**HB 1982** by Representative Ericksen

Regarding public-private agreements for expansion, operation, and maintenance of a portion of the Interstate 5 corridor.

Finds and declares that it is essential for the economic well-being of the state and for the maintenance of a high quality of life that the people of the state have an efficient transportation system. The ability of the state to provide an efficient transportation system will be enhanced by a public-private sector program providing for private entities to undertake the study, planning, design, development, acquisition, installation, construction or improvement, operation, and maintenance of existing transportation systems. In order to ensure the most effective operation of this program, it is appropriate to undertake a pilot project on a portion of the Interstate 5 corridor.

**HB 1983** by Representative Ericksen

Promoting competition for video services.

Finds that there has been only minimal competitive entry into the facilities-based video programming market since Washington's franchising requirements were first enacted.

Finds that the cable franchise requirements and associated build-out requirements have acted as a barrier to entry to many new facilities-based entrants, because time-to-market and reasonable cost of entry are critical for new entrants seeking to compete with the cable incumbents.

Provides that, to remove legal uncertainty under state law with respect to the authority of competitive cable service providers and video service providers to use the public rights-of-way to the extent the cable franchise requirements do not apply, and to promote competitive entry by all competitive cable service providers and video service providers, the state of Washington can and should provide a state-issued authorization for competitive cable service providers and video service providers to deploy their systems and provide cable service and video service to residents of the state. This state-issued grant will allow all competitive cable service providers and video service providers to move forward in making the significant investments required to provide new services and competition for video programming.

Enacting the right to farm act.

Finds that the state's agricultural industry is diversified, productive, and a major contributor to the Washington economy. Urban and rural communities statewide benefit from the direct and indirect jobs, income, and revenues generated by agricultural production. Agricultural land is essential to providing citizens with food and fiber and to ensuring aesthetic values through the preservation of open spaces.

Finds that excessive government regulation can cause agricultural land to be converted to nonagricultural uses, and that inconsistencies between federal and state regulations can cause confusion for those persons affected. In addition, agricultural activities conducted on farmland are often subjected to nuisance lawsuits that encourage and even force the premature removal of the lands from agricultural uses. The legislature further finds that for the agricultural industry to survive, farms must be able to adopt new technologies and to diversify into new products. The legislature intends with this act that agricultural activities conducted on farmland that are consistent with good agricultural practices will be protected from excessive, inconsistent regulation by government and from nuisance lawsuits.

Enhancing the punishment for theft when the damages to the victim greatly exceed the value of the stolen property.

Provides that in a prosecution for theft in the first or second degree, the prosecution may file a special allegation of disproportionate impact when sufficient admissible evidence exists, which, when considered with the most plausible, reasonably foreseeable defense that could be raised under the evidence, would justify a finding by a reasonable and objective fact-finder that the damage to the victim greatly exceeds the value of the stolen property.

Provides that, once a special allegation has been made under this act, the state has the burden to prove beyond a reasonable doubt that the damage to the victim greatly exceeds the value of the stolen property. If a jury is had, the jury shall, if it finds the defendant guilty, also find a special verdict as to whether the damage to the victim greatly exceeds the value of the stolen property. If no jury is had, the court shall make a finding of fact as to whether the damage to the victim greatly exceeds the value of the stolen property.

(DIGEST AS ENACTED)

Provides that: (1) To promote the safety of persons and the security of property, the director shall meet with interested parties to develop lists of suggested preassignment, postassignment, and postassignment refresher training by rule.

(2) All security guards licensed on or after July 1, 2005, must complete at least eight hours of preassignment training. The preassignment training may be waived for any individual who was most recently employed full time as a sworn peace officer not more than five years prior to applying to become licensed as a private security guard and who passes the examination typically administered to applicants at the conclusion of the preassignment training.

(3) All security guards must complete at least eight hours of initial postassignment training that shall be administered to each security guard. A company may waive the initial postassignment training for security guards already licensed who transfer from another company, if the security guard presents appropriate training records signed by a department-certified trainer from the previous company, or a signed affidavit that the individual has already completed the required initial postassignment training provided by his or her previous company.

Provides that, following completion of the preassignment and postassignment training, at least four total hours of annual refresher training shall be administered to security guards each subsequent year.

Companion Bill: 5966

Preparing a response to the consequences of climate change on the forests of the state.

Finds that minimizing the impacts of global climate change, and restoring the health and resiliency of eastern Washington's forests, will require an accelerated approach to research coupled with an aggressive outreach and training program to motivate an appropriate response on the ground. Better data can be used to mobilize ground responses with enhanced site-specific treatments.

Finds that investments made today, both in research, training, and on-the-ground treatments, will prove more cost-effective, conserve more resources, and save more firefighting costs than the option of doing nothing.

Directs the department of natural resources to contract with the college of forest resources at the University of Washington to: (1) Determine how treatments may be customized to site-specific conditions and to identify the most cost-effective treatments for reducing the risk of climate change and restoring forest health.

(2) Implement a program of technology transfer through a series of outreach activities, including trainer training, community group outreach, and the production of streaming video and other instructional materials concerning the risks of not responding to changing climatic conditions and the benefits of various treatment options.

(3) Develop methods by which state and federal agencies, private and community groups, and Indian tribes may directly assess the costs associated with different management options, including the cost of no action and how future costs can be avoided.

(4) Analyze the institutional cost accounting methods to demonstrate where savings are accumulated and where investments are most needed to restore forest health, and provide recommended alternatives that can improve the responsiveness of treatments, biomass collection, and infrastructure development investments aimed at reducing health risks as applied differently to federal, state, and private ownerships.

(5) Support other programs that assess the feasibility of converting large amounts of underutilized biomass into useful products and green energy by providing required analyses needed to efficiently collect and deliver biomass to green energy end users.

(6) Conduct a pilot project on a high hazard area of forest land that collects and analyzes remote sensing data, using tools such as light detection and ranging data, in order to rapidly track forest health changes and provide information for planning ground treatments and the design of a comprehensive health tracking and treatment planning system for state monitoring.

Providing for rural villages as a new strategy for growth in rural areas.

(SEE ALSO PROPOSED 1ST SUB)

Finds that the population in western Washington is growing and will continue to grow. Models indicate that the central Cascades region can expect a doubling of the population within the next one hundred years.

Recognizes that the growth management act has used large lot zoning to discourage residential development of rural and resource lands, and that the increase in nonurban development has disproportionate undesirable impacts to landscape and watershed integrity, environmental functions, economic viability of resource lands, and public costs.

Declares that the most important component in building a successful transfer of development rights program is creating adequate receiving area capacity, and that it is a regional goal to direct growth to urban areas, and therefore it is a priority to develop this receiving capacity primarily in urban areas. In addition, the potential for additional receiving areas in appropriate nonurban areas is being explored concurrently.

Declares that a county planning under RCW 36.70A.040 may designate no more than one rural village in the rural area outside of limited areas of more intensive rural development established pursuant to RCW 36.70A.070(5)(d).

**HB 1998-S** by House Committee on Local Government (originally sponsored by Representatives McCoy, B. Sullivan, Strow, Dunshee, Priest, Wood, Springer, and Linville)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that the population in western Washington is growing and will continue to grow. Models indicate that the central Cascades region can expect a doubling of the population within the next one hundred years.

Recognizes that the growth management act has used large lot zoning to discourage residential development of rural and resource lands. However, historical entitlement of smaller lots coupled with rapidly increasing real estate values have led to widespread development of nonurban lots of a variety of sizes, locations, and zoning categories. This problem is exacerbated by recent trends in the timber industry, resulting in ownership changes, accelerated harvesting regimes, and likely conversion of many properties to residential development in the near term. It is reasonable to assume that under a one hundred-year timeframe all nonurban lots are likely to be developed.

Finds that the increase in nonurban development has disproportionate undesirable impacts to landscape and watershed integrity, environmental functions, economic viability of resource lands, and public costs.

Declares that additional approaches to managing rural growth are needed. Success will likely not come from a single strategy; rather, a multifaceted approach is required. Implementation of a region-wide or statewide transfer of development rights program could play a major role in finding a solution.

Declares that the most important component in building a successful transfer of development rights program is creating adequate receiving area capacity. Accommodating dramatic population growth while meeting resource conservation goals over the next one hundred years will require greatly increasing receiving area capacity. It is a regional goal to direct growth to urban areas, and therefore it is a priority to develop this receiving capacity primarily in urban areas. In addition, the potential for additional receiving areas in appropriate nonurban areas is being explored concurrently.

Declares that a county planning under RCW 36.70A.040 may designate no more than one rural village in the rural area outside of limited areas of more intensive rural development established pursuant to RCW 36.70A.070(5)(d).

Companion Bill: 5856

Providing responsible bidder criteria and related requirements for public works contracts.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that before award of a public works contract, a bidder must meet the following responsibility criteria to be considered a responsible bidder and qualified to be awarded a public works project. The bidder must have: (1) At the time of bid submittal, a certificate of registration in compliance with chapter 18.27 RCW;

(2) A current state unified business identifier number;

(3) If applicable, industrial insurance coverage for the bidder's employees working in Washington as required in Title 51 RCW; an employment security department number as required in Title 50 RCW; and a state excise tax registration number as required in Title 82 RCW; and

(4) Not been disqualified from bidding on any public works contract under RCW 39.06.010 or 39.12.065(3).

Provides that in addition to the bidder responsibility criteria, the state or municipality may adopt supplemental criteria for determining bidder responsibility applicable to a particular project.

Requires public works contractors to verify that their first tier subcontractors meet the bidder responsibility criteria listed in this act at the time of award, and any subcontractor that hires other subcontractors must verify that their subcontractors meet the responsibility criteria listed in this act at the time of award.

**HB 2011** by Representatives Flannigan, Armstrong, Wallace, Buri, Linville, Sells, Hasegawa, Wood, Kenney, Simpson, Ormsby, and Schual-Berke

Including students from public institutions of higher education in the commute trip reduction program.

Finds that it is in the interests of our state to extend the commute trip reduction program to include not only employees, but also students from public institutions of higher education. Traffic congestion is a serious problem that affects the health and

safety of everyone in the state. Therefore, the inclusion of students in the commute trip reduction programs that public universities are already operating for their employees would be greatly beneficial in reaching this state's existing policy goals of reducing traffic and improving environmental quality.

Requires each public institution of higher education to maintain at least one full-time equivalent employee for the purpose of managing the public institution's commute trip reduction program to ensure that the program is offered to students in addition to employees, as required under this act.

Appropriates the sum of thirty-five thousand dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2008, from the general fund to each public institution of higher education, as defined in this act.

Concerning treatment products for use in drain fields of on-site sewage disposal systems.

Declares that manufacturers of proprietary treatment products that use soil-based denitrification processes in the drain fields of on-site sewage disposal systems are exempted from registering such proprietary treatment products with the department only if the following conditions are met: (1) The proprietary treatment product must conform to the universal plumbing code;

(2) Any biological component used in the proprietary treatment product must meet the conditions of RCW 70.118.060 relating to additive regulation;

(3) For purposes of product testing, sampling for total nitrogen discharge to the soil is drawn using a soil vacuum lysimeter or by other means approved by the department;

(4) The results of product testing in the soil surrounding the drain field test sites must be at or below ten parts per million of total nitrogen;

(5) Testing data is submitted to the department for review and approval or denial; and

(6) The proprietary treatment product is installed into a septic system with a preexisting on-site permit.

**HB 2014** by Representatives Chase, Santos, Kenney, Hasegawa, Miloscia, Simpson, and Ormsby

Addressing the regulation of conversion condominiums.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that a notice of condominium conversion expressly states whether there is a county or city relocation assistance program for tenants or subtenants of conversion condominiums in the jurisdiction in which the property is located.

Requires a declarant of condominium conversion to pay relocation assistance, in an amount to be determined by the city or county, to tenants and subtenants who meet requirements under this act.

Provides that a declarant of condominium conversion and any dealer shall not begin any construction, remodeling, or repairs to any portion of a building that is to be converted to a condominium or the lot on which the conversion condominium is located: (1) During the one hundred twenty-day notice period provided for in this act; or

(2) Earlier than twelve hours after the last tenant or subtenant, who elected not to purchase a unit and who is in lawful occupancy, has vacated the premises.

Provides that any city, town, code city, or county legislative authority may adopt laws or ordinances that restrict the number of conversion condominiums that are approved annually or within any other time period chosen by the legislative authority.

**HB 2014-S** by House Committee on Housing (originally sponsored by Representatives Chase, Santos, Kenney, Hasegawa, Miloscia, Simpson, and Ormsby)

(DIGEST AS ENACTED)

Provides that a notice of condominium conversion expressly states whether there is a county or city relocation assistance program for tenants or subtenants of conversion condominiums in the jurisdiction in which the property is located.

Provides that, if the county or city does have a relocation assistance program, the following must also be included in the notice: (1) A summary of the terms and conditions under which relocation assistance is paid; and

(2) Contact information for the city or county relocation assistance program, which must include, at a minimum, a telephone number of the city or county department that

administers the relocation assistance program for conversion condominiums.

Provides that, at the declarant's option, the declarant may provide all tenants in a single building with an option to terminate their lease or rental agreements without cause or consequence after providing the declarant with thirty days' notice. In such case, tenants continue to have access to relocation assistance under this act.

Requires a declarant to pay relocation assistance in an amount to be determined by the city or county, which may not exceed a sum equal to three months of the tenant's or subtenant's rent at the time the conversion notice required under this act is received.

Provides that a declarant and any dealer shall not begin any construction, remodeling, or repairs to any interior portion of an occupied building that is to be converted to a condominium during the one hundred twenty-day notice period provided for in this act unless all residential tenants and residential subtenants who have elected not to purchase a unit and who are in lawful occupancy in the building have vacated the premises.

Provides that all cities and counties planning under RCW 36.70A.040, which have allowed any conversion condominiums within the jurisdiction within the previous twelve-month period, must include the following performance measure-related data in an annual report to the department of community, trade, and economic development: (1) The total number of apartment units converted into condominiums;

(2) The total number of conversion condominium projects;

(3)(a) The difference in the monthly rental housing cost of each former rental unit that is converted and (b) the monthly mortgage cost of the owner occupancy condominium to which it is converted or the expected monthly mortgage cost of the condominium to which it is in the process of being converted;

(4) The total number of apartment tenants affected by the conversion who elect to purchase a condominium within the development and income information for each of those tenants;

(5) The total number of apartment tenants who receive relocation assistance, the total amount of that assistance per tenant, and income information for all tenants who received relocation assistance;

(6) Income information for all tenants in units that were converted into condominiums; and

(7) The net change in the total number of rental housing units within the jurisdiction and the net change in the number of rental housing units affordable to low and very-low income households.

Takes effect August 1, 2008.

Does not apply to any conversion condominiums for which a notice required under RCW 64.34.440(1) has been delivered before the effective date of this act.

Requiring development and adoption of a statewide common school curriculum.

Provides that, by January 15, 2009, within existing resources appropriated for the administration of the Washington assessment of student learning, the superintendent of public instruction shall develop a comprehensive and grade-appropriate curriculum for the instruction of students in kindergarten and grades one through twelve in the content areas assessed by the Washington assessment of student learning. The superintendent shall periodically reevaluate the curriculum to ensure that it reflects any changes to the content areas assessed by the Washington

assessment of student learning. In developing the curriculum, the superintendent shall consider input from educators, parents, publishers of textbooks and related materials, and other interested parties.

Provides that beginning with the 2009-10 school year, all common school districts shall adopt the statewide curriculum developed by the superintendent of public instruction under this section to instruct students in kindergarten and grades one through twelve in those content areas addressed by the curriculum. This section does not preclude a school district from providing instruction in addition to that provided by the curriculum.

**HB 2028** by Representatives Santos, McIntire, Schual-Berke, Ericks, Conway, Simpson, and Ormsby

Modifying senior citizen property tax provisions.

Provides that a person who otherwise qualifies under this act and has a combined disposable income of fifty thousand dollars or less but greater than income threshold 3 as provided in this act, the valuation of the residence shall be the assessed value of the residence for the previous year, plus two percent. For counties that do not revalue property annually, the valuation of the residence shall be the previous assessed value plus two percent for each year since the previous revaluation of the residence. If the person subsequently fails to qualify under this subsection only for one year because of high income, the valuation of the

residence upon requalification shall be calculated as if the person had been qualified the previous year. If the person fails to qualify for more than one year in succession because of high income or fails to qualify for any other reason, the valuation upon requalification shall be the assessed value on January 1st of the assessment year in which the person requalifies.

Provides that a deferral under this act must have been granted for the claimant's residence for taxes levied for collection in 2008. Eligible deferrals may be renewed as provided in this act, but new deferrals may not be granted for taxes levied for collection after 2008.

Provides that the valuation of a residence determined under RCW 84.36.381(7) shall apply for the levies of all taxing districts, unless the legislative authority of a county adopts an ordinance or resolution providing that valuations under RCW 84.36.381(7) do not apply within the county. If such an ordinance or resolution is adopted, valuations under RCW 84.36.381(7) do not apply to the levy of any taxing district upon property within the county, except the levy by the state. If the ordinance or resolution is repealed, valuation of a residence determined under RCW 84.36.381(7) applies to the levies of all taxing districts upon property within the county.

**HB 2041-S** by House Committee on Transportation (originally sponsored by Representatives Jarrett, Simpson, Curtis, Clibborn, Campbell, Armstrong, Ormsby, Schindler, Wallace, Sullivan, Ericksen, and Linville)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Serves to clarify existing goals, objectives, and responsibilities related to the operation of the statewide transportation system.

Requires the office of financial management to submit initial objectives and performance measures to the legislature for its review, and to the commission, during the 2008 legislative session. The office of financial management shall submit objectives and quantitative performance measures to the legislature for its review, and to the commission for the purpose of providing input into the statewide transportation plan, during each regular session of the legislature during an even-numbered year thereafter.

Requires that, by December 1, 2007, the office of financial management shall submit a baseline report on the attainment of policy goals under RCW 47.01.012 in the 2005-2007 fiscal biennium. By October 1, 2008, beginning with the development of the 2009-2011 biennial transportation budget, and by October 1st each year thereafter, the office of financial management shall submit to the legislature and the governor an annual report on progress made towards attainment by state transportation agencies of the state transportation policy goals and objectives prescribed by statute, appropriation, and governor directive. The report must, at a minimum, include the degree to which state transportation projects and programs progress towards attainment of the policy goals set forth in RCW 47.01.012, as measured by the objectives and performance measures established under RCW 47.01.012.

Repeals RCW 47.01.370 and 47.05.051.

**HB 2059** by Representatives Miloscia, Schindler, Kelley, Eddy, Quall, McCune, Simpson, and Hurst

Providing for the property valuation of affordable multifamily rental housing.

(SEE ALSO PROPOSED 1ST SUB)

Provides that sales of affordable multifamily housing involving nonprofits or housing authorities shall not be used as sales of similar property, nor may any other transaction involving an affordable multifamily rental housing project be used, when the price paid does not reflect government restrictions on use, actual net operating income, and typical investor motivations or financing. Sales of conventional multifamily projects that have no affordable rent restrictions shall not be used as sales of similar housing without applying a cash equivalency and a net operating income adjustment. The sales comparison approach shall be deemed secondary to the direct capitalization of income approach.

**HB 2059-S** by House Committee on Housing (originally sponsored by Representatives Miloscia, Schindler, Kelley, Eddy, Quall, McCune, Simpson, and Hurst)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Provides that consideration should be given to any agreement, between an owner of rental housing and any government agency, that restricts rental income, appreciation, and liquidity; and to the impact of government restrictions on operating expenses and on ownership rights in general of such housing.

Companion Bill: 6004

Concerning exceptional sentences.

(DIGEST AS ENACTED)

Finds that in *State v. Pillatos*, 150 P.3d 1130 (2007), the Washington supreme court held that the changes made to the sentencing reform act concerning exceptional sentences in chapter 68, Laws of 2005 do not apply to cases where the trials had already begun or guilty pleas had already been entered prior to the effective date of the act on April 15, 2005. The legislature intends that the superior courts shall have the authority to impanel juries to find aggravating circumstances in all cases that come before the courts for trial or sentencing, regardless of the date of the original trial or sentencing.

Provides that, in any case where a new trial or new sentencing hearing is required, the superior court shall have the authority to impanel a jury to consider any aggravating circumstances, as alleged by the state and listed in RCW 9.94A.535(3) (a) through (y), at either the new trial or, if no new trial is necessary, at the new sentencing hearing.

**HB 2072** by Representatives Wallace, Haigh, McDermott, Hunter, Sells, Linville, Pedersen, Kenney, Moeller, Morrell, O'Brien, Conway, Eddy, Goodman, Simpson, Hudgins, and Ormsby

Increasing access to higher education.

Declares that access to higher education is of paramount importance to the citizens of the state of Washington. However, the legislature further declares that the following three factors are creating barriers to access for students: (1) Tuition increases have varied dramatically over the last decade, making the cost of postsecondary attendance unpredictable for students and families;

(2) There are at least thirty separate state and federal programs providing direct financial aid or tax benefits to individuals seeking postsecondary education, in addition to institutional aid, private scholarships, and other programs. The system is complicated and difficult to understand, with the unfortunate effect of discouraging some low-income students from even applying to college. Additionally, some students are not able to access enough financial assistance to make postsecondary education affordable; and

(3) Students frequently must repeat college-level coursework when transferring from one institution of higher education to another.

Declares an intent through implementing of a complementary and coordinated set of policies around tuition, financial aid, and student transitions, to make access to higher education a top priority.

House Rules "X" file.

**HB 2074** by Representatives Hinkle and Walsh

Requesting the court to determine if a termination petition is appropriate when a parent fails to contact a child or indicates an unwillingness to care for the child.

Finds that it is not in the best interest of the child to delay action on a parent who has not indicated any desire to maintain contact with his or her child.

Declares that the state should file the petition for termination to allow a court to review the case and decide the appropriate course of action. This may encourage the parent to step forward and contact the child or indicate a willingness to become involved in the child's life. This will begin the process of connecting the child to the parent possibly years sooner than would otherwise be the case. However, if the parent truly does not wish to be involved in the life of the child, the court should have the opportunity to terminate the parental rights of that parent and move the case toward permanency.

Concerning termination of parental rights petitions.

(SEE ALSO PROPOSED 1ST SUB)

Provides that in determining whether aggravated circumstances exist by clear, cogent, and convincing evidence, the court's consideration may include that eighteen months have passed since the child was removed from the home and the parent has indicated that he or she is unwilling to care for the child or has failed to have contact with the child.

**HB 2075-S** by House Committee on Early Learning & Children's Services (originally sponsored by Representatives Hinkle and Walsh)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that it is not in the best interest of the child to delay action on a parent who has not indicated any desire to maintain contact with his or her child.

Provides that the state should file the petition for termination to allow a court to review the case and decide the appropriate course of action. This may encourage the parent to step forward and contact the child or indicate a willingness to become involved in the child's life. This will begin the process of connecting the child to the parent possibly years sooner than would otherwise be the case. However, if the parent truly does not wish to be involved in the life of the child, the court should have the opportunity to terminate the parental rights of that parent and move the case toward permanency.

Provides that a petition may allege the following: (1) Fifteen months have elapsed since the child was removed from the home;

(2) The parent has been given the opportunity to contact the child and engage in a relationship with the child; and

(3) The parent of the child has indicated an unwillingness to care for the child or has failed to have contact with the child.

Improving state supervision of felony offenders in the community.

Provides that an offender may be required to submit to a search and seizure of the offender's person, residence, automobile, or other personal property.

Provides that the department shall perform random, unannounced inspections of the residence of every offender serving a term of community custody. The purpose and scope of the search shall be to determine whether the offender is complying with the terms of his or her community custody.

Provides that the department shall develop a performance review whenever an offender serving a term of community custody is convicted of a new crime to determine whether the department contributed to the circumstances that allowed the crime to occur. Beginning January 1, 2008, the department shall compile and submit copies of the reviews developed during the previous calendar year to the governor and the legislature.

Provides that: (1) The department may not release any offenders on community custody until July 1, 2008. The prohibition in this subsection applies regardless of whether the community custody is the result of earned release time or is part of the offender's sentence; and

(2) In no case shall the department hold an offender in total confinement under this act longer than his or her total term of confinement plus any term of community custody that is part of his or her sentence.

**HB 2088** by Representatives Darneille, Pettigrew, Ericks, Kenney, O'Brien, Appleton, Campbell, Pedersen, Linville, Moeller, Green, Schual-Berke, Simpson, Ormsby, and Roberts

Companion Bill: 5909

Supporting the needs of children who have been in foster care.

(SEE ALSO PROPOSED 1ST SUB)

Creates a pilot program to establish a foster youth community coordinator in three regional office locations within the state.

Requires that the department establish an individual development account for each child who has been in an out-of-home placement under chapter 13.34 RCW for a period of six or more months.

Declares that the department deposit not less than three hundred dollars to the individual development account of each child who was in an out-of-home placement for six or more months during the previous fiscal year by July 1, 2007.

