November 10, 1993

The Honorable Mike Lowry

Dear Governor Lowry:

Please accept this letter as my resignation, effective November 11, 1993, from the office of Washington State Senator, 8th District. This action is prompted by your appointing me to serve as Director of the Washington State Department of Agriculture.

Although I will greatly miss representing the 8th District, my home since birth, I am pleased that I will continue to serve my local citizens and the citizens of Washington State in a public facet. In both the House and Senate, I strived to aggressively represent the interests of 8th District constituents. Therefore, I would like to take this opportunity to thank them for their support since November 1986.

I believe that public service is "the highest calling," and I am honored to be chosen to serve Washington State citizens in my new position. However, I will forever value my experience as both State Representative and State Senator. I will never forget the friends, both at home and in Olympia that I met through this process.

Very truly yours,
JIM JESERNIG
State Senator

MESSAGE FROM THE SECRETARY OF STATE

The Honorable President of the Senate
The Legislature of the State of Washington
Olympia, Washington

Mr. President:

We respectfully transmit for your consideration the following bill which was vetoed by the Governor, together with the official veto message of the Governor setting forth his objections to the bill as required by Article III, section 12, of the Washington State Constitution:

Senate Bill No. 5300.

(Seal) RALPH MUNRO,

Secretary of State

MESSAGE FROM THE GOVERNOR VETO MESSAGE ON SENATE BILL NO. 5300

May 18, 1993

To the Honorable President and Members,
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval Senate Bill No. 5300 entitled:

"AN ACT Relating to economic development;"

I am a strong supporter of collaboration in policy-making in economic development as in other areas. I agree with the Legislature that economic development policy can benefit from closer collaboration between the state and the private sector, between independent officials and panels, and between the executive and legislative branches. A strong economy is in everyone's interest, and collaborative efforts to achieve it are worthwhile.

However, the coming year will present difficult management challenges for state economic development efforts. The departments of Trade and Economic Development and Community Development will be working together to establish a new

Department of Community, Trade, and Economic Development, working with a wide range of affected parties. The budget reductions in both departments will also be quite demanding, and the budget contains no specific funding to support this bill. As a result, the process proposed in this legislation could not be undertaken in an effective manner this year.

In addition, while efforts to encourage collaboration between the Legislature and the Governor, and between the public and private sector are valuable, the process envisioned in this legislation is overly complex and would be difficult to operate effectively.

For these reasons, I have vetoed Senate Bill No. 5300 in its entirety.

Respectfully submitted,
MIKE LOWRY, Governor

MESSAGE FROM THE GOVERNOR PARTIAL VETO MESSAGE ON ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5304

May 17, 1993

To the Honorable President and Members,
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 424, Engrossed Second Substitute Senate Bill No. 5304, entitled:

"AN ACT Relating to health care."

Engrossed Second Substitute Senate Bill No. 5304, adopts the Washington Health Services Act. Through this bill the legislature has given the people of Washington major health care reform. This bill will provide access to all residents of the state and will begin to control the spiraling costs of our health care system.

Section 424 of Engrossed Second Substitute Senate Bill No. 5304 changes the measurement and apportionment of damages in court actions for injuries resulting from health care by holding a defendant against whom judgment has been entered responsible for the fault of entities already released by a claimant. This section, along with the other liability reforms such as malpractice review and mandatory mediation contained in Part IV C. of the bill, is intended to encourage settlements and reduce litigation costs in medical malpractice cases. While I share in the legislature's goal of reduced malpractice litigation, I question whether this language as written will achieve the desired result.

For this reason, I have vetoed section 424 of Engrossed Second Substitute Senate Bill No. 5304.

With the exception of section 424, Engrossed Second Substitute Senate Bill No. 5304 is approved.

Respectfully submitted,
MIKE LOWRY, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO MESSAGE ON ENGROSSED SUBSTITUTE SENATE BILL NO. 5307

May 15, 1993

To the Honorable President and Members
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 4, Engrossed Substitute Senate Bill No. 5307 entitled:

"AN ACT Relating to student safety and discipline"

Section 4 of Engrossed Substitute Senate Bill No. 5307 adds probable cause arrest authority for officers believing an individual illegally possesses or has illegally possessed a firearm or other dangerous weapon on school premises.

Section 4 of Engrossed Substitute Senate Bill No. 5307 is identical to Senate Bill No. 5107 which I have already signed.

For this reason, I have vetoed section 4 of Engrossed Substitute Senate Bill No. 5307.

With the exception of section 4, Engrossed Substitute Senate Bill No. 5307 is approved.

Respectfully submitted,
MIKE LOWRY, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO MESSAGE ON SUBSTITUTE SENATE BILL NO. 5337

May 6, 1993

To the Honorable President and Members,
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 6, Substitute Senate Bill No. 5337 entitled:

"AN ACT Relating to the department of transportation's aeronautics division."

Section 6 of the bill amends RCW 47.68.240, addressing the penalties associated with violations of the aeronautics statutes in chapter 47.68 RCW.

Engrossed Substitute House Bill No. 1127, which is awaiting my approval, deals with licensing and penalty issues generally for motor vehicles, water craft and aircraft, and also amends RCW 47.68.240 to make the penalties uniform between all modes of transportation.

In this instance, I believe it is appropriate to defer to the Legislature's judgment in their efforts to have uniform penalties for all modes of transportation.

For these reasons, I have vetoed Section 6 of Substitute Senate Bill No. 5337.

With the exception of section 6, Substitute Senate Bill No. 5337 is approved.

Respectfully submitted,
MIKE LOWRY, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO MESSAGE ON SUBSTITUTE SENATE BILL NO. 5471

May 15, 1993

To the Honorable President and Members
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 12 and 24, Substitute Senate Bill No. 5471, entitled:
"AN ACT Relating to nonprofit corporations;"
Sections 12 and 24 amend current law and duplicate language contained in sections 6 and 8 of Substitute Senate Bill No. 5492 which I signed into law on May 7, 1993. For this reason, I have vetoed sections 12 and 24 of Substitute Senate Bill No. 5471. With the exceptions of sections 12 and 24, Substitute Senate Bill No. 5471 is approved.

Respectfully submitted,
MIKE LOWRY, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO MESSAGE ON SENATE BILL NO. 5474

May 18, 1993

To the Honorable President and Members,
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 5 and 19, Senate Bill No. 5474, entitled:
"AN ACT Relating to discrimination;"
Senate Bill No. 5474 strengthens the penalties available to the Human Rights Commission for civil rights violations. I strongly support the bill's direction in this, as well as a number of technical clean up provisions. However, section 5 of the bill would unnecessarily amend the definition of disability in Chapter 49.60 RCW, the state Law Against Discrimination. The determination of disabilities under current law can be examined by the Commission on a case by case basis.
Section 19 of the bill amends RCW 49.60.224. This same section of law is amended to include the changes contained in this bill in section 8 of House Bill No. 1476 which I have already signed. Therefore, section 19 is unnecessary.
For these reasons, I have vetoed sections 5 and 19 of Senate Bill No. 5474.
With the exception of sections 5 and 19, Senate Bill No. 5474 is approved.

Respectfully submitted,
MIKE LOWRY, Governor

To the Honorable President and Members,

I am returning herewith, without my approval as to sections 16 and 19, Engrossed Second Substitute Senate Bill No. 5502, entitled:

"AN ACT Relating to state and local government regulation of surface mining;"
This legislation will greatly enhance the state's ability to regulate surface mining reclamation and to protect public resources. However, certain sections of the bill clearly restrict the ability of local governments to regulate surface mining itself.
Section 16 imposes state direction on the designation of mineral resource lands, which the Growth Management Act allows counties free authority to designate. Section 16 also limits the ability of local jurisdictions to regulate surface mining and to provide local protection of air and water resources. Section 19 precludes local jurisdictions from dealing with water impacts of surface mines. Both of these sections limit local jurisdictions regulatory ability to those areas not already regulated by the state or federal governments. This unnecessarily restricts the ability of local government to adequately regulate surface mining.
For these reasons, I am vetoing sections 16 and 19.
With the exception of sections 16 and 19, Engrossed Second Substitute Senate Bill No. 5502 is approved.

Respectfully submitted,
MIKE LOWRY, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO MESSAGE ON SUBSTITUTE SENATE BILL NO. 5717

May 28, 1993

To the Honorable President and Members,
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 469(6)(b) and 1023 of Substitute Senate Bill No. 5717, entitled:
"AN ACT Relating to the capital budget;"

My reasons for vetoing these sections are as follows:

Section 469(6)(b), page 79, Washington Wildlife and Recreation Program (Interagency Committee for Outdoor Recreation)

Section 469(6)(b) removes a specific project acquiring habitat for the sharptailed grouse from the Washington Wildlife and Recreation Program's approved project list for 1993-95. Acquisition and preservation of habitat for this species is critical as increasing agricultural development is threatening critical habitat and breeding grounds. Too, this project has already received careful scrutiny by the Interagency Committee for Outdoor Recreation during the project evaluation phase. For this reason, I am vetoing subsection (6)(b) of section 469 and allowing this valuable project to move forward as planned.

Section 1023, page 176, Puget Sound Water Quality Authority

Section 1023 amends the enabling legislation for the Puget Sound Water Quality Authority by removing the requirement that the Authority be housed with the Department of Ecology in Lacey. The state has been actively pursuing opportunities for collocation in agency housing, particularly in those situations where agency missions are compatible. In order to ensure better coordination of the implementation of the Puget Sound Water Quality Authority Management Plan, it makes sense to consider collocation of the PSWQA and the Department of Ecology. Therefore, I am vetoing Section 1023.

For the reasons stated above, I have vetoed sections 469(6)(b) and 1023 of Substitute Senate Bill No. 5717.

With the exceptions of sections 469(6)(b) and 1023, Substitute Senate Bill No. 5717 is approved.

Respectfully submitted,
MIKE LOWRY, Governor, Governor

PARTIAL VETO MESSAGE ON ENGROSSED SUBSTITUTE SENATE BILL NO. 5724

May 28, 1993

To the Honorable President and Members,
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 20, Engrossed Substitute Senate Bill No. 5724, entitled:

"AN ACT Relating to nursing home auditing and reimbursement;"

Section 20 of Engrossed Substitute Senate Bill No. 5724 directs the Department of Social and Health Services to provide a prospective rate enhancement of \$50,000 per year to all nursing homes meeting four specific criteria.

Because this rate enhancement will be included in the reimbursement statute, it will become part of the state plan which must be submitted to the federal government. Since it has never been a part of the nursing home rate-setting mechanism, the enhancement jeopardizes federal matching funds and will ultimately be disallowed.

Additionally, I believe Washington's nursing home reimbursement system adequately reimburses facilities for their allowable expenses, and this rate enhancement creates an inequitable situation.

With the exception of section 20, Engrossed Substitute Senate Bill No. 5724 is approved.

Respectfully submitted,
MIKE LOWRY, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO MESSAGE ON SUBSTITUTE SENATE BILL NO. 5736

May 18, 1993

To the Honorable President and Members,
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval of sections 2 and 3, Substitute Senate Bill No. 5736 entitled:

"AN ACT Relating to chiropractic care for industrial insurance;"

Section 2 of Substitute Senate Bill No. 5736 would create the position of associate medical director for chiropractic in state statute. It is my understanding that the Department of Labor and Industries has funding for such a position and intends to hire a qualified candidate. No position other than the Director of the Department of Labor and Industries is currently specified in statute. This requirement appears to be overly prescriptive and limits the discretion of the agency's director.

Section 3 would prohibit the termination of treatment based solely on the number of treatments. This provision is not consistent with the direction in which our state is moving with regard to health care reform.

For these reasons, I have vetoed sections 2 and 3, of Substitute Senate Bill No. 5736.

With the exception of sections 2 and 3, Substitute Senate Bill No. 5736 is approved.

Respectfully submitted,
MIKE LOWRY, Governor

PARTIAL VETO MESSAGE ON ENGROSSED SUBSTITUTE SENATE BILL NO. 5888

May 18, 1993

To the Honorable President and Members,
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 22 and 23, Engrossed Substitute Senate Bill No. 5888, entitled:

"AN ACT Relating to improvement of retirement system benefits;"

Engrossed Substitute Senate Bill No. 5888 provides for improvements to retirement system benefits. Sections 22 and 23 of the legislation proposed adding two additional legislators to the existing membership of the State Investment Board (SIB). While I acknowledge the extreme importance of the SIB, the current membership of the board is a balance between legislative and executive branch representatives and representatives of the retirement system membership. In addition, the SIB has new members that are attempting to fulfill this serious responsibility to the State of Washington, and they should be allowed to determine their new direction before the composition of membership is altered.

With the exception of sections 22 and 23, Engrossed Substitute Senate Bill No. 5888 is approved.

PARTIAL VETO MESSAGE ON ENGROSSED SENATE BILL NO. 5925

May 28, 1993

To the Honorable President and Members,
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 2, Engrossed Senate Bill No. 5925 entitled:

"AN ACT Relating to excise taxation of lodging;"

This bill relates to the assessment and usage of local option hotel/motel taxes.

Section 2 of this bill directs the Department of Revenue to collect the hotel/motel taxes addressed in the bill on behalf of the county and at no cost to the county. Section 2 is not necessary since revenue collection provisions of the hotel/motel tax were amended in Engrossed Substitute House Bill No. 1862 which I signed on May 15th. Engrossed Substitute House Bill No. 1862 contains a more comprehensive treatment of hotel/motel tax collections and is designed to cover all applications of this tax. That bill contains the preferred wording for implementation of both bills.

With the exception of section 2, Engrossed Senate Bill No. 5925 is approved.

MESSAGE FROM THE GOVERNOR
PARTIAL VETO MESSAGE ON REENGROSSED SUBSTITUTE SENATE BILL NO. 5967

May 28, 1993

To the Honorable President and Members,
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 306, 405, 406, 407, and 1001, Reengrossed Substitute Senate Bill No. 5967 entitled:

"AN ACT Relating to taxation;"

Section 306 amends current law which provides a sales tax exemption for property purchased for use outside this state by nonresidents of Washington who live in a state or Canadian province with a sales tax rate of less than three percent by adding the requirement that the beneficiary state be "contiguous to the state of Washington." This would effectively limit the exemption to only Oregon residents.

This amendment presents a constitutional problem, since there does not appear to be a rational basis for distinguishing between residents of noncontiguous states and residents of contiguous states. If a successful class action lawsuit was brought on behalf of all affected parties, the state's costs for administering any payout to members of the class could be substantial.

While I agree that amending current law is necessary, I have vetoed this section because I am concerned with the possible unconstitutionality of this amendment and the consequences of potential lawsuits. Therefore, I will ask the Department of Revenue to develop legislation which addresses the proponents concerns and avoids the constitutional problems for consideration during the 1994 Legislative Session.

Sections 405, 406, and 407 extend the sales and use tax deferral program of chapter 82.61 RCW to include any pulp and paper products plant in operation prior to 1960 and located in a county with a population between 40,000 and 70,000. It was the intent of the sales tax deferral program to encourage new business locations in the state, not to provide a tax break for existing businesses. These sections were not intended to benefit the pulp and paper products industry generally; rather, these criteria were very carefully drawn in order to limit availability of the deferral program to a single taxpayer.

However, the impact could be significantly greater because several taxpayers potentially qualify for the program. Counties that are eligible based on the population range of 40,000 to 70,000 are Chelan, Clallam, Grant, Grays Harbor, Island, Lewis, and Walla Walla. At least four pulp and paper products companies located in these counties were in operation prior to 1960. In addition, there are 21 other pulp and paper products companies that were established prior to 1960, but which are

headquartered in non-eligible counties. If any of these 21 other companies also have a plant in an eligible county, they could potentially qualify.

For these reasons, I have vetoed section 405, 406, and 407.

Sections 1001 requires the Department of Revenue to determine the amount of revenue generated in excess of projections during the biennium as a result of this act. The State Treasurer would transfer the excess revenue from the general fund to the budget stabilization account. If actual revenue collections exceed the forecast, the Legislature can always choose to make transfers to the budget stabilization account. Therefore, it is not clear why this section is needed.

In addition, this section would require costly and burdensome accounting procedures for the Department of Revenue and would require the department to make unreasonable, and in some cases impossible requests for information from taxpayers. The Department of Revenue already has the capability to measure these and other revenues by other means which are less costly to administer and do not place unreasonable burdens on taxpayers.

For these reasons, I have vetoed section 1001. However, in line with the intent of this section, I am directing the Department of Revenue to report quarterly how well estimates for all of these revenue sources are tracking.

With the exception of sections 306, 405, 406, 407, and 1001, Reengrossed Substitute Senate Bill No. 5967 is approved.

Respectfully submitted,
MIKE LOWRY, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO MESSAGE ON SUBSTITUTE SENATE BILL NO. 5968

May 28, 1993

To the Honorable President and Members,
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 121(2); 125(1), (2); 202(7); 204(2)(d); 205(4)(a)(iii), (4)(b)(lines 12-17), (4)(b)(iii), (4)(b)(iv); 207(2); (3); 209(10); 217(1), (3), (4), (7), (8), (9); 226 lines 22-24; 229(16); 305(1); 308(1), (2), (4), (9); 501(1)(d); 707 line 14; 904; and 905(1) of Substitute Senate Bill No. 5968, entitled:

"AN ACT Relating to fiscal matters;"

My reasons for vetoing these sections are as follows:

Section 121(2), page 7, Performance Audits, (State Auditor)

Sections 121(2) provides \$200,000 in appropriation authority from the Audit Services Revolving Account for the State Auditor to cover the costs of that agency's involvement in the three performance audits required in Section 904. Since I am also vetoing Section 904, I will ask the State Auditor to place these funds in reserve in recognition of this veto.

Section 125(1), page 9, Report on Implementation of Reductions (Office of Financial Management)

This subsection requires the Office of Financial Management to compile agency reports relating to implementation of budget reductions and efficiencies, and to submit those reports to the Legislature by December 1, 1993. Although I understand the Legislature's interest in these issues, the proviso as written is vague as to the intent and content of these reports. The existing allotment process represents the agencies' spending plan under the new budget and will be available long before the December deadline. I am willing to work with the Legislature to see that their interest for budget implementation formation is met, but I'm reluctant to impose a significant workload on agencies without more specific objectives.

Section 125(2), page 9, Administrative Cost Reporting System (Office of Financial Management)

Subsection 125(2) requires OFM to develop and implement a state-wide reporting system in support of the administrative detail required in section 904 (Performance Audits). Since I am vetoing section 904, the specific reason for this reporting system requirement in OFM is eliminated.

I do, however, share the Legislature's interest in uniform accounting practices and a more consistent approach to the reporting of administrative costs. I will instruct the Office of Financial Management to review our existing reporting structure and to work with legislative staff on possible improvements.

Section 202(7), page 19, Child Care Rates (Children and Family Services, Department of Social and Health Services)

This subsection requires the Department of Social and Health Services to reimburse child care providers at the 75th percentile of the 1992 market rate on a phased-in basis beginning on December 1, 1993. I am vetoing this subsection because there is a technical error in the proviso language. It should read "at the 75th percentile or the provider's usual rate, whichever is lower...." I am directing the Department of Social and Health Services to comply with the intent of the proviso to implement changes in child care rates beginning December 1, 1993.

Section 204(2)(d), page 23, Stop-Loss Arrangement (Mental Health, Department of Social and Health Services)

This subsection directs the Department of Social and Health Services to establish contractual relationships with the Regional Support Networks that protect against increased admissions to state hospitals of clients who are eligible for services from other programs in the agency. If the client population exceeds 110 percent of the 1991-93 average level, these other programs must bear the cost of care. I recognize the issue of dually diagnosed clients is troublesome and must be addressed; however, these programs have not been funded at levels sufficient to meet the stop-loss requirement without reducing services to current clients. I am vetoing this subsection, but I am directing DSHS to strengthen the existing collaborative agreements with the Regional Support Networks to ensure the client census is maintained at less than 110 percent of the average utilization during Fiscal Year 1993.

Section 205(4)(a)(iii) page 24, Client Assessments (Developmental Disabilities, Department of Social and Health Services)

This subsection requires the Department of Social and Health Services to assess each Residential Habilitation Center client to determine the level of support necessary to meet the client's needs. There are insufficient time and resources to complete this requirement, and it is unnecessarily duplicative of existing assessment tools. I am vetoing this subsection, but I am directing the Department to complete an independent assessment for each individual who is being moved into the community.

Section 205(4)(b)(lines 12-17), (4)(b)(iii), and (4)(b)(iv), page 25, Community Residential Services Reconfiguration (Division of Developmental Disabilities, Department of Social and Health Services)

This subsection requires the Department of Social and Health Services to reduce the per capita costs of community residential services programs by 6.7 percent during the last 18 months of the 1993-95 Biennium below the amount expended during the last quarter of the current biennium. While I acknowledge these savings must be achieved, subsection (b) and sub-subsections (b)(iii) and (b)(iv) are overly cumbersome, limit the Department's flexibility to manage its resources, and do not provide sufficient time to accomplish their purpose. I am vetoing lines 12 through 17 and 25 through 32, but in order to ensure these savings are maintained consistent with legislative intent, I am directing the Department to explore other means to achieve this reduction, such as implementing the reduction on an earlier date.

Section 207(2), page 27, State Supplementary Income Payments (Income Assistance, Department of Social and Health Services)

This subsection would reduce state supplementary payments to 80,000 blind, disabled, and elderly Washington residents. The current fiscal situation has forced us to make very difficult choices, many of which directly affect people who rely on state services. Nonetheless, I cannot in good conscience approve a measure to reduce state support for these individuals, who are truly our most vulnerable residents. Furthermore, it would be extremely difficult to administer these payments in such a way as to maintain the current spending level while the caseload increases without jeopardizing all federal Title XIX funds. I have therefore directed the Department of Social and Health Services to allocate these funds in accordance with current policy.

Section 207(3), page 27, Public Assistance (Income Assistance, Department of Social and Health Services)

This section would require that the Department of Social and Health Services eliminate the "100-hour rule" for two-parent families receiving aid to families with dependent children. Since this rule acts as a disincentive for families to work, I fully support the intent of this subsection. However, funds for the implementation of this rule change are not included in the budget. Therefore, I am vetoing this subsection and directing the Department to pursue a federal waiver of this rule. I intend to recommend funding in the 1994 legislative session to eliminate the "100-hour rule."

Section 209(10), page 30, Chiropractic Services (Medical Assistance, Department of Social and Health Services)

This proviso earmarks \$3,372,000 General Fund-State to provide chiropractic services for Medical Assistance clients. I am vetoing this subsection because no additional funding has been provided for these services. The Department of Social and Health Services cannot reinstate these services within appropriated funding.

Section 217(1), (3), (4), (8), and (9), page 34-36, General-Fund State Appropriations (Department of Community Development)

Subsections 1, 3, 4, 8, and 9 restrict use of 38 percent of the Department's General Fund-state budget. The language for each of these subsections was intended to allow the Department Flexibility to manage the nonspecific General Fund-State budget reductions. However, conflicting legal interpretations of the language make a veto necessary to ensure the needed flexibility. I am directing the Department to honor the purpose of the proviso language for each subsection by allocating the nonspecific reductions as uniformly as possible. Therefore, I am directing the Department to provide substantially similar funding levels for emergency food assistance, food stamp outreach, the Seattle Children's Museum, emergency medical support for Mt. St. Helens' National Monument, emergency shelter assistance, and growth management grants.

Sections 217(7), page 36, Federal and Private Grant Assistance (Department of Community Development)

Subsection 7 requires the Department to use existing staff resources to research the availability of economic development grants. In addition the Department is required to assist state and local organizations to research the availability of these grants. The economic development budget at the Department has been reduced by 20 percent. At the same time, the expectation is for the economic development program to provide essentially the current service level to federal timber dependent communities, to implement the requirements of House Bill No. 1493 pertaining to women and minority owned businesses, and to maintain a statewide program. Although the Community Finance staff attempt to maximize the use of all resources for economic development, the proviso places an undue burden on the existing resources and sets up expectations that will be difficult to meet. Although I am vetoing this proviso, the Department is directed, within available resources, to provide assistance as required by this proviso.

Section 226, lines 22-24, page 43, (Department of Corrections)

This proviso requires the Department to address the mental health needs of inmates within existing resources. I believe this is an unrealistic expectation. My budget recommendation would have provided \$2,900,000 to begin the expansion of mental health services for offenders. There are an estimated 1,100 mentally ill offenders in Washington's prison system. These offenders generally receive longer sentences, serve more of their total sentence, receive more infractions, and are housed under a higher security level than the rest of the inmate population and are therefore much more expensive to house. If we wish to slow the growth in our prison costs, we must invest the required funding for this program. In vetoing this proviso I am urging the Legislature to recognize these needs with actual funding in future sessions.

Section 229(16), page 45, (Employment Security Department)

This proviso earmarks \$2,000,000 (Employment and Training Trust Fund) for operation of 13 job service centers located in community and technical college campuses. I am vetoing this subsection to maximize the Employment Security Department's flexibility to use its

resources to provide a broad range of services across the state and meet the legislative intent contained in Engrossed Substitute House Bill No. 1988. I will ask that seven co-located Job Service Centers be established in the 1993-95 Biennium.

Section 305(1), page 50, Puget Sound Water Quality Management Plan (State Parks and Recreation Commission)

A technical error was made in the proviso language in this section. The Legislature has provided funding to the State Parks and Recreation Commission for its Plan-related activities out of the Aquatic Lands Enhancement Account (ALEA). This section incorrectly provisos General Fund-State moneys for this purpose. Although I am vetoing this proviso, the \$189,000 in ALEA funds must be spent for Plan activities.

