a decedent abates, without preference as between real and personal property, in the following order:

- (a) Intestate property;
- (b) Residuary gifts;
- (c) General gifts;
- (d) Specific gifts.

For purposes of abatement a demonstrative gift, defined as a general gift charged on any specific property or fund, is deemed a specific gift to the extent of the value of the property or fund on which it is charged, and a general gift to the extent of a failure or insufficiency of that property or fund. Abatement within each classification is in proportion to the amounts of property each of the beneficiaries would have received if full distribution of the property had been made in accordance with the terms of the will.

(2) If the will expresses an order of abatement, or if the testamentary plan or the express or implied purpose of the devise would be defeated by the order of abatement stated in subsection (1) of this section, a gift abates as may be found necessary to give effect to the intention of the testator.

(3) If the subject of a preferred gift is sold, diminished, or exhausted incident to administration, not including satisfaction of debts or liabilities according to their community or separate status under section 7 of this act, abatement must be achieved by appropriate adjustments in, or contribution from, other interests in the remaining assets.

(4) To the extent that the whole of the community property is subject to abatement, the shares of the decedent and of the surviving spouse in the community property abate equally.

(5) If required under section 8 of this act, nonprobate assets must abate with those disposed of under the will and passing by intestacy.

NEW SECTION. Sec. 6. To the extent that a gift is to be satisfied out of a source that consists of both separate and community property, unless otherwise indicated in the will it is presumed to be a gift from separate and community property in proportion to their relative value in the property or fund from which the gift is to be satisfied.

NEW SECTION. Sec. 7. (1) A community debt or liability is charged against the entire community property, with the surviving spouse's half and the decedent spouse's half charged equally.

(2) A separate debt or liability is charged first against separate property, and if that is insufficient against the balance of decedent's half of community property remaining after community debts and liabilities are satisfied.

(3) A community debt or liability that is also the separate debt or liability of the decedent is charged first against the whole of the community property and then against the decedent's separate property.

(4) An expense of administration is charged against the separate property and the decedent's half of the community property in proportion to the relative value of the property, unless a different charging of expenses is shown to be appropriate under the circumstances including against the surviving spouse's share of the community property.

(5) Property of a similar type, community or separate, is appropriated in accordance with the abatement priorities of section 5 of this act.

(6) Property that is primarily chargeable for a debt or liability is exhausted, in accordance with the abatement priorities of section 5 of this act, before resort is had, also in accordance with section 5 of this act, to property that is secondarily chargeable.

NEW SECTION. Sec. 8. (1) If abatement is necessary among takers of a nonprobate asset, the court shall adopt the abatement order and limitations set out in sections 5, 6, and 7 of this act, assigning categories in accordance with subsection (2) of this section.

(2) A nonprobate transfer must be categorized for purposes of abatement, within the list of priorities set out in section 5(1) of this act, as follows:

(a) All nonprobate forms of transfer under which an identifiable nonprobate asset passes to a beneficiary or beneficiaries on the event of the decedent's death, such as, but not limited to, joint tenancies and payable-on-death accounts, are categorized as specific bequests.

(b) With respect to all other interests passing under nonprobate forms of transfer, each must be categorized in the manner that is most closely comparable to the nature of the transfer of that interest.

(3) If and to the extent that a nonprobate asset is subject to the same obligations as are assets disposed of under the decedent's will, the nonprobate assets abate ratably with the probate assets, within the categories set out in subsection (2) of this section.

(4) If the nonprobate instrument of transfer or the decedent's will expresses a different order of abatement, or if the decedent's overall dispositive plan or the express or implied purpose of the transfer would be defeated by the order of abatement stated in subsections (1) through (3) of this section, the nonprobate assets abate as may be found necessary to give effect to the intention of the decedent.

NEW SECTION. Sec. 9. A new section is added to chapter 11.12 RCW to read as follows:

(1) If a will fails to name or provide for a child of the decedent who is born or adopted by the decedent after the will's execution and who survives the decedent, referred to in this section as an "omitted child", the child must receive a portion of the decedent's estate as provided in subsection (3) of this section, unless it appears either from the will or from other clear and convincing evidence that the failure was intentional.

(2) In determining whether an omitted child has been named or provided for, the following rules apply:

(a) A child identified in a will by name is considered named whether identified as a child or in any other manner.

(b) A reference in a will to a class described as the children, descendants, or issue of the decedent who are born after the execution of the will, or words of similar import, constitutes a naming of a person who falls within the class. A reference to another class, such as a decedent's heirs or family, does not constitute such a naming.

(c) A nominal interest in an estate does not constitute a provision for a child receiving the interest.

(3) The omitted child must receive an amount equal in value to that which the child would have received under RCW 11.04.015 if the decedent had died intestate, unless the court determines on the basis of clear and convincing evidence that a smaller share, including no share at all, is more in keeping with the decedent's intent. In making the determination, the court may consider, among other things, the various elements of the decedent's dispositive scheme, provisions for the omitted child outside the decedent's will, provisions for the decedent's other children under the will and otherwise, and provisions for the omitted child's other parent under the will and otherwise.

(4) In satisfying a share provided by this section, the bequests made by the will abate as provided in chapter 11.-- RCW (sections 4 through 8 of this act).

NEW SECTION. Sec. 10. A new section is added to chapter 11.12 RCW to read as follows:

(1) If a will fails to name or provide for a spouse of the decedent whom the decedent marries after the will's execution and who survives the decedent, referred to in this section as an "omitted spouse", the spouse must receive a portion of the decedent's estate as provided in subsection (3) of this section, unless it appears either from the will or from other clear and convincing evidence that the failure was intentional.

(2) In determining whether an omitted spouse has been named or provided for, the following rules apply:

(a) A spouse identified in a will by name is considered named whether identified as a spouse or in any other manner.

(b) A reference in a will to the decedent's future spouse or spouses, or words of similar import, constitutes a naming of a spouse whom the decedent later marries. A reference to another class such as the decedent's heirs or family does not constitute a naming of a spouse who falls within the class.

(c) A nominal interest in an estate does not constitute a provision for a spouse receiving the interest.

(3) The omitted spouse must receive an amount equal in value to that which the spouse would have received under RCW 11.04.015 if the decedent had died intestate, unless the court determines on the basis of clear and convincing evidence that a smaller share, including no share at all, is more in keeping with the decedent's intent. In making the determination the court may consider, among other things, the spouse's property interests under applicable community property or quasi-community property laws, the various elements of the decedent's dispositive scheme, and a marriage settlement or other provision and provisions for the omitted spouse outside the decedent's will.

(4) In satisfying a share provided by this section, the bequests made by the will abate as provided in chapter 11.-- RCW (sections 4 through 8 of this act).

NEW SECTION. Sec. 11. A new section is added to chapter 11.12 RCW to read as follows:

(1) If, after making a will, the testator's marriage is dissolved or invalidated, all provisions in the will in favor of or granting any interest or power to the testator's former spouse are revoked, unless the will expressly provides otherwise. Provisions affected by this section must be interpreted, and property affected passes, as if the former spouse failed to survive the testator, having died at the time of entry of the decree of dissolution or declaration of invalidity. Provisions revoked by this section are revived by the testator's remarriage to the former spouse. Revocation of certain nonprobate transfers is provided under RCW 11.07.010.

(2) This section is remedial in nature and applies to decrees of dissolution and declarations of invalidity entered before, on, or after the effective date of this act.

Sec. 12. RCW 11.12.040 and 1965 c 145 s 11.12.040 are each amended to read as follows:

(1) A will, or any part thereof, can be revoked;

~~((+)) (a) By a (written) subsequent will that revokes, or partially revokes, the prior will expressly or by inconsistency; or~~

~~((+)) (b) By being burnt, torn, canceled, obliterated, or destroyed, with the intent and for the purpose of revoking the same, by the testator (himself) or by another person in (his) the presence and by ((his)) the direction of the testator.~~ If such act is done by any person other than the testator, the direction of the testator and the facts of such injury or destruction must be proved by two witnesses.

~~(2) Revocation of a will in its entirety revokes its codicils, unless revocation of a codicil would be contrary to the testator's intent.~~

Sec. 13. RCW 11.12.080 and 1965 c 145 s 11.12.080 are each amended to read as follows:

(1) If, after making any will, the testator shall ~~((duly make and)) execute a ((second)) later will that wholly revokes the former will, the destruction, cancellation, or revocation of ((such second)) the later will shall not revive the ((first)) former will, unless it was the testator's intention to revive it.~~

(2) Revocation of a codicil shall revive a prior will or part of a prior will that the codicil would have revoked had it remained in effect at the death of the testator, unless it was the testator's intention not to revive the prior will or part.

(3) Evidence that revival was or was not intended includes, in addition to a writing by which the later will or codicil is revoked, the circumstances of the revocation or contemporary or subsequent declarations of the testator.

Sec. 14. RCW 11.12.110 and 1965 c 145 s 11.12.110 are each amended to read as follows:

~~Unless otherwise provided, when any ((estate shall be devised or bequeathed to any child, grandchild, or other relative of the testator, and such devisee or legatee shall die before the testator, having lineal descendants who survive the testator, such descendants shall take the estate, real and personal, as such devisee or legatee would have done in the case he had survived the testator; if such descendants are all in the same degree of kinship to the predeceased devisee or legatee)) property shall be given under a will, or under a trust of which the decedent is a grantor and which by its terms becomes irrevocable upon the grantor's death, to any issue of a grandparent of the decedent and that issue dies before the decedent leaving descendants who survive the decedent, those descendants shall take that property as the predeceased issue would have done if the predeceased issue had survived the decedent. If those descendants are all in the same degree of kinship to the predeceased issue they shall take equally((-)) or, if of unequal degree, then those of more remote degree shall take by representation with respect to ((such)) the predeceased ((devisee or legatee.-- A spouse is not a relative under the provisions of this section)) issue.~~

Sec. 15. RCW 11.12.120 and 1974 ex.s. c 117 s 51 are each amended to read as follows:

~~((Whenever any person having died leaving)) (1) If a will ((which has been admitted to probate or established by an adjudication of testacy, shall by said will have given, devised or bequeathed unto any person, a legacy or a devise upon the condition that said person survive him, and not otherwise; such legacy or devise shall lapse and fall into the residue of said estate to be distributed according to the residuary clause, if there be one, of said will, and if there be none then according to the laws of descent, unless said legatee or devisee, as the case may be, or his heirs, personal representative, or someone in behalf of such legatee or devisee, shall appear before the court which is administering said estate within three years from and after the date the said will was admitted to probate or established by an adjudication of testacy, and prove to the satisfaction of the court that the said legatee or devisee, as the case may be, did in fact survive the testator)) makes a gift to a person on the condition that the person survive the testator and the person does not survive the testator, then, unless otherwise provided, the gift lapses and falls into the residue of the estate to be distributed under the residuary clause of the will, if any, but otherwise according to the laws of descent and distribution.~~

(2) If the will gives the residue to two or more persons, the share of a person who does not survive the testator passes, unless otherwise provided, and subject to RCW 11.12.110, to the other person or persons receiving the residue, in proportion to the interest of each in the remaining part of the residue.

(3) The personal representative of the testator, a person who would be affected by the lapse or distribution of a gift under this section, or a guardian ad litem or other representative appointed to represent the interests of a person so affected may petition the court for a determination under this section, and the petition must be heard under the procedures of chapter 11.96 RCW.

Sec. 16. RCW 11.12.160 and 1965 c 145 s 11.12.160 are each amended to read as follows:

~~((All beneficial devises, legacies, and gifts whatever, made or given in any will to a subscribing witness thereto, shall be void unless there are two other competent witnesses to the same; but a mere charge on the estate of the testator for the payment of debts shall not prevent his creditors from being competent witnesses to his will. If such witness, to whom any beneficial devise, legacy or gift may have been made or given, would have been entitled to any share in the testator's estate in case the will is not established, then so much of the estate as would have descended or would have been distributed to such witness shall be saved to him as will not exceed the value of the devise or bequest made to him in the will; and he may recover the same from the devisees or legatees named in the will in proportion to and out of the parts devised and bequeathed to him.)) (1) An interested witness to a will is one who would receive a gift under the will.~~

(2) A will or any of its provisions is not invalid because it is signed by an interested witness. Unless there are at least two other subscribing witnesses to the will who are not interested witnesses, the fact that the will makes a gift to a subscribing witness creates a rebuttable presumption that the witness procured the gift by duress, menace, fraud, or undue influence.

(3) If the presumption established under subsection (2) of this section applies and the interested witness fails to rebut it, the interested witness shall take so much of the gift as does not exceed the share of the estate that would be distributed to the witness if the will were not established.

(4) The presumption established under subsection (2) of this section has no effect other than that stated in subsection (3) of this section.

Sec. 17. RCW 11.12.180 and 1965 c 145 s 11.12.180 are each amended to read as follows:

~~((If any person, by last will, devise any real estate to any person for the term of such person's life, such devise vests in the devisee an estate for life, and unless the remainder is specially devised, it shall revert to the heirs at law of the testator.)) The Rule in Shelley's Case is abolished as a rule of law and as a rule of construction. If an applicable statute or a governing instrument calls for a future distribution to or creates a future interest in a designated individual's "heirs," "heirs at law," "next of kin," "relatives," or "family," or language of similar import, the property passes to those persons, including the state under chapter 11.08 RCW, that would succeed to the designated individual's estate under chapter 11.04 RCW. The property must pass to those persons as if the designated individual had died when the distribution or transfer of the future interest was to take effect in possession or enjoyment. For purposes of this section and section 18 of this act, the designated individual's surviving spouse is deemed to be an heir, regardless of whether the surviving spouse has remarried.~~

NEW SECTION. Sec. 18. A new section is added to chapter 11.12 RCW to read as follows:

The Doctrine of Worthier Title is abolished as a rule of law and as a rule of construction. However, the Doctrine of Worthier Title is preserved as a rule of construction if:

- (1) A grantor has established in inter vivos trust of real property;
- (2) The grantor has expressly reserved a reversion to himself or herself; and

(3) The words "heirs" or "heirs at law" are used by the grantor to describe the quality of the grantor's title in the reversion as an estate in fee simple in the event that the property reverts to the grantor. In all other cases, language in a governing instrument describing the beneficiaries of a donative disposition as the transferor's "heirs," "heirs at law," "next of kin," "distributees," "relatives," or "family," or language of similar import, does not create or presumptively create a reversionary interest in the transferor.

NEW SECTION. Sec. 19. (1) Unless expressly exempted by statute, a beneficiary of a nonprobate asset that was subject to satisfaction of the decedent's general liabilities immediately before the decedent's death takes the asset subject to liabilities, claims, estate taxes, and the fair share of expenses of administration reasonably incurred by the personal representative in the transfer of or administration upon the asset. The beneficiary of such an asset is liable to account to the personal representative to the extent necessary to satisfy liabilities, claims, the asset's fair share of expenses of administration, and the asset's share of estate taxes under chapter 83.110 RCW. Before making demand that a beneficiary of a nonprobate asset account to the personal representative, the personal representative shall give notice to the beneficiary, in the manner provided in chapter 11.96 RCW, that the beneficiary is liable to account under this section.

(2) The following rules govern in applying subsection (1) of this section:

(a) A beneficiary of property passing at death under a community property agreement takes the property subject to the decedent's liabilities, claims, estate taxes, and administration expenses as described in subsection (1) of this section. However, assets existing as community or separate property immediately before the decedent's death under the community property agreement are subject to the decedent's liabilities and claims to the same extent that they would have been had they been assets of the probate estate.

(b) A beneficiary of property held in joint tenancy form with right of survivorship, including without limitation United States savings bonds or similar obligations, takes the property subject to the decedent's liabilities, claims, estate taxes, and administration expenses as described in subsection (1) of this section to the extent of the decedent's beneficial ownership interest in the property immediately before death.

(c) A beneficiary of payable-on-death or trust bank accounts, bonds, securities, or similar obligations, including without limitation United States bonds or similar obligations, takes the property subject to the decedent's liabilities, claims, estate taxes, and administration expenses as described in subsection (1) of this section, to the extent of the decedent's beneficial ownership interest in the property immediately before death.

(d) A beneficiary of deeds or conveyances made by the decedent if possession has been postponed until the death of the decedent takes the property subject to the decedent's liabilities, claims, estate taxes, and administration expenses as described in subsection (1) of this section, to the extent of the decedent's beneficial ownership interest in the property immediately before death.

(e) A trust for the decedent's use of which the decedent is the grantor is subject to the decedent's liabilities, claims, estate taxes, and administration expenses as described in subsection (1) of this section, to the same extent as the trust was subject to claims of the decedent's creditors immediately before death under RCW 19.36.020.

(f) A trust not for the use of the grantor but of which the decedent is the grantor and that becomes effective or irrevocable only upon the decedent's death is subject to the decedent's claims, liabilities, estate taxes, and expenses of administration as described in subsection (1) of this section.

(g) Anything in this section to the contrary notwithstanding, nonprobate assets that existed as community property immediately before the decedent's death are subject to the decedent's liabilities and claims to the same extent that they would have been had they been assets of the probate estate.

(h) The liability of a beneficiary of life insurance is governed by chapter 48.18 RCW.

(i) The liability of a beneficiary of pension or retirement employee benefits is governed by chapter 6.15 RCW.

(j) An inference may not be drawn from (a) through (i) of this subsection that a beneficiary of nonprobate assets other than those assets specifically described in (a) through (i) of this subsection does or does not take the assets subject to claims, liabilities, estate taxes, and administration expenses as described in subsection (1) of this section.

(3) Nothing in this section derogates from the rights of a person interested in the estate to recover tax under chapter 83.110 RCW or from the liability of any beneficiary for estate tax under chapter 83.110 RCW.

Sec. 20. RCW 11.20.070 and 1965 c 145 s 11.20.070 are each amended to read as follows:

~~(Whenever any will is lost or destroyed, the court may take proof of the execution and validity of such will and establish it, notice to all persons interested having been first given. Such proof shall be reduced to writing and signed by the witnesses and filed with the clerk of the court.~~

~~No will shall be allowed to be proved as a lost or destroyed will unless it is proved to have been in existence at the time of the death of the testator, or is shown to have been destroyed, canceled or mutilated in whole or in part as a result of actual or constructive fraud or in the course of an attempt to change the will in whole or in part, which attempt has failed, or as the result of a mistake of fact, nor unless its provisions are clearly and distinctly proved by at least two witnesses, and when any such will is so established, the provisions thereof shall be distinctly stated in the judgment establishing it, and such judgment shall be recorded as wills are required to be recorded. Executors of such will or administrators with the will annexed) (1) If a will has been lost or destroyed under circumstances such that the loss or destruction does not have the effect of revoking the will, the court may take proof of the execution and validity of the will and establish it, notice to all persons interested having been first given. The proof must be reduced to writing and signed by any witnesses who have testified as to the execution and validity, and must be filed with the clerk of the court.~~

~~(2) The provisions of a lost or destroyed will must be proved by clear, cogent, and convincing evidence, consisting at least in part of a witness to either its contents or the authenticity of a copy of the will.~~

~~(3) When a lost or destroyed will is established under subsections (1) and (2) of this section, its provisions must be distinctly stated in the judgment establishing it, and the judgment must be recorded as wills are required to be recorded. A personal representative may be appointed by the court in the same manner as is herein provided with reference to original wills presented to the court for probate.~~

Sec. 21. RCW 11.24.010 and 1971 c 7 s 1 are each amended to read as follows:

~~If any person interested in any will shall appear within four months immediately following the probate or rejection thereof, and by petition to the court having jurisdiction contest the validity of said will, or appear to have the will proven which has been rejected, he or she shall file a petition containing his or her objections and exceptions to said will, or to the rejection thereof. ((Issue shall be made up, tried and determined in said court respecting the competency of the deceased to make a last will and testament, or respecting the execution by a deceased of such last will and testament under restraint or undue influence or fraudulent representations, or for any other cause affecting the validity of such will.)) Issues respecting the competency of the deceased to make a last will and testament, or respecting the execution by a deceased of the last will and testament under restraint or undue influence or fraudulent representations, or for any other cause affecting the validity of the will or a part of it, shall be tried and determined by the court.~~

~~If no person shall appear within the time ((aforesaid)) under this section, the probate or rejection of such will shall be binding and final.~~

Sec. 22. RCW 11.24.040 and 1965 c 145 s 11.24.040 are each amended to read as follows:

~~If, upon the trial of said issue, it shall be decided that the will or a part of it is for any reason invalid, or that it is not sufficiently proved to have been the last will of the testator, the will or part and probate thereof shall be annulled and revoked((, and thereupon and thereafter the powers of the executor or administrator with the will annexed shall cease, but such executor or administrator)) and to that extent the powers of the personal representative shall cease, but the personal representative shall not be liable for any act done in good faith previous to such annulling or revoking.~~

Sec. 23. RCW 11.28.120 and 1985 c 133 s 1 are each amended to read as follows:

~~Administration of ((the)) an estate ((of)) if the ((person dying)) decedent died intestate or if the personal representative or representatives named in the will declined or were unable to serve shall be granted to some one or more of the persons hereinafter mentioned, and they shall be respectively entitled in the following order:~~

~~(1) The surviving ((husband or wife)) spouse, or such person as he or she may request to have appointed.~~

~~(2) The next of kin in the following order: (a) Child or children; (b) father or mother; (c) brothers or sisters; (d) grandchildren; (e) nephews or nieces.~~

(3) The trustee named by the decedent in an inter vivos trust instrument, testamentary trustee named in the will, guardian of the person or estate of the decedent, or attorney in fact appointed by the decedent, if any such a fiduciary controlled or potentially controlled substantially all of the decedent's probate and nonprobate assets.

(4) One or more of the beneficiaries or transferees of the decedent's probate or nonprobate assets.

(5) The director of revenue, or the director's designee, for those estates having property subject to the provisions of chapter 11.08 RCW; however, the director may waive this right.

~~((4))~~ (6) One or more of the principal creditors.

~~((5))~~ (7) If the persons so entitled shall fail for more than forty days after the death of the ~~((intestate))~~ decedent to present a petition for letters of administration, or if it appears to the satisfaction of the court that there ~~((are))~~ is no ~~((relatives or))~~ next of kin, as above specified eligible to appointment, or they waive their right, and there are no principal creditor or creditors, or such creditor or creditors waive their right, then the court may appoint any suitable person to administer such estate.

Sec. 24. RCW 11.28.237 and 1977 ex.s. c 234 s 6 are each amended to read as follows:

Within twenty days after appointment, the personal representative of the estate of a decedent shall cause written notice of his or her appointment and the pendency of said probate proceedings, to be served personally or by mail to each heir, legatee and devisee of the estate and each beneficiary or transferee of a nonprobate asset of the decedent whose names and addresses are known to him or her, and proof of such mailing or service shall be made by affidavit and filed in the cause.

Sec. 25. RCW 11.40.010 and 1991 c 5 s 1 are each amended to read as follows:

Every personal representative shall, after appointment and qualification, give a notice to the creditors of the deceased, stating such appointment and qualification as personal representative and requiring all persons having claims against the deceased to serve the same on the personal representative or the estate's attorney of record, and file an executed copy thereof with the clerk of the court, within four months after the date of the first publication of such notice described in this section or within four months after the date of the filing of the copy of such notice with the clerk of the court, whichever is the later, or within the time otherwise provided in RCW 11.40.013. The four-month time period after the later of the date of the first publication of the notice to creditors or the date of the filing of such notice with the clerk of the court is referred to in this chapter as the "four-month time limitation." Such notice shall be given as follows:

(1) The personal representative shall give actual notice, as provided in RCW 11.40.013, to such creditors who become known to the personal representative within such four-month time limitation;

(2) The personal representative shall cause such notice to be published once in each week for three successive weeks in the county in which the estate is being administered; and

(3) The personal representative shall file a copy of such notice with the clerk of the court.

Except as otherwise provided in RCW 11.40.011 or 11.40.013, any claim not filed within the four-month time limitation shall be forever barred, if not already barred by any otherwise applicable statute of limitations. This bar is effective as to claims against both the decedent's probate assets and nonprobate assets as described in section 19 of this act. Proof by affidavit of the giving and publication of such notice shall be filed with the court by the personal representative.

Acts of a notice agent in complying with chapter Laws of 1994 (this act) may be adopted and ratified by the personal representative as if done by the personal representative in complying with this chapter, except that if at the time of the appointment and qualification of the personal representative a notice agent had commenced nonprobate notice to creditors under chapter 11.-- RCW (sections 31 through 48 of this act), the personal representative shall give published notice as provided in section 48 of this act.

Sec. 26. RCW 11.40.013 and 1989 c 333 s 4 are each amended to read as follows:

The actual notice described in RCW 11.40.010(1), as to creditors becoming known to the personal representative within the four-month time limitation, shall be given the creditors by personal service or regular first class mail, addressed to the creditor's last known address, postage prepaid. The actual notice shall be given before the later of the expiration of the four-month time limitation or thirty days after any creditor became known to the personal representative within the four-month time limitation. Any known creditor is barred unless the creditor has filed a claim, as otherwise provided in this chapter, within the four-month time limitation or within thirty days following the date of actual notice to that creditor, whichever is later. If notice is given by mail, the date of mailing shall be the date of notice. This bar is effective as to claims against both the decedent's probate assets and nonprobate assets.

Sec. 27. RCW 11.40.015 and 1989 c 333 s 6 are each amended to read as follows:

Notice under RCW 11.40.010 shall be in substantially the following form:

Sec. 28. RCW 11.40.040 and 1974 ex.s. c 117 s 36 are each amended to read as follows:

Every claim which has been allowed by the personal representative shall be ranked among the acknowledged debts of the estate to be paid expeditiously in the course of administration.

Sec. 29. RCW 11.40.080 and 1988 c 64 s 22 are each amended to read as follows:

No holder of any claim against a decedent shall maintain an action thereon, unless the claim shall have been first presented as ~~((herein))~~ provided in this chapter. Nothing in this chapter affects ~~((the notice under))~~ RCW 82.32.240.

Sec. 30. RCW 11.48.010 and 1965 c 145 s 11.48.010 are each amended to read as follows:

It shall be the duty of every personal representative to settle the estate, including the administration of any nonprobate assets within control of the personal representative under section 19 of this act, in his or her hands as rapidly and as quickly as possible, without sacrifice to the probate or nonprobate estate. ((He)) The personal representative shall collect all debts due the deceased and pay all debts as hereinafter provided. ((He)) The personal representative shall be authorized in his or her own name to maintain and prosecute such actions as pertain to the management and settlement of the estate, and may institute suit to collect any debts due the estate or to recover any property, real or personal, or for trespass of any kind or character.

NEW SECTION. Sec. 31. (1) Subject to the conditions stated in this section and if no personal representative has been appointed and qualified in the decedent's estate in Washington, the following members of a group, defined as the "qualified group", are qualified to give "nonprobate notice to creditors" of the decedent:

(a) Decedent's surviving spouse;
(b) The person appointed in an agreement made under chapter 11.96 RCW to give nonprobate notice to creditors of the decedent;
(c) The trustee, except a testamentary trustee under the will of the decedent not probated in another state, having authority over any of the property of the decedent; and

(d) A person who has received any property of the decedent by reason of the decedent's death.

(2) The "included property" means the property of the decedent that was subject to satisfaction of the decedent's general liabilities immediately before the decedent's death and that either:

(a) Constitutes a nonprobate asset; or

(b) Has been received, or is entitled to be received, either under chapter 11.62 RCW or by the personal representative of the decedent's probate estate administered outside the state of Washington, or both.

(3) The qualified person shall give the nonprobate notice to creditors. The "qualified person" must be:

(a) The person in the qualified group who has received, or is entitled to receive, by reason of the decedent's death, all, or substantially all, of the included property; or

(b) If there is no person in (a) of this subsection, then the person who has been appointed by those persons, including any successors of those persons, in the qualified group who have received, or are entitled to receive, by reason of the decedent's death, all, or substantially all, of the included property.

(4) The requirement in subsection (3) of this section of the receipt of all, or substantially all, of the included property is satisfied if:

(a) The person described in subsection (3)(a) of this section at the time of the filing of the declaration and oath referred to in subsection (5) of this section in reasonable good faith believed that the person had received, or was entitled to receive, by reason of the decedent's death, all, or substantially all, of the included property; or

(b) The persons described in subsection (3)(b) of this section at the time of their entry into the agreement under chapter 11.96 RCW in which they appoint the person to give the nonprobate notice to creditors in reasonable good faith believed that they had received, or were entitled to receive, by reason of the decedent's death, all, or substantially all, of the included property.

(5) The "notice agent" means the qualified person who:

(a) Files a declaration and oath with the clerk of the superior court in a county in which probate may be commenced regarding the decedent as provided in RCW 11.96.050(2);

(b) Pays a filing fee to the clerk equal in amount to the filing fee charged by the clerk for the probate of estates; and

(c) Receives from the clerk a cause number.

The county in which the notice agent files the declaration is the "notice county." The declaration and oath must be made in affidavit form or under penalty of perjury under the laws of the state in the form provided in RCW 9A.72.085 and must state that the person making the declaration believes in reasonable good faith that the person is qualified under this chapter to act as the notice agent and that the person faithfully will execute the duties of the notice agent as provided in this chapter.

(6) The following persons may not act as notice agent:

(a) Corporations, trust companies, and national banks, except:

(i) Professional service corporations that are regularly organized under the laws of this state whose shareholder or shareholders are exclusively attorneys; and

(ii) Other corporations, trust companies, and national banks that are authorized to do trust business in this state;

(b) Minors;

(c) Persons of unsound mind; or

(d) Persons who have been convicted of a felony or of a misdemeanor involving moral turpitude.

(7) A person who has given notice under this chapter and who thereafter becomes of unsound mind or is convicted of a crime or misdemeanor involving moral turpitude is no longer qualified to act as notice agent under this chapter. The disqualification does not bar another person, otherwise qualified, from acting as notice agent under this chapter.

(8) A nonresident may act as notice agent if the nonresident appoints an agent who is a resident of the notice county or who is attorney of record for the notice agent upon whom service of all papers may be made. The appointment must be made in writing and filed by the clerk of the notice county with the other papers relating to the notice given under this chapter.

(9) The powers and authority of a notice agent cease, and the office of notice agent becomes vacant, upon the appointment and qualification of a personal representative for the estate of the decedent. Except as provided in section 48 of this act, the cessation of the powers and authority does not affect a published notice under this chapter if the publication commenced before the cessation and does not affect actual notice to creditors given by the notice agent before the cessation.