Directs the department to continue making annual contributions of not less than one hundred dollars to be deposited at the beginning of each fiscal year to the individual development accounts of children for whom an account was established in this act.

Provides that youth under the age of twenty-one years may enter into a voluntary placement agreement with the department to return to foster care for a period of up to six months following the youth's eighteenth birthday.

**HB 2088-S** by House Committee on Early Learning & Children's Services (originally sponsored by Representatives Darneille, Pettigrew, Ericks, Kenney, O'Brien, Appleton, Campbell, Pedersen, Linville, Moeller, Green, Schual-Berke, Simpson, Ormsby, and Roberts)

Extends foster care for certain youth beyond age eighteen and creates programs for them.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Gives the department the authority to allow youth reaching age eighteen to return to foster care within six months of leaving foster care for the purposes provided in RCW 74.13.031(10)(b) (i). If a youth, under age nineteen, leaves foster care before receiving his or her high school diploma, he or she may return to foster care within six months of leaving for the purpose of receiving his or her high school diploma or GED. A youth eligible to return to foster care under this provision must sign a voluntary placement agreement with the department before returning to foster care.

Requires the Washington state institute for public policy to:

- (1) Conduct a national review of state programs for youth transitioning out of foster care covering state policies on eligibility requirements for continued foster care, age thresholds for transitioning services, types of services provided, and use of state funds to supplement federal moneys for transitioning youth; and

- (2) Survey foster youth and foster parents in Washington to provide information on how well current services are meeting the needs of youth transitioning out of foster care.

**HB 2093** by Representatives Miloscia and O'Brien

Accommodating projected urban growth in large counties by wage decile.

Provides that the urban growth accommodations required must include zoning regulations that conform to the estimated wages of the residents expected to comprise the growth. Zoning regulations adopted must: (1) Be determined with formulae developed by the city or county accommodating the projected growth;

(2) Be divided by wage decile; and

(3) Include an evaluation component that annually analyzes the effectiveness of the regulations in increasing the availability of affordable housing within the jurisdiction to each wage decile.

Provides that if the evaluation component required by this subsection does not demonstrate an increase in the availability of affordable housing within the jurisdiction to each wage decile, the county or city conducting the evaluation must develop and implement recommendations that are reasonably likely to increase the availability of such housing.

Declares that these requirements apply only to counties with more than six hundred thousand residents as of April 1, 2005, and the cities within those counties.

**HB 2102** by Representatives Morris and Hudgins

Regarding records retained by communications providers.

Declares that when a covered entity substantially upgrades or replaces their billing or records management system, the resulting system must be capable of verifying and recording which person or persons, internal or external, have had access to customer profile data.

Declares that upon written request by a customer, any covered entity shall release to the customer all customer profile data pertaining to that customer, including the identity of any individual or entity, internal or external, who has had access to the requesting customer's records. The customer may request a copy of their records once per year free of charge. The customer may be charged a nominal fee for subsequent requests. Any customer profile data collected by a covered entity must be retained and remain accessible to the customer for at least two years.

Provides that after reviewing his or her customer profile data, a customer must be given the opportunity to: (1) Contest the accuracy, completeness, timeliness, relevance, or dissemination of his or her customer profile data;

(2) Correct or amend the information contained in his or her customer profile data; and

(3) Request that customer profile data be removed or destroyed from the database, unless removal or destruction of the information would be contrary to applicable state or federal law.

Provides that a covered entity must implement adequate security measures to protect customer profile data and customer records from unauthorized access, loss, or tampering. These security measures should be consistent with industry accepted best standards that are commensurate with the amount and sensitivity of the customer information being stored on the system.

**HB 2103** by Representatives Morris, Crouse, and Wallace

Companion Bill: 5888

Modifying the competitive classification of telecommunications services.

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares that in determining whether a service is competitive, the commission may consider the number and size of alternative providers of services, including those not subject to commission jurisdiction.

Provides that the commission may also classify as competitive: (1) Any telecommunications service or class of service that it finds not to be an essential service; or

(2) Any package or bundle of services where each essential service in the package or bundle is readily and separately available to customers at fair, just, and reasonable prices, and the price of the bundle or package is equal to or greater than the cost for tariffed services plus the cost of any competitive service.

Recognizes that the term "essential service" includes but is not limited to: (1) Voice grade access to the public switched network;

(2) Local usage;

(3) Dual tone multifrequency signaling or its functional equivalent;

(4) Single-party service or its functional equivalent;

(5) Access to: (a) emergency services; (b) operator services; (c) local directory assistance; (d) telephone relay services; (e) interexchange service; and

(6) Toll limitation and lifeline service for qualifying low-income consumers.

**HB 2103-S** by House Committee on Technology, Energy & Communications (originally sponsored by Representatives Morris, Crouse, and Wallace)

(DIGEST AS ENACTED)

Declares that in determining whether a service is competitive, the commission may consider the number and size of alternative providers of services, including those not subject to commission jurisdiction.

Authorizes a noncompetitive telecommunications company to petition to have packages or bundles of telecommunications services it offers be subject to minimal regulation. The commission shall grant the petition where: (1) Each noncompetitive service in the packages or bundle is readily and separately available to customers at fair, just, and reasonable prices;

(2) The price of the package or bundle is equal to or greater than the cost for tariffed services plus the cost of any competitive services as determined in accordance with RCW 80.36.330(3); and

(3) The availability and price of the stand-alone noncompetitive services are displayed in the company's tariff and on its web site consistent with commission rules.

Regarding objections by cities, towns, and counties to the issuance of liquor licenses.

(DIGEST AS ENACTED)

Provides that, if the board makes an initial decision to deny a license or renewal based on the written objections of an incorporated city or town or county legislative authority, the applicant may request and the board may in its discretion hold a hearing subject to the applicable provisions of Title 34 RCW. If such a hearing is held at the request of the applicant, liquor control board representatives shall present and defend the board's initial decision to deny a license or renewal.

Requires that, in determining whether to grant or deny a license or renewal of any license, the board shall give substantial weight to objections from an incorporated city or town or county legislative authority based upon chronic illegal activity associated with the applicant's operations of the premises proposed to be licensed or the applicant's operation of any other licensed premises, or the conduct of the applicant's patrons inside or outside the licensed premises. "Chronic illegal activity" means: (1) A pervasive pattern of activity that threatens the public health, safety, and welfare of the city, town, or county including, but not limited to, open container violations, assaults, disturbances, disorderly conduct, or other criminal law violations, or as documented in crime statistics, police reports, emergency medical response data, calls for service, field data, or similar records of a law enforcement agency for the city, town, county, or any other municipal corporation or any state agency; or

(2) An unreasonably high number of citations for violations of RCW 46.61.502 associated with the applicant's or licensee's operation of any licensed premises as indicated by the reported statements of patrons to the Washington state patrol.

Creating the heritage barn preservation program.

(SUBSTITUTED FOR - SEE 1ST SUB)

Acknowledges that factors such as changes in the agricultural economy and farming technologies, prohibitive rehabilitation costs, development pressures, and regulations restricting new uses, collectively work to endanger historic barns statewide from falling into decay or being demolished altogether.

Declares that, as historic barns represent irreplaceable resources, and recognizing that barn preservation will work to retain these structures as functional and economically viable elements of working lands, the purpose of this act is to create a system acknowledging heritage barns statewide that provides emergency assistance to heritage barn owners through matching grants, assesses the need for long-term barn preservation, and considers additional incentives and regulatory revisions that work toward the preservation of heritage barns as integral components of Washington's historic landscapes.

VETO MESSAGE ON SHB 2118

May 11, 2007

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 14, Substitute House Bill 2118 entitled:

"AN ACT Relating to transferring responsibilities related to mobile and manufactured home installation from the department of community, trade and economic development to the department of labor and industries."

This bill, which requires the transfer of certain responsibilities related to manufactured housing, does not need an emergency clause. Removing the emergency clause moves back the transfer date of the affected programs from July 1 to July 22. While this may create some inconvenience for the agencies in not aligning the program with the biennial budget, it does not result in an interruption of the services being provided since the Department of Community Trade and Economic Development will continue to administer the program until the transfer is complete. We believe that the desire to avoid potential inconvenience should not be treated as a public emergency warranting an emergency clause.

For these reasons, I have vetoed Section 14 of Substitute House Bill 2118.

With the exception of Section 14, Substitute House Bill 2118 is approved.

Respectfully submitted,  
Christine O. Gregoire  
Governor

VETO MESSAGE ON SHB 2129

May 4, 2007

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 7, Substitute House Bill 2129 entitled:

"AN ACT Relating to geothermal resources."

Section 7 of this bill extends the Department of Natural Resources' authority to recover costs for activities related to permits and leases. This authority has already been extended by other legislation previously enacted during the 2007 legislative session. Accordingly, section 7 of the bill is not needed. In addition, the subject of this section is beyond the scope of the bill title.

For these reasons, I have vetoed Section 7 of Substitute House Bill 2129.

With the exception of Section 7, Substitute House Bill 2129 is approved.

Respectfully submitted,  
Christine O. Gregoire  
Governor

**HB 2138** by Representatives Simpson, B. Sullivan, Sells, Flannigan, and Uptegrove

Regarding fuel tax rate indexing.

Provides that beginning on July 1, 2009, and each July 1st thereafter, the fuel tax rate as computed under RCW 82.36.025 on each gallon of motor vehicle fuel shall be indexed utilizing the implicit price deflator published by the federal bureau of economic analysis. The fuel tax rate for the preceding year in which the fuel tax rate was calculated is multiplied by the index, and the result is added to the preceding year's fuel tax rate, which is then rounded up to the next half cent. The resulting fuel tax rate may not be lower than the fuel tax rate enacted in the immediately preceding year. The difference between thirty-seven and one-half cents per gallon and the new tax rate computed each July 1st shall be deposited monthly into the highway project account created in this act.

Provides that beginning on July 1, 2009, and each July 1st thereafter, the fuel tax rate as computed under RCW 82.38.030 on each gallon of special fuel shall be indexed utilizing the implicit price deflator published by the federal bureau of economic analysis. The fuel tax rate for the preceding year in which the fuel tax rate was calculated is multiplied by the index, and the result is added to the preceding year's fuel tax rate, which is then rounded up to the next half cent. Requiring the use of alternatives to lead wheel weights.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that the use of environmentally preferred alternative wheel weights is required at the time of the first tire replacement, the first tire repair if the tire is removed from the wheel, or the first tire balancing after the effective date of this act.

**HB 2143-S** by House Committee on Select Committee on Environmental Health (originally sponsored by Representatives Campbell, Hunt, Chase, Flannigan, Hudgins, Morrell, and Ormsby)

(AS OF HOUSE 2ND READING 2/19/2008)

Finds that lead hazards associated with lead wheel weights represent a preventable environmental health problem. Lead wheel weights fall off of vehicle wheels along Washington's roadways.

Requires the department to establish an advisory committee, in consultation with the department of health, the traffic safety commission, and the department of general administration, to identify and make readily available to tire distributors, wholesalers, retailers, and auto manufacturers by January 1, 2009, an approved list of environmentally preferred alternatives to lead wheel weights that are available for purchase.

Provides that use of environmentally preferred alternative wheel weights is required at the time of the first tire replacement or the first tire balancing after: (1) January 1, 2010, for all state-owned vehicles;

(2) January 1, 2011, for all used vehicles registered in Washington state; and

(3) January 1, 2012, for all new vehicles registered in Washington state.

Provides that failure of a person that installs wheel weights to comply with this act is punishable by a civil penalty.

**HB 2149** by Representatives Moeller, Kenney, Hinkle, Ericksen, Morrell, and Ormsby

Establishing a joint legislative task force on chronic kidney disease.

Recognizes that a significant number of this state's population have some form of chronic kidney disease, including persons with seriously reduced kidney function that may progress to end stage renal disease, requiring kidney dialysis or the receipt of a kidney by transplant.

Finds that the treatment of chronic kidney disease is a significant expense, and the early diagnosis and effective treatment of chronic kidney disease can prolong lives and delay the high cost of treatment, including dialysis or transplantation, or both; and that there are existing, cost-effective laboratory test calculations that can assist in the early diagnosis of chronic kidney disease.

Establishes a joint legislative task force on chronic kidney disease.

Providing restrictions for reading and handling identification documents.

Declares that: (1) The right to privacy is a personal and fundamental right protected by Article 1, section 7 of the state Constitution. All individuals have a right of privacy in information pertaining to them.

(2) Washington state recognizes the importance of protecting the confidentiality and privacy of an individual's personal information contained in identification documents such as driver's licenses.

(3) Machine-readable features found on driver's licenses and other similar identification documents are intended to facilitate verification of identity, not to facilitate collection of personal information about individuals, nor to facilitate the creation of private data bases of transactional information associated with those individuals.

(4) Easy access to the information found on driver's licenses and other similar identification documents facilitates the crime of identity theft, a crime that is a major concern in Washington.

(5) Use of machine-readable features on identification documents for purposes other than verification of identity constitutes an unreasonable infringement of privacy and is an unfair business practice.

Companion Bill: 5985

Regarding the operation of motorcycles between lanes of traffic or vehicles.

Declares that no person shall operate a motorcycle between lanes of traffic or between adjacent lines or rows of vehicles, unless: (1) The average speed of traffic at any time is substantially slower than the posted speed limit for the roadway;

(2) There are two or more lanes of traffic for vehicles proceeding in the same direction at that time; and

(3) A reasonable and prudent operator of a motorcycle would consider it safe to operate a motorcycle no more than ten miles per hour over the average speed of traffic at that time between the lanes of traffic.

Provides that "substantially slower" means a speed that is half or less than half of the posted speed limit.

Does not apply to police officers in the performance of their official duties.

Revising provisions involving court interpreters.

(SUBSTITUTED FOR - SEE 2ND SUB)

Provides that each trial court organized under Titles 2, 3 and 35 RCW must develop a written language assistance plan to provide a framework for the provision of interpreter services for non-English-speaking persons accessing the court system in both civil and criminal legal matters.

Provides that each court, when developing its language assistance plan, must consult with judges, court administrators and court clerks, interpreters, and members of the community, such as domestic violence organizations, pro bono programs, courthouse facilitators, legal services programs, and/or other community groups whose members speak a language other than English.

Provides that where a qualified interpreter is appointed for a hearing impaired person by a judicial officer in a proceeding before a court under this act in compliance with the provisions of RCW 2.42.130 and 2.42.170, the state of Washington shall reimburse the appointing authority for one-half of the payment to the interpreter.

Provides that where an interpreter is appointed by a judicial officer in a proceeding before a court at public expense, the state of Washington shall reimburse the appointing authority for one-half of the payment to the interpreter where: (1) The interpreter appointed is an interpreter certified by the administrative office of the courts or is a qualified interpreter registered by the administrative office of the courts in a noncertified language, or where the necessary language is not certified or registered, the interpreter has been qualified by the judicial officer pursuant to chapter 2.43 RCW;

(2) The court conducting the legal proceeding has an approved language assistance plan that complies with this act; and

(3) The fee paid to the interpreter for services is in accordance with standards established by the administrative office of the courts.

**HB 2176-S2** by House Committee on Appropriations (originally sponsored by Representatives Lantz, Warnick, Pedersen, Ross, Hasegawa, Kenney, Santos, and Goodman)

(DIGEST AS ENACTED)

Requires each trial court organized under Titles 2, 3, and 35 RCW to develop a written language assistance plan to provide a framework for the provision of interpreter services for non-English-speaking persons accessing the court system in both civil and criminal legal matters.

Requires each court receiving reimbursement for interpreter costs under RCW 2.42.120 or 2.43.040 to provide to the administrative office of the courts by November 15, 2009, a report detailing an assessment of the need for interpreter services for non-English speakers in court-mandated classes or programs, the extent to which interpreter services are currently available for court-mandated classes or programs, and the resources that would be required to ensure that interpreters are provided to non-English speakers in court-mandated classes or programs. The administrative office of the courts shall compile these reports and provide them to the appropriate committees of the legislature by December 15, 2009.

Provides that, subject to the availability of funds appropriated for this purpose, the administrative office of the courts shall reimburse the appointing authority for one-half of the payment to the interpreter where a qualified interpreter is appointed for a hearing impaired person by a judicial officer in a proceeding before a court under this act in compliance with RCW 2.42.130 and 2.42.170.

Reducing the levels of benzene in groundwater and drinking water.

Finds that reduction or removal of benzene in groundwater and drinking water is crucial for the protection of human health and safety and to protect Washington's environment.

Recognizes that one source of harmful benzene levels in Washington groundwater is gasoline spills or leaks from underground storage tanks, landfills, or gasoline pipelines.

Declares that no person shall import into Washington, or sell, dispense, or offer for sale in Washington, any motor fuel that contains greater than .62 percent by volume of benzene, if that motor fuel may spill or leak into any groundwaters or surface waters in Washington.

Does not intend to control or prohibit any characteristic or component of a fuel or fuel additive in a motor vehicle or motor vehicle engine for purposes of motor vehicle emission control.

Limiting deferred prosecution in domestic violence cases.

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares that a person charged with a misdemeanor or a gross misdemeanor that would be considered domestic violence under RCW 10.99.020 or with a misdemeanor or gross misdemeanor under chapter 9A.42 RCW shall not be eligible for a deferred prosecution program unless the court makes specific findings pursuant to RCW 10.05.020. Such person shall not be eligible for a deferred prosecution program more than once.

Requires that, in the case of a petitioner charged with a misdemeanor or gross misdemeanor that would be considered domestic violence under RCW 10.99.020, the petitioner shall allege under oath in the petition that the petitioner is the family or household member of the alleged victim; that the petitioner is in need of domestic violence perpetrator treatment under chapter 26.50 RCW; that the petitioner wants to correct his or her conduct to reduce the likelihood of harm to his or her family or household members; and that unless treated, the probability of future recurrence is great. The petition shall contain a statement that the petitioner agrees to pay the cost of diagnosis and treatment if the petitioner is financially able. The petition shall also contain a case history and written assessment prepared by an approved domestic violence perpetrator treatment program provider under chapter 26.50 RCW.

**HB 2191-S** by House Committee on Judiciary (originally sponsored by Representatives Lantz, Warnick, Pedersen, Williams, Moeller, Seaquist, Morrell, Kelley, Simpson, and Ormsby)

(AS OF HOUSE 2ND READING 1/23/2008)

Declares that a person charged with a misdemeanor or a gross misdemeanor that would be considered domestic violence under RCW 10.99.020 or with a misdemeanor or gross misdemeanor under chapter 9A.42 RCW shall not be eligible for a deferred prosecution program unless the court makes specific findings pursuant to RCW 10.05.020. Such person shall not be eligible for a deferred prosecution program more than once.

Requires that, in the case of a petitioner charged with a misdemeanor or gross misdemeanor that would be considered domestic violence under RCW 10.99.020, the petitioner shall allege under oath in the petition that the petitioner is the family or household member of the alleged victim; that the petitioner is in need of domestic violence perpetrator treatment under chapter 26.50 RCW; that the petitioner wants to correct his or her conduct to reduce the likelihood of harm to his or her family or household members; and that unless treated, the probability of future recurrence is great. The petition shall contain a statement that the petitioner agrees to pay the cost of diagnosis and treatment if the petitioner is financially able. The petition shall also contain a case history and written assessment prepared by an approved domestic violence perpetrator treatment program provider under chapter 26.50 RCW.

Provides that, in lieu of alleging that the petitioner is in need of domestic violence perpetrator treatment under RCW 26.50.150, the petitioner shall allege that the petitioner is in need of counseling or other appropriate services if: (1) The case history and written assessment indicate that the petitioner is not the primary perpetrator of domestic violence in the relationship based on the comparative extent of injuries inflicted or threats creating fear of physical injury or the history of domestic violence between the persons involved; or

(2) The victim is a family or household member who is not a spouse, former spouse, person who has a child in common with the petitioner whether or not he or she has been married or lived together with the petitioner, person sixteen years of age or older who is presently residing together or who has resided together with the petitioner in the past and who has or has had a dating relationship with the petitioner, or person sixteen years of age or older who has or has had a dating relationship with the petitioner.

Increasing state contracts with businesses owned by veterans with disabilities.

Requires the department to develop a procedure for certifying businesses owned by veterans with disabilities and maintain a list of businesses owned by veterans with disabilities on the department's public web site. To be certified by the department, the business must meet all the following requirements: (1) It is a sole proprietorship at least fifty-one percent owned by one or more veterans with disabilities or, in the case of a publicly owned business, at least fifty-one percent of its stock is owned by one or more veterans with disabilities; a subsidiary that is wholly owned by a parent corporation, but only if at least fifty-one percent of the voting stock of the parent corporation is owned by one or more veterans with disabilities; or a joint venture in which at least fifty-one percent of the joint venture's management, control, and earnings are held by one or more veterans with disabilities;

(2) The management and control of the daily business operations are by one or more veterans with disabilities. The

veterans with disabilities who exercise management and control are not required to be the same veterans with disabilities as the owners of the business;

(3) It is a sole proprietorship, corporation, or partnership with its home office located in the United States, which is not a branch or subsidiary of a foreign corporation, foreign firm, or other foreign-based business.

Requires the department to report to the legislature by December 1, 2009, and December 1st of each odd-numbered year thereafter outlining the progress made in implementing this act.

Prioritizing existing funding for special safety corridor projects.

Creates the special safety corridor account in the motor vehicle fund. All receipts from taxes imposed under RCW 82.08.020 and 82.12.020 on materials, labor, equipment, contracts, and components used for constructing any state transportation project authorized by the legislature must be deposited into the account, except for those amounts that are in excess of seventy million dollars each fiscal year.

Requires the following criteria to be used in determining which special safety corridor projects have the highest priority:

- (1) Fatal accident experience;
  - (2) Historic underfunding of safety improvements;
  - (3) Ability to leverage additional nonstate revenue sources;
  - (4) Contribute to the economic development of the corridor;
- and
- (5) Provide additional capacity to move people and goods safely.

Declares that the following projects, listed in order of priority, are eligible for special safety corridor account funding:

- (1) State route number 2 beginning near the junction with state route number 9 at milepost 5 to the King county line at Stevens Pass near milepost 64;

- (2) State route number 97 beginning at milepost 0 to milepost 63; and

Enacting the Washington health opportunity act of 2007.

Directs the authority to issue a request for proposal for a Washington health insurance exchange by September 1, 2007. The exchange shall be designed to serve as a statewide, public-private partnership, offering maximum value for Washington state residents, through which nonlarge group health insurance may be bought and sold. Private entities may respond to the request for proposal. It is the goal of the exchange to: (1) Ensure that employees of small businesses and other individuals can find affordable health insurance;

(2) Provide a mechanism for small businesses to contribute to their employees' coverage without the administrative burden of directly shopping or contracting for insurance;

(3) Ensure that individuals can access coverage as they change and/or work in multiple jobs; and

(4) Coordinate with other state health insurance assistance programs, including the department of social and health services medical assistance programs and the authority's basic health program.

Requires that, no later than two years after the exchange established under this act begins operation and every year thereafter, the exchange shall conduct a study of the exchange and the persons enrolled in the exchange and shall submit a written report to the governor and the legislature on the status and activities of the exchange based on data collected in the study. The report shall also be available to the general public.

Directs the office of the insurance commissioner to contract for an independent study of specific health benefit mandates, rating requirements, and other statutes and rules, as identified by in-state and out-of-state insurance carriers as contributing most to the cost of individual and small group health insurance, to determine the impact on premiums and individuals' health if those statutes or rules were amended or repealed.

Requires the office of the insurance commissioner to submit an interim report to the governor and appropriate committees of the legislature by December 1, 2007, and a final report by December 1, 2008.

Reviewing pipeline capacity and distribution in southwest Washington.

(SEE ALSO PROPOSED 1ST SUB)

Requires the energy facility site evaluation council to review the status of pipeline utility corridor capacity and distribution for natural gas, petroleum, and biofuels in the southwest region of the state. In conducting this study, the council shall, at a minimum, review the following: (1) Whether pipeline utility corridor constraints exist, and if so, to what extent;

(2) Whether there is adequate pipeline utility corridor capacity in the state to meet existing demand; and

(3) Whether the current pipeline utility corridor system is expected to meet projected demand growth in the southwest region of the state.

Authorizes the council to also examine pipeline utility corridor capacity and distribution in other areas of the state to the extent that it has an impact on supply to southwest Washington.

Requires the council to submit its findings and recommendations to the legislature by December 1, 2007.

Increasing state contracts with veteran-owned businesses.

(AS OF HOUSE 2ND READING 2/14/2008)

Recognizes the unique sacrifices made by veterans and the substantial challenges that returning veterans face after a period of military duty away from home.

Recognizes that veterans who own private businesses may face particular hardships as a direct result of their military service. The purpose of this act is to mitigate economic damage to veteran-owned businesses as a result of military service, and to provide opportunities to them in recognition of the outstanding service they have given to their country.