Section 308(1), (2), and (4), page 52, European Trade Office, Washington Technology Center, and the Clean Washington Center (Department of Trade and Economic Development)

I strongly believe that these programs are valuable, productive elements of the state's economic development program. However, the budget for the Department passed by the Legislature will force a reevaluation of all economic development programs and a reprioritization of currently available funding. The programs specified in this section represent approximately one-third of the Department's total budget. I have vetoed these sections not because I believe the programs specified herein should necessarily suffer further budget reductions, but because I believe that they should not be protected or excluded from the comprehensive program and budget evaluation which the Department must conduct. I am directing the Department to honor the purpose of the proviso language for the European Trade Office, the Clean Washington Center, and the Washington Technology Center within this context.

Section 308(9), page 53, Engrossed Substitute House Bill 1493 – Minority and Women-Owned Businesses (Department of Trade and Economic Development)

The Legislature intended to fund the programs established in Engrossed Substitute House Bill No. 1493 using federal dollars transferred from the Washington Economic Development Finance Authority (WEDFA) account. The transfer from WEDFA to the General Fund-Federal account was not included in the appropriation bill and the proviso language in this section incorrectly specifies General Fund-State to implement ESHB No. 1493. I will seek a supplemental budget change to correct this error and make the federal funds available for these programs.

Section 501(1)(d), page 63, Demonstration Project (Superintendent of Public Instruction)

I am vetoing this proviso because it would require the Superintendent of Public Instruction to spend federal Chapter 2 funds in a manner inconsistent with federal government rules and statutes by supplanting state funds that previously funded special education demonstration projects. The Superintendent of Public Instruction has indicated that other available funds have been identified to meet the needs of the special services demonstration projects this proviso was intended to satisfy.

Section 707, page 97, line 14, Basic Data Account Transfer to the Tort Claims Revolving Fund

A transfer of \$16,000 is made from the Basic Data Account into the Tort Claims Revolving Fund. The inclusion of the Basic Data Account in the funds that will be transferred into the Tort Claims Revolving Fund was an error. The transfer should have been from the Lottery Administration Account. Transfer from the correct fund will need to be made in the 1994 supplemental budget.

Section 904, page 113, Performance Audits.

On May 15, 1993, I signed into law the Accountability in Government Act of 1993 (Engrossed Substitute House Bill No. 1372). That new law starts Washington down the road toward performance-based government. It requires agencies to identify measurable, outcome-based objectives for each major program. It also directs the Office of Financial Management to prepare a plan for determining how well agencies are meeting those objectives. I strongly support performance-based government; my office worked directly with the Legislature in the development of this legislation. OFM will involve the Legislature and executive agencies in implementing ESHB No. 1372.

Section 904 is directly tied to ESHB No. 1372. But the work required by the bill must be completed before the three audits mandated by Section 904 can be carried out. OFM and state agencies need time to develop reliable program objectives and the plan to apply those objectives to tangible products, like performance audits, as envisioned in ESHB No. 1372. The audit requirements of Section 904 are, therefore, premature. For this reason, I have vetoed Section 904.

Section 905(1), page 114, Lease/Purchase Financing Agreements

Section 905(1) would require that the Office of Financial Management review all agency requests for the acquisition of equipment by lease/purchase financing agreements to ensure that 1) the method of acquisition offers a significant financial advantage to the state, and 2) the term of the installment contract does not exceed the useful life of the item being purchased. I am vetoing this subsection because under current procedures, the Office of State Treasurer (OST) reviews all agency requests for lease/purchase to ensure that the purchases meet these criteria. I will direct OFM to work with the OST and to manage the allocation of the \$35 million limit on lease/purchases from the General Fund, as was done during the 1991-93 Biennium.

Although this concludes my list of vetoes, I want to register concerns with two sections that I have signed with reservation:

Section 715 directs payment of an industrial insurance death benefit. While I am in sympathy with the facts of this particular case, I am strongly opposed to using the relief process as a way to pay denied industrial insurance claims. I hope that in the future the legislature will not use the sundry claims process to reserve final decisions of this type, but rather will address the underlying question of whether changes in industrial insurance laws and appeals procedures are needed.

Section 924 eliminates the General Fund-State transfer to the Water Quality Account for the 1993-95 Biennium. I believe clean water is vitally important. I also believe it is important to have a stable level of state funding that will enable local governments to dedicate sizable portions of their own resources to clean water efforts and to achieve mandated state and federal water quality requirements. I have signed this section because of the impact that vetoing it would have on the fund balance for the state General Fund and because removal of the General Fund transfer is for the 1993-95 Biennium only.

With the exceptions of sections 121(2); 125(1), (2); 202(7); 204(2)(d); 205(4)(a)(iii), (4)(b)(lines 12-17), (4)(b)(iii), (4)(b)(iv); 207(2), (3); 209(10); 217(1), (3), (4), (7), (8), (9), 226 lines 22-24; 229(16); 305(1), 308(1), (2), (4), (9), 501(1)(d); 707 line 14; 904; and 905(1), Substitute Senate Bill No. 5968 is approved.

Respectfully submitted,
MIKE LOWRY, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO MESSAGE ON REENGROSSED SUBSTITUTE SENATE BILL NO. 5972

May 28, 1993

To the Honorable President and Members,
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 1, page 2, lines 1 through 4; 2(2); 2(3); 25(2), page 13, lines 24 through 27; 34, page 17, line 35 through page 18, line 21; and 53, page 25 and 26 of Reengrossed Substitute Senate Bill No. 5972 entitled:

"AN ACT Relating to transportation appropriations;"

My reasons for vetoing these sections are as follows:

Section 1, page 2 lines 1 through 4, Expenditure Prohibition

This provision prohibits funds appropriated in the transportation budget from being used for legislation that was not heard by either of the transportation committees. I am concerned that this administrative restriction creates a bad precedent, and that several essential bills would meet this criteria. For example, because Substitute Senate Bill No. 5968, the omnibus budget bill, and Engrossed Substitute Senate Bill No. 5888, the retirement system bill, were not heard before either of the transportation committees, it is possible that none of the funding provided in the transportation budget bill could be used for State Patrol retirement and other transportation agency health benefits. This would cause an unacceptable disruption in retirement and health system funding for transportation agencies.

In addition, this language would keep the Department of Licensing from implementing the provisions of Substitute House Bill No. 1741, which toughen the penalties against people who ignore traffic tickets. This veto will permit the Department of Licensing to operate the program with existing funds until a supplemental can be considered next session.

Section 2(2), Abolishment of the Traffic Safety Commission

Section 2(2) would abolish the Traffic Safety Commission as of July 1, 1994 and place the Commission's responsibilities into an existing transportation agency. The Traffic Safety Commission provides a valuable multidisciplinary approach to addressing the state's traffic safety issues. Placing the agency into an existing transportation agency would risk losing the independence and broad vision that make the Commission and effective force in reducing traffic fatalities and injuries. Traffic safety is a multidimensional problem, and the current structure of the Commission helps bring together the Department of Transportation's engineering knowledge, the State Patrol's enforcement experience, the Department of Licensing's testing and record keeping activities, the Superintendent of Public Instruction's curriculum guidance, and the Department of Health's data on injuries and fatalities. Having an independent commission unencumbered by a single agency perspective contributes to the effectiveness of the Commission's activities.

Section 2(3), Proviso for \$175,000 Highway Safety Fund-Federal To Be Spent For The Law and Justice Program And Move The Activity From The Department of Licensing To The Traffic Safety Commission.

Section 2(3) moves the Department of Licensing's law and justice program to the Traffic Safety Commission which, in turn, would be slated for elimination under the transportation budget. The program coordinates driver information, such as DWI suspensions and changes in traffic laws, between law enforcement agencies and the courts.

I am vetoing Section 2(3) for several reasons. First, the program belongs in the Department of Licensing and not in the Traffic Safety Commission or, if not for the veto of Section 2(2), within yet another transportation agency in the second half of the 1993-95 Biennium. Second, the amount of funds provided is a full biennial amount, yet the bill calls for its expenditure in one year. This would be a waste of money that could otherwise be used to address critical traffic safety needs of the state. Third, because the activity began as a federally funded pilot project, the proviso is a clear supplantation of federal funds. Finally, the directive is counter to the federally prescribed priority-setting process for the identification of traffic safety problems.

Section 25(2), page 13 beginning on line 24 through line 27, WSDOT - Highway Management and Facilities

This subsection calls for Legislative Transportation Committee approval of a study on the current environmental efforts used at the Department of Transportation and implementation of the study recommendations, including any suggested organizational changes, to maximize the effectiveness of the agency's environmental activities. I support the study, but implementation of the study recommendations is the responsibility of the Transportation Commission and the Secretary of Transportation. Giving administrative responsibility to the Legislative Transportation Committee to control implementation of the study findings would blur the lines of executive responsibility and legislative oversight. This veto maintains the study but gives the implementation authority back to the Department. I recommend that the Transportation Commission present the final report and implementation recommendations for review to the Office of Financial Management and to the Legislative Transportation Committee no later than December 15, 1993.

Section 34, page 17 starting on line 35 through line 21 on page 18, Charges From Other Agencies

Section 34 includes an overall appropriation for revolving fund changes and nine provisos that specify line item appropriations for the individual revolving fund charges to the Department of Transportation. The total appropriation amount is sufficient to meet all the estimated obligations; however, the line items provide too much money for some revolving fund agencies and too little for others. The individual line item provisos are overly cumbersome and limit the Department of Transportation's flexibility to meet all anticipated obligations in 1993-95 Biennium.

Section 53, page 25 and 26, Efficiency Commission Study of Revolving Fund Charges

This section calls for a Washington State Efficiency and Accountability in Government Commission study of revolving fund charges to transportation agencies. No funding has been provided in either the transportation or the operating budgets. I am committed to an overall statewide understanding of the revolving fund services and billing procedures. A study of revolving fund services and billing methodology to only transportation agencies is too limiting. To the extent possible within existing resources, I will direct the Office of Financial Management to review the operation of revolving funds across state government.

With the exceptions of sections 1, page 2, lines 1 through 4; 2(2); 2(3); 25(2), page 13, lines 24 through 27; 34, page 17, line 35 through page 18, line 21; and 53, page 25 and 26, Reengrossed Substitute Senate Bill No. 5972 is approved.

Respectfully submitted,
MIKE LOWRY, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO MESSAGE ON ENGROSSED SUBSTITUTE SENATE BILL NO. 5980

May 28, 1993

To the Honorable President and Members,
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 33, 50, and 51 of Engrossed Substitute Senate Bill No. 5980, entitled:

"AN ACT Relating to fishing licenses;"

This bill provides important new revenues to the Department of Fisheries which will be used to maintain production at state salmon hatcheries, and other important programs of the Department. The bill also consolidates existing recreational fishing licenses. However, several sections of this legislation present potential problems.

Section 33 provides for the act to expire on January 1, 1998. Allowing this Act to expire would not only remove an important source of revenue for the Department, but would also require the Department to revert back to the current system of multiple recreational licenses. In order to remove an undue administrative burden on the Department of Fisheries and avoid consumer confusion, I am vetoing section 33.

Sections 50 and 51 establish a 400 crab pot limit for commercial fishers of coastal crab. The Department of Fisheries, in conjunction with Oregon, California, and the Pacific States Marine Fisheries Commission, is to complete a report on the economic viability of the coastal crab fishery. While I understand the concern of some segments of the commercial crab industry, establishing such a limit before a final report is completed is premature.

With the exception of sections 33, 50, and 51, Engrossed Substitute Senate Bill No. 5980 is approved.

Respectfully submitted,
MIKE LOWRY, Governor

MOTION

On motion of Senator Spanel, the vetoed and partially vetoed bills were held on the desk.

REMARKS BY SPEAKER EBERSOLE

Speaker Ebersole: "Representatives, Senators, distinguished guests all, I now have the privilege and honor of introducing the Governor of our great state. Mike Lowry became the staff director of the State Senate Ways and Means Committee in 1969, and he's devoted his life to the people of this great state ever since. That's twenty-five years of service and that makes this a silver anniversary of sorts. For twenty-five years, Mike has given our state his dedication, his energy, his passion for justice, his compassion for people, his unfailing optimism, his decency, and most of all, his love for our great state. And last year, let's not forget, Mike had a hand in giving us a great and gracious First Lady, Mary Lowry, who's here with us now. Let's give Mary a round of applause.

"I won't try to describe how much Mike Lowry has done for this state over the past twenty-five years. There is not enough time, but as we welcome our Governor to the rostrum for his State of the State address, let's show with our applause how much we value his quarter century of service to this state. Ladies and Gentlemen, Governor Mike Lowry."

STATE OF THE STATE ADDRESS BY GOVERNOR MIKE LOWRY

Governor Lowry: "Thank you, Mr. President, Mr. Speaker, distinguished members of the State Supreme Court, distinguished State Elected officials, distinguished members of the Legislature, and to those who are most important to all of us in this chamber, the people of the state of Washington. Thank you for the opportunity to address you today and thank you for the privilege of serving as your Governor.

"When I addressed you a year ago, our state faced dramatic challenges and daunting choices. Many saw nothing but doom and gloom in our future, but I was optimistic about our future a year ago, and I am even more optimistic about our future today. I am confident because of our accomplishments of the past twelve months.

"This Legislature and this administration, last year, met a difficult economic challenge in our state's budget. We pared \$700 million in the state general fund. We held growth in state expenses and employees to historically low levels. We launched

major reforms in our capital budget process and in the state's civil service system. We consolidated agencies and slashed spending on travel, consultants, and furnishings. We did all this without ignoring the pressing needs of the people of the state.

"We inaugurated the most ambitious health care reform ever undertaken by a state, a program now in the process of enrolling 170,000 people -- most of them children -- while saving taxpayers nearly \$60 million in lower insurance premiums for public employees. We initiated major reforms in public school education and we expanded college enrollments while reducing administrative overhead. We responded to the plight of displaced workers and communities by funding retraining for 5,000 people so that they can fill the jobs of tomorrow.

"Foremost, we forged new partnerships to meet the problems and opportunities before us. We joined forces and we faced the future with confidence, not fear. And we proved the pessimists wrong. Today, there are thirty thousand more jobs in Washington State than one year ago -- despite the layoffs in the aerospace industry. New and expanding businesses have pumped more than \$1.5 billion in new investment into our economy in the past year. Unemployment has fallen. Our population is growing at twice the national average, and our rate of growth ranks seventh among all states. We have proved the pessimists wrong.

"Our state's strength was spotlighted for the whole world to see last November, when many of the most powerful political and industrial leaders of the whole world gathered in Seattle for the summit of the Asian Pacific Economic Cooperation. Washington showed the world that we have the natural resources, the educated work force, the creative entrepreneurs, the ideas, the products, the energy, and the skills to compete in the international marketplace. All who visited Washington during APEC marveled at the quality of life in our state that we have achieved in the arts, in our rich history, in the diversity of our many cultures, in our deep love for nature, and in our respect for human rights and dignity.

"No single institution or sector of society alone can claim credit for these outstanding assets in our state. They are owned in common by all, and they can be enriched through partnership at every level of the community. Partnership -- what is the role of state government in this partnership? First and foremost, we must set and maintain the highest standard of ethics at all levels of government. Everything we aspire to achieve will be impossible if government does not enjoy the respect and the confidence of citizens and taxpayers. That is why under the outstanding leadership of Attorney General Christine Gregoire and co-chairs, Professor Hubert Locke and citizen-activist Delores Teutsch, the seventeen member, bi-partisan Commission on Ethics and Campaign Practices submitted the toughest set of ethical guidelines and enforcement procedures ever proposed for any state government. I will ask you to adopt those recommendations, recognizing Washington State as the national model for integrity in government.

"Second, government must be efficient. We must be diligent and creative in finding new ways to tackle old problems. In this first year, in five major agencies, we have compressed thirty-three divisions into eighteen. What was thirty-three divisions in state government last year, is now eighteen. This session I have proposed that we eliminate fifty boards and commissions. Across state government, we are replacing eight hundred classifications of managers with four -- yes, you heard that right, eight hundred down to four. We have reduced the growth in the state general fund to its lowest level in decades. Where state expenditures had been increasing an average of more than nine percent a year, my budget has cut that to only 3.6 percent -- far below the rates of inflation and population.

"I really appreciate that applause for that, but also I was pausing here because I wanted to give credit to the people really responsible for this achievement and efficiency -- the public employees of Washington State. It has become politically fashionable to deride and scorn public officials and to deride and to scorn public employees, but the public employees, they are the ones who deliver on our promises and our goals. To the extent that we, in this chamber, have enjoyed any measure of success, it is because of the skill, the diligence, creativity and sacrifice of public employees and teachers. Speaking for all of the citizens of the state of Washington I say to you, the employees of this state, 'thank you for a job well done.'

"There are some who believe that the only way to become more efficient is to say, 'No' to old obligations. They could not be more wrong. The way to become more efficient is to say, 'Yes' to new ideas. For proof of this, we need look no further than the health care reform program which this Legislature approved nine months ago. The changes taking place now in our health care system have helped state government reduce health insurance premiums for its employees, saving the state \$59 million. Our state's private employers, who have seen the cost of health benefits rise between fifteen and twenty percent a year, are also benefiting from the measures to tame health care inflation. Our health care plan is now recognized as a model for the nation for a very simple reason. It works and it works well.

"There is much more to be done. The citizens of Washington State are sending us a clear, sensible and fair message. Last November they recognized that deep tax cuts would endanger our fundamental priorities for education, health care, the environment, infrastructure and other investments. At the same time, the voters said, 'Make government more efficient.'

"To this end, I have submitted a supplemental budget which will further tighten state general fund spending by \$93 million and will cut total state funding by \$155 million. It will further reduce authorized state employment by two hundred and seventy full-time positions. We can and we will meet the voter's rightful demand for a dollar of value for every dollar of tax paid. This Governor is determined to make this government highly efficient. We are right on course and I want to thank the state elected officials and the legislators in this chamber for helping to make that happen.

"Government integrity and efficiency, while so important, are not enough, to assure our future success alone. A third responsibility is to be a reliable and responsible partner. Our future economic success depends on forging creative public and private partnerships among business, labor, educators, and environmentalists, Republicans, Democrats, Independents and any and all willing to help shape a better tomorrow.

"The next industrial revolution is here. The business strategies and public policies of the past will no longer create the family-wage jobs of the future. The real-world economies are driven by free and open trade, by technological innovation, and by the most productive application of private and public resources. In our state, we have those resources -- an outstanding private sector, with Boeing and Microsoft, the flagships, but hundreds of other high technology companies, and critically important, the leading research institutions such as the University of Washington, Washington State University, and Fred Hutchinson.

"Washington has the assets to succeed. We have the position and the infrastructure to be the trading hub of the Pacific Rim. We have the knowledge, the skills and the drive to be a world leader in technological innovation and production, and we are building partnerships to turn this promise into prosperity.

"To ensure this state's leadership in world trade -- world trade -- my supplemental budget dedicates \$1.6 million to expand our trade outreach in Japan, Mexico, Taiwan, Canada, China, Korea and Russia. When this plan is approved, Washington State will

command the largest and strongest presence in the Pacific Rim of any of the fifty states of the Union. This will produce high quality, family-wage jobs.

"To ensure this state continues to produce cutting-edge technologies and products, our budget will provide tax incentives for the development of local high-tech industries. We recognize the long lead-time required by high-tech firms to bring their products to market. This proposal minimizes the burden imposed by our state's regressive B&O tax on the most important growth sector in the state's economy. This proposal will produce high quality, family-wage jobs.

"To every community and every citizen, to make sure that all communities have the chance to compete and succeed in the new international economy, this budget proposal contains additional incentives to encourage new manufacturing companies to locate in our depressed economic areas, where we have an outstanding workforce that deserves new opportunities. That proposal, too, will produce high quality, family-wage jobs.

"To ensure that we do not waste public or private resources, we need to implement key recommendations of the Governor's Task Force on Regulatory Reform and we need to coordinate planning under the Growth Management Act with existing environmental laws. That task force on regulatory reform has made a very productive start, and we will continue that work until the job is done. In our state, it is the environment and jobs.

"Just as we can't afford to write off any area of the state, we can't afford to squander a single individual's energy -- least of all through the blindness of ignorance and prejudice. Our economic future and the business climate is dependent on respecting and encouraging diversity. It is essential that we all stand together against all discrimination and guarantee that everyone has equal opportunities and rights in the state of Washington. This supplemental budget proposal is responsive and responsible. It strengthens our state's competitive advantage in the international economy, it primes the industries that will create tomorrow's family-wage jobs, and it keeps faith with the demand of the voters for administrative efficiency and fiscal prudence.

"All of this would be meaningless if it ignored the only bottom line that really matters for society -- our children. Violent crimes perpetrated by young people have doubled since 1981. Most of the victims are other children. Homicide is now the leading cause of death among young African-American males. Our children are killing themselves -- and it must stop. We cannot hope to advance any agenda for this state's future unless we act on the Youth Agenda.

"This supplemental budget invests \$13.2 million in a far-reaching and integrated strategy to reduce violence in our school yards and communities, to strengthen families, and to train and employ teenagers at risk. It recognizes that our children cannot repel the onslaught of violence unless we root out its causes and invest in its prevention. This Youth Agenda was developed through the concerted efforts of hundreds of social service professionals, educators, and law enforcement officials. It builds on the experience of successful local programs and reflects the ideas and comments of more than seven hundred concerned people who attended town meetings around the state. The most important input at those town hall meetings came from the young people themselves.

"This Youth Agenda reorganizes key state agencies delivering family services. Who best knows how to combat crime in their neighborhoods than those who live and work there every day? Our proposal will give these local communities greater responsibility and control. This Youth Agenda challenges the media, educators, business and local governments to create new models for the peaceful resolution of disputes.

"The Youth Agenda does not duck from the epidemic of firearms in the community. It recognizes that the number of guns in the hands of young people is simply out of control and responds by significantly limiting minors' access to handguns. It calls for stiffer penalties for young violent offenders and for those who possess or use handguns and for adults who provide them to them. Let the word go out from this chamber. There is no excuse for the criminal use of a firearm -- be it by a minor or an adult.

"More than two thousand years ago, people asked the philosophers of Greece to define the difference between barbarism and civilization. They replied that barbarians think of only today, that they plunder and consume their resources without thought for tomorrow's needs. Civilized societies, on the other hand, pledge their resources first to the needs of their children and the generations to come. As we approach the turn of this century, this answer is just as true today as it was at the time of Aristotle.

"When all the cuts and adds are totaled, when all the numbers have been crunched, when all the forecasts are in and all the revenues and expenditures have been nailed down to the last decimal point, a budget is just ink on paper if it does not give our children hope for a better life and the opportunity to pursue their dreams. All our grand planning and strategies for this state's economic future -- all the CTEDs, APECs, NAFTAs and GATTs -- will just be alphabet soup if we do not guarantee our children the elementary right of safe schools and neighborhoods in which to learn and master the skills they will need to do the world's work in the 21st century.

"I am confident that they will have that security and that opportunity because this Legislature is ready to do the state's work today. And that is why I remain so optimistic. Let's build on the outstanding progress we have made. Let's do the job that people sent us to do and leave this chamber in two months having achieved:

"A government that meets the strictest standards and codes for government integrity;

"A government that produces the highest value of service for every dollar of revenue;

"A government engaged in creating a productive partnerships with the private sector, local communities, and other institutions to create tomorrow's products, jobs and opportunities;

"A government committed to giving our citizens the best education, a sound environment, affordable health care, secure communities and strong families; and

"Finally, and most importantly, a government that gives our children not only the chance to live and learn, but the optimism to reach for, and build, a better world for their children and all the generations to come. Thank you."

REMARKS BY PRESIDENT PRITCHARD

President Pritchard: "We are pleased to present the Supreme Court Justices here today and a special welcome back to our old friend, Justice Jim Dolliver. Justice Dolliver, recuperated from medical difficulties, has been a member of the court since 1975. He served as Chief of Staff for Governor Dan Evans from 1964 to 1975, and as Chief Justice in 1985 and 1986; he is beloved by citizens across our state and it is a delight to have him back in these Chambers. Justice Dolliver, we are very happy to see you here with us today. The President would also like to recognize Mrs. Barbara Dolliver in the north gallery, here today for Chief Justice Andersen's speech."

The President welcomed Governor Mike Lowry, who was seated on the rostrum.

The Clerk of the House called the roll of the House.

The Secretary of the Senate called the roll of the Senate.

The President of the Senate called the Joint Session to order.

INTRODUCTION OF CHIEF JUSTICE ANDERSEN

President Pritchard: "The purpose of the Joint Session today is to receive a message from the Chief Justice, James Andersen. It's a great pleasure for me to introduce the Chief Justice. We came to this body and sat in the back and naturally we were seat-mates in 1959 -- in that session. In those days, freshmen hardly talked or were hardly recognized and we were pretty silent through that session. That is the last time the Chief Justice was silent. It is good to see the Chief Justice and the Governor sitting side by side. It has not always been the case in our state. Back in 1856, Governor Stevens declared martial law and the Chief Judge by the name of Lander came down to Olympia and held the Governor in contempt and fined him \$50.00. With that, the Governor threw the Chief Justice in jail and kept him there for three days. Finally, they worked out their differences, so it's nice to see that today, the members of our government -- the different branches -- are working together, because certainly, the issues and problems of our state call for that type of cooperation.