NEW SECTION. Sec. 32. (1) The notice agent may give nonprobate notice to the creditors of the decedent if:

(a) As of the date of the filing of a copy of the notice with the clerk of the superior court for the notice county, the notice agent has no knowledge of the appointment and qualification of a personal representative in the decedent's estate in the state of Washington or of another person becoming a notice agent; and

(b) According to the records of the clerk of the superior court for the notice county as of 8:00 a.m. on the date of the filing, no personal representative of the decedent's estate had been appointed and qualified and no cause number regarding the decedent had been issued to any other notice agent by the clerk under section 31 of this act.

(2) The notice must state that all persons having claims against the decedent shall: (a) Serve the same on the notice agent if the notice agent is a resident of the state of Washington upon whom service of all papers may be made, or on the nonprobate resident agent for the notice agent, if any, or on the attorneys of record of the notice agent at their respective address in the state of Washington; and (b) file an executed copy of the notice with the clerk of the superior court for the notice county, within: (i) (A) Four months after the date of the first publication of the notice described in this section; or (B) four months after the date of the filing of the copy of the notice with the clerk of the superior court for the notice county, whichever is later; or (ii) the time otherwise provided in section 35 of this act. The four-month time period after the later of the date of the first publication of the notice to creditors or the date of the filing of the notice with the clerk of the court is referred to in this chapter as the "four-month time limitation."

(3) The notice agent shall declare in the notice in affidavit form or under the penalty of perjury under the laws of the state of Washington as provided in RCW 9A.72.085 that: (a) The notice agent is entitled to give the nonprobate notice under subsection (1) of this section; and (b) the notice is being given by the notice agent as permitted by this section.

(4) The notice agent shall sign the notice and file it with the clerk of the superior court for the notice county. The notice must be given as follows:

(a) The notice agent shall give actual notice as to creditors of the decedent who become known to the notice agent within the four-month time limitation as required in section 35 of this act;

(b) The notice agent shall cause the notice to be published once in each week for three successive weeks in the notice county; and

(c) The notice agent shall file a copy of the notice with the clerk of the superior court for the notice county.

(5) A claim not filed within the four-month time limitation is forever barred, if not already barred by an otherwise applicable statute of limitations, except as provided in section 33 or 35 of this act. The bar is effective to bar claims against both the probate estate of the decedent and nonprobate assets that were subject to satisfaction of the decedent's general liabilities immediately before the decedent's death. If a notice to the creditors of a decedent is published by more than one notice agent and the notice agents are not acting jointly, the four-month time limitation means the four-month time limitation that applies to the notice agent who first publishes the notice. Proof by affidavit or perjury declaration made under RCW 9A.72.085 of the giving and publication of the notice must be filed with the clerk of the superior court for the notice county by the notice agent.

NEW SECTION. Sec. 33. The time limitations under this chapter for serving and filing claims do not accrue to the benefit of a liability or casualty insurer as to claims against either the decedent or the marital community of which the decedent was a member, or both, and:

(1) The claims, subject to applicable statutes of limitation, may at any time be: (a) Served on the duly acting notice agent, the duly acting resident agent for the notice agent, or on the attorney for either of them; and (b) filed with the clerk of the superior court for the notice county; or

(2) If there is no duly acting notice agent or resident agent for the notice agent, the claimant as a creditor shall proceed as provided in chapter 11.40 RCW. However, if no personal representative ever has been appointed for the decedent, a personal representative must be appointed as provided in chapter 11.28 RCW and the estate opened, in which case the claimant then shall proceed as provided in chapter 11.40 RCW.

A claim may be served and filed as provided in this section, notwithstanding that there is no duly acting notice agent and that no personal representative previously has been appointed. However, the amount of recovery under the claim may not exceed the amount of applicable insurance coverages and proceeds, and the claim so served and filed may not constitute a cloud or lien upon the title to the assets of the decedent or delay or prevent the transfer or distribution of assets of the decedent. This section does not serve to extend the applicable statute of limitations regardless of whether a declaration and oath has been filed by a notice agent as provided in section 31 of this act.

NEW SECTION. Sec. 34. The notice agent shall exercise reasonable diligence to discover, within the four-month time limitation, reasonably ascertainable creditors of the decedent. The notice agent is deemed to have exercised reasonable diligence to ascertain the creditors upon:

(1) Conducting, within the four-month time limitation, a reasonable review of the decedent's correspondence including correspondence received after the date of death and financial records including checkbooks, bank statements, income tax returns, and similar materials, that are in the possession of, or reasonably available to, the notice agent; and

(2) Having made, with regard to claimants, inquiry of the nonprobate takers of the decedent's property and of the presumptive heirs, devisees, and legatees of the decedent, all of whose names and addresses are known, or in the exercise of reasonable diligence should have been known, to the notice agent.

If the notice agent conducts the review and makes an inquiry, the notice agent is presumed to have exercised reasonable diligence to ascertain creditors of the decedent, and creditors not ascertained in the review or in an inquiry are presumed not reasonably ascertainable. These presumptions may be rebutted only by clear, cogent, and convincing evidence. The notice agent may evidence the review and inquiry by filing an affidavit or declaration under penalty of perjury form as provided in RCW 9A.72.085 to the effect in the nonprobate proceeding in the notice county. The notice agent also may petition the superior court of the notice county for an order declaring that the notice agent has made a review and inquiry and that only creditors known to the notice agent after the review and inquiry are reasonably ascertainable. The petition and hearing must be under the procedures provided in chapter 11.96 RCW, and the notice specified under RCW 11.96.100 must also be given by publication.

NEW SECTION. Sec. 35. The actual notice described in section 32(4)(a) of this act, as to a creditor becoming known to the notice agent within the four-month time limitation, must be given the creditor by personal service or regular first class mail, addressed to the creditor's last known address, postage prepaid. The actual notice must be given before the later of the expiration of the four-month time limitation or thirty days after a creditor became known to the notice agent within the four-month time limitation. A known creditor is barred unless the creditor has filed a claim, as provided in this chapter, within the four-month time limitation or within thirty days following the date of actual notice to that creditor, whichever is later. If notice is given by mail, the date of mailing is the date of notice. This bar is effective as to claims against the included property as defined in section 31 of this act.

NEW SECTION. Sec. 36. (1) Whether or not notice under section 32 of this act has been given or should have been given, if no personal representative has been appointed and qualified, a person having a claim against the decedent who has not filed the claim within eighteen months from the date of the decedent's death is forever barred from making a claim against the decedent, or commencing an action against the decedent, if the claim or action is not already barred by any otherwise applicable statute of limitations. However, this eighteen-month limitation does not apply to:

(a) Claims described in section 33 of this act;

(b) A claim if, during the eighteen-month period following the date of death, partial performance has been made on the obligation underlying the claim, and the notice agent has not given the actual notice described in section 32(4)(a) of this act; or

(c) Claims if, within twelve months after the date of death:

(i) No notice agent has given the published notice described in section 32(4)(b) of this act; and

(ii) No personal representative has given the published notice described in RCW 11.40.010(2).

Any otherwise applicable statute of limitations applies without regard to the tolling provisions of RCW 4.16.190.

(2) Claims referred to in this section must be filed if there is no duly appointed, qualified, and acting personal representative and there is a duly declared and acting notice agent or resident agent for the notice agent. The claims, subject to applicable statutes of limitation, may at any time be served on the duly declared and acting notice agent or resident agent for the notice agent, or on the attorney for either of them.

(3) A claim to be filed under this chapter if there is no duly appointed, qualified, and acting personal representative but there is a duly declared and acting notice agent or resident agent for the notice agent and which claim is not otherwise barred under this chapter must be made in the form and manner provided under section 32 of this act, as if the notice under that section had been given.

NEW SECTION. Sec. 37. Notice under section 32 of this act must be in substantially the following form:

In the Matter of)
) No.

) NONPROBATE NOTICE TO CREDITORS

 _____)

_____, the undersigned Notice Agent, has elected to give notice to creditors of the decedent above named under section 32 of this act. As of the date of the filing of a copy of this notice with the Clerk of this Court, the Notice Agent has no knowledge of the appointment and qualification of a personal representative in the decedent's estate in the state of Washington or of any other person becoming a Notice Agent. According to the records of the Clerk of this Court as of 8:00 a.m. on the date of the filing of this notice with the Clerk, no personal representative of the decedent's estate had been appointed and qualified and no cause number regarding the decedent had been issued to any other Notice Agent by the Clerk of this Court under section 31 of this act.

Persons having claims against the decedent named above must, before the time the claims would be barred by any otherwise applicable statute of limitations, serve their claims on: The notice agent if the Notice Agent is a resident of the state of Washington upon whom service of all

papers may be made; the Nonprobate Resident Agent for the Notice Agent, if any; or the attorneys of record for the Notice Agent at the respective address in the state of Washington listed below, and file an executed copy of the claim with the Clerk of this Court within four months after the date of first publication of this notice, or within four months after the date of the filing of the copy of this notice with the Clerk of the Court, whichever is later, or, except under those provisions included in section 33 or 35 of this act, the claim will be forever barred. NEW SECTION. Sec. 38. RCW 11.40.020 applies to claims subject to this chapter.

NEW SECTION. Sec. 39. (1) Property of the decedent that was subject to the satisfaction of the decedent's general liabilities immediately before the decedent's death is liable for claims. The property includes, but is not limited to, property of the decedent that is includable in the decedent's probate estate, whether or not there is a probate administration of the decedent's estate.

(2) A claim approved by the notice agent, and a judgment on a claim first prosecuted against a notice agent, may be paid only out of assets received as a result of the death of the decedent by the notice agent or by those appointing the notice agent under chapter 11.96 RCW, except as may be provided by agreement under RCW 11.96.170 or by court order under RCW 11.96.070.

NEW SECTION. Sec. 40. (1) The notice agent shall approve or reject claims no later than by the end of a period that is two months after the end of the four-month time limitation defined as the "review period."

(2) The notice agent may approve a claim, in whole or in part.

(3) If the notice agent rejects a claim, in whole or in part, the notice agent shall notify the claimant of the rejection and file in the office of the clerk of the court in the notice county an affidavit or declaration under penalty of perjury under RCW 9A.72.085 showing the notification and the date of the notification. The notification must be by personal service or certified mail addressed to the claimant at the claimant's address as stated in the claim. If a person other than the claimant signed the claim for or on behalf of the claimant, and the person's business address as stated in the claim is different from that of the claimant, notification of the rejection also must be made by personal service or certified mail upon that person. The date of the postmark is the date of the notification. The notification of the rejection must advise the claimant, and the person making claim on his, her, or its behalf, if any, that the claimant must bring suit in the proper court in the notice county against the notice agent: (a) Within thirty days after notification of rejection if the notification is made during or after the review period; or (b) before expiration of thirty days after the end of the four-month time limitation, if the notification is made during the four-month time limitation, and that otherwise the claim is forever barred.

(4) A claimant whose claim either has been rejected by the notice agent or has not been acted upon within twenty days of written demand for the action having been given to the notice agent by the claimant during or after the review period must commence an action against the notice agent in the proper court in the notice county to enforce the claim of the claimant within the earlier of:

(a) If the notice of the rejection of the claim has been sent as provided in subsection (3) of this section: The time for filing an action on a rejected claim is as provided in subsection (3) of this section; or

(b) If written demand for approval or rejection is made on the notice agent before the claim is rejected: Within 30 days following the end of the twenty-day written demand period where the demand period ends during or after the review period; otherwise the claim is forever barred.

(5) The notice agent may, either before or after rejection of a claim, compromise the claim, whether due or not, absolute or contingent, liquidated or unliquidated.

(6) A personal representative of the decedent's estate may revoke either or both of: (a) The rejection of a claim that has been rejected by the notice agent; or (b) the approval of a claim that has been either approved or compromised by the notice agent, or both.

(7) If a notice agent pays a claim that subsequently is revoked by a personal representative of the decedent, the notice agent may file a claim in the decedent's estate for the notice agent's payment, and the claim may be allowed or rejected as other claims, at the election of the personal representative.

(8) If the notice agent has not received substantially all assets of the decedent that are liable for claims, then although an action may be commenced on a rejected claim by a creditor against the notice agent, the notice agent, notwithstanding any provision in this chapter, may only make an appearance in the litigation. The Notice Agent may not answer the action, but must, instead, cause a petition to be filed for the appointment of a personal representative of the decedent within thirty days of the service of the creditor's summons and complaint on the notice agent. A judgment may not be entered in an action brought by a creditor against the notice agent earlier than twenty days after the duly appointed, qualified, and acting personal representative of the decedent has been substituted in that action for the notice agent.

NEW SECTION. Sec. 41. If a claim has been filed and presented to a notice agent, and a part of the claim is allowed, the amount of the allowance must be stated in the indorsement. If the creditor refuses to accept the amount so allowed in satisfaction of the claim, the creditor may not recover costs in an action the creditor may bring against the notice agent and against any substituted personal representative unless the creditor recovers a greater amount than that offered to be allowed, exclusive of interest and costs.

NEW SECTION. Sec. 42. A debt of a decedent for whose estate no personal representative has been appointed must be paid in the following order by the notice agent from the assets of the decedent that are subject to the payment of claims as provided in section 39 of this act:

(1) Costs of administering the assets subject to the payment of claims, including a reasonable fee to the notice agent, the resident agent for the notice agent, if any, reasonable attorneys' fees for the attorney for each of them, filing fees, publication costs, mailing costs, and similar costs and fees.

(2) Funeral expenses in a reasonable amount.

(3) Expenses of the last sickness in a reasonable amount.

(4) Wages due for labor performed within sixty days immediately preceding the death of the decedent.

(5) Debts having preference by the laws of the United States.

(6) Taxes or any debts or dues owing to the state.

(7) Judgments rendered against the decedent in the decedent's lifetime that are liens upon real estate on which executions might have been issued at the time of the death of the decedent and debts secured by mortgages in the order of their priority. However, the real estate is subject to the payment of claims as provided in section 40 of this act.

(8) All other demands against the assets subject to the payment of claims as provided in section 40 of this act.

A claim of the notice agent or other person who has received property by reason of the decedent's death may not be paid by the notice agent unless all other claims that have been filed under this chapter, and all debts having priority to the claim, are paid in full or otherwise settled by agreement, regardless of whether the other claims are allowed or rejected, or partly allowed or partly rejected. In the event of the probate of the decedent's estate, the personal representative's payment from estate assets of the claim of the notice agent or other person who has received property by reason of the decedent's death is not affected by the priority payment provisions of this section.

NEW SECTION. Sec. 43. The notice agent may not allow a claim that is barred by the statute of limitations.

NEW SECTION. Sec. 44. A holder of a claim against a decedent may not maintain an action on the claim against a notice agent, unless the claim has been first presented as provided in this chapter. This chapter does not affect RCW 82.32.240.

NEW SECTION. Sec. 45. The time during which there is a vacancy in the office of notice agent is not included in a limitation prescribed in this chapter.

NEW SECTION. Sec. 46. If a judgment has been rendered against a decedent in the decedent's lifetime, an execution may not issue on the judgment after the death of the decedent, but the judgment must be presented in the form of a claim to the notice agent, if any, as any other claim. The claim need not be supported by the affidavit of the claimant. If the claim is justly due and unsatisfied, it must be paid in due course in accordance with this chapter for the payment of claims. However, if the judgment is a lien on property classified within the definition of the included property in section 31 of this act, the property may be sold for the satisfaction of the judgment, and the officer making the sale shall account to the notice agent for any surplus.

NEW SECTION. Sec. 47. The personal claim of a Notice Agent, as a creditor of the decedent, must be authenticated by affidavit, and must be filed and presented for allowance to the superior court in the notice county. The allowance of the claim by the court is sufficient evidence of the correctness of the claim.

NEW SECTION. Sec. 48. In case the office of notice agent becomes vacant for any reason, including resignation, death, removal, or replacement, after notice by publication has been commenced as provided in section 32 of this act, the personal representative of the decedent or the successor notice agent shall publish notice of the vacancy and succession for two successive weeks in a legal newspaper published in the notice county. The time between the commencement of the vacancy and the publication by the successor notice agent or personal representative must be added to the time within which claims must be filed: (1) As fixed by the first published nonprobate notice to creditors; and (2) as extended in the case of actual notice under section 35 of this act, unless the time expired before the vacancy. Notice is not required if the period for filing claims has expired during the time that the former notice agent was qualified.

Sec. 49. RCW 11.56.050 and 1965 c 145 s 11.56.050 are each amended to read as follows:

If the court should determine that it is necessary to sell any or all of the real estate for the purposes mentioned in this title, then it may make and cause to be entered an order directing the personal representative to sell so much of the real estate as the court may determine necessary for the purposes aforesaid. Such order shall give a particular description of the property to be sold and the terms of such sale and shall provide whether such property shall be sold at public or private sale, or by negotiation. ~~((The court shall order sold that part of the real estate which is generally devised, rather than any part which may have been specifically devised, but the court may, if it appears necessary, sell any or all of the real estate so devised.))~~ After the giving of such order it shall be the duty of the personal representative to sell such real estate in accordance with the order of the court and as in this title provided with reference to the public or private sales of real estate.

An order of solvency may be entered at the time of the appointment of the personal representative or at any time thereafter where it appears to the court by the petition of the personal representative, or the inventory filed, and/or other proof submitted, that the estate of the decedent is solvent, and that notice of the application for an order of solvency has been given to those persons entitled thereto when required by RCW 11.68.040 as now or hereafter amended.

(1) Within the standards of judgment and care established by law, and subject to any express provisions or limitations contained in any particular trust instrument, guardians, trustees and other fiduciaries, whether individual or corporate, are authorized to acquire and retain securities of any open-end or closed-end management type investment company or investment trust registered under the federal investment company act of 1940 as now or hereafter amended.

(2) Within the limitations of subsection (1) of this section, whenever the trust instrument directs, requires, authorizes, or permits investment in obligations of the United States government, the trustee may invest in and hold such obligations either directly or in the form of securities of, or other interests in, an open-end or closed-end management type investment company or investment trust registered under the federal investment company act of 1940, as now or hereafter amended, if both of the following conditions are met:

(a) The portfolio of the investment company or investment trust is limited to obligations of the United States and to repurchase agreements fully collateralized by such obligations; and

(b) The investment company or investment trust takes delivery of the collateral for any repurchase agreement either directly or through an authorized custodian.

(3) If the fiduciary is a bank or trust company, then the fact that the fiduciary, or an affiliate of the fiduciary, provides services to the investment company or investment trust such as that of an investment advisor, custodian, transfer agent, registrar, sponsor, distributor, manager, or otherwise, and is receiving reasonable compensation for those services does not preclude the bank or trust company from investing or reinvesting in the securities of the open-end or closed-end management investment company or investment trust. The fiduciary shall furnish a copy of the prospectus relating to the securities to each person to whom a regular periodic accounting would ordinarily be rendered under the trust instrument or under RCW 11.106.020, upon the request of that person. In all cases of probate, insolvency, assignment for the benefit of creditors, or bankruptcy, involving any taxpayer who is, or decedent who was, engaging in business, the claim of the state for said taxes and all increases and penalties thereon shall be a lien upon all real and personal property of the taxpayer, and the mere existence of such cases or conditions shall be sufficient to create such lien without any prior or subsequent action by the state, and in all such cases it shall be the duty of all administrators, executors, guardians, receivers, trustees in bankruptcy or assignees for the benefit of creditors, to notify the department of revenue of such administration, receivership or assignment within sixty days from the date of their appointment and qualification.

The lien provided for by this section shall attach as of the date of the assignment for the benefit of creditors or of the initiation of the probate, insolvency, or bankruptcy proceedings: PROVIDED, That this sentence shall not be construed as affecting the validity or priority of any earlier lien that may have attached previously in favor of the state under any other section of this title.

Any administrator, executor, guardian, receiver or assignee for the benefit of creditors not giving the notification as provided for above shall become personally liable for payment of the taxes and all increases and penalties thereon to the extent of the value of the property subject to administration that otherwise would have been available for the payment of such taxes, increases, and penalties by the administrator, executor, guardian, receiver, or assignee.

As used in this section, "probate" includes the nonprobate claim settlement procedure under chapter 11.-- RCW (sections 31 through 48 of this act), and "executor" and "administrator" includes any notice agent acting under chapter 11.-- RCW (sections 31 through 48 of this act).

However, any proposal for annexation ((by the board)) of territory to a town shall be subject to RCW 35.21.010 and the board shall not add additional territory, the amount of which is greater than that included in the original proposal ((: PROVIDED FURTHER, That such)). Any modifications shall not interfere with the authority of a city, town, or special purpose district to require or not require preannexation agreements, covenants, or petitions ((: AND PROVIDED FURTHER, That)). A board shall not modify the proposed incorporation of a city with an estimated population of seven thousand five hundred or more by removing territory from the proposal, or adding territory to the proposal, that constitutes ten percent or more of the total area included within the proposal before the board ((: but)). However, a board shall remove territory in the proposed incorporation that is located outside of an urban growth area or is annexed by a city or town, and may remove territory in the proposed incorporation if a petition or resolution proposing the annexation is filed or adopted that has priority over the proposed incorporation, before the area is established that is subject to this ten percent restriction on removing or adding territory. A board shall not modify the proposed incorporation of a city with a population of seven thousand five hundred or more to reduce the territory in such a manner as to reduce the population below seven thousand five hundred ((;)).

(3) ~~((Determination of))~~ Determine a division of assets and liabilities between two or more governmental units where relevant ~~((;))~~.

(4) ~~((Determination))~~ Determine whether, or the extent to which, functions of a special purpose district are to be assumed by an incorporated city or town, metropolitan municipal corporation, or another existing special purpose district ~~((: or))~~.

(5) ~~((Disapproval of))~~ Disapprove the proposal except that the board shall not have jurisdiction: (a) To disapprove the dissolution or disincorporation of a special purpose district which is not providing services but shall have jurisdiction over the determination of a division of the assets and liabilities of a dissolved or disincorporated special purpose district; (b) over the division of assets and liabilities of a special purpose district that is dissolved or disincorporated pursuant to chapter 36.96 RCW; nor (c) to disapprove the incorporation of a city with an estimated population of seven thousand five hundred or more, but the board may recommend against the proposed incorporation of a city with such an estimated population.

Unless the board ~~((shall disapprove))~~ disapproves a proposal, it shall be presented under the appropriate statute for approval of a public body and, if required, a vote of the people. A proposal that has been modified shall be presented under the appropriate statute for approval of a public body and if required, a vote of the people. If a proposal, other than that for a city, town, or special purpose district annexation, after modification does not contain enough signatures of persons within the modified area, as are required by law, then the initiating party, parties or governmental unit has thirty days after the modification decision to secure enough signatures to satisfy the legal requirement. If the signatures cannot be secured then the proposal may be submitted to a vote of the people, as required by law.

The addition or deletion of property by the board shall not invalidate a petition which had previously satisfied the sufficiency of signature provisions of RCW 35.13.130 or 35A.14.120. When the board, after due proceedings held, disapproves a proposed action, such proposed action shall be unavailable, the proposing agency shall be without power to initiate the same or substantially the same as determined by the board, and any succeeding acts intended to or tending to effectuate that action shall be void, but such action may be reinitiated after a period of twelve months from date of disapproval and shall again be subject to the same consideration.

The board shall not modify or deny a proposed action unless there is evidence on the record to support a conclusion that the action is inconsistent with one or more of the objectives under RCW 36.93.180. Every such determination to modify or deny a proposed action shall be made in writing pursuant to a motion, and shall be supported by appropriate written findings and conclusions, based on the record.

Sec. 16. RCW 36.93.160 and 1988 c 202 s 40 are each amended to read as follows:

(1) When the jurisdiction of the boundary review board has been invoked, the board shall set the date, time and place for a public hearing on the proposal. Notice shall also be given by publication in any newspaper of general circulation in the area of the proposed boundary change at least three times, the last publication of which shall be not less than five days prior to the date set for the public hearing. Notice shall also be posted in ten public places in the area affected for five days when the area is ten acres or more. When the area affected is less than ten acres, five notices shall be posted in five public places for five days. Notice as provided in this subsection shall include any territory which the board has determined to consider adding in accordance with RCW 36.93.150(2).

The written decision shall indicate whether the proposed change is approved, rejected, or modified and, if modified, the terms of ~~((such))~~ the modification. The written decision need not include specific data on every factor required to be considered by the board, but shall indicate that all standards were given consideration. Dissenting members of the board shall have the right to have their written dissents included as part of the decision.

(5) Unanimous decisions of the hearing panel or a decision of a majority of the members of the board shall constitute the decision of the board and shall not be appealable to the whole board. Any other decision shall be appealable to the entire board within ten days. Appeals shall be on the record, which shall be furnished by the appellant, but the board may, in its sole discretion, permit the introduction of additional evidence and argument. Decisions shall be final and conclusive unless within ~~((ten))~~ thirty days from the date of ~~((said))~~ the action a governmental unit affected by the decision or any person owning real property or residing in the area affected by the decision files ~~((in the superior court a notice of appeal))~~ with the growth planning hearings board for that jurisdiction a notice of appeal. Appeals to the growth planning hearings board are limited to determination of whether the decision is consistent with RCW 36.93.157, 36.93.170, and 36.93.180.

The filing of ~~((such))~~ the notice of appeal within ~~((such))~~ the time limit shall stay the effective date of the decision of the board until such time as the appeal shall have been adjudicated or withdrawn. ~~((On appeal the superior court shall not take any evidence other than that contained in the record of the hearing before the board.~~

~~((6) The superior court may affirm the decision of the board or remand the case for further proceedings; or it may reverse the decision if any substantial rights may have been prejudiced because the administrative findings, inferences, conclusions, or decisions are:~~

- ~~((a) In violation of constitutional provisions, or~~
- ~~((b) In excess of the statutory authority or jurisdiction of the board, or~~
- ~~((c) Made upon unlawful procedure, or~~
- ~~((d) Affected by other error of law, or~~
- ~~((e) Unsupported by material and substantial evidence in view of the entire record as submitted, or~~
- ~~((f) Arbitrary or capricious.~~

~~An aggrieved party may seek appellate review of any final judgment of the superior court in the manner provided by law as in other civil cases.))~~

Sec. 17. RCW 36.70A.280 and 1991 sp.s. c 32 s 9 are each amended to read as follows:

(1) A growth planning hearings board shall hear and determine only those petitions alleging either: (a) That a state agency, county, or city is not in compliance with the requirements of this chapter, or chapter 43.21C RCW as it relates to plans, regulations, and amendments thereto, adopted under RCW 36.70A.040; ~~((or))~~ (b) that the twenty-year growth management planning population projections adopted by the office of financial management ~~((pursuant to))~~ under RCW 43.62.035 should be adjusted; or (c) that a decision of a county boundary review board is not consistent with the requirements of chapter 36.93 RCW.

The rationale for any adjustment that is adopted by a board must be documented and filed with the office of financial management within ten working days after adoption.

If adjusted by a board, a county growth management planning population projection shall only be used for the planning purposes set forth in this chapter and shall be known as a "board adjusted population projection". None of these changes shall affect the official state and county population forecasts prepared by the office of financial management, which shall continue to be used for state budget and planning purposes.

If the legislative body requires the assumption of all or any portion of indebtedness and/or the adoption of a proposed zoning regulation, it shall record this action in its minutes and the petition for annexation shall be so drawn as to clearly indicate these facts. Approval by the legislative body shall be a condition precedent to circulation of the petition. There shall be no appeal from the decision of the legislative body. If the legislative body has required the assumption of all or any portion of city indebtedness by the area annexed or the adoption of a proposed zoning regulation, these facts, together with a quotation of the minute entry of such requirement, or requirements, shall also be set forth in the petition. In exercising the state board of education's authority to establish high school credit equivalencies for credits earned at institutions of higher education, the state board of education has highlighted the need for an ongoing forum that encourages the various education entities to provide each other with advice and counsel as rules and policies are adopted that have implications for students in all sectors of the state's education system. Essential academic learning requirements that incorporate the remainder of RCW 28A.150.210 (2), (3), and (4), goals two, three, and four, shall be completed no later than March 1, 1996. To the maximum extent possible, the commission shall integrate goal four and the knowledge and skill areas in the other goals in the development of the essential academic learning requirements;

(b)(i) The commission shall present to the state board of education and superintendent of public instruction a state-wide academic assessment system for use in the elementary, middle, and high school years designed to determine if each student has mastered the essential academic learning requirements identified in (a) of this subsection. The academic assessment system shall include a variety of assessment methods, including performance-based measures that are criterion-referenced. Performance standards for determining if a student has successfully completed an assessment shall be initially determined by the commission in consultation with the advisory committees required in subsection (2) of this section.

(ii) The assessment system shall be designed so that the results under the assessment system are used by educators as tools to evaluate instructional practices, and to initiate appropriate educational support for students who have not mastered the essential academic learning requirements at the appropriate periods in the student's educational development.

(iii) Assessments measuring the essential academic learning requirements developed for RCW 28A.150.210(1), goal one, and the mathematics component of RCW 28A.150.210(2), goal two, shall be initially implemented by the state board of education and superintendent of public instruction no later than the 1996-97 school year, unless the legislature takes action to delay or prevent implementation of the assessment system and essential academic learning requirements. Assessments measuring the essential academic learning requirements developed for RCW 28A.150.210 (2), (3), and (4), goals two, three, and four, shall be initially implemented by the state board of education and superintendent of public instruction no later than the 1997-98 school year, unless the legislature takes action to delay or prevent implementation of the assessment system and essential academic learning requirements. To the maximum extent possible, the commission shall integrate knowledge and skill areas in development of the assessments.

(iv) Before the 2000-2001 school year, participation by school districts in the assessment system shall be optional. School districts that desire to participate before the 2000-2001 school year shall notify the superintendent of public instruction in a manner determined by the superintendent. Beginning in the 2000-2001 school year, all school districts shall be required to participate in the assessment system.

(v) The state board of education and superintendent of public instruction may modify the essential academic learning requirements and academic assessment system, as needed, in subsequent school years.