Directs the department to report to the legislature by December 1, 2009, and December 1st of each odd-numbered year thereafter outlining the progress made in implementing this act.

**HB 2212** by Representatives Blake, B. Sullivan, and Newhouse

Addressing the application of the growth management act to certain agricultural activities occurring on agricultural lands.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that there have been and continue to be a considerable number of legal challenges brought before the growth management hearings boards and the courts concerning regulations protecting critical areas and their application to agricultural lands.

Finds it necessary to initiate short and longer-term actions to identify, consider, reduce, and resolve issues causing conflicts between agricultural activities occurring on agricultural lands and development regulations that protect critical areas.

Provides that development regulations adopted under RCW 36.70A.060(2) on or before January 1, 2007, may not prohibit or otherwise limit agricultural activities occurring on agricultural lands if: (1) The agricultural activities occurring on agricultural land are consistent with a farm plan for the parcels on which the agricultural activities are occurring;

(2) The applicable farm plan has been filed with and approved by the county in which the agricultural land is located;

(3) The applicable farm plan provides a level of protection to critical areas that is at least equal to the level of protection the jurisdiction otherwise requires through its development regulations under RCW 36.70A.060(2) for critical areas located on agricultural lands; and

(4) The landowner or operator waives the exemption from public disclosure provided under RCW 42.56.270(17) for the applicable farm plan.

Establishes a joint legislative task force on development regulations and agricultural lands.

Directs the task force and the center to involve stakeholders from diverse perspectives in the process, including but not limited to representatives of counties, cities, the agriculture industry, the environmental community, Native American tribes, and state agencies.

Requires that, by January 1, 2008, the task force shall submit a progress report to the governor and the appropriate committees of the legislature identifying issues, initial recommendations, and a plan for the work remaining.

Requires that, by October 1, 2008, the task force and the center shall report to the governor and the appropriate committees of the legislature its findings and recommendations for resolving or reducing these conflicts, including statutory changes for consideration during the 2009 legislative session.

**HB 2212-S** by House Committee on Local Government (originally sponsored by Representatives Blake, B. Sullivan, and Newhouse)

Expressing progress in balancing the productive use of agricultural lands with their preservation.

(AS OF HOUSE 2ND READING 3/13/2007)

Finds that the goal of preserving Washington's agricultural lands is shared by citizens throughout the state.

Recognizes that efforts to achieve a balance between the productive use of these resource lands and associated regulatory requirements have proven difficult, but that good faith efforts to seek solutions have yielded successes. The legislature believes that this willingness to find and pursue common ground will enable Washingtonians to enjoy the benefits of a successful agricultural economy and a healthy environment, while also preventing the unnecessary conversion of valuable agricultural lands. The legislature, therefore, intends this act, the temporary delays it establishes for amending or adopting provisions of certain critical area ordinances and implementing regulations, and the duties and requirements it prescribes for the William D. Ruckelshaus Center, to be expressions of progress in resolving, harmonizing, and advancing commonly held environmental protection and agricultural viability goals.

Expects the duties and requirements it is prescribing for the Ruckelshaus Center to be successful. If, however, the efforts of the center do not result in a consensus of how to best address the conflicts between agricultural activities and certain regulatory requirements as they apply to agricultural activities, the legislature intends, upon the expiration of the delay, to require jurisdictions that have delayed amending or adopting certain regulatory measures to promptly complete all regulatory amendments or adoptions necessary to comply with the growth management act.

Does not intend this act to reduce or otherwise diminish existing critical area ordinances and implementing regulations that protect critical areas that apply to agricultural activities during the deferral period established in this act.

Provides that, until July 1, 2009, counties and cities must defer amending or adopting critical area ordinances and implementing regulations under RCW 36.70A.060(2) as they specifically apply to agricultural activities.

Provides that counties and cities that defer amending or adopting critical area ordinances and implementing regulations under this act must review and revise these ordinances and regulations as they specifically apply to agricultural activities to comply with the requirements of this chapter by July 1, 2010.

Provides that, subject to the availability of amounts appropriated for this specific purpose, the William D. Ruckelshaus Center must conduct an examination of the conflicts between agricultural activities and critical area ordinances and implementing regulations adopted under chapter 36.70A RCW to protect critical areas. The examination required by this provision must commence by July 1, 2007.

Requires the center to issue a final report of findings and legislative recommendations to the governor and the appropriate committees of the house of representatives and the senate by September 1, 2008.

Provides that the act shall be null and void if appropriations are not approved.

**HB 2215** by Representatives Newhouse, Ross, McCune, Pearson, Chandler, Condotta, Roach, Ahern, Haler, and Hailey

Increasing penalties for gang-related offenses.

Finds that the destruction and fear generated by gangs in many communities have greatly elevated the critical importance of enacting effective measures to combat gang-related crime. Communities overwhelmed by violent gang activity must have relief from the blight of gang crime before revitalization, initiatives to strengthen families, school improvements, and other desired interventions can succeed. Law enforcement and prosecutors require assistance to combat this clear and present danger to the law-abiding residents of Washington. They must have the tools they need to aggressively combat gang-related crime and build strong cases that remove violent gang members from the streets. They need what criminal gang-related definitions clearly stated in state law so they can collect and share critical information with other law enforcement agencies and coordinate enforcement strategies across jurisdictional lines. They also need specific sanctions and sentencing enhancements to ensure that those who commit gang-related crimes are held fully accountable for the harm and suffering they inflict on society.

Declares it is the intent of this act to provide the criminal justice community with the effective tools they need to better protect the citizens of Washington from gang-related crime.

Provides that a person commits the offense of criminal gang intimidation if the person threatens another person with bodily injury because the other person refuses to join or has attempted to withdraw from a gang, as defined in this act. Criminal gang intimidation is a class B felony.

Provides that a person commits the offense of school criminal gang intimidation if the person threatens another person with bodily injury because the other person refuses to join or has attempted to withdraw from a gang, as defined in RCW 28A.600.455, if the person who threatens the victim or the victim attends or is registered in a public or alternative school. School criminal gang intimidation is a class C felony.

Provides that a person is guilty of tagging/gang graffiti if, as part of a gang-related offense as defined by this act, he or she knowingly and maliciously causes physical damage to the property of another.

Declares that tagging/gang graffiti is a gross misdemeanor.

Declares that tagging/gang graffiti is a class C felony if the person has previously been convicted under this act; or has previously been convicted of any other gang-related offense as defined by this act.

Provides that additional times shall be added to the standard sentence range for felony crimes, if the offender or an accomplice was found to be either a gang member or associate as defined in this act, and the offense for which the offender is being sentenced is a gang-related offense as defined in this act. If the offender is being sentenced for more than one offense, the gang sentencing enhancement or enhancements must be added to the total period of confinement for all offenses, regardless of which underlying offense is subject to a gang sentencing enhancement.

Creates an anticriminal gang task force for the purpose of evaluating the problem of gang-related crime in Washington state.

Requires the task force to evaluate and make recommendations regarding the following: (1) Additional legislative measures needed to combat gang-related crime;

(2) The creation and operation of a statewide gang information database;

(3) Recommended reforms to the juvenile justice system for gang-related juvenile offenses;

(4) Recommended best practices for preventing gang membership; and

(5) The adoption of a California-style civil antigang injunction.

Directs the task force to report its findings and recommendations to the attorney general, governor, and appropriate committees of the legislature by January 1, 2008.

Appropriates the sum of fifty thousand dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2007, from the state general fund to the attorney general for the purposes of providing staffing and support to the anticriminal gang task force.

Appropriates the sum of one hundred thousand dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2008, from the state general fund to the attorney general for the purposes of providing staffing and support to the anticriminal gang task force.

Appropriates the sum of . . . . ., or as much thereof as may be necessary, for the fiscal year ending June 30, 2007, from the state general fund to the superintendent of public instruction for the purposes of creating and distributing "Gang Indicators" brochures under this act.

**HB 2220** by Representative Lantz

Regarding shellfish.

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that shellfish aquaculture is an important and dynamic industry in the state of Washington. Managing and regulating the industry involves a careful balancing act among various goals, including environmental protection, economic development, property rights, aesthetics, and the simple enjoyment of the shoreline. Complicating the state's efforts is a lack of available, credible scientific information on the affects that new industry developments have on the natural environment.

Declares that, with this act, the legislature intends to address the challenges inherent in managing and regulating shellfish aquaculture, and begin the process of developing a consistent, predictable regulatory program that respects the role of local governments, protects the interests of the state, and operates within the scope of the federal government.

**HB 2220-S** by House Committee on Select Committee on Puget Sound (originally sponsored by Representative Lantz)

Regarding shellfish aquaculture.

(SUBSTITUTED FOR - SEE 2ND SUB)

Requires the sea grant program at the University of Washington to, consistent with this act, commission a series of scientific research studies that examines the possible effects, including the cumulative effects, of the current prevalent geoduck aquaculture techniques and practices on the natural environment in and around Puget Sound, including the Strait of Juan de Fuca. The sea grant program shall use funding provided from the geoduck aquaculture research account created in this act to review existing literature, directly perform research identified as needed, or to enter into and manage contracts with scientific organizations or institutions to accomplish these results.

Provides that all research commissioned under this act must be completed and the results reported to the appropriate committees of the legislature by December 1, 2013. In addition, the sea grant program shall provide the appropriate committees of the legislature with annual reports updating the status and progress of the ongoing studies that are completed in advance of the 2013 deadline.

Directs the department of ecology to develop, by rule, guidelines for the appropriate siting and operation of geoduck aquaculture operations to be included in any master program under this act.

Provides that the guidelines required under this act must be filed for public review and comment no later than six months after the delivery of the final report by the shellfish aquaculture regulatory committee.

Requires the department of ecology to update the guidelines required under this act, as necessary, after the completion of the geoduck research by the sea grant program at the University of Washington.

Requires the department of ecology to update the guidelines required under this act, as necessary, after the completion of the geoduck research by the sea grant program at the University of Washington.

Establishes the shellfish aquaculture regulatory committee to, consistent with this act, serve as an advisory body to the department of ecology on regulatory processes and approvals for all current and new shellfish aquaculture activities, and the activities conducted pursuant to RCW 90.58.060, as the activities relate to shellfish. The shellfish aquaculture regulatory committee is advisory in nature, and no vote or action of the committee may overrule existing statutes, regulations, or local ordinances.

Requires the department of ecology to report the recommendations and findings of the shellfish aquaculture regulatory committee to the appropriate committees of the legislature by December 1, 2007, with a further report, if necessary, by December 1, 2008.

Providing assistance for disadvantaged contractors.

(SEE ALSO PROPOSED 1ST SUB)

Requires the director to determine whether a business that is registered as a contractor under chapter 18.27 RCW or licensed as a contractor under chapter 19.28 RCW is a disadvantaged contractor, and shall adopt rules establishing the criteria and procedures for making this determination. The business owner or owners shall be required to show both social and economic disadvantage based on the following: (1) The relative financial resources of the business as well as the personal wealth of the owner or owners of the business;

(2) Social disadvantage based on any of the following: (a) color, ethnic origin, gender, or physical disability; (b) location in an area of high unemployment or a qualified census tract; or (c) other factors not common to other small businesses; and

(3) Economic disadvantage based on business size thresholds and eligibility criteria developed in rule that are designed to stimulate economic development through contract awards to businesses located in qualified census tracts.

Requires the director to contract with nonprofit organizations to provide technical assistance to disadvantaged contractors to become more competitive by developing or improving their business operations skills. During the 2007-2009 biennium, the director shall enter into two contracts to provide technical assistance to disadvantaged contractors, with one contract for contractors located west of the crest of the Cascade mountains, and the other for contractors located east of the crest of the Cascade mountains.

Appropriates the sum of two hundred thousand dollars, or as much thereof as may be necessary, for the biennium ending June 30, 2009, from the insurance commissioner's regulatory account to the office of minority and women's business enterprises for the purposes set forth in this act.

Appropriates the sum of two million dollars for the biennium ending June 30, 2009, from the insurance commissioner's regulatory account to the disadvantaged contractor bonding program fund created in this act for the purposes set forth in this act.

Creating the transportation project contingency account.

Creates the transportation project contingency account in the state treasury. All receipts from taxes imposed under RCW 82.08.020 and 82.12.020 on materials, labor, equipment, contracts, and components used for constructing any state transportation project must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for unanticipated increases in transportation project costs.

Requires the department of revenue to provide the state treasurer with the information regarding the amount of sales and use taxes available for deposit into the account on a quarterly basis. The department of revenue shall report annually on the account balance to the transportation committees of the legislature by March 1st.

Provides that transportation projects in need of additional funding due to unanticipated cost increases shall be identified by the department of transportation and reported annually to the transportation committees of the legislature by March 1st.

Developing more effective streamlining of technology and innovation in the state of Washington.

(SEE ALSO PROPOSED 1ST SUB)

Finds that due to the fragmentation of state technology efforts and resources and the lack of a central coordinating body, the state is hindered in advancing innovation throughout the state. In addition, technology-based institutions vary significantly in their administrative overhead costs and vary in the methods used to calculate these costs. The legislature intends to create a central technology governing board that: Advances and ensures appropriate coordination among state technology institutions and agencies; eliminates duplication of services; sets the direction for current and future technology efforts through a strategic planning process; and establishes performance metrics and a prudent administrative overhead rate.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that due to the fragmentation of state technology efforts and resources and the lack of a central coordinating body, the state is hindered in advancing innovation throughout the state. In addition, technology-based institutions vary significantly in their administrative overhead costs and vary in the methods used to calculate these costs. The legislature intends to improve interactions among state technology entities to: Advance and ensure appropriate coordination and collaboration; eliminate duplication of services; set the direction for current and future technology efforts through a strategic planning process and work plan; and establish performance metrics and a prudent administrative overhead rate of no more than thirty-two percent.

Provides that, by June 1st of each year with an awareness of the state budget timetable, the governor shall issue a report on the vision for technology development in Washington. The governor shall submit the report to the legislature and to state technology entities. The report must include, but not be limited to: (1) A statewide technology strategy, including goals to achieve the governor's vision for technology development in Washington;

(2) A work plan to implement the governor's statewide technology strategy that details how state technology entities shall collaborate and coordinate with each other; and

(3) An analysis identifying the most important public policy challenges faced in achieving the vision for technology development in Washington.

Addressing the replacement of motor vehicle keys.

Requires that a motor vehicle manufacturer of a new motor  
 vehicle sold or leased in this state after December 31, 2008, shall  
 provide the registered owner of the motor vehicle, through a  
 registered locksmith, information necessary to permit the  
 production of a replacement key or other functionally similar  
 device by the registered locksmith that allows the registered  
 owner of the motor vehicle to enter, start, and operate the motor  
 vehicle. This information must be made available at all times to  
 registered owners of motor vehicles by telephone or  
 electronically.

Requires that, when the registered owner of the motor vehicle  
 or the registered owner's family member requests a registered  
 locksmith to produce a replacement key or other functionally  
 similar device that allows the motor vehicle to be entered, started,  
 and operated, and information is needed from the motor vehicle  
 manufacturer to produce the requested key or other functionally  
 similar device, the registered locksmith shall visually verify: (1)  
 The identity of the requesting party through that party's driver's  
 license;

(2) That the registration of the motor vehicle matches the  
 requesting party's identity and address, or the last name and  
 address if the requesting party is a family member of the  
 registered owner; and

(3) That the vehicle identification number of the motor  
 vehicle matches the vehicle identification number on the  
 registration.

Providing for the delivery of educational services to children who  
 are deaf and hearing impaired.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that the education of children who are deaf presents  
 unique challenges because deafness is a low-incidence disability  
 and because deafness significantly impacts the child's ability to  
 access communication at home, at school, and in the community.

Finds that since the founding of the school for the deaf, there  
 have been numerous advances in technology as well as a growing  
 awareness about the importance of delivering services to children  
 in a variety of modalities to support their early and continued  
 access to communication.

Declares an intent to enhance the coordination of regionally  
 delivered services and supports for children who are deaf and  
 hearing impaired and to promote more communication-rich  
 learning environments for these children.

Establishes at Vancouver, Clark county, the Washington state  
 center for childhood deafness which shall be housed at and

include the school and related facilities formerly known as the state school for the deaf.

Declares that the center's primary functions shall be: (1) Managing and supervising the school and the applied research center located at the center;

(2) Providing statewide leadership and support for the coordination of regionally delivered education services in the full range of communication modalities, for children who are deaf and hearing impaired; and

(3) Collaborating with public and private partners in the development and operation of an applied research center for the training and professional development of educators serving children who are deaf and hearing impaired.

Abolishes the state school for the deaf and its powers, duties, and functions are hereby transferred to the Washington state center for childhood deafness. All references to the superintendent or the state school for the deaf in the Revised Code of Washington shall be construed to mean the superintendent or the Washington state center for childhood deafness.

**HB 2246-S** by House Committee on Early Learning & Children's Services (originally sponsored by Representatives Kagi, Haler, Fromhold, Wallace, Kenney, Dickerson, Morrell, Simpson, Conway, and Ormsby)

(AS OF HOUSE 2ND READING 3/12/2007)

Finds that the education of children who are deaf presents unique challenges because deafness is a low-incidence disability and because deafness significantly impacts the child's ability to access communication at home, at school, and in the community.

Finds that over the past fifty years, there have been numerous advances in technology as well as a growing awareness about the importance of delivering services to children in a variety of modalities to support their early and continued access to communication.

Declares an intent to enhance the coordination of regionally delivered services and supports for children who are deaf and hearing impaired and to promote more communication-rich learning environments for these children.

Declares that there is established at Vancouver, Clark county, the Washington state center for childhood deafness and hearing loss which shall be housed at and include the school and related facilities formerly known as the state school for the deaf. The center shall be under the direction of the director and the board of trustees. The superintendent and board of trustees of the Washington school for the deaf as of the effective date of this act shall be the director and board of trustees of the center.

Provides that the center's primary functions shall be: (1) Managing and supervising the Washington school for the deaf and the applied research center located at the center;

(2) Providing statewide leadership and support for the coordination of regionally delivered education services in the full range of communication modalities, for children who are deaf and hearing impaired; and

Establishing the family prosperity act.

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that low-income working families often encounter significant barriers as they strive to achieve financial self-sufficiency. Their challenges include acquiring employment that pays enough to cover the costs of daily living, accumulating funds for the down payment on a home, and setting aside money for the children's education or for the parents' retirement.

Finds that asset-poor families do not have enough cash reserves or equity in their homes or businesses to meet basic needs through a period of joblessness, health emergency, divorce, or other unexpected financial hardship. Compounding these problems, credit reports about low-income working families tend to contain negative information, so that when used by prospective employers, the reports can prevent the job seeker from obtaining employment. Research shows that savings and ownership of assets is possible for low-income wage earners and that they would benefit from a variety of tools that allow them to better control and increase their financial resources.

Therefore finds that the state, together with local communities, must adopt policies and provide services to help low-income working families achieve prosperity.

**HB 2259** by Representatives Goodman, O'Brien, Roberts, Pearson, Hurst, Ormsby, and Ahern

Providing immunity for department of corrections officers when assistance is requested from a law enforcement officer.

Provides that community corrections officers may collaborate with law enforcement officers to monitor offenders under the supervision of the department.

Provides that a community corrections officer who is assigned by the department to partner with law enforcement as permitted under this act, and is participating in a patrol with a law enforcement officer, is not liable for civil damages arising from an act or omission which occurs when the community corrections

officer provides assistance to a law enforcement officer during the course of the patrol, so long as the community corrections officer was acting at the request of the law enforcement officer, unless the act or omission constitutes gross negligence.

-- 2007 REGULAR SESSION --

- Feb 15 First reading, referred to Judiciary.  
Feb 26 Public hearing in the House Committee on Judiciary at 6:00 PM.

**HB 2260** by Representatives Orcutt, Ericks, Buri, Fromhold, Schindler, Kessler, Hinkle, and Warnick

Providing for the state administration and collection of local business and occupation taxes and public utility taxes.

Declares that for the purposes of administration and collection under chapter 35.102 RCW, municipal business and occupation and public utility tax classifications are to be uniform to the extent determined by the department with the state business and occupation and public utility tax classifications. Such classifications are to be determined by the department in consultation with the cities and the association of Washington businesses.

Provides that all business and occupation taxes and public utility taxes imposed by a city are to be collected and administered by the department of revenue as provided in this act and in accordance with the provisions of chapter 82.32 RCW.

Requires the department to conduct a study of the net fiscal impacts of this act, with particular emphasis on the revenue impacts of developing uniform classifications for public utility taxes collected under chapter 35.102 RCW and the standardization of reporting thresholds. In conducting the study, the department shall consult with the cities and association of Washington businesses. The department shall report the final results of the study to the fiscal committees of the legislature by November 30, 2007. Such report must include the department's recommendations to address any adverse revenue impacts to local jurisdictions.

-- 2007 REGULAR SESSION --

**HB 2261** by Representatives Campbell, Hudgins, Morrell, Hunt, and Ormsby

Providing for the evaluation of additional measures to reduce wood smoke emissions.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that there are communities in the state which exceed the national ambient air quality standards for particulate matter 2.5, primarily due to wood smoke emissions. The current strategies are not sufficient to reduce wood smoke emissions to levels which comply with the federal standards. The legislature finds that it is in the state's interest and to the benefit of the people of the state to evaluate additional measures to reduce wood smoke emissions and update the state wood smoke control program.

**HB 2261-S** by House Committee on Select Committee on Environmental Health (originally sponsored by Representatives Campbell, Hudgins, Morrell, Hunt, and Ormsby)

(DIGEST AS ENACTED)

Provides that, until June 30, 2009, an authority comprised of one county east of the Cascade mountains with a population of equal to or greater than four hundred thousand people, may determine by rule an alternative ambient air level of fine particulates that defines when a first stage and when a second stage of impaired air quality exists under this act.

Finds that there are communities in the state which exceed the national ambient air quality standards for particulate matter 2.5, primarily due to wood smoke emissions. The current strategies are not sufficient to reduce wood smoke emissions to levels which comply with the federal standards or adequately protect public

health. The legislature finds that it is in the state's interest and to the benefit of the people of the state to evaluate additional measures to reduce wood smoke emissions and update the state wood smoke control program.

Requires the department to convene and chair a work group to study the impacts of wood smoke from solid fuel burning devices on communities in Washington and make recommendations to the legislature on practical and cost-effective opportunities to reduce public health threats from exposure to wood smoke from solid fuel burning devices.

Requires recommendations to be presented to the governor and to the legislature no later than December 1, 2007.

**HB 2262** by Representatives Barlow, McCoy, Hunter, Seaquist, Eddy, Fromhold, Ormsby, Sells, and Morrell

Providing salary bonuses for individuals certified by the national board for professional teaching standards.

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds and declares: (1) The national board for professional teaching standards has established high and rigorous standards for

what highly accomplished teachers should know and be able to do in order to increase student learning results;

(2) The national board certifies teachers who meet these standards through a rigorous, performance-based assessment process;

(3) A certificate awarded by the national board attests that a teacher has met high and rigorous standards and has demonstrated the ability to make sound professional judgments about how to best meet students' learning needs and effectively help students meet challenging academic standards; and

(4) Teachers who attain national board certification should be acknowledged and rewarded in order to encourage more teachers to pursue certification for the benefit of Washington students.

**HB 2262-S** by House Committee on Education (originally sponsored by Representatives Barlow, McCoy, Hunter, Seaquist, Eddy, Fromhold, Ormsby, Sells, and Morrell)

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds and declares: (1) The national board for professional teaching standards has established high and rigorous standards for what highly accomplished teachers should know and be able to do in order to increase student learning results;

(2) The national board certifies teachers who meet these standards through a rigorous, performance-based assessment process;

(3) A certificate awarded by the national board attests that a teacher has met high and rigorous standards and has demonstrated the ability to make sound professional judgments about how to best meet students' learning needs and effectively help students meet challenging academic standards; and

(4) Teachers who attain national board certification should be acknowledged and rewarded in order to encourage more teachers to pursue certification for the benefit of Washington students.

Provides that certificated instructional staff who have attained certification from the national board for professional teaching standards shall receive a bonus each year in which they maintain the certification. The bonus shall be calculated as follows: (1) The annual bonus shall be five thousand two hundred fifty dollars for fiscal year 2008 and five thousand four hundred dollars for fiscal year 2009. Thereafter, the annual bonus shall be an amount established in the omnibus appropriations act; and

(2) State appropriations for this bonus may be limited to the amount of funding required to provide the full amount of the bonus to five percent of the certificated instructional staff who are eligible to receive certification from the national board for professional teaching standards.

**HB 2262-S2** by House Committee on Appropriations (originally sponsored by Representatives Barlow, McCoy, Hunter, Seaquist, Eddy, Fromhold, Ormsby, Sells, and Morrell)

House Rules "X" file.