"Chief Justice Andersen was a coal miner, a combat infantryman, deputy prosecutor, trial lawyer, State Representative, State Senator, Court of Appeals, Chief Judge of Division 1 of The Court of Appeals, Justice, and now Chief Justice of the state of Washington Supreme Court. Chief Justice Andersen has had a varied, rich and long career in our state and in service to our state and I know we all look forward to the message he is bringing today on a subject which is so vital to all our state. Chief Justice James Andersen:"

STATE OF THE JUDICIARY ADDRESS
BY CHIEF JUSTICE JAMES A. ANDERSEN

Justice Andersen: "Thank you very much, Mr. President, Speaker, Senators, Representatives, distinguished public officials, my colleagues from the Supreme Court and guests.

"I thank the Legislature for its kind invitation to present this first ever State of the Judiciary Address to a Joint Session of the Legislature. As such, it is truly an historic occasion. I would hope that you might consider making it a regular event at least once a biennium. It could add greatly to the comity between the three branches of state government -- legislative, executive and judicial. "Needless to say, this occasion brings back warm memories of the years when I once sat where you now sit. Those were pleasant years. In these chambers, I was taught Parliamentary Law and Procedure 101 by House Speaker John L. O'Brien. Then later, across the rotunda, I took a post graduate course in the same subject from that grand and gentle man, the late Governor John A. Cherberg, who was assisted in teaching that subject by the then Secretary of the Senate, now Senator, Sid Snyder. I also took a few seminars in State Budget 201 across the way in the Senate from a bright, knowledgeable young man who once staffed the Senate Ways and Means Committee, Mike Lowry, and to whom I administered the oath of Governor on this same podium just one year ago tomorrow.

"What is the state of the State of Washington Judiciary? Fundamentally, it is one of the very best state judicial systems in the United States -- if not, The Best. But it is noticeably bowed under the weight of ever increasing case filings, while at the same time absorbing heavy budget cuts in our relatively slim judicial budget. The judicial budget, as you will recall, is less than one half of one percent of the total state general fund budget.

"Well you may ask, what is the cause of our burgeoning caseload? To which I would respond, 'primarily four things: population growth; new laws enacted by the Legislature in response to public demand; a growing number of youthful offenders; and finally, of course, rampant drug crimes.' A few weeks ago the Census Bureau announced that in the year ending last July 1st -- and I found this surprising in view of the state of our economy -- the population of our state grew by 2.2 percent, twice the national rate. More people; more litigation. As for the additional workload resulting from new legislation, permit me to remind you of a few of those enactments.

"The Domestic Violence Prevention Act created a new cause of action in both superior and district courts. Those cases have had a dramatic impact on both of those courts. Because of the urgent nature of domestic violence cases, requests for protective orders must be heard immediately, often disrupting scheduled cases and delaying other litigants waiting to have their cases heard. Another is the Sentencing Reform Act -- SRA. 'You do the crime, you serve the time.' While the SRA provided equality in sentencing, it also spawned a huge increase in the number of trials and appeals in our courts. Criminal bench trials in superior court alone increased sixteen percent in the one year period from 1991 to 1992. Defendants in criminal cases who find they cannot plea bargain, often feel that they have nothing to lose by going to trial and then appealing to a higher court -- usually at public expense because of their indigency. Much the same thing is true in Driving Under the Influence -- DUI cases, where the law seems to be changed each session and where penalties have become increasingly harsh.

"Oftentimes, also, new laws are required to pass constitutional muster, sometimes resulting in extensive litigation. An example of this is our state's unique Sexual Predator Law which our State Supreme Court recently upheld. As to the epidemic of youth crimes, Governor Lowry spoke eloquently to that yesterday in his State of the State Message. There is nothing I can add. As to drug crimes, well, tragically they are there for all of us to see.

"Washington courts are now processing about two and a half million cases a year. In the foreseeable future, I do not anticipate any relief from increasing caseloads. The President of the United States has announced that he is going to put 100,000 more police officers on the streets. I assume some of these new officers will be on the streets in our state. More officers; more arrests; more cases in our system. The same is true of the \$13 million plus requested by Governor Lowry to combat juvenile violence. That, too, will mean more cases in our judicial system, which has already experienced a ten percent increase in the number of juvenile cases filed last year.

"You are entitled to ask, indeed demand, to know how well this state's judiciary is doing in handling its ever increasing caseload. It is doing very well to my view -- but not nearly as well as we would like. The reason we are doing well at all is primarily due to the superb efforts of a well trained, highly professional and very competent bench. The four hundred or more judges at all levels of our state court system are dedicated to performing their jobs well and doing so in the highest and best traditions of the judiciary. I would be remiss if I didn't also add that the very rapidly growing number of women and minority judges in our state has been enormously helpful to our whole judicial system and the difficult job we have to do. In fact, my colleague Justice Barbara Durham, seated down here before you, will be the first woman Chief Justice in our state's history next year.

"Beginning under the leadership of Justice Brachtenbach, who is present today, when he was serving as Chief Justice, and continuing over the ensuing years, we developed the first successful automated judicial support system of any state in the nation. Computers have almost literally taken the place of pen and paper in much of the modern judiciary. We have had a steady stream of judicial administrators and judges from other states coming out here to 'see how Washington does it.'

"Our programs and policies have been adopted by other courts throughout the country. It is only this support system, along with hard working staffs, that have permitted our judges and courts to function as well as they have. But for that, we would have long since gone down for the third time. I am only too well aware that the mere mention of the word 'computer' raises the hackles on some of you. I, too, have some bitter memories, going back to my legislative days, about the financial hit the state has taken on failed computer programs. Our computer program was user-designed and that is why it is so successful. Please consider this, if you will. A study and evaluation of state computer systems was just recently undertaken by the State Department of Information Services. In its 1992 report, Information Technology in Washington State, the figures set out show that our Judicial Information System -- JIS-- is Number One in the number of people served, but only sixteenth in the number of people it employs and sixteenth in costs. Add to this that not one dollar of tax revenues was used to support JIS; it was entirely paid for out of court penalties and fines. In connection with JIS, I would like to mention an aspect of it which we have developed, but which is not yet in every court that needs it. This is the District and Municipal Court Information System -- DISCIS. DISCIS not only provides invaluable help to trial judges in managing their dockets and following up on fine collections, but it also greatly assists them in bringing repeat offenders to justice.

"At a time when our citizens are becoming increasingly concerned about their personal safety, this latter point deserves more than passing mention. Permit me to explain. Several years ago, we began installation of DISCIS, which is essentially an

integrated computer system for the courts, in counties and cities. It was to be installed first in our state's eighty largest district and municipal courts. Later, as funds permitted, it was to be put into other, smaller courts. A hallmark of this new and improved system was -- and is -- its ability to track offender records statewide. If a person is convicted of driving under the influence of intoxicating liquor or drugs -- DUI -- in one jurisdiction, then later appears before a judge in another, that second judge can discover the defendant's previous record by simply turning on a computer, namely DISCIS. As you can well appreciate, this type of information is absolutely critical to a trial judge's bail and sentencing decisions.

"DISCIS was built, tested and successfully installed in the initially targeted eighty courts at a total cost of just under \$11 million -- about a third of what it cost some of the other, not-so-successful, state systems to be built during this same period. But funds to put DISCIS into the forty or more courts that now want them and need them -- that's forty courts that have asked for them -- like those in Port Orchard, Poulsbo, Kent, Walla Walla, etc., were sidelined by the budget cuts we took in 1992. As a result, judges in one of these smaller jurisdictions could well have a third or fourth time drunk-driving offender before him and not know it. The offender could 'bail out,' to offend again, perhaps even to injure or to kill. I hope that you will agree with me and the leadership of our state judiciary that it is absolutely essential to an effective judiciary to have this tool in every court that needs it.

"In order to better manage our judicial system, we have also developed standards for the performance of our courts. Judges, court personnel, lawyers and other citizens are now testing these standards in three counties - Spokane, Thurston and Whatcom. We have continually worked closely with the Legislature in many things. One particular one being to reduce the costs of our jury system. Washington has been recognized by both the National Center for State Courts and the American Bar Association for its leadership in establishing jury standards.

"For the reasons I have talked about, in many of our trial courts, it is a constant war against congestion and delay. Some significant battles have been won on this front. In 1986, for example, in the Superior Court of the county where almost a third of our state's population live and work, the Superior Court in King County was facing as much as a three year delay in the trial of civil cases. Parenthetically, as you probably know, criminal cases must be given priority in trial settings; a defendant in custody has the right to be tried in thirty days, and if out on bail, within sixty days. After seven years of volunteer help from judges across the state, and helped along by a small investment of state resources, that court has now substantially eliminated civil case delay. Currently, ninety percent of its cases are completed within twenty months of filing. Furthermore, ninety percent of King County's divorce and custody cases are resolved within just thirteen months. These improvements -- these efficiencies, if you will, in the handling of the business of the taxpaying public -- were attained with only a minimum of additional taxpayer dollars. Again this was accomplished through the forceful leadership of the King County Superior Court bench, and with great assistance from the court's administrative staff and the King County Bar.

"A case that we heard oral arguments on in my court just yesterday is a case that will determine the outcome of several hundred pending driving under the influence -- DUI cases -- several hundred. The trial courts have issued conflicting rulings on the issues involved in that case so we will resolve the issues one way or the other. By our reaching down, as it were, to the trial courts and taking direct review of these cases, we have probably speeded up the review process by one or two years.

"When our decision is handed down, it will also directly affect thousands of as yet untried DUI cases. Hopefully, whatever our decision, this will greatly relieve the huge backlog of DUI cases that has developed. The Judiciary has done a great deal more than just process caseloads. We have acted in numerous other ways to improve the quality of justice administered in all of the courts of our state. I have just recently been informed, for example, that the State Court Interpreter Standards we developed here in Washington are now being used as the recommended model for other states to follow.

"In view of many in the court system, our state's judiciary leads the nation in its efforts to recognize cultural and gender diversity. Our Minority and Justice Commission, co-chaired by Justice Charles Z. Smith and Justice James M. Dolliver, and our Gender and Justice Task Force have also become national models. I would like to take the liberty, if I may, to commend the Legislature's efforts, and those of the members of the Commission on Ethics in Government and Campaign Practices headed by Governor Lowry -- or set up by Governor Lowery -- and headed by Attorney General Gregoire, for what they are doing to establish enforceable ethical standards in government. As you know, the State Commission on Judicial Conduct, a majority of whose members are laypersons, has demonstrated that such an approach can help build citizen confidence in public officials.

"The Judiciary, too, has been diligent in the matter of Ethics. In 1992, the Rules Committee of the Supreme Court, which I chaired, appointed a task force to review this state's somewhat aged Code of Judicial Conduct. This is the ethical code established by the Supreme Court under its rulemaking authority and whose canons establish the ethical rules which every judge in the state is required to abide by. That task force, which consists of judges of all levels of court appointed by their respective court associations, along with others such as lay members, are charged with reviewing the entire code, as well as other recommended judicial conduct codes, to see if our existing judicial code requires updating or can be improved in any way. This task force has held public hearings throughout the state and its report to our court is expected shortly.

"Further in the ethical arena, the Supreme Court of this state has the ultimate responsibility within the state for the administration of lawyer discipline. In this connection we have adopted both an ethical code -- Rules of Professional Conduct -- and a procedural code -- Rules For Lawyer Discipline -- which each lawyer must follow or face discipline by the State Bar Association and the Supreme Court. The Rules for Lawyer Discipline have not been significantly modified since 1983, before the Bar so greatly increased in size. We now have some 18,400 lawyers licensed to practice law in this state. Last year, the State Bar Association and the Supreme Court jointly requested that the American Bar Association -- ABA -- completely review our bar discipline rules and procedures and recommend such changes and improvements as it felt were indicated.

"I emphasize that this project was not engendered by any perceived problem in the lawyer discipline area, but rather was by way of evaluating and improving the current system. We have a good bar discipline system in this state. But again, it will benefit from updating and modernizing. The ABA report has now been received. I am pleased at this time to announce the appointment of a 15-person task force of justices, judges, lawyers and laypersons, for the purpose of fully reviewing the ABA report and recommendations, holding such hearings as are indicated and then to report back its recommendations for implementation to the Supreme Court. This task force will be jointly chaired by myself and Mr. Paul Stritmatter of Hoquiam, President of the Washington State Bar Association. I might also add that the other Supreme Court members of the task force will be Justice Charles Z. Smith and Justice Richard Guy.

"Let me now talk a bit more about budgets, and particularly about the savings that the judiciary have instituted. As I mentioned at the outset of my remarks, and would like to again emphasize, the judiciary's budget is less than one-half of 1% of all funds spent each year by the state. All of us in the judiciary well recognize the need for continuing economy and fiscal responsibility

in government. Hopefully, my presence here today, and the presence of the entire Supreme Court, demonstrates the willingness of the judiciary to work with you to initiate meaningful responses to taxpayer demands for efficiency and accountability in government.

"The judiciary in Washington continues to respond to these demands. Budget proposals you have before you at this session are reported by the press to represent the smallest biennial increase in state general fund expenditures in the last twenty years -- 3.6 percent as compared to a previous biennial average increase of 10.5 percent. The Governor talked about that extensively in his State of State Address yesterday. But in the judicial branch of government, our general fund average annual increase has been far below those figures -- less than one percent per annum since 1989. Let me say that again, 'In the judicial branch of government, our general fund average annual increase has been less than one percent per annum since 1989.' Members of the Legislature, during a period when the rest of state government was experiencing double digit general fund increases, the state judiciary's share of the general fund remained virtually unchanged.

"We applaud recent initiatives by the Legislature to bring accountability to state spending, and the executive branch's creation of a special efficiency commission to ferret out unnecessary costs. We know this approach works; Two years ago we initiated a similar program of our own. Let me share, if I may, a few results of that program with you:

. . . Since the 1989-91 biennium, we have reduced our travel expenditures by more than fifty percent.

. . . By order, the Supreme Court imposed a cap on staff salaries at the level recommended by the Governor.

. . . In 1993, we eliminated several new programs at a savings of nearly \$670,000 per biennium, and

. . . In 1993, we tightened our personal belts and, ourselves, recommended to the State Salary Commission that all judicial salaries be frozen at 1992 levels.

. . . In 1991 and 1992, we matched executive and legislative branch budget reductions cut for cut, and did so voluntarily.

"There are other day-to-day actions we have taken to create efficiencies and cost savings in the judicial branch. One example is that since 1991 we have provided support services for a law enforcement scheduling system in the Tacoma District Court. Basically, this system allows the court to more efficiently schedule their cases to reduce the amount of overtime required for law enforcement officers to appear as witnesses. In fact, the new scheduling system has reduced Washington State Patrol overtime costs by sixty-eight percent. Another example is that through an energy-saving program begun last year, we now save \$1,200 a month in electrical costs.

"Overall, this state's judiciary is a budget bargain. What low budget increases we have had, have been considerably lower than cost of living increases. Consider also, each biennium our Judicial Information System tracks and collects more than \$200 million in state and local revenues which you and local government subdivisions then get and are able to appropriate for such uses as you deem fit. The amount collected is double the budget of our entire judicial branch of government. Our heavy budget cuts have not been without pain. The fondest ambition of my adult life has been to put a 'literacy in the courts' program into effect during my term as Chief Justice. I have spent years planning for that. This simply cannot be done given the judiciary's present budgetary constraints. Senator Talmadge, some House members and, of course, Governor Pritchard, who has long been active in this field, are working on much needed literacy legislation. I pass the torch to them, and pledge every bit of support I can muster to aid their efforts. Hopefully, in the not too distant future, everyone, and particularly juveniles, will be given a simple literacy test upon entering the criminal justice system, and can then be matched to a program in one of the many organizations in this state battling illiteracy. If a person cannot read a want ad or fill out an employment application, how in the world is he or she ever going to break their deadly cycle of recidivism?

"Permit me to briefly discuss one final topic, which is as important to the legislative branch of government as it is to the judicial and executive branches. That is something which is at the very core of our democratic form of government, the Separation of Powers Doctrine. It is something which we so much take for granted that it can sometimes be forgotten or overlooked. William Shakespeare expressed it in his Sonnets, 'Sweets grown common lose their dear delight.' I would like to cite you to 'a case in point,' as we are wont to say in my profession. The case is Washington State Motorcycle Dealers Ass'n v. State, a 1988 opinion of the State of Washington Supreme Court. Plaintiffs in that case sought a declaratory judgment invalidating Governor Booth Gardner's vetoes of numerous parts of the Motorcycle Dealers Franchise Bill. Our court held that under Article 3, Section 12, which is the 62nd Amendment, the Veto Powers Clause of our State Constitution, gubernatorial vetoes of less than entire sections of nonappropriation bills are void. A number of the vetoes were thus declared invalid.

"During the course of the Motorcycle Dealers opinion, the Court discussed the Separation of Powers Doctrine, and that is why I cite you to this in this case. We said as follows, 'The importance of the case before us is that it deals directly with one of the cardinal and fundamental principles of the American constitutional system, both state and federal -- the separation of powers doctrine. It has been declared that the division of governmental powers into executive, legislative, and judicial represents probably the most important principle of government declaring and guaranteeing the liberties of the people, and preventing the exercise of autocratic power, and that it is a matter of fundamental necessity, and is essential to the maintenance of a republican form of government.' This opinion is a part of the constitutional law of this state. While as it happens, I wrote the majority opinion for the Court which I just quoted, the Separation of Powers Doctrine language did not originate with me; it goes back centuries. James Madison, a principal author of the Constitution of the United States, expressed it more eloquently when he wrote this, 'The accumulation of all powers, legislative, executive, and judicial, in the same hands, whether of one, a few, or many, and whether hereditary, self-appointed, or elective, may justly be pronounced the very definition of tyranny.'

"In conclusion, part of your job and mine is to preserve open government and prevent the tyranny our forbearers sought to eliminate by recognizing, as well as abiding by, the separate powers and responsibilities entrusted to each of us by the people. So when the push and pull of Olympia tempts you to trade all the phone calls and letters for a 40-hour week and a good book, remember that the people chose us -- and they chose us not to promise but to produce, not to pacify but to protect, and not to compete but to cooperate.

"Thank you very much for inviting me to share this time with you. It has been a genuine privilege and pleasure."

REPORT OF SELECT COMMITTEE

STATE OF WASHINGTON
MARINE OVERSIGHT BOARD
711 State Avenue NE, PO Box 42408
Olympia, Washington 98504-2408

January 14, 1994

TO: GOVERNOR LOWRY AND MEMBERS OF THE WASHINGTON STATE LEGISLATURE

The Marine Oversight Board presents this annual report as required by RCW 90.56.450.

The Board, established by Engrossed Substitute House Bill No. 1027 in May 1991, and activated in April 1992, provides independent oversight of the activities of federal and state agencies and industry with respect to oil spill prevention and response for covered vessels and onshore and offshore facilities. The Board's fundamental goal is to make Washington's marine waters the safest in the world.

The state oil spill program involves multiple state and federal agencies, industry, international organizations, the environmental community, and the public. It has an affect on regional, national, and international relations. This complex program demands a degree of oversight that we believe is most effectively accomplished by a dedicated independent organization. The Marine Oversight Board is the only entity charged with looking at all state, federal, and industry spill related activities.

The following report summarizes the Board's activities during the past year. Should you or your staff have any questions regarding this report, or about the Board's activities, please do not hesitate to call any member or our Staff Director, Mr. Michael L. Karl, at (206) 664-9130.

Very truly yours,
RICHARD D. FORD, Chair
NAKI STEVENS
CAPTAIN JERRY ASPLAND
USCG (Ret) CHESTER RICHMOND, JR.
DR. MEGAN N. DETHIER

The Select Committee Report is on file in the Office of the Secretary of the Senate.

REPORT OF SELECT COMMITTEE

STATE OF WASHINGTON
DEPARTMENT OF SOCIAL AND HEALTH SERVICES

January 21, 1994

Marty Brown
Secretary of the Senate
306 Legislative Building
Olympia, Washington 98504

Dear Secretary Brown:

Engrossed Substitute House Bill No. 1197, Section 9, passed in the last session of the Legislature, directed the department to design a program for implementation and submit the program design to the appropriate committees of the Legislature. The legislation stated that the goal of the program was to segment the AFDC population, to identify and match services to each segment, and prioritize those services. We were able to accomplish this goal by involving client advocates, business interests, and community based organizations at central office, region, and community level.

We view this plan as part of an overall review of the Job Opportunities and Basic Skills Training (JOBS) Program. This plan is an evolving one: It is open to change based on what we learn as we review the current program. Regardless of how we might restructure JOBS to be more effective and efficient as a process, we continue to be committed to assisting families achieve self-sufficiency. We consider JOBS to be a critical element for many families as they work toward the goal of self-sufficiency.

We are submitting our program design for your review. The segments in the proposed design are based on the level of work experience and educational background of the individual AFDC recipient. The services are prioritized on a sequential basis, and are matched to the needs of the segment group.

We will be available to meet with you to discuss the program design at your convenience.

Sincerely,
JEAN SOLIZ, Secretary

The Report of the Select Committee is on file in the Office of the Secretary of the Senate.

POINT OF INQUIRY

Senator McCaslin: "I am not a farmer and I am not an attorney and I'm not a good bill reader, but when you talk about ag lands and fences and so forth that, perhaps, have been there for a hundred years and if the fence is on someone else's property and the other party does something to that land that is really not his, does he fall under this legislation? I don't know who can answer that, whether Senator Owen can answer it. Are we opening up liability to the farmers that we really do not intend to open up. I would suggest that this be looked at very carefully before we pass it. The intent of the bill may not be actually what it comes out to be after the attorneys get hold of it and we have some misplaced fences which are normal in agricultural lands."

Senator Owen: "We had no testimony against this by the ag community. My understanding is that the ag community is in support of this legislation. I don't know if it would affect--I can't respond to Senator McCaslin's inquiry there, but the idea is to deal with the tremendous amount of damage that we are having with people coming in and shooting up signs, shooting up restrooms. In the case of forest lands, shooting up trees, taking four-wheel drives and running them all over ag land and ripping up the ground. You know a variety of things like that is really what we are getting after in this situation. I don't know that it would fall into the category that Senator McCaslin was talking about, but we found no opposition from the ag community."

POINT OF INQUIRY

Senator Anderson: "Senator Owen, in the bill summary along the lines you just talked about--in protecting lands--there is an exemption, an exclusion from the reward system. It says, 'Title 76.09 is excluded from the reward system.' Why--"

Senator Owen: "I think you skipped bills. The reward bill is the next bill. This is the treble damages bill."

PERSONAL PRIVILEGE

Senator Ludwig: "Mr. President, I rise to a point of personal privilege. I thought it would be appropriate to inquire or perhaps explain to the members why on every desk this morning there is a package of pasta and sauce, except for my desk. I think everyone should want to know why I was excluded. Actually, that pasta and that very fine product from my district, Richland in particular, was passed out this morning, because I anticipated that I might have to compensate or reward my colleagues for listening to me on the very first bill that came up, but the chairman of Law and Justice probably didn't think he wanted to listen to me and didn't permit me the opportunity.

"If you are going to enjoy that pasta, I didn't think you should do it without, at least, hearing me speak this morning. What I would like to tell you is that that is an outstanding product from a small, very successful business in Richland--a business that overcame all of the obstacles facing small business and is doing very well. You don't have to go to Richland to get it; you don't have to wait for a legislator to bring it to you. You can find Pasta Mama's in the gourmet section at Nordstroms and other gourmet stores throughout the country and in the international market place. I kind of like to brag on that kind of business and would ask all of my colleagues throughout the year to remember small business and help improve the regulatory climate for them--and know that later on I will speak again on a bill with the chairman's permission. Thank you, Mr. President."

POINT OF INQUIRY

Senator Anderson: "Senator McCaslin, your last part of your speech was, 'This is a good thing.' Was that reference to your point of your talk or the bill?"

Senator McCaslin: "No, one good thing about dying is you could do this if this bill doesn't pass. Hopefully, it doesn't pass, because we do want to honor the dead and give them some breaks in life."

POINT OF INQUIRY

Senator Williams: "Senator Spanel, I have a concern about this bill, too. Does the prohibition on division of property in a will prevent, in this case, would it also prevent the division of property in a will that was consistent with subdivision law? In other words, what I am getting at, it seems to me that there might be a legitimate reason for subdividing via a will when it is very definitely in compliance with normal subdivision requirements."

Senator Spanel: "It is my understanding that if it is in compliance with the local regulations, then there is no problem about dividing the will."

Senator Williams: "But, the language of the bill seems to exclude explicitly the ability to transfer or subdivide via a will or this sort of vehicle. So in other words, you would be prohibiting the use of the will to subdivide, even if it is in compliance with all zoning or subdivision requirements?"

Senator Spanel: "No. I would like to yield to Senator Haugen."

REMARKS BY SENATOR HAUGEN

Senator Haugen: "You would have to go through the process that everyone has to go through. It would have to be done legally; you certainly would be able to divide the land, but it would have to be done legally. I think the real issue here is--this issue really came from the Skagit farm lands and this was brought forth by the real estate industry in the Skagit area and the farmers who saw eroding of valuable farm land. I think it is a legitimate issue. I will tell the members about a case that we had in our committee of someone that must have had a lot of money when they were alive because they took and divided a piece of property they had into one hundred and twenty lots--one hundred and twenty lots and subdivided it. Now, average citizens who want to give

something to their children cannot do that without any provisions for fire, for water, for sewer, or for anything. They divided all this land and there was nothing that could be done."