(vi) The commission shall develop assessments that are directly related to the essential academic learning requirements, and are not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender;

(c) After a determination is made by the state board of education that the high school assessment system has been implemented and that it is sufficiently reliable and valid, successful completion of the high school assessment shall lead to a certificate of mastery. The certificate of mastery shall be obtained by most students at about the age of sixteen, and is evidence that the student has successfully mastered the essential academic learning requirements during his or her educational career. The certificate of mastery shall be required for graduation but shall not be the only requirement for graduation. The commission shall make recommendations to the state board of education regarding the relationship between the certificate of mastery and high school graduation requirements. Upon achieving the certificate of mastery, schools shall provide students with the opportunity to continue to pursue career and educational objectives through educational pathways that emphasize integration of academic and vocational education. Educational pathways may include, but are not limited to, programs such as work-based learning, school-to-work transition, tech prep, vocational-technical education, running start, and preparation for technical college, community college, or university education;

(d) Consider methods to address the unique needs of special education students when developing the assessments in (b) and (c) of this subsection;

(e) Consider methods to address the unique needs of highly capable students when developing the assessments in (b) and (c) of this subsection;

(f) Develop recommendations on the time, support, and resources, including technical assistance, needed by schools and school districts to help students achieve the essential academic learning requirements. These recommendations shall include an estimate for the legislature, superintendent of public instruction, and governor on the expected cost of implementing the academic assessment system;

(g) Develop recommendations for consideration by the higher education coordinating board for adopting college and university entrance requirements for public school students that are consistent with the essential academic learning requirements and the certificate of mastery;

(h) By December 1, 1998, recommend to the legislature, governor, state board of education, and superintendent of public instruction:

(i) A state-wide accountability system to monitor and evaluate accurately and fairly the level of learning occurring in individual schools and school districts. The accountability system shall be designed to recognize the characteristics of the student population of schools and school districts such as gender, race, ethnicity, socioeconomic status, and other factors. The system shall include school-site, school district, and state-level accountability reports;

(ii) A school assistance program to help schools and school districts that are having difficulty helping students meet the essential academic learning requirements;

(iii) A system to intervene in schools and school districts in which significant numbers of students persistently fail to learn the essential academic learning requirements; and

(iv) An awards program to provide incentives to school staff to help their students learn the essential academic learning requirements, with each school being assessed individually against its own baseline. Incentives shall be based on the rate of percentage change of students achieving the essential academic learning requirements. School staff shall determine how the awards will be spent.

It is the intent of the legislature to begin implementation of programs in this subsection (3)(h) on September 1, 2000;

(i) Report annually by December 1st to the legislature, the governor, the superintendent of public instruction, and the state board of education on the progress, findings, and recommendations of the commission; and

(j) Make recommendations to the legislature and take other actions necessary or desirable to help students meet the student learning goals.

(4) The commission shall coordinate its activities with the state board of education and the office of the superintendent of public instruction.

(5) The commission shall seek advice broadly from the public and all interested educational organizations in the conduct of its work, including holding periodic regional public hearings.

(6) The commission shall select an entity to provide staff support and the office of the superintendent of public instruction shall provide administrative oversight and be the fiscal agent for the commission. The commission may direct the office of the superintendent of public instruction to enter into subcontracts, within the commission's resources, with school districts, teachers, higher education faculty, state agencies, business organizations, and other individuals and organizations to assist the commission in its deliberations.

(7) Members of the commission shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060.

NEW SECTION. Sec. 14. The following acts or parts of acts are each repealed:

(1) RCW 28A.300.140 and 1990 c 33 s 256 & 1987 c 119 s 1;

(2) RCW 28A.610.060 and 1987 c 518 s 109; and

(3) RCW 28A.615.050 and 1987 c 518 s 305.

NEW SECTION. Sec. 15. Section 10 of this act shall take effect September 1, 1994.

NEW SECTION. Sec. 16. Section 4 of this act shall expire December 1, 2001."

Senator Anderson moved that the following amendments by Senators Anderson and Hargrove to the Committee on Education striking amendment be considered simultaneously and be adopted:

On page 6, line 12, after "having" insert "either"

On page 6, line 13, after "presentations" insert "or reviewed the curricula and materials available for inspection"

POINT OF ORDER

Senator Pelz: "Mr. President, I request that you rule the amendment by Senator Anderson outside the scope and object of Engrossed Substitute House Bill No. 2850. The amendment would change the requirement for excusing a child from participating in an AIDS education program. Certain sections of this bill such as the section dealing with AIDS education are only in the bill to delete references to an obsolete term, 'The State Clearing House for Education Information,' which ceased to exist after House Bill 1209 went into effect. The bill does not make changes in the AIDS education program or other programs. Any attempt to change the AIDS program is beyond the scope of the bill and I ask that we not turn this bill--to approve the procedure established last session under House Bill No. 1209 for improving our schools--into a Christmas Tree to hang any item or any ones wish to change the education code. I realize that the title is very broad, but the bill is narrow in scope."

Further debate ensued.

There being no 222objection, the President deferred further consideration of the amendments by Senators Anderson and Hargrove on page 6, lines 12 and 13, to the Committee on Education striking amendment.

MOTION

Senator Talmadge moved that the following amendment by Senators Talmadge, Prentice and McDonald to the Committee on Education amendment be adopted:

On page 9, after line 11, insert the following:

"Sec. 10. RCW 28A.235.140 and 1993 c 333 s 1 are each amended to read as follows:

(1) For the purposes of this section:

(a) "Free or reduced-price lunches" means lunches served by a school district that qualify for federal reimbursement as free or reduced-price lunches under the national school lunch program.

(b) "School breakfast program" means a program meeting federal requirements defined in 42 U.S.C. Sec. 1773.

(c) "Severe-need school" means a school that qualifies for a severe-need school reimbursement rate from federal funds for school breakfasts served to children from low-income families.

(2) School districts shall be required to develop and implement plans for a school breakfast program in severe-need schools ~~(pursuant to the schedule in this section. For the second year prior to the implementation of the district's school breakfast program, and for each subsequent school year, each school district shall submit data enabling the superintendent of public instruction to determine which schools within the district will qualify as severe-need schools).~~ In developing its plan, each school district shall consult with an advisory committee including school staff and community members appointed by the board of directors of the district. School districts shall provide a breakfast program in any school as long as the school qualifies as a severe-need school or there is data available to confirm and substantiate the severe-needs status of the school.

(3) ~~((Using district-wide data on school lunch participation during the 1988-89 school year, the superintendent of public instruction shall adopt a schedule for implementation of school breakfast programs in severe-need schools as follows:~~

~~(a) School districts where at least forty percent of lunches served to students are free or reduced-price lunches shall submit a plan for implementation of a school breakfast program in severe-need schools to the superintendent of public instruction no later than July 1, 1990. Each such district shall implement a school breakfast program in all severe-need schools no later than the second day of school in the 1990-91 school year and in each school year thereafter.~~

~~(b) School districts where at least twenty-five but less than forty percent of lunches served to students are free or reduced-price lunches shall submit a plan for implementation of a school breakfast program in severe-need schools to the superintendent of public instruction no later than July 1, 1991.)~~ Each such district shall implement a school breakfast program in all severe-need schools no later than the second day of school in the 1991-92 school year and in each school year thereafter.

~~((c) School districts where less than twenty-five percent of lunches served to students are free or reduced-price lunches shall submit a plan for implementation of a school breakfast program in severe-need schools to the superintendent of public instruction no later than July 1, 1992. Each such district shall implement a school breakfast program in all severe-need schools no later than the second day of school in the 1992-93 school year and in each school year thereafter.~~

~~(d) School districts that did not offer a school lunch program in the 1988-89 school year are encouraged to implement such a program and to provide a school breakfast program in all severe-need schools when eligible.)~~

~~(4) The requirements in this section shall lapse if the federal reimbursement rate for breakfasts served in severe-need schools is eliminated.~~

~~(5) Students who do not meet family-income criteria for free breakfasts shall be eligible to participate in the school breakfast programs established under this section, and school districts may charge for the breakfasts served to these students except as provided in section 13 of this act. Requirements that school districts have school breakfast programs under this section shall not create or imply any state funding obligation for these costs. The legislature does not intend to include these programs within the state's obligation for basic education funding under Article IX of the Constitution.~~

~~(6) School districts that as of the effective date of this act do not have a school lunch program shall develop a plan for a school lunch program and establish a feasible timeline for instituting the program.~~

~~**Sec. 11.** RCW 28A.235.150 and 1993 c 333 s 3 are each amended to read as follows:~~

~~(1) To the extent funds are appropriated, the superintendent of public instruction may award grants to school districts to increase participation in school breakfast and lunch programs, to improve program quality, and to improve the equipment and facilities used in the programs. School districts shall demonstrate that they have applied for applicable federal funds before applying for funds under this subsection. Funds appropriated under this subsection are intended to increase participation by eligible students in school food programs, and shall be used solely to enhance school breakfast and lunch programs.~~

~~(2) To the extent funds are appropriated, the superintendent of public instruction shall increase the state support for school breakfasts and lunches.~~

~~(3) The superintendent of public instruction shall identify six severe-need schools under RCW 28A.235.140 and award to these schools grants to be used directly to feed more students. The following criteria shall be included in selecting the schools:~~

~~(a) Severe-needs schools, as established by data;~~

~~(b) A high percentage of students eligible for low-income meals, as determined by dividing the number of free and reduced price meal applications or letters of direct certification by the total school enrollment; and~~

~~(c) The small size of the school district does not enable the school to benefit from economies of scale in food services.~~

~~(4) The superintendent of public instruction shall apply for all available federal funds for school lunch and breakfast program outreach.~~

~~**Sec. 12.** RCW 28A.235.155 and 1993 c 333 s 4 are each amended to read as follows:~~

~~(1) The superintendent of public instruction shall administer funds for the federal summer food service program.~~

~~(2) The superintendent of public instruction may award grants, to the extent funds are appropriated, to eligible organizations to help start new summer food service programs for children or to help expand summer food services for children.~~

~~(3) The superintendent of public instruction shall apply for all available federal funds for summer food service program outreach.~~

~~**NEW SECTION. Sec. 13.** A new section is added to chapter 28A.235 RCW to read as follows:~~

~~School districts are encouraged to take advantage of the opportunity to serve all enrolled students in designated high-needs schools under special assistance known as Provision 2, 7 C.F.R. 245(b). The superintendent of public instruction shall ensure that information on Provision 2 is provided to all school districts with schools where more than seventy-five percent of students qualify for free or reduced-price school meals by the end of 1994.~~

~~**NEW SECTION. Sec. 14.** A new section is added to chapter 28A.235 RCW to read as follows:~~

~~Within six months of the effective date of this act, and every two years thereafter, school districts with breakfast or lunch programs shall assess whether the programs allow the students sufficient and realistic time to be served and to eat. If the assessment shows that there is insufficient time for personal hygiene, serving, and consumption of school meals, the school shall allow more time by any feasible means, including the use of adult volunteer help, additional cafeteria shifts, or more staffing. Failure to properly assess such programs and correct problems identified by assessment, or to promptly investigate and take appropriate action on complaints regarding compliance with this section shall be remedied by the superintendent of public instruction.~~

~~**NEW SECTION. Sec. 15.** A new section is added to chapter 28A.235 RCW to read as follows:~~

~~School districts shall ensure that food sold on school grounds is consistent with the dietary guidelines for Americans as provided in the edition of "Nutrition & Your Health: Dietary Guidelines for Americans," by the United States departments of agriculture and health and human services in print on the effective date of this act, or a later edition as adopted by reference by the superintendent by rule."~~

~~Renumber the remaining sections consecutively and correct internal references accordingly.~~

POINT OF ORDER

Senator Pelz: "Mr. President, I also ask that you rule that the amendment by Senator Talmadge exceeds the scope and object of Engrossed Substitute House Bill No 2850. This amendment is beyond the scope and object of Engrossed Substitute House Bill No. 2850 since it seeks to make improvements to another school program, the school food program. The school food program is not mentioned in Engrossed Substitute House Bill No. 2850. Engrossed Substitute House Bill No. 2850, while containing a number of statutes in the education code, is a very narrow bill designed to make substantive and technical changes to a specific piece of legislation, House Bill No 1209. It does not create any new programs or attempt to make additional reforms to education."

Further debate ensued.

There being no objection, the President deferred further consideration of the amendment by Senators Talmadge, Prentice and McDonald on page 9, after line 11, to the Committee on Education striking amendment.

MOTION

Senator West moved that the following amendments to the Committee on Education amendment be considered simultaneously and be adopted:

On page 14, after line 17, insert the following:

Sec. 14. RCW 28A.160.210 and 1989 c 178 s 20 are each amended to read as follows:

In addition to other powers and duties, the state board of

education shall adopt rules (~~and regulations~~) governing the training and qualifications of school bus drivers. For the purposes of this section, "school bus driver" means a person who operates a school bus as defined in RCW 46.04.521, as well as other motor vehicles for the routine transportation of students between home and school on scheduled routes. Such rules (~~and regulations~~) for school bus drivers shall be designed to insure that persons will not be employed to operate school buses unless they possess such physical health and driving skills as are necessary to safely operate school buses: PROVIDED, That such rules (~~and regulations~~) shall insure that school bus drivers are provided a due process hearing before any certification required by such rules (~~and regulations~~) is (~~cancelled~~) cancelled: PROVIDED FURTHER, That such rules (~~and regulations~~) shall not conflict with the authority of the department of licensing to license school bus drivers in accordance with chapter 46.25 RCW. The state board of education may obtain a copy of the driving record, as maintained by the department of licensing, for consideration when evaluating a school bus driver's driving skills.

NEW SECTION. Sec. 15. A new section is added to chapter 28A.320 RCW to read as follows:

School district boards of directors are encouraged to adopt policies on qualifications for school district employees and volunteers transporting students other than their own children to or from school sponsored activities."

On page 15, line 1, after "(uncodified);" insert "28A.160.210;"

On page 15, line 2, after "28A.150 RCW;" insert "adding a new section to chapter 28A.320 RCW;"

POINT OF ORDER

Senator Pelz: "Mr. President, I am reminded of the time that Senator Moore was on the losing end of an unanimous vote. Senator West is attempting to amend this bill with an old bill of mine, which I wish were going to pass, but I am going to have to ask that you rule that Senator West's amendment exceeds the scope and object of Engrossed Substitute House Bill No. 2850--suffice to say for reasons that I previously stated."

Further debate ensued.

There being no objection, the President deferred further consideration of the amendments by Senator West on page 14, after line 17, and page 15, lines 1 and 2, to the Committee on Education striking amendment.

There being no objection, the President deferred further consideration of Engrossed Substitute House Bill No. 2850.

MOTION

At 6:21 p.m., on motion of Senator Spanel, the Senate was declared to be at ease.

The Senate was called to order at 7:37 p.m. by President Pritchard.

There being no objection, the President returned the Senate to the fourth order of business.

MOTION

On motion of Senator Spanel, the Senate advanced to the sixth order of business.

There being no objection, the Senate resumed consideration of Engrossed Substitute House Bill No. 2850 and the pending amendments by Senators Anderson and Hargrove on page 6, lines 12 and 13; the pending amendment by Senators Talmadge, Prentice and McDonald on page 9, after line 11; and the pending amendments by Senator West on page 14, after line 17, and page 15, lines 1 and 2, all to the Committee on Education striking amendment, deferred earlier today.

RULING BY THE PRESIDENT

President Pritchard: "In ruling upon the point of order raised by Senator Pelz on the amendments by Senators Anderson and Hargrove on page 6, lines 12 and 13; the amendment by Senators Talmadge, Prentice and McDonald on page 9, after line 11; and the amendments by Senator West on page 14, after line 17, and page 15, lines 1 and 2, to the Committee on Education amendment, the President finds that Engrossed Substitute House Bill No. 2850 is a measure which deletes obsolete language, changes reporting dates, changes terms of existing grants and adds certain values and traits to the goals of the Basic Education Act.

"The amendments proposed by Senators Anderson and Hargrove on page 6, lines 12 and 13 would provide parents or guardians with the option of reviewing materials on AIDS curricula, rather than attending a presentation, in deciding whether to object to a child's participation in AIDS prevention education.

"The amendment proposed by Senators Talmadge, Prentice and McDonald on page 9, after line 11, would make numerous changes in school food programs including the awarding of grants for food programs in qualifying schools, requiring assessments of school district food programs, and requiring that food sold on school grounds is consistent with certain dietary guidelines.

"The amendments proposed by Senator West on page 14, after line 17 and page 15, lines 1 and 2, would define 'school bus driver' and limit the State Board of Education's authority over certain school bus drivers.

"The President, therefore, finds that all the proposed amendments do change the scope and object of the bill and the point of order is well taken."

The amendments by Senators Anderson and Hargrove on page 6, lines 12 and 13; the amendment by Senators Talmadge, Prentice and McDonald on page 9, after line 11; and the amendments by Senator West on page 14, after line 17, and page 15, lines 1 and 2, to the Committee on Education striking amendment to Engrossed Substitute House Bill No. 2850 were ruled out of order.

The President declared the question before the Senate to be the adoption of the Committee on Education striking amendment to Engrossed Substitute House Bill No. 2850.

Providing tax credits and deferrals for high-technology businesses.

The bill was read the second time.

MOTIONS

On motion of Senator Rinehart, the following Committee on Ways and Means amendment was adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that high-wage, high-skilled jobs are vital to the economic health of the state's citizens, and that targeted tax incentives will encourage the formation of high-wage, high-skilled jobs. The legislature also finds that tax incentives should be subject to the same rigorous requirements for efficiency and accountability as are other expenditure programs, and that tax incentives should therefore be focused to provide the greatest possible return on the state's investment.

The legislature also finds that high-technology businesses are a vital and growing source of high-wage, high-skilled jobs in this state, and that the high-technology sector is a key component of the state's effort to encourage economic diversification. However, the legislature finds that many high-technology businesses incur significant costs associated with research and development and pilot scale manufacturing many years before a marketable product can be produced, and that current state tax policy discourages the growth of these companies by taxing them long before they become profitable.

The legislature further finds that stimulating growth of high-technology businesses early in their development cycle, when they are turning ideas into marketable products, will build upon the state's established high-technology base, creating additional research and development jobs and subsequent manufacturing facilities.

For these reasons, the legislature hereby establishes a program of business and occupation tax credits for qualified research and development expenditures. The legislature also hereby establishes a tax deferral program for high-technology research and development and pilot scale manufacturing facilities. The legislature declares that these limited programs serve the vital public purpose of creating employment opportunities in this state. The legislature further declares its intent to create a contract within the meaning of Article I, section 23 of the state Constitution as to those businesses that make capital investments in consideration of the tax deferral program established in this chapter.

NEW SECTION. Sec. 2. A new section is added to chapter 82.04 RCW to read as follows:

(1) In computing the tax imposed under this chapter, a credit is allowed for each person whose research and development spending during the year in which the credit is claimed exceeds 0.92 percent of the person's taxable amount during the same calendar year.

(2) The credit is equal to the greater of the amount of qualified research and development expenditures of a person or eighty percent of amounts received by a person other than a public educational or research institution in compensation for the conduct of qualified research and development, multiplied by the rate of 0.515 percent in the case of a nonprofit corporation or nonprofit association engaging within this state in research and development, and 2.5 percent for every other person.

(3) Any person entitled to the credit provided in subsection (2) of this section as a result of qualified research and development conducted under contract may assign all or any portion of the credit to the person contracting for the performance of the qualified research and development.

(4) The credit, including any credit assigned to a person under subsection (3) of this section, shall be taken against taxes due for the same calendar year in which the qualified research and development expenditures are incurred. The credit, including any credit assigned to a person under subsection (3) of this section, for calendar year 1994 shall not exceed the lesser of one million dollars or the taxes otherwise due under this chapter for the period July 1, 1994 through December 31, 1994. The credit, including any credit assigned to a person under subsection (3) of this section, for each calendar year thereafter shall not exceed the lesser of two million dollars or the amount of tax otherwise due under this chapter for the calendar year.

(5) Any person taking the credit, including any credit assigned to a person under subsection (3) of this section, whose research and development spending during the calendar year in which the credit is claimed fails to exceed 0.92 percent of the person's taxable amount during the same calendar year shall be liable for payment of the additional taxes represented by the amount of credit taken together with interest, but not penalties. Interest shall be due at the rate provided for delinquent excise taxes retroactively to the date the credit was taken until the taxes are paid. Any credit assigned to a person under subsection (3) of this section that is disallowed as a result of this section may be taken by the person who performed the qualified research and development subject to the limitations set forth in subsection (4) of this section.

(6) Any person claiming the credit, and any person assigning a credit as provided in subsection (3) of this section, shall file an affidavit form prescribed by the department which shall include the amount of the credit claimed, an estimate of the anticipated qualified research and development expenditures during the calendar year for which the credit is claimed, an estimate of the taxable amount during the calendar year for which the credit is claimed, and such additional information as the department may prescribe.

(7) A person claiming the credit shall agree to supply the department with information necessary to measure the results of the tax credit program for qualified research and development expenditures.

(8) For the purpose of this section:

(a) "Qualified research and development expenditures" means operating expenses, including wages, compensation of a proprietor or a partner in a partnership as determined under rules adopted by the department, benefits, supplies, and computer expenses, directly incurred in qualified research and development by a person claiming the credit provided in this section. The term does not include amounts paid to a person other than a public educational or research institution to conduct qualified research and development. Nor does the term include capital costs and overhead, such as expenses for land, structures, or depreciable property.

(b) "Qualified research and development" shall have the same meaning as in section 3 of this act.

(c) "Research and development spending" means qualified research and development expenditures plus eighty percent of amounts paid to a person other than a public educational or research institution to conduct qualified research and development.

(d) "Taxable amount" means the taxable amount subject to the tax imposed in this chapter required to be reported on the person's combined excise tax returns during the year in which the credit is claimed, less any taxable amount for which a credit is allowed under RCW 82.04.440.
(9) This section shall expire July 1, 1997.

NEW SECTION. Sec. 3. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Advanced computing" means technologies used in the designing and developing of computing hardware and software, including innovations in designing the full spectrum of hardware from hand-held calculators to super computers, and peripheral equipment.

(2) "Advanced materials" means materials with engineered properties created through the development of specialized processing and synthesis technology, including ceramics, high value-added metals, electronic materials, composites, polymers, and biomaterials.

(3) "Applicant" means a person applying for a tax deferral under this chapter.

(4) "Biotechnology" means the application of technologies, such as recombinant DNA techniques, biochemistry, molecular and cellular biology, genetics and genetic engineering, cell fusion techniques, and new bioprocesses, using living organisms, or parts of organisms, to produce or modify products, to improve plants or animals, to develop microorganisms for specific uses, to identify targets for small molecule pharmaceutical development, or to transform biological systems into useful processes and products or to develop microorganisms for specific uses.

(5) "Department" means the department of revenue.

(6) "Electronic device technology" means technologies involving microelectronics; semiconductors; electronic equipment and instrumentation; radio frequency, microwave, and millimeter electronics; and optical and optic-electrical devices; and data and digital communications and imaging devices.

(7) "Eligible investment project" means that portion of an investment project which either initiates a new operation, or expands or diversifies a current operation by expanding, renovating, or equipping an existing facility with costs in excess of twenty-five percent of the true and fair value of the facility prior to improvement. The lessor or owner of the qualified building is not eligible for a deferral unless the underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person, or unless the lessor by written contract agrees to pass the economic benefit of the deferral to the lessee in the form of reduced rent payments.

(8) "Environmental technology" means assessment and prevention of threats or damage to human health or the environment, environmental cleanup, and the development of alternative energy sources.

(9) "Investment project" means an investment in qualified buildings or qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction or improvement of the project.

(10) "Person" has the meaning given in RCW 82.04.030.

(11) "Pilot scale manufacturing" means design, construction, and testing of preproduction prototypes and models in the fields of biotechnology, advanced computing, electronic device technology, advanced materials, and environmental technology other than for commercial sale. As used in this subsection, "commercial sale" excludes sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

(12) "Qualified buildings" means structures used for pilot scale manufacturing or qualified research and development, including plant offices and other facilities that are an essential or an integral part of a structure used for pilot scale manufacturing or qualifying research and development. If a building is used partly for pilot scale manufacturing or qualifying research and development, and partly for other purposes, the applicable tax deferral shall be determined by apportionment of the costs of construction under rules adopted by the department.

(13) "Qualified machinery and equipment" means fixtures, equipment, and support facilities that are an integral and necessary part of a pilot scale manufacturing or qualified research and development operation. "Qualified machinery and equipment" includes: Computers; software; data processing equipment; laboratory equipment, instrumentation, and other devices used in a process of experimentation to develop a new or improved pilot model, plant process, product, formula, invention, or similar property; manufacturing components such as belts, pulleys, shafts, and moving parts; molds, tools, and dies; vats, tanks, and fermenters; operating structures; and all other equipment used to control, monitor, or operate the machinery. For purposes of this chapter, qualified machinery and equipment must be either new to the taxing jurisdiction of the state or new to the certificate holder, except that used machinery and equipment may be treated as qualified machinery and equipment if the certificate holder either brings the machinery and equipment into Washington or makes a retail purchase of the machinery and equipment in Washington or elsewhere.

(14) "Qualified research and development" means research and development performed within this state in the fields of advanced computing, advanced materials, biotechnology, electronic device technology, and environmental technology.

(15) "Recipient" means a person receiving a tax deferral under this chapter.

(16) "Research and development" means activities performed to discover technological information, and technical and nonroutine activities concerned with translating technological information into new or improved products, processes, techniques, formulas, inventions, or software. The term includes exploration of a new use for an existing drug, device, or biological product if the new use requires separate licensing by the federal food and drug administration under chapter 21, C.F.R., as amended. The term does not include adaptation or duplication of existing products where the products are not substantially improved by application of the technology, nor does the term include surveys and studies, social science and humanities research, market research or testing, quality control, sale promotion and service, computer software developed for internal use, and research in areas such as improved style, taste, and seasonal design.

NEW SECTION. Sec. 4. Application for deferral of taxes under this chapter must be made before July 1, 1997, and before initiation of construction of, or acquisition of equipment or machinery for the investment project. The application shall be made to the department in a form and manner prescribed by the department. The application shall contain information regarding the location of the investment project, the applicant's average employment in the state for the prior year, estimated or actual new employment related to the project, estimated or actual wages of employees related to the project, estimated or actual costs, time schedules for completion and operation, and other information required by the department. The department shall rule on the application within sixty days.

Applicants for deferral of taxes under this chapter shall agree to supply the department with nonproprietary information necessary to measure the results of the tax deferral program for high-technology research and development and pilot scale manufacturing facilities.

NEW SECTION. Sec. 5. (1) Except as provided in subsection (2) of this section, the department shall issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW on each eligible investment project.

(2) No certificate may be issued for an investment project that has already received a deferral under chapters 82.60 or 82.61 RCW or this chapter, except that an investment project for qualified research and development that has already received a deferral may also receive an additional deferral certificate for adapting the investment project for use in pilot scale manufacturing.

(1) The property taxes must have been imposed upon a residence which was occupied by the person claiming the exemption as a principal place of residence as of January 1st of the year for which the exemption is claimed: PROVIDED, That any person who sells, transfers, or is displaced from his or her residence may transfer his or her exemption status to a replacement residence, but no claimant shall receive an exemption on more than one residence in any year: PROVIDED FURTHER, That confinement of the person to a hospital or nursing home shall not disqualify the claim of exemption if:

(b)(i) A person who otherwise qualifies under this section and has a combined disposable income of eighteen thousand dollars or less but greater than fifteen thousand dollars shall be exempt from all regular property taxes on the greater of thirty thousand dollars or thirty percent of the valuation of his or her residence, but not to exceed fifty thousand dollars of the valuation of his or her residence; or

Improving the efficiency of state facilities and the budget process.

The bill was read the second time.

MOTIONS

Senator Rinehart moved that the following Committee on Ways and Means amendment be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that the acquisition, construction, and management of state-owned and leased facilities has a profound and long-range effect upon the delivery and cost of state programs, and that there is an increasing need for better facility planning and management to improve the effectiveness and efficiency of state facilities.

Sec. 2. RCW 43.88.030 and 1991 c 358 s 1 and 1991 c 284 s 1 are each reenacted and amended to read as follows:

(1) The director of financial management shall provide all agencies with a complete set of instructions for submitting biennial budget requests to the director at least three months before agency budget documents are due into the office of financial management. The director shall provide agencies that are required under RCW 44.40.070 to develop comprehensive six-year program and financial plans with a complete set of instructions for submitting these program and financial plans at the same time that instructions for submitting other budget requests are provided. The budget document or documents shall consist of the governor's budget message which shall be explanatory of the budget and shall contain an outline of the proposed financial policies of the state for the ensuing fiscal period, as well as an outline of the proposed six-year financial policies where applicable, and shall describe in connection therewith the important features of the budget. The message shall set forth the reasons for salient changes from the previous fiscal period in expenditure and revenue items and shall explain any major changes in financial policy. Attached to the budget message shall be such supporting schedules, exhibits and other explanatory material in respect to both current operations and capital improvements as the governor shall deem to be useful to the legislature. The budget document or documents shall set forth a proposal for expenditures in the ensuing fiscal period, or six-year period where applicable, based upon the estimated revenues as approved by the economic and revenue forecast council or upon the estimated revenues of the office of financial management for those funds, accounts, and sources for which the office of the economic and revenue forecast council does not prepare an official forecast, including those revenues anticipated to support the six-year programs and financial plans under RCW 44.40.070. In estimating revenues to support financial plans under RCW 44.40.070, the office of financial management shall rely on information and advice from the interagency revenue task force. Revenues shall be estimated for such fiscal period from the source and at the rates existing by law at the time of submission of the budget document, including the supplemental budgets submitted in the even-numbered years of a biennium. However, the estimated revenues for use in the governor's budget document may be adjusted to reflect budgetary revenue transfers and revenue estimates dependent upon budgetary assumptions of enrollments, workloads, and caseloads. All adjustments to the approved estimated revenues must be set forth in the budget document. The governor may additionally submit, as an appendix to each supplemental, biennial, or six-year agency budget or to the budget document or documents, a proposal for expenditures in the ensuing fiscal period from revenue sources derived from proposed changes in existing statutes.

Supplemental and biennial documents shall reflect a six-year expenditure plan consistent with estimated revenues from existing sources and at existing rates for those agencies required to submit six-year program and financial plans under RCW 44.40.070. Any additional revenue resulting from proposed changes to existing statutes shall be separately identified within the document as well as related expenditures for the six-year period.

The budget document or documents shall also contain:

(a) Revenues classified by fund and source for the immediately past fiscal period, those received or anticipated for the current fiscal period, those anticipated for the ensuing biennium, and those anticipated for the ensuing six-year period to support the six-year programs and financial plans required under RCW 44.40.070;

(b) The undesignated fund balance or deficit, by fund;

(c) Such additional information dealing with expenditures, revenues, workload, performance, and personnel as the legislature may direct by law or concurrent resolution;

(d) Such additional information dealing with revenues and expenditures as the governor shall deem pertinent and useful to the legislature;

(e) Tabulations showing expenditures classified by fund, function, activity and object;

(f) A delineation of each agency's activities, including those activities funded from nonbudgeted, nonappropriated sources, including funds maintained outside the state treasury; and

(g) Identification of all proposed direct expenditures to implement the Puget Sound water quality plan under chapter 90.70 RCW, shown by agency and in total.