**HB 2275** by Representatives Kessler, B. Sullivan, Kenney, Chase, and Hunt

Regarding funding of state parks.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that, in addition to the vehicle license fees required under RCW 46.16.0621, there shall be paid and collected at the time of initial or renewal registration for each motor vehicle an additional fee of five dollars. The fee shall be deposited in the state parks renewal and stewardship account established in RCW 79A.05.215 to be used for the operation and maintenance of state parks.

Provides that a person who registers a vehicle under this act may, at the time of initial or renewal registration, certify that the person does not intend to use the vehicle to visit state parks. If a person certifies that he or she does not intend to use the vehicle to visit state parks, the department shall not collect the additional fee.

**HB 2275-S** by House Committee on Agriculture & Natural Resources (originally sponsored by Representatives Kessler, B. Sullivan, Kenney, Chase, and Hunt)

(DIGEST AS ENACTED)

Requires the department to provide an opportunity for owners of vehicles registered under RCW 46.16.0621 and vehicles licensed under RCW 46.16.070 with a declared gross weight of ten thousand pounds or less, to make a voluntary donation of five dollars at the time of initial or renewal registration. The donation

must be deposited in the state parks renewal and stewardship account established in RCW 79A.05.215 to be used for the operation and maintenance of state parks.

Applies to registrations due or to become due on or after January 1, 2008.

VETO MESSAGE ON SHB 2275

May 4, 2007

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 3, Substitute House Bill 2275 entitled:

"AN ACT Relating to raising funds for state parks."

This bill provides an opportunity for motor vehicle owners to make a voluntary donation of \$5 to fund state parks at the time of initial or renewal registration. Section 3 of this bill does not appear to be related to the underlying bill, as it establishes a capitol campus tourism advisory task force. I am concerned with the creation of a task force as it may duplicate the work already being done by the Department of General Administration and the State Parks Commission. In addition, the title of the bill does not appear connected to the formation of a task force.

On February 2, 2007, I wrote the directors of General Administration and the State Parks Commission and requested that they work quickly to develop a plan to better market Heritage Park as a tourist attraction. This plan, as it is developing, has a final goal of making the whole of the Capitol Campus more tourist-friendly. Director Bremer and Director Derr will gather vital stakeholder input in the development of this plan. I am looking forward to their recommendations.

For these reasons, I have vetoed Sections 3 of Substitute House Bill 2275.

With the exception of Section 3, Substitute House Bill 2275 is approved.

Respectfully submitted,  
Christine O. Gregoire  
Governor

-- 2007 REGULAR SESSION --

Feb 16 First reading, referred to Commerce & Labor.

**HB 2277** by Representatives Chandler, Armstrong, and Kretz

Encouraging initiatives and referenda by extending privacy protections to signatories and assuring accurate verification.

Declares an intent to ensure vibrant initiative and referendum participation by guarding privacy and assuring that all valid signatures are attributed to initiatives and referenda as part of the review process.

Declares that Washington's laws and Constitution ensure that a voter's decision on who they vote for or against and what measures he or she votes for or against is not publicly revealed. Such a violation of privacy may subject voters to potential harassment, retaliation, and intimidation. Similar chilling of constitutional rights will be avoided by extending privacy protection to those engaged in the right to peacefully petition their government by initiative and referendum.

Declares an intent to ensure that valid voter signatures on initiative and referendum petitions count and will not be rejected by the secretary of state. If a voter signs an initiative or referendum petition and his or her petition signature matches the signature on their voter registration, then the signature must be accepted by the secretary of state. Valid voter signatures must count, invalid ones should not, and scrutiny to assure this result is preferred to actions and regulations which might chill the exercise of the right to petition.

Provides that initiative and referendum petitions and the names and addresses of citizens contained on them that are submitted to the secretary of state are not public records under chapter 42.56 RCW and shall not be made public beyond the observers as specified in RCW 29A.72.230.

Prohibiting discrimination against affordable housing developments.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that a city, county, or other local governmental entity or agency may not adopt, impose, or enforce requirements on an affordable housing development that are different than the requirements imposed on housing developments generally.

Provides that a city, county, or other local governmental entity or agency may not adopt, impose, or enforce requirements affecting affordable housing developments that are unclear and not objective or that, either in themselves or cumulatively, discourage housing for homeless persons, farmworkers, persons with disabilities, or other low-income households through unreasonable cost or delay or by discriminating against such housing.

**HB 2279-S** by House Committee on Housing (originally sponsored by Representatives Darneille, Springer, Pettigrew, O'Brien, Hasegawa, and Santos)

(DIGEST AS ENACTED)

Provides that a city, county, or other local governmental entity or agency may not adopt, impose, or enforce requirements on an affordable housing development that are different than the requirements imposed on housing developments generally.

Does not prohibit any city, county, or other local governmental entity or agency from extending preferential treatment to affordable housing developments intended for occupancy by homeless persons, farmworkers, or low-income households. Preferential treatment may include, but is not limited to: A reduction or waiver of fees or changes in applicable requirements including, without limitation, architectural requirements, site development requirements, property line requirements, building setback requirements, or vehicle parking requirements; or other treatment that reduces or is likely to reduce the development or operating costs of an affordable housing development.

Requiring school district accountability for students missing school.

Requires each school district to file an annual report, by August 1st of each year, with the superintendent of public instruction regarding disciplinary and placement actions taken during the prior school year. The report shall classify the types of actions into the following categories: (1) Actions in which a student was assigned to in-school suspension;

(2) Actions in which a student was suspended for a period of ten days or less;

(3) Actions in which a student was suspended for a period of more than ten days;

(4) Actions in which a student was expelled;

(5) Actions in which a student was placed in an alternative educational setting;

(6) Actions in which a student was suspended from riding the bus;

(7) Actions in which a student was emergency expelled; and

(8) Actions in which a student was removed from class.

Directs the superintendent of public instruction to conduct a study for each school year based upon the statistical data filed by districts in accordance with this act for the purpose of determining trends in discipline. The superintendent of public instruction shall also use existing data on school personnel as needed to establish trends in discipline.

Requires the superintendent of public instruction to issue a report on the study for the legislature by December 1st of each year. The report shall be accessible to the public on the superintendent of public instruction's report card web site and in such other forms as will promote easy public access. The report shall include summaries of the data rather than individual listing of each student's data.

Companion Bill: 6047

Regarding student privacy rights.

Declares an intent, in the interest of student confidentiality,  
 that school districts minimize the release of student telephone  
 numbers and other directory information in the absence of express  
 parental consent. The legislature finds that the nondisclosure of  
 student telephone numbers and other directory information  
 reduces the possibility of harassment of students and their  
 families by organizations that received student information.

Provides that, by September 1, 2007, each school district  
 shall provide separate written notice to every public high school  
 student and his or her parent or legal guardian informing the  
 students, parents, and guardians: (1) Of their right to request,  
 pursuant to 20 U.S.C. Sec. 7908(a)(2), that the student's directory  
 information not be released to recruiters without the prior written  
 consent of the student's parent or guardian or the student;

(2) That if they do not request that the student's directory information be withheld from some or all recruiters by the thirtieth day of the new school year, the school may release the student's directory information if requested to do so by a recruiter; and

(3) Of the obligation of all males between the ages of eighteen and twenty-five years to register with selective services within thirty days of their eighteenth birthday and information regarding how to register.

**HB 2322** by Representatives Haler and Appleton  
Increasing access to full-day kindergarten programs.

Provides that an agency that receives funding under this act must agree to and abide by the following conditions: (1) Providing at least a one thousand-hour instructional program;

(2) Establishing a learning environment that is developmentally appropriate and promotes creativity;

(3) Demonstrating strong connections and communication with other early learning providers;

(4) Participating in kindergarten readiness activities with early learning providers, parents, and local public schools;

(5) Providing experiences in science, social studies, arts, health and physical education, and a language other than English; and

(6) Providing a curriculum that offers a rich, varied set of experiences that assist students in: (a) developing initial skills in the academic areas of reading, mathematics, and writing; (b) developing a variety of communication skills; (c) acquiring large and small motor skills; and (d) acquiring social and emotional skills, including successful participation in learning activities as an individual and as part of a group.

Provides that the act shall be null and void if appropriations are not approved.

Regarding food service rules.

Provides that the rules for food service must provide an exemption to the cold-holding temperature standard of forty-one degrees or colder for an establishment that purchased its equipment prior to May 2, 2005, and the equipment meets the standards that were in place at the time the equipment was purchased. Equipment purchased after May 2, 2005, is exempt if it was purchased to replace a component unit of a cold-holding system, purchased prior to May 2, 2005, that is comprised of several smaller units.

Creating the community development fund.

(SUBSTITUTED FOR - SEE 1ST SUB)

Recognizes that private nonprofit corporations fill an important public purpose in providing health, safety, and welfare services to our state's residents. Acting through partnerships with governmental entities, these private sector providers are able to increase the amount and quality of services available to state residents, conferring a valuable benefit on the public.

Finds that existing programs by governmental entities and private nonprofit organizations to help distressed communities and underserved, low-income populations could be enhanced by creating the community development fund.

(AS OF HOUSE 2ND READING 3/9/2007)

Recognizes that private nonprofit corporations fill an important public purpose in providing health, safety, and welfare services to our state's residents. Acting through partnerships with governmental entities, these private sector providers are able to increase the amount and quality of services available to state residents, conferring a valuable benefit on the public.

Finds that existing programs by local governments, federally recognized Indian tribes, and private nonprofit organizations to help distressed communities and underserved, low-income populations could be enhanced by creating the community development fund.

Requires the department to develop accountability and reporting standards for grant recipients.

Directs the department to submit a report each biennium to the appropriate committees of the legislature, including at a minimum: (1) A list of projects funded during the current biennium, including a description of each project, its total cost, the amount of state funding awarded and expended to date, the project milestones completed, and the extent to which the project has met its stated goals;

(2) Recommendations, if any, for policy and programmatic changes to the community development fund to better achieve program objectives; and

(3) The ranked list of prioritized projects and amounts proposed for funding in the subsequent biennium, and the unranked list of the remaining projects for which applications were received, as submitted in the department's biennial capital budget request as required in this act.

Directs the department to submit its initial report by January 1, 2009.

**HB 2327** by Representatives Sullivan, Priest, Haler, Quall, Jarrett, Wallace, Kenney, McDermott, Sells, Santos, Wood, and Ormsby

Regarding a system of standards, instruction, and assessments for mathematics and science.

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that Washington schools and students are making significant progress in improving achievement in reading and writing. Schools are adapting instruction and providing remediation for students who need additional assistance. Reading and writing are being taught across the curriculum. Therefore, the legislature does not intend to make changes to the Washington assessment of student learning or high school graduation requirements in reading and writing.

Finds that, however, students are having difficulty improving their academic achievement in mathematics and science,

particularly as measured by the high school Washington assessment of student learning. The legislature finds that corrections are needed in the state's high school assessment system that will improve alignment between learning standards, instruction, diagnosis, and assessment of students' knowledge and skills in high school mathematics and science.

Intends to direct the state board of education, in collaboration with the superintendent of public instruction, to adopt standards that are aligned with end-of-course assessments and select and implement the assessments in a timely manner so that they are a reliable and valid measure of students' knowledge and skills for purposes of high school graduation. The legislature further intends to revise the high school graduation requirements to allow these corrections to be fully implemented and provide incentives for school districts to implement recommended curricula that are aligned with the standards and assessments.

Requires that, beginning in 2007, the state board of education and the superintendent of public instruction shall report annually by December 1st to the education committees of the legislature on the status and progress of implementation of their responsibilities under this act.

**HB 2327-S** by House Committee on Education (originally sponsored by Representatives Sullivan, Priest, Haler, Quall, Jarrett, Wallace, Kenney, McDermott, Sells, Santos, Wood, and Ormsby)

The legislature finds that corrections are needed in the state's high school assessment system that will improve alignment between learning standards, instruction, diagnosis, and assessment of students' knowledge and skills in high school mathematics and science.

Finds there is a sense of urgency to make these corrections. There is not the time or the necessity to build a new set of standards and assessments from the ground up. Rather, the state board of education and the superintendent of public instruction must take advantage of the opportunity to draw on the experience of other states. There are a number of states that use end-of-course assessments to measure student achievement of mathematics and science standards in high school.

Declares an intent to direct the state board of education, in collaboration with the superintendent of public instruction, to select and implement end-of-course assessments in a timely manner so that they are a reliable and valid measure of students' knowledge and skills for purposes of high school graduation. Regarding active grazing leases on public lands.

Requires the department to, before it transfers land with an active grazing lease, conduct and make public an analysis that evaluates the economic impact of the grazing lease on the local economy where the land is located.

Declares that the economic analysis required under this act must consider both the immediate effects of grazing cessation on the land proposed for transfer as well as the commutative effect on the local economy caused by the cessation of grazing on other public lands in the area.

Requires the department to conduct at least one public hearing on each economic analysis before it is formally approved by the commissioner. The public hearing must occur in a county where the land is located and the department must invite the county legislative authority for a county where the land is located to jointly participate in the public hearing.

Requires that, if the department purchases, transfers for, leases, or otherwise obtains land with an active grazing lease, it shall: (1) Reimburse the holder of the grazing lease for the value of any improvements made by the land by the grazing leaseholder or any predecessors of the grazing leaseholder;

(2) Allow the grazing leaseholder or his or her designated successors to continue operations under the conditions of the valid lease that existed upon assumption of management authority by the department. Upon the expiration of the grazing lease, and any successive grazing leases, the department must offer the grazing leaseholder or his or her designated successors the option of renewing the grazing lease for the same length and under the same conditions as the grazing lease in effect at the time the department assumed management control of the land.

Funding qualifying projects through the urban corridor program of the transportation improvement board.

(SUBSTITUTED FOR - SEE 1ST SUB)

Requires that in any project funded by the transportation improvement board's urban corridor program, the board must consider, in addition to any other considerations required by law, the following factors when determining whether to make grants to local governments to accommodate projected growth: (1) Whether the project will improve the minimum levels of service on transportation facilities that will accommodate planned growth. For the purposes of this subsection, "minimum levels of service" means an "a" through "d" level of service on an "a" to "f" scale or other generally accepted transportation measurement scale;

(2) Whether the project will enable the local government to implement its comprehensive and capital facilities plans to accommodate projected population and employment growth; and

(3) Whether the local government has sufficient quantities of buildable land and development regulations to accommodate projected population and employment growth related to the project.

Appropriates the sum of twenty million dollars, or as much thereof as may be necessary, for the biennium ending June 30, 2009, from the state motor vehicle fund to the urban arterial trust account for the purposes of this act.

Regarding professional certification of teachers.

Requires the professional educator standards board to adopt standards for and develop, field test, and implement a uniform and externally administered performance assessment for the professional certification of teachers. The assessment shall measure demonstrated teaching skill and shall include objective data and evidence that the teacher has a positive impact on student learning.

Requires the professional educator standards board to conduct a rigorous evaluation of the outcomes of the professional certificate performance assessment in this act, using a methodology that includes comparison groups and objective, data-driven measures of student learning. The purpose of the evaluation is to determine the impact of a professionally certified teacher on student learning, based on the demonstrated knowledge and skills measured by the performance assessment.

Provides that, after the professional educator standards board determines, based on the evidence, that professionally certified teachers have a positive impact on student learning, the legislature intends to provide professionally certified teachers with a compensation bonus.

**HB 2339** by Representatives Haigh, Quall, Ormsby, Fromhold, Kessler, Kenney, Santos, Wood, and Conway

Establishing a mathematics and science improvement initiative.

Requires the mathematics and science improvement initiative to provide the capacity and resources for educational service districts, school districts, and schools to conduct a broad range of activities, depending on the level of need and priority of the school or district. The focus of the initiative is on building and enhancing the quality of mathematics and science instruction.

Provides that, in support of the mathematics and science improvement initiative, the office of the superintendent of public instruction shall: (1) In collaboration with the educational service districts, develop a methodology for distributing funds appropriated for activities under the tiered support system among the educational service districts and among the three tiers of support. The methodology shall take into account the anticipated demand and need for services by school districts in each tier and the size of those school districts. The methodology shall also reflect a higher priority and greater need for support and resources for schools and districts in tier three;

(2) Develop guidelines for educational service districts in administering grants, developing district improvement agreements, and implementing intensive intervention and support services. The guidelines shall not require all educational service districts to follow the same procedures in all circumstances, but shall ensure general equity for school districts across the state in how the districts may access resources under the initiative and the activities and services that are provided by the educational service districts;

(3) Identify the schools and school districts eligible for tier three intensive intervention and support, based on low student performance in mathematics and science. Tier three schools and districts shall not be participating in other state or federal school improvement assistance programs. To the maximum extent possible, the identification of and the intensive intervention services provided to tier three schools and districts shall align with the accountability plan developed by the state board of education; and

(4) In collaboration with the educational service districts, develop guidelines and a common reporting format for collecting data and information about the activities and outcomes under the initiative and designate one or more common diagnostic assessments for districts to use in reporting and monitoring student achievement.

Repeals RCW 28A.300.350.

Encouraging shared parental responsibility in child custody arrangements.

Provides that, for any child, residential provisions may contain any reasonable terms or conditions that facilitate the orderly and meaningful exercise of residential time by a parent, including one or more of the following: (1) Requirements that residential times be specified;

(2) Requirements of reasonable notice when residential time will not occur; or

(3) Any other reasonable condition determined to be appropriate in the particular case including but not limited to a domestic violence assessment.

Requires that, in any parenting plan in which the court finds that the parties do not have a satisfactory history of cooperation or the limitations of RCW 26.09.191 are dispositive; to the extent necessary, the parenting plan shall include a safe, neutral, and public location for the exchange of the child such as a school, day care, place of worship, or any other appropriate public facility.

Directs the administrative office of the courts, pursuant to funding provided specifically for this purpose, to commission a study to commence by September 1, 2007. The study shall survey a statistically relevant number of geographically diverse final parenting plans in Washington to determine the allocation of residential time as between parents, including an analysis of gender disparities between parents, and the impact of legal counsel on outcomes of parenting plan disputes. The study shall be completed and a report provided to the legislature, the governor, and to the public within two years of the effective date of this act.

(SUBSTITUTED FOR - SEE 1ST SUB)

Directs the commission to, with the involvement of the department, conduct a market survey to gather information on ferry users to help inform level of service, operational, pricing, planning, and investment decisions. The survey must include, but is not limited to: (1) Current and forecasted recreational use;

(2) Current and forecasted vehicle customer use;  
(3) Current and forecasted freight and goods movement demand; and

(4) Reactions to potential operational and pricing strategies described under this act and RCW 47.60.290.

Requires the market survey to be updated at least annually.

Requires the department to develop, and the commission to review, operational strategies to ensure existing assets are fully utilized and to guide future investment decisions.

Requires the department to annually review fares and pricing strategies applicable to the operation of the Washington state ferries.

Provides that fares and pricing strategies must be adopted by rule, under chapter 34.05 RCW, by the commission, according to the following schedule: (1) Each year the department shall provide the commission a report of its review of fares and pricing strategies, with recommendations for the revision of fares for the ensuing year;

(2) By October 1st of each year, beginning in 2007, the commission shall adopt as a rule, a schedule of fares for the ensuing year.

Requires the department to maintain a life-cycle cost model on capital assets such that: (1) Available industry standards are used for estimated life;

(2) Standard estimated life is adjusted for asset condition when inspections are made; and

(3) Systems and structures that do not have standard life cycles are not included.

Requires the joint legislative audit and review committee to assess and report as follows: (1) Audit the implementation of the cost allocation methodology evaluated under chapter . . . (House Bill No. 1094), Laws of 2007, as it exists on the effective date of this act, assessing whether actual costs are allocated consistently with the methodology, whether there are sufficient internal controls to ensure proper allocation, and the adequacy of staff training; and

(2) Review the assignment of preservation costs and improvement costs for fiscal year 2009 to determine whether: (a) the costs are capital costs; (b) the costs meet the statutory requirements for preservation activities and for improvement activities; and (c) improvement costs are within the scope of legislative appropriations.

Provides that the report on the evaluations in this act is due by January 31, 2010.

Repeals RCW 47.60.150 and 47.60.326.

(DIGEST AS ENACTED)

Declares an intent that Washington state ferries be given the tools necessary to maximize existing capacity and make the most efficient use of existing assets and tax dollars.

Requires the commission to conduct a survey to gather data on ferry users to help inform level of service, operational, pricing, planning, and investment decisions. The survey must include, but is not limited to: (1) Recreational use;

(2) Walk-on customer use;

(3) Vehicle customer use;

(4) Freight and goods movement demand; and

(5) Reactions to potential operational strategies and pricing policies described under this act and RCW 47.60.290.

Requires the commission to develop the survey after providing an opportunity for ferry advisory committees to offer input.

Requires the survey to be updated at least every two years and maintained to support the development and implementation of adaptive management of ferry services.

Requires the commission to adopt fares and pricing policies by rule, under chapter 34.05 RCW, according to the following schedule: (1) Each year the department shall provide the commission a report of its review of fares and pricing policies, with recommendations for the revision of fares and pricing policies for the ensuing year;

(2) By September 1st of each year, beginning in 2008, the commission shall adopt by rule fares and pricing policies for the ensuing year.

Directs the department to develop, and the commission shall review, operational strategies to ensure that existing assets are fully utilized and to guide future investment decisions.

Requires the department to maintain a life-cycle cost model on capital assets such that: (1) Available industry standards are used for estimating the life of an asset, and department-adopted standard life cycles derived from the experience of similar public and private entities are used when industry standards are not available;

(2) Standard estimated life is adjusted for asset condition when inspections are made;

(3) It does not include utilities or other systems that are not replaced on a standard life cycle; and

(4) It does not include assets not yet built.

Requires the joint legislative audit and review committee to assess and report as follows: (1) Audit the implementation of the cost allocation methodology evaluated under chapter . . . (House Bill No. 1094), Laws of 2007, as it exists on the effective date of this act, assessing whether actual costs are allocated consistently with the methodology, whether there are sufficient internal controls to ensure proper allocation, and the adequacy of staff training; and

**HB 2366** by Representatives Dunshee, Jarrett, Ormsby, Hunter, and Kenney

Requiring oversight of state agency housing decisions.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that the state lacks specific policies and standards on conducting life-cycle cost analysis to determine the cost-effectiveness of owning or leasing state facilities and lacks clear guidance on when and how to use it. Further, there is limited oversight and review of the results of life-cycle cost analyses in the capital project review process. Unless decision makers are provided a thorough economic analysis, they cannot identify the most cost-effective alternative or identify opportunities for improving the cost-effectiveness of state facility alternatives.

Finds that the statewide accounting system limits the ability of the office of financial management and the legislature to analyze agency expenditures that include only leases for land, buildings, and structures. Additionally, other statewide data systems that track state-owned and leased facility information are limited, onerous, and inflexible.

Declares an intent to strengthen the office of financial management's oversight role in state facility analysis and decision making. Further, it is the intent of the legislature to support the office of financial management's and the department of general administration's need for technical expertise and data systems to conduct thorough analysis, long-term planning, and state facility portfolio management by providing adequate resources in the capital and operating budgets.

Requires the office of financial management to: (1) Work with the department of general administration and all other state agencies to determine the long-term facility needs of state government; and

(2) Develop and submit a six-year facility plan to the legislature by January 1st of every odd-numbered year, beginning January 1, 2009, that includes state agency space requirements and other pertinent data necessary for cost-effective facility planning. The department of general administration shall assist with this effort as required by the office of financial management.

Companion Bill: 6140

Enhancing the security of drivers' licenses.

(SEE ALSO PROPOSED 1ST SUB)

Provides that, in all cases, the documentation must include a photograph of the applicant.

Requires an applicant to provide evidence of a valid principal Washington residence address with an original, notarized, or certified copy of any of the following: (1) A utility bill;

- (2) A bank statement;
- (3) A paycheck;
- (4) A government check; or
- (5) Other government document with a valid Washington residence address.

Requires the department to scan and electronically store all documents presented by an applicant for a driver's license or identocard. The department shall develop a security system to appropriately restrict access to stored documents.

Requires the department, when mailing the driver's license to a first time applicant, to mail the driver's license to a valid Washington address and not mail the driver's license to an address outside the state of Washington. For the purposes of this provision, "first time applicant" means a person applying for a driver's license in the state of Washington for the first time who has not been previously issued a driver's license by the department.

Requires the department, when mailing the driver's license to a first time applicant, except if the applicant is active military personnel, to mail the driver's license to a valid Washington address and may not mail the driver's license to an address outside the state of Washington. The department may adopt rules to make exceptions to this requirement when the department has determined that applicants are residents of the state of Washington but, for valid reasons shown, require the license to be mailed to a location outside the state. For the purposes of this provision, "first time applicant" means a person applying for a driver's license in the state of Washington for the first time who has not been previously issued a driver's license by the department.

Recognizes that all disasters are local disasters, and intends to  
 strengthen state and local emergency response, mitigation,  
 preparation, and coordination by establishing a stable source of  
 funding with the intent that Washington state become the  
 nationally recognized leader in emergency management. The  
 funding will be dedicated to the development and coordination of  
 state and local government emergency management programs by  
 supporting joint training exercises, citizen and industry  
 coordination with emergency management efforts, public  
 education, and relationship building among local and state  
 emergency management officials.