Further debate ensued.

MEMORANDUM

TO: Members of the Washington State Legislature

FROM: Elson S. Floyd, Executive Director

SUBJECT: "Tuition in Washington: A Comprehensive Review"

The attached study is in response to requirements of Substitute House Concurrent Resolution No. 4408, passed by the 53rd Legislature, 1993 Regular Session. The Higher Education Coordinating Board was directed to "undertake a comprehensive study of tuition and fee policies to be submitted to the 1994 Legislature."

The study covers various aspects of tuition, including a ten-year historical review of tuition rates in Washington, a discussion of procedures and policies which determine tuition levels in the state, comparisons of Washington's tuition levels with other states, a brief overview of student financial aid, and a review of various tuition policy alternatives.

This study was reviewed at two meetings of the Higher Education Coordinating Board (December, 1993 and January, 1994), during which the Board heard public comments from the state's public higher education institutions and student representatives.

The Board will continue to address the tuition issues identified in this report. It will submit recommendations on state tuition policies to the Legislature after giving additional consideration to the inter-related issues of higher education funding, access, accountability, quality, and financial aid.

The Report of the Select Committee is on file in the Office of the Secretary of the Senate.

STATEMENT FOR THE JOURNAL

Re: Minority Report to Senate Bill No. 6416

Senate Bill No. 6416 imposes a legislator's presence in the classroom. There is no requirement of training for the legislator in course development or classroom presentation. This lack of credentials (with or without the school's instructional staff in the classroom, as allowed by this bill) is not in the best interests of the students. This measure presumes that legislators have some "special offering" to student attainment. The measure does not include state-wide elected officials, local elected officials, or members of the executive or judicial departments. Legislators have traditionally been "guests" at schools but now will be "paid guests" by receiving per diem. This measure is presumptuous and self-serving and should not be passed as another intrusion of the Legislature with school district operations.

STATEMENT FOR THE JOURNAL

Re: Minority Report to Senate Bill No. 5403

Individual citizens, anywhere in the state of Washington, are already free to purchase fluoride tablets and rinses for their own uses and for the dental care of their own children. Indeed, with parental permission, school districts can already administer fluoride treatments to school children, as well. There is no need, therefore, for public utility districts, or for any other governmental district or body, to consider putting fluoride in otherwise pure water supplies. A political majority should not impose health care choices on a minority.

SENATE RESOLUTION 1994-8670

By Senators Franklin, Wojahn, Sutherland and Gaspard

WHEREAS, The first pioneer settler in what is now the State of Washington was George Washington Bush, the African-American founder of Bush Prairie, in what is now Clark County in 1844; and

WHEREAS, His son, Representative William Owen Bush, was a founding member of the Washington Legislature in 1889; and

WHEREAS, The rich history of Washington includes the founding of Centralia in 1872 by an African-American, George Washington. He was the son of a slave, and was one of the few to help his neighbors survive the depression, from 1893 to 1897, regardless of the color of their skin; and

WHEREAS, Sojourner Truth, an African-American woman, was among the first Americans anywhere to advocate both racial AND gender equality; and

WHEREAS, Sarah Gammon Beckford, a native of North Carolina, owned and operated the Virginia City, Montana, water system from 1888 to 1931, and was one of the city's most prominent citizens; and

WHEREAS, African-Americans were responsible for many advances in technology: From Andrew Jackson Beard's lifesaving automatic railroad car coupling device to Dr. Charles Richard Drew, who created the world's first blood bank, but later died when he was refused a transfusion solely because of the color of his skin; from the portable refrigeration system invented by Frederick McKinley Jones, enabling our farmers to move their crops world-wide, to Garrett Morgan's invention of both the automatic traffic light and the gas mask; and

WHEREAS, It was an African-American, Dr. Martin Luther King, Jr., who taught us the principles of nonviolence and how moral persuasion can bring about change in a way that violence never could; and

WHEREAS, Many more African-Americans have made lasting contributions to society and the betterment of America in the areas of science, education, agriculture, medicine, the arts, and many other endeavors;

NOW, THEREFORE, BE IT RESOLVED, That the Washington State Senate recognize February as African-American History Month in the state of Washington. This celebration, begun in 1926, by Dr. Carter Woodson, strives to continue to raise the awareness of all people concerning the contributions made by African-Americans in our country; and

Moneys shall be distributed under this subsection (1)(a) ratably based on population as last determined by the office of financial management, but no city may receive more than one dollar per capita. Moneys remaining undistributed under this subsection at the end of each calendar year shall be distributed to the criminal justice training commission to reimburse participating city law enforcement agencies with ten or fewer full-time commissioned patrol officers the cost of temporary replacement of each officer who is enrolled in basic law enforcement training, as provided in RCW 43.101.200.

(d) Ten percent shall be distributed to cities that contract with another governmental agency for a majority of the city's law enforcement services.

Moneys distributed under this subsection shall be distributed to those cities that submit funding requests under this subsection to the department of community, trade, and economic development based on criteria developed under RCW 82.14.335. Allocation of funds shall be in proportion to the population of qualified jurisdictions, but the distribution to a city shall not exceed the amount of funds requested. Cities shall submit requests for program funding to the department of community, trade, and economic development by November 1 of each year for funding the following year. The department shall certify to the state treasurer the cities eligible for funding under this subsection and the amount of each allocation.

If a city is found by the state auditor to have expended funds received under this subsection in a manner that does not comply with the criteria under which the moneys were received, the city shall be ineligible to receive future distributions under this subsection until the use of the moneys are justified to the satisfaction of the director or are repaid to the state general fund. The director may allow noncomplying use of moneys received under this subsection upon a showing of hardship or other emergent need.

(3) Notwithstanding other provisions of this section, the distributions to any city that substantially decriminalizes or repeals its criminal code after July 1, 1990, and that does not reimburse the county for costs associated with criminal cases under RCW 3.50.800 or 3.50.805(2), shall be made to the county in which the city is located.

POINT OF INQUIRY

Senator Deccio: "Senator Smith, this is a question that I tried to cover before, but I wanted to ask it for the record. If there is one car in the family and that person is dependent on that car for their livelihood, how would that affect that situation based on this bill?"

Senator Adam Smith: "Based on this bill? It wouldn't. O.K., based on last year's bill, it would significantly and admittedly negatively, affect the situation--if someone is caught drunk driving for a second consecutive time. Again at the option of the local government, it is not mandatory, but the vehicle could be taken away at that point and if that person is dependent on that vehicle, it could certainly cause a problem, as could going to jail for a certain period of time for committing a crime. That's the consideration; if you commit a crime, there are penalties for it."

Senator Deccio: "If there is one car in the family, then it could adversely affect the entire family if the owner of that car is found guilty under this statute, then?"

Senator Adam Smith: "It certainly could. I mean it would also adversely affect a family if the sole wage-earner went to jail for a variety of other crimes. It is just one of the things you have to balance in deciding what punishment to impose."

Senator Deccio: "O.K., thank you."

POINT OF INQUIRY

Senator Roach: "Senator Haugen, I'm usually very much in favor of having local voters' pamphlets. I think it is a way of informing voters, so they can make a better, more well-informed decision. The question I have is how will these voter pamphlets be paid for in those local jurisdictions that will now be mandated to include their information in a county-wide pamphlet?"

Senator Haugen: "They all will pay a pro-rated share. The testimony in the committee was that this is a very nominal fee. One of the problems they have had is, and we actually saw this last year, that there were some districts, who when there was opposition chose not to be in the voter's pamphlet. We just felt that this--because the public really wants to know who is running for office--and often on the local level, they know less about those people than they do those of us who run a more visible campaign. The testimony was this was a very negligible cost on special districts and cities and counties. We asked them if they had a concern to come back and we did not hear from them. They did not come back and say, 'We are opposed to this.'"

Senator Vognild: "In the case of a default like that, I would say that if the state could not rectify the problem, they would pay."

Senator Bluechel: "The state would pick up any losses?"

Senator Vognild: "If they cannot otherwise rectify the problem."

Further debate ensued.

POINT OF INQUIRY

Senator West: "Senator Vognild, I'm looking at the bill as it appears in our book and on page one, the language appears there as you suggested that they shall not be held liable--no financial institution shall be held liable for loss if they cash a Washington State check or a federal check. Now, I would assume that language, and this is what I want you to clarify, I would assume that language means that if someone fraudulently presents a Washington State check and produces two pieces of identification, the bank cashes it, that by saying the bank is not liable, Washington State will honor that check. Who is going to honor the federal check? Are we saying that the federal government is going to honor a check? We can't force them to do that or are we saying that Washington State will now honor all those stolen federal checks that are presented for redemption?"

Senator Vognild: "The bill, the way it is drafted since we do not have authority over the federal situation, limits the state's liability to Washington State checks."

POINT OF INQUIRY

Senator Morton: "Senator Snyder, I am concerned that the bill does not include the fresh water areas of our state, but refers only to the salt water areas. It is very important that we be able to harvest the milfoil by the tons to keep our rivers and streams from becoming clogged."

Senator Snyder: "I understand your concern, Senator, and I was willing to put an amendment on to that effect, but I was told by staff that seaweed infers that it is marine waters and saltwaters and would have no effect whatsoever and I looked up the definition in the RCW's and I thoroughly agree with you that this will not affect the milfoil harvest."

MOTION

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 9.41.170 and 1979 c 158 s 3 are each amended to read as follows:

(1) Except as provided in subsection (2) of this section, it shall be unlawful for any person who is not a citizen of the United States (~~(, or who has not declared his intention to become a citizen of the United States,)~~) to carry or have in his or her possession at any time any (~~(shotgun, rifle, or other)~~) firearm, without first having obtained a license from the director of licensing, and such license is not to be issued by the director of licensing except upon the certificate of the consul domiciled in the state and representing the country of such alien (~~(, that he)~~). The consul shall present a certified copy of the criminal history from the alien's country, and attest that the alien is a responsible person (~~(and)~~). Upon the payment (~~(for the license)~~) of the sum of (~~(fifteen)~~) twenty-three dollars (~~(: PROVIDED, That)~~) by the alien, the director of licensing may issue the license.

(2) If the consul has not provided a certificate of criminal history within ninety days after request by the alien, the alien may apply for a concealed pistol license under RCW 9.41.070 if the alien has been a resident of this state for not less than two years.

(3) This section shall not apply to Canadian citizens resident in a province which has an enactment or public policy providing substantially similar privilege to residents of the state of Washington and who are carrying or possessing weapons for the purpose of using them in the hunting of game while such persons are in the act of hunting, or while on a hunting trip, or while such persons are competing in a bona fide trap or skeet shoot or any other organized contest where rifles, pistols, or shotguns are used (~~(as to weapons used in such contest)~~). Nothing in this section shall be construed to allow aliens to hunt or fish in this state without first having obtained a (~~(regular)~~) nonresident hunting or fishing license.

(4) Any person violating the provisions of subsection (1) of this section shall be guilty of a (~~(misdemeanor)~~) class C felony."

POINT OF INQUIRY

Senator Talmadge: "Senator Roach, I presume then that for these individuals under Subsection 2 of your amendment that they would be required to go through the normal kind of background check that we require for any other applicant for a concealed weapons permit, so that these individuals can be checked out as to their criminal history here in the state of Washington or in the United States for the two years they have been in residence in this state or in this country."

Senator Roach: "That is correct. This is a very good bill, which quite frankly may even improve upon--definitely improve upon what we have been doing in the past. The bill itself is to close a very large loophole and Senator Ludwig is to be commended for bringing up the issue and this, I think, clarifies it even greater."

Senator Talmadge: "Is there someplace in this bill or someplace else in RCW 9.41 though that makes clear that these resident aliens would be required to go through the background check that a United States citizen would have to go through under our own law or under the Brady Bill at the national level?"

Senator Roach: "9.41.070 requires that there be finger printing and a background check."

Senator Talmadge: "For these individuals?"

Senator Roach: "For anyone applying through that statute. That is what they have to go through. It is a situation where you have your finger prints taken at any local jurisdiction and there is a background check done, not only to your--any kind of felony convictions but also to your mental deviations you may have, in terms of hospitalization. It actually puts them through the same kind of thing that we require of U.S. citizens, which is more stringent than what they are going through now."

SENATE BILL NO. 6401, by Senators Franklin, Winsley, Prentice, Rinehart, Pelz, Talmadge, Moore, Drew, Fraser, Moyer, Wojahn and Williams

Requiring a report on environmental risks in relationship to minority and low-income communities.

MOTIONS

On motion of Senator Fraser, Substitute Senate Bill No. 6401 was substituted for Senate Bill No. 6401 and the substitute bill was placed on second reading and read the second time.

On motion of Senator Fraser, the rules were suspended, Substitute Senate Bill No. 6401 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Anderson: "Senator Fraser, not having been on the committee and heard the discussion, the idea is to match the most polluted sites in the state of Washington, then to see if there is any information on the socio-economic areas, that those sites are in? Is that the idea that we are trying to get here--and an inventory?"

Senator Fraser: "The report that would be produced would include demographic information, a survey of environmental facilities of the categories listed in here, a list of census tracts ranked in order of the amount of toxic chemicals released each year and then a map would be produced."

Senator Anderson: "Is this done with an idea that we are going to have a different prioritization of sites that DOE and EP are going to work on? What course of action will this lead to once we identify this inventory?"

Senator Fraser: "The bill does not deal with the issue of prioritization or regulation or funds, it is strictly a study. It is strictly an inquiry as to compare, basically, two sets of data and see if there are any patterns that we think we might disagree with. If so, then we would engage in a policy discussion of that. But, the study doesn't presume that there is a problem, but there is a legitimate question as to whether there is. I certainly hope this study shows there are not one or two categories of people or communities in our state that are disproportionately impacted. I hope that is the outcome of the study, myself."

Further debate ensued.

POINT OF INQUIRY

Senator Bluechel: "Senator Fraser, this is a fairly extensive study and if you read through it, it requires a good deal of work. What is the fiscal note on this and who carries the burden of paying for it?"

Senator Fraser: "The fiscal--as the previous speaker and prime sponsor indicated--this study was narrowed down substantially from the original introduction. At this point, the fiscal impact is in the twenty thousand dollar range and to be paid, I believe, from the toxic fund. I'll check that."

Further debate ensued.

FURTHER REMARKS BY SENATOR FRASER

Senator Fraser: "Thank you, Mr. President. I would like to correct information I just gave. The source of the money for the study is the Worker Right to Know Fund. This is a fund that is paid--the source of revenue is fees on businesses. There is a fund balance in the fund and that would be the source."

The President declared the question before the Senate to be the roll call on the final passage of Substitute Senate Bill No. 6401.

SECOND READING

SENATE BILL NO. 5692, by Senators Sutherland, Moore, Prentice, Jesernig, Williams, A. Smith, Amondson, Hochstatter, Roach, West and Oke

Financing conservation investment by electrical, gas, and water companies.

MOTION

Senator Sutherland moved that Senate Bill No. 5692 not be substituted.

The President declared the question before the Senate to be the motion by Senator Sutherland that Senate Bill No. 5692 not be substituted.

The motion by Senator Sutherland carried and Senate Bill No. 5692 was not substituted. Senate Bill No. 5692 was read the second time.

MOTION

Senator Sutherland moved that the following amendment by Senators Sutherland and Hochstatter be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Bondable conservation investment" means all expenditures made by electrical, gas, or water companies with respect to energy or water conservation measures and services intended to improve the efficiency of electricity, gas, or water end use, including related carrying costs if:

- (a) The conservation measures and services do not produce assets that would be bondable utility property under the general utility mortgage of the electrical, gas, or water company;
- (b) The commission has determined that the expenditures were incurred in conformance with the terms and conditions of a conservation service tariff in effect with the commission at the time the costs were incurred, and at the time of such determination the commission finds that the company has proven that the costs were prudent, that the terms and conditions of the financing are reasonable, and that financing under this chapter is more favorable to the customer than other reasonably available alternatives;
- (c) The commission has approved inclusion of the expenditures in rate base and has not ordered that they be currently expensed; and
- (d) The commission has not required that the measures demonstrate that energy savings have persisted at a certain level for a certain period before approving the cost of these investments as bondable conservation investment.

(2) "Conservation bonds" means bonds, notes, certificates of beneficial interests in trusts, or other evidences of indebtedness or ownership that:

- (a) The commission determines at or before the time of issuance are issued to finance or refinance bondable conservation investment by an electrical, gas or water company; and
 - (b) Rely partly or wholly for repayment on conservation investment assets and revenues arising with respect thereto.
- (3) "Conservation investment assets" means the statutory right of an electrical, gas, or water company:
- (a) To have included in rate base all of its bondable conservation investment and related carrying costs; and
 - (b) To receive through rates revenues sufficient to recover the bondable conservation investment and the costs of equity and debt capital associated with it, including, without limitation, the payment of principal, premium, if any, and interest on conservation bonds.
- (4) "Finance subsidiary" means any corporation, company, association, joint stock association, or trust that is beneficially owned, directly or indirectly, by an electrical, gas, or water company, or in the case of a trust issuing conservation bonds consisting of beneficial interests, for which an electrical, gas, or water company or a subsidiary thereof is the grantor, or an unaffiliated entity formed for the purpose of financing or refinancing approved conservation investment, and that acquires conservation investment assets directly or indirectly from such company in a transaction approved by the commission.

"NEW SECTION. Sec. 2. (1) An electrical, gas, or water company may file a conservation service tariff with the commission. The tariff shall provide:

- (a) The terms and conditions upon which the company will offer the conservation measures and services specified in the tariff;
 - (b) The period of time during which the conservation measures and services will be offered; and
 - (c) The maximum amount of expenditures to be made during a specified time period by the company on conservation measures and services specified in the tariff.
- (2) The commission has the same authority with respect to a proposed conservation service tariff as it has with regard to any other schedule or classification the effect of which is to change any rate or charge, including, without limitation, the power granted by RCW 80.04.130 to conduct a hearing concerning a proposed conservation service tariff and the reasonableness and justness thereof, and pending such hearing and the decision thereon the commission may suspend the operation of the tariff for a period not exceeding ten months from the time the tariff would otherwise go into effect.

(3) An electrical, gas, or water company may from time to time apply to the commission for a determination that specific expenditures may under its tariff constitute bondable conservation investment. A company may request this determination by the commission in separate proceedings for this purpose or in connection with a general rate case. The commission may designate the expenditures as bondable conservation investment as defined in section 1(1) of this act if it finds that such designation is in the public interest.

(4) The commission shall include in rate base all bondable conservation investment. The commission shall approve rates for service by electrical, gas, and water companies at levels sufficient to recover all of the expenditures of the bondable conservation investment included in rate base and the costs of equity and debt capital associated therewith, including, without limitation, the payment of principal, premium, if any, and interest on conservation bonds. The rates so determined may be included in general rate schedules or may be expressed in one or more separate rate schedules. The commission shall not revalue bondable conservation investment for rate-making purposes, to determine that revenues required to recover bondable conservation investment and associated equity and debt capital costs are unjust, unreasonable, or in any way impair or reduce the value of conservation investment assets or that would impair the timing or the amount of revenues arising with respect to conservation investment assets that have been pledged to secure conservation bonds.

(5) Nothing in this chapter precludes the commission from adopting or continuing other conservation policies and programs intended to provide incentives for and to encourage utility investment in improving the efficiency of energy or water end use. However, the policies or programs shall not impair conservation investment assets. This chapter is not intended to be an exclusive or mandatory approach to conservation programs for electrical, gas, and water companies, and no such company is obligated to file conservation service tariffs under this chapter, to apply to the commission for a determination that conservation costs constitute bondable conservation investment within the meaning of this chapter, or to issue conservation bonds.

(6)(a) If a customer of an electrical, gas, or water company for whose benefit the company made expenditures for conservation measures or services ceases to be a customer of such company for one or more of the following reasons, the commission may require that the portion of such conservation expenditures that had been included in rate base but not theretofore recovered in the rates of such company be removed from the rate base of the company:

- (i) The customer ceases to be a customer of the supplier of energy or water, and the customer repays to the company the portion of the conservation expenditures made for the benefit of such customer that has not theretofore been recovered in rates of the company; or
- (ii) The company sells its property used to serve such customer and the customer ceases to be a customer of the company as a result of such action.

(b) An electrical, gas, or water company may include in a contract for a conservation measure or service, and the commission may by rule or order require to be included in such contracts, a provision requiring that, if the customer ceases to be a customer of that supplier of energy or water, the customer shall repay to the company the portion of the conservation expenditures made for the benefit of such customer that has not theretofore been recovered in rates of the company.

"NEW SECTION. Sec. 3. (1) Electrical, gas, and water companies, or finance subsidiaries, may issue conservation bonds upon approval by the commission.

(2) Electrical, gas, and water companies, or finance subsidiaries may pledge conservation investment assets as collateral for conservation bonds by obtaining an order of the commission approving an issue of conservation bonds and providing for a security interest in conservation investment assets. A security interest in conservation investment assets is created and perfected only upon entry of an order by the commission approving a contract governing the granting of the security interest and the filing with the department of licensing of a UCC-1 financing statement, showing such pledgor as "debtor" and identifying such conservation investment assets and the bondable conservation investment associated therewith. The security interest is enforceable against the debtor and all third parties, subject to the rights of any third parties holding security interests

in the conservation investment assets perfected in the manner described in this section, if value has been given by the purchasers of conservation bonds. An approved security interest in conservation investment assets is a continuously perfected security interest in all revenues and proceeds arising with respect to the associated bondable conservation investment, whether or not such revenues have accrued. Upon such approval, the priority of such security interest shall be as set forth in the contract governing the conservation bonds. Conservation investment assets constitute property for the purposes of contracts securing conservation bonds whether or not the related revenues have accrued.

(3) The relative priority of a security interest created under this section is not defeated or adversely affected by the commingling of revenues arising with respect to conservation investment assets with other funds of the debtor. The holders of conservation bonds shall have a perfected security interest in all cash and deposit accounts of the debtor in which revenues arising with respect to conservation investment assets pledged to such holders have been commingled with other funds, but such perfected security interest is limited to an amount not greater than the amount of such revenues received by the debtor within twelve months before (a) any default under the conservation bonds held by the holders or (b) the institution of insolvency proceedings by or against the debtor, less payments from such revenues to the holders during such twelve-month period. If an event of default occurs under an approved contract governing conservation bonds, the holders of conservation bonds or their authorized representatives, as secured parties, may foreclose or otherwise enforce the security interest in the conservation investment assets securing the conservation bonds, subject to the rights of any third parties holding prior security interests in the conservation investment assets perfected in the manner provided in this section. Upon application by the holders of their representatives, without limiting their other remedies, the commission shall order the sequestration and payment to the holders or their representatives of revenues arising with respect to the conservation investment assets pledged to such holders. Any such order shall remain in full force and effect notwithstanding any bankruptcy, reorganization, or other insolvency proceedings with respect to the debtor. Any surplus in excess of amounts necessary to pay principal, premium, if any, interest, and expenses arising under the contract governing the conservation bonds shall be remitted to the debtor electrical, gas, or water company or the debtor finance subsidiary.

(4) The granting, perfection, and enforcement of security interests in conservation investment assets to secure conservation bonds is governed by this chapter rather than by chapter 62A.9 RCW

(5) A transfer of conservation investment assets by an electrical, gas, or water company to a finance subsidiary, which such parties have in the governing documentation expressly stated to be a sale or other absolute transfer, in a transaction approved in an order issued by the commission and in connection with the issuance by such finance subsidiary of conservation bonds, shall be treated as a true sale, and not as a pledge or other financing, of such conservation investment assets. According the holders of conservation bonds a preferred right to revenues of the electrical, gas, or water company, or the provision by such company of other credit enhancement with respect to conservation bonds, does not impair or negate the characterization of any such transfer as a true sale.

(6) Any successor to an electrical, gas, or water company pursuant to any bankruptcy, reorganization, or other insolvency proceeding shall perform and satisfy all obligations of the company under an approved contract governing conservation bonds, in the same manner and to the same extent as such company before any such proceeding, including, without limitation, collecting and paying to the bondholders or their representatives revenues arising with respect to the conservation investment assets pledged to secure the conservation bonds.

NEW SECTION. Sec. 4. (1) Costs incurred before the effective date of this section by electrical, gas, or water companies with respect to energy or water conservation measures and services intended to improve the efficiency of energy or water end use shall constitute bondable conservation investment for purposes of sections 1 through 4 of this act, if:

(a) The commission has previously issued a rate order authorizing the inclusion of such costs in rate base; and

(b) The commission authorizes the issuance of conservation bonds secured by conservation investment assets associated with such costs.

(2) If costs incurred before the effective date of this section by electrical, gas, or water companies with respect to energy or water conservation measures intended to improve the efficiency of energy or water end use have not previously been considered by the commission for inclusion in rate base, an electrical, gas, or water company may apply to the commission for approval of such costs. If the commission finds that the expenditures are a bondable conservation investment, the commission shall by order designate such expenditures as bondable conservation investment, which shall be subject to sections 1 through 4 of this act.

NEW SECTION. Sec. 5. Sections 1 through 4 of this act are each added to chapter 80.28 RCW."

POINT OF INQUIRY

Senator Cantu: "Senator Vognild, I'm sorry that I hadn't thought about this, but in looking at the materials, it indicates that the entire plan does not have to be submitted. I think in order for the public to have a visibility of what the total plan is, whether or not it all gets implemented is a different question. Were there discussions in committee that indicated that the RTA would actually develop kind of a comprehensive plan, but take the bits and pieces to the voters so that they would have some idea how this all would be integrated?"