(2) The budget document or documents shall include detailed estimates of all anticipated revenues applicable to proposed operating or capital expenditures and shall also include all proposed operating or capital expenditures. The total of beginning undesignated fund balance and estimated revenues less working capital and other reserves shall equal or exceed the total of proposed applicable expenditures. The budget document or documents shall further include:

(a) Interest, amortization and redemption charges on the state debt;

(b) Payments of all reliefs, judgments and claims;

(c) Other statutory expenditures;

(d) Expenditures incident to the operation for each agency;

(e) Revenues derived from agency operations;

(f) Expenditures and revenues shall be given in comparative form showing those incurred or received for the immediately past fiscal period and those anticipated for the current biennium and next ensuing biennium, as well as those required to support the six-year programs and financial plans required under RCW 44.40.070;

(g) A showing and explanation of amounts of general fund and other funds obligations for debt service and any transfers of moneys that otherwise would have been available for appropriation;

(h) Common school expenditures on a fiscal-year basis;

(i) A showing, by agency, of the value and purpose of financing contracts for the lease/purchase or acquisition of personal or real property for the current and ensuing fiscal periods.

(3) A separate capital budget document or schedule shall be submitted that will contain the following:

(a) ~~A ((capital plan consisting of proposed capital spending for at least four fiscal periods succeeding the next fiscal period)) statement setting forth a long-range facilities plan for the state that identifies and includes the highest priority needs within affordable spending levels;~~

(b) A capital program consisting of proposed capital projects for ((at least)) the next biennium and the two ((fiscal periods)) biennia succeeding the next ((fiscal period)) biennium consistent with the long-range facilities plan. Inasmuch as is practical, and recognizing emergent needs, the capital program shall reflect the priorities, projects, and spending levels proposed in previously submitted capital budget documents in order to provide a reliable long-range planning tool for the legislature and state agencies;

(c) A capital plan consisting of proposed capital spending for at least four ((fiscal periods)) biennia succeeding the next ((fiscal period)) biennium;

(d) A statement of the reason or purpose for a project;

(e) Verification that a project is consistent with the provisions set forth in chapter 36.70A RCW;

(f) A statement about the proposed site, size, and estimated life of the project, if applicable;

(g) Estimated total project cost;

(h) For major projects valued over five million dollars, estimated costs for the following project components: Acquisition, consultant services, construction, equipment, project management, and other costs included as part of the project. Project component costs shall be displayed in a standard format defined by the office of financial management to allow comparisons between projects;

(i) Estimated total project cost for each phase of the project as defined by the office of financial management;

~~((#))~~ (j) Estimated ensuing biennium costs;

~~((#))~~ (k) Estimated costs beyond the ensuing biennium;

~~((#))~~ (l) Estimated construction start and completion dates;

~~((#))~~ (m) Source and type of funds proposed;

~~((#))~~ (n) Estimated ongoing operating budget costs or savings resulting from the project, including staffing and maintenance costs;

(o) Such other information bearing upon capital projects as the governor deems to be useful;

~~((#))~~ (p) Standard terms, including a standard and uniform definition of maintenance for all capital projects;

~~((#))~~ (q) Such other information as the legislature may direct by law or concurrent resolution.

For purposes of this subsection (3), the term "capital project" shall be defined subsequent to the analysis, findings, and recommendations of a joint committee comprised of representatives from the house capital appropriations committee, senate ways and means committee, legislative transportation committee, legislative evaluation and accountability program committee, and office of financial management.

(4) No change affecting the comparability of agency or program information relating to expenditures, revenues, workload, performance and personnel shall be made in the format of any budget document or report presented to the legislature under this section or RCW 43.88.160(1) relative to the format of the budget document or report which was presented to the previous regular session of the legislature during an odd-numbered year without prior legislative concurrence. Prior legislative concurrence shall consist of (a) a favorable majority vote on the proposal by the standing committees on ways and means of both houses if the legislature is in session or (b) a favorable majority vote on the proposal by members of the legislative evaluation and accountability program committee if the legislature is not in session.

Sec. 3. RCW 43.88A.020 and 1979 c 151 s 146 are each amended to read as follows:

The office of financial management shall, in cooperation with appropriate legislative committees and legislative staff, establish a procedure for the provision of fiscal notes on the expected impact of bills and resolutions which increase or decrease or tend to increase or decrease state government revenues or expenditures. Such fiscal notes shall indicate by fiscal year the impact for the remainder of the biennium in which the bill or resolution will first take effect as well as a cumulative forecast of the fiscal impact for the succeeding four fiscal years. Fiscal notes shall separately identify the fiscal impacts on the operating and capital budgets. Estimates of fiscal impacts shall be calculated using the procedures contained in the fiscal note instructions issued by the office of financial management.

In establishing the fiscal impact called for pursuant to this chapter, the office of financial management shall coordinate the development of fiscal notes with all state agencies affected.

Sec. 4. RCW 43.88.032 and 1989 c 311 s 1 are each amended to read as follows:

(1) Annual ongoing or routine maintenance costs shall be programmed in the operating budget rather than in the capital budget.

(2) All debt-financed pass-through money to local governments shall be programmed and separately identified in the ((capital)) budget document.

Sec. 5. RCW 43.88.110 and 1991 sp.s. c 32 s 27 and 1991 c 358 s 2 are each reenacted and amended to read as follows:

This section sets forth the expenditure programs and the allotment and reserve procedures to be followed by the executive branch for public funds.

(1) Allotments of an appropriation for any fiscal period shall conform to the terms, limits, or conditions of the appropriation.

(2) The director of financial management shall provide all agencies with a complete set of operating and capital instructions for preparing a statement of proposed expenditures at least thirty days before the beginning of a fiscal period. The set of instructions need not include specific appropriation amounts for the agency.

(3) Within forty-five days after the beginning of the fiscal period or within forty-five days after the governor signs the omnibus biennial appropriations act, whichever is later, all agencies shall submit to the governor a statement of proposed expenditures at such times and in such form as may be required by the governor.

(4) The office of financial management shall develop a method for monitoring capital appropriations and expenditures that will capture at least the following elements:

- (a) Appropriations made for capital projects including transportation projects;
- (b) Estimates of total project costs including past, current, ensuing, and future biennial costs;
- (c) Comparisons of actual costs to estimated costs;
- (d) Comparisons of estimated construction start and completion dates with actual dates;
- (e) Documentation of fund shifts between projects.

This data may be incorporated into the existing accounting system or into a separate project management system, as deemed appropriate by the office of financial management.

(5) The office of financial management, prior to approving allotments for major capital construction projects valued over five million dollars, shall institute procedures for reviewing such projects at the predesign stage that will reduce long-term costs and increase facility efficiency. The procedures shall include, but not be limited to, the following elements:

- (a) Evaluation of facility program requirements and consistency with long-range plans;
- (b) Utilization of a system of cost, quality, and performance standards to compare major capital construction projects; and
- (c) A requirement to incorporate value-engineering analysis and constructability review into the project schedule.

(6) No expenditure may be incurred or obligation entered into for such major capital construction projects including, without exception, land acquisition, site development, predesign, design, construction, and equipment acquisition and installation, until the allotment of the funds to be expended has been approved by the office of financial management. This limitation does not prohibit the continuation of expenditures and obligations into the succeeding biennium for projects for which allotments have been approved in the immediate prior biennium.

(7) If at any time during the fiscal period the governor projects a cash deficit in a particular fund or account as defined by RCW 43.88.050, the governor shall make across-the-board reductions in allotments for that particular fund or account so as to prevent a cash deficit, unless the legislature has directed the liquidation of the cash deficit over one or more fiscal periods. Except for the legislative and judicial branches and other agencies headed by elective officials, the governor shall review the statement of proposed operating expenditures for reasonableness and conformance with legislative intent. Once the governor approves the statements of proposed operating expenditures, further revisions shall be made only at the beginning of the second fiscal year and must be initiated by the governor. However, changes in appropriation level authorized by the legislature, changes required by across-the-board reductions mandated by the governor, changes caused by executive increases to spending authority, and changes caused by executive decreases to spending authority for failure to comply with the provisions of chapter 36.70A RCW may require additional revisions. Revisions shall not be made retroactively. Revisions caused by executive increases to spending authority shall not be made after June 30, 1987. However, the governor may assign to a reserve status any portion of an agency appropriation withheld as part of across-the-board reductions made by the governor and any portion of an agency appropriation conditioned on a contingent event by the appropriations act. The governor may remove these amounts from reserve status if the across-the-board reductions are subsequently modified or if the contingent event occurs. The director of financial management shall enter approved statements of proposed expenditures into the state budgeting, accounting, and reporting system within forty-five days after receipt of the proposed statements from the agencies. If an agency or the director of financial management is unable to meet these requirements, the director of financial management shall provide a timely explanation in writing to the legislative fiscal committees.

~~((6))~~ (8) It is expressly provided that all agencies shall be required to maintain accounting records and to report thereon in the manner prescribed in this chapter and under the regulations issued pursuant to this chapter. Within ninety days of the end of the fiscal year, all agencies shall submit to the director of financial management their final adjustments to close their books for the fiscal year. Prior to submitting fiscal data, written or oral, to committees of the legislature, it is the responsibility of the agency submitting the data to reconcile it with the budget and accounting data reported by the agency to the director of financial management.

~~((7))~~ (9) The director of financial management shall monitor agency operating expenditures against the approved statement of proposed expenditures and shall provide the legislature with quarterly explanations of major variances.

~~((8))~~ (10) The director of financial management may exempt certain public funds from the allotment controls established under this chapter if it is not practical or necessary to allot the funds. Allotment control exemptions expire at the end of the fiscal biennium for which they are granted. The director of financial management shall report any exemptions granted under this subsection to the legislative fiscal committees.

NEW SECTION. Sec. 6. A new section is added to chapter 43.88 RCW to read as follows:

(1) The capital appropriations act may authorize the governor, through the director of financial management, to transfer the appropriation authority for a capital project that is in excess of the amount required for the completion of the project to another capital project for which the appropriation is insufficient.

(a) No such transfer may be used to expand the capacity or change the intended use of the project beyond that intended by the legislature in making the appropriation.

(b) The transfer may be effected only between capital projects within a specific department, commission, agency, or institution of higher education.

(c) The transfer may be effected only if the project from which the transfer of funds is made is substantially complete and there are funds remaining, or bids have been let on the project from which the transfer of funds is made and it appears to a substantial certainty that the project can be completed within the biennium for less than the amount appropriated.

(2) For the purposes of this section, the legislature intends that each project be defined as proposed to the legislature in the governor's budget document, unless the legislative history demonstrates that the legislature intended to define the scope of a project in a different way.

(3) The office of financial management shall notify the legislative fiscal committees of the senate and the house of representatives at least thirty days before any transfer is effected under this section except emergency projects or any transfer under two hundred fifty thousand dollars, and shall prepare a report to such committees listing all completed transfers at the close of each fiscal year.

(4) No transfer may occur that would increase an appropriation to a minor works or other omnibus repair, maintenance, or improvement project. In the case of transfers between projects within a minor works appropriation, funds may be transferred without legislative approval only in the case of projects identified in the project lists that have been provided to the legislature with the governor's budget document, as revised by the legislature.

Sec. 7. RCW 43.82.010 and 1990 c 47 s 1 are each amended to read as follows:

(1) The director of ~~(the department of)~~ general administration, on behalf of the agency involved, shall purchase, lease, lease purchase, rent, or otherwise acquire all real estate, improved or unimproved, as may be required by elected state officials, institutions, departments, commissions, boards, and other state agencies, or federal agencies where joint state and federal activities are undertaken and may grant easements and transfer, exchange, sell, lease, or sublease all or part of any surplus real estate for those state agencies which do not otherwise have the specific authority to dispose of real estate. This section does not transfer financial liability for the acquired property to the department of general administration.

(2) Except for real estate occupied by federal agencies, the director shall determine the location, size, and design of any real estate or improvements thereon acquired or held pursuant to subsection (1) of this section. Facilities acquired or held pursuant to this chapter, and any improvements thereon, shall conform to standards adopted by the director and approved by the office of financial management governing facility

efficiency unless a specific exemption from such standards is provided by the director of general administration. The director of general administration shall report to the office of financial management annually on any exemptions granted pursuant to this subsection.

(3) The director of general administration may fix the terms and conditions of each lease entered into under this chapter, except that no lease shall extend greater than twenty years in duration. The director of general administration may enter into a long-term lease greater than five years in duration upon a determination by the director of the office of financial management that the long-term lease provides a more favorable rate than would otherwise be available, it appears to a substantial certainty that the facility is necessary for use by the state for the full length of the lease term, and the facility meets the standards adopted pursuant to subsection (2) of this section. The director of general administration may enter into a long-term lease greater than ten years in duration if an analysis shows that the life-cycle cost of leasing the facility is less than the life-cycle cost of purchasing or constructing a facility in lieu of leasing the facility.

(4) It is the policy of the state to encourage the collocation and consolidation of state services into single or adjacent facilities, whenever appropriate, to improve public service delivery, minimize duplication of facilities, increase efficiency of operations, and promote sound growth management planning.

(5) The director of general administration shall provide coordinated long-range planning services to identify and evaluate opportunities for collocating and consolidating state facilities. Upon the renewal of any lease, the inception of a new lease, or the purchase of a facility, the director of general administration shall determine whether an opportunity exists for collocating the agency or agencies in a single facility with other agencies located in the same geographic area. If a collocation opportunity exists, the director of general administration shall consult with the affected state agencies and the office of financial management to evaluate the impact collocation would have on the cost and delivery of agency programs, including whether program delivery would be enhanced due to the centralization of services. The director of general administration, in consultation with the office of financial management, shall develop procedures for implementing collocation and consolidation of state facilities.

(6) The director of general administration is authorized to purchase, lease, rent, or otherwise acquire improved or unimproved real estate as owner or lessee and to lease or sublet all or a part of such real estate to state or federal agencies. The director of general administration shall charge each using agency its proportionate rental which shall include an amount sufficient to pay all costs, including, but not limited to, those for utilities, janitorial and accounting services, and sufficient to provide for contingencies; which shall not exceed five percent of the average annual rental, to meet unforeseen expenses incident to management of the real estate.

((4)) (7) If the director of general administration determines that it is necessary or advisable to undertake any work, construction, alteration, repair, or improvement on any real estate acquired pursuant to subsection (e) (1) or ((3)) (6) of this section, the director shall cause plans and specifications thereof and an estimate of the cost of such work to be made and filed in his or her office and the state agency benefiting thereby is hereby authorized to pay for such work out of any available funds: PROVIDED, That the cost of executing such work shall not exceed the sum of twenty-five thousand dollars. Work, construction, alteration, repair, or improvement in excess of twenty-five thousand dollars, other than that done by the owner of the property if other than the state, shall be performed in accordance with the public works law of this state.

((5)) (8) In order to obtain maximum utilization of space, the director of general administration shall make space utilization studies, and shall establish standards for use of space by state agencies. Such studies shall include the identification of opportunities for collocation and consolidation of state agency office and support facilities.

((6)) (9) The director of general administration may construct new buildings on, or improve existing facilities, and furnish and equip, all real estate under his or her management. Prior to the construction of new buildings or major improvements to existing facilities or acquisition of facilities using a lease purchase contract, the director of general administration shall conduct an evaluation of the facility design and budget using life-cycle cost analysis, value-engineering, and other techniques to maximize the long-term effectiveness and efficiency of the facility or improvement.

NEW SECTION. Sec. 8. (2) The office of financial management shall evaluate the need for and potential responsibilities of a central state facilities authority to coordinate and manage the design, acquisition, construction, and utilization of state facilities, including leased facilities. The evaluation shall also estimate the costs and benefits of operating a central facility authority or authorities.

(4) The office of financial management shall convene a steering committee composed of representatives of affected state agencies and the private real estate industry to assist in collecting needed information and conducting the evaluation.

(5) The office of financial management shall report on the results of its evaluation to the appropriate standing committees of the legislature by January 10, 1995.

The President declared the question before the Senate to be the adoption of the amendment by Senators Owen, Sheldon and Oke on page 15, after line 10, to the Committee on Ways and Means striking amendment to Engrossed Substitute House Bill No. 2237.

The motion by Senator Owen carried and the amendment to the Committee on Ways and Means striking amendment was adopted.

MOTION

Senator Quigley moved that the following amendment to the Committee on Ways and Means striking amendment be adopted:

On page 20, after line 2, insert the following:

"NEW SECTION. Sec. 17. A new section is added to chapter 39.80 RCW to read as follows:

(1) A school district is exempt from the requirements of this chapter if:

(a) The district selects a design plan on file with the superintendent of public instruction;

(b) The district contacts the design professional who designed the selected design plan and provided the basic architectural and engineering services for the selected design plan; and

(c) The design professional who designed the selected design plan and provided the basic architectural and engineering services agrees to verify and adapt the plan and to provide all other basic architectural and engineering services for the requesting school district for at least fifteen percent less than the cost of the original basic architectural and engineering services contract: PROVIDED, That the costs of the original basic architectural and engineering services did not exceed the maximum amount recognized for providing state matching funds by the state board of education.

(2) For the purposes of subsection (1)(c) of this section, the costs of the original basic architectural and engineering contract may be increased by the implicit price deflator shown in the quarterly economic and revenue forecast prepared by the economic and revenue forecast council under RCW 82.33.010 for the applicable period between the execution of the original basic architectural and engineering services contract and the execution of a basic architectural and engineering services contract with the requesting school district.

(c) "Basic architectural and engineering services" means basic architectural and engineering services as defined by the current edition of the *American Institute of Architects Handbook of Professional Practice*."

Renumber the remaining sections consecutively and correct any internal references accordingly.

POINT OF ORDER

Senator Williams: "I would like to ask for a scope and object reading on this amendment. It is far outside the scope of the legislation we are considering and introduces a whole new chapter and modifies the architect's selection and design process for schools. I think it is definitely outside the scope and object of the bill."

Further debate ensued.

There being no objection, the President deferred further consideration of the amendment by Senator Quigley on page 20, after line 2, to the Committee on Ways and Means striking amendment.

MOTION

Senator Talmadge moved that the following amendments to the Committee on Ways and Means striking amendment be considered simultaneously and be adopted:

On page 5, line 1 of the amendment, after "(o)" insert "For any capital appropriation requested for a state agency for the acquisition of land or the capital improvement of land in which the primary purpose of the acquisition or improvement is recreation or wildlife habitat conservation, the capital budget document, or an omnibus list of recreation and habitat acquisitions provided with the governor's budget document, shall identify the projected costs of operation and maintenance for at least the two biennia succeeding the next biennium. Omnibus lists of habitat and recreation land acquisitions shall include individual project cost estimates for operation and maintenance as well as a total for all state projects included in the list. The document shall identify the source of funds from which the operation and maintenance costs are proposed to be funded.

(p)"

On page 5, line 3 of the amendment, after "(((a)))" strike "(p)" and insert "(q)"

On page 5, line 5 of the amendment, after "(((e)))" strike "(q)" and insert "(r)"

POINT OF INQUIRY

Senator McDonald: "Senator Talmadge, it says, 'The document shall identify the source of funds for which the operation and maintenance costs are proposed to be funded.' Would the general fund be appropriate?"

Senator Talmadge: "Yes. There might be some circumstances I can envision, Senator McDonald, where private funds might be used, general funds might be used or whatever. The thing that I am asking for here is just that we consider what funds we are going to use to maintain the open-space and recreational lands that we buy. As you know, we do go out and use the capital budget to buy a number of lands and we don't consider what the maintenance and upkeep costs on that land is and should be and that is what this amendment is designed to try and do."

Further debate ensued.

POINT OF INQUIRY

Senator Bluechel: "Senator Talmadge, the issue that I find in this is that a good portion of this land, say the school trust land which is purchased for conservation purposes and things like that, has no operating costs whatsoever for quite a few bienniums in the future--it is just kept there as open-space. How would you treat that in something like this?"

Senator Talmadge: "Well, as long as the budget document dealing with the capital acquisition speaks to that, Senator Bluechel, I think that would satisfy my concern. If there is some maintenance money--some operational money--associated with it, it would be nice to know if that is the case. If it is the intent of the state simply to buy the land and then not make any provisions for its maintenance and upkeep, that should be part of our consideration about whether or not to buy the land as part of our capital budget process. What I am getting at is, I think we just need to have consideration of the maintenance and upkeep of the land when we decide, as part of the capital budget process, to buy the land or to set it aside."

The President declared the question before the Senate to be the adoption of the amendments by Senator Talmadge on page 5, lines 1, 3 and 5, to the Committee on Ways and Means striking amendment to Engrossed Substitute House Bill No. 2237.

The motion by Senator Talmadge carried and the amendments to the Committee on Ways and Means striking amendment were adopted.

There being no objection, the President deferred further consideration of Engrossed Substitute House Bill No. 2237.

"NEW SECTION. Sec. 19. A new section is added to chapter 16.52 RCW to read as follows:

A person may kill a bear or cougar that is reasonably perceived to be an unavoidable and immediate threat to human life.

Sec. 20. RCW 77.12.265 and 1987 c 506 s 35 are each amended to read as follows:

The owner or tenant of real property may trap or kill on that property wild animals or wild birds, other than an endangered species, that is threatening human life or damaging crops, domestic animals, fowl, or other property. Except in emergency situations, deer, elk, and protected wildlife shall not be killed without a permit issued and conditioned by the director. The director may delegate this authority.

For the purposes of this section, "emergency" means an unforeseen circumstance beyond the control of the landowner or tenant that presents a real and immediate threat to human life, crops, domestic animals, fowl, or other property.

Alternatively, when sufficient time for the issuance of a permit by the director is not available, verbal permission may be given by the appropriate department regional administrator to owners or tenants of real property to trap or kill on that property any cougar, bear, deer, elk, or protected wildlife which is threatening human life or damaging crops, domestic animals, fowl, or other property. The regional administrator may delegate, in writing, a member of the regional staff to give the required permission in these emergency situations. Nothing in this section authorizes in any situation the trapping, hunting, or killing of an endangered species.

Wildlife trapped or killed under this section remains the property of the state, and the person trapping or killing the wildlife shall notify the department immediately. The director shall dispose of wildlife so taken within three working days of receiving such a notification.

If the department receives recurring complaints regarding property being damaged as described in this section from the owner or tenant of real property, or receives such complaints from several such owners or tenants in a locale, the commission shall consider conducting a special hunt or special hunts to reduce the potential for such damage.

For purposes of this section, "crop" means an agricultural or horticultural product growing or harvested and includes wild shrubs and range land vegetation on privately owned cattle ranching lands. On such lands, the land owner or lessee may declare an emergency when the department has not responded within forty-eight hours after having been contacted by the land owner or lessee regarding crop damage by wild animals or wild birds. However, the department shall not allow claims for damage to wild shrubs or range land vegetation on such lands.

Deer and elk shall not be killed under the authority of this section on privately owned cattle ranching lands that were closed to public hunting during the previous hunting season, except for land closures which are coordinated with the department to protect property and livestock.

The department shall work closely with landowners and tenants suffering game damage problems to control damage without killing the animals when practical, to increase the harvest of damage-causing animals in hunting seasons, or to kill the animals when no other practical means of damage control is feasible."

Renumber the sections consecutively and correct internal references accordingly.

On page 2, after line 8, insert the following:

"Sec. 2. RCW 70.05.060 and 1991 c 3 s 308 are each amended to read as follows:

(1) Each local board of health shall have supervision over all matters pertaining to the preservation of the life and health of the people within its jurisdiction and shall:

((4)) (a) Enforce through the local health officer or the administrative officer appointed under RCW 70.05.040, if any, the public health statutes of the state and rules promulgated by the state board of health and the secretary of health;

((2)) (b) Supervise the maintenance of all health and sanitary measures for the protection of the public health within its jurisdiction;

((3)) (c) Enact such local rules and regulations as are necessary in order to preserve, promote and improve the public health and provide for the enforcement thereof;

((4)) (d) Provide for the control and prevention of any dangerous, contagious or infectious disease within the jurisdiction of the local health department;

((5)) (e) Provide for the prevention, control and abatement of nuisances detrimental to the public health;

((6)) (f) Make such reports to the state board of health through the local health officer or the administrative officer as the state board of health may require; ~~(and~~

(7)) (g) Establish fee schedules for issuing or renewing licenses or permits or for such other services as are authorized by the law and the rules of the state board of health: PROVIDED, That such fees for services shall not exceed the actual cost of providing any such services; and

(h) Adopt rules regulating the design, construction, installation, and maintenance of "systems of sewerage" as defined in RCW 36.94.010. Such rules shall be submitted to the appropriate state agencies for approval pursuant to RCW 36.94.100 and shall conform to standards established by the department of health except that:

(i) The local rules may vary from the state standards when the local board has determined that the variance will not pose any hazard to the public health; and

(ii) The department of health may require the local board to adopt a repair and maintenance standard to ensure on-site sanitary systems meet the requirements for a safe, functioning system.

(2) The department of health, upon giving its approval to the local board of health on-site sanitary system rules, shall grant the county authority to, by adoption of its rules, system of sewerage plan or amendments, approve and issue a permit for the installation of an on-site sanitary system that varies from the state standards for on-site sanitary systems without obtaining a waiver from the department of health."

POINT OF ORDER

Senator Fraser: "A point of order, Mr. President. I believe this amendment exceeds the scope and object of the bill. This bill relates to existing authority of the Department of Ecology only. It does not add or subtract from regulations, regulatory responsibilities or change any standards whatsoever. It merely allows the department to delegate some of its existing authority to local governments if they qualify and they want to do it--dealing with review of engineering reports for construction expansion of sewer systems.

"In contrast, what this amendment does is, it adds a new department, the Department of Health. It makes major substantive changes to the role of the State Health Department regarding all septic tanks in the state of Washington and the relationship of state and local government regarding septic tank standards and regulations. The amendment has the effect of eliminating minimum state standards for design, construction and installation of septic tanks. It would allow each county, in effect, to have its own standards, so I feel this does exceed the scope and object of the bill."

Further debate ensued.

There being no objection, the President deferred further consideration of House Bill No. 2320.

MOTION

Senator Prentice moved that the following Committee on Labor and Commerce amendment be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature intends with this act to clarify the state's public policy on gambling regarding the frequency of state lottery drawings, the means of addressing problem and compulsive gambling, and the enforcement of the state's gambling laws. This act is intended to clarify the specific types of games prohibited in chapter 9.46 RCW and is not intended to add to existing law regarding prohibited activities. The legislature recognizes that slot machines, video pull-tabs, video poker, and other electronic games of chance have been considered to be gambling devices before the effective date of this act.

Sec. 2. RCW 9.46.010 and 1975 1st ex.s. c 259 s 1 are each amended to read as follows:

The public policy of the state of Washington on gambling is to keep the criminal element out of gambling and to promote the social welfare of the people by limiting the nature and scope of gambling activities and by strict regulation and control.

It is hereby declared to be the policy of the legislature, recognizing the close relationship between professional gambling and organized crime, to restrain all persons from seeking profit from professional gambling activities in this state; to restrain all persons from patronizing such professional gambling activities; to safeguard the public against the evils induced by common gamblers and common gambling houses engaged in professional gambling; and at the same time, both to preserve the freedom of the press and to avoid restricting participation by individuals in activities

and social pastimes, which activities and social pastimes are more for amusement rather than for profit, do not maliciously affect the public, and do not breach the peace.

The legislature further declares that the raising of funds for the promotion of bona fide charitable or nonprofit organizations is in the public interest as is participation in such activities and social pastimes as are hereinafter in this chapter authorized.

The legislature further declares that the conducting of bingo, raffles, and amusement games and the operation of punch boards, pull-tabs, card games and other social pastimes, when conducted pursuant to the provisions of this chapter and any rules and regulations adopted pursuant thereto, are hereby authorized, as are only such lotteries for which no valuable consideration has been paid or agreed to be paid as hereinafter in this chapter provided.

The legislature further declares that fishing derbies shall not constitute any form of gambling and shall not be considered as a lottery, a raffle, or an amusement game and shall not be subject to the provisions of this chapter or any rules and regulations adopted hereunder.

All factors incident to the activities authorized in this chapter shall be closely controlled, and the provisions of this chapter shall be liberally construed to achieve such end.

Sec. 3. RCW 67.70.010 and 1987 c 511 s 1 are each amended to read as follows:

(ii) A conveyance is not subject to forfeiture under this section by reason of any act or omission established by the owner thereof to have been committed or omitted without the owner's knowledge or consent;

(iii) A forfeiture of a conveyance encumbered by a bona fide security interest is subject to the interest of the secured party if the secured party neither had knowledge of nor consented to the act or omission; and

(iv) If the owner of a conveyance has been arrested under this chapter the conveyance in which the person is arrested may not be subject to forfeiture unless it is seized or process is issued for its seizure within ten days of the owner's arrest;

(d) All books, records, and research products and materials, including formulas, microfilm, tapes, and electronic data that are used, or intended for use, in violation of this chapter;

(f) All tangible or intangible personal property, proceeds, or assets acquired in whole or in part with proceeds traceable to professional gambling activity and all moneys, negotiable instruments, and securities used or intended to be used to facilitate any violation of this chapter. A forfeiture of money, negotiable instruments, securities, or other tangible or intangible property encumbered by a bona fide security interest is subject to the interest of the secured party if, at the time the security interest was created, the secured party neither had knowledge of nor consented to the act or omission. Personal property may not be forfeited under this subsection (1)(f), to the extent of the interest of an owner, by reason of any act or omission that that owner establishes was committed or omitted without the owner's knowledge or consent; and

(ii) Have been acquired in whole or in part with proceeds traceable to a professional gambling activity, if the activity is not less than a class C felony.

Real property forfeited under this chapter that is encumbered by a bona fide security interest remains subject to the interest of the secured party if the secured party, at the time the security interest was created, neither had knowledge of nor consented to the act or omission. Property may not be forfeited under this subsection, to the extent of the interest of an owner, by reason of any act or omission committed or omitted without the owner's knowledge or consent.

(2)(a) A law enforcement officer of this state may seize real or personal property subject to forfeiture under this chapter upon process issued by any superior court having jurisdiction over the property. Seizure of real property includes the filing of a lis pendens by the seizing agency. Real property seized under this section may not be transferred or otherwise conveyed until ninety days after seizure or until a judgment of forfeiture is entered, whichever is later, but real property seized under this section may be transferred or conveyed to any person or entity who acquires title by foreclosure or deed in lieu of foreclosure of a bona fide security interest.