Requires that, beginning in January 2009 and biennially  
 thereafter, the department shall conduct, in conjunction with the  
 emergency management council, a strategic assessment of, and  
 issue a report on, the ability of state, local, and tribal emergency  
 management organizations to effectively provide for all phases of  
 comprehensive emergency management. The assessment must:

(1) Evaluate state, local, and tribal emergency management  
 capabilities and needs;

(2) Evaluate the ability of state, local, and tribal emergency  
 management organizations to provide emergency management  
 mitigation, preparedness, response, and recovery;

(3) Evaluate the effectiveness of the emergency management  
 structure at the state, local, and tribal levels;

(4) Provide findings and make recommendations that increase  
 the ability of state, local, and tribal emergency management  
 organizations to meet current and future risks; and

(5) Detail where and for what purpose funds under this act  
 have been distributed.  
 Requires the joint legislative audit and review committee to

Improving state supervision of felony offenders in the community.

Provides that an offender may be required to submit to a search and seizure of the offender's person, residence, automobile, or other personal property.

Provides that the department shall perform random, unannounced inspections of the residence of every offender serving a term of community custody. The purpose and scope of the search shall be to determine whether the offender is complying with the terms of his or her community custody.

Provides that the department shall develop a performance review whenever an offender serving a term of community custody is convicted of a new crime to determine whether the department contributed to the circumstances that allowed the crime to occur. Beginning January 1, 2008, the department shall compile and submit copies of the reviews developed during the previous calendar year to the governor and the legislature.

Provides that: (1) The department may not release any offenders on community custody until July 1, 2008. The prohibition in this subsection applies regardless of whether the community custody is the result of earned release time or is part of the offender's sentence; and

(2) In no case shall the department hold an offender in total confinement under this act longer than his or her total term of confinement plus any term of community custody that is part of his or her sentence.

**HB 2378** by Representatives Flannigan, Jarrett, Clibborn, Eddy, Seaquist, and Roberts

Expediting new vessel construction for Washington state ferries.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that, if a single prequalified proposer, or subsequently a single best qualified proposer, emerges from phase one of the competitive, design-build procurement process, the department may negotiate a contract with the proposer. The contract price must be established between the department and the contractor through negotiation based on detailed cost and price information provided by the proposer. To achieve efficiencies the department may negotiate incentives and economic cost sharing between the state and the proposer. In addition to the cost incentives, other incentives may be considered, as determined by the department to be in the best interests of the state. Such incentives may include, but are not limited to, key schedule milestones, technological innovations, performance efficiencies, constructability, and operational value or life-cycle cost.

Directs the department to submit a copy of the contract, the final negotiated price, and supporting information to the office of financial management at least ten days prior to execution of the contract. If the final negotiated price is greater than the legislature's adopted expenditure plan for vessel construction, the department may not execute the contract until the legislature reviews the final proposals and adjusts the expenditure plan accordingly.

Provides that, if the department and the proposer are not able to reach an agreement, the department may republish, revise, or cancel the request for proposals process to serve the best interests of the state.

**HB 2378-S** by House Committee on Transportation (originally sponsored by Representatives Flannigan, Jarrett, Clibborn, Eddy, Seaquist, and Roberts)

(DIGEST AS ENACTED)

Finds that the Washington state ferry system has an excellent safety record and has commenced a long-term vessel procurement plan to ensure the replacement of older and outdated ferry vessels. The legislature further finds that the current vessel procurement process must move forward with all due speed, balancing the interests of both the taxpayers and shippers. The commencement of construction of new vessels is important not only for safety reasons, but also to keep skilled marine construction jobs in the Puget Sound region and to sustain the capacity of the region to meet the ongoing preservation needs of the ferry system fleet of vessels.

Finds that the balancing of interests described in this act may necessitate the department of transportation to consider in the department's current new 144--auto ferries request for proposals a single proposal submitted jointly by the current best-qualified proposers. The department may, therefore, consider and accept or reject in the department's discretion such a single proposal, and the current best-qualified proposers may meet and confer to discuss matters that are reasonably necessary to determine whether to submit such a single proposal and to implement a single final contract if the proposal is accepted by the department.

Provides that, to further facilitate the balancing of interests described in this act, the department of transportation may, in its discretion, make revisions to the request for proposals that the department deems necessary or appropriate to balance such interests.

Provides that, if at any point there is only a single best-qualified proposer participating in the competitive design-build

procurement process prior to the submission of bids in phase three, or if there is only a single responsive and responsible bid submitted in phase three, or if the current best-qualified proposers elect to jointly submit a single proposal, the department may negotiate a fair-value contract with the proposer or joint proposers.

Addressing the state route number 520 bridge replacement and HOV project.

Declares that the needs of the central Puget Sound region and the state are best served by a state route number 520 project

alternative that replaces the four existing general purpose lanes and adds two lanes of capacity suitable for transit and other high-occupancy vehicle use. New pontoons for the floating structure must be designed to accommodate the installation of a high capacity transit system, such as light rail or another comparable system. The department must incorporate this policy into any preferred alternative that may be developed for the project's environmental assessment documents.

Requires that, as soon as practicable after the effective date of this act, and after consulting with appropriate local jurisdictions, the department shall hire a mediator to develop consensus-building among the interested parties to support the policy goals identified in this act through fact-finding, facilitation, and mediation. In evaluating the project impacts, the mediator shall consider the concerns of neighborhoods and institutions of higher education directly impacted by the proposed designs, and shall work with the appropriate planning staff.

Requires the mediator to provide monthly updates to the governor and the joint transportation committee regarding the status of the consensus-building process. The mediator must provide the governor and the joint transportation committee with a final recommendation by October 31, 2007.

Declares that the state route number 520 bridge replacement and HOV project finance plan must include state funding, federal funding, one billion one million dollars from the regional transportation investment district, and revenue from tolling. The department must provide a proposed finance plan to be tied to the estimated cost of the recommended project solutions, as provided under this act, to the governor and the joint transportation committee by January 1, 2008.

Improving public safety by improving state supervision of felony offenders in the community.

Finds that public safety is one of the paramount duties of the state and an essential function of government.

Finds that systemic problems exist with the department of corrections that must be addressed expeditiously and unequivocally in order to rebuild public confidence in the state's ability to best protect them from criminal offenders who have been released from full incarceration but are still serving their sentences on community custody. Turnstile justice is not conducive to building public safety, public confidence in and support for our criminal justice system as a whole, and the morale of personnel working within our department of corrections, law enforcement agencies, and prosecutors' offices.

Finds that citizens expect and demand predictability, proportionality, uniformity, transparency, and justice when dealing with criminal offenders and due consideration for the severe and detrimental impact of crime on victims and their families and friends when dealing with such offenders.

Regarding leasing and development rights on state lands.

(DIGEST AS ENACTED)

Revises provisions relating to leasing state lands and development rights on state lands to public agencies.

VETO MESSAGE ON HB 2395

May 15, 2007

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 6, House Bill 2395 entitled:

"AN ACT Relating to leasing state lands and development rights on state lands to public agencies."

Section 6 of this bill is an emergency clause. The Department of Natural Resources does not expect any lease transactions to occur under the new lease provisions of this bill until later in the biennium, which makes the emergency clause unnecessary.

For this reason, I have vetoed Section 6 of House Bill 2395.

With the exception of Section 6, House Bill 2395 is approved.

Respectfully submitted,  
Christine O. Gregoire  
Governor

**HB 2396** by Representatives Fromhold and McDonald

Regarding investment of moneys in the permanent common school fund.

(DIGEST AS ENACTED)

Finds that permanent fund common school fund income as a percentage of total school construction budgets has declined while school construction budgets have grown, and that other state revenues have filled the gap between income from state lands and the total school construction budget. For this reason, the fund may tolerate higher risk and volatility in favor of growth, and therefore a balance of long-term growth and current income is in the best interest of the state and the fund's beneficiaries. The legislature recognizes that by investing in equities, the value of the permanent fund may fluctuate over time due to market changes even if no disposition of the fund principal is made.

Declares an intent to clarify state law to permit equity investment of the permanent common school fund even if there is a decline in the value of the permanent fund due to market changes. The legislature recognizes that the irreducible portion of the principal amount in the permanent fund must be held in perpetuity for the benefit of the fund and future generations, and that only the earnings from the permanent fund may be appropriated to the common school construction fund.

Authorizes the state investment board to invest the permanent common school fund in various types of allowable investments in order to achieve a balance of long-term growth and current income, when consistent with the best interest of the state and the permanent common school fund, and in conformance with RCW 43.84.150. The state treasurer shall calculate the irreducible principal amount of the fund in accordance with the state Constitution and state law. The irreducible principal shall not include investment gains on the principal, and the fund may retain or distribute income and investment earnings in order to achieve the appropriate balance between growth and income.

Addressing the mapping of institutions of higher education.

Finds that school mapping would: (1) Protect all students in Washington;

(2) Help schools and emergency response teams in emergencies like the recent Virginia polytechnic institute and state university shootings;

(3) Help officers on the ground to know how an institution of higher education is laid out in an emergency, since some institutions are so complex that when an officer arrives at the school, the officer may be unable to determine where a potential gunman is located; and

(4) Be used for any potential crisis situation.

Requires the Washington association of sheriffs and police chiefs and the Washington association of fire chiefs to submit a report on the study and recommendations to the legislature by January 1, 2008.

Appropriates the sum of two hundred thousand dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2009, from the general fund to the Washington association of sheriffs and police chiefs for the purposes of this act.

**HB 2411** by Representatives Linville, Bailey, B. Sullivan, Kristiansen, Pettigrew, Skinner, and Chase

Providing a funding source to assist small manufacturers in obtaining modernization and manufacturing extension services.

Finds that a viable manufacturing industry is critical to providing the state economy with family-wage jobs and improving the quality of life for workers and communities. To perform in the emerging global marketplace, Washington manufacturers must master new technologies, streamline production processes, improve quality assurance, expand environmental compliance, and enhance methods of work organization. Only through modernization techniques, reflecting the specific needs and capabilities of the individual firms, can Washington manufacturers both compete successfully in the market of the future and pay good living wages.

Finds that most small and midsize manufacturers do not have the resources that will allow them to easily access modernization technical assistance and the skills training needed to make them globally competitive. Because of the statewide public benefit to be gained from increasing the availability of modernization services, it is the intent of the legislature to create a new mechanism in a manner that reduces the up-front costs of these services for small and midsize manufacturing firms. It is further the intent of the legislature that Washington state increase its support for the manufacturing extension program, to expand the delivery of modernization services to small and midsize Washington manufacturers, and to leverage federal funding and private resources devoted to such efforts.

Providing incentives to support renewable solar energy.

(SEE ALSO PROPOSED 1ST SUB)

Finds that Washington industries are world-class leaders in the emerging solar electric industry and the Northwest has an anticipated regional shortfall of four to five hundred megawatts in the electric supply as predicted by the Northwest power planning council.

Intends to help meet the anticipated energy shortfalls in an environmentally responsible manner.

Intends to provide commercial incentives for the greater use of locally created and installed solar electric technologies, to support, retain, and grow existing local industries, and further, to create new opportunities for carbon-free electric generation technologies.

**HB 2421-S** by House Committee on Technology, Energy & Communications (originally sponsored by Representatives Chase, Moeller, Hasegawa, Hunt, Wood, Hudgins, Kagi, and Simpson)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Allows any business, not-for-profit, or local governmental entity, not in the light and power business or in the gas distribution business, to apply to the light and power business serving the situs of the system, each fiscal year beginning July 1, 2008, for an investment cost recovery incentive for each kilowatt-hour from a solar electric energy system installed on its property if they have not applied for any other Washington renewable energy production-based incentive during that program year.

Provides the investment cost recovery incentive must be at a rate of thirty-eight cents per economic development kilowatt-hour unless requests exceed the amount available in the carbon-free commercial scale energy generation account.

Requires the department to reimburse a light and power business from the carbon-free commercial scale energy generation account in an amount equal to investment cost recovery incentive payments made to its commercial customer-generated solar electricity generating customers in any fiscal year under this act.

Ensuring that sex offenders receive accurate sentences.

Provides if the defendant charged with a sex offense fails to affirmatively set forth his or her understanding of his or her criminal history, he or she shall be deemed to have admitted that the prosecuting attorney's statement of his or her criminal history is correct.

Declares a criminal history summary relating to a defendant charged with a sex offense from the prosecuting authority or from a state, federal, or foreign governmental agency shall be prima facie evidence of the existence and validity of the convictions listed therein. The defendant shall be allowed to rebut such proof with competent evidence.

Provides that prior convictions that were not included in criminal history or in the offender score shall be included upon resentencing for a sex offense to ensure imposition of an accurate sentence.

Provides that on remand for resentencing following appeal, or collateral attack, on a conviction for a sex offense, the parties shall have the opportunity to present and the court to consider all relevant evidence regarding criminal history, including criminal history not previously presented.

Provides that in order to raise any issue regarding sentencing for a sex offense on appeal, the issue must first have been raised at the trial court level.

**HB 2464** by Representatives Simpson, Orcutt, Sullivan, Hurst, Dunn, Ericks, and Kristiansen

Concerning the excise taxation of bullion.

Intends to reimplement the original intention of the legislature and limit the business and occupation tax imposed on the business of making sales of precious metal bullion to a tax on amounts received as commissions and not to tax the activity of reforming precious metal bullion into different shapes or sizes.

Intends also that the business and occupation tax apply to the markup on the sale of precious metal bullion, where the taxpayer is selling its own precious metal bullion.

Declares that the tax imposed by this act does not apply to the melting and reforming of precious metal bullion into different units.

Provides that the sale of precious metal bullion or monetized bullion is taxable under RCW 82.04.290(2) on certain amounts.

Defines "market price," "monetized bullion," and "precious metal bullion."

Modifying the responsibilities of the Washington geological survey.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that the Washington geological survey shall: (1) Serve as a bureau of information and an advisory service concerning geologic resources and hazards, and to provide technical assistance to local governments on geological hazards, mineral resources, and aggregate mining and reclamation during preparation and amendment of comprehensive plans and land use regulations;

(2) Collect geotechnical and related reports prepared by applicants in support of building construction and land use permits from local government or state government for use in the development of a statewide electronic database of subsurface geotechnical data;

(3) Preserve information collected, developed, or obtained under this act in a publicly accessible electronic data system;

(4) Establish and maintain a storage and examination facility for physical samples; and

(5) Promote outdoor recreation and education.

Requires reports, geological maps, geological hazard assessment maps, mineral resource maps, and special reports of the geological survey to be distributed as directed by the state geologist as the needs of the state and science demand.

**HB 2471-S** by House Committee on Appropriations (originally sponsored by Representatives Dickerson, VanDeWege, McCoy, and Kenney; by request of Department of Natural Resources)

(AS OF HOUSE 2ND READING 2/14/2008)

Provides that the Washington geological survey shall: (1) Serve as a bureau of information and an advisory service concerning geologic resources and hazards, and to provide technical assistance to local governments on geological hazards, mineral resources, and aggregate mining and reclamation during

preparation and amendment of comprehensive plans and land use regulations;

(2) Collect geotechnical and related reports prepared by applicants in support of building construction and land use permits from local government or state government for use in the development of a statewide electronic database of subsurface geotechnical data;

(3) Preserve information collected, developed, or obtained under this act in a publicly accessible electronic data system;

(4) Establish and maintain a storage and examination facility for physical samples; and

(5) Promote outdoor recreation and education.

Requires reports, geological maps, geological hazard assessment maps, mineral resource maps, and special reports of the geological survey to be distributed as directed by the state geologist as the needs of the state and science demand.

Companion Bill: 6212

Seeking to improve recreational opportunities on state-owned lands managed by the department of natural resources.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds and declares that recreational opportunities are instrumental in promoting human health and well-being and are part of the heritage of Washington state. State trust lands, aquatic lands, and other state-owned lands managed by the department of natural resources provide significant recreational opportunities, along with other social, economic, and environmental benefits.

Population growth has increased demand for recreational access and presents current and future challenges that must be addressed. Efforts by the department of natural resources to consolidate state trust lands will provide more opportunities for citizens to access larger blocks of state-owned lands.

Provides that a work group is established to make recommendations to improve recreation on state trust lands, aquatic lands, and other state-owned lands managed by the department of natural resources. The work group shall examine relevant existing laws and rules and recommend policy changes and funding alternatives for consideration by the legislature to ensure safe, sustainable, and enjoyable recreational access.

Provides that the work group is comprised of a balanced representation of individuals with recreational interests and knowledge regarding specific regions of the state. Work group members shall be compensated and shall receive reimbursement for travel expenses.

Requires that the work group shall: (1) Conduct a minimum of two open public workshops;

(2) Hold meetings to gather input from key stakeholders, citizens, and local jurisdictions regarding the group's proposed recommendations; and

(3) Coordinate with the stakeholder recreational advisory committees appointed or established by the commissioner of public lands.

Requires the commissioner of public lands to submit to the appropriate standing committees of the legislature, no later than December 1, 2008, its findings and recommendations for legislation that is necessary to implement the work group's findings.

**HB 2472-S** by House Committee on Ecology & Parks (originally sponsored by Representatives Blake, Warnick, Condotta, Sells, Linville, Hinkle, VanDeWege, McCoy, Lantz, Morrell, Loomis, Kretz, Chase, Kristiansen, and McDonald; by request of Department of Natural Resources)

Companion Bill: 6524

Authorizing tribal police officers to act as general authority Washington state peace officers.

(DIGEST AS ENACTED)

Defines "general authority Washington peace officer" to mean an officer authorized to enforce the criminal and traffic laws of the state of Washington generally and "tribal police officer" to mean any person in the employ of one of the federally recognized sovereign tribal governments, whose traditional lands and territories lie within the borders of the state of Washington, to enforce the criminal laws of that government.

Provides that tribal police officers under this act are authorized to act as general authority Washington peace officers and have the same powers as any other general authority Washington peace officer to enforce state laws in Washington, including the power to make arrests for violations of state laws. This authority is subject to the appropriate sovereign tribal nation submitting to the office of financial management proof of public liability and property damage insurance for vehicles operated by the peace officers, police professional liability insurance, and training requirements for each tribal police officer.

Requires that a copy of any citation or notice of infraction issued, or any incident report taken, by a tribal police officer must be submitted within three days to the police chief or sheriff within whose jurisdiction the action was taken. The citation shall be to a Washington court, except that any citation issued to Indians within the exterior boundaries of an Indian reservation may be cited to a tribal court.

Provides that for purposes of civil liability, a tribal police officer shall not be considered an employee of the state of Washington.

 Providing for groundwater monitoring and assessments.

(SEE ALSO PROPOSED 1ST SUB)

Requires the department of ecology to improve the groundwater level ambient monitoring program in order to accurately characterize long-term trends in the state's groundwater resource quantity and evaluate aquifer water quality. The program must include: (1) Standardizing methods, quality assurance, and data management practices for measuring groundwater levels;

(2) Migrating existing data to a central database; and  
 (3) Expanding and supporting current ambient monitoring activities.

Directs the department of ecology by June 30, 2009 to conduct two pilot groundwater assessments in water resource inventory areas experiencing serious or critical withdrawals.

Requires that, by December 31, 2008, the department of ecology shall prepare a gap analysis that evaluates groundwater monitoring in the water resource inventory areas of the state.

Appropriates the sum of two million five hundred thousand dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2009, from the general fund to the department of ecology for the purposes of this act.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Requires the department to enhance the ambient groundwater monitoring and assessment program in order to accurately characterize long-term trends in the state's groundwater levels and water quality. The program may be improved in phases and must include: (1) Standardizing methods, quality assurance, and data management practices for measuring groundwater levels and quality; and

(2) Creating a central database and migrating existing department of ecology and water resource inventory areas data to the central database by June 2009.

Provides, by June 30, 2011, the department of ecology shall conduct two voluntary pilot groundwater assessments in water resource inventory areas experiencing serious or critical withdrawals. One pilot groundwater assessment must be initiated in western Washington and one pilot groundwater assessment in eastern Washington.

Provides, by June 30, 2009, the department of ecology shall prepare a data gap analysis that evaluates existing groundwater information on water levels and water quality within each water resource inventory area of the state.

 Requiring subscribers' consent to disclosure of wireless phone numbers.

(SUBSTITUTED FOR - SEE 2ND SUB)

Provides that any person in the business of compiling, marketing, selling, maintaining, or otherwise sharing the phone number of any subscriber for commercial purposes, shall not include the phone number of any subscriber for inclusion in any directory of any form, nor shall it sell the contents of any directory database, without first obtaining the express, opt-in consent of that subscriber.

Defines "subscriber" to mean a person who subscribes to radio communications services, radio paging, or cellular communications service.

Provides that any person in the business of compiling, marketing, selling, maintaining, or otherwise sharing the phone number of any subscriber for commercial purposes, who has maintained a directory before the effective date of this act, must within thirty days either secure the express, opt-in consent of each subscriber listed in the directory or remove the phone numbers of any subscribers who have not provided their express, opt-in consent.

(DIGEST AS ENACTED)

Provides that in obtaining a subscriber's consent, the radio communications service company or direct or indirect affiliate or agent of a radio communications service company shall unambiguously disclose that, by consenting, the subscriber agrees that the subscriber's express, opt-in consent will be construed as consent for the subsequent publication of the wireless phone number to and by third parties in other directories or databases.

Requires that a directory provider shall not include any phone number that belongs to a Washington state resident in any directory of any form, or sell the contents of any directory database, without first undertaking a reasonable ongoing investigation as to whether the phone number is a wireless phone number.

Directs that a radio communications service company or a directory provider, who has maintained a directory before the effective date of this act, must within thirty days either secure the express, opt-in consent of each subscriber listed in the directory or remove the wireless phone numbers of any subscribers who have not provided their express, opt-in consent.

Concerning public transportation fares.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that persons traveling on public transportation operated by a metropolitan municipal corporation shall pay the fare established by the metropolitan municipal corporation. Persons traveling on public transportation operated by a public transportation benefit area shall pay the fare established by the public transportation benefit area. Such persons shall produce proof of payment when requested by a person designated to monitor fare payment.

Declares that the following constitute civil infractions punishable according to the schedule of fines and penalties established by either a metropolitan municipal corporation or a

public transportation benefit area under this act: (1) Failure to pay the required fare;

(2) Failure to display proof of payment when requested to do so by a person designated to monitor fare payment; and

(3) Failure to depart the bus or other mode of public transportation when requested to do so by a person designated to monitor fare payment.

Provides that a metropolitan municipal corporation or public transportation benefit area may establish, by resolution, a schedule of fines and penalties for civil infractions established in this act. A metropolitan municipal corporation or public transportation benefit area may designate persons who are equivalent to, and are authorized to exercise all the powers of, an enforcement officer and may take the following actions: (1) Monitor fare payment;

(2) Request proof of payment from passengers;

(3) Request personal identification from a passenger who does not produce proof of payment when requested;

(4) Issue a citation; and

(5) Request that a passenger leave the bus or other mode of public transportation when the passenger has not produced proof of payment after being asked to do so by a person designated to monitor fare payment.

Declares that law enforcement authorities are not prevented from prosecuting for theft, trespass, or other charges by any individual who: (1) Fails to pay the required fare on more than one occasion within a twelve-month period;

(2) Fails to timely select one of the options for responding to the notice of civil infraction after receiving a statement of the options for responding to the notice of infraction and the procedures necessary to exercise these options; or

(3) Fails to depart the bus or other mode of public transportation when requested to do so by a person designated to monitor fare payment.

Defines "proof of payment" to mean evidence of fare prepayment authorized by a metropolitan municipal corporation for the use of buses or other modes of public transportation.

**HB 2480-S** by House Committee on Transportation (originally sponsored by Representatives Clibborn, McIntire, and Simpson)

(DIGEST AS ENACTED)

Requires persons traveling on public transportation operated by a metropolitan municipal corporation or a city-owned transit system to pay the fare established by the metropolitan municipal corporation or the city-owned transit system. Such persons shall produce proof of payment when requested by a person designated to monitor fare payment.

Allows both a metropolitan municipal corporation and a city-owned transit system to establish, by resolution, a schedule of fines and penalties for civil infractions established in this act. Fines established shall not exceed those imposed for class 1 infractions under RCW 7.80.120.

Requires persons traveling on public transportation operated by a public transportation benefit area to pay the fare established by the public transportation benefit area. Such persons shall produce proof of payment when requested by a person designated to monitor fare payment.

Allows a public transportation benefit area to establish, by resolution, a schedule of fines and penalties for civil infractions established in this act. Fines established shall not exceed those imposed for class 1 infractions under RCW 7.80.120.

 Concerning vulnerable adult protection orders.

(SUBSTITUTED FOR - SEE 1ST SUB)

Requires that a copy of an order for protection of a vulnerable adult shall be forwarded by the clerk of the court on or before the next judicial day to the appropriate law enforcement agency specified in the order.