Senator Vognild: "Yes, Senator, that is the intent of this. They will develop a total plan. The difference is, under current law, that total plan must be approved at one time by the voters, possibly as much as twelve billion dollars. There are many pieces of that plan that can work by themselves. This will now allow them to submit those pieces to the voters as one part of the total plan. The voters, effectively, can pick and choose what they want and what they want to pay for."

Creating the Warren Featherstone Reid award for excellence in health care.

The bill was read the second time.

MOTION

On motion of Senator Talmadge, the rules were suspended, Senate Bill No. 6516 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

REMARKS BY SENATOR TALMADGE

Senator Talmadge: "Thank you, Madam President and members of the Senate. Sometimes you have an obligation as a committee chairman to do your duty and handle particular pieces of legislation and other times you get to do something that really constitutes a pleasure. Senator West had a bill relating to the idea of an award for quality service in the health care system and we were trying to think of someone after whom we could appropriately name this particular award to be offered by the Governor to someone in our state. It came to our attention and thought process that there could be no one better to name this award after than Warren Featherstone Reid.

"Featherstone Reid is known, I think, to many of you out here on the floor. For those of you that don't know him, you should know that he is someone who grew up in the Wenatchee area, served on the staff of the Legislature in the 1950's and into the early 1960's and then, thereafter, was an assistant to United States Senator Warren Magnuson, in the United State Senate, both in his tenure as Chair of the United States Senate Commerce Committee and in his tenure as President Pro Tempore of the Senate. He also served with Senator Mark Hatfield when Senator Hatfield chaired the Appropriations Committee. He came back to

the state of Washington and served as staff counsel to the Senate Ways and Means Committee during the tenure of Jim McDermott as Chair of that committee and the tenure of Dan McDonald as chair of that committee. Thereafter, Feather worked for the Governor's Office in the Office of Financial Management on health care matters.

"We have received a variety of letters from a variety of people who have indicated what Feather Reid has done for the state of Washington, both as to public health as to access to health care, both in the rural parts of the state and the urban parts of the state and in the area of bio-medical research. Dr. Jack Lein from the University of Washington indicated that the University of Washington status as a premier institution in bio-medial research would not have been possible, had it not been for the quiet work of Feather Reid. The efforts on rural health care would not have been met had we not had those efforts by this quiet and modest man. We've had a variety of letters from people like Jim McDermott, Mike Kreidler, Dr. Lein and Lloyd Meeds, a former member of Congress.

"The one thing that I wanted to relate to the members on the floor was something that occurred in the committee when we heard testimony on the bill. A lot of us know Dave Broderick. Dave is the lobbyist for the Washington Hospital Association, not known to be a softie at heart, but when he came before the committee to testify on this bill, Dave choked up and couldn't go forward with his testimony. He felt so emotional about this award and about the amazing things that this individual that we will name this award after, has been able to accomplish over a life-time of commitment to public service.

"It is real pleasant to be able to do something, Madam President, for someone while they are alive. Feather is not dead; we're not naming this as a memorial, but rather it is a living tribute to someone who has been dedicated to the state of Washington in a capacity of serving the Legislature of the state of Washington, the Executive Branch of the state of Washington, and the Federal Congressional Legislature as well. It is truly a pleasure to be able to commend this bill to the members of the Senate."

REMARKS BY SENATOR WEST

Senator West: "Thank you, Madam President and members of the Senate. This is a bill that will recognize the best and the brightest in the health care field providers. As we continue to grapple and improve our health care system in America, but particularly in the state of Washington, it is important to recognize those providers that do the right thing--do a good job. You know, have high achievements and consumer satisfaction, high achievements in quality and high achievements in cost efficiency--innovation and leadership and other factors. I can think of nobody more fitting to name the award after than Featherstone Reid.

"As was mentioned, he is a quiet and modest man. He would never take credit for anything. He would always lay up the options for decisions and then he would look at you and kind of get a twinkle in his eyes. You would ask him, 'Feather, what do you think I should do,' and he would kind of lean back in his chair and say, 'Well, Senator, I don't have to make that decision, that's for you to do; I didn't get elected.' Again, I think if we are going to hold up the best and the brightest, I think people will be proud to earn this award and I think that many will aspire to it and they will be proud to display it on their wall or wherever with the name of Featherstone Reid on it. I would commend this to the Senate and ask for your approval."

REMARKS BY SENATOR SELLAR

Senator Sellar: "Thank you, Madam President. I, too, would like to add to the accolades for the person for whom this award is being named after. Warren Featherstone Reid and I went to high school together in Wenatchee. We were good friends then and had some good rivalry between ourselves and I really think it is a privilege to have enjoyed his comments and company through the years when our paths have passed. I agree that he is an unusual and unique person and I feel very honored that I have had the opportunity to enjoy conversations with him. I think this is a marvelous way to add to those accolades. Thank you very much."

REMARKS BY SENATOR McDONALD

Senator McDonald: "Sounds like we are giving an eulogy and certainly we aren't, because he is very much alive and with us. I think the one thing about being in the Legislature is the somewhat unique personalities that you run across every once in a while. 'Unique' has got to be Featherstone Reid, because how else can you explain being on the staff of Warren Magnuson, Jim McDermott and Dan McDonald. The way he was able to do that was because he gave good consul--wise consul. He always was terribly honest with you and as Senator West pointed out, he would finally say, 'And that is your choice, Senator.' I think he is a unique personality; I think this a fitting tribute to a very much live person and somebody that I think very highly of, but I think that anybody that has been in contact with him thinks as well."

POINT OF INQUIRY

Senator Anderson: "Senator Pelz, in the summary that we have in front of us of the proposed substitute, it references basic education funds. Are we using basic ed funds to fund this program and if we are can you explain how that mechanism works?"

Senator Pelz: "Yes, the department--DJR will administer the program. They will set up a grant program to contract with school districts. The school districts shall apply their basic education dollars to the education of the children involved, so if the child is not in school the basic ed dollars will not flow. The basic ed dollars are not impacted by this bill. This bill speaks to--and it is null and voided--but the bill speaks to the grant program run by DJR to allow school districts some additional case management and other activities with the child while they are enrolling a child in an educational program, and it is the education program that those basic ed dollars flow to. Senator Quigley: "Yes, that is how--"

Senator Roach: "Thank you, Senator Quigley. That is the last question."

PART IV"

Renumber remaining sections and correct internal references accordingly.

POINT OF ORDER

Senator Spanel: "A point of order, Mr. President. I raise the question of scope and object of this amendment. Senate Bill No. 6111 does not address responsibility of state officials regarding the conduct of elections or the responsibility of the Secretary of State to produce a voters' pamphlet. The bill addresses the subject of officials conduct in election only in the context of defining what is and is not ethical conduct. The amendment here would require the production of a primary voters' pamphlet by the Secretary of State and address related matters and, therefore, expands the scope and object of this bill."

Further debate ensued.

There being no objection, the President deferred further consideration of the amendment by Senator Linda Smith on page 28, after line 13.

MOTION

Senator Linda Smith moved that the following amendment be adopted:

On page 28, after line 13, insert the following:

POINT OF ORDER

Senator Spanel: "A point of order, Mr. President. I raise the question of the scope and object of this amendment. As stated earlier, I did state what this bill does deal with and it does not address the registration or reporting by lobbyists or those who hire lobbyists. This amendment would require comprehensive changes in the registration and reporting requirements of the lobbyists and the lobbyist's employers and institute new reporting requirements for other persons as well. The amendment, therefore, expands the scope and object of the bill."

Further debate ensued.

There being no objection, the President deferred further consideration of the amendment by Senator Linda Smith on page 28, after line 13.

MOTION

Senator Linda Smith moved that the following amendment be adopted:

On page 28, after line 14, insert the following:

"**Sec. 301.** RCW 42.17.350 and 1984 c 287 s 74 are each amended to read as follows:

There is hereby established a "public disclosure commission" which shall be composed of ~~((five))~~ seven members who shall be appointed by the governor, with the consent of the senate. All appointees shall be persons of the highest integrity and qualifications. No more than three members shall have an identification with the same political party. The original members shall be appointed within sixty days after January 1, 1973. The term of each member shall be five years except that the ~~((original five members shall serve initial terms of one, two, three, four, and five))~~ two new members appointed after the effective date of this act shall serve initial terms of two and four years, respectively, as designated by the governor. No member of the commission, during his or her tenure, shall (1) hold or campaign for elective office; (2) be an officer of any political party or political committee; (3) permit his or her name to be used, or make contributions, in support of or in opposition to any candidate or proposition; (4) participate in any way in any election campaign; or (5) lobby or employ or assist a lobbyist: PROVIDED, That a member or the staff of the commission may lobby to the limited extent permitted by RCW 42.17.190 on matters directly affecting this chapter. No member shall be eligible for appointment to more than ~~((one))~~ two full terms. A vacancy on the commission shall be filled by the governor within thirty days of the vacancy ~~((by the governor))~~, with the consent of the senate and the appointee shall serve for the remaining term of his or her predecessor. A vacancy shall not impair the powers of the remaining members to exercise all of the powers of the commission. ~~((Three))~~ Four members of the commission shall constitute a quorum. The commission shall elect its own ~~((chairman))~~ chair and adopt its own rules of procedure in the manner provided in chapter 34.05 RCW. Any member of the commission may be removed by the governor, but only upon grounds of neglect of duty or misconduct in office.

Members shall be compensated in accordance with RCW 43.03.250 and in addition shall be reimbursed for travel expenses incurred while engaged in the business of the commission as provided in RCW 43.03.050 and 43.03.060. The compensation provided pursuant to this section shall not be considered salary for purposes of the provisions of any retirement system created pursuant to the general laws of this state."

POINT OF ORDER

Senator Spanel: "A point of order, Mr. President. I raise the question of the scope and object of this amendment. As I said, Senate Bill No. 6111 concerns standards of conduct for state officials and state employees. The bill does not address any

matters relating to campaign practices or the public disclosure law. This amendment simply makes changes in the membership and terms of a body--the Public Disclosure Commission--which is not otherwise mentioned in the bill and which, under the bill's provisions, has no jurisdiction over the standards of conduct established by the provisions of the bill and, therefore, this amendment expands the scope and object of the bill."

Further debate ensued.

There being no objection, the President deferred further consideration of the amendment by Senator Linda Smith on page 28, after line 14.

MOTION

Senator Linda Smith moved that the following amendment be adopted:

On page 28, after line 14, insert the following:

Sec. 301. RCW 42.17.190 and 1986 c 239 s 1 are each amended to read as follows:

(1) ~~(Every legislator and every committee of the legislature shall file with the commission quarterly reports listing the names, addresses, and salaries of all persons employed by the person or committee making the filing for the purpose of aiding in the preparation or enactment of legislation or the performance of legislative duties of such legislator or committee during the preceding quarter. The reports shall be made in the form and the manner prescribed by the commission and shall be filed between the first and tenth days of each calendar quarter. PROVIDED, That the information required by this subsection may be supplied, insofar as it is available, by the chief clerk of the house of representatives or by the secretary of the senate on a form prepared by the commission.)~~ The house of representatives and the senate shall report annually: The total budget; the portion of the total attributed to staff; number of full-time and part-time positions occupied by nonpartisan staff, with dollar figures as well as number of positions; number of full-time and part-time positions occupied by partisan staff, by caucus, and the dollar figures attributed to those positions; and comparable figures for the preceding ten years. By no later than July 1, 1995, the house of representatives and the senate shall each reduce the number of full-time equivalent positions allotted to each caucus by one-half the number allotted to each caucus as of June 30, 1993.

(2) Unless authorized by subsection (3) of this section or otherwise expressly authorized by law, no public funds may be used directly or indirectly for lobbying: PROVIDED, This does not prevent officers or employees of an agency from communicating with a member of the legislature on the request of that member; or communicating to the legislature, through the proper official channels, requests for legislative action or appropriations which are deemed necessary for the efficient conduct of the public business or actually made in the proper performance of their official duties: PROVIDED FURTHER, That this subsection does not apply to the legislative branch.

(3) Any agency, not otherwise expressly authorized by law, may expend public funds for lobbying, but such lobbying activity shall be limited to (a) providing information or communicating on matters pertaining to official agency business to any elected official or officer or employee of any agency or (b) advocating the official position or interests of the agency to any elected official or officer or employee of any agency: PROVIDED, That public funds may not be expended as a direct or indirect gift or campaign contribution to any elected official or officer or employee of any agency. For the purposes of this subsection, the term "gift" means a voluntary transfer of any thing of value without consideration of equal or greater value, but does not include informational material transferred for the sole purpose of informing the recipient about matters pertaining to official agency business(=~~PROVIDED FURTHER, That~~). This section does not permit the printing of a state publication which has been otherwise prohibited by law.

(4) No elective official or any employee of his or her office or any person appointed to or employed by any public office or agency may use or authorize the use of any of the facilities of a public office or agency, directly or indirectly, in any effort to support or oppose an initiative to the legislature. "Facilities of a public office or agency" has the same meaning as in RCW 42.17.130. The provisions of this subsection shall not apply to the following activities:

(a) Action taken at an open public meeting by members of an elected legislative body to express a collective decision, or to actually vote upon a motion, proposal, resolution, order, or ordinance, or to support or oppose an initiative to the legislature so long as (i) any required notice of the meeting includes the title and number of the initiative to the legislature, and (ii) members of the legislative body or members of the public are afforded an approximately equal opportunity for the expression of an opposing view;

(b) A statement by an elected official in support of or in opposition to any initiative to the legislature at an open press conference or in response to a specific inquiry;

(c) Activities which are part of the normal and regular conduct of the office or agency.

(5) Each state agency, county, city, town, municipal corporation, quasi-municipal corporation, or special purpose district which expends public funds for lobbying shall file with the commission, except as exempted by (d) of this subsection, quarterly statements providing the following information for the quarter just completed:

(a) The name of the agency filing the statement;

(b) The name, title, and job description and salary of each elected official, officer, or employee who lobbied, a general description of the nature of the lobbying, and the proportionate amount of time spent on the lobbying;

(c) A listing of expenditures incurred by the agency for lobbying including but not limited to travel, consultant or other special contractual services, and brochures and other publications, the principal purpose of which is to influence legislation;

(d) For purposes of this subsection the term "lobbying" does not include:

(i) Requests for appropriations by a state agency to the office of financial management pursuant to chapter 43.88 RCW nor requests by the office of financial management to the legislature for appropriations other than its own agency budget requests;

(ii) Recommendations or reports to the legislature in response to a legislative request expressly requesting or directing a specific study, recommendation, or report by an agency on a particular subject;

(iii) Official reports including recommendations submitted to the legislature on an annual or biennial basis by a state agency as required by law;

(iv) Requests, recommendations, or other communication between or within state agencies or between or within local agencies;

(v) Any other lobbying to the extent that it includes:

(A) Telephone conversations or preparation of written correspondence;

(B) In-person lobbying on behalf of an agency of no more than four days or parts thereof during any three-month period by officers or employees of that agency and in-person lobbying by any elected official of such agency on behalf of such agency or in connection with the powers, duties, or compensation of such official: PROVIDED, That the total expenditures of nonpublic funds made in connection with such lobbying for or on behalf of any one or more members of the legislature or state elected officials or public officers or employees of the state of Washington do not exceed fifteen dollars for any three-month period: PROVIDED FURTHER, That the exemption under this subsection is in addition to the exemption provided in (A) of this subsection;

(C) Preparation or adoption of policy positions.

The statements shall be in the form and the manner prescribed by the commission and shall be filed within one month after the end of the quarter covered by the report.

(6) In lieu of reporting under subsection (5) of this section any county, city, town, municipal corporation, quasi municipal corporation, or special purpose district may determine and so notify the public disclosure commission, that elected officials, officers, or employees who on behalf of any such local agency engage in lobbying reportable under subsection (5) of this section shall register and report such reportable lobbying in the same manner as a lobbyist who is required to register and report under RCW 42.17.150 and 42.17.170. Each such local agency shall report as a lobbyist employer pursuant to RCW 42.17.180.

(7) The provisions of this section do not relieve any elected official or officer or employee of an agency from complying with other provisions of this chapter, if such elected official, officer, or employee is not otherwise exempted.

(8) The purpose of this section is to require each state agency and certain local agencies to report the identities of those persons who lobby on behalf of the agency for compensation, together with certain separately identifiable and measurable expenditures of an agency's funds for that purpose. This section shall be reasonably construed to accomplish that purpose and not to require any agency to report any of its general overhead cost or any other costs which relate only indirectly or incidentally to lobbying or which are equally attributable to or inseparable from nonlobbying activities of the agency.

The public disclosure commission may adopt rules clarifying and implementing this legislative interpretation and policy."

Voting yea: Senators Anderson, Erwin, McDonald, Morton, Newhouse, Oke, Roach, Schow, Sellar and Smith, L. - 10.

Voting nay: Senators Amondson, Bauer, Bluechel, Deccio, Drew, Franklin, Fraser, Gaspard, Hargrove, Haugen, Loveland, Ludwig, McAuliffe, Moore, Niemi, Owen, Pelz, Prentice, Prince, Quigley, Rasmussen, M., Rinehart, Sheldon, Skratek, Snyder, Spanel, Sutherland, Talmadge, Vognd, West, Williams, Winsley and Wojahn - 33.

MOTION

On motion of Senator Haugen, the rules were suspended, Engrossed Substitute Senate Bill No. 6111 was advanced to third reading, the second reading considered the third and bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Talmadge: "Senator Drew, Section 104 of the bill restricts the ability of a state officer or employee to assist another person in some situations. I guess I have a couple of questions about that section. First, would the bill prohibit a legislator from assisting a constituent who is having a problem or difficulty with a state agency?"

Senator Drew: "No, Section 104 expressly excludes activity that is in the course of or incidental to official duties. Assistance of that sort is clearly contemplated in the bill in this and other sections."

Senator Talmadge: "Will this section prohibit a legislator who is a lawyer from representing a client in a lawsuit against a state agency?"

Senator Drew: "No it will not, unless the lawsuit is based on a transaction in which the legislator participated on the state's behalf. Amendments adopted today to Section 101 (19) make clear that the usual legislative duties do not constitute such participation."

Senator Talmadge: "I guess the final question, Senator, will the bill prohibit a business of which a legislator is an employee, a partner, or owner, from doing business with the state or local government?"

Senator Drew: "Again, the answer is 'no,' unless a business transaction concerns a transaction involving the state in which the legislator was substantially and personally involved. As previously noted, the usual legislative duties--including preparation, consideration and enactment of legislation--would not trigger the restrictions on conduct set forth in Section 104."

Senator Talmadge: "Thank you, Senator."

Further debate ensued.

The President declared the question before the Senate to be the roll call on the final passage of Engrossed Substitute Senate Bill No. 6111.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute Senate Bill No. 6111 and the bill passed the Senate by the following vote: Yeas, 44; Nays, 1; Absent, 0; Excused, 4.

Voting nay: Senator Smith, L. - 1.

Excused: Senators Cantu, Hochstatter, McCaslin and Moyer - 4.

(6) As used in this section:

(a) "Competitive solicitation" means a documented formal process providing an equal and open opportunity to qualified parties and culminating in a selection based on criteria that may include such factors as the service provider or underwriter's fees or costs, ability, capacity, experience, reputation, responsiveness to time limitations, responsiveness to solicitation requirements, quality of previous performance, and compliance with statutes and rules relating to contracts or services.

(b) "Person" includes an individual, partnership, joint venture, public or private corporation, association, or other group of persons, however organized. The term includes agents, officers, principals, and professional employees of such person, but only from the date the individual or firm becomes employed or is retained by the person as an agent, officer, principal, or professional employee.

(c) "Service provider" means an individual or firm that provides legal or financial advisory assistance to the state or to another service provider or underwriter, for compensation. The term includes agents, officers, principals, and professional employees of the service provider, but only from the date the individual or firm becomes employed or is retained by the service provider as an agent, officer, principal, or professional employee."

The way I understand the people who supported that amendment in my district, they felt it was only a start and they wanted to go further. I challenge you--I challenge you not to vote for something that would not strengthen. To me, the public is saying, 'We want stronger laws, not weaker.' I would urge you to support this bill."

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 44.04 RCW to read as follows:

(1) The legislature recognizes that clear grants of rule-making authority are necessary for efficient and effective regulatory programs and accountability in governmental decision making, and that the agency granted rule-making authority should be the most competent to exercise jurisdiction over the subject matter. It is therefore the legislature's purpose to establish processes to ensure that existing and future laws provide clear and appropriate rule-making authority.

(2) The standing committees of the legislature shall selectively review legislative grants of rule-making authority to determine: (a) Whether the authority granted is clear and as intended; (b) whether the legislative intent is specific and includes defined objectives; and (c) whether the grant of authority is consistent with and not duplicative of grants to other agencies. In performing such a review, priority shall be given to grants of rule-making authority to the department of revenue, the employment security department, the department of ecology, the department of labor and industries, the department of health, the department of licensing, and the department of fish and wildlife.

In those instances where the review identifies statutes that do not meet these criteria, corrective legislation shall be prepared that clarifies, narrows, or repeals the grants of rule-making authority.

(3) The senate and the house of representatives shall ensure that bills introduced that grant rule-making authority to state agencies contain clear and specific direction regarding the authority granted. (4) Appropriate standing committees of the senate and house of representatives shall prepare a regulatory note as part of the bill report on each bill before the committee that grants rule-making authority to a state agency. The regulatory note shall identify if rule making is required or authorized by the bill, describe the nature of the rule making, identify agencies to which rule making is delegated, and identify any other agencies that have rule-making authority over the same activity or subject matter.

Sec. 2. RCW 34.05.370 and 1988 c 288 s 313 are each amended to read as follows:

(1) Each agency shall maintain an official rule-making file for each rule that it (a) proposes by publication in the state register, or (b) adopts. The file and materials incorporated by reference shall be available for public inspection.

(2) The agency rule-making file shall contain all of the following:

(a) Copies of all publications in the state register with respect to the rule or the proceeding upon which the rule is based;
(b) Copies of any portions of the agency's public rule-making docket containing entries relating to the rule or the proceeding on which the rule is based;

(c) All written petitions, requests, submissions, and comments received by the agency and all other written material regarded by the agency as important to adoption of the rule or the proceeding on which the rule is based;

(d) Any official transcript of oral presentations made in the proceeding on which the rule is based or, if not transcribed, any tape recording or stenographic record of them, and any memorandum prepared by a presiding official summarizing the contents of those presentations;

(e) The concise explanatory statement required by RCW 34.05.355;

(f) All petitions for exceptions to, amendment of, or repeal or suspension of, the rule; (~~and~~)

(g) Citations to all data, factual information, studies, or reports on which the agency relies in the adoption of the rule, indicating where such data, factual information, studies, or reports are available for review by the public;

(h) The written summary and response required by RCW 34.05.325(6); and

(i) Any other material placed in the file by the agency.

(3) Internal agency documents are exempt from inclusion in the rule-making file under subsection (2) of this section to the extent they constitute preliminary drafts, notes, recommendations, and intra-agency memoranda in which opinions are expressed or policies formulated or recommended, except that a specific document is not exempt from inclusion when it is publicly cited by an agency in connection with its decision.

(4) Upon judicial review, the file required by this section constitutes the official agency rule-making file with respect to that rule. Unless otherwise required by another provision of law, the official agency rule-making file need not be the exclusive basis for agency action on that rule.

Sec. 3. RCW 34.05.350 and 1989 c 175 s 10 are each amended to read as follows:

(1) If an agency for good cause finds:

(a) That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest; or

(b) That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule, the agency may dispense with those requirements and adopt, amend, or repeal the rule on an emergency basis. The agency's finding and a concise statement of the reasons for its finding shall be incorporated in the order for adoption of the emergency rule or amendment filed with the office of the code reviser under RCW 34.05.380 and with the rules review committee.

(2) An emergency rule adopted under this section takes effect upon filing with the code reviser, unless a later date is specified in the order of adoption, and may not remain in effect for longer than one hundred twenty days after filing. Identical or substantially similar emergency rules may not be adopted in sequence unless conditions have changed or the agency has filed notice of its intent to adopt the rule as a permanent rule, and is actively undertaking the appropriate procedures to adopt the rule as a permanent rule. This section does not relieve any agency from compliance with any law requiring that its permanent rules be approved by designated persons or bodies before they become effective.

(3) Within seven days after the rule is adopted, any person may petition the governor requesting the immediate repeal of a rule adopted on an emergency basis by any agency headed by a nonelected official. Within seven days after submission of the petition, the governor shall either deny the petition in writing, stating his or her reasons for the denial, or order the immediate repeal of the rule. In ruling on the petition, the governor shall consider only whether the conditions in subsection (1) of this section were met such that adoption of the rule on an emergency basis was necessary. If the governor orders the repeal of the emergency rule, any agency action based on that rule is void. This subsection shall not be construed to prohibit adoption of any rule as a permanent rule.

NEW SECTION. Sec. 4. A new section is added to chapter 34.05 RCW to read as follows:

(1) In addition to other requirements imposed by law, an agency may not adopt a rule the violation of which subjects a person to a penalty or administrative sanction; that establishes, alters, or revokes a qualification or standard for the issuance, suspension, or revocation of a license to pursue a commercial activity, trade, or profession; or that establishes, alters, or revokes a mandatory standard for a product or material that must be met before distribution or sale, unless:

- (a) The rule is needed;
- (b) The likely benefits of the rule justify its likely costs;
- (c) There are no alternatives to the rule that would be as effective but less burdensome on those required to comply;
- (d) Any fee imposed is reasonable and related to the cost of administration;
- (e) The rule is clearly and simply stated, so that it can be understood by persons required to comply;
- (f) The rule does not conflict with, or unless necessary to achieve the objectives of the statute upon which the rule is based, overlap, or duplicate any other provision of federal, state, or local law;
- (g) The rule does not, unless necessary to achieve the objectives of the statute upon which the rule is based, differ from any provision of federal law regulating the same activity or subject matter;
- (h) The rule does not, unless necessary to achieve the objectives of the statute upon which the rule is based, differ in its application to public and private entities.