(b) Seizure of personal property without process may be made if:

(i) The seizure is incident to an arrest or a search under a search warrant or an inspection under an administrative inspection warrant;

(ii) The property subject to seizure has been the subject of a prior judgment in favor of the state in a criminal injunction or forfeiture proceeding based upon this chapter;

(iii) A law enforcement officer has probable cause to believe that the property is directly or indirectly dangerous to health or safety; or

(iv) The law enforcement officer has probable cause to believe that the property was used or is intended to be used in violation of this chapter.

(3) In the event of seizure under subsection (2) of this section, proceedings for forfeiture are deemed commenced by the seizure. The law enforcement agency under whose authority the seizure was made shall cause notice to be served within fifteen days following the seizure on the owner of the property seized and the person in charge thereof and any person having any known right or interest therein, including any community property interest, of the seizure and intended forfeiture of the seized property. Service of notice of seizure of real property must be made according to the rules of civil procedure. However, the state may not obtain a default judgment with respect to real property against a party who is served by substituted service absent an affidavit stating that a good faith effort has been made to ascertain if the defaulted party is incarcerated within the state, and that there is no present basis to believe that the party is incarcerated within the state. Notice of seizure in the case of property subject to a security interest that has been perfected by filing a financing statement in accordance with chapter 62A.9 RCW, or a certificate of title, must be made by service upon the secured party or the secured party's assignee at the address shown on the financing statement or the certificate of title. The notice of seizure in other cases may be served by any method authorized by law or court rule including but not limited to service by certified mail with return receipt requested. Service by mail is deemed complete upon mailing within the fifteen-day period following the seizure.

(4) If no person notifies the seizing law enforcement agency in writing of the person's claim of ownership or right to possession of items specified in subsection (1) (c), (e), (f), or (g) of this section within forty-five days of the seizure in the case of personal property and ninety days in the case of real property, the item seized is deemed forfeited. The community property interest in real property of a person whose spouse committed a violation giving rise to seizure of the real property may not be forfeited if the person did not participate in the violation.

(5) If any person notifies the seizing law enforcement agency in writing of the person's claim of ownership or right to possession of items specified in subsection (1) (b), (c), (d), (e), (f), or (g) of this section within forty-five days of the seizure in the case of personal property and ninety days in the case of real property, the person or persons must be afforded a reasonable opportunity to be heard as to the claim or right. The hearing must be before the chief law enforcement officer of the seizing agency or the chief law enforcement officer's designee, except if the seizing agency is a state agency as defined in RCW 34.12.020(4), the hearing must be before the chief law enforcement officer of the seizing agency or an administrative law judge appointed under chapter 34.12 RCW, except that any person asserting a claim or right may remove the matter to a court of competent jurisdiction. Removal of any matter involving personal property may only be accomplished according to the rules of civil procedure. The person seeking removal of the matter must serve process against the state, county, political subdivision, or municipality that operates the seizing agency, and any other party of interest, in accordance with RCW 4.28.080 or 4.92.020, within forty-five days after the person seeking removal has notified the seizing law enforcement agency of the person's claim of ownership or right to possession. The court to which the matter is to be removed must be the district court if the aggregate value of personal property is within the jurisdictional limit set forth in RCW 3.66.020. A hearing before the seizing agency and any appeal therefrom must be under Title 34 RCW. In a court hearing between two or more claimants to the article or articles involved, the prevailing party is entitled to a judgment for costs and reasonable attorneys' fees. In cases involving personal property, the burden of producing evidence is upon the person claiming to be the lawful owner or the person claiming to have the lawful right to possession of the property. In cases involving real property, the burden of producing evidence is upon the law enforcement agency. The burden of proof that the seized real property is subject to forfeiture is upon the law enforcement agency. The seizing law enforcement agency shall promptly return the article or articles to the claimant upon a final determination by the administrative law judge or court that the claimant is the present lawful owner or is lawfully entitled to possession thereof of items specified in subsection (1) (b), (c), (d), (e), (f), or (g) of this section.

(6) If property is forfeited under this chapter the seizing law enforcement agency may:

(a) Retain it for official use or upon application by any law enforcement agency of this state release the property to the agency for training or use in enforcing this chapter;

(b) Sell that which is not required to be destroyed by law and which is not harmful to the public; or

(c) Destroy any articles that may not be lawfully possessed within the state of Washington, or that have a fair market value of less than one hundred dollars.

(7)(a) If property is forfeited, the seizing agency shall keep a record indicating the identity of the prior owner, if known, a description of the property, the disposition of the property, the value of the property at the time of seizure, and the amount of proceeds realized from disposition of the

property. The net proceeds of forfeited property is the value of the forfeitable interest in the property after deducting the cost of satisfying any bona fide security interest to which the property is subject at the time of seizure, and in the case of sold property, after deducting the cost of sale, including reasonable fees or commissions paid to independent selling agents.

(b) Each seizing agency shall retain records of forfeited property for at least seven years.

(c) Each seizing agency shall file a report including a copy of the records of forfeited property with the state treasurer the calendar quarter after the end of the fiscal year.

(d) The annual report need not include a record of forfeited property that is still being held for use as evidence during the investigation or prosecution of a case or during the appeal from a conviction.

(8) The seizing law enforcement agency shall retain forfeited property and net proceeds exclusively for the expansion and improvement of gambling-related law enforcement activity. Money retained under this section may not be used to supplant preexisting funding sources.

(9) Gambling devices that are possessed, transferred, sold, or offered for sale in violation of this chapter are contraband and must be seized and summarily forfeited to the state. Gambling equipment that is seized or comes into the possession of a law enforcement agency, the owners of which are unknown, are contraband and must be summarily forfeited to the state.

(10) Upon the entry of an order of forfeiture of real property, the court shall forward a copy of the order to the assessor of the county in which the property is located. The superior court shall enter orders for the forfeiture of real property, subject to court rules. The seizing agency shall file such an order in the county auditor's records in the county in which the real property is located.

(11)(a) A landlord may assert a claim against proceeds from the sale of assets seized and forfeited under subsection (6)(b) of this section, only if:

(i) A law enforcement officer, while acting in his or her official capacity, directly caused damage to the complaining landlord's property while executing a search of a tenant's residence; and

(ii) The landlord has applied any funds remaining in the tenant's deposit, to which the landlord has a right under chapter 59.18 RCW, to cover the damage directly caused by a law enforcement officer before asserting a claim under this section.

(A) Only if the funds applied under (a)(ii) of this subsection are insufficient to satisfy the damage directly caused by a law enforcement officer, may the landlord seek compensation for the damage by filing a claim against the governmental entity under whose authority the law enforcement agency operates within thirty days after the search; and

(B) Only if the governmental entity denies or fails to respond to the landlord's claim within sixty days of the date of filing, may the landlord collect damages under this subsection by filing within thirty days of denial or the expiration of the sixty-day period, whichever occurs first, a claim with the seizing law enforcement agency. The seizing law enforcement agency shall notify the landlord of the status of the claim by the end of the thirty-day period. This section does not require the claim to be paid by the end of the sixty-day or thirty-day period.

(b) For any claim filed under (a)(ii) of this subsection, the law enforcement agency shall pay the claim unless the agency provides substantial proof that the landlord either:

(i) Knew or consented to actions of the tenant in violation of this chapter; or

(ii) Failed to respond to a notification of the illegal activity, provided by a law enforcement agency within seven days of receipt of notification of the illegal activity.

(12) The landlord's claim for damages under subsection (11) of this section may not include a claim for loss of business and is limited to:

(a) Damage to tangible property and clean-up costs;

(b) The lesser of the cost of repair or fair market value of the damage directly caused by a law enforcement officer;

(c) The proceeds from the sale of the specific tenant's property seized and forfeited under subsection (6)(b) of this section; and

(d) The proceeds available after the seizing law enforcement agency satisfies any bona fide security interest in the tenant's property and costs related to sale of the tenant's property as provided by subsection (7)(a) of this section.

(13) Subsections (11) and (12) of this section do not limit any other rights a landlord may have against a tenant to collect for damages.

However, if a law enforcement agency satisfies a landlord's claim under subsection (11) of this section, the rights the landlord has against the tenant for damages directly caused by a law enforcement officer under the terms of the landlord and tenant's contract are subrogated to the law enforcement agency.

SUBSTITUTE HOUSE BILL NO. 2351, by House Committee on Natural Resources and Parks (originally sponsored by Representatives Shin, Patterson, Campbell, Finkbeiner, Forner, Appelwick, J. Kohl and Johanson)

Modifying provisions relating to recovery of stray logs.

The bill was read the second time.

MOTION

Senator Owen moved that the following Committee on Natural Resources amendment not be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that:

- (1) Reduced levels of log raft storage and transportation on the waters of this state have resulted in a reduction of commercial log recovery activity and have eliminated the need for a separate licensing program for recovery of stray logs; and
- (2) While stray logs are a much less common problem today than when log raft transportation was more common, stray logs that are adrift on waters of this state may still pose a threat to navigation, life, and property; and
- (3) Recovery of submerged or stranded stray logs can result in damage to the environment.

Therefore, the legislature finds that an alternative method for encouraging the recovery of adrift stray logs must be established.

NEW SECTION. Sec. 2. A new section is added to chapter 76.40 RCW to read as follows:

For the purposes of this chapter, the following terms shall have the following meanings:

- (1) "Adrift" means floating without control; neither aground, beached, stranded, fully submerged, anchored in place, or secured in any way;
- (2) "Department" means the Washington state department of natural resources;
- (3) "Having a merchantable value" means capable of commanding value alone or in combination with other recovered logs;
- (4) "Person" means an individual, partnership, private corporation, or association of individuals of whatever nature, including public agencies;
- (5) "Stray logs" means logs, piling, poles, and boom sticks having a merchantable value that have escaped from their owner or the owner's agent during storage or while being transported. The term includes stray logs that are adrift, those that have been adrift and are stranded on beaches, marshes, tidelands, shorelands, or state-owned aquatic lands, and those that are partially or wholly submerged in the waters of the state; and
- (6) "Waters of the state" means bodies of fresh or salt water including all rivers and lakes and their tributaries, harbors, bays, bayous, and marshes within the state capable of being used for the transportation or storage of forest products.

NEW SECTION. Sec. 3. A new section is added to chapter 76.40 RCW to read as follows:

Any person may recover and secure adrift stray logs on waters of this state. Landowners may recover and secure stray logs that have become submerged or stranded on their property as the result of being adrift on waters of this state. A person who chooses to recover and secure stray logs must do so in a manner that does not damage beaches, marshes, tidelands, shorelands, aquatic lands, or other property and that does not diminish the merchantable value of the timber. Within thirty days of recovering stray logs, the person who recovered the logs must notify the owner of the logs that the logs have been recovered. Ownership of logs shall be determined under chapter 76.36 RCW.

NEW SECTION. Sec. 4. A new section is added to chapter 76.40 RCW to read as follows:

Within thirty days of receipt of notification that an owner's stray log or logs have been recovered, a log owner, the owner's agent, or the transportation agency of the log may retrieve the stray log or logs from the person who recovered them. The person that recovered the stray log or logs shall be entitled to a reasonable compensation, for the recovery effort and return of stray log or logs to the owner, the owner's agent, or the transportation agency provided compensation shall not exceed two hundred dollars or thirty percent of the value of the log or logs, whichever is less. A person shall not take into possession any stray logs including unbranded logs during the time that the owner, the owner's agent, or the transportation agency is attempting immediate recovery of the stray logs. If the owner, the owner's agent or the transportation agency chooses not to retrieve the stray logs, the person who recovered the logs may sell them or dispose of them as the person sees fit after ninety days, provided the person has made three attempts in writing to notify the owner. Of the written notice to the owner, one of the three must be a certified return receipt mail at the owner's last known address.

NEW SECTION. Sec. 5. A new section is added to chapter 76.40 RCW to read as follows:

Branded and marked logs, boom sticks, and boom chains shall be presumed to be the property of the person in whose name the brand or catch brand thereon is imprinted and is registered with the department of natural resources.

NEW SECTION. Sec. 6. A new section is added to chapter 76.40 RCW to read as follows:

Any person having possession of stray logs, boom sticks, or boom chains, except as provided in this chapter shall be presumed to have and to hold possession of same with intent to deprive and defraud the owner thereof and such possession shall be prima facie evidence to deprive and defraud.

NEW SECTION. Sec. 7. A new section is added to chapter 76.40 RCW to read as follows:

It shall be unlawful to purchase or otherwise acquire stray logs other than from the owner, or from a person who has recovered stray logs according to this chapter or to process or manufacture products from logs acquired in contravention of the provisions of this chapter or to possess such logs for such purpose.

NEW SECTION. Sec. 8. A new section is added to chapter 76.40 RCW to read as follows:

Any violation of this chapter shall be a gross misdemeanor. In addition, the owner who has been deprived of the use, benefit, or possession of any stray logs, booms sticks, or boom chains, in violation of this chapter, shall have a right of civil action to recover damages from any person causing such deprivation, including the purchaser of such stray logs, boom sticks, and boom chains.

NEW SECTION. Sec. 9. A new section is added to chapter 76.40 RCW to read as follows:

The department may close areas under its jurisdiction to log recovery activities if the department determines that log recovery in those areas would pose a threat to public safety or the environment.

NEW SECTION. Sec. 10. A new section is added to chapter 76.40 RCW to read as follows:

The department may enter into agreements with the state of Oregon and its applicable agencies to coordinate log recovery activities where possible.

Sec. 11. RCW 76.36.110 and 1984 c 60 s 6 are each amended to read as follows:

Every person:

(1) Except boom companies (~~(and log patrol companies)~~) organized as corporations for the purpose of catching or reclaiming and holding or disposing of forest products for the benefit of the owners, and authorized to do business under the laws of this state, who has or takes in tow or into custody or possession or under control, without the authorization of the owner of a registered mark or brand thereupon, any forest products or booming equipment having thereupon a mark or brand registered as required by the terms of this chapter, or, with or without such authorization, any forest products or booming equipment which may be branded under the terms of this chapter with a registered mark or brand and having no registered mark or brand impressed thereupon or cut therein; or,

The department of natural resources may by contract, license, or permit, or other arrangements, cause such wood debris to be removed by (~~(licensed log patrolmen, other)~~) private contractors, department of natural resources employees, or by other public bodies. POINT OF INQUIRY

Senator Oke: "Senator Owen, maybe we are trying to slow this process down a little bit. This was a 'trust me' amendment and I really want to do that, but I'm being asked by others, 'Exactly what does this do?' Are we actually now deleting the two hundred dollar or thirty percent value and going back to somewhere else?"

Senator Owen: "Yes, the original bill did not have that in. It was put on as an amendment--well there was an amendment similar put on in the House and we offered a different amendment that made it a little more acceptable. We've removed that by not accepting the committee amendment. We now are just proposing that the Department of Natural Resources bring the parties together that deal with this and come up with a recommendation for us in the future, so that provision that you asked for is now gone."

Senator Oke: "So, we are back to a study then?"

Senator Owen: "Well, we are back to repealing the log patrol statute for the Department of Natural Resources as they originally requested and a study to determine how we are going to deal with this next session."

Senator Oke: "Thank you."

Senator Owen: "I should add that Representative Shin who was vitally concerned about this and offered the original language has agreed to this."

The President declared the question before the Senate to be the adoption of the striking amendment by Senators Owen and Oke to Substitute House Bill No. 2351.

The motion by Senator Owen carried and the striking amendment to House Bill No. 2351 was adopted.

MOTIONS

On motion of Senator Owen, the following title amendment was adopted:

On page 1, line 1 of the title, after "logs;" strike the remainder of the title and insert "amending RCW 76.36.110, 76.42.020, 76.42.030, and 82.16.010; creating a new section; and repealing RCW 76.40.010, 76.40.012, 76.40.013, 76.40.020, 76.40.030, 76.40.040, 76.40.050, 76.40.060, 76.40.070, 76.40.080, 76.40.090, 76.40.100, 76.40.110, 76.40.120, 76.40.130, 76.40.135, 76.40.140, 76.40.145, 76.40.900, and 76.40.910."

On motion of Senator Owen, the rules were suspended, Substitute House Bill No. 2351, as amended by the Senate, was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF INQUIRY

Senator Anderson: "Senator Owen, in the repealing of these statutes, is there anticipated any savings to the state by this or does this only affect the private sector?"

Senator Owen: "I think any savings would be minimal, because the Department of Natural Resources does very little in that area--if anything right now--and that is why they just want to clean up the statutes and take it off."

It is the intent of the legislature to establish ~~((a-preschool))~~ an early childhood state education and assistance program. This special assistance program is a voluntary enrichment program to help prepare some children to enter the common school system and shall be offered only as funds are available. This program is not a part of the basic program of education which must be fully funded by the legislature under Article IX, section 1 of the state Constitution.

Sec. 2. RCW 28A.215.110 and 1990 c 33 s 213 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout RCW 28A.215.100 through 28A.215.200 and 28A.215.900 through 28A.215.908.

(1) "Advisory committee" means the advisory committee under RCW 28A.215.140.

~~(3))~~ "Department" means the department of community, trade, and economic development.

~~((4))~~ (3) "Eligible child" means ((an-at-risk child as defined in this section)) a child not eligible for kindergarten whose family income is at or below one hundred percent of the federal poverty level, as published annually by the federal department of health and human services, and includes a child whose family is eligible for public assistance, and who is not a participant in a federal or state program providing ((like educational)) comprehensive services and may include children who are eligible under rules adopted by the department if the number of such children equals not more than ten percent of the total enrollment in the ((preschool)) early childhood program. Priority for enrollment shall be given to children from families with the lowest income or to eligible children from families with multiple needs.

~~((5))~~ (4) "Approved ((preschool)) programs" means those state-supported education and special assistance programs which are recognized by the department of community, trade, and economic development as meeting the minimum program rules adopted by the department to qualify under RCW 28A.215.100 through 28A.215.200 and 28A.215.900 through 28A.215.908 and are designated as eligible for funding by the department under RCW 28A.215.160 and 28A.215.180.

(e) Increase their self-reliance.

Sec. 3. 1988 c 174 s 1 (uncodified) is amended to read as follows:

The legislature finds that the early childhood education and assistance program provides for the educational, social, health, nutritional, and cultural development of children at risk of failure when they reach school age. The long-term benefits to society in the form of greater educational attainment, employment, and projected lifetime earnings as well as the savings to be realized, from lower crime rates, welfare support, and reduced teenage pregnancy, have been demonstrated through lifelong research of at-risk children and ~~((preschool))~~ early childhood programs.

~~((The legislature further finds that existing federal head-start programs and state-supported early childhood education programs provide services for less than one-third of the eligible children in Washington.))~~

The legislature intends to encourage development of community partnerships for children at risk by authorizing a program of voluntary grants and contributions from business and community organizations to increase opportunities for children to participate in early childhood education.

Sec. 4. RCW 28A.215.120 and 1988 c 174 s 3 are each amended to read as follows:

The department of community, trade, and economic development shall administer a state-supported ~~((preschool))~~ early childhood education and assistance program to assist eligible children with educational, social, health, nutritional, and cultural development to enhance their opportunity for success in the common school system. Eligible children shall be admitted to approved ~~((preschool))~~ early childhood programs to the extent that the legislature provides funds, and additional eligible children may be admitted to the extent that grants and contributions from community sources provide sufficient funds for a program equivalent to that supported by state funds.

Sec. 5. RCW 28A.215.130 and 1988 c 174 s 4 are each amended to read as follows:

Approved ~~((preschool))~~ early childhood programs shall receive state-funded support through the department. ~~((School districts, and existing head start grantees in cooperation with school districts))~~ Public or private nonsectarian organizations, including, but not limited to school districts, educational service districts, community and technical colleges, local governments, or nonprofit organizations, are eligible to participate as providers of the state ~~((preschool))~~ early childhood program. ~~((School districts may contract with other governmental or nongovernmental nonsectarian~~

Funds appropriated for the state program shall be used to continue to operate existing programs or to establish new or expanded ((preschool)) early childhood programs, and shall not be used to supplant federally supported head start programs. Funds obtained by providers through voluntary grants or contributions from individuals, agencies, corporations, or organizations may be used to expand or enhance preschool programs so long as program standards established by the department are maintained, but shall not be used to supplant federally supported head start programs or state-supported ((preschool)) early childhood programs. Persons applying to conduct the ((preschool)) early childhood program shall identify targeted groups and the number of children to be served, program components, the qualifications of instructional and special staff, the source and amount of grants or contributions from sources other than state funds, facilities and equipment support, and transportation and personal care arrangements.

National studies have also confirmed that special attention to, and educational assistance for, children ((and)) their school environment ((is)), and their families are the most effective ways in which to meet the state's social and economic goals.

The legislature intends to enhance the readiness to learn of certain children and students by: Providing for an expansion of the state early childhood education and assistance program for children from low-income families and establishing an adult literacy program for certain parents; assisting school districts to establish elementary counseling programs; instituting a program to address learning problems due to drug and alcohol use and abuse; and establishing a program directed at students who leave school before graduation.

The evaluation system shall examine how the percentage of these children needing access to special education or remedial programs compares to the overall percentage of children needing such services and compares to the percentage of ((at-risk)) eligible students who ((de)) did not have access to this program needing such services.

"NEW SECTION. Sec. 1. A new section is added to chapter 43.08 RCW to read as follows:

INTENT. The legislature finds that increasing citizens' access to information about both the processes of state government, and the issues dealt with by state government, will strengthen the democratic process. Recent technological developments in the area of telecommunications offer efficient and effective ways to expand this access to information about state government.

It is the intent of the legislature, in a partnership with the private sector, to establish a mechanism to produce unedited televised coverage of state government deliberations and other public policy events of state-wide significance. Funding provided by the state is intended to cover the annual operating cost of the core services, which include gavel-to-gavel coverage of state government deliberations and other public policy events of state-wide significance. This service is intended to increase citizen access to government, and is a public purpose for which public funds may be expended. It is assumed that private contributions will be raised to purchase equipment, and to cover the cost of programming activities such as curriculum development for use in school classrooms.

NEW SECTION. Sec. 2. A new section is added to chapter 43.08 RCW to read as follows:

ESCROW ACCOUNT. (1) The state treasurer shall contract with a qualified public deposit protection commission bank for the establishment of an escrow account. The account shall hold moneys appropriated by the legislature to the state treasurer specifically for the purposes of televising unedited, gavel-to-gavel coverage of state government deliberations and other public policy events of state-wide significance.

The account may also be used to pay for the direct costs of producing interactive hearings over the Washington interactive teleconferencing system. These hearings shall be linked to the public television system provided for in this section to broadcast the hearings to the general public.

The contracted bank shall disburse funds to the nonprofit organization, determined to be qualified by the office of financial management, on a quarterly basis to cover the annual operating expenses of the nonprofit organization. No more than one million seven hundred fifty thousand dollars may be disbursed for this purpose in the first year. Disbursements for this purpose may be increased by three percent per year thereafter. Expenditures for the production of interactive hearings must be approved by the administrative committees of both the house of representatives and the senate and may not exceed a total of fifty thousand dollars in any single year.

(2) A qualified nonprofit organization is a nonprofit corporation formed solely for the purpose of providing unedited televised coverage of state government deliberations and other events of state-wide significance, and which has received a determination of a tax exempt status under section 501(c)(3) of the federal internal revenue code.

(3) Interested qualified nonprofit organizations shall submit a four-year financial plan, a feasibility plan, and an engineering plan that includes a schedule of equipment needs and distribution plan to the office of financial management. The office of financial management may set criteria for these plans. The office of financial management shall review the submitted plans and, by May 2, 1994, select a qualified nonprofit organization to carry out sections 1 through 3 of this act from those nonprofit organizations whose plans indicate the ability to carry out sections 1 through 3 of this act.

(4) Beginning January 1995, the qualified nonprofit organization shall prepare an annual independent audit, an annual financial statement, an annual report, and operational benchmarks that measure the nonprofit organization's impact on success of this program in meeting the intent of sections 1 through 3 of this act.

(5) The initial selection award under this section shall be for a period of four years. The office of financial management shall by December 31, 1998, reopen the application process and select a qualified nonprofit organization.

NEW SECTION. Sec. 3. A new section is added to chapter 43.08 RCW to read as follows:

TERMS AND CONDITIONS. Placement and operation of equipment within legislative facilities are subject to terms and conditions between the qualified nonprofit organization and the respective houses of the legislature. Such terms and conditions may include but are not limited to: Programming standards requiring a fair and balanced presentation without regard to partisanship or ideology and a balance of possible subject matter and deliberating bodies.

The initial terms and conditions and any amendment to those terms and conditions shall be ratified by a two-thirds vote of each house of the legislature. Such ratification shall be made in the form of a concurrent resolution.

NEW SECTION. Sec. 4. CAPTIONS. Section captions as used in this act do not constitute any part of the law.

NEW SECTION. Sec. 5. APPROPRIATION. The sum of six million six hundred thousand dollars, or as much thereof as may be necessary, is appropriated for the biennium ending June 30, 1995, from the general fund to the state treasurer for the purposes of this act.

NEW SECTION. Sec. 6. EMERGENCY CLAUSE. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately."

The initial terms ~~((or))~~ of office for those elected at a first election of all officers ~~((to positions one and two for a five member council, or positions one through three for a seven member council, shall if the election occurs at a general municipal election be only until the second~~

Monday in January first following the next general municipal election two years hence and if the election occurs at a special election, the duration of these initial terms shall be until the second Monday in January in the first even-numbered year that follows the next general municipal election. The duration of the initial term attaching to the remaining councilmanic positions shall be until the second Monday in January two years next thereafter, so that staggered regular four year terms will ultimately result. Any declarations of candidacy for any primary or other election held pursuant to this section shall be filed as provided in RCW 35A.29.110 as now or hereafter amended) shall be as follows: (1) A simple majority of the persons who are elected as councilmembers receiving the greatest numbers of votes and the mayor in a city with a mayor-council plan of government shall be elected to four-year terms of office, if the election is held in an odd-numbered year, or three-year terms of office, if the election is held in an even-numbered year; and (2) the other persons who are elected as councilmembers shall be elected to two-year terms of office, if the election is held in an odd-numbered year, or one-year terms of office, if the election is held in an even-numbered year. Sec. 26. RCW 35A.02.130 and 1967 ex.s. c 119 s 35A.02.130 are each amended to read as follows:

Any incorporated city or town governed under a plan of government authorized prior to the time this title takes effect may become a noncharter code city without changing such plan of government by the use of the petition-for-election or resolution-for-election procedures provided in RCW 35A.02.060 and 35A.02.070 to submit to the voters a proposal that such municipality adopt the classification of noncharter code city while retaining its existing plan of government, and upon a favorable vote on the proposal, such municipality shall be classified as a noncharter code city and retain its old plan of government, such reclassification to be effective upon the filing of the record of such election with the office of the secretary of state. Insofar as the provisions of RCW 35A.02.100 and 35A.02.110 are applicable to an election on such a reclassification proposal they shall apply to such election.

Sec. 27. RCW 35A.06.020 and 1967 ex.s. c 119 s 35A.06.020 are each amended to read as follows:

The classifications of municipalities which existed prior to the time this title goes into effect--first class city, second class city, third class ~~((and fourth class))~~ city, town, and unclassified city--and the restrictions, limitations, duties, and obligations specifically imposed by law upon such classes of cities and towns, shall have no application to noncharter code cities, but every noncharter code city, by adopting such classification, has elected to be governed by the provisions of this title, with the powers granted hereby. However, any code city that retains its old plan of government is subject to the laws applicable to that old plan of government until the city changes its plan of government to the provisions of either chapter 35A.12 or 35A.13 RCW.

Sec. 28. RCW 35A.06.030 and 1979 ex.s. c 18 s 14 are each amended to read as follows:

By use of the resolution for election or petition for election methods described in RCW 35A.06.040, any noncharter code city which has operated for more than six consecutive years under one of the optional plans of government authorized by this title, or for more than a combined total of six consecutive years under a particular plan of government both as a code city and under the same general plan under Title 35 RCW immediately prior to becoming a code city, may abandon such organization and may reorganize and adopt another plan of government authorized for noncharter code cities, but only after having been a noncharter code city for more than one year or a city after operating for more than six consecutive years under a particular plan of government as a noncharter code city ~~((or may reclassify and adopt a plan of government authorized by the general law for municipalities of the highest class for which the population of such city qualifies it, or authorized for the class to which such city belonged immediately prior to becoming a noncharter code city, if any))~~: PROVIDED, That these limitations shall not apply to a city seeking to adopt a charter.

In reorganization under a different general plan of government as a noncharter code city, officers shall all be elected as provided in RCW 35A.02.050. When a noncharter code city adopts a plan of government other than those authorized under Title 35A RCW, such city ceases to be governed under this optional municipal code and shall be classified as a city or town of the class selected in the proceeding for adoption of such new plan, with the powers granted to such class under the general law.

Sec. 29. RCW 35A.06.050 and 1979 ex.s. c 18 s 15 are each amended to read as follows:

The proposal for abandonment of a plan of government as authorized in RCW 35A.06.030 and for adoption of the plan named in the resolution or petition shall be voted upon at the next general municipal election if one is to be held within one hundred and eighty days or otherwise at a special election called for that purpose in accordance with RCW 29.13.020. The ballot title and statement of the proposition shall be prepared by the city attorney as provided in RCW 29.27.060 and 35A.29.120 ~~((, as now or hereafter amended. If the plan proposed in the petition is not a plan authorized for noncharter code cities by this title, the ballot statement shall clearly set forth that adoption of such plan by the voters would require abandonment of the classification of noncharter code city and that government would be under the general law relating to cities of the class specified in the resolution or petition. If the plan proposed in the petition is a plan authorized for noncharter code cities the ballot statement shall clearly set forth that adoption of such plan by the voters would not affect the eligibility of the noncharter code city to be governed under this optional municipal code))~~.