Requires the law enforcement agency to enter the order into any computer-based criminal intelligence information system to list outstanding warrants. The order shall remain in the computer for the period stated in the order and may be expunged when it is expired, vacated, or superseded. The information entered into the system shall include notice to law enforcement whether the order was personally served, served by publication, or served by mail.

Provides that the court should, before entering an order for protection of a vulnerable adult, conduct a check of the judicial information system for the existence of other orders affecting the parties to the petition, criminal history of the parties, and other relevant information necessary to assist courts in issuing orders under this act.

Provides that if the respondent, or the vulnerable adult where the petition is filed by someone other than the vulnerable adult, was not personally served with the petition, notice of hearing, and ex parte order before the hearing, the court shall reset the hearing for twenty-four days from the date of entry of the order and may order service by publication instead of personal service under the following circumstances: (1) The sheriff, municipal officer, or other process server files an affidavit stating

that the officer or process server was unable to complete personal service upon the party to be served;

(2) The petitioner files an affidavit stating that the petitioner believes that the party to be served is hiding from the server to avoid service or is being hidden from the server to avoid service;

(3) The server has deposited a copy of the summons, notice of hearing, and the ex parte order of protection in the post office, directed to the party to be served at the party's last known address; and

(4) The court finds reasonable grounds exist to believe that the party to be served is concealing himself or herself to avoid service or is being hidden from the server to avoid service, and that further attempts to personally serve the party to be served would be futile or unduly burdensome.

Provides that in circumstances justifying service by publication, if the serving party files an affidavit stating facts from which the court determines that service by mail is just as likely to give actual notice as service by publication and that the serving party is unable to afford the cost of service by publication, the court may order that service be made by mail.

Provides that following completion of service by publication or by mail, if the party served by publication or by mail fails to appear at the hearing, the court may issue an order of protection.

**HB 2493** by Representative Armstrong

Regarding violations of chapter 77.15 RCW.

Finds that enforcement of the state's fish and game laws is an essential component to professional wildlife management. There are instances when a violation of the state's hunting laws occurs not due to an intentional attempt to increase one's success in the field, but due to honest confusion about the rules or understandable mistakes made in the pursuit of game. Enforcement officers of the department of fish and wildlife have no option but to cite these well-meaning citizens with a criminal infraction.

Declares an intent to provide the field enforcement of the department of fish and wildlife with additional enforcement tools, other than criminal sanctions, to properly handle situations where well-meaning and otherwise law-abiding hunters mistakenly, and with no intent to violate a hunting law, find themselves in violation of the fish and wildlife enforcement code.

Provides that if mitigating circumstances exist, the responding fish and wildlife officer may, as an alternative to citing an individual for a criminal violation, instead issue a noncriminal natural resource infraction. The discretion to issue either a noncriminal natural resource infraction or a criminal citation belongs to the responding fish and wildlife officer and is based on examples of appropriate mitigating circumstances identified by the state fish and wildlife commission or the individual circumstances of the situation being investigated.

Declares that the penalty for a noncriminal natural resource infraction is one hundred fifty dollars.

Requires the department of health to develop a simple medical order form for documenting a person's life-sustaining and emergency treatment preferences, which clearly indicates "resuscitate" or "do not resuscitate" and other choices for life-sustaining and emergency treatment or related comfort care that shall be followed by emergency medical personnel certified under chapters 18.71 and 18.73 RCW.

Provides that emergency medical personnel who, in good faith, provide, withhold, or withdraw treatment from a person in accordance with the directions stated on a medical order form developed and endorsed by the department of health under this act and executed in accordance with this act are immune from civil or criminal liability, including professional conduct sanctions.

Provides that any provider who, in good faith, provides, withholds, or withdraws life-sustaining treatment, emergency treatment including "resuscitate" or "do not resuscitate," or related treatment for comfort care from a person in accordance with the directions stated on a medical order form developed and endorsed by the department of health under RCW 43.70.480 and signed in accordance with RCW 43.70.480(3) is immune from civil or criminal liability, including professional conduct sanctions.

Companion Bill: 6604

Enhancing the mobility of certified public accountants.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds the multiple state licensing and registering requirements for certified public accountants to be cumbersome and an unnecessary constraint on the consumers of professional certified public accountant services. In order to serve their various client needs, certified public accountants must often delay service while they first spend countless hours and dollars to register with regulators in the jurisdiction of the client.

Declares an intent to eliminate the requirement for out-of-state certified public accountants to notify the Washington state board of accountancy of intent to practice and pay a fee, unless these individuals or firms are providing audit or opinion-type services.

Modifies the requirements for entities that must hold a license to practice as a CPA firm.

Provides that an individual whose principal place of business is not in this state shall be presumed to have qualifications substantially equivalent to this state's requirements and shall have all the privileges of licensees of this state without the need to obtain a license under RCW 18.04.105 if the individual: (1) Holds a valid license as a certified public accountant from any state that requires, as a condition of licensure, that an individual: (a) have at least one hundred fifty semester hours of college education; (b) achieve a passing grade on the uniform certified public accountant examination; and (c) possess at least one year of experience including service or advice involving the use of accounting, attest, compilation, management advisory, financial

advisory, tax, or consulting skills, all of which was verified by a licensee; or

(2) Holds a valid license as a certified public accountant from any state that does not meet the requirements of (1) of this subsection, but such individual's CPA qualifications are substantially equivalent to those requirements.

VETO MESSAGE ON SHB 2496

March 14, 2008

To the Honorable Speaker and Members,  
 The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval, Substitute House Bill 2496 entitled:

"AN ACT Relating to enhancing the mobility of certified public accountants."

This bill is a duplicate of Substitute Senate Bill 6604, which I am signing today. Substitute House Bill 2496 is therefore redundant.

For these reasons, I have vetoed Substitute House Bill 2496 in its entirety.

Respectfully submitted,  
 Christine Gregoire  
 Governor

(SEE ALSO PROPOSED 1ST SUB)

Addresses employment opportunities at community and technical colleges.

**HB 2528-S** by House Committee on Higher Education (originally sponsored by Representatives Nelson, Hasegawa, Roberts, Lantz, Sullivan, and Simpson)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Establishes the goal that by 2014 the community and technical colleges increase the numbers of full-time tenured positions on their campuses by adding three hundred fifty full-time academic employee positions.

Requires, by December 1, 2008, each community and technical college, in close collaboration with the exclusive bargaining representative for faculty, to determine the number of full-time academic employees it plans to create each year through 2014 and to report its findings to the state board for community and technical colleges, its board of trustees, and the exclusive representatives of the faculty.

Requires each community and technical college to establish a process, subject to collective bargaining, under which part-time and full-time nontenured faculty members, after successful completion of an evaluation period, receive timely notice of and priority consideration, consistent with other institutional and state policies, for academic employment assignments for which they are qualified in their discipline in coming academic terms.

Requires each community and technical college to create, subject to collective bargaining, a process for ensuring that qualified internal applicants receive priority consideration for attaining a tenure-track position when one becomes available such as, but not limited to, a job interview for positions where minimum requirements have been met or notification of job openings before they are posted outside of the institution.

Companion Bill: 6585

Concerning attachments to utility poles of locally regulated utilities.

(SUBSTITUTED FOR - SEE 2ND SUB)

Regulates attachments to utility poles of locally regulated utilities.

Requires that a just and reasonable rate charged by a locally regulated utility assure the locally regulated utility the recovery of not less than all the additional costs of procuring and maintaining pole attachments nor more than the actual capital and operating expenses, including just compensation, of the locally regulated utility attributable to that portion of the pole, duct, or conduit used for the pole attachment, including a share of the required support and clearance space, in proportion to the space used for the pole attachment, as compared to all other uses made of the subject facilities and uses that remain available to the owner or owners of the subject facilities.

Requires that a locally regulated utility respond to a licensee's request to attach within forty-five days.

**HB 2533-S** by House Committee on Technology, Energy & Communications (originally sponsored by Representatives McCoy, Chase, and Quall)

(SUBSTITUTED FOR - SEE 2ND SUB)

Regulates attachments to utility poles of locally regulated utilities.

Requires that a just and reasonable rate charged by a locally regulated utility assure the locally regulated utility the recovery of not less than all the additional costs of procuring and maintaining pole attachments nor more than the actual capital and operating expenses, including just compensation, of the locally regulated utility attributable to that portion of the pole, duct, or conduit used for the pole attachment, including a share of the required support and clearance space, in proportion to the space used for the pole attachment, as compared to all other uses made of the subject facilities and uses that remain available to the owner or owners of the subject facilities.

Requires that a locally regulated utility respond to a licensee's request to attach within forty-five days except in extraordinary circumstances.

Provides that any dispute between the locally regulated utility and a licensee, including disputes over a specific request to attach must first be presented to the governing board of the locally regulated utility for resolution.

**HB 2533-S2** by House Committee on Appropriations (originally sponsored by Representatives McCoy, Chase, and Quall)

(DIGEST AS ENACTED)

Requires a just and reasonable rate to be calculated as follows: (1) One-half of the rate consists of the additional costs of procuring and maintaining pole attachments, but may not exceed the actual capital and operating expenses of the locally regulated utility attributable to that portion of the pole, duct, or conduit used for the pole attachment, including a share of the required support and clearance space, in proportion to the space used for the pole

attachment, as compared to all other uses made of the subject facilities and uses that remain available to the owner or owners of the subject facilities; and

(2) One-half of the rate consists of the additional costs of procuring and maintaining pole attachments, but may not exceed the actual capital and operating expenses of the locally regulated utility attributable to the share of the required support and clearance space, divided equally among all attachers, which sum is divided by the height of the pole.

Allows the locally regulated utility to establish a rate according to the calculation outlined in this act or to establish a rate according to the cable formula set forth by the federal communications commission by rule as it existed on the effective date of this act, or such subsequent date as may be provided by the federal communications commission by rule, consistent with the purposes of this act.

Provides, except in extraordinary circumstances, a locally regulated utility must respond to a licensee's application to enter into a new pole attachment contract or renew an existing pole attachment contract within forty-five days of receipt.

Provides, within sixty days of an application being deemed complete, the locally regulated utility shall notify the applicant as to whether the application has been accepted for licensing or rejected. If the application is rejected, the locally regulated utility must provide reasons for the rejection. A request to attach may only be denied on a nondiscriminatory basis: (a) where there is insufficient capacity; or (b) for reasons of safety, reliability, and generally applicable engineering purposes.

Modifications to the health insurance partnership act.

(SUBSTITUTED FOR - SEE 2ND SUB)

Declares that the health insurance partnership shall begin to offer coverage no later than March 1, 2009.

States that neither the employer nor the partnership shall limit an employee's choice of coverage from among the health benefit plans offered through the partnership, unless expressly authorized.

Establishes a mechanism to apply a surcharge to each health benefit plan purchased through the partnership, which shall be used only to pay for administrative and operational expenses of the partnership. The surcharge must be applied uniformly to all health benefit plans purchased through the partnership.

Designates health benefit plans that are currently offered in the small group market that will be offered to participating small employers through the health insurance partnership and those plans that will qualify for premium subsidy payments.

Develops policies related to partnership participant enrollment in health benefit plans. The board may focus its initial

efforts on access to coverage and affordability of coverage for participating small employers and their employees.

Determines whether the partnership should be designated as the sponsor or administrator of a participating small employer health benefit plan and undertake the obligations required of a plan administrator under federal law in order to minimize administrative burdens on participating small employers.

Provides that for health benefit plans purchased through the health insurance partnership established in chapter 70.47A RCW: (1) Any surcharge established pursuant to RCW 70.47A.030(2)(e) shall be applied only to health benefit plans purchased through the health insurance partnership; and

(2) Risk adjustment or reinsurance mechanisms may be used by the health insurance partnership program to redistribute funds to carriers participating in the health insurance partnership based on differences in risk attributable to individual choice of health plans or other factors unique to health insurance partnership participation. Use of such mechanisms shall be limited to the partnership program and will not affect small group health plans offered outside the partnership.

Declares that minimum participation requirements and employer premium contribution requirements adopted by the health insurance partnership board under RCW 70.47A.110 shall apply only to the employers and employees who purchase health benefit plans through the health insurance partnership.

**HB 2549-S2** by House Committee on Appropriations (originally sponsored by Representatives Seaquist, Lantz, Morrell, Liias, Barlow, and Green)

Establishing a patient-centered primary care collaborative program.

(DIGEST AS ENACTED)

Provides that within funds appropriated for this purpose, and with the goal of catalyzing and providing financial incentives for the rapid expansion of primary care practices that use the medical home model, the department of health shall offer primary care practices an opportunity to participate in a medical home collaborative program.

Requires the collaborative program to be structured to promote adoption of medical homes in a variety of primary care practice settings throughout the state and consider different populations, geographic locations, including at least one location that would agree to operate extended hours, which could include nights or weekends, and other factors to allow a broad application of medical home adoption, including rural communities and areas that are medically underserved.

Declares that as part of a required five-year plan to change reimbursement the health care authority and department of social and health services must expand their assessment on changing reimbursement for primary care to support adoption of medical homes to include medicare, other federal and state payors, and third-party payors, including health carriers under Title 48 RCW and other self-funded payors.

Adding bicyclist and pedestrian safety information to drivers' education curriculum.

(DIGEST AS ENACTED)

Finds that it is the policy of the state of Washington to encourage the safe and efficient use of the roads by all citizens, regardless of mode of transportation. Driver training programs should enhance the driver training curriculum in order to emphasize the importance of safely sharing the road with bicyclists and pedestrians.

Requires that the basic minimum required curriculum shall include information on bicycle and pedestrian safety, to ensure that operators of motor vehicles have been instructed in the importance of safely sharing the road with bicyclists and pedestrians.

Provides that the superintendent of public instruction shall require that information on driving safely among bicyclists and pedestrians, approved by the director of the department of licensing, be included in instructional material used in traffic safety education courses.

**HB 2569** by Representatives Dickerson, O'Brien, Lantz, Takko, Williams, Seaquist, Morrell, Ormsby, Lias, Miloscia, Hurst, McIntire, Kenney, Campbell, VanDeWege, Barlow, Green, and Simpson

Providing funding to local government for purposes of registered sex and kidnapping offender address verification and community notification.

Finds that the state sex and kidnapping offender registration system is an indispensable tool for increasing community safety. It is the responsibility of local law enforcement agencies to verify the addresses and residency of registered sex and kidnapping offenders and to provide notification to the community of registered sex and kidnapping offenders within their jurisdictions. These duties have placed enormous strain on the already limited resources of local governments throughout the state.

Declares the intent to provide a permanent state funding source to help local law enforcement agencies verify the addresses and residency of registered sex and kidnapping offenders and notify the community of registered sex and kidnapping offenders within their jurisdictions.

Appropriates the sum of five million dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2009, from the public safety and education account to the criminal justice training commission for the purposes of assisting local law enforcement to verify the addresses and residency of registered sex and kidnapping offenders and notify the community of registered sex and kidnapping offenders within their jurisdiction.

Provides that by July 31, 2008, or within four months after certain revised standards are adopted, whichever is later, the superintendent of public instruction, in collaboration with school district curriculum directors, teachers, and other curriculum specialists, shall complete an analysis of the mathematics textbooks, curricula, and other instructional materials commonly used in elementary, middle, and high schools in the state to determine where and to what extent the revised standards are included therein.

Provides that by September 31, 2008, or within six months after the revised standards are adopted, whichever is later, the superintendent shall develop a concise online guide for mathematics curriculum to assist school districts and boards of directors in making decisions regarding the future purchase of mathematics textbooks, curriculum, and instructional materials.

**HB 2598-S2** by House Committee on App Subcom Ed (originally sponsored by Representatives Sullivan, Ormsby, Haigh, Schual-Berke, Green, and Simpson)

(DIGEST AS ENACTED)

Provides that within thirty days after the adoption of final revised mathematics standards as directed under RCW 28A.305.215, the office of the superintendent of public instruction and the state board of education shall work together to develop a request for proposals for private vendors or nonprofit organizations to adapt an existing mathematics curriculum to be aligned with Washington's essential academic learning requirements and grade level expectations and make the curriculum available online at no cost to school districts. At a minimum, the proposed curriculum shall cover course content in grades kindergarten through twelve and the state's college readiness standards.

Requires the office of the superintendent of public instruction to review the responses, including an analysis of the qualifications of the respondents, and report the results of the request for proposals under this act to the governor and the education and fiscal committees of the legislature by December 1, 2008.

Provides that within six months after mathematics standards are adopted, the superintendent of public instruction shall present to the state board of education recommendations for no more than three basic mathematics curricula each for elementary, middle, and high school grade spans.

Provides that within two months after the presentation of the recommended curricula, the state board of education shall provide official comment and recommendations to the superintendent of public instruction regarding the recommended mathematics curricula.

Requires the superintendent of public instruction to conduct a comprehensive survey of the mathematics curricula being used by school districts at all grade levels and the textbook and curriculum purchasing cycle of the districts and report the results of the survey to the education committees of the legislature by November 15, 2008.

Reducing the environmental impact of cleaning state facilities.

(AS OF HOUSE 2ND READING 2/14/2008)

Requires all state agencies that purchase cleaning products or services to ensure that cleaning products have properties that minimize potential impacts to human health and the environment consistent with maintenance of the effectiveness of these products for the protection of public health and safety.

Provides the department of general administration, upon renewal of a lease and for all new leases, must require lessors and building managers who provide leased space to state agencies to use environmentally preferred products and practices.

Provides that when procuring cleaning products, state agencies shall purchase environmentally preferred products or document the reasons for selecting nonpreferred products.

Encourages local governments and school districts to review their purchasing and use of cleaning products and select those having properties that minimize potential impacts to human health and the environment consistent with this act.

Requires state agencies to transition to cleaning products having properties that minimize potential impacts to human health and the environment within six months of the effective date of this act in a manner that avoids waste of existing inventories, accommodates establishment of supply chains for new products, enables the training of personnel in appropriate work practices, and allows the phase out of products and practices inconsistent with this act.

Provides nothing in this act prohibits the use of disinfectants, disinfecting cleaners, sanitizers, or any other antimicrobial product regulated by the federal insecticide, fungicide, and rodenticide act (7 U.S.C. Sec. 136 et seq.), provided that the use

of these products is in accordance with responsible cleaning procedure requirements.

**HB 2622** by Representatives Hurst, Morrell, Roach, VanDeWege, Barlow, and Kelley

Companion Bill: 6363

Changing rules concerning admissibility of evidence in sex offense cases.

Finds that in sex crime cases generally, and in child molestation cases in particular, the offense often is committed in the absence of any independent witnesses. Prior acts of similar misconduct, as opposed to other types of misconduct, are deemed to be highly probative. Adult-victim sexual assault cases are also distinctive, and often turn on difficult credibility determinations.

Recognizes the practical effect of the federal rules of evidence related to sex crime cases is to put evidence of uncharged offenses in sexual assault and child molestation cases on the same footing as other types of relevant evidence that are not subject to a special exclusionary rule. Eight states enacted similar rules to protect the public from rapists and child molesters.

Adopts an exception to Evidence Rule 404(b).

Concerning human remains.

(SUBSTITUTED FOR - SEE 2ND SUB)

Concerns the discovery of human remains.

**HB 2624-S** by House Committee on State Government & Tribal Affairs (originally sponsored by Representatives McCoy, Kessler, Appleton, Ormsby, VanDeWege, Hunt, Kenney, Darneille, and Chase)

(SUBSTITUTED FOR - SEE 2ND SUB)

Requires any person who discovers skeletal human remains to notify the coroner and local law enforcement in the most expeditious manner possible. Any person knowing of the existence of human remains and not having good reason to believe that the coroner and local law enforcement has notice thereof and who fails to give notice thereof is guilty of a misdemeanor.

Requires the coroner to make a determination whether the skeletal human remains are forensic or nonforensic within five business days of receiving notification of a finding of such remains provided that there is sufficient evidence to make such a determination within that time period. The coroner will retain jurisdiction over forensic remains.

Provides, upon determination that the remains are nonforensic, the coroner must notify the department of archaeology and historic preservation within two business days. The department will have jurisdiction over such remains until provenance of the remains is established. A determination that remains are nonforensic does not create a presumption of removal or nonremoval.

Requires, upon receiving notice from a coroner of a finding of nonforensic skeletal human remains, the department to notify the appropriate local cemeteries, and all affected Indian tribes via certified mail to the head of the appropriate tribal government, and contact the appropriate tribal cultural resources staff within two business days of the finding.

Provides if the remains are determined to be Indian, the department must notify all affected Indian tribes via certified mail to the head of the appropriate tribal government within two business days and contact the appropriate tribal cultural resources staff.

Requires the department of archaeology and historic preservation to develop and maintain a centralized database and geographic information systems spatial layer of all known cemeteries and known sites of burials of human remains in Washington state.

Regarding the procurement of renewable resources.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides cities of the first class, public utility districts organized under chapter 54.08 RCW, any cities that operate electric generating facilities or distribution systems, any joint

operating agency, or any separate legal entity comprising two or more thereof organized under chapter 39.34 RCW shall, either directly or as co-owners of a separate legal entity, have power and authority to participate and enter into agreements with each other, and with any of the following, either directly or as co-owners of a separate legal entity: Any public agency, as that term is defined in RCW 39.34.020, with electrical companies that are subject to the jurisdiction of the Washington utilities and transportation commission or the regulatory commission of any state, hereinafter called "regulated utilities," and with rural electric cooperatives and generation and transmission cooperatives or any wholly owned subsidiaries of either rural electric cooperatives or generation and transmission cooperatives, for the undivided ownership, or indirect ownership in the case of a separate legal entity, of any type of electric generating plants powered by an eligible renewable resource as defined in RCW 19.285.030 and transmission facilities including, but not limited to, related transmission facilities, hereinafter called "common facilities," and for the planning, financing, acquisition, construction, operation, and maintenance thereof.

Provides that a public utility district may sell and convey, lease, or otherwise dispose of, to any person or entity without approval of the voters and upon such terms and conditions as the public utility district determines, all or any part of an electric generating project owned directly or indirectly by the public utility district, regardless of whether the project is completed, operable, or operating, as long as such a project is or would be powered by an eligible renewable resource as that term is defined in RCW 19.285.030, and as long as the public utility district, or the separate legal entity in which the district has an interest in the case of indirect ownership.

**HB 2639-S** by House Committee on Local Government (originally sponsored by Representatives Takko, Kretz, Blake, Condotta, VanDeWege, and Haler)

(DIGEST AS ENACTED)

Finds that it is in the public interest for public utility districts to develop renewable energy projects to meet requirements enacted by the people in Initiative Measure No. 937 and goals of diversifying energy resource portfolios.

Provides that public utility districts organized under chapter 54.08 RCW, any cities that operate electric generating facilities or distribution systems, any joint operating agency organized under chapter 43.52 RCW, or any separate legal entity comprising two or more thereof organized under chapter 39.34 RCW may participate and enter into certain agreements described in this act with each other, and with any public agency as defined in RCW 39.34.020, certain electrical companies, and rural electric cooperatives and generation and transmission cooperatives.

Authorizes public utility districts to sell and convey, lease, or otherwise dispose of, to any person or entity without approval of the voters and upon such terms and conditions as it determines, all or any part of an electric generating project owned directly or indirectly by the district, regardless of whether the project is completed, operable, or operating, as long as certain conditions are met.

Provides that, beginning July 1, 2009, no manufacturer, wholesaler, or retailer may manufacture, knowingly sell, offer for

sale, distribute for sale, or distribute for use in this state a children's product or product component containing the following: (1) Except as provided in this act, lead at more than .009 percent by weight (ninety parts per million);

(2) Cadmium at more than .004 percent by weight (forty parts per million); or

(3) Phthalates, individually or in combination, at more than .01 percent by weight (one hundred parts per million).

Requires, by January 1, 2009, the department of ecology to identify high priority chemicals that are of high concern for children after considering a child's or developing fetus's potential for exposure to each chemical.

Requires, beginning six months after the department has adopted rules under this act, a manufacturer of a children's product, or a trade organization on behalf of its member manufacturers, to provide notice to the department that the manufacturer's product contains a high priority chemical.

Requires a manufacturer of products that are restricted under this act to notify persons that sell the manufacturer's products in this state about the provisions of this act no less than ninety days prior to the effective date of the restrictions.

VETO MESSAGE ON E2SHB 2647

April 1, 2008

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 1 and Section 8, Engrossed Second Substitute House Bill 2647 entitled:

"AN ACT Relating to the children's safe products act."

Section 1 is an intent section that affirms the importance of regulating toxic chemicals in children's products. However, this section could be read to create obligations that are beyond what state government can deliver.

Section 8 requires the Department of Ecology to adopt a rule that identifies chemicals of high concern for children by January 1, 2010. This section is premature and preempts the process identified in Section 4. Section 4 directs the Department of Ecology to identify these chemicals and report to the Legislature on policy options for addressing the chemicals by January 1, 2009. The Legislature should have the benefit of this report before the state proceeds to rulemaking to impose additional reporting and testing requirements.