(2) Nothing in subsection (1) of this section shall be construed to change the existing standard of judicial review of agency rule making.

NEW SECTION. Sec. 5. A new section is added to chapter 34.05 RCW to read as follows:

(1) Upon adoption of any rule covered by section 4 of this act, an agency shall have a plan to: (a) Inform and educate affected persons about the rule; (b) promote voluntary compliance; and (c) evaluate whether the rule achieves the purpose for which it was adopted.

(2) Upon the adoption of a rule covered by section 4 of this act regulating the same activity or subject matter as another provision of federal, state, or local law, an agency shall do all of the following:

- (a) Provide to the business assistance center a list citing by reference the other federal, state, and local laws that regulate the same activity or subject matter;
- (b) Coordinate implementation and enforcement of the rule with the other federal, state, and local entities regulating the same activity or subject matter by doing one or more of the following: (i) Deferring to the other entity; (ii) designating a lead agency; or (iii) entering into an agreement with the other entities specifying how the agency and entities will coordinate implementation and enforcement. If the agency is unable to meet this requirement, the agency shall report to the legislature pursuant to (c) of this subsection;
- (c) Report to the chief clerk of the house of representatives and the secretary of the senate regarding: (i) The existence of any overlap or duplication of other federal, state, or local laws, and any differences from federal law; (ii) legislation that may be necessary to eliminate or mitigate any adverse effects of such overlap, duplication, or difference; and (iii) legislation that may be necessary to facilitate coordination with appropriate governmental entities regulating the same activity or subject matter.

Sec. 6. RCW 34.05.330 and 1988 c 288 s 305 are each amended to read as follows:

(1) Any person may petition an agency requesting the adoption, amendment, or repeal of any rule. Each agency may prescribe by rule the form for such petitions and the procedure for their submission, consideration, and disposition. Within sixty days after submission of a petition, the agency shall ((4)) (a) either deny the petition in writing, stating its reasons for the denial, or ((2)) (b) initiate rule-making proceedings in accordance with this chapter.

(2) If an agency headed by a nonelected official denies a petition to repeal or amend a rule submitted under subsection (1) of this section, the petitioner, within thirty days of the denial, may appeal the denial to the governor. The petitioner may file notice of the appeal with the code reviser for publication in the Washington State Register. Within sixty days after receiving the appeal, the governor shall either reject the appeal in writing, stating his or her reasons for the rejection, or order the agency to initiate rule-making proceedings in accordance with this chapter. In deciding on the appeal, among other factors the governor should consider:

- (a) Whether the agency complied with sections 4 and 5 of this act;
- (b) Whether the agency has established an adequate internal rules review process, allowing public participation, and has subjected the rule to that review;

- (c) The nature of complaints and other comments received from the public concerning the rule;
- (d) Whether the rule conflicts with, overlaps, or duplicates any other provision of federal, state, or local law and, if so, whether the agency has taken steps to mitigate any adverse effects of the conflict, overlap, or duplication;
- (e) The extent to which technology, social or economic conditions, or other relevant factors have changed since the rule was adopted, and whether, given those changes, the rule continues to be necessary and appropriate;
- (f) Whether the statute that the rule implements has been amended or repealed by the legislature, or ruled invalid by a court.

(3) The governor's office shall provide a copy of the governor's ruling under subsection (2) of this section to anyone upon request.

Sec. 7. RCW 34.05.325 and 1992 c 57 s 1 are each amended to read as follows:

(1) The agency shall make a good faith effort to insure that the information on the proposed rule published pursuant to RCW 34.05.320 accurately reflects the rule to be presented and considered at the oral hearing on the rule. Written comment about a proposed rule, including supporting data, shall be accepted by an agency if received no later than the time and date specified in the notice, or such later time and date established at the rule-making hearing.

(2) The agency shall provide an opportunity for oral comment to be received by the agency in a rule-making hearing.

(3) If the agency possesses equipment capable of receiving telefacsimile transmissions or recorded telephonic communications, the agency may provide in its notice of hearing filed under RCW 34.05.320 that interested parties may comment on proposed rules by these means. If the agency chooses to receive comments by these means, the notice of hearing shall provide instructions for making such comments, including, but not limited to, appropriate telephone numbers to be used; the date and time by which comments must be received; required methods to verify the receipt and

authenticity of the comments; and any limitations on the number of pages for telefacsimile transmission comments and on the minutes of tape recorded comments. The agency shall accept comments received by these means for inclusion in the official record if the comments are made in accordance with the agency's instructions.

(4) The agency head, a member of the agency head, or a presiding officer designated by the agency head shall preside at the rule-making hearing. Rule-making hearings shall be open to the public. The agency shall cause a record to be made of the hearing by stenographic, mechanical, or electronic means. Unless the agency head presides or is present at substantially all the hearings, the presiding official shall prepare a memorandum for consideration by the agency head, summarizing the contents of the presentations made at the rule-making hearing. The summarizing memorandum is a public document and shall be made available to any person in accordance with chapter 42.17 RCW.

(5) Rule-making hearings are legislative in character and shall be reasonably conducted by the presiding official to afford interested persons the opportunity to present comment. Rule-making hearings may be continued to a later time and place established on the record without publication of further notice under RCW 34.05.320.

(6) Before the adoption of a final rule, an agency shall prepare a written summary of all comments received regarding the proposed rule, and a substantive response to the comments by category or subject matter, indicating how the final rule reflects agency consideration of the comments, or why it fails to do so. The agency shall provide the written summary and response to any person upon request or from whom the agency received comment.

Sec. 8. RCW 34.05.355 and 1988 c 288 s 310 are each amended to read as follows:

~~((4))~~ At the time it files an adopted rule with the code reviser or within thirty days thereafter, an agency shall place into the rule-making file maintained under RCW 34.05.370 a concise explanatory statement about the rule, identifying ~~((a))~~ (1) the agency's reasons for adopting the rule, and ~~((b))~~ (2) a description of any difference between the text of the proposed rule as published in the register and the text of the rule as adopted, other than editing changes, stating the reasons for change.

~~((2) Upon the request of any interested person within thirty days after adoption of a rule, the agency shall issue a concise statement of the principal reasons for overruling the considerations urged against its adoption.)~~

NEW SECTION. Sec. 9. A new section is added to chapter 19.85 RCW to read as follows:

The legislature finds that administrative rules adopted by state agencies can have a disproportionate impact on the state's small businesses because of the size of those businesses. This disproportionate impact reduces competition, innovation, employment, and new employment opportunities, and threatens the very existence of some small businesses. The legislature therefore enacts the regulatory fairness act, chapter . . . , Laws of 1994 (this act), with the intent of reducing the disproportionate impact of state administrative rules on small business.

Sec. 10. RCW 19.85.020 and 1993 c 280 s 34 are each amended to read as follows:

Unless the context clearly indicates otherwise, the definitions in this section apply through this chapter.

(1) "Small business" means any business entity, including a sole proprietorship, corporation, partnership, or other legal entity, that is owned and operated independently from all other businesses, that has the purpose of making a profit, and that has fifty or fewer employees.

(2) "Small business economic impact statement" means a statement meeting the requirements of RCW 19.85.040 prepared by a state agency pursuant to RCW 19.85.030.

(3) "Industry" means all of the businesses in this state in any one ~~((three-digit))~~ four-digit standard industrial classification as published by the United States department of commerce.

Sec. 11. RCW 19.85.030 and 1989 c 374 s 2 and 1989 c 175 s 72 are each reenacted and amended to read as follows:

~~((In the adoption of any rule pursuant to RCW 34.05.320 that will have an economic impact on more than twenty percent of all industries, or more than ten percent of any one industry, the adopting agency:~~

(1) Shall reduce the economic impact of the rule on small business by doing one or more of the following when it is legal and feasible in meeting the stated objective of the statutes which are the basis of the proposed rule:

- ~~(a) Establish differing compliance or reporting requirements or timetables for small businesses;~~
- ~~(b) Clarify, consolidate, or simplify the compliance and reporting requirements under the rule for small businesses;~~
- ~~(c) Establish performance rather than design standards;~~
- ~~(d) Exempt small businesses from any or all requirements of the rule;~~

~~(2) Shall prepare a small business economic impact statement in accordance with RCW 19.85.040 and file such statement with the code reviser along with the notice required under RCW 34.05.320;~~

~~((3)) (1) In the adoption of a rule under RCW 34.05.320, an agency shall prepare a small business economic impact statement: (a) If the proposed rule will impose more than minor costs on businesses in an industry; or (b) if requested to do so by a majority vote of the joint administrative rules review committee within thirty days after notice of the proposed rule is published in the state register.~~

An agency shall prepare the small business economic impact statement in accordance with RCW 19.85.040, and file it with the code reviser along with the notice required under RCW 34.05.320. An agency shall file a statement prepared at the request of the joint administrative rules review committee with the code reviser upon its completion before the adoption of the rule. An agency shall provide a copy of the small business economic impact statement to any person requesting it.

An agency may request assistance from the business assistance center in the preparation of the small business economic impact statement.

(2) A proposed rule will impose more than minor costs on businesses in an industry when the costs imposed will equal or exceed 0.1 percent of the average yearly profit for businesses in that industry. The business assistance center shall develop guidelines to assist agencies in determining whether a proposed rule will impose such costs. The business assistance center may review an agency determination that a proposed rule will not impose such costs, and shall advise the joint administrative rules review committee on disputes involving agency determinations under this section.

(3) Based upon the extent of disproportionate impact on small business identified in the statement prepared under RCW 19.85.040, the agency shall, unless reasonable justification exists to do otherwise, reduce the costs imposed by the rule on small businesses. Methods to reduce the costs on small businesses may include, but are not limited to:

- (a) Reducing, modifying, or eliminating substantive regulatory requirements;
- (b) Establishing performance rather than design standards;
- (c) Simplifying, reducing, or eliminating recordkeeping and reporting requirements;
- (d) Reducing the frequency of inspections;
- (e) Delaying compliance timetables; or
- (f) Reducing or modifying fine schedules for noncompliance.

Sec. 12. RCW 19.85.040 and 1989 c 374 s 3 and 1989 c 175 s 73 are each reenacted and amended to read as follows:

(1) A small business economic impact statement must include a brief description of the reporting, recordkeeping, and other compliance requirements of the proposed rule, and the kinds of professional services that a small business is likely to need in order to comply with such requirements. ~~((A small business economic impact statement))~~ It shall analyze ~~((based on existing data))~~ the costs of compliance for businesses required to comply with the ~~((provisions of a))~~ proposed rule adopted pursuant to RCW 34.05.320, including costs of equipment, supplies, labor, lost sales or revenue, and increased administrative costs ~~((and))~~. To determine whether the proposed rule will have a disproportionate impact on small businesses, the impact statement must compare ~~((to the greatest extent possible))~~ the cost of compliance for small business with the cost of compliance for the ten percent of ~~((firms which))~~ businesses that are the largest businesses required to comply with the proposed ~~((new or amendatory))~~ rules ~~((The small business economic impact statement shall use))~~ using one or more of the following as a basis for comparing costs:

- ~~((4))~~ (a) Cost per employee;
- ~~((2))~~ (b) Cost per hour of labor; or

~~((3))~~ (c) Cost per one hundred dollars of sales(;

~~(4) Any combination of (1), (2), or (3)).~~

(2) A small business economic impact statement must also include:

(a) A statement of the steps taken by the agency to reduce the costs of the rule on small businesses as required by RCW 19.85.030(3), or reasonable justification for not doing so, addressing, at a minimum, each of the options listed in RCW 19.85.030(3);

(b) A description of how the agency will involve small businesses in the development of the rule; and

(c) A list of industries that will be required to comply with the rule.

(3) To obtain information for purposes of this section, an agency may survey a representative sample of affected businesses or trade associations and should, whenever possible, appoint a committee under RCW 34.05.310(2) to assist in the accurate assessment of the costs of a proposed rule, and the means to reduce the costs imposed on small business.

NEW SECTION. Sec. 13. A new section is added to chapter 19.85 RCW to read as follows:

Unless so requested by a majority vote of the joint administrative rules review committee under RCW 19.85.030, an agency is not required to comply with this chapter when adopting any rule solely for the purpose of conformity or compliance, or both, with federal law. In lieu of the statement required under RCW 19.85.030, the agency shall file a statement citing, with specificity, the federal law with which the rule is being adopted to conform or comply, and describing the consequences to the state if the rule is not adopted.

Sec. 14. RCW 34.05.320 and 1992 c 197 s 8 are each amended to read as follows:

(1) At least twenty days before the rule-making hearing at which the agency receives public comment regarding adoption of a rule, the agency shall cause notice of the hearing to be published in the state register. The publication constitutes the proposal of a rule. The notice shall include all of the following:

(a) A title, a description of the rule's purpose, and any other information which may be of assistance in identifying the rule or its purpose;

(b) Citations of the statutory authority for adopting the rule and the specific statute the rule is intended to implement;

Sec. 17. RCW 34.05.620 and 1988 c 288 s 602 are each amended to read as follows:

Whenever a majority of the members of the rules review committee determines that a proposed rule is not within the intent of the legislature as expressed in the statute which the rule implements, or that an agency may not be adopting a proposed rule in accordance with all applicable provisions of law, including section 4 of this act and chapter 19.85 RCW, the committee shall give the affected agency written notice of its decision. The notice shall be given at least seven days prior to any hearing scheduled for consideration of or adoption of the proposed rule pursuant to RCW 34.05.320. The notice shall include a statement of the review committee's findings and the reasons therefor. When the agency holds a hearing on the proposed rule, the agency shall consider the review committee's decision.

Sec. 18. RCW 34.05.630 and 1993 c 277 s 1 are each amended to read as follows:

(1) All rules required to be filed pursuant to RCW 34.05.380, and emergency rules adopted pursuant to RCW 34.05.350, are subject to selective review by the legislature.

(2) The rules review committee may review an agency's use of policy statements, guidelines, and issuances that are of general applicability, or their equivalents to determine whether or not an agency has failed to adopt a rule or whether they are within the intent of the legislature as expressed by the governing statute.

(3) If the rules review committee finds by a majority vote of its members: (a) That an existing rule is not within the intent of the legislature as expressed by the statute which the rule implements, (b) that the rule has not been adopted in accordance with all applicable provisions of law, including section 4 of this act and chapter 19.85 RCW, (c) that an agency is using a policy statement, guideline, or issuance in place of a rule, or (d) that the policy statement, guideline, or issuance is outside of legislative intent, the agency affected shall be notified of such finding and the reasons therefor. Within thirty days of the receipt of the rules review committee's notice, the agency shall file notice of a hearing on the rules review committee's finding with the code reviser and mail notice to all persons who have made timely request of the agency for advance notice of its rule-making proceedings as provided in RCW 34.05.320. The agency's notice shall include the rules review committee's findings and reasons therefor, and shall be published in the Washington state register in accordance with the provisions of chapter 34.08 RCW.

(4) The agency shall consider fully all written and oral submissions regarding (a) whether the rule in question is within the intent of the legislature as expressed by the statute which the rule implements, (b) whether the rule was adopted in accordance with all applicable provisions of law, including section 4 of this act and chapter 19.85 RCW, (c) whether the agency is using a policy statement, guideline, or issuance in place of a rule, or (d) whether the policy statement, guideline, or issuance is within the legislative intent.

Sec. 19. RCW 34.05.640 and 1993 c 277 s 2 are each amended to read as follows:

(1) Within seven days of an agency hearing held after notification of the agency by the rules review committee pursuant to RCW 34.05.620 or 34.05.630, the affected agency shall notify the committee of its action on a proposed or existing rule to which the committee objected or on a committee finding of the agency's failure to adopt rules. If the rules review committee determines, by a majority vote of its members, that the agency has failed to provide for the required hearings or notice of its action to the committee, the committee may file notice of its objections, together with a concise statement of the reasons therefor, with the code reviser within thirty days of such determination.

(2) If the rules review committee finds, by a majority vote of its members: (a) That the proposed or existing rule in question has not been modified, amended, withdrawn, or repealed by the agency so as to conform with the intent of the legislature, or (b) that an existing rule was not adopted in accordance with all applicable provisions of law, including section 4 of this act and chapter 19.85 RCW, or (c) that the agency is using a policy statement, guideline, or issuance in place of a rule, or that the policy statement, guideline, or issuance is outside of the legislative intent, the rules review committee may, within thirty days from notification by the agency of its action, file with the code reviser notice of its objections together with a concise statement of the reasons therefor. Such notice and statement shall also be provided to the agency by the rules review committee.

(3) If the rules review committee makes an adverse finding under subsection (2) of this section, the committee may, by a two-thirds vote of its members, recommend suspension of an existing rule. Within seven days of such vote the committee shall transmit to the appropriate standing committees of the legislature, the governor, the code reviser, and the agency written notice of its objection and recommended suspension and the concise reasons therefor. Within thirty days of receipt of the notice, the governor shall transmit to the committee, the code reviser, and the agency written approval or disapproval of the recommended suspension. If the suspension is approved by the governor, it is effective from the date of that approval and continues until ninety days after the expiration of the next regular legislative session.

(4) If the governor disapproves the recommendation of the rules review committee to suspend the rule, the transmittal of such decision, along with the findings of the rules review committee, shall be treated by the agency as a petition by the rules review committee to repeal the rule under RCW 34.05.330.

(5) The code reviser shall publish transmittals from the rules review committee or the governor issued pursuant to subsection (1), (2), or (3) of this section in the Washington state register and shall publish in the next supplement and compilation of the Washington Administrative Code a reference to the committee's objection or recommended suspension and the governor's action on it and to the issue of the Washington state register in which the full text thereof appears.

~~((6))~~ (6) An election by the rules review committee to recommend suspension of a rule, whether or not the suspension is approved by the governor, establishes a presumption in any subsequent judicial review of the rule that the rule is invalid. The burden of demonstrating the rule's validity is then on the adopting agency.

(7) The reference shall be removed from a rule published in the Washington Administrative Code if a subsequent adjudicatory proceeding determines that the rule is within the intent of the legislature or was adopted in accordance with all applicable laws, whichever was the objection of the rules review committee.

Sec. 20. RCW 34.05.660 and 1988 c 288 s 606 are each amended to read as follows:

Except as provided in RCW 34.05.640(6), it is the express policy of the legislature that establishment of procedures for review of administrative rules by the legislature and the notice of objection required by RCW 34.05.630(2) and 34.05.640(2) in no way serves to establish a presumption as to the legality or constitutionality of a rule in any subsequent judicial proceedings interpreting such rules.

NEW SECTION. Sec. 21. The following acts or parts of acts are each repealed:

(1) RCW 34.05.670 and 1992 c 197 s 3; and

Where a penalty is otherwise provided, but may not be imposed under this subsection, the agency shall issue a statement of deficiency.

(3) A statement of deficiency shall specify: (a) The particular rule violated; (b) the steps the entity must take to comply with the rule; (c) agency personnel designated by the agency to provide technical assistance regarding compliance with the rule; and (d) a date by which the entity is required to

comply with the rule. The date specified shall provide a reasonable period of time for the entity to comply with the rule, considering the size of the entity, its available resources, and the threat posed by the violation. If the entity fails to comply with the rule by the date specified, it shall be subject to the penalty otherwise provided in law.

(4) Subsection (2) of this section shall not apply to any violation that places a person in danger of death or substantial bodily harm, is causing or is likely to cause significant environmental harm, or has caused or is likely to cause physical damage to the property of others in an amount exceeding one thousand dollars. (5) The state, the agency, and officers or employees of the state shall not be liable for damages to any person to the extent that liability is asserted to arise from the technical assistance provided under this section, or if liability is asserted to arise from the failure of the agency to supply technical assistance.

(6) Where a state agency has been delegated authority to enforce federal rules, the agency shall submit a written petition to the appropriate federal agency for authorization to comply with this section for all inspections while retaining the state's federal delegation. In such cases, this section applies only to the extent authorized by the appropriate federal agency.

NEW SECTION. Sec. 2. The legislature finds that it has allowed state agencies to adopt administrative rules without sufficient guidance from the legislature, relying on general grants of authority rather than specific legislative policy direction. This has resulted in agency-initiated policy that has been adopted without the benefit of the public dialogue and accountability inherent to the legislative process. It is therefore the intent of the legislature in this act to lessen reliance on general grants of authority, limit agency rule making to those matters specifically authorized by the legislature, and that grants of rule-making authority be narrowly construed.

The agency shall develop a means to identify the employee to businesses as a technical assistance provider during the period of designation. Such an employee who provides on-site consultation to a business and who observes non-compliance with the law shall inform the owner or operator of the business of the violations and provide technical assistance concerning compliance. On-site consultation visits by such an employee may not be regarded as inspections or investigations for enforcement purposes, and no notices or citations may be issued or civil penalties assessed during such a visit. If the owner or operator of the business does not correct the observed non-compliance within a reasonable time and the business is inspected with enforcement personnel, the agency may take appropriate enforcement action. If a technical assistance representative or member of a technical assistance unit observes a non-compliance with the law that places a person in danger of death or substantial bodily harm, is causing or is likely to cause significant environmental harm, or has caused or is likely to cause physical damage to the property of others in an amount exceeding one thousand dollars, the agency may initiate enforcement action immediately upon observing the violation. In the case of an unpaid tax or fee, the agency may initiate immediate enforcement action if the amount unpaid by the business in a year is greater than a minor amount or a minor percent of the amount owed.

(3) The state, the agency, and officers or employees of the state shall not be liable for damages to a person to the extent that liability is asserted to arise from the performance by technical assistance representatives of their duties, or if liability is asserted to arise from the failure of the agency to supply technical assistance.

(4) Nothing in this section shall be construed to preclude any agency employee from providing technical assistance concerning compliance with an agency's laws and rules."

(1) Generally. Except to the extent that this chapter or another statute provides otherwise:

(a) The burden of demonstrating the invalidity of agency action is on the party asserting invalidity;

(b) The validity of agency action shall be determined in accordance with the standards of review provided in this section, as applied to the agency action at the time it was taken;

(c) The court shall make a separate and distinct ruling on each material issue on which the court's decision is based; and

(d) The court shall grant relief only if it determines that a person seeking judicial relief has been substantially prejudiced by the action complained of.

(2) Review of rules. (a) A rule may be reviewed by petition for declaratory judgment filed pursuant to this subsection or in the context of any other review proceeding under this section. In an action challenging the validity of a rule, the agency shall be made a party to the proceeding.

(b) The validity of any rule may be determined upon petition for a declaratory judgment addressed to the superior court of Thurston county, when it appears that the rule, or its threatened application, interferes with or impairs or immediately threatens to interfere with or impair the legal rights or privileges of the petitioner. The declaratory judgment order may be entered whether or not the petitioner has first requested the agency to pass upon the validity of the rule in question.

(c) In a proceeding involving review of a rule, the court shall declare the rule invalid only if it finds that it violates constitutional provisions, exceeds the statutory authority of the agency, was adopted without compliance with statutory rule-making procedures, or could not conceivably have been the product of a rational decision-maker.

(3) Review of agency orders in adjudicative proceedings. The court shall grant relief from an agency order in an adjudicative proceeding only if it determines that:

(a) The order, or the statute or rule on which the order is based, is in violation of constitutional provisions on its face or as applied;

(b) The order is outside the statutory authority or jurisdiction of the agency conferred by any provision of law;

(c) The agency has engaged in unlawful procedure or decision-making process, or has failed to follow a prescribed procedure;

(d) The agency has erroneously interpreted or applied the law;

(e) The order is not supported by evidence that is substantial when viewed in light of the whole record before the court, which includes the agency record for judicial review, supplemented by any additional evidence received by the court under this chapter;

(f) The agency has not decided all issues requiring resolution by the agency;

(g) A motion for disqualification under RCW 34.05.425 or 34.12.050 was made and was improperly denied or, if no motion was made, facts are shown to support the grant of such a motion that were not known and were not reasonably discoverable by the challenging party at the appropriate time for making such a motion;

(h) The order is inconsistent with a rule of the agency unless the agency explains the inconsistency by stating facts and reasons to demonstrate a rational basis for inconsistency; or

(i) The order is arbitrary or capricious.

(4) Review of other agency action.

(a) All agency action not reviewable under subsection (2) or (3) of this section shall be reviewed under this subsection.

(b) A person whose rights are violated by an agency's failure to perform a duty that is required by law to be performed may file a petition for review pursuant to RCW 34.05.514, seeking an order pursuant to this subsection requiring performance. Within twenty days after service of the petition for review, the agency shall file and serve an answer to the petition, made in the same manner as an answer to a complaint in a civil action. The court may hear evidence, pursuant to RCW 34.05.562, on material issues of fact raised by the petition and answer.

(c) Relief for persons aggrieved by the performance of an agency action, including the exercise of discretion, or an action under (b) of this subsection can be granted only if the court determines that the action is:

(i) Unconstitutional;

(ii) Outside the statutory authority of the agency or the authority conferred by a provision of law;

(iii) Arbitrary or capricious; or

(iv) Taken by persons who were not properly constituted as agency officials lawfully entitled to take such action.