Sec. 30. RCW 35A.12.010 and 1985 c 106 s 1 are each amended to read as follows:

The government of any noncharter code city or charter code city electing to adopt the mayor-council plan of government authorized by this chapter shall be vested in an elected mayor and an elected council. The council of a noncharter code city having less than twenty-five hundred inhabitants shall consist of five members; when there are twenty-five hundred or more inhabitants, the council shall consist of seven members: PROVIDED, That if the population of a city after having become a code city decreases from twenty-five hundred or more to less than twenty-five hundred, it shall continue to have a seven member council. If, after a city has become a mayor-council code city, its population increases to twenty-five hundred or more inhabitants, the number of councilmanic offices in such city may increase from five to seven members upon the affirmative vote of a majority of the existing council to increase the number of councilmanic offices in the city. When the population of a mayor-council code city having five councilmanic offices increases to five thousand or more inhabitants, the number of councilmanic offices in the city shall increase from five to seven members. In the event of an increase in the number of councilmanic offices, the city council shall, by majority vote, pursuant to RCW 35A.12.050, appoint two persons to serve in these offices until the next municipal general election, at which election one person shall be elected for a two-year term and one person shall be elected for a four-year term. The number of inhabitants shall be determined by the most recent official state or federal census or determination by the state office of financial management. A charter adopted under the provisions of this title, incorporating the mayor-council plan of government set forth in this chapter, may provide for an uneven number of ~~((councilmen))~~ councilmembers not exceeding eleven.

A noncharter code city of less than five thousand inhabitants which has elected the mayor-council plan of government and which has seven councilmanic offices may establish a five-member council in accordance with the following procedure. At least six months prior to a municipal general election, the city council shall adopt an ordinance providing for reduction in the number of councilmanic offices to five. The ordinance shall specify which two councilmanic offices, the terms of which expire at the next general election, are to be terminated. The ordinance shall provide for the renumbering of council positions and shall also provide for a two-year extension of the term of office of a retained councilmanic office, if necessary, in order to comply with RCW 35A.12.040.

However, a noncharter code city that has retained its old mayor-council plan of government, as provided in RCW 35A.02.130, is subject to the laws applicable to that old plan of government.

Sec. 31. RCW 35A.12.040 and 1979 ex.s. c 18 s 21 are each amended to read as follows:

Officers shall be elected at biennial municipal elections to be conducted as provided in chapter 35A.29 RCW. The mayor and the ~~((councilmen))~~ councilmembers shall be elected for ~~four-year terms of office~~ and until their successors are elected and qualified ~~((;-except that at any first election three councilmen in cities having seven councilmen, and two councilmen in cities having five councilmen, shall be elected for two year terms and the remaining councilmen shall be elected for four year terms))~~ and assume office in accordance with RCW 29.04.170. At any first election upon reorganization, councilmembers shall be elected as provided in RCW 35A.02.050. Thereafter the requisite number of ~~((councilmen))~~ councilmembers shall be elected biennially as the terms of their predecessors expire and shall serve for terms of four years. The positions to be filled on the city council shall be designated by consecutive numbers and shall be dealt with as separate offices for all election purposes ~~((;-as provided in RCW 35A.29.105. In any city which holds its first election under this title in the calendar year 1970, candidates elected for two year terms shall hold office until their successors are elected and qualified at the general municipal election to be held in November, 1973 and candidates elected for four year terms shall hold office until their successors are elected and qualified at the general municipal election to be held in November, 1975))~~. Election to positions on the council shall be by majority vote from the city at large, unless provision is made by charter or ordinance for election by wards. ~~((The city council shall be the judge of the qualifications of its members and determine contested elections of city officers, subject to review by certiorari as provided by law.))~~ The mayor and ~~((councilmen))~~ councilmembers shall qualify by taking an oath or affirmation of office and as may be provided by law, charter, or ordinance.

Sec. 32. RCW 35A.12.050 and 1967 ex.s. c 119 s 35A.12.050 are each amended to read as follows:

The office of a mayor or ~~((councilman))~~ councilmember shall become vacant if ~~((he))~~ the person who is elected or appointed to that position fails to qualify as provided by law ~~((or)),~~ fails to enter upon ~~((his))~~ the duties of that office at the time fixed by law without a justifiable reason, ~~((upon his death, resignation, removal from office by recall as provided by law, or when his office is forfeited))~~ or as provided in RCW 35A.12.060 or 42.12.010. A vacancy in the office of mayor or in the council shall be filled ~~((for the remainder of the unexpired term, if any, at the next regular municipal election but the council, or the remaining members thereof, by majority vote shall appoint a qualified person to fill the vacancy until the person elected to serve the remainder of the unexpired term takes office. If at any time the membership of the council is reduced below the number required for a quorum, the remaining members, nevertheless, by majority action may appoint additional members to fill the vacancies until persons are elected to serve the remainder of the unexpired terms. If, after thirty days have passed since the occurrence of a vacancy, the council are unable to agree upon a person to be appointed to fill a vacancy in the council, the mayor may make the appointment from among the persons nominated by members of the council))~~ as provided in chapter 42.12 RCW.

Sec. 33. RCW 35A.12.060 and 1967 ex.s. c 119 s 35A.12.060 are each amended to read as follows:

~~((A mayor or councilman shall forfeit his office, creating a vacancy, if he ceases to have the qualifications prescribed for such office by law, charter, or ordinance, or if he is convicted of a crime involving moral turpitude or an offense involving a violation of his oath of office. A councilman also shall forfeit his office if he))~~ In addition a council position shall become vacant if the councilmember fails to attend three consecutive regular meetings of the council without being excused by the council.

Sec. 34. RCW 35A.12.180 and 1967 ex.s. c 119 s 35A.12.180 are each amended to read as follows:

At any time not within three months previous to a municipal general election the council of a noncharter code city organized under this chapter may divide the city into wards or change the boundaries of existing wards. No change in the boundaries of wards shall affect the term of any ~~((councilman, but he))~~ councilmember, and councilmembers shall serve out ~~((his))~~ their terms in the wards of ~~((his))~~ their residences at the time of ~~((his))~~ their elections: PROVIDED, That if this results in one ward being represented by more ~~((councilmen))~~ councilmembers than the number to which it is entitled those having the shortest unexpired terms shall be assigned by the council to wards where there is a vacancy, and the councilmembers so assigned shall be deemed to be residents of the wards to which they are assigned for purposes of those positions being vacant. The representation of each ward in the city council shall be in proportion to the population as nearly as is practicable. ~~((When the city has been divided into wards no person shall be eligible to the office of councilman unless he resides in the ward for which he is elected on the date of his election, and removal of his residence from the ward for which he was elected renders his office vacant.))~~

Wards shall be redrawn as provided in chapter 29.70 RCW. Wards shall be used as follows: (1) Only a resident of the ward may be a candidate for, or hold office as, a councilmember of the ward; and (2) only voters of the ward may vote at a primary to nominate candidates for a councilmember of the ward. Voters of the entire city may vote at the general election to elect a councilmember of a ward, unless the city had prior to January 1, 1994, limited the voting in the general election for any or all council positions to only voters residing within the ward associated with the council positions. If a city had so limited the voting in the general election to only voters residing within the ward, then the city shall be authorized to continue to do so.

Sec. 35. RCW 35A.13.010 and 1987 c 3 s 16 are each amended to read as follows:

The ~~((councilmen))~~ councilmembers shall be the only elective officers of a code city electing to adopt the council-manager plan of government authorized by this chapter, except where statutes provide for an elective municipal judge. The council shall appoint an officer whose title shall be "city manager" who shall be the chief executive officer and head of the administrative branch of the city government. The city manager shall be responsible to the council for the proper administration of all affairs of the code city. The council of a noncharter code city having less than twenty-five hundred inhabitants shall consist of five members; when there are twenty-five hundred or more inhabitants the council shall consist of seven members: PROVIDED, That if the population of a city after having become a code city decreases from twenty-five hundred or more to less than twenty-five hundred, it shall continue to have a seven member council. If, after a city has become a council-manager code city its population increases to twenty-five hundred or more inhabitants, the number of councilmanic offices in such city may increase from five to seven members upon the affirmative vote of a majority of the existing council to increase the number of councilmanic offices in the city. When the population of a council-manager code city having five councilmanic offices increases to five thousand or more inhabitants, the number of councilmanic offices in the city shall increase from five to seven members. In the event of an increase in the number of councilmanic offices, the city council shall, by majority vote, pursuant to RCW 35A.13.020, appoint two persons to serve in these offices until the next municipal general election, at which election one person shall be elected for a two-year term and one person shall be elected for a four-year term. The number of inhabitants shall be determined by the most recent official state or federal census or determination by the state office of financial management. A charter adopted under the provisions of this title, incorporating the council-manager plan of government set forth in this chapter may provide for an uneven number of ~~((councilmen))~~ councilmembers not exceeding eleven.

A noncharter code city of less than five thousand inhabitants which has elected the council-manager plan of government and which has seven councilmanic offices may establish a five-member council in accordance with the following procedure. At least six months prior to a municipal general election, the city council shall adopt an ordinance providing for reduction in the number of councilmanic offices to five. The ordinance shall specify which two councilmanic offices, the terms of which expire at the next general election, are to be terminated. The ordinance shall provide for the renumbering of council positions and shall also provide for a two-year extension of the term of office of a retained councilmanic office, if necessary, in order to comply with RCW 35A.12.040.

However, a noncharter code city that has retained its old council-manager plan of government, as provided in RCW 35A.02.130, is subject to the laws applicable to that old plan of government.

Sec. 36. RCW 35A.13.020 and 1975 1st ex.s. c 155 s 1 are each amended to read as follows:

(1) The provisions of Title 29 RCW relating to elections shall govern public hospital districts, except ((that: -(1))) as provided in this chapter.

A public hospital district shall be created when the ballot proposition authorizing the creation of the district is approved by a simple majority vote of the voters of the proposed district voting on the proposition and the total vote cast upon the proposition ((to form a hospital district shall)) exceeds forty percent of the total number of votes cast in the ((precincts comprising the)) proposed district at the preceding state general ((and county)) election((; and (2) hospital district commissioners shall hold office for the term of six years and until their successors are elected and qualified, each term to commence on the first day in January following the election)).

At the election at which the proposition is submitted to the voters as to whether a district shall be formed, three commissioners shall be elected ((to hold office, respectively, for the terms of two, four, and six years. All candidates shall be voted upon by the entire district, and the candidate residing in commissioner district No. 1 receiving the highest number of votes in the hospital district shall hold office for the term of six years; the candidate residing in commissioner district No. 2 receiving the highest number of votes in the hospital district shall hold office for the term of four

years; and the candidate residing in commissioner district No. 3 receiving the highest number of votes in the hospital district shall hold office for the term of two years. The first commissioners to be elected shall take office immediately when qualified in accordance with RCW 29.04.135. Each term of the initial commissioners shall date from the time above specified following the organizational election, but shall also include the period intervening between the organizational election and the first day of January following the next district general election: PROVIDED, That in public hospital districts encompassing portions of more than one county, the total vote cast upon the proposition to form the district shall exceed forty percent of the total number of votes cast in each portion of each county lying within the proposed district at the next preceding general county election. The portion of the proposed district located within each county shall constitute a separate commissioner district. There shall be three district commissioners whose terms shall be six years. Each district shall be designated by the name of the county in which it is located. All candidates for commissioners shall be voted upon by the entire district. Not more than one commissioner shall reside in any one district: PROVIDED FURTHER, That in the event there are only two districts then two commissioners may reside in one district. The term of each commissioner shall commence on the first day in January in each year following his election. At the election at which the proposition is submitted to the voters as to whether a district shall be formed, three commissioners shall be elected to hold office, respectively, for the terms of two, four, and six years. The candidate receiving the highest number of votes within the district, as constituted by the election, shall serve a term of six years; the candidate receiving the next highest number of votes shall hold office for a term of four years; and the candidate receiving the next highest number of votes shall hold office for a term of two years: PROVIDED FURTHER, That the holding of each such term of office shall be subject to the residential requirements for district commissioners hereinbefore set forth in this section)). The election of the initial commissioners shall be null and void if the district is not authorized to be created.

No primary shall be held. A special filing period shall be opened as provided in RCW 29.15.170 and 29.15.180. The person receiving the greatest number of votes for the commissioner of each commissioner district shall be elected as the commissioner of that district. The terms of office of the initial public hospital district commissioners shall be staggered as follows: (a) The person who is elected receiving the greatest number of votes shall be elected to a six-year term of office if the election is held in an odd-numbered year or a five-year term of office if the election is held in an even-numbered year; (b) the person who is elected receiving the next greatest number of votes shall be elected to a four-year term of office if the election is held in an odd-numbered year or a three-year term of office if the election is held in an even-numbered year; and (c) the other person who is elected shall be elected to a two-year term of office if the election is held in an odd-numbered year or a one-year term of office if the election is held in an even-numbered year. The initial commissioners shall take office immediately when they are elected and qualified, but the length of such terms shall be computed from the first day of January in the year following this election. The term of office of each successor shall be six years. Each commissioner shall serve until a successor is elected and qualified and assumes office in accordance with RCW 29.04.170.

(2) Commissioner districts shall be used as follows: (a) Only a registered voter who resides in a commissioner district may be a candidate for, or hold office as, a commissioner of the commissioner district; and (b) only voters of a commissioner district may vote at a primary to nominate candidates for a commissioner of the commissioner district. Voters of the entire public hospital district may vote at a general election to elect a person as a commissioner of the commissioner district.

If the proposed public hospital district is county-wide, and the county has three county legislative authority districts, the county legislative authority districts shall be used as public hospital district commissioner districts. In all other instances the county auditor of the county in which all or the largest portion of the proposed public hospital district is located shall draw the initial three public hospital district commissioner districts, each of which shall constitute as nearly as possible one-third of the total population of the proposed public hospital district and number the districts one, two, and three. Each of the three commissioner positions shall be numbered one through three and associated with the district of the same number.

The public hospital district commissioners may redraw commissioner districts, if the public hospital district has boundaries that are not coterminous with the boundaries of a county with three county legislative authority districts, so that each district comprises as nearly as possible one-third of the total population of the public hospital district. The commissioners of a public hospital district that is not coterminous with the boundaries of a county that has three county legislative authority districts shall redraw hospital district commissioner boundaries as provided in chapter 29.70 RCW.

Sec. 80. RCW 70.44.045 and 1982 c 84 s 13 are each amended to read as follows:

A vacancy in the office of commissioner shall occur as provided in chapter 42.12 RCW or by ((death, resignation, removal, conviction of felony,)) nonattendance at meetings of the commission for sixty days, unless excused by the commission ((, by any statutory disqualification, by any permanent disability preventing the proper discharge of his duty, or by creation of positions pursuant to RCW 70.44.051, et seq)). A vacancy ((or vacancies on the board)) shall be filled ((by appointment by the remaining commissioner or commissioners until the next regular election for commissioners as provided by RCW 70.44.040: PROVIDED, That if there is only one remaining commissioner, one vacancy shall be filled by appointment by the remaining commissioner and the remaining vacancy or vacancies shall be filled by appointment by the then two commissioners and the appointed commissioners shall serve until the next regular election for commissioners: PROVIDED FURTHER, That if there is a vacancy of the entire board, a new board may be appointed by the board of county commissioners or county council)) as provided in chapter 42.12 RCW.

Sec. 81. RCW 70.44.053 and 1967 c 77 s 2 are each amended to read as follows:

At any general or special election which may be called for that purpose the board of public hospital district commissioners may, or on petition of ten percent of the ((electors)) voters based on the total vote cast in the last district general election in the public hospital district shall, by resolution, submit to the voters of the district the proposition increasing the number of commissioners to ((any number authorized in RCW 70.44.054)) either five or seven members. The petition or resolution shall specify whether it is proposed to increase the number of commissioners to either five or seven members.

If the voters of the district approve the ballot proposition authorizing the increase in the number of commissioners to either five or seven members, the board of commissioners shall redistrict the public hospital district into the appropriate number of commissioner districts. The additional commissioners shall be elected from commissioner districts in which no existing commissioner resides at the next state general election occurring one hundred twenty days or more after the date of the election at which the voters of the district approved the ballot proposition authorizing the increase in the number of commissioners. If needed, special filing periods shall be authorized as provided in RCW 29.15.170 and 29.15.180 for qualified persons to file for the vacant office. A primary shall be held to nominate candidates if sufficient time exists to hold a primary and more than two candidates file for the vacant office. Otherwise, a primary shall not be held and the candidate receiving the greatest number of votes for each position shall be elected. Except for the initial terms of office, persons elected to each of these additional commissioner positions shall be elected to a six-year term.

Where the number of commissioners is increased from three to five, the initial terms of the two new commissioners shall be staggered so that the person who is elected receiving the greatest number of votes shall be elected to a six-year term of office if the election is held in an odd-numbered year or a five-year term if the election is held in an even-numbered year, and the other person elected shall be elected to a four-year term of office if the election is held in an odd-numbered year or a three-year term if the election is held in an even-numbered year. The newly elected commissioners shall assume office as provided in RCW 29.04.170.

Where the number of commissioners is increased from three or five to seven, the county auditor of the county in which all or the largest portion of the hospital district is located shall cause the initial terms of office of the additional commissioners to be staggered over the next three district general elections so that two commissioners would normally be elected at the first district general election following the election where the additional commissioners are elected, two commissioners are normally elected at the second district general election after the election of the additional commissioners, and three commissioners are normally elected at the third district general election following the election of the additional commissioners. The newly elected commissioners shall assume office as provided in RCW 29.04.170.

Senator Haugen moved that the following amendments by Senators Haugen, Winsley and McCaslin to the Committee on Government Operations striking amendment be considered simultaneously and be adopted:

On page 42, beginning on line 13 of the amendment, strike all of section 55

Renumber the remaining sections consecutively and correct any internal references accordingly.

On page 70, after line 27 of the amendment, insert the following:

"Sec. 82. RCW 53.12.010 and 1992 c 146 s 1 are each amended to read as follows:

(1) The powers of the port district shall be exercised through a port commission consisting of three or, when permitted by this title, five members. Every port district that is not coextensive with a county having a population of five hundred thousand or more shall be divided into ~~((three)) the same number of~~ commissioner districts as there are commissioner positions, each having approximately equal population, unless provided otherwise under subsection (2) of this section. Where a port district with three commissioner positions is coextensive with the boundaries of a county that has a population of less than five hundred thousand and the county has three county legislative authority districts, the port ~~((district))~~ commissioner districts shall be the county legislative authority districts. In other instances where a port district is divided into commissioner districts, the ~~((petition proposing the formation of such a)) port commission shall divide the~~ port district ~~((shall describe three))~~ into commissioner districts ~~((each having approximately the same population and))~~ unless the commissioner districts have been described pursuant to section 84 of this act. The commissioner districts shall be altered as provided in chapter 53.16 RCW.

Commissioner districts shall be used as follows: (1) Only a registered voter who resides in a commissioner district may be a candidate for, or hold office as, a commissioner of the commissioner district; and (2) only the voters of a commissioner district may vote at a primary ~~((election))~~ to nominate candidates for a commissioner of the commissioner district. Voters of the entire port district may vote at a general election to elect a person as a commissioner of the commissioner district.

~~((In port districts having additional commissioners as authorized by RCW 53.12.120, 53.12.130, and 53.12.115, the powers of the port district shall be exercised through a port commission consisting of five members constituted as provided therein.))~~

(2) In port districts with five commissioners, two of the commissioner districts may include the entire port district if approved by the voters of the district either at the time of formation or at a subsequent port district election at which the issue is proposed pursuant to a resolution adopted by the board of commissioners and delivered to the county auditor.

NEW SECTION. Sec. 83. A new section is added to chapter 53.12 RCW to read as follows:

Any less than county-wide port district that uses commissioner districts may cease using commissioner districts as provided in this section.

A ballot proposition authorizing the elimination of commissioner districts shall be submitted to the voters of a less than county-wide port district that is divided into commissioner districts if (1) a petition is submitted to the port commission proposing that the port district cease using commissioner districts, that is signed by registered voters of the port district equal in number to at least ten percent of the number of voters who voted at the last district general election; or (2) the port commissioners adopt a resolution proposing that the port district cease using commissioner districts. The port commission shall transfer the petition or resolution immediately to the county auditor who shall, when a petition is submitted, review the signatures and certify its sufficiency. A ballot proposition authorizing the elimination of commissioner districts shall be submitted at the next district general election occurring sixty or more days after a petition with sufficient signatures was submitted. If the ballot proposition authorizing the port

district to cease using commissioner districts is approved by a simple majority vote, the port district shall cease using commissioner districts at all subsequent elections.

NEW SECTION. Sec. 84. A new section is added to chapter 53.04 RCW to read as follows:

Three commissioner districts, each with approximately the same population, shall be described in the petition proposing the creation of a port district under RCW 53.04.020, if the process to create the port district was initiated by voter petition, or shall be described by the county legislative authority, if the process to initiate the creation of the port district was by action of the county legislative authority. However, commissioner districts shall not be described if the commissioner districts of the proposed port district shall be the same as the county legislative authority districts.

The initial port commissioners shall be elected as provided in RCW 53.12.172.

Sec. 85. RCW 53.04.023 and 1993 c 70 s 1 are each amended to read as follows:

A less than county-wide port district with an assessed valuation of at least seventy-five million dollars may be created in a county that already has a less than county-wide port district located within its boundaries. Except as provided in this section, such a port district shall be created in accordance with the procedure to create a county-wide port district.

The effort to create such a port district is initiated by the filing of a petition with the county auditor calling for the creation of such a port district, describing the boundaries of the proposed port district, designating either three or five commissioner positions, describing commissioner districts if the petitioners propose that the commissioners represent districts, and providing a name for the proposed port district. The petition must be signed by voters residing within the proposed port district equal in number to at least ten percent of such voters who voted at the last county general election.

A public hearing on creation of the proposed port district shall be held by the county legislative authority if the county auditor certifies that the petition contained sufficient valid signatures. Notice of the public hearing must be published in the county's official newspaper at least ten days prior to the date of the public hearing. After taking testimony, the county legislative authority may make changes in the boundaries of the proposed port district if it finds that such changes are in the public interest and shall determine if the creation of the port district is in the public interest. No area may be added to the boundaries unless a subsequent public hearing is held on the proposed port district.

The county legislative authority shall submit a ballot proposition authorizing the creation of the proposed port district to the voters of the proposed port district, at any special election date provided in RCW 29.13.020, if it finds the creation of the port district to be in the public interest.

The port district shall be created if a majority of the voters voting on the ballot proposition favor the creation of the port district. The initial port commissioners shall be elected at the same election, from districts or at large, as provided in the petition initiating the creation of the port district. The election shall be otherwise conducted as provided in RCW 53.12.172, but the election of commissioners shall be null and void if the port district is not created. ~~((Commissioner districts shall not be used in the initial election of the port commissioners.))~~

This section shall expire July 1, 1997.

Sec. 86. RCW 53.12.172 and 1992 c 146 s 2 are each reenacted and amended to read as follows:

(1) In every port district the term of office of each port commissioner shall be four years in each port district that is county-wide with a population of one hundred thousand or more, or either six or four years in all other port districts as provided in RCW 53.12.175, and until a successor is elected and qualified and assumes office in accordance with RCW 29.04.170.

(2) The initial port commissioners shall be elected at the same election as when the ballot proposition is submitted to voters authorizing the creation of the port district. If the port district is created the persons elected at this election shall serve as the initial port commission. No primary shall be held. The person receiving the greatest number of votes for commissioner from each commissioner district shall be elected as the commissioner of that district.

(3) The terms of office of the initial port commissioners shall be staggered as follows in a port district that is county-wide with a population of one hundred thousand or more: ~~((1))~~ (a) The two persons who are elected receiving the two greatest numbers of votes shall be elected to four-year terms of office if the election is held in an odd-numbered year, or three-year terms of office if the election is held in an even-numbered year, and shall hold office until successors are elected and qualified and assume office in accordance with RCW 29.04.170; and ~~((2))~~ (b) the other person who is elected shall be elected to a two-year term of office if the election is held in an odd-numbered year, or a one-year term of office if the election is held in an even-numbered year, and shall hold office until a successor is elected and qualified and assumes office in accordance with RCW 29.04.170.

(4) The terms of office of the initial port commissioners in all other port districts shall be staggered as follows: (a) The person who is elected receiving the greatest number of votes shall be elected to a six-year term of office if the election is held in an odd-numbered year or to a five-year term of office if the election is held in an even-numbered year, and shall hold office until a successor is elected and qualified and assumes office in accordance with RCW 29.04.170; (b) the person who is elected receiving the next greatest number of votes shall be elected to a four-year term of office if the election is held in an odd-numbered year or to a three-year term of office if the election is held in an even-numbered year, and shall hold office until a successor is elected and qualified and assumes office in accordance with RCW 29.04.170; and (c) the other person who is elected shall be elected to a two-year term of office if the election is held in an odd-numbered year or a one-year term of office if the election is held in an even-numbered year, and shall hold office until a successor is elected and qualified and assumes office in accordance with RCW 29.04.170.

(5) The initial port commissioners shall take office immediately after being elected and qualified, but the length of their terms shall be calculated from the first day in January in the year following their elections.

Sec. 87. RCW 53.12.115 and 1992 c 146 s 7 are each amended to read as follows:

A ballot proposition shall be submitted to the voters of any port district authorizing an increase in the number of port commissioners to five whenever the port commission adopts a resolution proposing the increase in number of port commissioners or a petition ((requesting)) proposing such an increase has been submitted to the county auditor of the county in which the port district is located that has been signed by voters of the port district at least equal in number to ten percent of the number of voters in the port district who voted at the last general election. The ballot proposition shall be submitted at the next general or special election occurring sixty or more days after the petition was submitted or resolution was adopted.

At the next general or special election following the election in which an increase in the number of port commissioners was authorized, candidates for the two additional port commissioner positions shall be elected as provided in RCW 53.12.130, and the voters may be asked to approve the nomination of commissioners from district-wide commissioner districts as permitted in RCW 53.12.010(2).

Sec. 88. RCW 53.12.120 and 1992 c 146 s 8 are each amended to read as follows:

When the population of a port district that has three commissioners reaches five hundred thousand, in accordance with the latest United States regular or special census or with the official state population estimate, there shall be submitted to the voters of the district, at the next district general election or at a special port election called for that purpose, the proposition of increasing the number of commissioners to five. ~~((At any general election thereafter, the same proposition may be submitted by resolution of the port commissioners, by filing a certified copy of the resolution with the county auditor at least four months prior to the general election. If the proposition is approved by the voters, the commission in that port district shall consist of five commissioners.))~~

At the next district general election following the election in which an increase in the number of port commissioners was authorized, candidates for the two additional port commissioner positions shall be elected as provided in RCW 53.12.130.

Sec. 89. RCW 53.12.130 and 1992 c 146 s 9 are each amended to read as follows:

Two additional port commissioners shall be elected at the next district general election following the election at which voters authorized the increase in port commissioners to five members. ~~((The two additional positions shall be numbered positions four and five.))~~

The port commissioners shall divide the port district into five commissioner districts prior to the first day of June in the year in which the two additional commissioners shall be elected, unless the voters approved the nomination of the two additional commissioners from district-wide commissioner districts as permitted in RCW 53.12.010(2). The new commissioner districts shall be numbered one through five and the three incumbent commissioners shall represent commissioner districts one through three. If, as a result of redrawing the district boundaries two or three of the incumbent commissioners reside in one of the new commissioner districts, the commissioners who reside in the same commissioner district shall determine by lot which of the first three numbered commissioner districts they shall represent for the remainder of their respective terms. A primary shall be held to nominate candidates from districts four and five where necessary and commissioners shall be elected from commissioner districts four and five at the general election. The persons ((receiving the highest number of votes for each position shall be elected to that position and)) elected as commissioners from commissioner districts four and five shall take office immediately after qualification as defined under RCW 29.01.135.

There being no objection, the Senate resumed consideration of Substitute House Bill No. 2479 and the pending amendment by Senator Prince on page 6, after line 4, deferred earlier today.

RULING BY THE PRESIDENT

President Pritchard: "In ruling upon the point of order raised by Senator Spanel, the President finds that Substitute House Bill No. 2479 is a measure which clarifies language and corrects references in various tax statutes.

"The amendment proposed by Senator Prince would require development of a resale certificate for landlord-tenant relationships within the agricultural industry.

"The President, therefore, finds that the proposed amendment does change the scope and object of the bill and the point of order is well taken."

The amendment by Senator Prince on page 6, after line 4, to Substitute House Bill No. 2479 was ruled out of order.

MOTION

On motion of Senator Haugen, the rules were suspended, Substitute House Bill No. 2479 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

SUBSTITUTE HOUSE BILL NO. 2479, having received the constitutional majority, was declared passed. There being no objection, the title of the bill will stand as the title of the act.

There being no objection, the Senate resumed consideration of House Bill No. 2320 and the pending amendment by Senators Owen, Oke and Sheldon on page 2, after line 8, deferred earlier today.

RULING BY THE PRESIDENT

President Pritchard: "In ruling upon the point of order raised by Senator Fraser, the President finds that House Bill No. 2320 is a measure which permits the Department of Ecology to delegate to local units of government review and approval authority relative to sewerage systems or disposal plants, under certain conditions.

"The amendment proposed by Senators Owen, Oke and Sheldon would, among other things, permit local health boards to vary from Department of Health standards on design and installation of some sewerage systems and allow counties, under certain circumstances, to issue permits for on site sanitary systems which vary from state standards without obtaining a waiver from the Department of Health.

"The President, therefore, finds that the proposed amendment does change the scope and object of the bill and the point of order is well taken."

The amendment by Senators Owen, Oke and Sheldon on page 2, after line 8, to House Bill No. 2320 was ruled out of order.

MOTION

Senator Erwin moved that the following amendment be adopted:

On page 2, after line 8, insert the following:

"NEW SECTION. Sec. 2. The state board of health shall conduct a comparative study of the effectiveness and cost of on-site sewage systems, including standard septic systems and all alternative systems including aerobic systems and aerobic systems with biomembranes. A report of the findings of the study and any related recommended statutory changes shall be made to the legislature by December 31, 1994. All existing administrative rules and guidelines relating to on-site sewage systems should be modified to accurately reflect the findings of the study, especially with regard to alternative systems.

The study shall consider at least the following: (1) The effectiveness of the treatment systems as measured by the five-day biochemical oxygen demand, the total suspended solids, and the coliform level found in effluent; (2) the historical performance record for each system; (3) the relative cost of each system; and (4) the maintenance needs and overall useful life span of the system.

NEW SECTION. Sec. 3. A new section is added to chapter 70.118 RCW to read as follows:

(1) New installations of on-site sewage systems within two hundred feet of any body of water, whether marine or fresh, shall be capable of delivering effluent with a thirty-day average that does not exceed: A five-day biochemical oxygen demand of fifteen milligrams per liter; total suspended solids of eleven milligrams per liter; and a coliform level of two hundred parts per one hundred milliliters.

(2) New installations of on-site sewage systems within fifty feet of any body of water, whether marine or fresh, shall be capable of delivering effluent with a thirty-day average that does not exceed: A five-day biochemical oxygen demand of five milligrams per liter; total suspended solids of five milligrams per liter; and a coliform level of one hundred parts per one hundred milliliters."