For these reasons, I have vetoed Section 1 and Section 8 of Engrossed Second Substitute House Bill 2647.

Without careful implementation, this bill could adversely affect the availability of safe toys in our state, including important educational toys. To address this concern, I will establish an advisory group to work with the Departments of Ecology and Health to make sure we implement the bill with common sense, and to work on needed legislative fixes for next session. I will ask both large and small toymakers and children's products retailers, children's health experts, and public interest representatives to work together on these tasks, and I will invite state legislators to participate.

Section 2 applies the new standards in this bill to all components found in children's car seats, beginning in July 2009. Limited testing to date shows that children's car seats will meet the standards in the bill, and most seats are made with few metal components. Nonetheless, we must be absolutely certain this bill will not reduce the safety of car seats. I will ask the advisory group to take a close look at this issue and recommend rules and changes in law as needed.

I will ask the group to look at standards for both the outer surface of toys and the inside of toys, and to consider the timelines needed for the industry to implement these new standards. I will ask them to develop recommendations for legislation to ensure safe products in a manner that is practical and achievable for the industry.

Section 3 of the bill could be misinterpreted to prohibit toys with internal electronic components. I believe the bill does not prohibit these internal components, and was not intended to do so. Therefore, I direct the Department of Ecology, working with the advisory group, to conduct expedited rulemaking this year to clarify the effect of the bill accordingly.

Section 4 directs Ecology to develop a list of chemicals with potential adverse effects on children. The language in this section could result in a long list of chemicals, and future reporting requirements beyond those needed to ensure the safety of children's products. The department's fiscal analysis of the bill assumed no more than fifty chemicals would be identified, and the Legislature has funded their work accordingly. I ask the Department to focus on the highest priority chemicals, considering good science on the effects of chemicals on the health of children, and those chemicals likely to be found in children's products. The Department should rely on safety testing conducted in the European Union and California, to the extent they provide a reasonable assurance of safety, in order to help establish a degree of consistency for the industry.

Section 5 requires manufacturers to report on the chemicals found in their children's products. I have retained this portion of the bill, as a future tool for ensuring the safety of our children, as needed. By my veto of Section 8, as described above, I have removed the bill's 2010 deadline to begin mandatory reporting. This will give us time to review the extent of reporting, consider duplication with other testing currently done by the industry, and determine how to most efficiently implement these new requirements. It will also allow us to determine whether or not proprietary information should be reported and, if so, how we can ensure that protected trade secrets are not disclosed.

With the exception of Section 1 and Section 8, Engrossed Second Substitute House Bill 2647 is approved.

Respectfully submitted,  
Christine O. Gregoire  
Governor

**HB 2664** by Representatives Pedersen, Cody, Green, Morrell, Seaquist, Conway, Hasegawa, Hudgins, Upthegrove, Chase, Liias, Nelson, Loomis, McIntire, Barlow, Schual-Berke, and VanDeWege

Prohibiting the sale and use of prescriber-identifiable prescription data for marketing or promotional purposes.

(SEE ALSO PROPOSED 1ST SUB)

Finds that prescriber-identifiable prescription data are used by pharmaceutical manufacturers to track the prescribing habits of every prescriber in Washington, allowing them to target their marketing efforts toward those prescribers that they find would lead to increased prescriptions and profitability.

Finds that the removal of the names and addresses of patients from prescription drug data purchased by pharmaceutical manufacturers and the physician data restriction program offered by the American medical association are not adequate remedies to protect the privacy of patients.

Declares an intent to prohibit conduct involving the sale and use of individual prescriber prescription data for marketing or promotional purposes.

Allowing the delegation of nursing tasks to care for persons with diabetes.

(SEE ALSO PROPOSED 1ST SUB)

Finds that Washington state has developed a strong community-based long-term care system in an effort to honor the desire of elderly persons and persons with disabilities to live in their own home or other home-like settings and to provide long-term care services in a cost-effective manner. More than fifteen percent of adults over age sixty-five in Washington state have diabetes. Current nurse delegation statutes limit the ability of elderly and disabled persons with diabetes to remain in their own homes or in other home-like long-term care settings.

Declares the intent to modify nurse delegation statutes to the extent needed to enable elderly persons and persons with disabilities who have diabetes to continue to reside in their own home or other home-like settings.

Provides that in community-based or in-home care settings, the tasks of diabetic insulin device set up and verbal verification of insulin dosage for sight-impaired individuals is not required to be delegated from a registered nurse to a registered or certified nursing assistant.

Declares that the administration of insulin by injection to certified nursing assistants for the purpose of caring for individuals with diabetes may be delegated. When delegating insulin injections, the registered nurse delegator must supervise and evaluate the individual performing the delegated task weekly during the first four weeks of delegation of insulin injections. If the registered nurse delegator determines that the individual is competent to perform the injection properly and safely, supervision and evaluation shall occur at least every ninety days thereafter.

Provides that before commencing the care of individuals with diabetes that involves administration of insulin by injection, the certified nursing assistant must provide to the delegating nurse a certificate of completion issued by the department of social and health services indicating completion of specialized diabetes nurse delegation training.

**HB 2667-S** by House Committee on Health Care & Wellness (originally sponsored by Representatives Morrell, McCoy, Green, Hunt, Wallace, Cody, Pedersen, and Kenney)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Provides that in community-based or in-home care settings, the tasks of diabetic insulin device set up and verbal verification of insulin dosage for sight-impaired individuals is not required to be delegated from a registered nurse to a registered or certified nursing assistant.

Declares that the administration of insulin by injection to certified nursing assistants for the purpose of caring for individuals with diabetes may be delegated. When delegating insulin injections, the registered nurse delegator must instruct the individual regarding proper injection procedures and the use of insulin, demonstrate proper injection procedures, and supervise and evaluate the individual performing the delegated task weekly during the first four weeks of delegation of insulin injections. If the registered nurse delegator determines that the individual is competent to perform the injection properly and safely, supervision and evaluation shall occur at least every ninety days thereafter.

Provides that before commencing the care of individuals with diabetes that involves administration of insulin by injection, the certified nursing assistant must provide to the delegating nurse a certificate of completion issued by the department of social and health services indicating completion of specialized diabetes nurse delegation training.

Requires the Washington state nursing care quality assurance commission, in cooperation with the department of social and health services to develop a monitoring system for insulin administered by injection by nursing assistants pursuant to a delegation from a registered nurse made in accordance with RCW 18.79.260(3)(e).

Expanding programs for persons needing long-term care.

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that Washingtonians sixty-five years of age and older will nearly double in the next twenty years, from eleven percent of our population today to almost twenty percent of our population in 2025. Younger people with disabilities will also require supportive long-term care services.

Finds that to address this increasing need, the long-term care system should: support autonomy and self-determination, and support the role of informal caregivers and families; promote personal planning and savings combined with public support; include culturally appropriate, high quality information, services, and supports delivered in a cost-effective and efficient manner; and utilize evidence-based practices for the prevention and management of chronic disease to improve the general health of Washingtonians over their lifetime and reduce health care and long-term care costs related to ineffective chronic care management.

Requires that agencies conducting family caregiver long-term care information and support services develop an evidence-based tailored caregiver assessment and referral tool and provide the option of a one-time voucher benefit per caregiver screened to meet the needs critical to health or safety of either the adult care recipient or the caregiver.

Provides that the community based services for low-income eligible persons shall include long-term care planning and options counseling, information and crisis intervention, and streamlined assistance to access a wide array of public and private community-based services.

Requires that the department of health shall develop a statewide fall prevention program to include networking community services, identifying service gaps, making affordable senior-based, evaluated exercise programs more available, providing consumer education to older adults, their adult children, and the community at large, and conducting professional education on fall risk identification and reduction.

Requires additional support for residents in community settings who exhibit challenging behaviors that put them at risk for institutional placement.

Establishes two seniors dental access projects.

Provides that if specific funding for the purposes of this act is not provided by June 30, 2008, this act is null and void.

Establishes two dental access projects.

VETO MESSAGE ON E2SHB 2668

March 25, 2008

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 6 and 9, Engrossed Second Substitute House Bill 2668 entitled:

"AN ACT Relating to long-term care."

This bill includes the policy recommendations from the Governor's Long-Term Care Task Force designed to meet increased demands for long-term care that supports autonomy and self-determination in people's homes and in community settings rather than institutions.

Sections 6 and 9 were not funded by the legislature in the budget, and are therefore null and void pursuant to Section 15 of this bill. For these reasons, I have vetoed Sections 6 and 9 of Engrossed Second Substitute House Bill 2668.

With the exception of Sections 6 and 9, Engrossed Second Substitute House Bill 2668 is approved.

Respectfully submitted,  
Christine Gregoire  
Governor

**HB 2669** by Representatives Morrell, McCoy, Green, Hunt, Cody, Pedersen, and Conway

Creating the prescription drug professional education program.

Declares the purpose of this act is to assure that persons or entities authorized to prescribe, dispense, or purchase prescription drugs in Washington use an evidence-based approach.

Finds that: (1) The state of Washington has an interest in maximizing the well-being of its residents and in containing health care costs; and

(2) To further its legitimate interest in the well-being of its residents and containing health care costs, the state of Washington has shown, through numerous legislative and executive branch activities, a strong commitment to evidence-based care and cost-effective health purchasing.

Defines "program," "administrator," "authority," and "state purchased health care."

Establishes the prescription drug professional education program.

VETO MESSAGE ON SHB 2679

April 1, 2008

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 1, 3, 4 and 6, Substitute House Bill 2679 entitled:

"AN ACT Relating to improving educational outcomes for students in foster care."

This bill relates to projects to improve educational outcomes for students in foster care.

Section 1 creates a foster care program supervisor at the Puget Sound Educational Service District.

Section 3 directs the Puget Sound Educational Service District to create a grant program for school districts to improve stability and educational outcomes for students in foster care.

Section 4 directs the Children's Administration to fund two school district-based foster care recruitment pilots.

While it is important to provide services to students in foster care, these services should be informed by effective practice and formulated in a coordinated manner. In 2007, the Legislature created the Building Bridges grant program (HB 1573) which

funds partnerships of schools, families, and communities to build a comprehensive dropout prevention, intervention and retrieval system. These grants will serve at-risk middle and high school students; targeted student populations include youth in foster care. The Children's Administration, in the Department of Social and Health Services, currently has educational advocacy coordinators. In addition, the supplemental budget enhances funding for the Children's Administration to provide Child Health Education and Tracking (CHET) screenings for all children who are in out-of-home care for 30 days or longer. Before new pilot programs are initiated, we need to evaluate the effectiveness of current programs and consider the best approach to coordinating services.

Section 6 of Substitute House Bill 2679 makes the act null and void if specific funding for this act is not provided in the omnibus appropriations act. The funding in the budget was specifically for Sections 1, 3, and 4. To retain the policies in Sections 2 and 5, this null and void section must be vetoed.

For these reasons, I am vetoing Sections 1, 3, 4, and 6 of Substitute House Bill 2679.

With the exception of Sections 1, 3, 4, and 6, Substitute House Bill 2679 is approved.

Respectfully submitted,  
Christine Gregoire  
Governor

(SEE ALSO PROPOSED 2ND SUB)

Creates an affordable housing for all program.

**HB 2683-S** by House Committee on Housing (originally  
 sponsored by Representatives Miloscia and  
 Chase)

(SEE ALSO PROPOSED 2ND SUB)

Creates the state affordable housing for all program in the  
 department of community, trade, and economic development to  
 achieve the goal of a decent, appropriate, and affordable home in a  
 healthy, safe environment for every very low-income household  
 in the state by 2020.

Requires the department of community, trade, and economic  
 development, in consultation with the affordable housing advisory  
 board created in RCW 43.185B.020 as recodified by this act, to  
 prepare and annually update a state affordable housing for all  
 plan, which must incorporate the strategies, objectives, goals, and  
 performance measures of all other housing-related state plans,  
 including the state homeless housing strategic plan required under  
 RCW 43.185C.040 and all state housing programs.

Requires each county to convene a county affordable housing  
 task force to prepare and recommend to the county legislative  
 authority a county affordable housing for all plan and also to  
 recommend appropriate expenditures of the affordable housing  
 for all program funds provided for in RCW 36.22.178 (as  
 recodified by this act) and any other sources directed to the county  
 program.

Authorizes any county to decline to participate in the  
 affordable housing for all program authorized in this act by  
 forwarding to the department of community, trade, and economic  
 development a resolution adopted by the county legislative  
 authority stating the intention not to participate. If a county  
 declines to participate in the affordable housing for all program a  
 city or formally organized collaborative of cities within that  
 county may forward a resolution to the department stating its  
 intention and willingness to operate an affordable housing for all  
 program within its jurisdictional limits.

Requires the department of community, trade, and economic  
 development to contract with the employment security  
 department to annually establish two self-sufficiency income  
 standards based upon the cost of living, including housing costs,  
 which include mortgage or rent payments and utilities other than  
 telephone, for each county in the state.

Requires the joint legislative audit and review committee to  
 conduct a performance audit and evaluation of the growth  
 management act, chapter 36.70A RCW, by January 1, 2009.

VETO MESSAGE ON ESHB 2687

April 1, 2008

To the Honorable Speaker and Members,  
 The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 103(14); 113(2); 114(2); 123(6); 123(12); 125(41); 125(62); 125(76); 125(78); 125(84); 127(11); 127(12); 147(5); 202(26); 202(27); 202(33);

"AN ACT Relating to fiscal matters."

I am vetoing the following sections because I disagree with the overall policy or direction, or for technical reasons that include alignment with vetoed bills, or bills that did not pass, drafting errors, and conflicts with existing statutes.

**Section 114(2), page 16, Office of the Governor, Implementation of SB 6313 (disability history)**

Funds were added to implement Senate Bill 6313, but the bill does not add duties to the Office of the Governor.

**Section 123(12), pages 26-27, Attorney General, SSB 6385 (real property)**

This proviso funds implementation of Substitute Senate Bill 6385 pertaining to real property, and stipulates that the appropriation shall lapse if the bill is not enacted. The Legislature did not pass the bill.

**Section 125(84), page 48, Department of Community, Trade and Economic Development, Implementation of ESSB 5959 (Transitional Housing)**

The proviso provides funds to administer the Transitional Housing Operating and Rent program if certain sections of Engrossed Substitute Senate Bill 5959 are enacted. The referenced sections were not included in the final version of the bill.

**Section 127(11), page 52, Office of Financial Management, Implementation of E2SHB 2631 (Office of Regulatory Assistance)**

This proviso funds the implementation of Engrossed Second Substitute House Bill 2631. The Legislature did not pass the bill.

**Section 127(12), page 52, Office of Financial Management, Tracking I-960 Costs**

The proviso requires the Office of Financial Management (OFM) to track all expenditures and FTE utilization in state government related to the responsibilities of Initiative 960, and to report to the fiscal committees of the Legislature by November 1, 2008. Although OFM is tracking its own expenditures, the majority of work in other agencies has already taken place so an additional expense of recreating records would be incurred throughout government.

**Section 206(21), page 116, Department of Social and Health Services Aging and Adult Services, Long Term Care Worker Certification and Training**

This proviso funds Engrossed Substitute House Bill 2693 relating to long-term care worker certification and training, and stipulates that the appropriation will lapse if the bill is not enacted. The Legislature did not pass the bill.

**Section 211, page 135, lines 30-35, Department of Social and Health Service Special Commitment Center Program, Commitment Center Calls**

This proviso funds implementation of Substitute House Bill 2756, pertaining to commitment center calls, and stipulates that the appropriation will lapse if the bill is not enacted. The Legislature did not pass the bill.

**Section 216, page 143, lines 20-27, Board of Industrial Insurance Appeals, E2SHB 3139 (industrial insurance benefits on appeal)**

The proviso funds the Board of Industrial Insurance Appeals to implement Engrossed Second Substitute House Bill 3139. However, the proviso requires the funds be used solely for the payment of benefits. The Board of Industrial Insurance Appeals adjudicates appeals but does not pay benefits, so it will be unable to use these funds to implement the bill.

**Section 218(19), page 151, Department of Labor and Industries, ESSB 5831 (HVAC and refrigeration)**

The proviso funds the Department of Labor and Industries to implement Engrossed Substitute Senate Bill 5831. However, the final version of the bill requires no additional money.

**Section 218(20), page 151, Department of Labor and Industries, E2SHB 3139 (industrial insurance benefits on appeal)**

The proviso funds the Department of Labor and Industries to implement Engrossed Second Substitute House Bill 3139. However, the funds are from the appropriated accident and medical aid accounts and the proviso requires the funds be used solely for the payment of benefits. The appropriated accident and medical aid accounts are the administrative accounts the Department uses for its industrial insurance operations and not for the payment of benefits. Benefits are paid from the non-appropriated portion of the accident and medical aid funds, so the department will be unable to use the funds provided to implement the bill.

**Section 222(53), pages 165-166, Department of Health, Long Term Care Worker Certification and Training**

This proviso funds Engrossed Substitute House Bill 2693, relating to long-term care worker certification and training, and stipulates that the appropriation will lapse if the bill is not enacted. The Legislature did not pass the bill.

**Section 224(1)(h), pages 168-169, Department of Corrections Administration and Support Services, Advisory Committee**

This proviso requires the Department of Corrections to establish the offenders in families advisory committee. The Department currently has voluntary family committees at each institution, making this requirement unnecessary.

**Section 224(1)(i), pages 169-170, Department of Corrections Administration and Support Services, McNeil Island Corrections Center Closure Evaluation**

This proviso requires the Department of Corrections to study the costs and benefits of closing McNeil Island Corrections Complex, but no funding is provided.

**Section 302(32), page 189, Department of Ecology, E2SHB 3186, Beach Management Districts**

I have vetoed the portion of Engrossed Second Substitute House Bill 3186 that places new requirements on state agencies for technical assistance, coordination, monitoring and assessment. Therefore, the funds will not be needed.

**Section 302(33), page 189, Department of Ecology, 2SHB 3227, Hood Canal Water Quality**

This proviso funds implementation of Second Substitute House Bill 3227, pertaining to Hood Canal Water Quality. The Legislature did not pass this bill.

**Section 302(37), page 190, Department of Ecology, E2SSB 6502, Release of Mercury**

This proviso funds implementation of Engrossed Second Substitute Senate Bill 6502 pertaining to Release of Mercury, and stipulates that the appropriation will lapse if the bill is not enacted. The Legislature did not pass the bill.

**Section 302(39), page 190, Department of Ecology, ESSB 6308, Climate Change Research, Preparation, and Adaptation**

This proviso funds implementation of Engrossed Substitute Senate Bill 6308, pertaining to Climate Change Research, Preparation, and Adaptation, and stipulates that the appropriation

will lapse if the bill is not enacted. The Legislature did not pass the bill.

**Section 307(31), pages 204-205, Department of Fish and Wildlife, E2SHB 3186, Beach Management Districts**

I have vetoed the portion of Engrossed Second Substitute House Bill 3186 that places new requirements on state agencies for technical assistance, coordination, monitoring and assessment. Therefore, the funding is not needed.

**Section 307(32), page 205, Department of Fish and Wildlife, Damage to Livestock by Wildlife**

This proviso requires the Department of Fish and Wildlife to compensate commercial livestock owners for damage caused by wildlife. While I appreciate the financial needs of livestock owners, the Department has no statutory authority to provide this type of compensation.

**Section 307(44), pages 206-207, Department of Fish and Wildlife, SSB 6307, Puget Sound Marine Managed Areas**

This proviso funds implementation of Substitute Senate Bill 6307 pertaining to Puget Sound Marine Managed Areas. It stipulates that the appropriation will lapse if the bill is not enacted. The Legislature did not pass the bill.

**Section 308(27), page 213, Department of Natural Resources, E2SHB 3186, Beach Management Districts**

I have vetoed the portion of Engrossed Second Substitute House Bill 3186 that places new requirements on state agencies for technical assistance, coordination, monitoring and assessment so the funding is not needed.

**Section 311(5), page 218, Puget Sound Partnership, SSB 6307, Puget Sound Marine Managed Areas**

This proviso funds implementation of Substitute Senate Bill 6307 pertaining to Puget Sound Marine Managed Areas. It stipulates that the appropriation will lapse if the bill is not enacted. The Legislature did not pass the bill.

**Section 501(2)(a)(x), pages 235-236, Superintendent of Public Instruction, E2SHB 2712 (Criminal Street Gangs)**

Engrossed Second Substitute House Bill 2712 pertaining to criminal street gangs does not include provisions requiring the Office of the Superintendent of Public Instruction (OSPI) to create a brochure based on the recommendations of the task force on gangs. Therefore, OSPI does not need \$180,000 for development, translation, and printing of brochures.

**Section 501(2)(c)(xvi), pages 239-240, Superintendent of Public Instruction, PSAT**

This appropriation provides reimbursement to school districts for costs associated with offering the Preliminary Scholastic Aptitude Test (PSAT) to tenth grade students. While this test may provide students some information about their readiness for the SAT and college preparedness, it is a new approach that has not been tested in Washington. There are other efforts already under way, such as the mathematics college readiness assessment, which has shown promising results in Washington schools to influence students' course-taking decisions and preparedness for college-level work.

**Section 501(2)(c)(xviii), page 240, Superintendent of Public Instruction, Dual Credit Workgroup**

This proviso adds funding for the Office of Superintendent of Public Instruction (OSPI) to convene a multi-agency workgroup regarding statewide coordination of dual credit programs, such as Running Start and Advanced Placement. Because this is a fundamental responsibility of all agencies involved in dual credit programming, they do not require additional funding to conduct this planning and analysis. I am asking that OSPI, the State Board for Community and Technical Colleges, representatives from public four-year institutions of higher education, the Workforce Training and Education Coordinating Board, the Council of Presidents, and the Higher Education Coordinating Board work together, with input from local programs, to develop a statewide coordinated plan for dual credit programs.

**Section 507(4), page 264, Superintendent of Public Instruction--Educational Service Districts, Reading Improvement Specialist, pursuant to E2SSB 6673 (Student Learning Opportunities)**

This proviso adds \$876,000 for reading improvement specialists at the Educational Service Districts. Reading was an early focus for school improvement efforts. A number of programs and services continue to focus on improving reading achievement, such as Reading First federal grants; Reading Corps; and district-focused activities with federal Title I, state Learning Assistance Program, and other sources. The Office of the Superintendent of Public Instruction also has used federal Title II funds to provide targeted professional development in reading instruction for secondary schools.

**Section 507(5), page 264, Superintendent of Public Instruction--Educational Service Districts, Outreach to Community-Based Organizations, pursuant to E2SSB 6673 (Student Learning Opportunities)**

This proviso appropriates funds to Educational Service Districts to develop and provide a program of outreach to community-based programs and organizations that are serving non-English speaking segments of the population, as well as those programs that target groups of students that are struggling academically. This idea should be considered within the context of the studies, funded in other parts of this budget and due this December, that will analyze and make recommendations on how to close the achievement gap.

**Section 511(46), page 285, Superintendent of Public Instruction--Education Reform, Career Opportunities pursuant to E2SSB 6673 (student learning opportunities)**

This proviso appropriates funding for a grant program to school districts to provide summer school funding for middle and high school students to explore career opportunities in math, science, and technology. Similar programs are already offered by school districts, skills centers and private organizations. One exciting opportunity initiated in 2006 is the Washington Aerospace Scholars, a statewide partnership through the Washington Aerospace Scholars Foundation with The Museum of Flight, schools, and business partners. The program gives high school students the opportunity to participate in hands-on engineering activities, tour facilities at Boeing, the University of Washington, Microsoft and Battelle, receive mentoring from astronauts, pilots, engineers and scientists, and conduct a project on Mars exploration.

**Section 601(2), pages 296-297, Higher Education, Salary Increases at Institutions of Higher Education**

There is a drafting error in this section, which could result in a policy change the Legislature did not consider.

**Child Care for Students**

**Section 605(14), page 309, State Board for Community and Technical Colleges, and**

**Section 613(9), page 343, Higher Education Coordinating Board**

Substitute House Bill 2582 takes the first step toward the goal of expanding child care by laying out a new matching grant procedure and allowing student governments at each college to raise funds through private donations. However, expanding the combined two- and four-year programs from \$100,000 per year to .1 million per year should be evaluated in the biennial budget process when it can be reviewed in context with existing child care programs.

**Section 605(23), page 311, State Board for Community and Technical Colleges, Adult Literacy Education**

This proviso directs the State Board for Community and Technical Colleges to convene a one-day summit on adult literacy and to conduct a media campaign to inform citizens about the availability of adult literacy programs and services. The Board should consider making adult literacy a feature of its media campaigns and convening a summit to inform the public on the

status of its adult literacy programs within existing appropriations.