The President declared the question before the Senate to be the adoption of the amendment by Senator Prince on page 20, after line 18, to the striking amendment by Senators Moore, Sheldon, Gaspard, Vognild and Snyder to Senate Bill No. 6242.

MOTION

"NEW SECTION. Sec. 30. If specific funding for the purposes of this act, referencing this act by bill number, is not provided by June 1, 1994, in the supplemental appropriations act, this act is null and void."

Debate ensued.

POINT OF INQUIRY

Senator Franklin: "Senator Sutherland, I wanted this loud and clear, did you just recently say that we have created a full employment bill?"

Senator Sutherland: "I'm not sure that it is a full employment bill for all state employees, but it would add to the role of the state employees in the state of Washington and it would have a sufficient fiscal impact to the budget of the state of Washington if we were to adequately fund this."

Senator Franklin: "If it is not a full employment bill, then, it does add significant numbers to the state employment roll, which we have worked to decrease."

Senator Sutherland: "Well, it is all in your definition of significant, but it would add, in the next biennium, at least seven hundred thousand dollars worth of new employees to the state of Washington. It would also add to the employment rolls in the private sector. As another member of this body earlier mentioned to me, with the adoption of the amendments by Senators Sutherland, Hargrove and Owen on page 19, line 33 and 37, which authorized the fifty thousand dollar cap for those injured by a rule, there will be a number of legal counsel employers in the state of Washington that will be more willing to go after these and pursue these. So, many attorneys might be thankful for the passage of this bill."

Senator Franklin: "Thank you."
Further debate ensued.

POINT OF INQUIRY

Senator Deccio: "Senator Sutherland, you used the number of seven hundred and fifty thousand dollars--"
Senator Sutherland: "No, seven hundred and two thousand dollars."
Senator Deccio: "Seven hundred and two? Well, that's better yet for my argument. A biennium?"
Senator Sutherland: "That's in the 1995-97 biennium according to the official fiscal note."
Senator Deccio: "OFM has set a figure of one hundred thousand dollars per FTE per biennium, including benefits. That would be less than seven new FTEs. I don't think that is going to break the state or lead to full employment."
Senator Sutherland: "If you look at the details of the fiscal note, each of the different agencies have a different cost per FTE and so they would be scattered throughout. They are not all at one hundred thousand dollars, Senator."
Senator Deccio: "Well, Senator, in response, I guess I have to accept OFM's numbers and it still would be less than seven FTEs. That's not full employment in my book."
Further debate ensued.

The President declared the question before the Senate to be the adoption of the amendment by Senators Sutherland and Skratek on page 20, after line 24, to the striking amendment by Senators Moore, Sheldon, Gaspard, Vognild and Snyder to Senate Bill No. 6242.

RULING BY THE PRESIDENT

President Pritchard: "In ruling upon the point of order raised by Senator Spanel, the President finds that Senate Bill No. 6242 is a measure which sets forth various changes in rulemaking criteria, procedures and review of rules.

"The amendment by Senator Snyder on page 17, line 8, to the striking amendment would change the standards for certain landfill sites.

"The President, therefore, finds that the proposed amendment to the striking amendment does change the scope and object of the bill and the point of order is well taken."

The amendment by Senator Snyder on page 17, after line 8, to Senate Bill No. 6242 was ruled out of order.

On motion of Senator Quigley, the following amendment was adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature declares there has been an excessive proliferation of boards and commissions within state government. These boards and commissions are often created without legislative review or input and without an assessment of whether there is a resulting duplication of purpose or process. Once created, they frequently duplicate the duties of existing governmental entities, create additional expense, and obscure responsibility. It has been difficult to control the growth of boards and commissions because of the many special interests involved. Accordingly, the legislature establishes the process in this chapter to eliminate redundant and obsolete boards and commissions and to restrict the establishment of new boards and commissions.

NEW SECTION. Sec. 2. (1) The governor shall conduct a review of all of the boards and commissions identified under section 4 of this act and, by January 1, 1995, submit to the legislature a report recommending which boards and commissions should be terminated or consolidated based upon the criteria set forth in subsection (3) of this section. The report must state which of the criteria were relied upon with respect to each recommendation. The governor shall submit an executive request bill by January 10, 1995, to implement the recommendations by expressly terminating the appropriate boards and commissions and by providing for the transfer of duties and obligations under this section. The governor shall accept and review with special attention recommendations made, not later than June 1, 1994, by the standing committees of the legislature.

(2) In addition to terminations and consolidations under subsection (1) of this section, the governor may recommend the transfer of duties and obligations from a board or commission to another existing state entity.

(3) In preparing his or her report and legislation, the governor shall make an evaluation based upon answers to the questions set forth in this subsection. The governor shall give these criteria priority in the order listed.

(a) Has the mission of the board or commission been completed or ceased to be critical to effective state government?

(b) Does the work of the board or commission directly affect public safety, welfare, or health?

(c) Can the work of the board or commission be effectively done by another state agency without adverse impact on public safety, welfare, or health?

(d) Will termination of the board or commission have a significant adverse impact on state revenue because of loss of federal funds?

(e) Will termination of the board or commission save revenues, be cost neutral, or result in greater expenditures?

(f) Is the work of the board or commission being done by another board, commission, or state agency?

(g) Could the work of the board or commission be effectively done by a nonpublic entity?

(h) Will termination of the board or commission result in a significant loss of expertise to state government?

(i) Will termination of the board or commission result in operational efficiencies that are other than fiscal in nature?

MOTION

POINT OF INQUIRY

Senator Bluechel: "Senator Fraser, I see in one part of the bill that it limits retail outlets to two thousand cubic feet of storage space. That is ten by ten by twenty. Some of the retail outlets go through that much space in literally a week or so. What does that require them to do?"

Senator Fraser: "The storage provisions in the bill were developed through a waste tire advisory committee and the whole bill is intended to operate to put pressure on all people in the tire system to be responsible for assuring that the tires they dispose of go to a proper disposal site, which would include selling to users. The person who sells tires and collects waste tires in the process needs to, under this bill, know that they are dealing with a proper disposal agent and that disposal agent needs to be responsible for assuring that they get to a proper site and we don't have these big tire piles growing again."

Senator Bluechel: "A second question, Senator. Is there a tire recycler in the state that actually uses the products from tires or do they have to ship them out of state?"

Senator Fraser: "There are some people in this state who will buy tires; there are some that go down to Oregon and some to other states. It has been a serious problem to develop--to find markets and to encourage markets for the use of waste tires. It has been one of the purposes of at least a little bit of the money from this fee--is to help encourage these markets."

Senator Bluechel: "I'm not sure I got the question answered. Is there a facility in the state that will recycle tires--make them into something else or do the tires have to be shipped out of state?"

Senator Fraser: "One of the big uses of tires is waste to energy, so there are some manufacturing firms in this state who will take these and use them for waste to energy. There are minor reuses of rubber for other rubber products. Marketing is a problem and this bill does encourage further development of markets--and it is a problem."

Senator Bluechel: "Thank you."

POINT OF INQUIRY

Senator Anderson: "Senator Fraser, my question, I guess, is along the lines of Senator Bluechel's. Of the money collected over the last five years, do you know how much money that was--and of that money, how much has actually gone to try to either site some recycling facility or deal with the instream--the final product--rather than just take the tires and shift them around to different places? I think that is the big concern that we are charging people and the money is there, but are we actually finding a different use for them as an end product, rather than shifting them to some other stock piling place?"

Senator Fraser: "I don't have the figures in front of me right now, but the majority of the money, as I understand it, has been used to either clean up the piles and dispose of the tires or to, for example, chipping them down to small sizes. Then, a small part of the money has gone to research market opportunities for this material."

Further debate ensued.

POINT OF INQUIRY

Senator Roach: "Senator Fraser, for further clarification, where does the unclaimed money go now?"

Senator Fraser: "At the current time, with regards to this--"

Senator Roach: "The money that could be reclaimed or received by the person who buys gasoline fuel for a boat for excursion or a snow mobile--that money that they don't claim--where is it going?"

Senator Fraser: "It goes into the highway fund."

Senator Roach: "So, that we would then be taking money from the highway fund and putting it into the recreational programs across the state?"

Senator Fraser: "The answer is 'yes.' The reason for the bill is that this is money that does not, under the Constitution, require being placed in the highway fund. Right now, if you buy gas for your boat at a gas station, you will pay twenty-three cents fuel tax. Eighteen cents of that will go to recreational purposes which will be used for water-front parks. The other five tenths would go to the highway fund for highway purposes. Prior to this cap being placed on it--if this cap were not on it--all twenty-three cents that you pay for filling your boat would go to waterfront park purposes. Under the Constitution, the fuel tax refund for non-highway purposes are not required to go to highway purposes."

Senator Roach: "Thank you, Senator Fraser."

The commission is empowered to:

(1) Adopt, promulgate, amend, and rescind suitable administrative rules to carry out the policies and purposes of this chapter, which rules shall be adopted under chapter 34.05 RCW;

(2) Appoint and set, within the limits established by the committee on agency officials' salaries under RCW 43.03.028, the compensation of an executive director who shall perform such duties and have such powers as the commission may prescribe and delegate to implement and enforce this chapter efficiently and effectively. The commission shall not delegate its authority to adopt, amend, or rescind rules nor shall it delegate authority to determine whether an actual violation of this chapter has occurred or to assess penalties for such violations;

(3) Prepare and publish such reports and technical studies as in its judgment will tend to promote the purposes of this chapter, including reports and statistics concerning campaign financing, lobbying, financial interests of elected officials, and enforcement of this chapter;

(4) Make from time to time, on its own motion, audits and field investigations;

(5) Make public the time and date of any formal hearing set to determine whether a violation has occurred, the question or questions to be considered, and the results thereof;

(6) Administer oaths and affirmations, issue subpoenas, and compel attendance, take evidence and require the production of any books, papers, correspondence, memorandums, or other records relevant or material for the purpose of any investigation authorized under this chapter, or any other proceeding under this chapter;

(11) Revise, at least once every five years but no more often than every two years, the monetary reporting thresholds and reporting code values of this chapter. The revisions shall be only for the purpose of recognizing economic changes as reflected by an inflationary index recommended by the office of financial management. The revisions shall be guided by the change in the index for the period commencing with the month of December preceding the last revision and concluding with the month of December preceding the month the revision is adopted. As to each of the three general categories of this chapter (reports of campaign finance, reports of lobbyist activity, and reports of the financial affairs of elected and appointed officials), the revisions shall equally affect all thresholds within each category. "NEW SECTION. Sec. 2. A new section is added to chapter 67.28 RCW to read as follows:

(1) The legislative body of any city with a population of at least two thousand five hundred but less than four thousand located in a county east of the crest of the Cascade mountains with a population of at least fifty thousand but less than sixty thousand is authorized to levy and collect a special excise tax not to exceed three percent on the sale of or charge made for the furnishing of lodging by a hotel, rooming house, tourist court, motel, trailer camp, and the granting of any similar license to use real property, as distinguished from the renting or leasing of real property. For the purposes of this tax, it shall be presumed that the occupancy of real property for a continuous period of one month or more constitutes a rental or lease of real property and not a mere license to use or to enjoy the same.

(2) The tax authorized in subsection (1) of this section is in addition to any other tax authorized by law.

(3) Any seller, as defined in RCW 82.08.010, who is required to collect any tax under this section shall pay over such tax to the county as provided in RCW 67.28.200. The deduction from state taxes under RCW 67.28.190 does not apply to the tax imposed under this section.

(4) All taxes levied and collected under this section shall be credited to a special fund in the treasury of the county. Such taxes shall only be used for tourism promotion.

Sec. 3. RCW 67.28.200 and 1991 c 331 s 2 are each amended to read as follows:

The legislative body of any county or city may establish reasonable exemptions and may adopt such reasonable rules and regulations as may be necessary for the levy and collection of the taxes authorized (~~by RCW 67.28.180, 67.28.182, and 67.28.230 through 67.28.250, and 67.28.260~~) under this chapter. The department of revenue shall perform the collection of such taxes on behalf of such county or city at no cost to such county or city."

POINT OF ORDER

Senator Vognild: "I rise to raise the question of scope and object. As much as I am sympathetic to the amendment, if I don't raise scope and object on it, this bill is a run-away. Mr. President, the original bill was very closely drawn; it referred to counties only. It referred to a county north of the King County border. The amendment expands greatly the scope of the bill by going into cities and changing the figures in it from four hundred thousand to two hundred and fifty thousand. I would say it greatly expands the scope of the bill. The original bill was quite tight and I would point out to the President that the amendment in itself requires a title amendment."

Further debate ensued.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that it is in the public interest for water rights held by public water systems to be managed and regulated in a manner that:

(1) Allows such systems to prolong and maximize the use of water rights applied to municipal purposes consistent with the population demand projections established in state-approved water system plans and adopted growth management plans;

(2) Promotes water conservation, with enhanced efforts occurring in water critical areas, promotes water system efficiencies, and eliminates disincentives for investments in water efficient technologies; and

(3) Delays, and where possible, avoids the need for new water sources to be developed.

The department of ecology is therefore directed to administer water rights laws consistent with the provisions of this act.

NEW SECTION. Sec. 2. A new section is added to chapter 90.03 RCW to read as follows:

For the purposes of this chapter "municipal purpose" and "municipal water supply purposes" mean water distributed by a public water system purveyor as defined by chapter 70.116 RCW, and includes domestic, commercial, and industrial water uses provided as an integral element of the public water system. This definition does not include commercial, industrial, irrigation, or other water systems that are not designated as a public water system for potable water use recognized by a state-approved public water system plan or withdrawals of public ground waters excepted under RCW 90.44.050.

Sec. 3. RCW 90.03.320 and 1987 c 109 s 67 are each amended to read as follows:

Actual construction work shall be commenced on any project for which permit has been granted within such reasonable time as shall be prescribed by the department, and shall thereafter be prosecuted with diligence and completed within the time prescribed by the department. The department, in fixing the time for the commencement of the work, or for the completion thereof and the application of the water to the beneficial use prescribed in the permit, shall take into consideration the cost and magnitude of the project and the engineering and physical features to be encountered, and shall allow such time as shall be reasonable and just under the conditions then existing, having due regard for the public welfare and public interests affected: and, for good cause shown, it shall extend the time or times fixed as aforesaid, and shall grant such further period or periods as may be reasonably necessary, having due regard to the good faith of the applicant and the public interests affected. In fixing public water system construction schedules and the time, or extension of time, for application of water to beneficial use for municipal use, the department shall also take into consideration the term and amount of financing required to complete the project, delays that may result from planned and existing conservation and water use efficiency measures installed by the public water system, and the supply needs of the public water system's service area, consistent with an approved comprehensive plan under chapter 36.70A RCW, or in the absence of such a plan, a county-approved comprehensive plan under 36.70 RCW or a plan approved under chapter 35.63 RCW, and related demand projections prepared by public water systems in accordance with state law. If the terms of the permit or extension thereof, are not complied with the department shall give notice by registered mail that such permit will be canceled unless the holders thereof shall show cause within sixty days why the same should not be so canceled. If cause be not shown, said permit shall be canceled.

Sec. 4. RCW 90.03.330 and 1987 c 109 s 89 are each amended to read as follows:

(1) Upon a showing satisfactory to the department that any appropriation has been perfected in accordance with the provisions of this chapter, it shall be the duty of the department to issue to the applicant a certificate stating such facts in a form to be prescribed by ~~(him)~~ the director, and such certificate shall thereupon be recorded with the department.

(2) For those public water supplies designed to accommodate future growth as defined by a state-approved water system plan, the amount of instantaneous diversion considered to be applied to beneficial use at the time of perfection of the certificate shall be based upon the capacity of the diversion structure or structures installed at such time. Further, the amount of annual appropriation considered to be applied to beneficial use at the time of perfection shall be based on the growth projection contained in the most current state-approved water system plan, provided, the department may not issue a certificate for quantities of water in excess of those contained in a permit if a permit has been issued. This subsection shall apply to the administration of water rights existing on the effective date of this act and prospectively issued water rights, but shall not apply to water rights subject to the terms of final adjudication decrees entered in accordance with this chapter.

(3) Any original water right certificate issued, as provided by this chapter, shall be recorded with the department and thereafter, at the expense of the party receiving the same, be by the department transmitted to the county auditor of the county or counties where the distributing system or any part thereof is located, and be recorded in the office of such county auditor, and thereafter be transmitted to the owner thereof."

~~(c))~~ Benefits paid to an individual filing under the provisions of chapter 50.06 RCW shall not be charged to the experience rating account of any contribution paying employer only if:

Assignment of employers by the commissioner to industrial classification, for purposes of this subsection, must be in accordance with established classification practices found in the "Standard Industrial Classification Manual" issued by the federal office of management and budget to the third digit provided in the standard industrial classification code.

(3) If the successor is not an employer at the time of the transfer and simultaneously acquires the business or a portion of the business of two or more employers in different rate classes, ~~((his or her))~~ its rate from the date the transfer occurred until the end of that rate year and until ~~((he or she))~~ it qualifies in ~~((his or her))~~ its own right for a new rate, shall be the highest rate class applicable at the time of the acquisition to any predecessor employer who is a party to the acquisition.

(4) The contribution rate on any payroll retained by a predecessor employer shall remain unchanged for the remainder of the rate year in which the transfer occurs.

POINT OF INQUIRY

Senator Anderson: "Senator Skratek, there is some confusion on how we are reading this bill. We have been looking at the language on page 3, starting on line 21, that talks about businesses applying for the benefits. Are the provisions of this also a study or does this part of the bill kick in right away? Can you clarify that for us?"

Senator Skratek: "Yes, Senator Anderson, I can. Subsection 3, beginning on line 21, is currently being done. This is not new language."

Senator Anderson: "Senator Skratek, I don't understand that, because this is talked about in a new section. It says, 'The Department of Revenue shall gather information on those things,' so this is not a new provision? This is a study provision?"

Senator Skratek: "This is a current process that is in place where we are asking for Employment Impact Statements. The piece that is not currently being done is the assessment as to whether or not they have accomplished what they said they were going to do. That is what this is all about--return on investment. If we are going to be subsidizing businesses in the state of Washington, and they are already required to provide us with an Employment Impact Statement, we are asking for an assessment as to whether or not they have accomplished what they said they would do."

POINT OF INQUIRY

Senator Anderson: "Senator Fraser, in reading this bill, I like the trend that we are going to here. The concern that I had and I wanted to ask if it was discussed in committee, was that by using the weighting factor based upon savings and disposal costs--and then the department is looking at quantifying the cost savings, is that going to, however, create a higher product cost up front? While we are looking at cost savings through recycling and disposal costs, are we then going to weigh that against--if the product costs more up front?"

Senator Fraser: "To respond to the question, this is an optional method for bidders to use in bidding on state goods. It wouldn't be mandatory at all. If they do use Washington waste products in a product, then they could provide that information. The department would provide some uniform way of providing that information."

REPORT OF SELECT COMMITTEE

STATE OF WASHINGTON
FAMILY POLICY INITIATIVE
14th and Jefferson
P. O. Box 45015
Olympia, Washington 98504-5015

January 16, 1994

Marty Brown
Secretary of the Senate
306 Legislative Building
P. O. Box 40482
Olympia, Washington 98504-0482

Dear Mr. Brown:

Enclosed is the Family Policy council Co-location of Staff Report requested of the Council in a proviso in the 1993-95 budget. The proviso directed the Family Policy Council to "establish procedures for location of appropriate counseling staff of participating agencies in public schools".

The issues surrounding co-location of those staff resources in public schools are numerous and reflect the complexity of the health, human service, and education systems which have developed in the state and nation over the past thirty years. The issues have their roots in the nature of various categorical program structures and funding streams as well as professional education certification and labor practices, administrative procedures, etc. In effect, they are no less complicated than the combined state and local systems which have evolved in human services.

For those reasons, the most effective procedures to re-locate existing staff are not always easily isolated from the larger task of changing the culture of the system which we continue to do within the broader context of the Family Policy Initiative. The restructuring of family services, as proposed in the Governor's Youth Agenda will do much to facilitate co-location.

Included in this report are a number of findings which can serve as guidance to local communities interested in pursuing co-location, as well as two specific recommendations to the Legislature. At the conclusion of the current legislative session, a specific action plan will be assembled and implemented to further our co-location efforts.

Sincerely,
JEAN T. SOLIZ, Chairperson

The Select Committee Report is on file in the Office of the Secretary of the Senate.

On motion of Senator Vognild, Substitute Senate Bill No. 6084 was substituted for Senate Bill No. 6084 and the substitute bill was placed on second reading and read the second time.

Senator Haugen moved that the following amendments be considered simultaneously and be adopted:

On page 16, line 11, strike "\$22,900,000" and insert "\$27,900,000"

On page 18, line 28, strike "((5,020,000)) 10,020,000" and insert "5,020,000"

On page 19, after line 2, strike all material through "commission." on line 5

Debate ensued.

POINT OF INQUIRY

Senator Deccio: "Senator Vognild, there is a fund that has been set aside that is available for the building of a new track and I understand that this would be in addition to that fund that already exists?"

Senator Vognild: "Senator, the fund that is being referred to is as a set aside is just a little more than eight million dollars. That is money which belongs to the Horse Racing Society. It is a set aside from the--I forget what they call it--but from the betting receipts, the money that comes from the betting receipts. It is a set aside that has been put into a fund to build the facility.

"This money has nothing to do with building a facility. This is not a grant to any private organization. This money says that when they site that facility, those portions of the highway infrastructure which the state is responsible for, we are willing to step up and say we will do."

Senator Deccio: "Another question, you know there is a lot of pressure on the commission to go to another site. Would this money, then, build that pressure on the commission to look at some other sites?"

Senator Vognild: "Senator, not in my opinion, it would not. Any of the sites that I know of that are being considered all require rather extensive highway infrastructure surrounding them beyond what they have to pay for in the impact fees."

Senator Deccio: "Thank you, Senator Vognild."

Further debate ensued.

POINT OF INQUIRY

Senator Nelson: "Senator Vognild, in this Section 20, this additional money is coming from the sale of bonds and the specific language that has been entered in this section is providing five million dollars from this source--the bonds--to support the development of a horse racing facility approved by the Horse Racing Commission. Keeping in mind that many of those who have spoken thus far, probably have in mind a track at Auburn or at Fife or Yakima or some place or Monroe, but is it not true, Senator Vognild, that if a track were approved by the Horse Racing Commission that would be located on the Muckleshoot Indian Grounds or at Tulalip and it was first in line, this section would, in fact, provide those moneys for building the infrastructure on those tribal grounds?"

Senator Vognild: "I would say, 'yes.' The language is intentionally written so that any facility which is approved by the commission and then needs state funded infrastructure, this would apply."

POINT OF INQUIRY

Senator West: "Senator Vognild, do you have any information that would lead you to believe that any of this money would be expended in this biennium?"

Senator Vognild: "Senator, if it is not spent in the biennium, it will be returned to the transportation fund. I certainly hope that does not happen. I hope the facility is sited. I have no inside knowledge one way or the other."

Senator West: "In the meantime, the five million dollars that is set aside--if that weren't set aside, could that be expended for transportation projects in each of our districts or somewhere else in the state?"

Senator Vognild: "As far as construction work is concerned, the answer to that is 'no, it would not be.' As far as some advanced planning and engineering, possibly; I do not know."

Senator West: "Thank you."

Further debate ensued.

WHEREAS, In the Spring of 1993, thirty year old head coach Randy Elam piloted his Centralia High School Tigers to the Washington State "AA" Baseball Championship; and

WHEREAS, Because several members of the 1993 baseball team played on Centralia's sixth place state basketball team, the championship season started slowly; and

WHEREAS, After dropping four of five nonleague games, the players pulled together as a team, and, taking one game at a time, reeled off thirteen unanswered league victories; and

***Sec. 1.** RCW 82.04.290 and 1993 sp.s. c 25 s 203 are each amended to read as follows:

(1) Upon every person engaging within this state in the business of providing selected business services other than or in addition to those enumerated in RCW 82.04.250 or 82.04.270; as to such persons the amount of tax on account of such activities shall be equal to the gross income of the business multiplied by the rate of ~~((2-5))~~ 1.5 percent.

(2) Upon every person engaging within this state in banking, loan, security, investment management, investment advisory, or other financial businesses; as to such persons, the amount of the tax with respect to such business shall be equal to the gross income of the business, multiplied by the rate of ~~((1-70))~~ 1.5 percent.

(3) Upon every person engaging within this state in any business activity other than or in addition to those enumerated in RCW 82.04.230, 82.04.240, 82.04.250, 82.04.255, 82.04.260, 82.04.270, and 82.04.280, and subsections (1) and (2) of this section; as to such persons the amount of tax on account of such activities shall be equal to the gross income of the business multiplied by the rate of ~~((2-0))~~ 1.5 percent. This section includes, among others, and without limiting the scope hereof (whether or not title to materials used in the performance of such business passes to another by accession, confusion or other than by outright sale), persons engaged in the business of rendering any type of service which does not constitute a "sale at retail" or a "sale at wholesale." The value of advertising, demonstration, and promotional supplies and materials furnished to an agent by his principal or supplier to be used for informational, educational and promotional purposes shall not be considered a part of the agent's remuneration or commission and shall not be subject to taxation under this section."

Renumber the remaining sections consecutively and correct internal references accordingly.