MOTION

On motion of Senator Erwin, and there being no objection, Section 2 and Section 3 will be considered as separate amendments.

MOTION

Senator Erwin moved that Section 2 be adopted.

POINT OF ORDER

Senator Fraser: "A point of order, Mr. President. I believe that both Section 2 and Section 3 exceed the scope and object of the bill."

REPLY BY THE PRESIDENT

President Pritchard: "Well, we haven't gotten to Section 3, but on Section 2, you raise scope and object? Do you want to discuss it?"

Senator Fraser: "Very briefly, Mr. President, Section 2 exceeds the scope and object. Again, because it addresses a department not currently addressed in the bill. The bill deals with the Department of Ecology; this deals with the State Board of Health. The amendment deals with a study; the bill deals with delegation of existing state authority."

Further debate ensued.

PARLIAMENTARY INQUIRY

Senator Talmadge: "A point of parliamentary inquiry, Mr. President. The President has ruled, in times past, where someone is going to raise scope and object on a series of amendments that the President will rule simultaneously in all the points of order. In response to the inquiry by Senator Fraser, the President raised some question in my mind, at least, about that policy,

insofar as she intended to raise scope and object on both of the amendments, as divided by Senator Erwin. If possible, Mr. President, would it be possible to rule on both of the matters, in order that we move expeditiously?"

REPLY BY THE PRESIDENT

President Pritchard: "Well, by allowing him to divide it, I believe the Chair--we have it so that we don't have Section 3 before us and, obviously, we will be looking at it within the total point. I don't think we can rule on it before it comes before us and technically, it is not before us. If you want, Senator Talmadge, if you would like permission of the body, we can set Section 2 down and take up Section 3 and then have a chance to rule on both of them."

Senator Talmadge: "It would be most appropriate."

President Pritchard: "All right, we can do that."

There being no objection, the President deferred further consideration of the amendment, Section 2, by Senator Erwin.

MOTION

Senator Erwin moved that Section 3 be adopted.

POINT OF ORDER

Senator Fraser: "A point of order, Mr. President. I feel this amendment exceeds the scope and object of the bill. Again, the bill deals with the Department of Ecology. This amendment deals with the Department of Health. The bill deals with delegation of authority; this bill deals with new regulatory standards for septic tanks. It also broadens the bill by dealing with all septic tanks in the state, plus alternatives to them. I believe it exceeds the scope and object."

Further debate ensued.

RULING BY THE PRESIDENT

President Pritchard: "In ruling upon the point of order raised by Senator Fraser, the President finds that House Bill No. 2320 is a measure which permits the Department of Ecology to delegate to local units of government review and approval authority relative to sewerage systems or disposal plants, under certain conditions.

"The amendment, Section 2, proposed by Senator Erwin orders the State Board of Health to conduct a comparative study of on site sewage systems and the amendment, Section 3, establishes new standards for new installations of on site sewage systems.

"The President, therefore, finds that the proposed amendments do change the scope and object of the bill and the point of order is well taken."

The amendments by Senator Erwin on page 2, after line 8--Sections 2 and 3--to House Bill No. 2320 were ruled out of order.

MOTION

On motion of Senator Fraser, the rules were suspended, House Bill No. 2320 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

MOTION

On motion of Senator Moyer, Senator West was excused.

The President declared the question before the Senate to be the roll call on the final passage of House Bill No. 2320.

ROLL CALL

The Secretary called the roll on the final passage of House Bill No. 2320 and the bill passed the Senate by the following vote: Yeas, 34; Nays, 13; Absent, 1; Excused, 1.

Voting yea: Senators Drew, Franklin, Fraser, Gaspard, Hargrove, Haugen, Loveland, Ludwig, McAuliffe, McCaslin, McDonald, Moore, Moyer, Nelson, Newhouse, Niemi, Pelz, Prentice, Quigley, Rasmussen, M., Rinehart, Roach, Schow, Sheldon, Skratek, Smith, A., Snyder, Spanel, Sutherland, Talmadge, Vognild, Williams, Winsley and Wojahn - 34.

Voting nay: Senators Amondson, Anderson, Bauer, Bluechel, Cantu, Deccio, Erwin, Hochstatter, Morton, Oke, Prince, Sellar and Smith, L. - 13.

Absent: Senator Owen - 1.

Excused: Senator West - 1.

HOUSE BILL NO. 2320, having received the constitutional majority, was declared passed. There being no objection, the title of the bill will stand as the title of the act.

There being no objection, the Senate resumed consideration of Substitute House Bill No. 2433, deferred earlier today after an amendment by Senators Williams, Sutherland, Gaspard, Rinehart and McDonald on page 3, after line 16, to the Committee on Ways and Means striking amendment was adopted.

MOTION

Senator Linda Smith moved that the following amendments to the Committee on Ways and Means striking amendment be considered simultaneously and be adopted:

On page 1, after line 14, strike all materials through and including "classrooms." on line 26 and insert the following:

"It is the intent of the legislature to encourage members of the private sector to establish a mechanism to produce unedited televised coverage of state government deliberations and other public policy events of state-wide significance. It is assumed that private contributions will be raised to cover all costs associated with such coverage, including annual operating costs, equipment costs, and the cost of programming activities such as curriculum development for use in classrooms. Funding provided by the state is intended to cover "start-up costs" to encourage private sector interest and involvement in the production of televised coverage of state government. The provision of such funding by the state is intended to increase citizen access to government, and is a public purpose for which public funds may be expended."

On page 1, beginning on line 33, strike all materials after "purposes of" through and including "a single year." on page 2, line 15 and insert the following:

"encouraging private sector interest and involvement in the production of televised coverage of state government. The contracted bank shall disburse funds to the nonprofit organization, determined to be qualified by the office of financial management, on a quarterly basis to cover expenses incurred by the nonprofit organization in soliciting private sector interest, involvement and financial contributions and for no other purpose."

On page 3, line 16, after "sum of" strike "six million six" and insert "two"

Debate ensued.

The President declared the question before the Senate to be the adoption of the amendments by Senator Linda Smith on page 1, after line 14, and beginning on line 33, and on page 3, line 16, to the Committee on Ways and Means striking amendment to Substitute House Bill No. 2433.

The motion by Linda Smith failed and the amendments to the Committee on Ways and Means striking amendment were not adopted on a rising vote.

MOTION

Senator Linda Smith moved that the following amendment to the Committee on Ways and Means striking amendment be adopted:

On page 2, after line 15, strike all materials through and including "revenue code." on line 20 and insert the following:

"(2) A qualified nonprofit organization is a nonprofit corporation (a) formed solely for the purpose of providing unedited televised coverage of state government deliberations and other events of state-wide significance, (b) which has received a determination of a tax-exempt status under section 501(c)(3) of the federal internal revenue code, and (c) which has as its chief executive officer a person with a minimum of four years professional experience in the field of television production."

Debate ensued.

Senator Sellar demanded a roll call and the demand was sustained.

NEW SECTION. **Sec. 101.** A new section is added to chapter 18.25 RCW to read as follows:

This chapter is enacted:

(1) In the exercise of the police power of the state and to provide an adequate public agency to act as a disciplinary body for the members of the chiropractic profession licensed to practice chiropractic in this state;

(2) Because the health and well-being of the people of this state are of paramount importance;

(3) Because the conduct of members of the chiropractic profession licensed to practice chiropractic in this state plays a vital role in preserving the health and well-being of the people of the state; and

(4) Because practicing other healing arts while licensed to practice chiropractic and while holding one's self out to the public as a chiropractor affects the health and welfare of the people of the state.

It is the purpose of the commission established under section 104 of this act to regulate the competency and quality of professional health care providers under its jurisdiction by establishing, monitoring, and enforcing qualifications for licensing, consistent standards of practice, continuing competency mechanisms, and discipline. Rules, policies, and procedures developed by the commission must promote the delivery of quality health care to the residents of the state.

Sec. 102. RCW 18.25.005 and 1992 c 241 s 2 are each amended to read as follows:

(1) Chiropractic is the practice of health care that deals with the diagnosis or analysis and care or treatment of the vertebral subluxation complex and its effects, articular dysfunction, and musculoskeletal disorders, all for the restoration and maintenance of health and recognizing the recuperative powers of the body.

(2) Chiropractic treatment or care includes the use of procedures involving spinal adjustments, and extremity manipulation insofar as any such procedure is complementary or preparatory to a chiropractic spinal adjustment. Chiropractic treatment also includes the use of heat, cold, water, exercise, massage, trigger point therapy, dietary advice and recommendation of nutritional supplementation except for medicines of herbal, animal, or botanical origin, the normal regimen and rehabilitation of the patient, first aid, and counseling on hygiene, sanitation, and preventive measures. Chiropractic care also includes such physiological therapeutic procedures as traction and light, but does not include procedures involving the application of sound, diathermy, or electricity.

(3) As part of a chiropractic differential diagnosis, a chiropractor shall perform a physical examination, which may include diagnostic x-rays, to determine the appropriateness of chiropractic care or the need for referral to other health care providers. The chiropractic ((disciplinary board)) quality assurance commission shall provide by rule for the type and use of diagnostic and analytical devices and procedures consistent with this chapter.

(4) Chiropractic care shall not include the prescription or dispensing of any medicine or drug, the practice of obstetrics or surgery, the use of x-rays or any other form of radiation for therapeutic purposes, colonic irrigation, or any form of venipuncture.

(5) Nothing in this chapter prohibits or restricts any other practitioner of a "health profession" defined in RCW 18.120.020(4) from performing any functions or procedures the practitioner is licensed or permitted to perform, and the term "chiropractic" as defined in this chapter shall not prohibit a practitioner licensed under chapter 18.71 RCW from performing medical procedures, except such procedures shall not include the adjustment by hand of any articulation of the spine.

Sec. 103. RCW 18.25.006 and 1992 c 241 s 3 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

The effects of the vertebral subluxation complex may include, but are not limited to, any of the following: Fixation, hypomobility, hypermobility, periarticular muscle spasm, edema, or inflammation.

(6) "Articular dysfunction" means an alteration of the biomechanical and physiological dynamics of a joint of the axial or appendicular skeleton.

(7) "Musculoskeletal disorders" means abnormalities of the muscles, bones, and connective tissue.

(8) "Chiropractic differential diagnosis" means a diagnosis to determine the existence of a vertebral subluxation complex, articular dysfunction, or musculoskeletal disorder, and the appropriateness of chiropractic care or the need for referral to other health care providers.

(9) "Chiropractic adjustment" means chiropractic care of a vertebral subluxation complex, articular dysfunction, or musculoskeletal disorder. Such care includes manual or mechanical adjustment of any vertebral articulation and contiguous articulations beyond the normal passive physiological range of motion.

(10) "Extremity manipulation" means a corrective thrust or maneuver applied to a joint of the appendicular skeleton. The use of extremity manipulation shall be complementary and preparatory to a chiropractic spinal adjustment to support correction of a vertebral subluxation complex and is considered a part of a spinal adjustment and shall not be billed separately from or in addition to a spinal adjustment.

The commission may appoint members of panels of at least three members. A quorum for transaction of any business by a panel is a minimum of three members. A majority vote of a quorum of the panel is required to transact business delegated to it by the commission.

The members of the commission are immune from suit in an action, civil or criminal, based upon its disciplinary proceedings or other official acts performed in good faith as members of the commission.

DENTAL

NEW SECTION. Sec. 201. A new section is added to chapter 18.32 RCW to read as follows:

The legislature finds that the health and well-being of the people of this state are of paramount importance.

The legislature further finds that the conduct of members of the dental profession licensed to practice dentistry in this state plays a vital role in preserving the health and well-being of the people of the state.

The legislature further finds that there is no effective means of handling disciplinary proceedings against members of the dental profession licensed in this state when such proceedings are necessary for the protection of the public health.

Therefore, the legislature declares its intention to exercise the police power of the state to protect the public health, to promote the welfare of the state, and to provide a commission to act as a disciplinary and regulatory body for the members of the dental profession licensed to practice dentistry in this state.

It is the purpose of the commission established in section 204 of this act to regulate the competency and quality of professional health care providers under its jurisdiction by establishing, monitoring, and enforcing qualifications for licensure, consistent standards of practice, continuing competency mechanisms, and discipline. Rules, policies, and procedures developed by the commission must promote the delivery of quality health care to the residents of the state.

Sec. 202. RCW 18.32.010 and 1991 c 3 s 58 are each amended to read as follows:

Words used in the singular in this chapter may also be applied to the plural of the persons and things; words importing the plural may be applied to the singular; words importing the masculine gender may be extended to females also; the term "~~((board))~~ commission" used in this chapter shall mean the Washington state ~~((board of dental examiners))~~ dental quality assurance commission; and the term "secretary" shall mean the secretary of health of the state of Washington.

OIL AND GAS CONSERVATION COMMITTEE

Sec. 909. RCW 78.52.010 and 1983 c 253 s 2 are each amended to read as follows:

For the purposes of this chapter, unless the text otherwise requires, the following terms shall have the following meanings:

(1) "Certificate of clearance" means a permit prescribed by the ~~((committee))~~ department for the transportation or the delivery of oil, gas, or product.

(2) "~~((Committee))~~ Department" means the ~~((oil and gas conservation committee))~~ department of natural resources.

(3) "Development unit" means the maximum area of a pool which may be drained efficiently and economically by one well.

(4) "Division order" means an instrument showing percentage of royalty or rental divisions among royalty owners.

(5) "Fair and reasonable share of the production" means, as to each separately-owned tract or combination of tracts, that part of the authorized production from a pool that is substantially in the proportion that the amount of recoverable oil or gas under the development unit of that separately-owned tract or tracts bears to the recoverable oil or gas or both in the total of the development units in the pool.

(6) "Field" means the general area which is underlaid by at least one pool and includes the underground reservoir or reservoirs containing oil or gas, or both. The words "field" and "pool" mean the same thing when only one underground reservoir is involved; however, "field," unlike "pool," may relate to two or more pools.

(7) "Gas" means all natural gas, all gaseous substances, and all other fluid or gaseous hydrocarbons not defined as oil in subsection (12) of this section, including but not limited to wet gas, dry gas, residue gas, condensate, and distillate, as those terms are generally understood in the petroleum industry.

(8) "Illegal oil" or "illegal gas" means oil or gas that has been produced from any well within the state in violation of this chapter or any rule or order of the ~~((committee))~~ department.

(9) "Illegal product" means any product derived in whole or part from illegal oil or illegal gas.

(10) "Interested person" means a person with an ownership, basic royalty, or leasehold interest in oil or gas within an existing or proposed development unit or unitized pool.

(11) "Lessee" means the lessee under an oil and gas lease, or the owner of any land or mineral rights who has the right to conduct or carry on any oil and gas development, exploration and operation thereon, or any person so operating for himself, herself, or others.

(12) "Oil" means crude petroleum, oil, and all hydrocarbons, regardless of gravity, that are in the liquid phase in the original reservoir conditions and are produced and recovered at the wellhead in liquid form.

(13) "Operator" means the person who operates a well or unit or who has been designated or accepted by the owners to operate the well or unit, and who is responsible for compliance with the ~~((committee's))~~ department's rules and policies.

(14) "Owner" means the person who has the right to develop, operate, drill into, and produce from a pool and to appropriate the oil or gas that he or she produces therefrom, either for that person or for that person and others.

(15) "Person" means any natural person, corporation, association, partnership, receiver, trustee, executor, administrator, guardian, fiduciary, or representative of any kind and includes any governmental or political subdivision or any agency thereof.

(16) "Pool" means an underground reservoir containing a common accumulation of oil or gas, or both. Each zone of a structure which is completely separated from any other zone in the same structure such that the accumulations of oil or gas are not common with each other is considered a separate pool and is covered by the term "pool" as used in this chapter.

(17) "Pooling" means the integration or combination of two or more tracts into an area sufficient to constitute a development unit of the size for one well as prescribed by the ~~((committee))~~ department.

(18) "Product" means any commodity made from oil or gas.

(19) "Protect correlative rights" means that the action or regulation by the ~~((committee))~~ department should afford a reasonable opportunity to each person entitled thereto to recover or receive without causing waste his or her fair and reasonable share of the oil and gas in this tract or tracts or its equivalent.

(20) "Royalty" means a right to or interest in oil or gas or the value from or attributable to production, other than the right or interest of a lessee, owner, or operator, as defined herein. Royalty includes, but is not limited to the basic royalty in a lease, overriding royalty, and production payments. Any such interest may be referred to in this chapter as "royalty" or "royalty interest." As used in this chapter "basic royalty" means the royalty reserved in a lease. "Royalty owner" means a person who owns a royalty interest.

(21) "Supervisor" means the state oil and gas supervisor.

(22) "Unitization" means the operation of all or part of a field or reservoir as a single entity for operating purposes.

(23) "Waste" in addition to its ordinary meaning, means and includes:

(a) "Physical waste" as that term is generally understood in the petroleum industry;

(b) The inefficient, excessive, or improper use of, or unnecessary dissipation of, reservoir energy, and the locating, spacing, drilling, equipping, operating, or producing of any oil or gas well in a manner which results or is probable to result in reducing the quantity of oil or gas to be recovered from any pool in this state under operations conducted in accordance with prudent and proper practices or that causes or tends to cause unnecessary wells to be drilled;

(c) The inefficient above-ground storage of oil, and the locating, spacing, drilling, equipping, operating, or producing of any oil or gas well in a manner causing or tending to cause unnecessary or excessive surface loss or destruction of oil or gas;

(d) The production of oil or gas in such manner as to cause unnecessary water channeling, or coning;

(f) The drowning with water of any pool or part thereof capable of producing oil or gas, except insofar as and to the extent authorized by the ~~((committee))~~ department;

(g) Underground waste;

(h) The creation of unnecessary fire hazards;

(i) The escape into the open air, from a well producing oil or gas, of gas in excess of the amount which is reasonably necessary in the efficient development or production of the well;

The ~~((committee shall have authority to))~~ department may make such reasonable rules, regulations, and orders as may be necessary from time to time for the proper administration and enforcement of this chapter. Unless otherwise required by law or by this chapter or by rules of procedure made under this chapter, the ~~((committee))~~ department may make such rules, regulations, and orders, after notice, as the basis therefor. The notice may be given by publication in some newspaper of general circulation in the state in a manner and form which may be prescribed by the ~~((committee))~~ department by general rule. The public hearing shall be at the time and in the manner and at the place prescribed by the ~~((committee))~~ department, and any person having any interest in the subject matter of the hearing shall be entitled to be heard. A copy of any rule, regulation, policy, order, or other official records of the ~~((committee))~~ department, certified by the ~~((executive secretary of the committee))~~ commissioner of public lands, shall be received in evidence in all courts of this state with the same effect as the original. The ~~((committee))~~ department is hereby required to furnish to any person upon request, copies of all rules, regulations, policies, orders, and amendments thereof.

Sec. 921. RCW 78.52.120 and 1983 c 253 s 11 are each amended to read as follows:

Any person desiring or proposing to drill any well in search of oil or gas, before commencing the drilling of any such well, shall apply to the ~~((committee))~~ department upon such form as the ~~((committee))~~ department may prescribe, and shall pay to the state treasurer a fee of the following amounts for each application:

- (2) From three thousand five hundred one feet to seven thousand feet, five hundred dollars;
- (3) From seven thousand one feet to twelve thousand feet, seven hundred fifty dollars; and
- (4) From twelve thousand one feet and deeper, one thousand dollars.

In addition, as pertains to the tract upon which the well is proposed to be located, the applicant must notify the surface landowner, the landowner's tenant, and other surface users in the manner provided by regulations of the ~~((committee))~~ department that a drilling permit has been applied for by furnishing each such surface landowner, tenant, and other users with a copy of the application concurrent with the filing of the application. Within fifteen days of receipt of the application, each such surface landowner, the landowner's tenant, and other surface users have the right to inform the ~~((committee))~~ department of objections or comments as to the proposed use of the surface by the applicant, and the ~~((committee))~~ department shall consider the objections or comments.

The drilling of any well is prohibited until a permit is given and such fee has been paid as ~~((herein))~~ provided in this section. The ~~((committee shall have the authority to))~~ department may prescribe that the said form indicate the exact location of such well, the name and address of the owner, operator, contractor, driller, and any other person responsible for the conduct of drilling operations, the proposed depth of the well, the elevation of the well above sea level, and such other relevant and reasonable information as the ~~((committee))~~ department may deem necessary or convenient to effectuate the purposes of this chapter.

The ~~((committee))~~ department shall issue a permit if it finds that the proposed drilling will be consistent with this chapter, the rules~~((,))~~ and orders adopted under it, and is not detrimental to the public interest. The ~~((committee))~~ department shall impose conditions and restrictions as necessary to protect the public interest and to ensure compliance with this chapter, and the rules and orders adopted by the ~~((committee))~~ department. A person shall not apply to drill a well in search of oil or gas unless that person holds an ownership or contractual right to locate and operate the drilling operations upon the proposed drilling site. A person shall not be issued a permit unless that person prima facie holds an ownership or contractual right to drill to the proposed depth, or proposed horizon. Proof of prima facie ownership shall be presented to the ~~((committee))~~ department.

Sec. 922. RCW 78.52.125 and 1971 ex.s. c 180 s 8 are each amended to read as follows:

Any person desiring or proposing to drill any well in search of oil or gas, when such drilling would be conducted through or under any surface waters of the state, shall prepare and submit an environmental impact statement upon such form as the department of ecology shall prescribe at least one hundred and twenty days prior to commencing the drilling of any such well. Within ninety days after receipt of such environmental statement the department of ecology shall prepare and submit to ~~((each member of the committee))~~ the department of natural resources a report examining the potential environmental impact of the proposed well and recommendations for ~~((committee))~~ department action thereon. If after consideration of the report the ~~((committee))~~ department determines that the proposed well is likely to have a substantial environmental impact the drilling permit for such well may be denied.

The ~~((committee))~~ department shall require sufficient safeguards to minimize the hazards of pollution of all surface and ground waters of the state. If safeguards acceptable to the ~~((committee))~~ department cannot be provided the drilling permit shall be denied.

Sec. 923. RCW 78.52.140 and 1951 c 146 s 16 are each amended to read as follows:

The use of gas from a well producing gas only, or from a well which is primarily a gas well, for the manufacture of carbon black or similar products predominantly carbon, is declared to constitute waste prima facie, and such gas well shall not be used for any such purpose unless it is clearly shown, at a public hearing to be held by the ~~((committee))~~ department, on application of the person desiring to use such gas, that waste would not take place by the use of such gas for the purpose or purposes applied for, and that gas which would otherwise be lost is not available for such purpose or purposes, and that the gas to be used cannot be used for a more beneficial purpose, such as for light or fuel purposes, except at prohibitive cost, and that it would be in the public interest to grant such permit. If the ~~((committee))~~ department finds that the applicant has clearly shown a right to use such gas for the purpose or purposes applied for, it shall issue a permit upon such terms and conditions as may be found necessary in order to permit the use of the gas, and at the same time require compliance with the intent of this section.

Sec. 924. RCW 78.52.150 and 1951 c 146 s 17 are each amended to read as follows:

The ~~((committee has authority, and it shall be its duty, to))~~ department shall make such investigations as it may deem proper to determine whether waste exists or is imminent or whether other facts exist which justify action by the ~~((committee))~~ department.

Sec. 925. RCW 78.52.155 and 1983 c 253 s 9 are each amended to read as follows:

- (1) The ~~((committee))~~ department shall make investigations as necessary to carry out this chapter.
- (2) The ~~((committee and the))~~ department~~((, consistent with the committee's policies,))~~ shall require:
 - (a) Identification of ownership of oil or gas wells, producing leases, tanks, plants, structures, and facilities for the transportation or refining of oil or gas;
 - (b) The making and filing of well logs, core samples, directional surveys, and reports on well locations, drilling, and production;
 - (c) The testing of oil and gas wells;
 - (d) The drilling, casing, operating, and plugging of wells in such a manner as to prevent the escape of oil or gas out of the casings, or out of one pool into another, the intrusion of water into an oil or gas pool, and the pollution of freshwater supplies by oil, gas, or saltwater and to prevent blowouts, cavings, seepages, and fires;
 - (e) The furnishing of adequate security acceptable to the department, conditioned on the performance of the duty to plug each dry or abandoned well, the duty to reclaim and clean-up well drilling sites, the duty to repair wells causing waste, the duty to comply with all applicable laws and rules adopted by the ~~((committee))~~ department, orders of the ~~((committee and the))~~ department, all permit conditions, and this chapter;
 - (f) The operation of wells with efficient gas-oil and water-oil ratios and may fix these ratios and limit production from wells with inefficient gas-oil or water-oil ratios;
 - (g) The production of oil and gas from wells be accurately measured by means and upon standards prescribed by the ~~((committee))~~ department, and that every person who produces, sells, purchases, acquires, stores, transports, treats, or processes oil or gas in this state keeps and maintains for a period of five years within this state complete and accurate records thereof, which records shall be available for examination by the ~~((committee))~~ department or its agents at all reasonable times, and that every person file with the ~~((committee))~~ department such reports as it may prescribe with respect to the oil or gas; and
 - (h) Compliance with all applicable laws and rules of this state.
- (3) The ~~((committee and the department, consistent with the committee's policies,))~~ department shall regulate:
 - (a) The drilling, producing, locating, spacing, and plugging of wells and all other operations for the production of oil or gas;
 - (b) The physical, mechanical, and chemical treatment of wells, and the perforation of wells;
 - (c) Operations to increase ultimate recovery such as cycling of gas, the maintenance of pressure, and the introduction of gas, water, or other substances into producing formations;
 - (d) Disposal of saltwater and oil field brines;
 - (e) The storage, processing, and treatment of natural gas and oil produced within this state; and
 - (f) Reclamation and clean-up of all well sites and any areas directly affected by the drilling, production, operation, and plugging of oil and gas wells.
- (4) The ~~((committee))~~ department may limit and prorate oil and gas produced in this state and may restrict future production of oil and gas from any pool in such amounts as will offset and compensate for any production determined by the ~~((committee))~~ department to be in excess of or in violation of "oil allowable" or "gas allowable."

(5) The ~~((committee))~~ department shall classify wells as oil or gas wells for purposes material to the interpretation or enforcement of this chapter.

(6) The ~~((committee and the department, consistent with the committee's policies,))~~ department shall regulate oil and gas exploration and drilling activities so as to prevent or remedy unreasonable or excessive waste or surface destruction.

Sec. 926. RCW 78.52.200 and 1983 c 253 s 12 are each amended to read as follows:

When necessary to prevent waste, to avoid the drilling of unnecessary wells, or to protect correlative rights including those of royalty owners, the ~~((committee))~~ department, upon its own motion or upon application of interested persons, shall establish development units covering any known pool. Development units shall be of uniform size and shape for the entire pool unless the ~~((committee))~~ department finds that it must make an exception due to geologic, geographic, or other factors. When necessary, the ~~((committee))~~ department may divide any pool into zones and establish development units for each zone, which units may differ in size and shape from those established in any other zone.

Sec. 927. RCW 78.52.205 and 1983 c 253 s 13 are each amended to read as follows:

Within sixty days after the discovery of oil or gas in a pool not then covered by an order of the ~~((committee))~~ department, a hearing shall be held and the ~~((committee))~~ department shall issue an order prescribing development units for the pool. If sufficient geological or other scientific data from drilling operations or other evidence is not available to determine the maximum area that can be efficiently and economically drained by one well, the ~~((committee))~~ department may establish temporary development units to ensure the orderly development of the pool pending availability of the necessary data. A temporary order shall continue in force for a period of not more than twenty-four months at the expiration of which time, or upon the petition of an affected person, the ~~((committee))~~ department shall require the presentation of such geological, scientific, drilling, or other evidence as will enable it to determine the proper development units in the pool. During the interim period between the discovery and the issuance of the temporary order, permits shall not be issued for the drilling of direct offsets to a discovery well.

Sec. 928. RCW 78.52.210 and 1983 c 253 s 14 are each amended to read as follows:

(1) The size and the shape of any development units shall be such as will result in the efficient and economical development of the pool as a whole, and the size shall not be smaller than the maximum area that can be efficiently and economically drained by one well as determined by competent geological, geophysical, engineering, drilling, or other scientific testimony, data, and evidence. The ~~((committee))~~ department shall fix a development unit of not more than one hundred sixty acres for any pool deemed by the ~~((committee))~~ department to be an oil reservoir, or of six hundred forty acres for any pool deemed by the ~~((committee))~~ department to be a gas reservoir, plus a ten percent tolerance in either case to allow for irregular sections. The ~~((committee))~~ department may, at its discretion, after notice and hearing, establish development units for oil and gas in variance of these limitations when competent geological, geophysical, engineering, drilling, or other scientific testimony, data, and evidence is presented and upon a finding that one well can efficiently and economically drain a larger or smaller area and is justified because of technical, economic, environmental, or safety considerations.

(2) The ~~((committee))~~ department may establish development units of different sizes or shapes for different parts of a pool or may grant exceptions to the size or shapes of any development unit or units. Where development units of different sizes or shapes exist in a pool, the ~~((committee))~~ department shall, if necessary, make such adjustments to the allowable production from the well or wells drilled thereon so that each operator in each development unit will have a reasonable opportunity to produce or receive his or her just and equitable share of the production.

Sec. 929. RCW 78.52.220 and 1983 c 253 s 15 are each amended to read as follows:

An order establishing development units for a pool shall specify the size and shape of each area and the location of the permitted well thereon in accordance with a reasonable uniform spacing plan. Upon application and after notice and a hearing, if the ~~((committee))~~ department finds that a well drilled at the prescribed location would not produce in paying quantities, or that surface conditions would substantially add to the burden or hazard of drilling such well, the ~~((committee is authorized to))~~ department may enter an order permitting the well to be drilled pursuant to permit at a location other than that prescribed by such development order; however, the ~~((committee))~~ department shall include in the order suitable provisions to prevent the production from the development unit of more than its just and equitable share of the oil and gas in the pool.

Sec. 930. RCW 78.52.230 and 1983 c 253 s 16 are each amended to read as follows:

An order establishing development units for a pool shall cover all lands determined or believed to be underlaid by such pool, and may be modified by the ~~((committee))~~ department from time to time to include additional areas determined to be underlaid by such pool. When the ~~((committee))~~ department determines that it is necessary for the prevention of waste, or to avoid the drilling of unnecessary wells, or to protect correlative rights, an order establishing development units in a pool may be modified by the ~~((committee))~~ department to increase or decrease the size of development units in the pool or to permit the drilling of additional wells on a reasonably uniform plan in the pool.