**Mental Health Staffing**

**Section 606(23), page 319, University of Washington**

**Section 607(19), page 324, Washington State University**

**Section 608(7), page 327, Eastern Washington University**

**Section 609(8), page 330, Central Washington University**

**Section 610(13), page 333, The Evergreen State College**

**Section 611(10), page 338, Western Washington University**

Last year, I asked each higher education institution what campus safety issues were most important to them. We learned from national experts' recommendations following the Virginia Tech shooting. We learned more following the tragedy at Northern Illinois. My budget proposal funded critical equipment and technology to warn students at all campuses.

Instead, these provisos fund one mental health counselor for each institution, regardless of size. The community and technical colleges, home to the majority of our higher education enrollment, is excluded entirely. If an institution determines that a mental health counselor is the best investment for the institution, it can direct its own resources to this program. As part of their work pursuant to Second Substitute House Bill 2507 and Substitute Senate Bill 6328, I ask each four-year institution and the State Board for Community and Technical Colleges to develop prioritized lists of possible investments and any legislation required to make student safety a priority in the 2009 Session.

**Section 606(24), page 319, University of Washington, Biota Impacts from Low Dissolved Oxygen in Hood Canal**

Since 2003, Congressman Norm Dicks has sounded the alarm about the health of Hood Canal, securing federal funding to study the low dissolved oxygen content in Hood Canal. This allowed the University of Washington (UW) to create the Hood Canal Dissolved Oxygen program, which investigates the causes of the problem and, along with the Puget Sound Partnership, attempts to find a solution. Given the extensive work under way by the Partnership and the UW, we need to ensure that all funding for this problem works together, and that we do not duplicate efforts.

**Section 610(18), page 334, The Evergreen State College, Examine Data Gathered Through Sex Offender Address Verification Activities**

The Washington Association of Sheriffs and Police Chiefs (WASPC) is overseeing a program to verify the address and residency of all registered sex offenders and kidnapping offenders. As part of this program, WASPC will collect performance data from all participating jurisdictions to evaluate the efficiency and effectiveness of the address and residency verification program. In addition, the Institute for Public Policy at The Evergreen State College was tasked with assessing the prevalence of sex offenders who register as homeless as a means to avoid disclosing their residence. This analysis can be completed by WASPC in its administration of the program and assessment of its effectiveness.

**Section 612(8), page 340, Higher Education Coordinating Board, E2SHB 2783 (Education Transfer Articulation)**

Engrossed Second Substitute House Bill 2783 creates work groups and outlines tasks to improve student credit transferability among community and technical colleges and four-year institutions of higher education. While this focuses on the right problems, efforts already exist at the Higher Education Coordinating Board (HECB) and State Board for Community and Technical Colleges (SBCTC) in this area. I am asking the agencies to continue their work to develop ways to inform students, in clear language, about the transfer process and to address barriers to student transfers, especially for those transferring from technical programs or career schools. I also ask the HECB, SBCTC, and Washington Student Lobby to present proposals on transfer issues to the P-20 Council. Finally, I also want the HECB and SBCTC to refine and combine their plans for a web-based advising system.

**Section 612(9), page 340, Higher Education Coordinating Board, Prior Learning Work Group**

A barrier to the smooth transition from work to post-secondary education and training is how institutions evaluate and give credit for prior learning. The Higher Education Coordinating Board, State Board for Community and Technical Colleges, and Workforce Training and Education Coordinating Board have been working on this issue for years, and the State Board's prior learning assessment guidelines for colleges are an outgrowth of that work. I want these three agencies to continue working to ensure that prior learning is evaluated and utilized effectively at each campus, in each sector within existing resources.

**Section 906, page 376, Washington State Gambling Commission, Gambling Revolving Fund**

This section directs both the Gambling Commission and Office of Financial Management to address cash flow issues pursuant to RCW 43.88.050. However, the correct statutory reference is 43.88.260(2)(b).

Thoughtful choices and fiscal discipline are the keys to delivering what is most important to Washington's citizens. Saving money now will help Washington's students, families and seniors count on these investments being there for them in the future. A top priority for this budget must be maintaining a significant reserve. While the budget passed by the Legislature already left a notably high reserve of \$835 million, I have identified a number of items that, although valuable, are not essential to do right now. These are instances where there are additions to existing programs or new programs that are started that we may not be able to sustain. Vetoing these items now will help build an even bigger reserve, and has an important impact on future budgets. That is why I am vetoing:

**HB 2688** by Representatives Roberts, Goodman, Hasegawa,  
 Appleton, Pedersen, and Darneille

Constraining the department of corrections' authority to transfer  
 offenders out of state.

(SEE ALSO PROPOSED 1ST SUB)

Provides the secretary of corrections may not transfer an  
 offender out of state if the offender: (1) Is regularly participating  
 in extended family visitations with his or her child;

(2) Is regularly participating in parent-teacher conferences  
 involving his or her child; or

(3) Has had at least six contacts, either in person or by  
 telephone, with his or her child within the six months prior to the  
 proposed transfer.

**HB 2688-S** by House Committee on Human Services  
 (originally sponsored by Representatives Roberts,  
 Goodman, Hasegawa, Appleton, Pedersen, and Darneille)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Requires the department of corrections to inform an offender  
 in writing of the intent to transfer the offender out-of-state no less  
 than fourteen days prior to the proposed date of transfer.

Provides the secretary of corrections may not transfer an  
 offender out of state if the offender, within five days of being  
 notified of the department's intent to transfer the offender out-of-  
 state, requests in writing to remain in an in-state facility and  
 demonstrates that he or she: (1) Is regularly participating in  
 extended family visitations with his or her child;

(2) Is regularly participating in parent-teacher conferences  
 involving his or her child; or

(3) Has had at least six contacts, either in person or by  
 telephone, with his or her child within the six months prior to the  
 proposed transfer.

Requires that, when the department of corrections transfers  
 offenders from an out-of-state facility to an in-state facility, the

department must give priority to offenders who, prior to their  
 transfer to the out-of-state facility, met at least one of the transfer  
 requirements under this act and who request, in writing, a transfer  
 to an in-state facility.

**HB 2715** by Representatives Barlow, Hurst, Lantz, Upthegrove, Conway, Morrell, Miloscia, Kenney, Williams, Loomis, Haigh, Simpson, VanDeWege, and Kelley

Enhancing the penalty for sex offenses committed in a school protection zone.

(SEE ALSO PROPOSED 1ST SUB)

Provides that an additional twenty-four months shall be added to the standard range for any sex offense with a special verdict or finding that the offense was committed in a school protection zone.

**HB 2715-S** by House Committee on Public Safety & Emergency Preparedness (originally sponsored by Representatives Barlow, Hurst, Lantz, Upthegrove, Conway, Morrell, Miloscia, Kenney, Williams, Loomis, Haigh, Simpson, VanDeWege, and Kelley)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Provides that in a prosecution for a sex offense, the prosecuting attorney may file a special allegation that the offense

was committed in a school protection zone whenever sufficient admissible evidence exists, which, when considered with the most plausible, reasonably foreseeable defense that could be raised under the evidence, would justify a finding by a reasonable fact-finder that the offense was committed in a school protection zone.

Provides that an additional twenty-four months shall be added to the standard range for any sex offense with a special verdict or finding that the offense was committed in a school protection zone.

Provides that an offender convicted of a sex offense that involves any applicable school protection zone enhancement may not receive any earned release time for the portion of his or her sentence that results from the enhancement.

Finds that machine-readable features found on drivers' licenses and identicards are intended to facilitate verification of age or identity, not to facilitate collection of personal information about individuals, nor to facilitate the creation of private databases of transactional information associated with those individuals.

Finds that easy access to the information found on drivers' licenses and identicards facilitates the crime of identity theft.

Restricts the reading and handling of certain identification documents.

**HB 2729-S** by House Committee on Technology, Energy & Communications (originally sponsored by Representatives Eddy, Pedersen, Appleton, Lantz, Williams, Upthegrove, Santos, Simpson, Hasegawa, Ericks, Ormsby, and Springer)

(DIGEST AS ENACTED)

Finds that enhanced drivers' licenses and enhanced identicards are intended to facilitate efficient travel at land and sea borders between the United States, Canada, and Mexico, not to facilitate the profiling and tracking of individuals.

Provides that, except for persons or entities that read identification documents for certain purposes, a person is guilty of a class C felony if the person intentionally possesses, or reads or captures remotely using radio waves, information contained on another person's identification document, including the unique personal identifier number encoded on the identification document, without that person's express knowledge or consent.

Provides that documents and related materials and scanned images of documents and related materials used to prove identity, age, residential address, social security number, or other personal information required to apply for a driver's license or identicard are exempt from public inspection and copying.

Provides for disclosure exceptions regarding personally identifying information.

VETO MESSAGE ON ESHB 2765

April 1, 2008

To the Honorable Speaker and Members,  
 The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 1019, line 22; 1027; 1030; 1032; 1037; 3028 (5); and 3040, Engrossed Substitute House Bill 2765 entitled:

"AN ACT Relating to the capital budget."

**Section 1019, page 27, line 22, Department of Community, Trade and Economic Development, Burley Mountain Lodge**

This item is one of two appropriations for the same project. Because the Burley Mountain Lodge and the Cispus Environmental Learning Center are the same, I am vetoing the one referred to as Burley Mountain Lodge.

**Section 1027, pages 36-37, Department of General Administration, Statewide Infrastructure: Preservation Minor Works**

Infrastructure preservation is important for maintaining state facilities in good working order. This section reduces funding for

these activities by \$100,000. This veto restores funding levels to the original amount in the underlying budget so that drainage, lighting, and benches can be repaired at Heritage Park.

**Section 1030, page 38, Department of General Administration, Minor Works -- Infrastructure Preservation**

This item reduces funding for infrastructure preservation by \$204,000. I am vetoing this section to restore funding so that Capitol Campus water and sewer projects and Cascades Gateway Center Campus sewer, water, and storm water projects can proceed.

**Section 1032, page 39, Department of General Administration, Minor Works -- Program**

This item reduces funding for infrastructure preservation by \$110,000. I am vetoing this section so that Centennial Park sidewalks and the Interpretive Center restroom roof and interior tiles can be replaced.

**Section 1037, page 42, Department of Personnel, Thurston County Childcare Needs Assessment -- Pre-design**

This item directs the Department of Personnel and Department of General Administration to do a pre-design to determine childcare needs of state employees in Thurston County; existing licensed childcare capacity; preferred and alternate locations based on that need and capacity; optimum size of childcare space; and project costs for these locations. This work is to be completed by September 15, 2008. I am vetoing this section because this comprehensive analysis cannot be completed within this time frame with the resources provided.

**Section 3028(5), page 68, Recreation and Conservation Funding Board, High Speed Watercraft Report**

This proviso directs the Recreation and Conservation Funding Board to research hazards to the public from personal high-speed watercraft, such as jet skis, and to prepare a report with recommendations for increasing public enjoyment and safety when personal high-speed watercraft and other forms of motorized and non-motorized water recreation take place together. However, because funding for this research was not provided, I am vetoing this requirement.

**Section 3040, pages 75-76, Department of Natural Resources, Recreation Capital Renovations**

This proviso would -- with a number of exceptions -- prohibit the Department of Natural Resources from constructing or expanding facilities or trails for off-road recreation vehicles on state land until after June 30, 2009. I am vetoing this proviso because the Department of Natural Resources' planning process includes public input and considers all users and uses for recreation on state-managed lands. In keeping with Substitute House Bill 2472 that I signed, the Department of Natural Resources will also convene a workgroup to improve recreation on state-managed lands and promote safe, sustainable recreation. I will appoint a representative from my office to participate in this collaborative effort and am confident the group will examine funding mechanisms, liability, and site-specific planning issues.

For these reasons, I have vetoed Sections 1019, line 22; 1027; 1030; 1032; 1037; 3028 (5); and 3040 of Engrossed Substitute House Bill 2765.

With the exception of Sections 1019, line 22; 1027; 1030; 1032; 1037; 3028 (5); and 3040, Engrossed Substitute House Bill 2765 is approved.

Respectfully submitted,  
 Christine Gregoire  
 Governor

VETO MESSAGE ON E2SHB 2783

April 1, 2008

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval, Engrossed Second Substitute House Bill 2783 entitled:

"AN ACT Relating to transfer and articulation between institutions of higher education."

Engrossed Second Substitute House Bill 2783 creates work groups and outlines tasks to improve student credit transferability among community and technical colleges and four-year institutions of higher education. In addition, a list of student rights is to be developed. While this legislation focuses on the right problems, efforts already exist at the Higher Education Coordinating Board (HECB) and the State Board for Community and Technical Colleges (SBCTC) in this area. I am concerned that setting up another work group may actually distract us from the work already underway.

To assure that all interested parties are aware of current efforts, I am taking the following actions. First, I am directing the HECB and the SBCTC to continue working on transfer issues through the Joint Access Oversight Group. I request that these agencies develop ways to inform students, in clear language, about the transfer process and the information they need to continue their educational careers. I also ask that the remaining barriers, especially for students transferring from technical programs or career schools be addressed.

Second, I am also directing the HECB and the SBCTC to refine and combine their plans for a web-based advising system. A single, unified proposal should review and build upon the Joint Access Oversight Group's focus group work, the SBCTC program plan, and other work.

I am also directing that the solution, products, and recommendations from the above efforts be presented to the P-20 Council. I am looking forward to this report.

For these reasons, I have vetoed Engrossed Second Substitute House Bill No. 2783 in its entirety.

Respectfully submitted,  
Christine Gregoire  
Governor

Companion Bill: 6377

Regarding secondary career and technical education.

(SUBSTITUTED FOR - SEE 2ND SUB)

Seeks to increase the quality and rigor of secondary career and technical education, improve links to postsecondary education, encourage and facilitate academic instruction through career and technical courses, and expand access to and awareness of the opportunities offered by high quality career and technical education.

**HB 2826-S** by House Committee on Education (originally sponsored by Representatives Priest, Ormsby, Sullivan, Haigh, Fromhold, Quall, Wallace, Kenney, Anderson, Conway, Haler, Wood, Roach, and Simpson; by request of Superintendent of Public Instruction)

(SUBSTITUTED FOR - SEE 2ND SUB)

Seeks to increase the quality and rigor of secondary career and technical education, improve links to postsecondary education, encourage and facilitate academic instruction through career and technical courses, and expand access to and awareness of the opportunities offered by high quality career and technical education.

Requires the office of the superintendent of public instruction to develop a schedule for career and technical education plan reapproval that includes an abbreviated review process for

programs reapproved after 2005, but before the effective date of this act.

Requires the development of a list of statewide high-demand programs for secondary career and technical education.

Requires community and technical colleges to create agreements with high schools and skill centers to offer dual high school and college credit for secondary career and technical courses.

Requires the office of the superintendent of public instruction to provide professional development, technical assistance, and guidance for school districts to develop career and technical course equivalencies that also qualify as advanced placement courses.

Creates, subject to funds appropriated for this purpose, the secondary integrated basic education and skills training (I-BEST) pilot project to integrate career and technical instruction, core academic and basic skills, and English as a second language, for secondary school students with the objective to determine whether and how a successful community and technical college instructional model can be adapted and implemented at a secondary school level.

Requires the office of the superintendent of public instruction to develop and conduct an ongoing campaign for career and technical education to increase awareness among teachers, counselors, students, parents, principals, school administrators, and the general public about the opportunities offered by rigorous career and technical education programs.

Creates, subject to funds appropriated for this purpose, the in-demand scholars program to replicate a successful pilot program to attract high school students into high-demand fields that require one to three years of postsecondary education, including apprenticeships.

**HB 2835** by Representatives Kagi, Roberts, Loomis, Morrell, Kenney, and Haigh; by request of Department of Social and Health Services

Companion Bill: 6436

Requiring federal name-based criminal history record checks when a child is placed in out-of-home care in an emergency situation.

(DIGEST AS ENACTED)

Finds that the safety of children in foster care depends upon receipt of comprehensive, accurate, and timely information about the background of prospective foster parents.

Provides that during an emergency situation when a child must be placed in out-of-home care due to the absence of appropriate parents or custodians, the department of social and health services shall request a federal name-based criminal history record check of each adult residing in the home of the potential placement resource.

VETO MESSAGE ON HB 2835

March 28, 2008

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 4, House Bill 2835 entitled:

"AN ACT Relating to requiring federal name-based criminal history record checks when a child is placed in out-of-home care in an emergency situation."

Section 4 is an emergency clause providing the bill with an immediate effective date. The Federal Bureau of Investigation has notified the State that it will extend provisional access to its name/descriptor criminal background check database until this bill takes effect. An emergency clause is therefore unnecessary.

For this reason, I have vetoed Section 4 of House Bill 2835.

With the exception of Section 4, House Bill 2835 is approved.

Respectfully submitted,  
Christine Gregoire  
Governor

VETO MESSAGE ON E2SHB 2844

April 1, 2008

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 1, Engrossed Second Substitute House Bill 2844 entitled:

"AN ACT Relating to preventing air and water pollution through urban forestry partnerships."

Section 1 is an unnecessarily prescriptive and detailed intent section. For this reason, I have vetoed Section 1 of Engrossed Second Substitute House Bill 2844

I must note that the legislative budget only partially funds this bill. The Department of Community Trade and Economic Development (CTED) received funds for developing the Evergreen Communities grant program, model ordinances and plans. The Department of Natural Resources (DNR) is partially funded to provide CTED with technical expertise, to develop an urban forest inventory implementation plan, and to conduct two pilot inventories.

The highest priorities for these limited dollars are for DNR to (1) provide technical expertise to CTED and local governments, (2) develop the urban forest inventory implementation plan -- focusing on the use of existing data and current inventory technologies, and (3) then to begin the pilot projects.

Conducting the community and urban forest inventories statewide is premature until DNR develops and tests an efficient inventory process. Funding for subsequent inventories should be considered as a separate policy decision in the future.

With the exception of Section 1, Engrossed Second Substitute House Bill 2844 is approved.

Respectfully submitted,  
Christine Gregoire  
Governor

VETO MESSAGE ON ESHB 2878

March 25, 2008

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 102(6), 206(6), 212(2), 224(12), 224(14), 306(16), 306(17), 407(12), and 602, Engrossed Substitute House Bill 2878 entitled:

"AN ACT Relating to transportation funding and appropriations."

**Section 102(6), page 3, Office of Financial Management -- Development of Future Budget Proposals**

I share the Legislature's expectation that the Office of Financial Management will work with the Legislature so that future budget proposals reflect criteria for performance excellence, include measures of earned value, and are aligned with the state's transportation goals. Even though I am vetoing Section 102(6), I direct the Office of Financial Management to continue its work with the Legislature and the state's transportation agencies to align budget proposals with the state's transportation goals and performance measure.

**Section 206(6), page 10, Transportation Commission -- Cost Reductions for Toll Operations**

I appreciate the need to carefully control the costs associated with tolling so we will have efficient and effective tolling operations. Accountability regarding the use of toll revenue is essential. This proviso requires the Transportation Commission -- not the Department of Transportation -- to develop benchmarks and recommendations to reduce and control tolling operation costs. The Transportation Commission's role is to establish toll rates while the Department of Transportation's role is to evaluate and direct operations.

Although I am vetoing Section 206(6), the Office of Financial Management will work with the Department of Transportation, the Transportation Commission and others to evaluate toll operating costs on the Tacoma Narrows Bridge and SR 167 in comparison to other tolled facilities across the country to develop toll operating cost benchmarks. In addition, tolling operations issues will be examined in future Government Management Accountability & Performance sessions.

**Section 212(2), page 18, Washington State Department of Transportation -- Cost Reductions for Toll Operations**

The proviso requires the Department of Transportation to develop incentives to reduce and control tolling operations costs, and to provide a report to the Transportation Commission. As a cabinet agency, the department is accountable to the Governor and it is not the role of the Transportation Commission to evaluate and direct the department's operations.

Although I am vetoing Section 212(2), the Department of Transportation will provide a report on incentives to reduce toll operating costs to the Office of Financial Management and the Legislature by December 1, 2008.

**Section 224(12), pages 38-39, Washington State Department of Transportation -- Ferries -- Pilot Car Sharing Program in San Juan Islands**

The proviso states that Washington State Ferries may investigate implementation of a car-sharing program in the San Juan Islands but also provides that Washington State Ferries shall submit a report to the Legislature by November 15, 2008. Because no funding is provided for the research and report, I am vetoing Section 224(12) but want the Department of Transportation's Commute Trip Reduction program to examine how a car-sharing program could work in the San Juan Islands.

**Section 224(14), page 39, Washington State Department of Transportation -- Ferries -- Summer Schedule on Port Townsend/Keystone Route**

The proviso includes an appropriation of \$357,000 for two additional sailings per day on the Port Townsend/Keystone route from May 19, 2008 to September 8, 2008. Unfortunately, these dates do not correspond with the already established summer sailing schedule for the Washington State Ferries that runs from June 15 to September 20. As a result, this will add operating costs beyond the \$357,000 that is appropriated.

Although I am vetoing Section 224(14), the Department of Transportation and the Office of Financial Management will work with House and Senate Transportation Committee chairs to find options that fit within the amount of money provided and that also can meet the intent of the Legislature to provide additional service during the summer on this route.

**Section 306(16), page 50, Transportation Account 2003 bond proceed appropriation**

The proviso includes appropriation authority to spend up to \$825,000,000 in proceeds from the sale of 2003 nickel account bonds. Due to a technical error, this amount excluded the extra money the state gets from bond premiums which can limit the funds available to support important projects already underway. Therefore, I am vetoing this section so that the ending fund balance in the nickel account will not be adversely affected.

**Section 306(17), page 50, Transportation Partnership Account 2003 bond proceed appropriation**

Similar to section 306(16), this proviso includes appropriation authority to spend up to \$740,000,000 in proceeds from the sale of transportation partnership account bonds but this amount also excluded the bond premiums. Because this can adversely impact the ending fund balance in the transportation partnership account, I am vetoing this section.

**Section 407(12), page 72, Administrative Transfer of Federal Funds**

An administrative transfer of million in federal funds is made from the multimodal account-federal to the transportation infrastructure account-federal. The State Treasurer does not transfer federal funds within the Department of Transportation programs. Transfers of this sort are done internally at the Department of Transportation, so I am vetoing this section.

**Section 602, page 76, Government Accounting Standards Board Asset Valuation**

The Department of Transportation is already in full compliance with Government Accounting Standards Board (GASB) Statement 34 as it pertains to asset valuation of the state's highway systems, including the maintenance of an infrastructure asset inventory and regular assessments of the condition of assets. This critical information is already used to support strategic long-term investment decision-making in transportation capital project management and to set appropriate levels of asset maintenance and preservation.

Section 602 requires the Department to exceed the requirements of GASB 34 but does not provide additional funding. I vetoed similar language in 2005 and in 2007, and am vetoing this section.

For these reasons, I have vetoed Sections 102(6), 206(6), 212(2), 224(12), 224(14), 306(16), 306(17), 407(12), and 602 of Engrossed Substitute House Bill 2878.

With the exception of Sections 102(6), 206(6), 212(2), 224(12), 224(14), 306(16), 306(17), 407(12) and 602, Engrossed Substitute House Bill 2878 is approved.

Respectfully submitted,  
Christine Gregoire  
Governor

**HB 3003** by Representatives Cody, Dickerson, McCoy,  
 Hinkle, Walsh, Pettigrew, Kenney, Linville, and  
 Kelley; by request of Department of Social and Health Services  
 Companion Bill: 6628

Clarifying the state's ability to recover from defendants the cost  
 of mental health treatment provided at state hospitals.

Finds that there is unintended ambiguity about the authority  
 of the secretary of the department of social and health services  
 under the criminal procedure act to seek reimbursement from  
 defendants who are committed for competency evaluation and  
 mental health treatment, and the general provision prohibiting a  
 criminal defendant from being charged for prosecution related  
 costs prior to conviction.

Intends for treatment costs to be the responsibility of the  
 defendant's insurers and ultimately the defendant based on their  
 ability to pay, and it is permissible for the state and other  
 governmental units to assess financial liability on defendants who  
 become patients and receive medical and mental health care.

Provides that the intent of this act is to clarify this  
 reimbursement requirement.

VETO MESSAGE ON E2SHB 3186

April 1, 2008

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 29 and 30, Engrossed Second Substitute House Bill 3186 entitled:

"AN ACT Relating to beach management districts."

This bill allows cities and counties to create Beach Management Districts, in order to raise funds for the improvement and maintenance of beaches with their boundaries.

Notwithstanding the existing authority provided to Lake Management Districts, Section 29 directs the Department of Ecology to provide technical assistance to Beach Management Districts in consultation with the Puget Sound Partnership. Since the Puget Sound Partnership is developing its first action agenda, the activities contemplated in Section 29 should be considered in relation to all other priorities for the clean up of Puget Sound.

Section 30 is a null and void clause and is unneeded.

For these reasons, I have vetoed Sections 29 and 30 of Engrossed Second Substitute House Bill 3186.

With the exception of Sections 29 and 30, Engrossed Second Substitute House Bill 3186 is approved.

Respectfully submitted,  
Christine Gregoire  
Governor