POINT OF ORDER

Senator Rinehart: "The effect of this amendment would be to reduce by three hundred million dollars--the amount available for state programs and services. A simple way to put that is, you could abolish all of the budget for Washington State University and still need to make additional cuts in order to live within this amendment. Further, Mr. President, I raise the question of scope and object of this amendment. The bill has a very narrow title, repealing a very specific section, and clearly this amendment is outside the scope and object of the bill."

Further debate ensued.

There being no objection, further consideration of Senate Bill No. 6606 was deferred.

President Pro Tempore Wojahn assumed the Chair.

ENGROSSED SUBSTITUTE HOUSE BILL NO. 2863, by House Committee on Transportation (originally sponsored by Representatives Zellinsky, R. Meyers and Schmidt)

Facilitating acquisition of a propulsion system for new jumbo ferries.

The bill was read the second time.

MOTIONS

Senator Vognild moved that the following Committee on Transportation amendment be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds and declares that:

A 1991 legislative study, conducted by Booz. Allen, Hamilton and M. Rosenblatt and Son, examining the Washington State Ferries' management of its vessel refurbishment and construction program, resulted in recommendations for improvements and changes in the vessel refurbishment and construction program. These legislatively adopted recommendations encourage and support input by Washington State Ferries' engineers in the development of refurbishment and new construction project requirements.

The recommendations of the Booz.Allen study have been applied to the construction of the Jumbo Class Mark II ferries through the appointment of a Jumbo Class Mark II Steering Committee comprised of current state ferry engineers responsible for the design, operation, and maintenance of state ferry vessels.

The Steering Committee, in carrying out the recommendations of the Booz. Allen study, has determined that the procedure for the procurement of equipment, parts, and supplies for the Jumbo Class Mark II ferry vessels authorized by RCW 47.60.770 through 47.60.778, must take into consideration, in addition to life-cycle cost criteria, criteria that are essential to the operation of a public mass transportation system responsive to the needs of Washington State Ferries' users, and that assess the reliability, maintainability, and performance of equipment, parts, and supplies to be installed in the Jumbo Mark II ferries.

The construction of the new Jumbo Class Mark II ferry vessels authorized by RCW 47.60.770 through 47.60.778 is critical to the welfare of the state and any delay in the immediate construction of the ferries will result in severe hardship and economic loss to the state and its citizens. Recognizing these findings, it is the intent of the legislature that the vessel construction should not be delayed further because of the acquisition of a propulsion system, or any component of it, for the ferries, and to authorize the department of transportation to acquire all components of a complete propulsion system as soon as possible so that planned construction of the Jumbo Class Mark II ferry vessels can proceed immediately.

The purpose of this chapter is to authorize the use, by the department, of supplemental, alternative contracting procedures for the procurement of a propulsion system, and the components thereof, for the Jumbo Class Mark II ferries; and to prescribe appropriate requirements and criteria to ensure that contracting procedures for such procurement serve the public interest.

NEW SECTION. Sec. 2. A new section is added to chapter 47.60 RCW to read as follows:

(1) The department may enter into a contract for the acquisition of the propulsion system, or any component of it, including diesel engines and spare parts, for installation into one or more of the three Jumbo Class Mark II ferry vessels authorized under this chapter. This authorization does not limit the department from obtaining and installing the propulsion system, or any component of it, as incidental to the overall vessel construction contract authorized under RCW 47.60.770 through 47.60.778, nor from proceeding to complete an existing contract for acquisition of the propulsion system or any component of it.

(2) Acquisition of a propulsion system, or any component of it, for the Jumbo Class Mark II ferries by the department under this section is exempt from chapter 43.19 RCW.

(3) Whenever the department decides to enter into an acquisition contract under this section it shall publish a notice of its intent to negotiate such a contract once a week for at least two consecutive weeks in one trade newspaper and one other newspaper, both of general circulation in the state. The notice must contain, but is not limited to, the following information:

(a) The identity of the propulsion system or components to be acquired and the proposed delivery dates for the propulsion system or components;

(b) An address and telephone number that may be used to obtain the request for proposal.

(4) The department shall send to any firm that requests it, a request for proposal outlining the design and construction requirements for the propulsion system, including any desired components. The request for proposal must include, but is not limited to, the following information:

(a) The proposed delivery date for each propulsion system or desired component and the location where delivery will be taken;

(b) The form and formula for contract security;

(c) A copy of the proposed contract;

(d) The date by which proposals must be received by the department in order to be considered; and

(e) A statement that any proposal submitted constitutes an offer and must remain open until ninety days after the deadline for submitting proposals, together with an explanation of the requirement that all proposals submitted must be accompanied by a deposit in the amount of five percent of the proposed cost.

(5) The department shall evaluate all timely proposals received for: (a) Compliance with the requirements specified in the request for proposal; and (b) suitability of each firm's proposal by applying appropriate criteria to be developed by the department: (i) To assess the ability of the firm to expeditiously and satisfactorily perform and (ii) to accomplish an acquisition that is most advantageous to the department. A portion of the technical requirements addressed in the request for proposal shall include, but is not limited to, user verifications of manufacturer's reliability claims; the quality of engine maintenance documentation; and engine compatibility with ship design.

(6) The criteria to select the most advantageous diesel engine under subsection (5)(b)(ii) shall consist of life-cycle cost factors weighted at forty-five percent; and operational factors weighted as follows: reliability at twenty percent, maintainability at twenty percent, and engine performance at fifteen percent. For purposes of this subsection, the life-cycle cost factors shall consist of the costs for engine acquisition and warranty, spare parts acquisition and inventory, fuel efficiency and lubricating oil consumption, and commonality. The fuel efficiency and lubricating oil consumption life-cycle cost factors shall receive not less than twenty percent of the total evaluation weighting and shall be evaluated under a format similar to that employed in the 1992 M.V. Tye engine replacement contract. The reliability factors shall consist of the length of service and reliability record in comparable

uses, and mean time between overhauls. The mean time between overhauls evaluation shall be based upon the manufacturer's required hours between change of wear components. The maintainability factors shall consist of spare parts availability, the usual time anticipated to perform typical repair functions, and the quality of factory training programs for ferry system maintenance staff. The performance factors shall consist of load change responsiveness, and air quality of exhaust and engine room emissions.

(7) Upon concluding its evaluation, the department shall:

(a) Select the firm presenting the proposal most advantageous to the department, taking into consideration compliance with the requirements stated in the request for proposal, and the criteria developed by the department, and rank the remaining firms in order of preference, judging them by the same standards; or

(b) Reject all proposals as not in compliance with the requirements contained in the request for proposals.

(8) The department shall immediately notify those firms that were not selected as the firm presenting the most advantageous proposal of the department's decision. The department's decision is conclusive unless an aggrieved firm appeals the decision to the superior court of Thurston county within five days after receiving notice of the department's final decision. The appeal shall be heard summarily within ten days after it is taken and on five days' notice to the department. The court shall hear the appeal on the administrative record that was before the department. The court may affirm the decision of the department, or it may reverse the decision if it determines the action of the department is arbitrary or capricious.

MOTIONS

On motion of Senator Moore, the following Committee on Labor and Commerce striking amendment was adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Collateral costs" means expenses incurred by a consumer in connection with the repair of a nonconformity, including the costs of obtaining an alternative wheelchair or other device assisting mobility.

(2) "Consumer" means any of the following:

(a) The purchaser of a wheelchair, if the wheelchair was purchased from a wheelchair dealer or manufacturer for purposes other than resale;

(b) A person to whom a wheelchair is transferred for purposes other than resale, if the transfer occurs before the expiration of an express warranty applicable to the wheelchair;

(c) A person who may enforce a warranty on a wheelchair; or

(d) A person who leases a wheelchair from a wheelchair lessor under a written lease.

(3) "Demonstrator" means a wheelchair used primarily for the purpose of demonstration to the public.

(4) "Early termination cost" means an expense or obligation that a wheelchair lessor incurs as a result of both the termination of a written lease before the termination date set forth in the lease and the return of a wheelchair to a manufacturer under section 3(2)(b) of this act. "Early termination cost" includes a penalty for prepayment under a finance arrangement.

(5) "Early termination savings" means an expense or obligation that a wheelchair lessor avoids as a result of both the termination of a written lease before the termination date set forth in the lease and the return of a wheelchair to a manufacturer under section 3(2)(b) of this act. "Early termination savings" includes an interest charge that the wheelchair lessor would have paid to finance the wheelchair or, if the wheelchair lessor does not finance the wheelchair, the difference between the total amount for which the lease obligates the consumer during the period of the lease term remaining after the early termination and the present value of that amount at the date of the early termination.

(6) "Manufacturer" means a person who manufactures or assembles wheelchairs and agents of the person, including an importer, a distributor, factory branch, distributor branch, and a warrantor of the manufacturer's wheelchairs, but does not include a wheelchair dealer.

(7) "Nonconformity" means a condition or defect that substantially impairs the use, value, or safety of a wheelchair, and that is covered by an express warranty applicable to the wheelchair or to a component of the wheelchair, but does not include a condition or defect that is the result of abuse, neglect, or unauthorized modification or alteration of the wheelchair by a consumer.

(8) "Reasonable attempt to repair" means any of the following occurring within the term of an express warranty applicable to a new wheelchair or within one year after first delivery of a wheelchair to a consumer, whichever is sooner:

(a) An attempted repair by the manufacturer, wheelchair lessor, or the manufacturer's authorized dealer is made to the same warranty nonconformity at least four times and the nonconformity continues; or

(b) The wheelchair is out of service for an aggregate of at least thirty days because of warranty nonconformity.

(9) "Wheelchair" means a wheelchair, including a demonstrator, that a consumer purchases or accepts transfer of in this state.

(10) "Wheelchair dealer" means a person who is in the business of selling wheelchairs.

(11) "Wheelchair lessor" means a person who leases a wheelchair to a consumer, or who holds the lessor's rights, under a written lease.

NEW SECTION. Sec. 2. A manufacturer who sells a wheelchair to a consumer, either directly or through a wheelchair dealer, shall furnish the consumer with an express warranty for the wheelchair. The duration of the express warranty must be for at least one year after the first delivery of the wheelchair to the consumer. If the manufacturer fails to furnish an express warranty as required under this section, the wheelchair is covered by an implied warranty as if the manufacturer had furnished an express warranty to the consumer as required under this section.

NEW SECTION. Sec. 3. (1) If a new wheelchair does not conform to an applicable express warranty and the consumer reports the nonconformity to the manufacturer, the wheelchair lessor, or any of the manufacturer's authorized wheelchair dealers and makes the wheelchair available for repair before one year after first delivery of the wheelchair to the consumer, the nonconformity must be repaired.

(2) If, after a reasonable attempt to repair, the nonconformity is not repaired, the manufacturer shall do one of the following, whichever is appropriate:

(a) At the direction of a consumer described under section 1(2)(a), (b), or (c) of this act, do one of the following:

(i) Accept return of the wheelchair and replace the wheelchair with a comparable new wheelchair and refund any collateral costs; or

(ii) Accept return of the wheelchair and refund to the consumer and to a holder of a perfected security interest in the consumer's wheelchair, as their interest may appear, the full purchase price plus any finance charge, amount paid by the consumer at the point of sale, and collateral costs, less a reasonable allowance for use. Under this subsection (2)(a)(ii), a reasonable allowance for use may not exceed the amount obtained by multiplying the full purchase price of the wheelchair by a fraction, the denominator of which is one thousand eight hundred twenty-five and the numerator of which is the number of days that the wheelchair was driven before the consumer first reported the nonconformity to the wheelchair dealer; or

(b)(i) For a consumer described in section 1(2)(d) of this act, accept return of the wheelchair, refund to the wheelchair lessor and to a holder of a perfected security interest in the wheelchair, as their interest may appear, the current value of the written lease and refund to the consumer the amount that the consumer paid under the written lease plus any collateral costs, less a reasonable allowance for use.

(ii) Under this subsection (2)(b), the current value of the written lease equals the total amount for which the lease obligates the consumer during the period of the lease remaining after its early termination, plus the wheelchair dealer's early termination costs and the value of the wheelchair at the lease expiration date if the lease sets forth the value, less the wheelchair lessor's early termination savings.

(iii) Under this subsection (2)(b), a reasonable allowance for use may not exceed the amount obtained by multiplying the total amount for which the written lease obligates the consumer by a fraction, the denominator of which is one thousand eight hundred twenty-five and the numerator of which is the number of days that the consumer drove the wheelchair before first reporting the nonconformity to the manufacturer, wheelchair lessor, or wheelchair dealer.

(3) To receive a comparable new wheelchair or a refund due under subsection (2)(a) of this section, a consumer described under section 1(2) (a), (b), or (c) of this act shall offer to the manufacturer of the wheelchair having the nonconformity to transfer possession of the wheelchair to the manufacturer. Within thirty days after the offer, the manufacturer shall provide the consumer with a comparable new wheelchair or a refund. When the manufacturer provides a new wheelchair or refund under this subsection, the consumer shall return to the manufacturer the wheelchair having the nonconformity.

(4)(a) To receive a refund due under subsection (2)(b) of this section, a consumer described under section 1(2)(d) of this act shall offer to return the wheelchair having the nonconformity to its manufacturer. Within thirty days after the offer, the manufacturer shall provide the refund to the consumer. When the manufacturer provides the refund, the consumer shall return to the manufacturer the wheelchair having the nonconformity.

(b) To receive a refund due under subsection (2)(b) of this section, a wheelchair lessor shall offer to transfer possession of the wheelchair having the nonconformity to the manufacturer. Within thirty days after the offer, the manufacturer shall provide a refund to the wheelchair lessor. When the manufacturer provides the refund, the wheelchair lessor shall provide to the manufacturer the endorsements necessary to transfer legal possession to the manufacturer.

(c) A person may not enforce the lease against the consumer after the consumer receives a refund due under subsection (2)(b) of this section.

(5) A person may not sell or lease again in this state a wheelchair returned by a consumer or wheelchair lessor in this state under subsection (2) of this section or by a consumer or wheelchair lessor in another state under a similar law of that state, unless full disclosure of the reasons for return is made to a prospective buyer or lessee.

NEW SECTION. Sec. 4. This chapter does not limit rights or remedies available under other law to a consumer.

NEW SECTION. Sec. 5. A waiver by a consumer of rights under this section is void.

NEW SECTION. Sec. 6. In addition to pursuing another remedy, a consumer may bring an action to recover damages caused by a violation of this chapter. The court shall award a consumer who prevails in an action under this section twice the amount of pecuniary loss, together with costs, disbursements, reasonable attorneys' fees, and equitable relief that the court determines is appropriate.

The bill was read the second time.

MOTIONS

Senator Sutherland moved that the following Committee on Energy and Utilities amendment be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. (1) The legislature finds that:

(a) Emergency services communication systems, including enhanced 911 telephone systems, are currently funded with revenues from state and local excise taxes imposed on the use of switched access lines;

(b) Users of cellular communication systems and other similar wireless telecommunications systems do not use switched access lines and are not currently subject to these excise taxes;

(c) The volume of 911 calls by users of cellular communications systems and other similar wireless telecommunications systems has increased in recent years; and

(d) The integrity of 911 systems, including their long-term financial health and ability to meet revenue requirements, is dependent upon the maintenance of confidentiality of information collected by enhanced 911 systems.

(2) The intent of this act is to acknowledge the recommendations regarding 911 emergency communication system funding as detailed in the report to the legislature dated November 1993, entitled "Taxation of Cellular Communications in Washington State," to authorize imposition and collection of the twenty-five cent county tax discussed in chapter 6 of that report, and to require the department of revenue to continue the study of such funding as detailed in the report.

Sec. 2. RCW 82.14B.020 and 1991 c 54 s 10 are each amended to read as follows:

As used in this chapter:

(1) "Emergency services communication system" means a multicounty, county-wide, or district-wide radio or landline communications network, including an enhanced 911 telephone system, which provides rapid public access for coordinated dispatching of services, personnel, equipment, and facilities for police, fire, medical, or other emergency services.

(2) "Enhanced 911 telephone system" means a public telephone system consisting of a network, data base, and on-premises equipment that is accessed by dialing 911 and that enables reporting police, fire, medical, or other emergency situations to a public safety answering point. The system includes the capability to selectively route incoming 911 calls to the appropriate public safety answering point that operates in a defined 911 service area and the capability to automatically display the name, address, and telephone number of incoming 911 calls at the appropriate public safety answering point.

(3) "Switched access line" means the telephone service line which connects a subscriber's main telephone(s) or equivalent main telephone(s) to the local exchange company's switching office.

(4) "Local exchange company" has the meaning ascribed to it in RCW 80.04.010.

(5) "Radio access line" means the telephone number assigned to or used by an end user for two-way local wireless voice service available to the public for hire from a radio communications service company. Radio access lines include, but are not limited to, radio-telephone communications lines used in cellular telephone service, personal communications services, and network radio access lines, or their functional and competitive equivalent. Radio access lines do not include lines that provide access to one-way signalling service, such as paging service, or to communications channels suitable only for data transmission, or to nonlocal radio access line service, such as wireless roaming service, or to a private telecommunications system.

(6) "Radio communications service company" has the meaning ascribed to it in RCW 80.04.010.

(7) "Private telecommunications system" has the meaning ascribed to it in RCW 80.04.010.

Sec. 3. RCW 82.14B.030 and 1991 c 54 s 11 are each amended to read as follows:

(1) The legislative authority of a county may impose a county enhanced 911 excise tax on the use of switched access lines in an amount not exceeding fifty cents per month for each switched access line. The amount of tax shall be uniform for each switched access line. Each county shall provide notice of such tax to all local exchange companies serving in the county at least sixty days in advance of the date on which the first payment is due.

(2) The legislative authority of a county may also impose a county 911 excise tax on the use of radio access lines located within the county in an amount not exceeding twenty-five cents per month for each radio access line. The amount of tax shall be uniform for each radio access line. The county shall provide notice of such tax to all radio communications service companies serving in the county at least sixty days in advance of the date on which the first payment is due. Any county imposing this tax shall include in its ordinance a refund mechanism whereby the amount of any tax ordered to be refunded by the judgment of a court of record, or as a result of the resolution of any appeal therefrom, shall be refunded to the radio communications service company or local exchange company that collected the tax, and those companies shall reimburse the users who paid the tax. The ordinance shall further provide that to the extent the users who paid the tax cannot be identified or located, the tax paid by those users shall be returned to the county.

(3) Beginning January 1, 1992, a state enhanced 911 excise tax is imposed on all switched access lines in the state. For 1992, the tax shall be set at a rate of twenty cents per month for each switched access line. Until December 31, 1998, the amount of tax shall not exceed twenty cents per month for each switched access line and thereafter shall not exceed ten cents per month for each switched access line. The tax shall be uniform for each switched access line. Tax proceeds shall be deposited by the treasurer in the enhanced 911 account created in RCW 38.52.540.

~~((3))~~ (4) By August 31st of each year the state enhanced 911 coordinator shall recommend the level for the next year of the state enhanced 911 excise tax to the utilities and transportation commission. The commission shall by the following October 31st determine the level of the state enhanced 911 excise tax for the following year.

Sec. 4. RCW 82.14B.040 and 1991 c 54 s 12 are each amended to read as follows:

The state enhanced 911 tax and the county enhanced 911 tax ~~((created in this chapter))~~ on switched access lines shall be collected from the user by the local exchange company providing the switched access line. The ~~((local exchange company shall state))~~ county 911 tax on radio access lines shall be collected from the end user by the radio communications service company providing the radio access line to the end user. The amount of the ~~((taxes))~~ tax shall be stated separately on the billing statement which is sent to the user.

NEW SECTION. Sec. 5. A new section is added to chapter 38.52 RCW to read as follows:

Any person as defined in RCW 82.04.030 owning, operating, or managing any facilities used to provide wireless two-way telecommunications services for hire, sale, or resale which allow access to 911 emergency services shall provide a system of automatic number identification which allows the 911 operator to automatically identify the number of the caller.

NEW SECTION. Sec. 6. (1) The department of revenue shall conduct a study of base and rate for the 911 excise tax. The study shall address but not be limited to the following questions:

(a) What is the current tax base for enhanced 911 excise tax? Who is included in the current tax base? Who is not included in the current tax base?

- (e) What are the fiscal impacts of changing the tax base or tax rate, or both?

(2) To perform this study, the department of revenue shall form an advisory study committee with balanced representation which must include, but need not be limited to, representatives from county government, representatives of both wireline and wireless telecommunications companies, large and small businesses that use wireline and wireless telecommunications services, the department of community, trade, and economic development, and county 911 coordinators. The committee shall also include two members from the house of representatives, one from each caucus, appointed by the speaker of the house of representatives, and two members from the senate, one from each caucus, appointed by the president of the senate.

(3) The department of revenue shall provide staff for the purpose of the study.

(4) The department of revenue shall present a final report of the findings of the study to the committees of the legislature that deal with revenue matters no later than July 1, 1995.

Sec. 7. RCW 38.52.540 and 1991 c 54 s 6 are each amended to read as follows:

The enhanced 911 account is created in the state treasury. All receipts from the state enhanced 911 excise tax imposed by RCW 82.14B.030 shall be deposited into the account. Moneys in the account shall be used only to help implement and operate enhanced 911 state-wide, and to conduct a study of the tax base and rate for the 911 excise tax. The state enhanced 911 coordinator, with the advice and assistance of the enhanced 911 advisory committee, shall specify by rule the purposes for which moneys may be expended from this account.

On motion of Senator Fraser, the following amendment to the Committee on Energy and Utilities striking amendment was adopted:

On page 8, after line 34, strike paragraph (ff) and substitute the following:

"(ff) Personally identifiable information collected by a 911 telephone system (i) for the specific purpose of developing or updating the data base associated with such a system, or (ii) during an emergency call to such a system. For purposes of this paragraph, personally identifiable information does not include any record of aggregate data which does not identify particular persons."

The President declared the question before the Senate to be the adoption of the Committee on Energy and Utilities striking amendment, as amended, to House Bill No. 2601.

POINT OF INQUIRY

Senator Roach: "Senator Sutherland, can you tell me if line blocking will apply to this bill--the 911--one's ability to know who you are? If you have a cellular phone, can you apply line blocking to it?"

Senator Sutherland: "The caller identification that you are talking about is not applicable to cellular or regular radio wave-type telephones. If you have a cellular phone now, for example, and you contacted someone that had subscribed to the service of caller ID, and you called them and normally your phone number would appear on their digitized instrument--on cellular phones, no number appears. That doesn't change under this bill. Your specific question of whether you have line blocking--if you call someone and you don't want to reveal the phone number to whom you are calling, if you have line blocking now, either line blocking or per call blocking, you dial the star seven zero prior to dialing 911. Excuse me, Senator Nelson corrects me; you are correct, it is star six seven. Star seven zero deletes the call waiting function. We have to get all of this stuff straight sooner or later. The star six seven and then 911--I don't know for sure if it would block your 911. Senator Nelson is indicating to me that dialing star six seven before 911 will not block your number and the emergency companies that you would call would be able to identify who you were when you called, although they cannot do that for cellular right now."

The motion by Senator Sutherland carried and the committee amendment, as amended, was adopted.

(b) "Family" means an individual or an individual and the individual's spouse, if not legally separated, and the individual's dependent children. For purposes of eligibility determination and enrollment in the plan, an individual cannot be a member of more than one family. (c) "Family dependent" means an enrollee's legal spouse, if not legally separated, or the enrollee's dependent child, who meets all eligibility requirements, is enrolled in the plan, and for whom the applicable premium has been paid."

MOTION

On motion of Senator Talmadge, the rules were suspended, Substitute House Bill No. 2443 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF INQUIRY

Senator Newhouse: "Senator Talmadge, are there automatic deduction responsibilities for the employer deducting for the employees' wages in here?"

Senator Talmadge: "Yes."

Senator Newhouse: "How is that computed if the employees are low-waged earners with relative low income during the year?"

Senator Talmadge: "That would be something, Senator Newhouse, that would be developed by the Health Services Commission in its process of defining this specific nature of the benefits here. We have the Uniform Benefits Package. It is being developed by and will be submitted to us in January of next year and, basically, the commission would take that Uniform Benefit package and look at the contributions of employers and employees in light of the cost of that package at that time."

Senator Newhouse: "But, I have seen publications or stories in the newspaper that you are saying that the industry must pay the full cost of the program and if the employee is exempt, who is going to pay?"

Senator Talmadge: "Well my concern, Senator, is that we do not treat the agriculture industry differently than we do any other industry in the state. This is a special way of approaching health care related costs. It is like a mini single payer system for the agriculture industry. It really does not involve the kind of private insurance mechanism that is traditional in the rest of our health care reform efforts, so it is a little bit different. All that I'm saying, and have said consistently, is that we want to treat all employers and employees with the maximum degree that we can, similarly across the state of Washington."

Senator Newhouse: "Excuse me for getting into a dialogue here, but in this situation, you are defining certain employer groups or industry groups--strictly agriculturally related. There are far more in the state who are part time or seasonal workers. The most horrible example, I suppose, is the fishing industry. How are you going to cover them? Will they have a separate pool; will they be required to contribute fully from their own industry to support that pool or will they be subsidized by the state or some federal agency?"

Senator Talmadge: "Senator, as I mentioned in my floor remarks, the provisions of this bill could be applied to those other seasonal industries, as well, in the discretion of the Health Services Commission. It is something that we give them authority to take a look at it and do and if the pooling arrangement that is envisioned here works, it certainly is a model that might be applied to some of the other seasonal industries as well."

Further debate ensued.

The President declared the question before the Senate to be the roll call on the final passage of Substitute House Bill No. 2443.