Sec. 931. RCW 78.52.240 and 1983 c 253 s 17 are each amended to read as follows:

When two or more separately-owned tracts are embraced within a development unit, or when there are separately owned interests in all or a part of the development unit, then the owners and lessees thereof may pool their interests for the development and operation of the development unit. In the absence of this voluntary pooling, the ~~((committee))~~ department, upon the application of any interested person, shall enter an order pooling all interests, including royalty interests, in the development unit for the development and operation thereof. Each such pooling order shall be made after notice and hearing. The applicant or applicants shall have the burden of proving that all reasonable efforts have been made to obtain the consent of, or to reach agreement with, other owners.

Sec. 932. RCW 78.52.245 and 1983 c 253 s 18 are each amended to read as follows:

A pooling order shall be upon terms and conditions that are fair and reasonable and that afford to each owner and royalty owner his or her fair and reasonable share of production. Production shall be allocated as follows:

(1) For the purpose of determining the portions of production owned by the persons owning interests in the pooled unit, the production shall be allocated to the respective tracts within the unit in the proportion that the surface acres in each tract bear to the number of surface acres included in the entire unit.

(2) Notwithstanding subsection (1) of this section, if the ((committee)) department finds that allocation on a surface acreage basis does not allocate to each tract its fair share, the ((committee)) department shall allocate the production so that each tract will receive its fair share.

Sec. 933. RCW 78.52.250 and 1983 c 253 s 19 are each amended to read as follows:

(1) Each such pooling order shall make provision for the drilling and operation of a well on the development unit, and for the payment of the reasonable actual cost thereof by the owners of interests required to pay such costs in the development unit, plus a reasonable charge for supervision and storage facilities. Costs associated with production from the pooled unit shall be allocated in the same manner as is production in RCW 78.52.245. In the event of any dispute as to such costs the ((committee)) department shall determine the proper costs.

(2) As to each owner who fails or refuses to agree to bear his or her proportionate share of the costs of the drilling and operation of the well, the order shall provide for reimbursement of those persons paying for the drilling and operation of the well of the nonconsenting owner's share of the costs from, and only from, production from the unit representing that person's interest, excluding royalty or other interests not obligated to pay any part of the cost thereof. The ((committee)) department may provide that the consenting owners shall own and be entitled to receive all production from the well after payment of the royalty as provided in the lease, if any, applicable to each tract or interest, and obligations payable from production, until the consenting owners have been paid the amount due under the terms of the pooling order or order settling any dispute.

The order shall determine the interest of each owner in the unit and shall provide that each consenting owner is entitled to receive, subject to royalty or similar obligations, the share of the production of the well applicable to the owner's interest in the unit, and, unless the owner has agreed otherwise, his or her proportionate part of the nonconsenting owner's share of the production until costs are recovered as provided in this subsection. Each nonconsenting owner is entitled to receive, subject to royalty or similar obligations, the share of production from the well applicable to the owner's interest in the unit after the consenting owners have recovered from the nonconsenting owner's share of production the following:

(a) In respect to every such well, one hundred percent of the nonconsenting owner's share of the cost of surface equipment beyond the wellhead connections, including but not limited to, stock tanks, separators, treaters, pumping equipment, and piping, plus one hundred percent of the nonconsenting owner's share of the cost of operation of the well, commencing with first production and continuing until the consenting owners have recovered these costs, with the intent that the nonconsenting owner's share of these costs and equipment will be that interest which would have been chargeable to the nonconsenting owner had he or she initially agreed to pay his or her share of the costs of the well from the beginning of the operation;

(b) One hundred fifty percent of that portion of the costs and expenses of staking the location, well site preparation, rights of way, rigging-up, drilling, reworking, deepening or plugging back, testing, and completing, after deducting any cash contributions received by the consenting owners, and also one hundred fifty percent of that portion of the cost of equipment in the well, up to and including the wellhead connections; and

(c) If there is a dispute regarding the costs, the ((committee)) department shall determine the proper costs and their allocation among working interest owners after due notice to interested parties and a hearing on the costs.

(3) The operator of a well under a pooling order in which there are nonconsenting owners shall furnish the nonconsenting owners with monthly statements of all costs incurred, together with the quantity of oil or gas produced, and the amount of proceeds realized from the sale of this production during the preceding month. If and when the consenting owners recover from a nonconsenting owner's relinquished interest the amounts provided for in subsection (2) of this section, the relinquished interest of the nonconsenting owner shall automatically revert to him or her, and the nonconsenting owner shall own the same interest in the well and the production from it and be liable for the further costs of the operation as if he or she had participated in the initial drilling and operation.

(4) A nonconsenting owner of a tract in a development unit which is not subject to any lease or other contract for the development thereof for oil and gas shall elect within fifteen days of the issuance of the pooling order or such further time as the ((committee)) department shall, in the order, allow:

(a) To be treated as a nonconsenting owner as provided in subsections (2) and (3) of this section and is deemed to have a basic landowners' royalty of one-eighth, or twelve and one-half percent, of the production allocated to the tract, unless a higher basic royalty has been established in the development unit. If a higher royalty has been established, then the nonconsenting owner of a nonleased tract shall receive the higher basic royalty. This presumed royalty shall exist only during the time that costs and expenses are being recovered under subsection (2) of this section, and is intended to assure that the owner of a nonleased tract receive a basic royalty free of all costs at all times. Notwithstanding anything herein to the contrary, the owner shall at all times retain his or her entire ownership of the property, including the right to execute an oil and gas lease on any terms negotiated, and be entitled to all production subject to subsection (2) of this section; or

(b) To grant a lease to the operator at the current fair market value for that interest for comparable leases or interests at the time of the commencement of drilling; or

(c) To pay his or her pro rata share of the costs of the well or wells in the development unit and receive his or her pro rata share of production, if any.

A nonconsenting owner who does not make an election as provided in this subsection is deemed to have elected to be treated under (a) of this subsection.

Sec. 934. RCW 78.52.257 and 1983 c 253 s 22 are each amended to read as follows:

(1) An order pooling a development unit shall automatically dissolve:

(a) One year after its effective date if there has been no production of commercial quantities or drilling operations on lands within the unit;

(b) Six months after completion of a dry hole on the unit; or

(c) Six months after cessation of production of commercial quantities from the unit, unless, prior to the expiration of such six-month period, the operator shall, in good faith, commence drilling or reworking operations in an effort to restore production.

(2) Upon the termination of a lease pooled by order of the ~~((committee))~~ department under authority granted in this chapter, interests covered by the lease are considered pooled as unleased mineral interests.

(3) Any party to a pooling order is entitled, after due notice to all parties, to a hearing to modify or terminate a previously entered pooling order upon presenting new evidence showing that the previous determination of reservoir conclusions are substantially incorrect.

(4) The ~~((committee, in its discretion))~~ department, after notice and hearing, may grant additional time, for good cause shown, before a pooling order is automatically dissolved as provided in subsection (1) of this section. In no case may such an extension be longer than six months.

Sec. 935. RCW 78.52.260 and 1951 c 146 s 28 are each amended to read as follows:

Whenever the ~~((committee shall))~~ department requires the making and filing of well logs, directional surveys, or reports on the drilling of, subsurface conditions found in, or reports with respect to the substance produced, or capable of being produced from, a "wildcat" or "exploratory" well, as those terms are used in the petroleum industry, such logs, surveys, reports, or information shall be kept confidential by the ~~((committee))~~ department for a period of one year, if at the time of filing such logs, surveys, reports, or other information, the owner, lessee, or operator of such well requests that such information be kept confidential: PROVIDED, HOWEVER, That the ~~((committee shall have the right to))~~ department may divulge or use such information in a public hearing or suit when it is necessary for the enforcement of the provisions of this chapter or any rule, regulation, or order made hereunder.

Sec. 936. RCW 78.52.270 and 1951 c 146 s 29 are each amended to read as follows:

Whenever the total amount of oil which all of the pools in this state can currently produce in accordance with good operating practices, exceeds the amount reasonably required to meet the reasonable market demand, the ~~((committee))~~ department shall limit the oil which may be currently produced in this state to an amount, designated the "oil allowable~~((")~~). The ~~((committee))~~ department shall then prorate this "oil allowable" among the pools on a reasonable basis, avoiding undue discrimination among the pools, and so that waste will be prevented. In determining the "oil allowable~~((")~~," and in prorating such "oil allowable" among the pools in the state, the ~~((committee))~~ department shall take into account the producing conditions and other relevant facts with respect to such pools, including the separate needs for oil and gas, and separate needs for oil of particular kinds or qualities, and shall formulate rules setting forth standards or a program for the determination of the "oil allowable~~((")~~," and shall prorate the "oil allowable" in accordance with such standards or program, and where conditions in one pool or area are substantially similar to those in another pool or area, then the same standards or program shall be applied to such pools or areas so that as far as practicable a uniform program will be followed: PROVIDED, HOWEVER, That if the amount prorated to a pool as its share of the "oil allowable" is in excess of the amount which the pool can efficiently produce currently, then the ~~((committee))~~ department shall prorate to such pool the maximum amount which can be efficiently produced currently without waste.

Sec. 937. RCW 78.52.280 and 1951 c 146 s 30 are each amended to read as follows:

The ~~((committee))~~ department shall not be required to determine the reasonable market demand applicable to any single pool of oil except in relation to all pools producing oil of similar kind and quality and in relation to the reasonable market demand. The ~~((committee))~~ department shall prorate the "allowable" in such manner as will prevent undue discrimination against any pool or area in favor of another or others resulting from selective buying or nomination by purchasers.

Sec. 938. RCW 78.52.290 and 1951 c 146 s 31 are each amended to read as follows:

Whenever the total amount of gas which all of the pools in this state can currently produce in accordance with good operating practice exceeds the amount reasonably required to meet the reasonable market demand, the ~~((committee))~~ department shall limit the gas which may be currently produced to an amount, designated as the "gas allowable~~((")~~," which will not exceed the reasonable market demand for gas. The ~~((committee))~~ department shall then prorate the "gas allowable" among the pools on a reasonable basis, avoiding undue discrimination among the pools, and so that waste will be prevented, giving due consideration to location of pipe lines, cost of interconnecting such pipe lines, and other pertinent factors, and insofar as applicable, the provisions of RCW 78.52.270 shall be followed in determining the "gas allowable" and in prorating such "gas allowable" among the pools therein: PROVIDED, HOWEVER, That in determining the reasonable market demand for gas as between pools, the ~~((committee))~~ department shall give due regard to the fact that gas produced from oil pools is to be regulated in a manner which will protect the reasonable use of gas energy for oil production and promote the most or maximum efficient recovery of oil from such pools.

Sec. 939. RCW 78.52.300 and 1951 c 146 s 32 are each amended to read as follows:

Whenever the total amount of gas which may be currently produced from all of the pools in this state has not been limited as hereinabove provided, and the available production from any one pool containing gas only is in excess of the reasonable market demand or available transportation

facilities for gas from such pool, the ~~((committee))~~ department shall limit the production of gas from such pool to that amount which does not exceed the reasonable market demand or transportation facilities for gas from such pool.

Sec. 940. RCW 78.52.310 and 1951 c 146 s 33 are each amended to read as follows:

Whenever the ~~((committee))~~ department limits the total amount of oil or gas which may be produced from any pool to an amount less than that which the pool could produce if no restrictions were imposed (whether incidental to, or without, a limitation of the total amount of oil which may be produced in the state) the ~~((committee))~~ department shall prorate the allowable production for the pool among the producers in the pool on a reasonable basis, so that each producer will have opportunity to produce or receive his or her just and equitable share, subject to the reasonable necessities for the prevention of waste, giving where reasonable, under the circumstances, to each pool with small wells of settled production, allowable production which prevents the premature abandonment of wells in the pool.

All orders establishing the "oil allowable" and "gas allowable" for this state, and all orders prorating such allowables as herein provided, and any changes thereof, for any month or period shall be issued by the ~~((committee))~~ department on or before the fifteenth day of the month preceding the month for which such orders are to be effective, and such orders shall be immediately published in some newspaper of general circulation printed in Olympia, Washington. No orders establishing such allowables, or prorating such allowables, or any changes thereof, shall be issued without first having a hearing, after notice, as provided in this chapter: PROVIDED, HOWEVER, When in the judgment of the ~~((committee))~~ department, an emergency requiring immediate action is found to exist, the ~~((committee is authorized to))~~ department may issue an emergency order under this section which shall have the same effect and validity as if a hearing with respect to the same had been held after due notice. The emergency order permitted by this ~~((subsection))~~ section shall remain in force no longer than thirty days, and in any event it shall expire when the order made after due notice and hearing with respect to the subject matter of the emergency order becomes effective.

Sec. 941. RCW 78.52.320 and 1951 c 146 s 34 are each amended to read as follows:

Whenever the production of oil or gas in this state or any pool therein is limited and the "oil allowable" or "gas allowable" is established and prorated by the ~~((committee))~~ department as provided in RCW 78.52.310, no person shall thereafter produce from any well, pool, lease, or property more than the production which is prorated thereto.

Sec. 942. RCW 78.52.330 and 1951 c 146 s 35 are each amended to read as follows:

To assist in the development of oil and gas in this state and to further the purposes of this chapter, the persons owning interests in separate tracts of land, may validly agree to integrate their interests and manage, operate, and develop their land as a unit, subject to the approval of the ~~((committee))~~ department.

Sec. 943. RCW 78.52.335 and 1983 c 253 s 23 are each amended to read as follows:

(1) The ~~((committee))~~ department shall upon the application of any interested person, or upon its own motion, hold a hearing to consider the need for the operation as a unit of one or more pools or parts of them in a field.

(2) The ~~((committee shall have the authority to))~~ department may enter an order providing for the unit operations if ~~((the committee))~~ it finds that:

(a) The unit operations are necessary for secondary recovery or enhanced recovery purposes. For purposes of this chapter secondary or enhanced recovery means that oil or gas or both are recovered by any method, artificial flowing or pumping, that may be employed to produce oil or gas, or both, through the joint use of two or more wells with an application of energy extrinsic to the pool or pools. This includes pressuring, cycling, pressure maintenance, or injections into the pool or pools of a substance or form of energy: PROVIDED, That this does not include the injection in a well of a substance or form of energy for the sole purpose of (i) aiding in the lifting of fluids in the well, or (ii) stimulation of the reservoir at or near the well by mechanical, chemical, thermal, or explosive means;

(b) The unit operations will protect correlative rights;

(c) The operations will increase the ultimate recovery of oil or gas, or will prevent waste, or will prevent the drilling of unnecessary wells;

and

(d) The value of the estimated additional recovery of oil and/or gas exceeds the estimated additional cost incident to conducting these operations.

(3) The ~~((committee shall also have the authority to))~~ department may also enter an order providing for unit operations, after notice and hearing, only if the ~~((committee))~~ department finds that there is clear and convincing evidence that all of the following conditions are met:

(a) In the absence of unitization, the ultimate recovery of oil or gas, or both, will be substantially decreased because normal production techniques and methods are not feasible and will not result in the maximum efficient and economic recovery of oil or gas, or both;

(b) The unit operations will protect correlative rights;

(c) The unit operations will prevent waste, or will prevent the drilling of unnecessary wells;

(d) There has been a discovery of a commercial oil or gas field; and

(e) There has been sufficient exploration, drilling activity, and development to properly define the one or more pools or parts of them in a field proposed to be unitized.

(4) Notwithstanding any of the above, nothing in this chapter may be construed to prevent the voluntary agreement of all interested persons to any plan of unit operations. The ~~((committee))~~ department shall approve operations upon making a finding consistent with subsection(s) (2) (b) and (c) of this section.

- (5) The order shall be upon terms and conditions that are fair and reasonable and shall prescribe a plan for unit operations that includes:
- (a) A description of the pool or pools or parts thereof to be so operated, termed the unitized area;
 - (b) A statement of the nature of the operations contemplated;
 - (c) An allocation of production and costs to the separately-owned tracts in the unitized area. The allocation shall be in accord with the agreement, if any, of the interested parties. If there is no agreement, production shall be allocated in a manner calculated to ensure that each owner's correlative rights are protected, and each separately-owned tract or combination of tracts receives its fair and reasonable share of production. Costs shall be allocated on a fair and reasonable basis;
 - (d) A provision, if necessary, prescribing fair, reasonable, and equitable terms and conditions as to time and rate of interest for carrying or otherwise financing any person who is unable to promptly meet his or her financial obligations in connection with the unit, such carrying and interest charges to be paid as provided by the ~~((committee))~~ department from the person's prorated share of production;
 - (e) A provision for the supervision and conduct of the unit operations, in respect to which each owner shall have a vote with a value corresponding to the percentage of the costs of unit operations chargeable against the owner's interest;
 - (f) The time when the unit operations shall commence, the timetable for development, and the manner and circumstances under which the unit operations shall terminate; and
 - (g) Additional provisions which are found to be appropriate for carrying out the unit operations and for the protection of correlative rights.
- (6) No order of the ~~((committee))~~ department providing for unit operations may become effective until:
- (a) The plan for unit operations approved by the ~~((committee))~~ department has been approved in writing by those persons who, under the ~~((committee's))~~ department's order, will be required to pay at least seventy-five percent of the costs of unit operations;
 - (b) The plan has been approved in writing by those persons such as royalty owners, overriding royalty owners, and production payment owners, who own at least seventy-five percent of the production or proceeds thereof that will be credited to interests that are free of costs; and
 - (c) The ~~((committee))~~ department has made a finding, either in the order providing for unit operations or in a supplemental order, that the plan for unit operations has been so approved. If the plan for unit operations has not been so approved at the time the order providing for unit operations is made, the ~~((committee))~~ department shall upon application and notice hold such supplemental hearings as may be required to determine if and when the plan for unit operations has been so approved. If the persons owning required percentages of interest in the unitized area do not approve the plan for unit operations within a period of six months from the date on which the order providing for unit operations is made, or within such additional period or periods of time as the ~~((committee))~~ department prescribes, the order will become unenforceable and shall be vacated by the ~~((committee))~~ department.
- (7) An order providing for unit operations may be amended by an order made by the ~~((committee))~~ department in the same manner and subject to the same conditions as an original order, except as provided in subsection (8) of this section, providing for unit operations, but (a) if such an amendment affects only the rights and interests of the owners, the approval of the amendment by those persons who own interests that are free of costs is not required, and (b) no such amending order may change the percentage for the allocation of oil and gas as established for any separately-owned tract or combination of tracts by the original order, except with the consent of all persons owning oil and gas rights in the tract, and no such order may change the percentage for the allocation of cost as established for any separately-owned tract or combination of tracts by the original order, except with the consent of all persons owning an interest in the tract or combination of tracts. An amendment that provides for the expansion of the unit area shall comply with subsection (8) of this section.
- (8) The ~~((committee))~~ department, by order, may provide for the unit operation of a reservoir or reservoirs or parts thereof that include a unitized area established by a previous order of the ~~((committee))~~ department. The order, in providing for the allocation of unit production, shall first treat the unitized area previously established as a single tract and the portion of the new unit production allocated thereto shall then be allocated among the separately-owned tracts included in the previously established unit area in the same proportions as those specified in the previous order.
- (9) After the date designated by the ~~((committee))~~ department the unit plan shall be effective, oil and gas leases within the unit area, or other contracts pertaining to the development thereof, shall be changed only to the extent necessary to meet the requirements of the unit plan, and otherwise shall remain in full force. Operations carried on under and in accordance with the unit plan shall be regarded and considered as fulfillment of and compliance with all of the provisions, covenants, and conditions, expressed or implied, of the several oil and gas leases upon lands within the unit area, or other contracts pertaining to the development thereof, insofar as the leases or other contracts may relate to the pool or field subject to the unit plan. The amount of production apportioned and allocated under the unit plan to each separately-owned tract within the unit area, and only that amount, regardless of the location of the well within the unit area from which it may be produced, and regardless of whether it is more or less than the amount of production from the well, if any, on each separately-owned tract, shall for all purposes be regarded as production from the separately-owned tract. Lessees shall not be obligated to pay royalties or make other payments, required by the oil and gas leases or other contracts affecting each such separately-owned tract, on production in excess of that amount apportioned and allocated to the separately-owned tract under the unit plan.
- (10) The portion of the unit production allocated to any tract and the proceeds from its sale are the property and income of the several persons to whom, or to whose credit, the portion and proceeds are allocated or payable under the order providing for unit operations.
- (11) No division order or other contract relating to the sale, purchase, or production from a separately-owned tract or combination of tracts may be terminated by the order providing for unit operations but shall remain in force and shall apply to oil and gas allocated to the tract until terminated by an amended division order or contract in accordance with the order.

(12) Except to the extent that parties affected so agree, an order providing for unit operations shall not be construed to result in a transfer of all or any part of the title of any person to the oil and gas rights in any tract in the unit area. All property, whether real or personal, that may be acquired in the conduct of unit operations hereunder shall be acquired for the account of the owners within the unit area, and shall be the property of those owners in the proportion that the expenses of unit operations are charged.

(13) After the date designated by the order of the ((committee)) department that a unit plan shall become effective, the designation of one or more unit operators shall be by vote of the lessees of land in the unit area, in a manner to be provided in the unit plan, and any operations in conflict with such unit plan shall be unlawful and are prohibited.

(14) A certified copy of any order of the ((committee)) department entered under this section is entitled to be recorded in the auditor's office in the county or counties wherein all or any portion of the unit area is located and, if recorded, constitute notice thereof to all persons. A copy of this order shall be mailed by certified mail to all interested persons.

(15) No order for unitization may be construed to allow the drilling of a well on a tract within the unit which is not leased or under contract for oil and gas exploration or production.

Sec. 944. RCW 78.52.365 and 1983 c 253 s 26 are each amended to read as follows:

The ((committee)) department may administer and enforce RCW 78.52.345 and 78.52.355 in accordance with the procedures in this chapter for its enforcement and with the rules and orders of the ((committee)) department.

Sec. 945. RCW 78.52.460 and 1951 c 146 s 49 are each amended to read as follows:

No plan for the operation of a field or pool of oil or gas as a unit, either whole or in part, created or approved by the ((committee hereunder shall)) department under this chapter may be held to violate any of the statutes of this state prohibiting monopolies or acts, arrangements, agreements, contracts, combinations, or conspiracies in restraint of trade or commerce.

Sec. 946. RCW 78.52.463 and 1989 c 175 s 167 are each amended to read as follows:

(1) Any operation or activity that is in violation of applicable laws, rules, orders, or permit conditions is subject to suspension by order of the ((committee)) department. The order may suspend the operations authorized in the permit in whole or in part. The order may be issued only after the ((committee)) department has first notified the operator or owner of the violations and the operator or owner has failed to comply with the directions contained in the notification within ten days of service of the notice: PROVIDED, That the ((committee)) department may issue the suspension order immediately without notice if the violations are or may cause substantial harm to adjacent property, persons, or public resources, or has or may result in the pollution of waters in violation of any state or federal law or rule. A suspension shall remain in effect until the violations are corrected or other directives are complied with unless declared invalid by the ((committee)) department after hearing or an appeal. The suspension order and notification, where applicable, shall specify the violations and the actions required to be undertaken to be in compliance with such laws, rules, orders, or permit conditions. The order and notification may also require remedial actions to be undertaken to restore, prevent, or correct activities or conditions which have resulted from the violations. The order and notification may be directed to the operator or owner or both.

(2) The suspension order constitutes a final and binding order unless the owner or operator to whom the order is directed requests a hearing before the ((committee)) department within fifteen days after service of the order. Such a request shall not in itself stay or suspend the order and the operator or owner shall comply with the order immediately upon service. The ((committee or its chairman have the authority to)) department may stay or suspend in whole or in part the suspension order pending a hearing if so requested. The hearing shall constitute an adjudicative proceeding under chapter 34.05 RCW, the Administrative Procedure Act.

Sec. 947. RCW 78.52.467 and 1983 c 253 s 30 are each amended to read as follows:

(1) The sale, purchase, acquisition, transportation, refining, processing, or handling of illegal oil, gas, or product is prohibited. However, no penalty by way of fine may be imposed upon a person who sells, purchases, acquires, transports, refines, processes, or handles illegal oil, gas, or product unless (a) the person knows, or is put on notice of, facts indicating that illegal oil, illegal gas, or illegal product is involved, or (b) the person fails to obtain a certificate of clearance with respect to the oil, gas, or product if prescribed by rule or order of the ((committee)) department, or fails to follow any other method prescribed by an order of the ((committee)) department for the identification of the oil, gas, or product.

(2) Illegal oil, illegal gas, and illegal product are declared to be contraband and are subject to seizure and sale as provided in this section. Seizure and sale shall be in addition to all other remedies and penalties provided in this chapter for violations relating to illegal oil, illegal gas, or illegal product. If the ((committee)) department believes that any oil, gas, or product is illegal, the ((committee)) department acting through the attorney general, shall bring a civil action in rem in the superior court of the county in which the oil, gas, or product is found, to seize and sell the same, or the ((committee)) department may include such an action in rem in any suit brought for an injunction or penalty involving illegal oil, illegal gas, or illegal product. A person claiming an interest in oil, gas, or product affected by an action in rem has the right to intervene as an interested party.

(3) Actions for the seizure and sale of illegal oil, illegal gas, or illegal product shall be strictly in rem and shall proceed in the name of the state as plaintiff against the oil, gas, or product as defendant. No bond or similar undertaking may be required of the plaintiff. Upon the filing of the petition for seizure and sale, the clerk of the court shall issue a summons, with a copy of the petition attached thereto, directed to the sheriff of the county or to another officer or person whom the court may designate, for service upon all persons having or claiming any interest in the oil, gas, or product described in the petition. The summons shall command these persons to appear and answer within twenty days after the issuance and service of the summons. These persons need not be named or otherwise identified in the summons, and the summons shall be served by posting a copy of the summons, with a copy of the petition attached, on any public bulletin board or at the courthouse of a county where the oil, gas, or product involved

is located, and by posting another copy at or near the place where the oil, gas, or product is located. The posting constitutes notice of the action to all persons having or claiming any interest in the oil, gas, or product described in the petition. In addition, if the court, on a properly verified petition, or affidavit or affidavits, or oral testimony, finds that grounds for seizure and for sale exist, the court shall issue an immediate order of seizure, describing the oil, gas, or product to be seized, and directing the sheriff of the county to take the oil, gas, or product into the sheriff's actual or constructive custody and to hold the same subject to further orders of the court. The court, in the order of seizure, may direct the sheriff to deliver the oil, gas, or product seized by him or her under the order to a court-appointed agent. The agent shall give bond in an amount and with such surety as the court may direct, conditioned upon compliance with the orders of the court concerning the custody and disposition of the oil, gas, or product.

(4) Any person having an interest in oil, gas, or product described in order of seizure and contesting the right of the state to seize and sell the oil, gas, or product may obtain its release prior to sale upon furnishing to the sheriff a bond approved by the court. The bond shall be in an amount equal to one hundred fifty percent of the market value of the oil, gas, or product to be released and shall be conditioned upon either redelivery to the sheriff of the released commodity or payment to the sheriff of its market value, if and when ordered by the court, and upon full compliance with further orders of the court.

By July 1, 1991, the department, in consultation with the departments of fisheries, wildlife, and natural resources, and the parks and recreation commission, shall adopt rules establishing a compensation schedule for the discharge of oil in violation of this chapter and chapter 90.56 RCW. ~~((The department shall establish a scientific advisory board to assist in establishing the compensation schedule.))~~ The amount of compensation assessed under this schedule shall be no less than one dollar per gallon of oil spilled and no greater than fifty dollars per gallon of oil spilled. The compensation schedule shall reflect adequate compensation for unquantifiable damages or for damages not quantifiable at reasonable cost for any adverse environmental, recreational, aesthetic, or other effects caused by the spill and shall take into account:

(1) Characteristics of any oil spilled, such as toxicity, dispersibility, solubility, and persistence, that may affect the severity of the effects on the receiving environment, living organisms, and recreational and aesthetic resources;

(2) The sensitivity of the affected area as determined by such factors as: (a) The location of the spill; (b) habitat and living resource sensitivity; (c) seasonal distribution or sensitivity of living resources; (d) areas of recreational use or aesthetic importance; (e) the proximity of the spill to important habitats for birds, aquatic mammals, fish, or to species listed as threatened or endangered under state or federal law; (f) significant archaeological resources as determined by the office of archaeology and historic preservation; and (g) other areas of special ecological or recreational importance, as determined by the department. If the department has adopted rules for a compensation table prior to July 1, 1992, the sensitivity of significant archaeological resources shall only be included among factors to be used in the compensation table when the department revises the rules for the compensation table after July 1, 1992; and

(3) Actions taken by the party who spilled oil or any party liable for the spill that: (a) Demonstrate a recognition and affirmative acceptance of responsibility for the spill, such as the immediate removal of oil and the amount of oil removed from the environment; or (b) enhance or impede the detection of the spill, the determination of the quantity of oil spilled, or the extent of damage, including the unauthorized removal of evidence such as injured fish or wildlife.

Sec. 956. RCW 90.54.190 and 1989 c 348 s 11 are each amended to read as follows:

(2) Prior to conducting conservation assessments and developing conservation plans, the department of ecology shall secure technical and financial assistance from the bureau of reclamation to reduce the costs to the state to the extent possible.

(3) A "conservation assessment" as described in this section shall be conducted before a demonstration project to increase the efficiency of irrigated agriculture is undertaken for an irrigated area, a basin, subbasin, or stream. The conservation assessment should:

- (a) Evaluate existing patterns, including current reuse of return flows, and priorities of water use;
- (b) Assess conflicting needs for future water allocations and claims to reserved rights;
- (c) Evaluate hydrologic characteristics of surface and ground water including return flow characteristics;
- (d) Assess alternative efficiency measures;
- (e) Determine the likely net water savings of efficiency improvements including the amount and timing of water that would be saved and potential benefits and impacts to other water uses and resources including effects on artificial recharge of ground water and wetland impacts;
- (f) Evaluate the full range of costs and benefits that would accrue from various measures; and
- (g) Evaluate the potential for integrating conservation efforts with operation of existing or potential storage facilities.

(4) The conservation assessment shall be used as the basis for development of a demonstration conservation plan to rank conservation elements based on relative costs, benefits, and impacts. It shall also estimate the costs of implementing the plan and propose a specific basis for cost share distributions.

The demonstration conservation plan shall be developed jointly by the department and a conservation plan formulation committee consisting of representatives of a cross-section of affected local water users, members of the public, and tribal governments. Other public agencies with expertise in water resource management may participate as nonvoting committee members. A proposed demonstration conservation plan may be approved by the department and the committee only after public comment has been received.
